SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and §3.25(f) of the Commission's rules of practice (16 CFR 3.25(f)), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and provisionally accepted by the Commission, has been placed on the public record, together with material submitted to the Commission that is not exempt from public disclosure under the Freedom of Information Act, for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with §4.9(b)(14) of the Commission's rules of practice (16 CFR 4.9(b)(14)).

[Docket No. 9073]

FORD MOTOR CO. ET AL.

AGREEMENT CONTAINING CONSENT ORDER

In the matter of Ford Motor Company, Ford Motor Credit Company, and Francis Ford, Inc., corporations.

This agreement, by and between (1) Ford Motor Company and Ford Motor Credit Company, corporations, respondents in a proceeding initiated by the Federal Trade Commission, by their duly authorized officers and their counsel and (2) counsel for the Federal Trade Commission, is entered into in accordance with the Commission's Rules governing consent order procedures. Francis Ford, Inc. is not a party to this Agreement.

1. Respondents Ford Motor Company and Ford Motor Credit Company ("Ford respondents") are Delaware corporations with their offices and principal places of business at The American Road, Dearborn, Michigan 48121. Ford Motor Credit Company is a wholly owned subsidiary of Ford Motor Company.

2. The Ford respondents have been served with a copy of the Complaint issued by the Commission in this proceeding charging them with violations of Section 5 of the Federal Trade Commission Act, as amended, and have filed an answer denying the violations of law alleged in the Complaint.

3. The Ford respondents admit the jurisdictional facts set forth in Paragraph Three of the Complaint, and that the Federal Trade Commission has jurisdiction of the subject matter of this proceeding and of the Ford respondents and has jurisdiction to issue the Order contained in this Agreement ("Order").

4. The Ford respondents waive:

a. Any further procedural steps;

b. The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and

c. All rights to seek judicial review or otherwise to challenge or contest the validity of the Order, but do not waive the right to seek judicial review or otherwise to challenge or contest the validity of any order issued pursuant to Part VII of the Order or §3.72(b) of the Commission's rules of practice.

Provided, however, That such waivers shall cease to be effective if the Commission rejects this Agreement or returns this proceeding to adjudication as to the Ford respondents. The waiver of procedural steps shall not apply to any procedural actions taken by the Commission (with respect to this Agreement, and prior to final acceptance) other than those actions described in §3.25 of the Commission's rules of practice.

5. This Agreement shall not become a part of the official record of this proceeding unless and until it is accepted by the Commission. If this Agreement is accepted by the Commission, it will be placed on the public record together with the Complaint for a period of 60 days and information in respect thereto will be publicly released. Such acceptance may be withdrawn by the Commission if comments or views submitted to the Commission disclose facts or considerations indicating that the Order is inappropriate, improper or inadequate.

6. This Agreement is for settlement purposes only and does not constitute an admission by the Ford respondents that the law has been violated as alleged in the Complaint.

7. This Agreement contemplates that if it is accepted by the Commission and such acceptance is not subsequently withdrawn by the Commission pursuant to §3.25(f) of the rules of practice, the Commission may, without further notice to the Ford respondents, issue its Decision containing the Order in disposition of the proceeding as to the Ford respondents and make information public with respect thereto. Then so entered, the Order shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The Order shall become final upon service. Mailing the Decision and Order to the Ford respondents' address stated in this Agreement shall constitute service. The Ford respondents waive any rights they may have to any other manner of service. The Complaint and the Initial Compliance Report referred to in Paragraph 9 below may be used in construing the terms of the Order, and no agreement, understanding, representation or interpretation not contained in the Order or in this Agreement may be used to vary or contradict the terms of the Order.

8. By its final acceptance of this Agreement, the Commission waives its right to commence a proceeding against either of the Ford respondents seeking restitution or other consumer redress under sections 5 or 19(a)(2) of the Federal Trade Commission Act, as amended, with respect to the acts and practices alleged in Complaint Paragraphs Nine, Ten or Eleven arising at any time prior to the date Ford Motor Company is required to submit the final sample audit report provided for in Subparagraph IV.I.2 of the Order, except with regard to acts, practices, or omissions of the Ford respondents (a) which occur after the effective date of the Order and are violations of the Order, (b) which occur after the effective date of a Trade Regulation Rule and are violations of that Rule, or (c) which occur after entry of an order by the Commission setting aside the Order.

9. The Ford respondents submit with this Agreement an Initial Compliance Report setting forth details of the manner in which they will comply with the Order. Final acceptance of this Agreement shall constitute acceptance of the Initial Compliance Report and shall also constitute advice under §3.61(d) of the Rules of Practice that implementation of the Initial Compliance Report will constitute compliance with applicable portions of the Order until such time as the Commission seeks additional evidence of compliance.

10. The Ford respondents have read the Complaint and Order and understand that after the Order becomes final (1) they may be required to file additional compliance reports showing they have complied fully with the Order, and (2) they may be liable for a civil penalty in the amount provided by law for each violation of the Order.

ORDER

I.

It is ordered, That for purposes of this Order the following definitions shall apply:

A. "Ford respondents" means Ford Motor Company ("Ford") and Ford Motor Credit Company ("Ford Credit"), corporations. It shall not refer to Francis Ford, Inc. References to either or both of the Ford respondents shall include their successors, assignees, officers, agents, representatives and employees, as well as any corporations, subsidiaries, divisions, or devices through which they act in the United States. *Provided, however,* That references to Ford shall not include Ford Credit and references to either or both of the Ford respondents shall not include dealerships.

B. "Vehicle" means a passenger car or a truck with a gross vehicle weight less than 26,000 pounds (11,794 kilograms).

C. "Dealership" or "dealer" means a corporation, partnership, or proprietorship that is a Ford, Lincoln or Mercury vehicle dealership but excludes truck dealerships whose principal business is the sale of trucks with a gross vehicle weight more than 8,000 pounds (3,629 kilograms).

D. "Retail sale" means the installment credit sale of a vehicle, other than for purposes of resale (e.g., sale to dealers or wholesalers), lease or rental, to a purchaser who is not a fleet purchaser.

V 4 3 / 2 2 7 N 0 2 4 7 8

E. "Repurchase financing" means the financing of a retail sale subject to an agreement between a financing institution and a dealership (generally called a "repurchase," "recourse," or "guaranty" agreement) which provides that the dealership is obligated to pay off the outstanding obligation to the financing institution after receiving a transfer of the repossessed vehicle.

F. "Repurchase dealership" or "repurchase dealer" means a dealership that engages more than occasionally in repurchase financing transactions.

G. "Equity dealership" means a dealership in which Ford has a controlling equity interest, holds 50 percent or more of the voting stock, or is entitled to elect 50 percent or more of the board of directors.

H. "Liquidating dealership" means an equity dealership that has ceased or is in the process of ceasing normal operation of a dealership and whose business has been or is being wound up by Ford or under Ford's supervision. It shall not mean a dealership not previously an equity dealership whose assets come into the possession or control of either of the Ford respondents by virtue of default on or compromise of a debt obligation.

I. "Financing customer" means a purchaser of a vehicle from a dealership by means of a retail installment contract.

J. "Disposition" or "dispose" refers to a dealership's sale or lease of a repossessed vehicle previously sold by that dealership and returned to it by or for a financing institution pursuant to a repurchase agreement. Such sale or lease includes only transaction with an independent third party; i.e., it does not include a sale or lease to the financing institution, the dealership or their representatives, or to a person or firm liable under a guaranty, endorsement, or repurchase agreement covering the repossessed vehicle. Disposition or dispose shall not refer to the repurchase of a repossessed vehicle by a dealership pursuant to a repurchase agreement, or refer to a sale subsequent to a judicial sale in Louisiana.

K. "Proceeds" means whatever is received upon disposition of the repossessed vehicle, but exclusive of sales taxes, service contracts or separately priced warranties.

L. "Allowable expenses" means only actual out-of-pocket expenses incurred as the result of a repossession. The expenses must be reasonable and directly resulting from the repossessing, holding, preparing for sale and reselling of the vehicle, and not otherwise reimbursed to the dealership. They are limited to the following charges (if allowable under applicable State law):

1. Expenses paid to others, who are not employees of the dealership or of the financing institution that financed the vehicle, for repossessing, towing or transporting the vehicle;

2. Filing fees, court costs, cost of bonds, fees paid to a sheriff or similar officer, and fees and expenses paid to an attorney who is not an employee of the dealership or the financing institution for obtaining possession of or title to the vehicle;

3. Fees paid to others to obtain title to the vehicle, to obtain legally required inspection of the vehicle, or to register the vehicle;

4. Expenses paid to others for storage (excluding a charge for storage at facilities operated by the dealership);

5. Labor and associated parts and supplies furnished by the dealership for the repair, reconditioning or maintenance of the vehicle in preparation for resale, computed at dealer cost (as defined in the Initial Compliance Report) with appropriate adjustments for any insurance or warranty recovery;

6. Amounts paid to others for labor and associated parts and supplies purchased for the repair, reconditioning or maintenance of the vehicle in preparation for resale;

7. Sales commissions paid for actual participation in the sale of the particular vehicle, computed at a rate no higher than for a similar, nonrepossessed vehicle and excluding portions of commissions attributable to the selling of service contracts, separately priced warranties, financing or insurance;

8. Expenses of advertisements that specifically mention the particular vehicle, including a proportional share of any advertisement that also mentions other vehicles;

9. Auctioneer expenses and fees paid; and

10. Expenses for telephone calls and postage incurred in arranging for the repossession, holding, transportation, reconditioning and resale of the vehicle.

M. "Contract balance" means (1) the unpaid balance as of the date of repossession less applicable finance charge and insurance premium rebates deducted by the financing institution, plus (2) other charges authorized by contract or law and actually assessed prior to repossession.

N. "Surplus" means the excess of (1) the proceeds plus applicable insurance or warranty reimbursements received by the dealership or financing institution plus any other applicable rebates or credits not deducted by the financing institution, over (2) the contract balance, allowable expenses, and amounts paid to discharge any security interest provided for by law.

O. "Pay" or "paid," in reference to payment of a surplus, means a reasonable attempt to pay in accordance with the standards set forth in the Initial Compliance Report.

II.

It is further ordered, That Ford shall provide to all dealers within 60 days of the effective date of this Order, and to each new dealer within 30 days of entering into a sales and service agreement, a system for determining the existence of surpluses and for accounting for surpluses and for any deficiencies sought.

A. This system (hereinafter the "accounting system") shall be made a part of the Ford Manual of Dealer Accounting Procedures referred to in the various dealer sales and service agreements between Ford and its dealers. Such agreements provide that this manual is to be followed in dealership operations. Ford shall not change the sales and service agreements so as to affect the status of the accounting system portion of the Manual without 60 days notice to the Commission and shall not subsequently so change the sales and service agreements so as to affect the status of the Manual if the Commission, within that time period, advises Ford that it objects to the change. The accounting system shall also be incorporated into any subsequent set of compendium of comparable instructions.

B. The accounting system shall include a standardized form ("Ford accounting form") for dealers' use in determining the existence and amount of surpluses and of any deficiencies sought, and in recording payment of each surplus in accordance with the provisions of Paragraph II.C below.

C. The accounting system shall provide that:

1. Each surplus is to be determined according to Paragraphs I.J through I.N of this Order and paid to the repurchase financing customer within 45 days of disposition;

2. Expenses other than allowable expenses are not to be deducted in calculating surpluses and deficiencies sought;

3. Dispositions are to commercially reasonable, which in practice means that the dealer should make the same efforts to obtain the best available price for a repossessed vehicle as would be made for a comparable used vehicle except that a dealer is not required to offer a warranty without extra charge even though such warranties are provided on other used vehicles;

4. If any rebate owing to the repurchase financing customer's account has not been received at the time the Ford accounting form is completed, such rebate is to be applied for promptly;

5. If any rebate is received after completion of the Ford accounting form, any surplus or deficiency is to be redetermined and any remaining surplus paid within 45 days of disposition or within 10 days of receiving the rebate, whichever is later;

6. The Ford accounting form is to be prepared by the dealer for each disposition of a repossessed vehicle and:

a. Is to set forth the calculation of each surplus, and of each deficiency upon which collection is attempted;

b. Is to be certified by a person authorized to sign retail installment contracts on behalf of the dealership;

c. A copy of the form is to be sent with the surplus payment to each repurchase financing customer to whom a surplus is paid and to each repurchase financing customer from whom a deficiency is sought; and

d. Is to be retained by the dealer, together with all relevant underlying documentation, for at least two years from the date of disposition;

7. Dealers are not to obtain waivers of surplus or redemption rights from repurchase financing customers.

D. The accounting system shall state that failure to adhere to the standards of Subparagraphs II.C.1 through II.C.7 or to account properly to customers for surpluses will expose the dealer to legal action by the Federal Trade Commission and/or consumers.

E. Ford shall give the Federal Trade Commission 30 days advance notice of any change in its manner and form of carrying out the requirements of Part II of this Order.

F. The accounting system shall not apply to sales of repossessed vehicles subscquent to judicial sales in Louisiana.

G. The Federal Trade Commission has proposed a Trade Regulation Rule that defines duties involved in disposing of a repossessed vehicle differently from the method described in subparagraph II.C.3 above. Said Subparagraph is not to be considered a ratification or acceptance by the Commission of that method of disposition.

III.

A. *It is further ordered*, That the Ford respondents:

1. Shall, within 90 days of the effective date of this Order, develop and provide to every repurchase dealer detailed educational materials and training to carry out the purposes of Part II of this Order and of Part VI (insofar as it relates to reinstatement and redemption rights), as further described in the Initial Compliance Report.

2. Shall, commencing no later than 180 days after the effective date of this Order, include detailed information on all pertinent aspects of Part II of this Order and Part VI (insofar as it relates to reinstatement and redemption rights) in all appropriate seminars, correspondence courses and other training materials offered to dealers.

3. Shall provide no instructions to dealers inconsistent with this Order.

B. *It is further ordered*, That Ford:

1. Shall, within 60 days of the effective date of this Order, send to each repurchase dealer a letter which contains information to the following effect, with nothing to the contrary or in mitigation thereof:

a. State law requires that any surplus generated on the disposition of a repossessed vehicle must be returned to the defaulting customer;

b. The duty to pay surpluses has existed for many years and the company urges dealers to pay all surpluses on repossessed vehicles disposed of prior to the date of the letter, as well as those arising later;

c. Except in California and Louisiana, State law provides that if a dealer does not pay a surplus owed, the defaulting customer has the right to recover a penalty equal to "an amount not less than the credit service charge plus 10 percent of the principal amount of the debt or the time price differential plus 10 percent of the cash price";

d. If a customer to whom a surplus is owed has been reported by the dealer or its agent to a credit reporting agency as owing a deficiency, the dealer should promptly advise such agency of the correct facts; and

e. The Federal Trade Commission has issued complaints against three automobile dealers charging that their failure to pay past surpluses violated Federal law.

2. Shall include in the above mailing a copy of this Order, together with the Commission's published Analysis of Consent Order.

3. Shall, within 90 days of the effective date of this Order, develop and provide to all Ford Dealer Development branch personnel (other than clerical employees) educational materials and training to carry out the purposes of Parts II and V of this Order, as further described in the Initial Compliance Report.

4. Shall provide to authorized representatives of the Federal Trade Commission upon 30 days written notice a set of mailing labels addressed to the president of each dealership, together with a list containing the same information and a certification that the labels and list are complete.

C. *It is further ordered*, That Ford Credit:

1. Shall, within 60 days of the effective date of this Order, send to each dealer to which Ford Credit has returned a vehicle, pursuant to a repurchase agreement, that was repossessed since May 1, 1974:

a. A letter containing the same information required by Subparagraph III.B.1 above; and

b. A list containing the following data for each Ford Credit repossession returned to the dealer between May 1, 1974 and the effective date of this Order: Name, address and account number of the financing customer, net payoff and date of repossession of the vehicle.

2. Shall, within 90 days of the effective date of this Order, develop and provide to all Ford Credit branch personnel involved in repurchase financing transactions (other than clerical employees) educational materials and training to carry out the purposes of Parts II and VI of this Order, as further described in the Initial Compliance Report.

IV.

It is further ordered, That:

A. To determine whether dealers are correctly calculating and paying surpluses, Ford shall conduct an audit ("initial sample audit") of repurchase dealers. This audit shall:

1. Consist of 100 repurchase dealers randomly selected pursuant to a sampling method as set forth in the Initial Compliance Report accepted by the Federal Trade Commission;

2. Begin within sixteen months after the effective date of this Order and be completed and reported to the Federal Trade Commission in accordance with Subparagraph IV.I.2 below within the next eleven months, exclusive of the month of December, as set forth in the Initial Compliance Report.

B. An audit conducted pursuant to Paragraph IV.A or IV.C shall be deemed to demonstrate dealer compliance if less than 1.5 percent of the dispositions audited are noncomplying transactions. A "noncomplying transaction," as further described in the Initial Compliance Report, means a disposition that results in a surplus not correctly calculated and paid in full to the financing customer.

C. In the event the initial sample audit does not demonstrate dealer compliance Ford shall conduct further audits ("follow-up sample audits"), each to consist of 85 dealers randomly selected pursuant to the procedure and schedule described in the Initial Compliance Report, until an audit demonstrating dealer compliance has been attained or a total of four follow-up sample audits have been conducted, whichever occurs first.

D. Within thirty days after a determination by Ford or advice by the Commission's representatives that the initial sample audit or a follow-up sample audit does not demonstrate dealer compliance, Ford shall supplement the accounting system to provide that each dealer submit to Ford:

1. No later than six months after the above advice or determination, the completed Ford accounting forms described in Paragraph II.B of this Order for all repurchase financing repossessions disposed of by the dealer that were returned to the dealer during the audit period covered by the prior sample audit; and

2. With each of the above submissions, a signed statement that the Ford accounting forms submitted include all repurchase financing repossessions disposed of by the dealer that were returned to the dealer during the audit period or, alternatively, that there were no such repossessions.

No submission shall be necessary after the last follow-up sample audit.

E. Ford shall review all Ford accounting forms submitted to it pursuant to paragraph IV.D within 90 days of their receipt. This review shall be conducted by trained clerical personnel in accordance with the Initial Compliance Report, but Ford shall not be required to undertake a detailed analysis of these Ford accounting forms and shall not be deemed to have violated this Paragraph if, despite good faith efforts, there are errors or omissions in that review.

F. Three years after completion of the last audit required pursuant to Paragraph IV.A or IV.C, Ford shall conduct a "final sample audit" of 85 randomly selected dealers pursuant to the procedure and schedule described in the Initial Compliance Report.

G. In addition to the audits provided for above, Ford shall conduct a supplemental audit of each dealership:

1. Found by Ford, in the immediately preceding initial sample audit or follow-up sample audit of the dealership, to have had noncomplying transactions as set forth in the Initial Compliance Report;

2. Which failed to submit either the Ford accounting forms required by Paragraph IV.D or a signed statement that no repurchase financing repossessions were returned to the dealership during the relevant period;

3. Which failed to indicate payment of a surplus identified on any Ford accounting form submitted pursuant to Paragraph IV.D;

4. Which failed more than occasionally, as further described in the Initial Compliance Report, to sign the certification on Ford accounting forms submitted pursuant to Paragraph IV.D; or

5. Found, based on review of the Ford accounting forms submitted pursuant to Paragraph IV.D, to have deducted expenses other than allowable expenses.

Each supplemental audit required by this Paragraph shall be completed within six months of detection of the event which triggers it and shall be conducted pursuant to the procedure set forth in the Initial Compliance Report.

H. Within sixty days after completion of each audit of a dealership provided for in Paragraphs IV.A, C, F and G above, Ford shall:

1. Submit to the Federal Trade Commission a summary report of the audit for that dealership, containing: (a) The name and address of the dealership; (b) the number of dispositions examined; (c) the number and dollar value of surpluses properly calculated and paid; (d) the number and dollar value of surpluses as to which attempts to pay were unsuccessful; (e) the number of repossessed vehicles sold at wholesale; (f) the number of noncomplying transactions and, for each such transaction, the amount owed, copies of the audit worksheets, the Ford accounting form and business records of the dealership and/or financing institution sufficient to establish such noncompliance; and (g) a certification by the auditor attesting to his or her findings concerning each noncomplying transaction, including the reason for noncompliance and any explanation provided by the dealership; and

2. For each dealership found to have noncomplying transactions as set forth in the Initial Compliance Report, commence further dealership training to correct such noncompliance.

I. The audits provided for in Paragraphs IV.A, C, and F of this Order shall conform to Subparagraphs 1-7 below. The audits conducted pursuant to Paragraph IV.G shall conform to Subparagraphs 3-7 below. The audits and report submissions provided for in Paragraphs IV.C, D, E and G shall also conform to Subparagraph 8 below.

I. The Federal Trade Commission shall be given reasonable advance notice of the time of random selection and shall have the opportunity to have its representatives ob-

serve and review the random selection process.

2. Ford shall provide to the Commission a summary report of each entire sample audit, within 60 days after completion of such audit, specifying (a) the name and address of each dealership included, (b) the total number of dispositions examined, (c) the total number and dollar value of noncomplying transactions, (d) the number and dollar value of surpluses properly calculated and paid, (e) the number and dollar value of surpluses as to which attempts to pay were unsuccessful, and (f) the number of repossessed vehicles sold at wholesale.

3. For each dealer audited, each repurchase financing repossession returned to the dealer during the audit period shall be examined to determine whether it is a noncomplying transaction.

4. The audit shall be conducted by the General Auditor's Office of Ford Motor Company (or by other qualified auditors designated by Ford), in accordance with the procedure described in the Initial Compliance Report.

5. The Ford respondents shall direct their personnel (including retained consultants or experts) that they are not to inform dealers or other third parties of the audit procedure, the sample period, the method of drawing the sample, or the identity of dealers selected for audit except to the extent described in this Order, and the Ford respondents shall take all reasonable measures to insure that their personnel adhere to this direction.

6. No dealer selected for audit shall be given more than ten business days advance notice of the scheduled audit.

7. Upon request by the Commission's representatives, Ford shall, within 30 days, submit copies of the auditors' worksheets and summary comments on any dealership audited.

8. In particular circumstances of dealer noncompliance, the schedule and scope of audits and report submissions shall be modified as described in the Initial Compliance Report.

V

It is further ordered, That Ford:

A. Shall require each Ford employee who is a director of an equity dealership to vote for resolutions so that each such dealership:

1. Within 60 days of the effective date of this Order or within 60 days of initiating operation as a dealership, whichever is later, adopts and maintains the accounting system described in Part II of this Order;

2. Pays all surpluses (*Provided, however*, That a dealership's failure to pay a surplus which has not come to the attention of any Ford employee whose primary responsibilities concern equity dealerships shall not be deemed a violation of this Subparagraph); and

3. Has an annual examination of its documents by a certified public accounting firm, for each year up to and including the year that the final sample audit is completed, to determine whether the dealership is following the accounting system; such examination shall (a) include an inspection of underlying documents supporting entries on the Ford accounting form (described in Paragraph II.B of this Order) for all repossessed vehicles returned to the dealership during the year covered by the examination and (b) be followed by a report to the dealership board of directors regarding any noncomplying transactions.

B. Shall require that, at every accounting review of an equity dealership, but in any event at least once every calendar year commencing after the effective date of this Order, Ford's employees shall randomly select and examine underlying documents supporting entries on the Ford accounting form for at least one-fourth of the repossessed vehicles returned to the dealership since the previous such review or since January 1, 1978, whichever is later. If the examination reveals that the dealership has any noncomplying transactions, then:

1. Ford's employees shall examine underlying documents for the remaining three-fourths of the repossessions and report all noncomplying transactions to the dealership's board of directors; and

2. Ford employees who are members of such board of directors shall institute appropriate measures to correct the noncompliance.

C. Shall ascertain for each liquidating dealership whether any unpaid surpluses have arisen since the last audit by an independent certified public accounting firm, and pay each such surplus.

D. Shall, within 60 days of the effective date of the Order, with respect to repossessed vehicles returned between May 1, 1974 and December 31, 1977 to dealerships which are equity dealerships as of the effective date of this Order, and with respect to repossessed vehicles returned between May 1, 1974 and December 31, 1977 to liquidating dealerships, establish to the reasonable satisfaction of the Commission, ad described in the Initial Compliance Report, that:

1. All surpluses have been paid; and

2. In each instance where a customer entitled to receive a surplus pursuant to Subparagraph V.D.1 above had been previously reported by the dealership or its agent to a credit reporting agency as owing a deficiency, such agency has been subsequently advised of the correct facts.

VI

It is further ordered, That Ford Credit:

A. Shall incorporate provisions to the following effect into the "Retail Plan" section of its "Automotive Finance Plans for Ford Motor Company Dealers," within 60 days of the effective date of this Order, and into any subsequent edition of that document or any comparable successor document:

1. Dealers are to permit redemption by the customer whose vehicle has been repossessed, at any time until there is a binding agreement for disposition;

2. Dealers are to permit redemption in accordance with the post-repossession notice sent by Ford Credit to the customer;

3. Dealers are to determine whether a surplus exists on a repurchase financing repossession according to the accounting system described in Part II of this Order;

4. In determining surpluses and deficiences, dealers are not to deduct expenses other than allowable expenses;

5. Dealers are to account for and pay each surplus within 45 days of disposition.

B. Shall, as soon as practicable, but no later than twelve months after the effective date of this Order, develop and distribute to all dealers who use Ford Credit's form of retail installment contract, revised Ford Credit retail installment contract forms that include a clear, concise statement in lay language that, in the event of repossession:

1. No expenses other than reasonable expenses incurred as a direct result of repossessing (including, where permitted, attorney's fees and court costs), holding, preparing for sale and selling the vehicle may be deducted from the proceeds in determining a surplus or deficiency; and

2. Any surplus realized on the resale or other disposition of the vehicle is to be paid to the customer.

C. Shall direct its branch offices that, commencing two weeks after the distribution to a dealership of the revised Ford Credit retail installment contract forms described in Paragraph VI.B, they are not to purchase from that dealership Ford Credit forms of retail installment contracts that are not on the revised forms and shall, for a period of two years thereafter, periodically examine its branch office files, in accordance with its usual monitoring procedures, to determine whether prior retail installment contract forms are being used, and, if so, shall institute appropriate corrective action.

D. Shall, commencing 75 days after the effective date of this Order, include the following information in clear lay language in at least one notice sent prior to repossession to every Ford Credit repurchase financing customer to whom a notice of intent to repossess is sent:

1. The total amount past due at the time the notice is mailed;

2. In transactions where the customer is entitled to reinstatement of the contract, the customer will have an absolute right to such reinstatement and to regain possession of the vehicle by paying all past due installments and by paying such other amounts and fulfilling such other conditions as provided by law;

3. That the customer will have an absolute right to redeem the vehicle at any time prior to a binding agreement for its disposition, and that this right can be exercised by paying the contract balance plus all expenses incurred as a direct result of repossessing, holding and preparing the vehicle for sale;

4. The date or interval of time prior to which the vehicle will not be sold;

5. That if the vehicle is not redeemed or the contract reinstated, the customer will be entitled to a refund of any surplus within 45 days of disposition;

6. That failure to account for and refund a surplus will give the customer a right to sue for the amount of the surplus and, except in California and Louisiana, for statutory penalties as provided by state law.

E. Shall, within 60 days after the effective date of this Order, establish and follow a procedure for uniformly sending a written notice ("post-repossession notice") to Ford Credit financing customers as soon as practicable after repossession. Ford Credit shall periodically examine its branches' files, in accordance with its usual monitoring procedures, to determine whether the post-repossession notices have been and are being sent, and shall institute appropriate actions to assure that this procedure is adhered to. In the event of any charge of failure to follow the procedure for uniformly sending post-repossession notices, Ford Credit shall not be deemed in violation unless it is shown that Ford Credit has failed to send such notices at least ten days prior to the earliest resale date stated pursuant to Subparagraph VI.E.4 below on more than five percent of the repossessions of each of three Ford Credit branch offices in any twelve-month period. The post-repossession notice shall specify in clear, lay language:

1. The name, address and telephone number of the dealership to which the vehicle has been or will be returned for disposition, if applicable, and the address and telephone number of the Ford Credit branch office to be contacted;

2. The date or interval of time within which the customer may reinstate the contract in states where the creditor is required to permit reinstatement of the contract;

3. The net amount necessary to redeem the vehicle, and, in transactions where the customer is entitled to reinstatement, the amount necessary to reinstate the contract, at the time the notice is sent;

4. The date or interval of time prior to which the vehicle will not be sold;

5. That the vehicle can be redeemed at any time prior to a binding agreement for its disposition;

6. That additional expenses incurred as a direct result of holding and preparing the vehicle for sale may increase the amount necessary to redeem the vehicle if redemption is delayed;

7. That Ford Credit should be contacted to reinstate the contract in states where the customer is entitled to reinstatement;

8. That Ford Credit should be contacted for further information about redemption including the procedure for redeeming the vehicle;

9. That, where the vehicle has been returned to the dealer and is not redeemed or the contract is not reinstated, any surplus must be paid to the customer within 45 days after disposition (the notice may also state that a contract between the dealer and Ford Credit provides that the dealer is to pay any surplus);

10. That failure to account for and refund a surplus will give the customer a right to sue for the amount of the surplus and, except in California and Louisiana, for statutory penalties as provided by state law;

11. That the customer may be liable for a deficiency or that state law prohibits Ford Credit and the dealer from collecting any deficiency (the notice is to include the applicable language only);

12. That the customer has the right to direct the dealer to apply for a rebate of any unearned premiums payable by any insurance carrier or agent from whom the dealer has, on behalf of the customer, obtained a credit life, accident and health or collision insurance policy.

F. Shall obtain no waivers of redemption or surplus rights from financing customers.

G. Shall, commencing three months and to be completed no later than twelve months after the effective date of this Order, revise all pertinent Ford Credit forms, form letters, notices and internal written procedures to be consistent with the provisions of this Order.

VII

It is further ordered, That:

A. In the event the Federal Trade Commission issues a final Trade Regulation Rule establishing standards less restrictive on automobile manufacturers, financing companies or vehicle dealerships than a corresponding provision or provisions of this Order relative to (1) the disposition of repossessed vehicles, (2) the determination, calculation or communication of the existence of or the amount of surpluses, or the time or manner of paying or accounting for surpluses, or (3) the determination or communication of reinstatement or redemption rights (including their duration and/or the amount necessary to reinstate or redeem), then such less restrictive standards shall, on the effective date of the Rule, supersede and replace the corresponding provision(s) of this Order. The enumeration of subject matter contained in clauses (1), (2) and (3) of this Paragraph is exclusive. *Provided, however*, That the Ford respondents shall advise the Commission of their intention to rely upon any provision of a Trade Regulation Rule as having superseded any provision of this Order 30 days in advance of reliance thereon. *Provided further*, That this Paragraph shall not be construed as exempting the Ford respondents from any Trade Regulation Rule, or as limiting in any way their legal right or standing to challenge or otherwise contest any Trade Regulation Rule.

B. In the event any of the proceedings presently bearing Docket Nos. 9072, 9073, or 9074 results in a final adjudicated or consent order prescribing standards less restrictive than a corresponding provision or provisions of this Order relative to (1) the disposition of repossessed vehicles, (2) the determination, calculation or communication of the existence of or the amount of surpluses, or the time or manner of paying or accounting for surpluses, or (3) the determination or communication of reinstatement or redemption rights (including their duration and/or the amount necessary to reinstate or redeem), then the Commission shall, within 120 days of a Ford respondent's petition pursuant to § 3.72 of the Commission's rules of practice, reopen this proceeding and order modifications of this Order or other relief as necessary and appropriate to conform this Order to such less restrictive standards prescribed in the other order(s). The enumeration of subject matter contained in clauses (1), (2) and (3) of this Paragraph is exclusive.

C. In the event a Ford respondent is of the opinion that changed conditions of law require that this Order be altered or modified, the Ford respondent may, pursuant to § 3.72(b)(2) of the Commission's rules of practice, file a petition requesting a reopening of this proceeding for that purpose.

VIII

It is further ordered, That:

A. The Ford respondents shall maintain complete business records relative to the manner and form of their continuing compliance with this Order, including but not limited to copies of notices sent to financing customers pursuant to Paragraphs VI.D and E above, and records prepared pursuant to Paragraphs V.A–C for each equity and liquidating dealership. The Ford respondents shall retain all such records for at least three years and shall, upon reasonable notice, make them available for inspection and photocopying by authorized representatives of the Federal Trade Commission.

B. Each of the Ford respondents shall, within 120 days after the effective date of this Order, file with the Commission a written report setting forth in detail the manner and form in which it has complied with this Order and has implemented the Initial Compliance Report submitted with the Agreement Containing Consent Order.

C. Ford shall forthwith distribute a copy of this Order to its Ford, Lincoln-Mercury and Parts and services divisions, and to the Dealer Development activity, and Ford Credit shall forthwith distribute a copy of this Order to each of its Regions.

D. Each of the Ford respondents shall notify the Commission at least thirty days prior to any proposed corporate change such as dissolution, assignment or sale resulting in the emergence of a successor corporation or corporations, the creation or dissolution of subsidiaries, the discontinuance of Ford's present program for investing in equity dealerships, or any other change which may affect compliance obligations arising out of this Order.

Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission has accepted an agreement to a proposed consent order from Ford Motor Co. and its credit subsidiary, Ford Motor Credit Co.

The proposed consent order and material reasonably related to the merits of the order and not exempt from disclosure under the Freedom of Information Act have been placed on the public record for 60 days. During this period all interested persons may comment on the proposed order and compliance report. Such comments will become part of the public record. After 60 days the Commission will review the agreement and comments, and will determine whether to withdraw from the agreement or make the order final.

This analysis is intended to encourage public comment on the proposed order. It does not constitute an official interpretation of the agreement and proposed order nor a modification of their terms.

NATURE OF THE CASE

The Commission's complaint issued in February 1976. It made a number of allegations about repossession practices involving Ford Motor Credit Co. (Ford Credit) and Ford dealers, including the following:

1. Each year Ford Credit repossesses numerous cars and trucks from Ford dealers' credit customers. State law and "fairness" under the FTC Act require that on each resale of a repossessed vehicle, after paying off the underlying debt and meeting certain reasonable expenses of repossession and resale, any money left over (the "surplus") must be paid to the person from whom the vehicle was repossessed.

2. Ford Credit has arrangements with a majority of Ford dealers whereby it returns the repossessed car or truck to the dealer who had previously sold it. The dealer then handles the resale and becomes obligated (along with Ford Credit) to see that any surplus is paid. But many such transactions have resulted in surpluses which were not in fact paid by either Ford Credit or the dealer.

3. Ford Credit and dealers have not provided defaulting customers with necessary information about their right to redeem (buy back) their repossessed car or truck under state law.

The complaint specifically named Francis Ford, Inc., a Portland, Oregon Ford dealer, as a participant in these practices. Francis Ford continues to dispute the applicable charges and is not a party to the settlement proposal. The trial as to this remaining respondent was concluded on July 28, 1978 in

With respect to the proposed

dation appeared in a staff memoran-

co and January 12-14, 1976, in Wash-

Seattle, and an Initial Decision is expected later this year.

Another aspect of the case involves allegations of Ford Motor Co. responsibility for dealerships in which it owns all or part of the voting stock (about 3½ percent of all Ford dealers). The complaint charged that such "owned" dealerships have failed to pay surpluses and/or to provide necessary redemption information on repossessed vehicles returned to them by various financing institutions (such as banks) under arrangements similar to those described above for Ford Credit.

THE PROPOSED SETTLEMENT

The proposed consent order is designed to bring about correct calculation and prompt payment of all surpluses on repossessed vehicles resold by Ford dealers. It provides that Ford's Accounting Manual (which is binding on all Ford dealers) will be changed to include specific procedures for determining surpluses. The complete new procedure for "Determination and Refund of Repossession Surpluses" is on the public record as an attachment to an initial report of Ford's intended manner of compliance with the order.

Under the newly required procedure, each Ford dealer will obtain the best available price in reselling any repossessed vehicle returned to it, and will pay any resulting surplus within 45 days of the resale. The Initial Compliance Report allows a dealer, when computing a surplus on a repossessed vehicle, to adjust the selling price to reflect an overallowance or underallowance on a vehicle received in trade, so long as an adjustment for overallowance does not exceed the trade-in allowance given at the time the trade-in vehicle was received, less the wholesale value for the trade-in vehicle as determined by reference to a current recognized guidebook. The only expenses which may be deducted are reasonable, actual out-of-pocket costs incurred as a direct result of repossessing, holding, preparing for sale or reselling the vehicle. A prescribed written summary will be prepared and sent by the dealer within the 45-day period to each customer entitled to a surplus or from whom an attempt is made to collect any further amount (a "deficiency").

It should be noted that the agreed-to order represents a significantly different approach from that of the "notice" version published with the complaint. That version would have held Ford Credit responsible for surpluses arising from Ford Credit repossessions, and Ford Motor Company responsible for surpluses involving its "owned" dealerships. Although the settlement does not resolve the questions of the Ford companies' responsibilities for payment of surpluses, the remedial technique of a Ford-wide Accounting Manual modification provides coverage of all repossessed vehicles returned to Ford dealers (regardless of financing institution and regardless of who owns the dealership). Through this inclusion of bank-repossessed vehicles returned to non-owned dealership, the number of repossession transactions affected by the order has been more than doubled (as compared to the "notice" version).

The consent order requires that Ford and Ford Credit institute extensive training programs to familiarize dealers with their obligations in handling repossessions. The training will be followed by a series of field audits conducted by Ford, to verify that dealers are in fact calculating and paying surpluses correctly. Any instances of dealer noncompliance will be reported to the FTC with appropriate documentation. If noncompliance exceeds a rate of 1½% of all repossessions audited, Ford will review the prescribed written summaries for all Ford dealers' repossession transactions and conduct further audits of dealers generally—as well as special audits of those not complying with the mandated procedure.

Other provisions of the proposed order would require:

1. Specialized measures with respect to surpluses realized by Ford's "owned" dealerships, including payment of surpluses on vehicles repossessed as far back as May 1974.

2. Bulletins to all dealers setting forth their long-standing duty to pay surpluses, urging them to pay surpluses on past repossessions and identifying all repossessed vehicles returned to them by Ford Credit since May 1, 1974.

3. A notice to each customer whose vehicle is hereafter repossessed by Ford Credit, stating the nature and duration of the customer's rights to get the vehicle back and the amount needed to do so, and setting forth the customer's right to a refund of any surplus monies left over after resale.

4. Statements of customers' surplus and/or redemption rights to be included in certain other Ford Credit documents provided to customers and in Ford Credit's contractual arrangements with dealers.

5. Prohibitions against obtaining waivers of customers' surplus or redemption rights.

CAROL M. THOMAS,
Secretary.

FEDERAL TRADE COMMISSION

[16 CFR Part 433]

PRESERVATION OF CONSUMERS' CLAIMS AND DEFENSES

Publication of Staff Report on Proposed Trade Regulation Rule Amendment

AGENCY: Federal Trade Commission.

ACTION: Publication of staff report.

SUMMARY: On February 16, 1978, the Director of the Bureau of Consumer Protection published in the FEDERAL REGISTER notice of publication of the Presiding Officer's report on the proposed amendment to the trade regulation rule on Preservation of Consumers' Claims and Defenses. (41 FR 5305, February 5, 1976.)

The Bureau of Consumer Protection's staff report which summarizes and analyzes the evidence in its rulemaking proceeding on the proposed amendment and makes recommendations as to the final action which the Commission should take has now been made public and placed on Public Record No. 215-31.

DATE: The publication of the staff report commences the final 60-day comment period on both the staff report and the Presiding Officer's report. Comments will be accepted for the public record if received on or before January 24, 1979.

ADDRESS: Requests for copies of the report should be sent to: Distribution Office, Room 126, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

Comments should be sent to: Secretary, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT:

Martin White, Division of Credit Practices, Bureau of Consumer Protection, Federal Trade Commission, address above, 202-724-1158.

SUPPLEMENTARY INFORMATION: Pursuant to § 1.13(g) of the Commission's rules of practice, the staff has made its report, containing its summary and analysis of the record and its recommendations as to the form of the final amended rule, to the Commission. The report is now available for public comment under the Commission's rules of practice, § 1.13(h). Requests for copies of the report should be sent to the Distribution Office, Room 126, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

Comments should be sent to: Secretary, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

Comments will be accepted on both the staff report and the Presiding Officer's report (which has previously been made public, 43 FR 6810, February 16, 1978) for a period of 60 days ending on January 24, 1979. Comments should be identified as "Comment on Presiding Officer and Staff Reports—Preservation of Consumers' Claims and Defenses TRR Amendment," addressed to the Secretary, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580, and submitted, when feasible, in five copies.

In addition to analyzing the issues raised by the proposed amendment, the Staff Report recommends changes in the text of the contract provision that the TRR requires in sales finance and "purchase money loan" contracts. The changes are intended to clarify the provision and make it more understandable to consumers. They are not intended to alter the legal meaning of the provision.[1]

[1] The clarity of the language of the provision was not raised as an issue in the amendment proceeding by the Commission's original Notice of Proposed Amendment. However, FTC Act section 18(d)(2)(g) implicitly gives the Commission authority to make nonsubstantive changes in rule language outside of the usual procedures of section 18 of the FTC Act. See also 5 U.S.C. section 553(b) concerning interpretive rules.

With respect to the proposed changes in the contract provision, the Bureau of Consumer Protection particularly encourages comment on the following issues (in addition to comment on all other relevant issues):

1. The primary purpose of the provision is to serve as binding contractual language that has the legal effect of preserving consumer claims and defenses. At the same time, the provision should convey to consumers some sense of the rights that it preserves so that consumers can take advantage of these rights. What message should the language of the provision convey to an ordinary consumer who reads it?

2. How can the language of the provision best convey to consumers the "message" referred to in Question 1, while still retaining the precise legal meaning of the contract provision specified in the existing rule? How well does the language proposed in Chapter V of the Staff Report serve this dual objective? How can the language proposed in the Report be improved?

3. Should the Commission expeditiously proceed to modify the provision based on the recommendation in the Staff Report (and on comments received on that recommendation)? Alternatively, should the Commission postpone a decision on the language of the provision until it has obtained more information from consumer testing or other sources.[2]

Issued: November 24, 1978.

ALBERT H. KRAMER,
Director,
Bureau of Consumer Protection.

[FR Doc. 78-32996 Filed 11-22-78; 8:45 am]

[2] A decision on the language of the required provision could be postponed without postponing the Commission's decision on the proposed amendment (i.e. on extending the rule to creditors). It should also be noted that the Staff Report recommends that whenever the Commission decides to alter the required provision it should give businesses an opportunity to use up existing inventories of forms.

[6750-01-M]

[16 CFR Part 447]

RETAIL PRICES FOR PRESCRIPTION DRUGS

Withdrawal of Proposed Trade Regulation Rules

AGENCY: Federal Trade Commission.

ACTION: Withdrawal of Proposed Trade Regulation Rules.

SUMMARY: The Federal Trade Commission's Bureau of Consumer Protection has recommended that the proposed trade regulation rules concerning prescription drug price disclosures be withdrawn and that the rulemaking proceeding be closed. The recommendation appeared in a staff memorandum analyzing that portion of the record which followed the U.S. Supreme Court's decision in *Va. Bd. of Pharm.* v. *Va. Cits. Cons. Council*, 425 U.S. 748 (1976).

Section 1.20, "Expeditious Procedures," of the Federal Trade Commission's rules of practice states the Commission may dispense with rulemaking procedures not otherwise required by law. The Commission may invoke this authority after finding certain rulemaking procedures unnecessary. The Commission thus dispensed with the presiding officer's report, a staff report and a period of public comment after finding: (1) The presiding officer's report unnecessary because no disputed issues of material fact existed in the rulemaking proceeding; (2) a staff report unnecessary because a staff memorandum addressed the issue of the continued need, if any, for the proposed rules; and (3) a further period of public comment unnecessary because the public received an extended opportunity to comment on the same issue. The Commission, therefore, went on to consider and to adopt the recommendation of the Bureau of Consumer Protection to withdraw the proposed rules and to close the rulemaking proceeding.

DATE: The Commission voted to withdraw the proposed rules and to close the rulemaking proceeding on October 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Teresa Hennessy, Federal Trade Commission, Room 7714B, 1101 Pennsylvania Avenue NW., Washington, D.C. 20580, 202-724-1485.

SUPPLEMENTARY INFORMATION: On June 4, 1975, the Federal Trade Commission published proposed trade regulation rules which, if finally promulgated, would preempt state laws which prohibit or unfairly restrict the advertising of prescription drug price information. "Disclosure Regulations Concerning Retail Prices for Prescription Drugs," 40 FR 24,031. At this time, the Commission invited comment of two types: (1) Proposals of disputed issues of fact material to the rulemaking; and (2) expression of views and arguments on any issue of fact, law, or policy bearing on the proposed rules. On August 19, 1975, the Commission extended the deadline for the first type of comment to September 18, 1975. 40 FR 36,145. On September 30, 1975, the Commission announced a November 21, 1975, deadline for the second type of comment in a final notice of rulemaking. Informal hearings on the proposed rules occurred on: December 1-2, 1975, in Chicago; December 16-17, 1975, in San Francisco; and January 12-14, 1976, in Washington, D.C.

On July 2, 1976, the Commission invited interested persons to comment prior to November 30, 1976, on why the U.S. Supreme Court's decision in *Va. Bd. of Pharm.* cannot accomplish by First Amendment protection what the proposed rules might have accomplished by preemption, 41 FR 27,391. On January 13, 1977, the Commission extended to April 1, 1977, the period for receipt of comment on the need for rules in light of *Va. Bd. of Pharm.* and of evidence from the staff's monitoring of the impact of this decision. 42 FR 2,694.

The staff reviewed the post-*Va. Bd. of Pharm.* Public Record which included comments submitted in response to the Commission's July 2, 1976, and January 13, 1977, invitations and Regional Office reports on prescription drug price disclosure in the states. After this review, the staff recommended that the Commission withdraw the proposed trade regulation rules and close this rulemaking proceeding for two main reasons. One, the Supreme Court's decision has established pharmacists' legal rights to advertise prescription drug prices. Two, private interference with pharmacists' decisions to advertise prices has greatly declined.

After considering the staff's memorandum, the Commission adopted the staff's analysis and approved the staff's recommendation. The Commission then directed that the memorandum be incorporated in the record, that the proposed rules be withdrawn, and that the rulemaking proceeding be closed.

By direction of the Commission dated October 23, 1978.

CAROL M. THOMAS,
Secretary.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Neighborhoods, Voluntary Associations, and Consumer Protection

[24 CFR Ch. XX]

[Docket No. R-78-584]

IMPLEMENTATION OF TITLE III OF THE ENERGY CONSERVATION AND PRODUCTION ACT OF 1976

Advance Notice of Proposed Rulemaking; Public Meetings

AGENCY: Office of Assistant Secretary for Neighborhoods, Voluntary Associations and Consumer Protection, HUD.

V 43 227 NO 024 78

ACTION: Advance Notice of Proposed Rulemaking and Notice of Public Meetings.

SUMMARY: In August 1979, the Federal Government will promulgate regulations implementing Title III of the Energy Conservation and Production Act of 1976. That action will be preceded by publication of the proposed regulations, for public review and comment, in February 1979. The purpose of this Advance Notice of Proposed Rulemaking is: (1) To give advance notice of interest in developing policies and procedures to implement building energy performance standards for new residential and commercial buildings, and (2) to solicit advice and information from interested parties prior to the issuance of the proposed rule. Public meetings will be held before the proposed rule is published

DATE: Interested parties are invited to submit comments. If they are received by December 15, 1978, the comments will be considered for the draft regulations. Questions to be raised at and requests to speak at the public meetings are to be received by November 28, 1978.

The meetings will be held on the following dates and times: November 30, 1978, 9:30 a.m., Washington, D.C.; December 5, 1978, 9:30 a.m., Chicago, Illinois; and December 8, 1978, 9:30 a.m., San Francisco, California.

The Department of Housing and Urban Development, in collaboration with the Department of Energy, is sponsoring these meetings and is considering additional meetings in January 1979, but will not make that decision until after comments are received and the initial meetings are held. If additional meetings are to be held, the public will be provided advance public notice through publication in the FEDERAL REGISTER.

ADDRESSES: Interested parties may participate in this rulemaking by submitting comments, questions and requests to speak at the public meetings to: U.S. Department of Housing and Urban Development, Rules Docket Clerk, Room 5128, 451 Seventh Steeet, SW., Washington, D.C. 20410.

Public meetings will be held at the following locations:

Commerce Department Auditorium, 14th Street Entrance, Washington, D.C.; O'Hare Holiday Inn, 3801 North Mannhiem Road, Schiller Park, Illinois; and San Franciscan Hotel, Market Street at Civic Center, San Francisco, California.

FOR FURTHER INFORMATION CONTACT:

Dr. Charles G. Field, U.S. Department of Housing and Urban Development, Director, Office of Energy Conservation, Room 4108, 451 Seventh Street, SW., Washington, D.C. 20410, (202) 755-5860.

Archie Twitchell, U.S. Department of Housing and Urban Development, Director, Division of Technical Review and Certification, Room B-182, 451 Seventh Street, SW., Washington, D.C. 20410, (202) 426-2123 or 426-2124.

SUPPLEMENTAL INFORMATION: The conservation of energy in buildings is a recent development. Because energy was both abundant and inexpensive before 1970, the conservation of energy used in controlling heating, cooling and lighting was not given a high priority in the United States. Since it was cheaper to burn fuel than to insulate buildings, the building industry chose to minimize initial construction costs rather than consider more long term life-cycle operating costs.

In response to the 1973 oil embargo the role of the Federal Government in energy conservation efforts increased. For example, Operation Button Up and Project Conserve, both run by the Federal Energy Administration, were designed to inform the public of the need to conserve energy. In addition, this Department incorporated energy standards into its HUD Minimum Property Standards.

In 1975 Congress enacted the Energy Policy and Conservation Act (Pub. L. 94-163) which established the State Energy Conservation Program. This program provides states with funds to carry out conservation measures, including the development of lighting efficiency standards and energy efficiency requirements for insulation.

A year later in 1976, Congress enacted enacted the Energy Conservation and Production Act (Pub. L. 94-385). Title III of this Act represents a fundamental departure from the State Energy Conservation Program by providing for the establishment of energy conservation performance standards for new buildings. Title III redirects Federal policies and practices to assure that reasonable energy conservation features will be incorporated into new commercial and residential buildings receiving Federal Financial assistance.

To accomplish this goal the Department of Energy (DOE) is directed to develop and publish energy performance standards ("Standards") for all new commercial and residential buildings. See Pub. L. 95-91 (42 U.S.C. 7101 *et seq.*). The standards will apply to the design of the overall building itself and not to component parts. DOE will specify the standards as goals to be achieved with applicable requirements, criteria and evaluation techniques, but will not include or prescribe the methods, processes or materials to be used to achieve these goals. In addition these Standards will be designed to achieve the maximum economically practicable improvements in energy efficiency and to encourage the use of renewable sources of energy. DOE plans to issue an Advance Notice of proposed Rulemaking prior to issuing proposed Standards. Proposed Standards will be published in February 1979, with final Standards expected by August 1979.

The program is designed to encourage states and local governments to adopt and enforce the Standards or equivalent energy performance standards through their existing building codes and other construction control mechanisms. The Federal Government intends to publish proposed regulations by February 1979, with final regulations to become effective in August 1979.

Public Participation Plan. The Federal Government recognized that this program may substantially affect the design and construction of commercial and residential buildings; the development of construction technology; the consumption of energy by consumers and property owners; the energy and building codes of states and localities; state and local practices governing the design approval and inspection of new building including the issuance of building permits; and the administrative resources of state and local governmental entities. For this reason the Federal Government will provide a full opportunity for comment to all interested and affected parties.

In addition to written and oral comments received in response to this Advance Notice, the Federal Government seeks comments through other forums. The Federal Government has contracted with the National Association of Counties, the United States Conference of Mayors and the National League of Cities. Under the terms of these contracts, these associations are identifying pertinent issues which concern their members and are conducting research on overcoming constraints to implementation. In addition, the Federal Government has contracted with the Consumer Energy Council of America to develop a consultation process for consumer and energy groups. The National Institute of Building Sciences (NIBS) is analyzing the experiences of representative states in administering energy programs at the state and local levels, experiences of federal agencies with regulatory programs similar to Title III, and technical issues inherent to this program. The Federal Government also has entered into and expects to continue discussions with representative groups affected by this program including state energy administrators, building code administrators, design professionals, labor, and the building industry.

Environmental Impact, Economic Impact and Regulatory Analysis Efforts. Detailed studies are being conducted by DOE on the projected environmental and economic impacts attributable to the promulgation of the Standards. This work is being done in accordance with the provisions of the National Environmental Policy Act of 1969 (NEPA), Pub. L. 91-190 (72 U.S.C. 4321 *et seq.*) and Section 310 of Title III.

The Department of Energy has contracted with Battelle Pacific Northwest Laboratories (PNL) to provide the necessary data. PNL has subcontracted with A. D. Little (ADL) for the economic program and with Energy and Environmental Associates (EEA) for the environmental program.

A regulatory analysis is being conducted by DOE in response to the President's Executive Order 12044. The governmental policy is to enact regulations that are simple and clear; effectively achieve legislative goals; and do not impose unnecessary burdens on the economy, on individuals, on public or private organizations, or on State and local governments.

This analysis will examine the problems in implementing the Standards and will provide a description of the major alternatives that were considered by the agency in developing the regulations. In addition, the analysis will consider the impact of the program upon urban communities. Since the regulations are statutorily mandated, the Department of Energy will not analyze non-regulatory alternatives.

When the proposed regulations are published for comment, a statement will be provided as to how the public may obtain a copy of the draft regulatory analysis. The final regulatory analysis will be made available at the time the final regulations are published.

Statutory Requirements. The following is a general description of the statutory requirements found in the Energy Conservation and Production Act of 1976. This description does not imply a specific regulatory format, but rather is intended to provide a useful background for a better understanding of the issues raised in this Advance Notice.

1. DOE will develop and publish the Standards for all new commercial and residential buildings by August 1979. Commercial buildings include any buildings developed for industrial or public purposes. These Standards are to become effective in February 1980. This timetable was established by President Carter as part of his National Energy Plan.

2. At the time the final Standards are published the President will transmit to Congress the Standards and any recommendation as to whether the sanction, as set forth in Section 305, should be approved. Congress, by joint resolution, must then determine within 90 days whether to approve the sanction. This sanction will be approved if Congress determines that it is necessary to assure that the Standards are applied to all new buildings.

3. The Section 305 sanction is the withholding of all Federal financial assistance for the construction of any new commercial or residential building in any area of any state which fails to comply with the requirements of the Act. Federal financial assistance is defined by the Act to include any form of loan, grant, guarantee, insurance, payment, rebate, subsidy, or any other form of direct or indirect Federal assistance (other than general or special revenue sharing of formula grants to states) approved by any Federal officer or agency; or any loan made or purchased by any bank, savings and loan association or similar institution subject to regulation by the Boards of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the Comptroller of the Currency, the Federal Home Loan Bank Board, the Federal Savings and Loan Insurance Corporation, or the National Credit Union Administration.

4. Upon the effective date of the Standards, if the sanction is retained it will be imposed on a locality unless one of the following three conditions is met:

(a) The state has certified and the Federal Government has approved that either a state or locality has adopted and is implementing energy standards that meet or exceed the Standards.

(b) The construction plans for specific buildings in a locality have been approved in accordance with an "applicable approval process" acceptable to the Federal Government. An applicable approval process is a procedure for determining that a building, as designed, complies with the Federal Standards.

(c) The State has requested that the locality be excepted from the requirements of the Act by the Federal Government on the grounds that the magnitude of construction in that area is not sufficient to warrant the costs of implementing the energy standards. An exception may be rescinded if the amount of construction of new buildings in the locality has increased sufficiently to warrant such costs.

5. Federal agencies responsible for the construction of federal buildings not legally subject to state or local building codes are required to adopt procedures to assure that all construction meets or exceeds the applicable Federal standards.

6. The Federal Government is authorized to make grants to states and localities to assist them in meeting the costs of adopting and implementing final performance standards, administering state certification procedures, and carrying out an applicable approval process through either Section 307 of Title III or the State Energy Conservation Program.

7. The Federal Government is authorized to provide technical assistance to states and localities to assist them in meeting the requirements of Title III.

8. The Federal Government is required to monitor the progress made by states and localities in adopting and enforcing energy conservation standards. The effectiveness of standards adopted will also be evaluated. The Administration is to report to Congress on a semiannual basis.

9. The Federal Government is authorized to conduct investigations to determine the accuracy of state certifications.

10. The Federal Government will review all state certifications for approval. States whose certifications are rejected or withdrawn will be given notice of the determination and will be provided an opportunity for a hearing pursuant to the Administrative Procedure Act.

11. Appeal procedures will exist for use by affected parties seeking to appeal an adverse administrative ruling.

12. Administrative procedures will exist for use by affected parties seeking clarification of either technical or administrative provisions of the Act and accompanying regulations.

13. The Standards will be periodically updated.

PROGRAM ISSUES: HUD and DOE seek comments on the regulatory responsibilities for this program. While it is not possible to list all issues, some major ones include the following:

A. *Certification.* The Federal Government has the responsibility under Title III to accept state or local energy standards that meet or exceed the requirements of the Standards promulgated by DOE. At present most states' energy standards are based upon a component standard similar to, or in some cases, identical with the ASHRAE 90-75 standards developed by the American Society of Heating, Refrigerating and Air Conditioning Engineers. Since the Federal Standards will be performance based, states may encounter difficulties complying with Title III. The issues listed below raise questions about how to minimize such difficulties.

1. Should the Federal Government acceptance be limited to performance

U.S. Department of Health, Education

V 4 3 1 2 2 7 N 0 2 4 7 8 UMI

standards similar to those promulgated by DOE or should acceptance be expanded to include existing energy standards which meet or exceed the Federal Standards?

2. If the Federal Government accepts state or local use of component standards, should the Federal Government condition acceptance of component standards with a requirement that the building code used in that state or locality also include a performance standard?

3. Should the Federal Government pre-approve model building energy codes as meeting the certification requirements, or should each state be required to establish that its standards comply with the Federal Standards?

4. What evidence should be submitted by the state in support of its certification request? For example, should the Federal Government pre-approve certification on the basis of a minimum review and conduct subsequent spot checks, or should it require a detailed state submission for technical review by the Federal Government prior to approval?

5. What criteria should be used for making certification determinations? What should be the scope and extent of the Federal Government's review of state certifications? Should certification be limited to design review or cover other compliance procedures? If the latter is preferred, what additional procedures should be included?

6. What procedures should be used to minimize disruptions to state and local code enforcement programs when either the Standards are updated or the regulations revised?

7. The Federal Government has authority to withdraw a state's certification approval. Under what circumstances should such authority be exercised? For example, if a locality were unwilling to enforce certified standards or did not adequately fund or staff its enforcement program, should these be circumstances justifying withdrawal of approval?

8. The Federal Government recognizes that some states or localities will, despite a good faith effort, be unable to achieve compliance by the effective date of the Standards. Therefore, should the Federal Government allow a state or locality to phase-in its implementation of a certified program and if so, under what conditions?

B. *Approval Process.* In areas not covered by certified standards, Title III provides procedures for the consideration and approval of applications to construct new buildings which comply with the Federal Standards. The mechanism establishing these procedures is identified as an applicable approval process. Jurisdiction over this process has been left to either the locality or the state.

9. What form should the approval process take? Possibilities include (1) certification by licensed architects or engineers; (2) design reviews by a city or state agency; or (3) design reviews by a third party such as an approved non-government laboratory.

10. How should the Federal Government assure that an applicable approval process is effectively implemented? What role, if any, should the state play?

11. Once a building design has been approved through this process, should non-federal procedures be established to assure that the building is ultimately constructed in accordance with the approved design?

C. *Section 305 Sanction.* 12. Is the statutory sanction necessary to accomplish the goals of this program? Would an alternative federal sanction be more appropriate? Is so, please specify. Can the program succeed on a voluntary basis and if so, under what circumstances?

13. How should the statutory sanction be applied so as to minimize paperwork and administrative actions?

D. *Exceptions.* The Federal Government may except an area, upon request from a state, where the construction of new buildings is not of a magnitude to warrant the costs of implementing energy performance standards. The exception may be rescinded when the level of construction activity has increased sufficiently to warrant such costs.

14. What criteria should be used to except an area?

15. Should exceptions be issued on a case-by-case basis or should exceptions be granted to any locality meeting prescribed criteria?

E. *Grants.* 16. Given limited funding, what priority criteria should be used in awarding grants (e.g. level of construction activity, experience with energy standards, etc.)?

17. How should these grant funds be distributed among states and localities?

18. Grants may be used to fund feasibility, planning, demonstration, operational and evaluation studies. Which studies would result in the most effective use of these grant funds?

F. *Technical Assistance.* Technical assistance may include training and computer programs, administrative guidelines, technical bulletins, demonstration programs of state and local enforcement of energy standards and analytical tools for architectural and engineering use.

19. What types of technical assistance would be most needed and for whom? Are any of these activities currently being provided and if so, by whom?

20. Should technical assistance be provided by the Federal Government through the state or should it be provided directly to local units of government?

21. Given limited funding, what priorities should be placed on the different elements of technical assistance?

22. To what extent should technical assistance be provided by state and local levels of government, and by private organizations?

G. *Monitoring and Evaluation.* Title III requires that the program be monitored as to (1) the progress of State and localities, (2) the procedural obstacles or technical constraints inhibiting implementation, and (3) the effectiveness of energy standards in use.

23. What would be the most efficient and effective way of monitoring State and local compliance with the program?

24. Should State and local code enforcement agencies retain records to facilitate Federal monitoring and evaluation? If so, what types of records should be maintained and for what period of time?

25. Should States have the primary responsibility for monitoring the program?

H. *Administrative Procedures.* The Federal Government must approve all State certifications. Title III provides that in the event the Federal Government rejects, disapproves or requires the withdrawal of a State's certification, the State must be provided with notice and an opportunity for a hearing.

26. Should the Federal Government suspend a State's certification prior to providing an opportunity for hearing when immediate and administrative action is deemed necessary to prevent the construction of energy inefficient commercial and residential buildings? What criteria should necessitate such an action?

27. Should localities or private parties be permitted to intervene in hearings concerning the rejection, disapproval or withdrawal of a State's certification? If so, which parties should be permitted to intervene?

28. Once there has been an administrative decision rendered as a result of a hearing, should there be any further administrative procedures for appeal?

I. *General Considerations.* 29. What actions by the Federal Government would facilitate a smooth transition from the thermal and lighting energy requirements of the State Energy Conservation Program (conducted by DOE under Pub. L. 94-163) to Title III?

30. Title III requires the State to certify that energy standards used by its localities meet or exceed the requirements of the Federal Standards. What remedies, if any, should be available to a locality whose energy standards meet or exceed the Federal Standards, but whose State has not submitted such standards to HUD for certification approval?

31. Title III defines a building as a structure to be constructed which includes provision for a heating or cooling system, or both, or for a hot water system. Should a building which is to be substantially rehabilitated be considered a "building" for purposes of Title III? If so, what amount of rehabilitation should constitute "substantial"?

32. As enacted by Congress, Title III expresses only one exception to full compliance with the Federal Standards. That exception applies to localities with so little construction that the cost of implementing energy standards would be unwarranted.

Should there be other exceptions? If so, what exceptions and why?

AUTHORITY: This Advance Notice of Proposed Rulemaking is issued under authority of the Energy Conservation Standards for New Buildings Act of 1976 (42 U.S.C. 6831 *et seq.*), published as Title III of the Energy Conservation and Production Act, Pub. L. 94-385, 90 Stat. 1144 *et seq.* (42 U.S.C. 6801 *et seq.*); Section 7(d) of the Department of HUD Act, 79 Stat. 670 (42 U.S.C. 3535(d)).

GENO C. BARONI,
Assistant Secretary for Neighborhoods, Voluntary Associations, and Consumer Protection.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1910]

[Docket No. H-115]

OCCUPATIONAL EXPOSURE TO PESTICIDES

Request for Comments and Information

AGENCY: Occupational Safety and Health Administration, Labor.

ACTION: Request for Comments and Information.

SUMMARY: This notice requests comments and information on the regulation of occupational exposure to pesticides during the manufacturing and formulation processes. "Pesticides" is a generic term used to identify a group of substances that are added to the environment to kill or injure some form of life. They are further subdivided into groups by their specific intended use, for example, substances used to kill insects are classified as insecticides. OSHA currently regulates occupational exposure to airborne concentrations of approximately 180 substances used as pesticides (29 CFR 1910.1000). Employers are required to reduce employee exposure to the specified permissible exposure limits of these regulated substances by instituting engineering or work practice controls. Where such controls are not sufficient to reduce exposures, they may be supplemented by the use of respirators. On July 17, 1978, OSHA received a criteria document from the National Institute for Occupational Safety and Health, entitled "Criteria for a Recommended Standard . . . Occupational Exposure During the Manufacture and Formulation of Pesticides," which indicates that present regulations regarding pesticides may not sufficiently protect employees exposed to them. Furthermore, a large number of substances used as pesticides are not currently regulated by OSHA. OSHA is seeking information on the health hazards to employees involved in the manufacture and formulation of pesticides, and the factors that should be considered in determining how pesticide manufacturing and formulation should be regulated; and is requesting views on the appropriate regulatory response to the NIOSH recommendations.

DATE: The information requested in this notice must be submitted on or before January 8, 1979.

ADDRESS: The information requested in this notice should be submitted to the Docket Officer, Docket H-115, Room S6212, U.S. Department of Labor, Occupational Safety and Health Administration, Third Street and Constitution Avenue NW., Washington, D.C. 20210 (202-523-7894).

FOR FURTHER INFORMATION CONTACT:

Ms. Flo Ryer, Office of Special Standards Programs, Room N3663, Occupational Safety and Health Administration, Third Street and Constitution Avenue NW., Washington, D.C. 20210 (202-523-7174).

SUPPLEMENTARY INFORMATION: Substances used as pesticides are extremely diverse in chemical structure, as well as in the degree and nature of the toxic effects they produce. In 1975, the lastest year for which figures are available, 1.61 billion pounds of pesticide active ingredients (excluding creosote) were produced in the United States. Under the Federal Insecticide, Fungicide, and Rodenticide Act (Pub. L. 92-516), the Environmental Protection Agency (EPA) has registered over 1,200 pesticides which are formulated into over 30,000 products. NIOSH estimates that approximately 8,700 workers are employed in manufacturing and formulating facilities which produce primarily pesticides. In addition, there are over 350,000 employees who are potentially exposed because they work at plants that produce pesticides as secondary products.

The National Institute for Occupational Safety and Health (NIOSH), U.S. Department of Health, Education and Welfare, has recently submitted to section 22 of the Occupational Safety and Health Act of 1970 (84 Stat. 1612; 29 U.S.C. 671), criteria for a recommended standard on occupational exposure to pesticides. The Directorate of Health Standards Programs, Occupational Safety and Health Administration (OSHA), U.S. Department of Labor, is studying the criteria received from NIOSH, as well as other publications on the health effects resulting from exposure to pesticides. Human data relevant to occupational exposure to pesticides, as well as numerous animal studies, show that pesticides are capable of eliciting a wide variety of toxic effects. These effects may include sterility, degeneration of the kidney, liver and spleen, severe skin irritation, and central nervous system depression. The literature also suggests that certain pesticides may be carcinogenic, mutagenic, and teratogenic in animals.

COMMENTS AND INFORMATION REQUESTED: OSHA has concluded that a comprehensive occupational health standard may be needed to protect employees in the manufacturing and formulating industries from the harmful effects of exposure to pesticides. Consequently, OSHA hereby requests all interested persons to submit comments and information relating to the necessity of developing a standard regulating occupational exposure to pesticides. OSHA's decision on the appropriateness of commencing a rulemaking proceeding will be based on consideration of all comments and information received.

Interested persons are urged to submit written data, views, and arguments concerning a standard for occupational exposure to pesticides during the manufacturing and formulating processes. The following is a brief summary of NIOSH's recommendations for a generic pesticides standard, including indications of some of the issues raised by the recommended provisions. OSHA would like to receive comments on these issues. Interested persons are also invited to raise any other issues which they think are relevant to the development of a generic pesticides standard.

1. *Generic Approach to Pesticides Regulation.* The NIOSH recommended standard is a broad-based standard, primarily concerned with protecting employee health and preventing employee exposure through the application of work practices and control measures. NIOSH does not recommend development of permissible exposure limits (PEL) for the approximately 1,200 registered pesticide active ingredients.

The NIOSH criteria document in-

OSHA requests comments and information on the following:

(a) Is the generic approach appropriate for regulation of employee exposure in manufacturing and formulating facilities?

(b) Should PELs be developed for the substances not currently regulated?

(c) Are there any pesticides in widespread production that are not currently regulated in 29 CFR 1910.1000?

(d) Does the criteria document adequately demonstrate the need for development of a generic standard to regulate employee exposure to pesticides?

2. *Classification Scheme.* The NIOSH recommended standard incorporates a modification of the Environmental Protection Agency's (EPA) pesticides Classification scheme to delineate between various regulatory provisions. For example, for those substances classified as Group I, the most toxic category, some of the regulatory requirements recommended are more stringent than those for Groups II and III. In areas such as medical surveillance, however, requirements are the same for all the groups.

OSHA requests comments and information on the following:

(a) Is the modified EPA classification scheme appropriate for regulating pesticides manufacturing and formulating?

(b) What other schemes of grouping or classifying pesticides would be appropriate?

(c) Is there an approach to a generic pesticides standard that would not require classification?

(d) Would most manufacturing and formulating facilities have pesticides from more than one group present in the workplace at most times? Would classification present compliance difficulties in this situation?

3. *Scope and application.* The NIOSH recommended standard applies to all workers in the pesticide manufacturing and formulating industries. This would include workers involved in manufacturing, formulating, packaging, mixing, blending, or repackaging of any pesticide active ingredient. The standard does not apply to the population-at-large, or users of pesticides who are already regulated by other agencies such as the Department of Transportation, the Environmental Protection Agency, and the Food and Drug Administration.

OSHA requests comments and information on the following:

(a) Does the scope and application section cover all occupations in the manufacturing and formulating industries where exposure to pesticides might occur?

(b) Should raw ingredients and chemical intermediates used to manufacture or formulate pesticides, although not classified as pesticides, be covered under this standard?

(c) Are affected industries and employee groups, number of employees exposed, and conditions of exposure correctly described in the criteria document?

4. *Exposure Monitoring.* The NIOSH recommended standard would require an annual survey of the plant to determine the names and approximate quantities of all pesticides used or stored in the plant; places where pesticides might escape; all locations and operations in which employees might be exposed to pesticides; and the airborne concentrations of pesticides to which workers are exposed.

OSHA requests comments and information on the following:

(a) Is the requirement for monitoring airborne concentrations of pesticides appropriate? Is the time interval between measurements adequate?

(b) What benefits would be derived from the information gathered from the annual survey?

(c) Are there analytical and sampling methods available for employee exposure measurements? What is the precision and accuracy of these methods?

5. *Methods of compliance.* NIOSH recommends that employers minimize employee exposure to pesticides through the use of engineering controls and work practices. Isolation of processes, provision of local exhaust ventilation, and prohibition of threaded pipe connections for pesticide-contaminated streams are examples of the detailed engineering controls requirements included.

OSHA requests comments and information on the following:

(a) Are the specified engineering controls economically and technologically feasible? What other feasible engineering controls are currently available?

(b) What engineering and work practice controls are currently used in pesticide manufacturing and formulating processes? How effective are they in preventing employee exposure to pesticides?

6. *Respirators.* The NIOSH recommended standard states that protection of employees from exposure to airborne concentrations of pesticides may not be achieved by the use of respirators except during: installation, testing, and maintenance; cleanup of spills; and emergencies. Where respirators are permitted to reduce employee exposure, employers would have to select proper respirators in accordance with ANSI Practices for Respiratory Protection, Z88.2-1969. Respirators are to be inspected periodically to ensure they are maintained and functioning properly. Quantitative fit testing is to be performed on employees working with Group I pesticides.

OSHA requests comments and information on the following:

(a) As many of the substances which would be covered by the standard will not have PELs, what other selection criteria would employers use to choose the proper respirators?

(b) Are the inspection frequencies for the different classes of respirators appropriate?

(c) Are employers familiar with quantitative fit testing procedures, and are facilities available to perform such tests?

7. *Emergency Situations.* NIOSH recommends emergency and first-aid services to be provided by the employer. These services include deluge showers, eyewash fountains, oxygen, and resuscitation equipment. All emergency procedures would be incorporated into a written emergency action plan. For Group II and III pesticides, emergency-escape personal protective equipment shall be "readily" available, and for Group I pesticides it shall be "immediately" available.

OSHA requests comments and information on the following:

(a) Do the recommended provisions concerning emergency situations assure adequate protection for employees? Should additional provisions be included?

(b) Are the differences delineated between Group I and the other groups in the requirements concerning availability of emergency-escape personal protective equipment clearly defined and justified?

8. *Protective Clothing and Equipment.* The NIOSH recommended standard would require employees working with pesticides to wear various types of protective clothing and equipment. The degree of protection required would vary for the different groups of pesticides. For example, personal protective equipment suggested for Group III pesticides in the liquid state would include a face shield, chemical goggles, gloves, footwear, and apron.

OSHA requests comments and information on the following:

(a) Are the provisions for the use and storage of work clothing and other personal protective equipment appropriate?

(b) Are the varying time intervals for inspections of equipment necessary and adequate?

(c) Should there be a requirement for providing work clothing and other personal protective equipment for Group III compounds?

9. *Housekeeping.* NIOSH recommends certain materials handling, decontamination, and waste disposal procedures. For example, storage areas are to be separate from work areas; spills are to be immediately cleaned; and wastes that contain pesticide residue would have to be decontaminated before disposal. Periodic inspections for residual pesticide contamination are to be conducted at varying time intervals for the different groups of pesticides.

OSHA requests comments and information on the following:

(a) Would the requirements in the housekeeping section be effective in reducing exposure?

(b) Do the differing requirements based on the distinction between groups offer protection to employees without imposing an unnecessary burden on industry?

(c) Would it be better not to distinguish between groups of pesticides in the section on housekeeping? How frequently should inspections be conducted?

(d) What decontamination procedures are available for pesticides? Will these procedures produce by-products that will require additional decontamination? Are tests available to prove decontamination has been effective?

10. *Hygiene Practices.* This section of the NIOSH recommendations would prohibit smoking, eating, and food preparation in pesticides contaminated areas. Showers and daily changes of clothing would be required for employees working with Group I and II pesticides, and contaminated work clothing would be stored and cleaned by the employer.

OSHA requests comments and information on the following:

(a) Are the hygiene practices in this section appropriate for protecting employees? Should additional practices be developed?

11. *Medical Surveillance.* This section would require a preplacement exam, a comprehensive medical and work history, and periodic exams for all employees working with pesticides. The physician is directed to examine the eyes, liver, kidneys, lungs and central and peripheral nervous systems. Monitoring for cholinesterase activity is stipulated for workers exposed to substances identified as cholinesterase inhibitors.

OSHA requests comments and information on the following:

(a) Do the recommended requirements for medical surveillance give the physician enough direction to enable him to correctly diagnose a pesticide related illness?

(b) Should there be separate medical requirements for each of the three classes of pesticides?

(c) Could medical surveillance guidelines be developed for chemical families or groups of pesticides?

12. *Employee Information and Training.* This section requires that employees be informed of the pesticides they work with, symptoms that may occur from overexposure, limitations in the use of personal protective equipment, and precautions that should be taken when handling pesticides. It is also recommended that employees be trained semi-annually. Training requirements would differ for the various groups of pesticides.

OSHA requests comments and information on the following:

(a) Is the recommended training appropriate? Should additional training requirements be developed?

(b) Are there specific programs for educating employees to work safely with pesticides that are currently available?

(c) Should training requirements differ for the various groups of pesticides?

13. *Signs and Labels.* All pesticide-contaminated containers would have to be labeled, specifying the contents of the container, fire and toxicity hazards, and handling precautions. NIOSH's recommendations include specific provisions for posting entrances to areas where pesticide exposure may occur, and for labelling and color coding of process equipment. These recommended requirements would differ for the various groups of pesticides.

(a) Are the labelling recommendations appropriate for regulating employee exposure to pesticides?

(b) Is the delineation of requirements for the various groups necessary?

14. *Recordkeeping.* This section recommends that all required records be maintained for at least thirty years after termination of employment. These records must include monitoring data, medical exam results, records of emergency treatment, and respirator information. Records must be stored and arranged in such a way as to enable representatives of the Secretary of Labor and the Secretary of Health, Education, and Welfare to correlate exposure and medical data.

OSHA requests comments and information on the following:

(a) Are the required records appropriate for documenting exposures and related health effects?

(b) Is thirty years after termination of employment a sufficient time period to maintain records?

In addition to the specific issues related to the NIOSH criteria document, OSHA also requests comments and information on the following:

15. What benefits may be expected to result from the regulation, i.e., what mortality and morbidity are associated with current exposures, and to what extent would they be reduced by the recommended standard?

16. What is the environmental impact of the recommended standard?

The NIOSH criteria document, including the 343 references relied upon therein, and comments on the document from the NIOSH review consultants (Tab Document) are available for review and copying at the OSHA Technical Data Center, Room S6212, U.S. Department of Labor, Third Street and Constitution Avenue NW., Washington, D.C. 20210.

Interested persons are invited to submit written data, views and comments with respect to the foregoing issues. All communications should be submitted in quadruplicate, by January 8, 1979, to the Docket Officer, Docket H-115 Room S6212, U.S. Department of Labor, Third Street and Constitution Avenue NW., Washington, D.C. 20210 (202-523-7894). All timely written submissions, as well as other information gathered by the agency, will be considered in any action taken.

This document was prepared under the direction of Eula Bingham, Assistant Secretary of Labor for Occupational Safety and Health, U.S. Department of Labor, Third Street and Constitution Avenue NW., Washington, D.C. 20210.

(Sec. 6 Pub. L. 91-596, 84 Stat. 1593 (29 U.S.C. 655) 29 CFR Part 1911; Secretary of Labor Order No. 8-76 (41 FR 25059).)

Signed at Washington, D.C., this 17th day of November 1978.

EULA BINGHAM,
Assistant Secretary of Labor.

[4910-14-M]

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGD 78-140]

HACKENSACK RIVER, N.J.

Proposed Drawbridge Operation Regulations

AGENCY: Coast Guard, DOT.

ACTION: Proposed Rule.

SUMMARY: At the request of Bergen County, N.J., and the New York, Susquehanna, & Western Railroad Co., the Coast Guard is considering changing the regulations governing the Court Street bridge, mile 16.2, and the railroad bridge, mile 16.3, Hackensack River, to provide that the swing span of the Court Street bridge need not open unless advance notice is given and that the swing span of the railroad bridge need not open for the passage of vessels. This proposal is being made because there have been an average of less than one opening per day of the Court Street bridge and the railroad bridge has not opened for the

V 4 3 1 2 2 7 N 0 2 4 7 8 UMI

past 10 years. This action will, for the Court Street bridge, relieve the bridge owner of the burden of having a person constantly available to open the draw, and for the railroad bridge, relieve the bridge owner of the burden of maintaining the machinery and of having a person available to open the draw.

DATE: Comments must be received on or before December 27, 1978.

ADDRESS: Comments should be submitted to and are available for examination at the office of the Commander (oan), Third Coast Guard District, Governors Island, N.Y. 10004.

FOR FURTHER INFORMATION CONTACT:

Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-WBR/73), Room 7300, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-0942.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, comments, data, or arguments. Persons submitting comments should include their name and address, identify the bridge, and give reasons for concurrence with or any recommended change in the proposal.

The Commander, Third Coast Guard District, will forward any comments received with his recommendations to the Chief, Office of Marine Environment and Systems, U.S. Coast Guard Headquarters, Washington, D.C., who will evaluate all communications received and recommend a course of final action to the Commandant on this proposal. The proposed regulations may be changed in the light of comments received.

DRAFTING INFORMATION: The principal persons involved in drafting this proposal are: Frank L. Teuton, Jr., Project Manager, Office of Marine Environment and Systems, and Mary Ann McCabe, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF THE PROPOSED REGULATIONS

Bergen County, N.J., and the New York, Susquehanna, & Western Railroad Co. requested the proposed changes to relieve them of the responsibility of maintaining constant attendance at these drawbridges. The data shows that the Court Street drawbridge, mile 16.2, Hackensack River, presently opens on several hours notice. About three out of four of these openings (509—1975, 215—1976, 396—1977, and 67 for the first 4 months of 1978) were from 8 a.m. to midnight. The draw of the railroad bridge, mile 16.3, Hackensack River, has not opened for at least 10 years. There is no navigation at this time above the railroad bridge. The Midtown bridge, mile 16.5, was closed for the passage of vessels effective February 4, 1978 (43 FR 957). There is also under consideration by the Corps of Engineers a plan to build a dam between the Midtown bridge and the railroad bridge which would stop navigation at that point.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations be amended by adding new subparagraphs (1-d) and (1-e) immediately after subparagraph (1-c) of § 117.225(f) to read as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

§ 117.225 Navigable waters in the State of New Jersey; bridges where constant attendance of draw tenders is not required.

* * * * *

(f) * * *

(1-d) *Hackensack River.* The swing span of the Court Street bridge, mile 16.2, shall open on signal from 8 a.m. to midnight if at least two hours notice is given. From midnight to 8 a.m. the swing span shall open on signal if at least eight hours notice is given.

(1-e) *Hackensack River.* The swing span of the New York, Susquehanna, and Western railroad bridge, mile 16.3, need not open for the passage of vessels, and paragraphs (b) through (e) of this section shall not apply to this bridge.

* * * * *

(Sec. 5. 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5).)

NOTE: The Coast Guard has detemined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: November 16, 1978.

R. H. SCARBOROUGH,
Vice Admiral, U.S. Coast Guard,
Acting Commandant.

Forest Service

[36 CFR Part 219]

NATIONAL FOREST SYSTEM LAND AND RESOURCE MANAGEMENT PLANNING

Extension of Comment Period

AGENCY: Forest Service, USDA.

ACTION: Extension of comment period on proposed rules to guide land and resource management planning in the National Forest System.

SUMMARY: The comment period is extended on the proposed rules for National Forest System Land and Resources Management Planning pursuant to the National Forest Management Act of 1976. Proposed rules were published in FEDERAL REGISTER Volume 43, No. 170, pages 39046-39059, on August 31, 1978.

DATES: Comments must be received on or before December 16, 1978.

ADDRESS: Send comments on Chief, Forest Service, USDA, P.O. Box 2417, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

Charles R. Hartgraves, Director, Land Management Planning, P.O. Box 2417, Washington, D.C. 20013, 202-447-5933.

Proposed rules for National Forest System Land and Resource Management Planning pursuant to the National Forest Management Act of 1976 were published in the FEDERAL REGISTER on August 31, 1978. The review period was set from August 31, 1978 to October 30, 1978. Due to numerous requests, the comment period was later extended to November 29, 1978.

With this notice, the review period is now extended to December 16, 1978.

Dated: November 10, 1978.

DOUGLAS R. LEISZ,
Deputy Chief.

[3410-11-M]

[36 CFR Part 219]

NATIONAL FOREST SYSTEM LAND AND RESOURCE MANAGEMENT PLANNING

Meeting

AGENCY: Forest Service, USDA.

ACTION: Public meeting on proposed rules to guide land and resource management planning in the National Forest System.

SUMMARY: A public meeting will be held regarding the proposed rules published August 31, 1978 (FEDERAL REGISTER, Volume 43, No. 170, pages 39046-39059), by the Department of Agriculture pursuant to Section 6 of the National Forest Management Act.

DATES: public meeting: November 27, 1978—1:00 p.m.

ADDRESS: Meeting location: Department of Agriculture, Administration Building, Room 218-A, 14th Street and Jefferson Drive, SW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Charles R. Hartgraves, Director, Land Management Planning, P.O. Box 2417, Washington, D.C. 20013, 202-447-5933.

A public meeting will be held in Washington, D.C., on November 27, 1978, regarding the proposed rules published August 31, 1978, by the Department of Agriculture pursuant to Section 6 of the National Forest Management Act. The meeting will be conducted by Assistant Secretary M. Rupert Cutler, beginning at 1:00 p.m. in Room 218—Administration Building, U.S. Department of Agriculture, 14th Street and Jefferson Drive, SW.

The public is invited to ask questions and submit oral and written statements about the proposed rules to guide future land and resource planning for the National Forest System.

Persons who wish to attend and/or submit written statements should notify Charles R. Hartgraves, Director, Land Management Planning, Forest Service, P.O. Box 2417, Washington, D.C. 20013. (Area Code 202-447-5933)

Dated: November 9, 1978

DOUGLAS R. LEISZ,
Deputy Chief.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 60]

[FRL 1012-4]

STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES

Public Hearing on Proposed Standards for Electric Utility Steam Generating Units

AGENCY: Environmental Protection agency (EPA).

ACTION: Extension of comment period on proposed rule.

SUMMARY: This notice extends the comment period and changes the public hearing dates for the proposed standards of performance for electric utility steam generating units which were proposed September 19, 1978 (43 FR 42183). EPA has been requested by representatives of industry, environmental groups, and governmental agencies to allow more time to comment on the proposed standards.

DATES: Public hearing: December 12-14, 1978; 9:00 a.m. to 4:00 p.m. Comments: Comments must be received on or before December 15, 1978. Public hearing record: The public hearing record will close January 15, 1979.

ADDRESSES: Hearing held: GSA Auditorium, 18th and F Streets NW., Washington, D.C..

FOR FURTHER INFORMATION CONTACT:

Mr. Don R. Goodwin, Director, Emission Standards and Engineering Division (MD-13), Environmental Protection Agency, Research Triangle Park, N.C. 27711, telephone 919-541-5271.

SUPPLEMENTARY INFORMATION: On September 19, 1978, EPA proposed standards of performance for electric utility steam generating units under the authority of section 111 of the Clean Air Act and announced a public hearing. Comments were to be received on or before November 20, 1978, the public hearing was scheduled to be held on November 29-30, 1978, and the record of the public hearing would remain open for 30 days after completion of the hearing to provide an opportunity for any member of the public to submit rebuttal and supplementary information on the data presented at the hearing.

This notice changes those dates to the following:

Comments: Comments are to be received on or before December 15, 1978.

Public hearing: The public hearing will be held December 12-14, 1978, between the hours of 9:00 a.m. and 4:00 p.m. The public hearing record will remain open until January 15, 1979.

EPA has received requests to extend the times for filing comments on the proposed standards from the Utility Air Regulatory Group, the Sierra Club, the Department of Commerce, and others. EPA believes that the schedule changes provided in this notice should satisfy these requests.

Persons wishing to make oral presentations; which will be limited to 15 minutes each, should notify EPA by November 30, 1978, by contacting Ms. Shirley Tabler, Emission Standards and Engineering Division (MD-13), Environmental Protection Agency, Research Triangle Park, North Carolina 27711, telephone 919-541-5421. Any member of the public may file a written statement with EPA before, during, or within 30 days after the hearing. Written statements should be addressed to Mr. Jack R. Farmer, Chief, Standards Development Branch (MD-13), Emission Standards and Engineering Division, Environmental Protection Agency, Research Triangle Park, N.C. 27711.

The public hearing will be legislative in nature with EPA officials empaneled to receive testimony and ask questions of all witnesses. Persons interested in testifying at the hearing should advise EPA as instructed above. If time permits, the third day of the hearing may be used by the hearing officer to have a panel discussion of the issues raised during the hearing. A verbatim transcript of the hearing and written statements will be available for public inspection and copying during normal working hours at the Environmental Protection Agency's Central Docket Section, Room 2903B, Waterside Mall, 401 M Street, SW., Washington, D.C. 20460 (Docket No. OAQPS-78-1).

In addition to revising the comment period and hearing schedule, the Agency also recognizes that the organization of the public hearing itself will have to be changed. Initially, the public hearing was to serve as a forum for clarifying, supplementing, and rebutting previously submitted written statements. This approach anticipated that most written statements would be available for review by the public in advance of the close of the comment period and that only a limited amount of time would be required between the close of the comment period and the public hearing for review of those comments received near the deadline. However, a number of individuals have indicated they will not be able to complete and submit their comments as early as contemplated by this approach.

The extension of the comment period in response to the requests of these parties will make it impossible to follow EPA's original intention of having a nine-day interval between the close of the comment period and the beginning of the hearing and still comply with the terms of the consent order issued by the U.S. District Court for the District of Columbia. The order requires the standards to be promulgated by March 20, 1979. However, all interested persons will still be provided the opportunity to reply to one another's comments and submit supplemental information, as the record will be held open for thirty days after comments are due. Upon completion of this 30-day period (January 15, 1979), the record will be closed in order to provide sufficient time for the Administrator to carefully weigh all evidence submitted and to make the final decision on the basis of the formal record.

V 43 I 227 NOV 0247 8 V

Dated: November 16, 1978.

DAVID D. HAWKINS,
Assistant Administrator for Air, Noise, and Radiation.

AIR QUALITY CONTROL REGIONS, CRITERIA AND CONTROL TECHNIQUES

Section 107—Attainment Status Designations; Extension of Comment Period

AGENCY: Environmental Protection Agency, (EPA).

ACTION: Proposed rule.

SUMMARY: The purpose of this notice is to extend the public comment period for the proposed designation of Valdez, Alaska as a nonattainment area for the primary sulfur dioxide (SO_2) national ambient air quality standard.

DATES: Comments are due by January 12, 1979.

ADDRESS: Environmental Protection Agency, Region 10 M/S 629, 1200 Sixth Avenue, Seattle, Washington 98101; Environmental Protection Agency, Public Information Reference Unit, Room 2922, 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Clark L. Gaulding, Chief, Air Programs Branch, Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101, telephone 206-442-1230 (FTS 399-1230).

SUPPLEMENTARY INFORMATION: On September 11, 1978 (43 FR 40436) EPA proposed a change to revise the attainment status of Valdez, Alaska to non-attainment for SO_2. The action is part of a nationwide activity to designate all areas attainment or non-attainment for the national ambient air quality standards as required by Section 107 of the Clean Air Act Amendments of 1977.

Public comments on the proposed change were invited for a period of 60 days (November 13, 1978). EPA Region 10 has received several requests to extend the comment period for an additional 60 days.

In view of the potential impact of the designation upon Valdez, EPA is hereby extending the public comment period for 60 days, to January 12, 1979. Comments on the proposed redesignation should be addressed to Clark L. Gaulding at the address listed above. Comments received will be evaluated and a final designation published in the FEDERAL REGISTER.

(Secs. 107(d), 171(2), 301(a), of the Clean Air Act amended (42 U.S.C. 7407(d), 7501(2), 7601(a)).)

Dated: November 14, 1978.

DONALD DUBOIS,
Regional Administrator.

FEDERAL MARITIME COMMISSION

[46 CFR Part 502]

[Docket No. 78-47]

MISCELLANEOUS AMENDMENTS TO RULES OF PRACTICE AND PROCEDURE

Proposed Rulemaking

AGENCY: Federal Maritime Commission.

ACTION: Proposed rulemaking.

SUMMARY: The Federal Maritime Commission hereby proposes to revise its rules of practice and procedure so that the Commission will be able to comply with the requirements of the recently enacted amendment to the Intercoastal Shipping Act, 1933. That legislation mandates that the Commission render final decisions on matters arising under the Act within 180 days of the effective date of a given filing. Under the existing rules of practice and procedure, the Commission would be unable to adhere to the deadline imposed by the Congress. The rules must therefore be modified to effectuate the legislative intent to expedite the Commission's decisionmaking process. The proposed revisions will provide procedural guidelines for participants in proceedings under the Act which will allow for prompt adjudication by the Commission.

DATE: Comments will not be accepted later than December 14, 1978.

ADDRESS: Comments should be directed to: Francis C. Hurney, Secretary, Federal Maritime Commission, 1100 L Street, NW., Washington, D.C. 20573, 202-523-5725.

FOR FURTHER INFORMATION CONTACT:

Francis C. Hurney, 202-523-5725.

SUPPLEMENTARY INFORMATION: The Congress recently enacted an amendment to the Intercoastal Shipping Act, 1933, which was designed in part to expedite the Federal Maritime Commission's decisionmaking process as it relates to the regulation of the domestic offshore trades. A strict procedural schedule was imposed upon Commission adjudication of matters arising under the Act. The new legislation requires that decisions rendered by the Commission be reached within 180 days after the rate, fare, charge, classification, or regulation becomes effective. Additional subdeadlines were established by the Congress for the expeditious resolution of issues before the Commission. The evidentiary phase of the hearing is to be completed within the initial 60 days. The Administrative Law Judge is to submit an initial decision to the Commission within 60 days thereafter. A final decision will then be issued by the Commission within 180 days of the effective date of the filing. Extensions of up to 60 days are authorized, but limited to extraordinary circumstances. The legislative intent is clear. The Commission is to render decisions under the Intercoastal Shipping Act promptly and efficiently.

The Commission's present rules of practice and procedure are patterned closely after the Federal Rules of Civil Procedure. They work well in adjudicatory proceedings but often lead to delay in rate proceedings. Rule 67(c) of the Commission's rules of practice and procedure was an attempt to devise a procedure that would expedite proceedings brought under section 3 of the intercoastal Shipping Act, 1933. Although the objective of Rule 67(c) is sound, a number of modifications are required in view of the new legislation.

The proposed revisions in the rules of practice and procedure will require the carrier to file its entire direct case with any general increase in rates 60 days prior to the proposed effective date of the change. All necessary testimony, exhibits, and underlying data will be readily available to protestants and other interested parties. Protestants will be required to file protests against proposed changes in tariffs not later than 30 days prior to the proposed effective date of the changes. At present, protests may be made up to 15 days before the date the tariff is to become effective. A particularly important modification effectuated by the revised rules involves the quality of the protest to be filed with the Commission. Under the current rules, protests need only identify the tariff in question and specify the items opposed and the grounds for that opposition. The revised rules require the inclusion of extensive additional material. Protests will have to identify specific areas of dispute and disclose the protestant's position regarding those issues; justify the need for a hearing; designate additional data required of the carrier; and identify the witnesses and documents the protestant will produce at the hearing.

Within 7 days after the effective date of the changes, Hearing Counsel and any protestants will be required to serve on all parties all testimony and exhibits constituting the direct case, as well as the underlying data. It is anticipated that the exchange of testimony, exhibits, and underlying data by all parties will obviate the need for lengthy discovery. The various participants will have immediate access to information which would have ultimately been disclosed to them and a significant savings of time and expense will have been achieved.

Subsequent to the exchange of information, a prehearing conference will be scheduled. The revised rules dictate that each party file a prehearing statement prior to the date of the conference. The prehearing statement is designed to assist the Administrative Law Judge in identifying those issues subject to actual dispute and those which can be readily resolved, in determining the need for and scope of cross-examination, and in assessing the needs of the parties for additional witnesses and documents. The prehearing conference will be utilized to simplify, clarify, and limit the issues to be resolved and to establish the nature and scope of the procedure suited to the resolution of those issues. The prehearing conference will allow for the prompt disposal of preliminary matters and thereby serve to speed the ultimate decisionmaking process.

Having limited the issues to the extent possible and established a procedure for their resolution, the Administrative Law Judge will rule upon matters presented for his determination, either orally upon the record, or by subsequent ruling in writing.

If the parties adhere strictly to the procedural schedule established by the revised rules, the Commission will be able to render a final decision within 180 days of the effective date of the tariff filing. The revised rules allow for immediate and complete access to essential material and supply the necessary procedural mechanisms to expedite the decisionmaking process.

Accordingly, it is proposed that Title 46 CFR be amended by the addition of a Revised § 502.67 as set forth below. Existing § 502.67 (General Order 16) will be replaced by new regulations resulting from this rulemaking.

Therefore, pursuant to section 4 of the Administrative Procedure Act (5 U.S.C. 553), sections 21, 27, and 43 of the Shipping Act, 1916 (46 U.S.C. 820, 826, 841(a)), and section 3 of the Intercoastal Shipping Act, 1933 (46 U.S.C. 845), Part 502 of Title 46, Code of Federal Regulations is amended as set forth hereinafter.

Section 502.67 is deleted and new paragraphs (a), (b), (c), (d), (e), (f), (g), and (h) are substituted as follows:

§ 502.67 Proceedings under section 3(a) of the Intercoastal Shipping Act, 1933.

(a) No general increase in rates or general decrease in rates shall take effect before the close of the 60th day after the day it is posted and filed with the Commission. The carrier will file concurrently with any general increase or decrease in rates, testimony and exhibits of such composition, scope, and format that they will serve as the carrier's entire direct case in the event the matter is set for formal investigation together with all underlying data (including workpapers used in the preparation of the testimony and exhibits). Copies of testimony, exhibits and underlying data will be served simultaneously on the Attorney General of every State, Commonwealth, Possession, or Territory having ports in the trade that are served by the carrier. In addition, the testimony, exhibits and underlying data shall be made available at every port in the trade at the offices of the carrier during ususal business hours for inspection and copying by any person.

(b) (1) Protests against a proposed general increase or general decrease in rates made pursuant to section 3 of the Intercoastal Shipping Act, 1933, may be made by letter and shall be filed with the Director, Bureau of Ocean Commerce Regulation and the carrier not later than thirty (30) days prior to the proposed effective date of the proposed changes. In the event due date for protests falls on a Saturday, Sunday, or national legal holiday, protests must be filed with the Director, Bureau of Ocean Commerce Regulation and the carrier no later than the last business day preceding the weekend or holiday. Persons filing protests pursuant to this section shall be made parties to any docketed proceeding involving the matter protested, provided that the issues raised in the protest are pertinent to the issues set forth in the order of investitation and do not unduly broaden them. Protests shall contain the following:

(i) Identification of the tariff in question;

(ii) Specific reference to the items opposed;

(iii) Grounds for opposition to the change;

(iv) Identification of any specific areas of the carrier's testimony, exhibits, or underlying data that are in dispute and a statement of position on each area in dispute;

(v) Specific reasons why a hearing is necessary to resolve the issues in dispute;

(vi) Any requests for aditional carrier data;

(vii) Identification of any witnesses protestant would produce at a hearing, a summary of their testimony and identification of documents protestant would offer in evidence, and

(viii) A subscription and verification.

(2) Protests against other proposed changes in tariffs made pursuant to section 3 of the Intercoastal Shipping Act, 1933, shall be filed not later than twenty (20) days prior to the proposed effective date of the change. The provisions of paragraph (b)(1) of this section relating to the form, place, and manner of filing protests against a proposed general increase or general decrease in rates shall be applicable to protest against other proposed changes in tariffs.

(c) Replies to protests shall conform to the requirements of § 502.74 (Rule 74).

(d) In the event the matter is made subject to a docketed proceeding, Hearing Counsel and all protestants will serve testimony, exhibits constituting their direct case, together with underlying data (including workpapers used in the preparation of the testimony and exhibits) on all parties and the Administrative Law Judge no later than seven (7) days after the tariff matter takes effect or, in the case of suspended matter, seven (7) days after the matter would have otherwise gone into effect.

(e) (1) Subsequent to the exchange of testimony, exhibits, and underlying data by all parites, the Administrative Law Judge shall direct all parities to attend a prehearing conference to consider the following:

(i) Simplification of issues;

(ii) Identification of issues which can be resolved readily on the basis of documents, admissions of fact, or stipulations;

(iii) Identification of any issues which require evidentiary hearing;

(iv) If evidentiary hearing is necessary, limitation of witnesses and areas of cross-examination, and

(v) Requests for subpenas.

(2) After considering the procedural recommendations of the parties, the Administrative Law Judge will limit the issues to the extent possible and establish a procedure for their resolution.

(3) The Administrative Law Judge shall rule upon matters presented for his decision, orally upon the record when feasible, or by subsequent ruling in writing.

(f) (1) It shall be the duty of every party to file a prehearing statement on a date specified by the Administrative Law Judge but in no event no later than the date of the prehearing conference.

(2) A prehearing statement shall state the name of the party or parties on whose behalf it is presented and briefly set forth the following matters:

(i) Identification of issues which can be resolved readily on the basis of documents, admissions of fact, or stipulations;

(ii) Identification of any issues which require evidentiary hearing together with the reasons why these

Dated: November 17, 1978.

tusville, Fla., is permitted by special

7. The Refuge will be closed to fish-

issues cannot be resolved readily on the basis of documents, admissions of fact, stipulations, or an alternative procedure;

(iii) Requests for cross-examination of the direct written testimony of any witness, including an identification of the witness, the subjects upon which the witness will be examined and the reason why alternatives to cross-examination are not feasible;

(iv) Requests for additional witnesses and documents, including an identification of the witnesses and the documents to be produced by the witnesses at the evidentiary hearing, together with the reasons why the record would be deficient in the absence of this evidence, and

(v) Procedural suggestions that would aid in the timely disposition of the proceeding.

(g) The provisions of this section are designed to enable the Administrative Law Judge to complete a hearing within sixty (60) days after the proposed effective date of the changes and submit an initial decision to the Commission within one hundred twenty (120) days as required by section 3(b) of the Intercoastal Shipping Act, 1933. The Administrative Law Judge may employ any other provision of the Commission's rules of practice and procedure, not inconsistent with this section, in order to meet this objective. Exceptions to the decision of the Administrative Law Judge, filed pursuant to § 502.227 (Rule 227) shall be served no later than fifteen (15) days after date of service of the initial decision. Replies thereto shall be served no later than ten (10) days after date of service of exceptions.

(h) Intervention of persons other than protestants ordinarily will not be granted. In the event intervention of such persons is granted, the Administrative Law Judge or the Commission may attach such conditions or limitations as are deemed necessary to effectuate the purpose of this section.

By the Commission.

FRANCIS C. HURNEY,
Secretary.

OFFICE OF MANAGEMENT AND BUDGET

Office of Federal Procurement Policy

[48 CFR Part 9]

FEDERAL ACQUISITION REGULATION PROJECT

Availability and Request for Comment

AGENCY: Office of Federal Procurement Policy, Office of Management and Budget.

ACTION: Notice of Availability and Request for Comment on draft Federal Acquisition Regulation regarding; Responsible Prospective Contractors, Qualified Products, and First Article Testing and Approval.

SUMMARY: The Office of Federal Procurement Policy is making available for public and Government agency review and comment a segment of the draft Federal Acquisition Regulation (FAR). Additional segments will be announced for availability and comment on later dates. The regulation is being developed to replace the current system of procurement regulations. It will be a single uniform acquisition regulation for use by all Federal executive agencies in the acquisition of supplies and services with appropriated funds.

DATE: Comments must be received on or before January 24, 1979.

ADDRESS: Obtain copies of the draft regulation from and submit comments to William W. Thybony, Assistant Administrator for Regulations, Office of Federal Procurement Policy, 726 Jackson Place NW., Room 9025, Washington, D.C. 20503.

FOR FURTHER INFORMATION CONTACT:

William Maraist, or Strat Valakis, 202-395-3300.

SUPPLEMENTARY INFORMATION: The fundamental purpose of the FAR is to reduce the proliferation of regulations; to eliminate conflicts and redundancies; and to provide an acquisition regulation that is simple, clear and understandable. The intent is not to create new policy. However, because new policies may arise concurrently with the FAR project, the notice of availability of draft regulations will summarize the section or part available for review and describe any new policies therein.

The following subparts of the draft Federal Acquisition Regulation are available for public and Government agency review and comment.[1]

PART 9—CONTRACTOR QUALIFICATIONS

SUBPART 9.1—RESPONSIBLE PROSPECTIVE CONTRACTORS

SUBPART 9.2—QUALIFIED PRODUCTS

SUBPART 9.3—FIRST ARTICLE TESTING AND APPROVAL

9.1 Responsible Prospective Contractors—This Subpart prescribes policy, standards and procedures for determining whether a prospective contractor or subcontractor is responsible. It contains a responsibility standard to emphasize Walsh-Healey Public Contracts Act requirements where applicable. Also, it provides for considerable standardization of preaward survey procedures and modification of DD 1524 into a Standard Form. This change is responsive to a recommendation of the Commission on Federal Paperwork. Additionally, special provisions concerning responsibility determinations for small businesses are set forth.

9.2 Qualified Products—This Subpart prescribes policies and procedures for the acquisition of items that have been examined and tested for compliance with specifications in advance of a contractual action. It provides for the establishment of Qualified Products Lists (QPL) to identify items so qualified, and establishes policy and procedures to assure that use of a qualified product is fully justified to meet the essential needs of the Government. Responsibilities of a specification preparing activity (SPA) are set forth to provide manufacturers, including small and disadvantaged business concerns, ample opportunity to qualify their products or items. Also, this subpart provides direction to contracting officers regarding solicitation requirements which involve qualified products and conditions for removal or omission of a product from a QPL.

Qualified Products contract clauses are provided with the text for review. They will be published in Part 52 of the completed FAR.

9.3 First Article Testing and Approval—This Subpart sets forth policy with respect to testing and approval of preproduction models, initial production samples, first lots, pilot lots and pilot models. It provides for such testing and approval when it is necessary to ensure that the contractor can furnish an item that conforms to all contractual requirements for acceptance.

First Article Testing and Approval contract clauses are provided with the text for review. They will be published in Part 52 of the completed FAR.

No significant policy changes are proposed for Subparts 9.1 and 9.2. Proposed policy changes to 9.3 include: (i) Elimination of the requirement for a contracting officer to secure higher level approval before authorizing a contractor to acquire specific materials, before first article approval, (ii) a requirement that all solicitations containing a first article testing and approval provision also permit alternative offers, with or without, a first article testing and approval requirement, and (iii) expansion of the term "first article approval" to "first article testing and approval" because the latter is more accurate and descriptive.

[1] A copy of the draft regulation is filed with the original document.

Dated: November 17, 1978.

LESTER A. FETTIG,
Administrator.

DEPARTMENT OF THE INTERIOR

Fish and Wild Life Service

[50 CFR Part 26]

MERRITT ISLAND NATIONAL WILDLIFE REFUGE, FLORIDA

Public Entry and Use

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed special regulations.

SUMMARY: The Director has determined that commercial fishing in designated areas of Merritt Island National Wildlife Refuge is compatible with the objectives for which the area was established, and will utilize a renewable natural resource. In the past, conflicts between commercial fishermen, sport fishermen, the Kennedy Space Center, and otheres using the Refuge have occurred. These regulations will reduce conflicts between the affected parties by designating closed areas and establishing fishing quotas.

DATE: Comments on this proposed rulemaking will be accepted until December 26, 1978.

ADDRESS: Send comments to: Stephen R. Vehrs, Refuge Manager, Merritt Island National Wildlife Refuge, P.O. Box 6504, Titusville, Fla. 32780, telephone 305-867-4820.

FOR FURTHER INFORMATION CONTACT:

Stephen R. Vehrs, Refuge Manager. (same address).

SUPPLEMENTARY INFORMATION: The primary author of this document is Stephen R. Vehrs.

BACKGROUND

Merritt Island National Wildlife Refuge is proposing regulations governing commercial fishing within its boundaries. Some of the areas open to commercial fishing are also open to public sport fishing, boating, hunting, photography, and nature observation. Additionally, portions of the Refuge are within the Kennedy Space Center security area and are closed to commercial fishing. The proposed regulations will reduce conflicts between commercial fishermen, sport fishermen and the other special interest groups using the Refuge and designated areas closed to commercial fishing. Commercial fishing in the Merritt Island National Wildlife Refuge, Titusville, Fla., is permitted by special use permit in accordance with applicable State and Federal regulations, subject to additional special regulations and conditions as indicated. Portions of the refuge which are open to commercial fishing are designated by signs and/or delineated on the refuge map. As provided by 50 CFR 26.34, the Service hereby proposes the following special regulations:

§ 26.34 Special regulations concerning public access, use, and recreation on individual national wildlife refuges.

FLORIDA

MERRITT ISLAND NATIONAL WILDLIFE REFUGE

1. Fishing is permitted in the open waters of the Indian River, Banana River, and Mosquito Lagoon except for the Kennedy Space Center security areas.

2. No more than 20 total fish daily may be taken from the K.A.R.S. Marina in the banana River or Eddy Creek "trout hole" in Misquito Lagoon during the period October 1-March 31 annually, by any individual sport or commercial fishermen.

3. A refuge annual Special Use Permit is required of persons who commercially fish or crab on Merritt Island, N.W.R. The permit is available at the refuge headquarters, subject to an annual permit fee of $5 In addition, an annual $20 docking and gear storage fee will be charged individual commercial fishermen using the former Beacon 42 Fish Camp. A numbered site will be assigned each permittee. The maintenance and upkeep of each site will be the sole responsibility of the permittee. No overnight storage will be permitted at Haulover Canal (Bairs Cove).

4. Boat Launching on the refuge for commercial fishing between sunset and sunrise is permitted only at Beacon 42 Fish Camp and Bairs Cove. Air thrust boats are not allowed on refuge waters. Coast Guard approved life preservers shall be worn by persons in small craft less than 20 feet in length while these boats are in motion in the Indian River, Banana River, and Mosquito Lagoon within refuge boundaries.

5. A monthly commercial fishing report shall be submitted to the refuge manager, to include species and poundage of fish caught on the refuge. Non-compliance for two consecutive reporting periods subjects the permittees to cancellation of their annual permit.

6. Mosquito control impoundments are closed to commercial fishing year around except with specific written authorization from the refuge manager.

7. The Refuge will be closed to fishing at certain unannounced times during Space Center operations. Local news sources will provide a security schedule for the Space Center.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular A-107.

Dated: November 16, 1978.

JOHN C. OREHEU,
Acting Area Manager.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Part 611]

TRAWL FISHERIES OF WASHINGTON, OREGON, AND CALIFORNIA

Second Supplement to the Final Environmental Impact Statement/Preliminary Fishery Management Plan; Hearings

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of public hearings.

SUMMARY: The National Marine Fisheries Service will conduct a series of hearings on the proposed 1979 changes in the Preliminary Fishery Management Plan (PMP), as amended and the Final Environmental Impact Statement for the Trawl Fisheries of Washington, Oregon, and California. The PMP governs foreign fishing for Pacific hake and jack mackerel in the fishery conservation zone off Washington, Oregon, and California.

Under this proposed amendment, the total allowable catch (TAC) for Pacific hake will be 198,900 metric tons. Twenty percent of the hake TAC is set aside in reserve; the estimated domestic annual harvest (DAH) is 50,000 mt of hake, and the total allowable level of foreign fishing (TALFF) for hake is 109,120 mt. For the jack mackerel fisheries the proposed TAC is 55,000 mt, DAH is estimated to be 51,000 mt and TALFF is 4,000 mt. No significant adverse economic or environmental effects are anticipated as a result of the proposed amendment.

[50 CFR Part 611]

TANNER CRAB OFF ALASKA

Proposed Regulations

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Proposed regulations.

SUMMARY: Section 611.91 regulating foreign fishing for Tanner crab off Alaska is again published in its entirety as proposed rulemaking for public comment. Several changes and additions are made to the previous proposed rules published on May 16, 1978 (43 FR 21170). Most of the changes are primarily editorial. In addition, § 611.91(b)(2) has been amended to make it clear that Tanner crab may be retained only by vessels conducting a directed fishery for Tanner crab. The total allowable level of foreign fishing (TALFF) will appear in § 611.20 instead of in § 611.91(b). Allocations to foreign nations will be announced by the Department of State. A new § 611.91(d)(2) provides that foreign vessels may not possess crab pots in the FCZ while engaging in any other fishery.

These proposed rules should be read in conjunction with the proposed Foreign Fishing Regulations as published in the FEDERAL REGISTER on November 2, 1978 (43 FR 51053), particularly Subpart A and § 611.90 which apply to the Tanner crab fishery. The proposed total allowable level of foreign fishing (TALFF) for Tanner crab in the Bering Sea is 15,000 metric tons. Comments are solicited on the proposed regulations as published herein.

DATE: Comments on the proposed rules will be received until November 30, 1978.

ADDRESS: Comments should be addressed to: Assistant Administrator for Fisheries, National Oceanic and Atmospheric Administration, 3300 Whitehaven Street NW., Washington, D.C. 20235. Please mark the envelope "Alaska Tanner Crab."

FOR FURTHER INFORMATION CONTACT:

Mr. Harry Rietze, Director, Alaska Region, National Marine Fisheries Service, Box 1668, Juneau, Alaska, 99802, telephone 907-586-7221.

Signed at Washington, D.C. this 17th day of November, 1978.

(16 U.S.C. 1801 et seq.)

WINFRED H. MEIBOHM,
Acting Executive Director,
National Marine Fisheries Service.

50 CFR 611.20 and 611.91 are amended to read as follows:

§ 611.20 (Amended).

In § 611.20 *Total allowable level of foreign fishing* (as proposed for 1979, 43 FR 51053, at 51100), in Table I, the entry for "501 and 610—crab, tanner—crab—Reserved" is amended to delete the reference to "Reserved" and to insert "15,000."

§ 611.91 Tanner crab fishery.

(a) *Purpose.* This section regulates foreign fishing for Tanner crab (all species of the genus Chionoecetes, including C. bairdi, C. opilio, and hybrids) in the Bering Sea.

(b) *Authorized fishery.* (1) Foreign vessels may engage in fishing only in accordance with applicable national allocations provided that the fishery has not been closed under § 611.15.

(2) The Tanner crab fishery may be conducted only as a directed fishery. Notwithstanding the fact that there may be an applicable national allocation of Tanner crab and the fact that a vessel may be permitted in the Tanner crab fishery in addition to the snail fishery and/or the Bering Sea and Aleutian Island fishery, Tanner crab caught while engaged in another fishery may not be retained.

(c) *General restrictions.* No foreign vessel may retain any female or soft shell Tanner crab. All female or soft shell Tanner crabs and all other species of crabs shall be immediately returned to the sea in a manner which minimizes handling mortality, and in accordance with § 611.13.

(d) *Gear restrictions.* (1) It shall be unlawful for a foreign vessel fishing for Tanner crab to use gear other than crab pots. A crab pot is defined as a portable structure designed and constructed to capture and retain crabs alive in the water.

(2) It shall be unlawful for a foreign fishing vessel to possess crab pots in the FCZ while engaging in any other fishery.

(e) *Open area.* Foreign fishing vessels may fish for Tanner crab in the Bering Sea, except as restricted in § 611.91(f).

(f) *Closed area.* No foreign vessel may fish for Tanner crab:

(1) Within 12 nautical miles of the baseline used to measure the U.S. territorial sea; (2) south of 58° N. latitude; or (3) east of 164° W. longitude.

(g) *Processing.* No foreign fishing vessel operating with a factory ship may process Tanner crabs. All crabs taken by such vessels must be processed solely by a factory ship permitted in the Tanner crab fishery.

(h) *Loading and off-loading.* Tanner crabs must be taken aboard factory ships in a manner in which an observer can verify the total weight of crabs taken aboard. Tanner crabs off-loaded within the fishery conservation zone from fishing vessels not operating with a factory ship must be transferred in a manner in which an observer can verify the total weight of the crabs off-loaded.

(i) *Predeparture inspection.* No foreign Tanner crab catching vessels, other than those operating with a factory ship, may depart from the fishing area until its catch of crabs onboard is checked by an observer or an authorized officer. Fishing is prohibited after the predeparture inspection.

(j) *Additional reports.* (1) *Daily report:* Foreign Tanner crab catching vessels, other than those operating with a factory ship, shall report daily to the Regional Director:

(i) Its 12 noon (G.m.t.) position,

(ii) The preceding day's catch by species (C. bairdi, C. opilio, and hybrids), and

(iii) Its cumulative catch.

(2) *Weekly catch report.* The weekly catch report (required by § 611.9(e)) shall be submitted to the Regional Director within 6 days following each 7-day period, and contain additional information concerning:

(i) Effort in total pot lifts during the 7-day period, and

(ii) Catch in metric tons and number of crabs by species C. opilio, C. bairdi, and hybrids caught during the 7-day period.

(3) *Annual report.* Each nation whose vessels engage in this fishery shall report by May 30, of the following year annual catch and effort statistics as follows: Effort in number of pots hauled and hours pots soaked; catch in metric tons, and the number of Tanner crabs of the species C. opilio, C. bairdi, and hybrids. Each of these requirements is to be supplied by vessel class, by month, by ½° (lat.) by 1° (long.) statistical area, by the following species grouping: C. bairdi, C. opilio, and hybrids.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

AGRICULTURAL CONSERVATION PROGRAM (ACP)

Proposal To Establish Policies, Guidelines and Procedures To Govern the 1979 Agricultural Conservation Program

AGENCY: Agricultural Stabilization and Conservation Service, USDA.

ACTION: Notice of proposed policies, guidelines, and procedures.

SUMMARY: ASCS proposes to establish policies, guidelines, and procedures to govern the 1979 Agricultural Conservation Program. This program provides financial incentives and assistance to agricultural producers to carry out soil and water conservation and pollution abatement practices and measures. A list of practices and measures thought to be consistent with the proposed policies, guidelines and procedures and, therefore, eligible for ACP assistance is also proposed.

DATES. This notice invites written comments on the proposed policies, guidelines and procedures. In order to be assured of consideration, comments must be received on or before December 26, 1978.

ADDRESS COMMENTS TO: Alan D. Durick, Acting Director, Conservation and Environmental Protection Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Room 3096 South Building, Washington, D.C. 20013. Comments will be available for public inspection at the Office of the Acting Director during regular business hours (8:15 a.m. to 4:45 p.m.)

FOR FURTHER INFORMATION CONTACT:

Gardner P. Smith, Deputy Director (ASCS), Washington, D.C. 20013, 202-447-5295.

SUPPLEMENTARY INFORMATION: This proposed action is being taken pursuant to the provisions of P.L. 95-448. The Agriculture, Rural Development, and Related Agencies Appropriations Act for fiscal year 1979. This act specified the general purposes and conditions under which financial assistance can be provided under ACP. On October 13, 1978, advance notice of forthcoming decisions on these matters was published (43 FR 47224). That notice invited comments, suggestions and other inputs from the public to be considered in the development of this proposal.

Subsequently, a revised notice was published on November 13, 1978 (43 FR 52507) stating that publication of the proposal would be postponed and that it would be necessary to reduce the comment period in the proposal from 60 to 30 days since the 1979 ACP must be operational by January 1, 1979.

A draft impact analysis is available from ASCS at the address listed above.

The environmental implications of the ACP have been thoroughly reviewed. A final program environmental impact statement (EIS) was issued in June 1974. The actions reflected in this proposal are reflected in the earlier EIS. Consequently, that document is considered applicable to this proposal.

PROPOSAL:

I. Program Objectives.

A. The objectives of the 1979 agricultural conservation program are:

1. To help ensure adequate supplies of food and fiber through the conservation of soil and water resources used in agriculture; and

2. To help prevent degradation of the human environment as affected by agriculture and to help provide for the enhancement of the environment where agricultural activities have caused it to deteriorate.

II. Achieving Program Objectives.

A. Policies.

1. Role of the Program.

a. The role of the Agricultural Conservation Program is to assist the owners and users of private agricultural lands and water to meet national conservation and environmental protection objectives.

b. The program's role is to be carried out by offering the minimum financial incentive or assistance necessary to insure the installation of measures and practices consistent with the achievement of national objectives.

c. In no event should the program be used to assume private responsibilities for the wise use and conservation agricultural resources and protection of the environment. Rather the program recognizes the public benefits from such measures and provides incentives to producers to voluntarily carry out such responsibilities.

2. Operation of the Program.

a. Financial incentives and assistance are to be provided only for those measures and practices that can be expected to provide effective, enduring solutions to conservation and environmental protection problems relating to the:

(1) Conservation of the productivity of the agricultural soil resource base;

(2) Conservation of water by increasing the efficiency of its use in agriculture;

(3) Protection and enhancement of the natural environment as affected by agricultural activities, especially as they relate to water quality;

(4) Avoidance of unnecessary increases in the private and social costs of producing agricultural commodities.

b. To avoid expenditure of funds that will not contribute to the objectives of the program, assistance will not be provided for measures and practices that are:

(1) Primarily production-oriented; or

(2) Have little or no soil or water conservation or pollution abatement benefits.

B. Guidelines.

1. Practice Lifespans.

a. To help ensure provision of enduring solutions to conservation and environmental protection problems, participants in the program must agree to maintain practices and measures for a specified minimum number of years (practice lifespan) as a condition of receiving financial incentives or assistance. Failure to maintain practices or measures for the specified lifespan will require that all or part of the Federal funds provided for the installation of the practice be refunded.

2. Cost-sharing.

a. To help ensure maximum achievement of program objectives with appropriated funds, the Federal share of the costs to install eligible practices and measures should be the amount necessary to ensure installation of practices or measures. To this end, the Federal cost-share should reflect the degree to which appropriate conservation or pollution abatement practices will be applied in the absence of financial assistance.

b. For annual agreements, cost-share levels up to 80 percent of the cost to install practices or measures are authorized. Higher rates may be authorized by the Secretary or his designee with proper justification.

c. For long-term agreements, cost-share levels of not less than 50 percent and not more than 75 percent of the costs to install practices and measures are authorized.

d. The Federal share of the cost to install conservation and pollution abatement practices should reflect the extent to which public benefits will be derived from it. Public benefits relate to offsite damages reduced by a practice or to conservation benefits that do not ordinarily provide sufficient short-term economic return to cause the producer to carry out the practice without the cost-share incentive. Federal and private cost-shares to install practices and measures should reflect public and private benefits to be realized from them.

e. The Federal share of the costs of installing practices and measures shall be reduced accordingly as the potential for short-term economic return from the practices increases. This applies only to practices yielding both conservation or pollution abatement and potential economic benefits. Practices yielding primarily economic benefits shall be considered as production-oriented and therefore, ineligible for assistance.

3. Practices and Measures Not Eligible for Assistance.

a. Incentives or assistance under the agricultural conservation program should not be provided in situations where applicants must install practices or measures as a condition of receiving assistance through other Federal programs. Specifically, ACP assistance should not be provided:

(1) For practices or measures representing the minimum protection required on set-aside acreage. This includes establishment of annual grasses, legumes, small grains, and temporary tillage operations, etc. (Cost-sharing for enduring practices on set-aside acreage may be authorized.)

(2) For non-cost-shared practices, measures, or other elements as required in the contracts of participants in the Great Plains Conservation Program or the Rural Clean Water Program or similar Federal Programs.

(3) For installation of practices or measures financed in total or in part through grants made by the Farmers Home Administration.

C. Eligible Practices.

1. Criteria for Determining Eligible Practices: To be eligible for cost-sharing under the agricultural conservation program, a practice or measure should meet all of the following criteria:

a. Provide solutions to problems relating to conserving soil and water resources or protection of the environment, or both; and

b. Yield benefits to the general public through the abatement or prevention of offsite pollution from agricultural activities or providing soil or water conservation benefits beyond what the participants can carry out using their own resources; and

c. Yield sufficient soil and water conservation or pollution abatement benefits so as to provide an effective solution to the problem addressed; and

d. Not yield sufficient short-term economic returns to the applicant that it may be considered as primarily production-oriented; and

e. Not violate the letter or spirit of Federal, State or local laws, executive orders, regulations, ordinances or other such instruments.

2. Practices thought to meet the proposed criteria and therefore eligible for cost-sharing assistance.

a. Prevention of soil loss from water and wind erosion.

(1) Permanent Vegetative Cover Establishment. This practice is intended to provide permanent protection to farm or ranch land subject serious wind or water erosion. There will be minimum lifespan of 5 years following the calendar year in which the seeding was made.

(2) Permanent Vegetable Cover Improvement. The purpose of this practice is to provide long-range protection to farm or ranch land subject to serious wind or water erosion through improvement of existing permanent vegetative cover. There will be a minimum lifespan of 5 years following the calendar year in which the improvement measures are carried out.

(3) Stripcropping Systems. This practice is intended to provide enduring protection to farm or ranch land subject to serious wind or water erosion by establishment of contour or field stripcropping systems. Cost-sharing will be limited to one time with a person on the same acreage and will reflect costs involved in establishing the strips. Practice lifespan is 5 years following year of installment.

(4) Terrace Systems. This practice is intended to provide maximum control of erosion and sedimentation from cropland. Practice lifespan is 10 years following year of installment.

(5) Diversions. This practice is intended for application where an erosion and sediment problem can be corrected by a single diversion facility as opposed to a terrace system. Subsurface drains essential to the effective operation of diversions are authorized under this practice. The practice lifespan is 10 years following year of installation.

(6) Grazing Land Protection. Cost-sharing is authorized for development of springs, seeps, wells, or dugouts, installing pipelines, storage facilities, cisterns, and artificial watersheds. The practice is intended to provide erosion control on range or pastureland by bringing about better grassland management to prevent destruction of cover due to over-concentration of livestock. The practice lifespan is 10 years following the year of installation.

(7) Windbreak Restoration or Establishment. This practice is applicable to farm or ranch land in need of protection from serious wind erosion. Cost-sharing for planting trees and shrubs for field and farmstead windbreaks is authorized. Practice lifespan is 10 years following year of installation.

(8) Cropland Protective Cover. The purpose of this practice is to provide needed protection from severe erosion on cropland between crops or pending establishment of enduring protective vegetative cover. A good stand and growth must be obtained and must be maintained on the land for a specified period. Assistance will be reduced if the growth is to be grazed or harvested for forage or seed except that grazing or haying may be approved in a designated emergency.

(9) Conservation Tillage Systems. This practice is intended to demonstrate a substantial reduction in soil loss by reducing the tillage operations used in producing a crop. The reduced tillage operations and crop residue management must be performed annually. Therefore, cost-sharing will be limited to only one time with a person. The lifespan is 3 years following the year of installation.

(10) Permanent Vegetative Cover on Critical Areas. Cost-sharing is authorized for measures to stabilize a source of sediment or other pollutant such as gullies, banks, private roadsides, field borders, and similar problem areas. Consideration should be given to establishing cover beneficial to wildlife. Cost-shares for filter strips are authorized. The practice lifespan is 5 years following the year of installation.

(11) Vegetative Row Barriers. This practice is intended to protect cropland from erosion by planting rows of vegetative barriers at intervals across the field. It is an alternative to Windbreak Restoration or Establishment in areas where trees are not practical because of farming methods. The lifespan is 5 years following the year of installation.

(12) Contour Farming. This practice is designed to reduce sediment or pollution from non-terraced cropland subject to serious wind or water erosion. Cost-sharing will be limited to one time with a person on the same acreage. Practice lifespan is 3 years following year of establishment.

b. Solutions to Water Conservation Problems.

(1) Water Impoundment Reservoirs. Assistance for this practice will require erosion control as a purpose along with water conservation. Structures which provide multiple benefits in addition to erosion control and water conservation will be encouraged. That is, special consideration will be given to environmental and wildlife enhancing features. The practice lifespan is 10 years following year of installation.

(2) Spreader Ditches and Dikes. The purpose of this practice is to divert and spread water in low areas to prevent erosion, to permit efficient beneficial use of runoff, and to replenish ground water supply. The practice lifespan is 10 years following year of installation.

(3) Rangeland Moisture Conservation. Cost-sharing is authorized for furrowing, chiseling, rippling, scarifying, pitting, or listing to reduce runoff volume and velocity and to improve water penetration and reduce soil loss. The practice lifespan is 5 years.

(4) Irrigation Water Conservation. This practice must conserve water, or prevent erosion, and reduce pollution of water or land. Cost-sharing is applicable to the reorganization of existing systems on land currently under irrigation, where irrigation will continue, for which an adequate supply of suitable water is available, and where a significant soil or water conservation problem will be solved. The practice lifespan is 10 years following year of installation.

c. Solutions to Water Quality Problems.

(1) Sediment Retention, Erosion or Water Control Structures. This practice is designed to control erosion, including sediment and chemical runoff, from a specific problem area thereby preventing or reducing pollution of water. The practice lifespan is 10 years following year of installation.

(2) Stream Protection. The purpose of this practice is to protect streams from sediment or chemicals by installing vegetative filter strips, protective fencing, livestock crossing, or similar measures. This is not a streambank stabilization practice. The practice lifespan is 10 years following year of installation.

(3) Sod Waterways. This practice is designed to provide a waterway to safely convey excess water across fields at non-erosion velocities into watercourses or impoundments. The waterway is to be protected from erosion and should reduce pollution by filtering out pollutants through the establishment of a sod cover of perennial grasses and/or legumes. The practice lifespan is 10 years following year of installation.

(4) Animal Waste Control Facilities. This practice is designed to provide facilities for the storage and handling of livestock and poultry waste so such waste can be recycled into the land in a manner so as to prevent or abate pollution which would otherwise result from livestock or poultry operations. The practice lifespan is 10 years following year of installation.

(5) Water Management Systems for Pollution Control. This practice is intended for management of water where necessary to maintain the productive capacity of the soil through removal of saline water or removing contaminated water for pollution abatement. This practice is not authorized for drainage of wetlands or soil with high water table. Practice lifespan is 10 years following year of installation.

d. Conservation of Soil and Water Through Forestry.

(1) Forest Tree Plantations. This practice is intended to establish trees or shrubs for forestry purposes and soil protection. Special emphasis under ACP will be given to stabilizing areas subject to wind or water erosion. The practice lifespan is 10 years following year of establishment.

(2) Forest Tree Improvement. This practice is applicable to existing stands of forest trees. It is intended to jointly improve and protect desirable trees for timber production and to provide soil protection. Consideration should be given to the effect of the practice on erosion control, wildlife, and general environmental enhancement. The practice lifespan is 10 years following the year of installation.

e. Conservation of Wildlife Habitat.

(1) Permanent Wildlife Habitat. This practice is intended to provide permanent cover to areas by establishing a permanent stand of trees, shrubs, grasses, and legumes, which also provide good permanent wildlife cover and food. The practice lifespan is 5 years following the year of installaton.

(2) Shallow Water Areas for Water Fowl. The purpose of this practice is to develop new or rehabilitate deteriorated shallow water to a condition that will support food, habitat, and cover for wild aquatic birds and animals. Cost-sharing is authorized for mechanical measures to construct dams, levees, or dikes for impounding water and for planning food plots or protective cover in the flooded area and on embankments. The practice lifespan is 10 years following the year of installation.

f. Procedure for Approval of Additional Practices.

(1) Where local soil and water conservation or pollution abatement problems exist for which the practices and measures listed under paragraph II.C.2 above do not provide effective, least-cost soltions, county ASC Committees may seek approval of additional practices from the Secretary or his designee provided that:

(a) The proposal practice or measure will help achieve program objectives by meeting the criteria for eligible practices listed under paragraph II.C.1 above; and

(b) The proposed practice or measure will be cost-shared and applied in a manner consistent with the policies and guidelines governing the program; and

(c) The proposed practice has been approved by the State ASC Committee.

(2) The Secretary may require that requests for approval of practices not in the State program include the following information:

(a) A description of the nature, extent and severity of the problem to be addressed by the proposed practice;

(b) A description of the means by which the proposed practices or measure will solve the problem;

(c) A description of the nature and estimate of the extent of the offsite or other public benefits to be derived from an application of the practice or measure;

(d) A description of the nature and estimate of the extent of the private benefits to be derived from the application of the practice or measure;

(e) An estimate of the average cost per unit (acre, animal unit, etc.) to install the proposed practice or measure;

(f) A description of the elements of practice installation (grading, seeding, fertilizer, etc.) to be cost-shared;

(g) A statement of the percentage rate or range or rates at which the Committee proposes to offer cost-sharing assistance for the practice.

Signed at Washington, D.C., on November 20, 1978.

STEWART N. SMITH,
Acting Administrator, Agricultural Stabilization and Conservation Service.

CIVIL AERONAUTICS BOARD

[Dockets 33090 and 23080-2; Order 78-11-81]

AAT AIRLINES, INC. D/B/A AIR SUNSHINE

Rates of Compensation; Priority and Nonpriority Domestic Service Mail Rates

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 16th day of November 1978.

In the matter of petition of AAT Airlines, Inc. d/b/a Air Sunshine for Determination of the rates of compensation pursuant to section 406 of the Federal Aviation Act, as amended (Docket 33090) and in the matter of priority and nonpriority domestic service mail rates—phase II (Docket 23080-2): Order to show cause.

AAT Airlines, Inc. d/b/a Air Sunshine (AS) has an exemption from the provisions of section 401 which allows it to transport mail in conformance with the provisions of Agreement CAB 21946-A2.[1] In March 1976, AS began carrying mail in the Miami-Key West market at the multielement rates of 5 cents (Southbound) and 19 cents (Northbound) per pound-mile, the temporary service mail rates fixed by the Board in the *Priority and Nonpriority Service Mail Rate Investigation*, Docket 23080-2. Subsequently, the Postal Service advised AS that on the basis of the rates established by Order 77-12-157, AS had been overpaid by approximately $27,000.

On July 25, 1978, AS filed a petition with the Board for determination of the rate of compensation for the transportation of mail by AS between Miami and Key West via Marathon, Florida, from March 1, 1976 forward.[2] AS contends that the fair and reasonable rate of compensation is the rate which the Postal Service initially paid to AS, 5 cents and 19 cents per pound-mile. Relying on contract theory, AS contends that when it accepted the Postal Service's offer to carry mail at 5 cents and 19 cents, a contract was formed which the Board should enforce.[3] Alternatively, if no contract was formed, there are no rates in effect for the transportation of mail by AS, and the Board should establish the rate initially offered by the Postal Service as the fair and reasonable rate of compensation for the services involved.

Applying principles of equity, AS argues that it would be unfair and unlawful to bind it to Board orders in *Priority and Nonpriority Service Mail Rates—Phase II*, Docket 23080-2, because AS had no notice or knowledge of the existence of that docket; the Postal Service should have advised AS that mail rates were under review in Docket 23080-2; and the record in Docket 23080-2 closed five months before AS began transporting mail. Therefore, AS urges that the Board should not allow the Postal Service to gain an advantage from allegedly unfair or illegal acts.

In response to AS's petition, the Postal Service filed a motion to dismiss, alleging that AS has not complied with 14 CFR 302.303, which requires AS to submit an economic justification to support the reasonableness of the rates proposed; that AS has misstated certain facts; and that *TWA v. Civil Aeronautics Board*, 336 U.S. 601 (1949) prohibits the Board from fixing rates retroactively.

The Postal Service, in addition to moving to dismiss AS's petition, filed a motion in Docket 23080-2 to include AS in that docket in which the Postal Service argues that AS replaced Southeast Airlines as the substitute carrier for National Airlines in the Miami-Key West market and is bound by the orders which included Southeast in Docket 23080-2; AS was or should have been aware that the Postal Service intended to compensate AS at the rates provided in Docket 23080-2, because the Postal Service sent AS a check for fuel adjustment which referred to Orders 74-10-74 and 76-12-60 issued in Docket 23080-2; and the temporary service mail rates should be made applicable to AS because otherwise no rates are in effect for AS's services, since no contract for the carriage of mail was formed between AS and the Postal Service.

AS filed an answer in Docket 23080-2 reiterating the arguments it made in Docket 33090 and raising due process claims, and the Postal Service filed a reply.[4]

Examining the claims of AS, we see no justification to support its contention that the fair and reasonable rates are 5 cents and 19 cents. We agree with the Postal Service that no contract was formed between AS and the Postal Service for the carriage of mail, because the Postal Reorganization Act at 39 U.S.C. § 5402 specifically delineates the conditions and terms under which the Postal Service may engage in contracting; and the instant situation is beyond the scope of the Postal Service's contracting authority. AS's equity argument turns on the issue of notice and is fraught with factual questions, which, if decided against AS, would put the equities in favor of the Postal Service. In any event, the equities are not determinative of this situation.

Turning to the claims of the Postal Service, under Part 302 of the Board's Rules of Practice, a petition to fix and determine the fair and reasonable rates of compensation for the transportation of mail must specify the rate to be established and must be supported by a detailed economic justification. Even though AS's petition may not be in strict compliance with these requirements, we have determined that no useful purpose would be served by holding AS to the strict letter of the rule.[5] Addressing the issue of retroactive application of rates, the Postal Service has misapplied the holding in *TWA v. Civil Aeronautics Board, supra*, because on several occasions the Board has held that when an air carrier commences mail transportation prior to petitioning for an initial mail rate, the Board can make such rate effective from the commencement of the carrier's operations.[6] Lastly, as stated above, the question of notice and knowledge of Docket 23080-2 is not determinative of the issues in this case.

Allowing that AS may not have maintained detailed records to justify its petition, it is still entitled to fair and reasonable compensation for its services. Therefore, we have decided to issue an order to show cause why we should not set the final rate determined by Order 78-11- as the fair and reasonable compensation to be paid to AS by the Postmaster General for AS's services in the Miami-Key West market. After years of considering evidence in Docket 23080-2, today the Board has fixed and determined final domestic service mail rates for the open period commencing March 23, 1973, and for the future. The final rates apply to trunklines, Pan American, local service carriers, section 401 all-cargo carriers, and numerous air taxi/commuter operators. Since the Board has found the final service mail rates fair and reasonable for similar service, we have tentatively decided that these rates are fair and reasonable for AS.

It is unfortunate that AS was not formally made a party to Docket 23080-2, because the present dispute could have been avoided. However, we note that in Order 76-2-76, which granted AS authority to carry the mail, AS was put on notice that its rate of compensation would be computed in accordance with the rates established in Docket 23080-2. In that order, the Board approved an agreement between National Airlines and AS, which substituted AS for Southeast Airlines as the replacement carrier in the Miami-Key West market during the pendency of National's suspension, stating that AS's "proposed replacement services should offer the USPS continued benefits without any increase in cost." Since National and Southeast were already included in

[1] Order 76-2-76 granted AS exemption relief and approved an agreement between National Airlines and AS which substituted AS as the replacement carrier for Southeast Airlines in the Miami-Key West market during National's suspension.

[2] AS amended this petition on August 9, 1978, after the Postal Service moved to dismiss the petition for failure to comply with 14 CFR 302.303. On August 15, 1978, the Postal Service moved to dismiss AS's amended petition.

[3] In a letter dated February 19, 1976, to AS, the Postal Service quoted rates of $0.056618 (Miami-Key West) and $0.191088 (Key West-Miami) per pound-mile, and AS claims that this letter was an offer leading to a contract.

[4] The Postal Service's reply was accompanied by a motion for leave to file an unauthorized document, which we will grant.

[5] *Cf., Service Mail Rates for Air Midwest, Inc.*, Order 77-2-121.

[6] *Cf., Byers-Brennan, Mail Rates*, 17 CAB 1, 5 (1953); *Northwest Air Transpacific Mail Rates*, 16 CAB 722, 748 (1953); *Cordova Air Service, Mail Rates*, 15 CAB 604, 607-08 (1952).

Docket 23080-2, it was the Board's intent that AS be compensated based on rates established in that docket.

Based on the foregoing, the Board tentatively finds and concludes that:

1. On and after the date of commencement of AS's mail transporting operations, the fair and reasonable temporary rates of compensation to be paid by the Postmaster General for the transportation of mail by aircraft, the facilities used and useful therefor, and for the services connected therewith, to AS for operations between Miami and Key West and for other operations which AS may hereafter undertake are the final rates established in Docket 23080-2.

We will give interested persons 10 days after the date of service of this order to file a notice of objection to the tentative findings and conclusions. If such notice is filed, a written answer and any supporting documents shall be filed within 30 days after the service of this order. All further proceedings will be in accordance with the Rules of Practice, 14 CFR Part 302.

Accordingly, pursuant to the Federal Aviation Act, as amended, and particularly sections 204(a) and 406 thereof, and the regulations promulgated in 14 CFR Part 302,

1. We grant Air Sunshine's petition for the establishment of domestic service mail rates;

2. We deny the Postmaster General's motion to dismiss;

3. We grant the Postmaster General leave to file an unauthorized document;

4. Except to the extent granted, we deny the relief requested by the Postmaster General in Docket 23080-2;

5. We direct all interested persons, particularly Air Sunshine and the Postmaster General, to show cause why the Board should not adopt the foregoing findings and conclusions and fix, determine and publish the final rates and charges specified;

6. Further proceedings shall be in accordance with the Rules of Practice, 14 CFR Part 302, and if there is any objections to the rates and charges or to the other findings and conclusions proposed, notice thereof shall be filed no later than November 27, 1978, and, if notice is filed, written answer and supporting documents shall be filed no later than December 18, 1978; and

7. We shall serve a copy of this order upon the Postmaster General and Air Sunshine.

We shall publish this order in the FEDERAL REGISTER.[7]

PHYLLIS T. KAYLOR,
Secretary.

[Docket No. 33229; Order 78-11-74]

AIRCAIR SERVICES LTD., YELLOW BIRD AIR

Statement of Tentative Findings and Conclusions and Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 16th day of November 1978.

By application filed August 18, 1978, Aircair Services Ltd. d/b/a Yellow Bird Air requests a foreign air carrier permit to engage in charter foreign air transportation of persons and their accompanied baggage, and planeload charter foreign air transportation of property, between any point or points in Canada and the United States, using "small aircraft."[1] The application is filed pursuant to the Nonscheduled Air Service Agreement executed on May 8, 1974, by the Governments of the United States and Canada.

No answers to Aircair Services Ltd.'s application for a foreign air carrier permit have been filed.

FITNESS OF THE APPLICANT

Aircair Services Ltd. is incorporated pursuant to the laws of the Province of British Columbia, as set forth in the Companies Act. The Canadian Air Transport Committee has issued Aircair Services Ltd. a class 4 license which provides for the operation of charter commercial air services within Canada for the transport of persons or goods originating in Vancouver, British Columbia. The applicant has also obtained from the Air Transport Committee a class 9-4 license which authorizes the holder to operate charter commercial air services between Canada and international points from a base at Vancouver, British Columbia. Aircair Services Ltd. is restricted in its international operations to the use of one DC-3 aircraft with a 30-passenger seating capacity and a cargo capacity of 7,000 pounds. Aircair Services Ltd. also holds an operating certificate which permits the corporation to operate between points that can be safely served in North America from a base at Vancouver International Airport, British Columbia, using one DC-3 aircraft. This operating certificate was issued by the Canadian Department of Transport, Civil Aviation Branch.

The applicant's balance sheet as of December 31, 1977, shows total assets of $97,490 of which $3,400 is shown as current assets. On the liabilities side, the company shows current liabilities of $6,813 and total liabilities of $87,104, resulting in total shareholder's equity of $10,386. Aircair Services Ltd. showed a net profit of $924 for the year ended December 31, 1977, which gave the corporation retained earnings of $386 on this date. Aircair Services Ltd. owes $63,000 to the Royal Bank of Canada and $15,000 to Patricia J. Sandison, Secretary of the company.

The applicant states that it has had no safety or tariff violations in the last five years, nor have there been any major aircraft accidents during this period.[2] Furthermore, the applicant has stated that it will comply with all necessary insurance conditions.

"PUBLIC INTEREST" IN AWARD OF THE AUTHORITY SOUGHT

The applicant relies on the Nonscheduled Air Service Agreement signed by the Governments of Canada and the United States of America on May 8, 1974, as the basis for the grant of the requested authority. By diplomatic Note No. 195, dated April 27, 1978, the Government of Canada designated the applicant under the agreement to perform charter services with small aircraft.

OWNERSHIP AND CONTROL

The only shareholders, officers, directors, and management personnel of the corporation are Clifford Sandison (President, Director and majority shareholder), Patricia J. Sandison (Secretary, Director, and shareholder), Margot Furk (Treasurer, Director, and shareholder), and Robert Furk (Director and shareholder). All of the stockholders, officers, directors and management personnel of the corporation are Canadian citizens. Likewise, all creditors to the applicant are Canadian. The applicant states that neither it, nor any of its directors, officers or shareholders own any interest or any shares of common stock in any United States carrier, any other Canadian or other foreign carrier, any person engaged in a phase of aeronautics, any common carrier or in any person whose principal business is the holding of stock in, or control of any such entities, with the following exception: Mrs. Joan Sandison, shareholder, Director and Secretary of the company, holds 2,000 common shares of Okanagan Helicopters Ltd., a Canadian company, operating internationally. The issued ordinary shares of this company, which trades on the Montreal, Toronto and Vancouver Stock Exchanges, was 1,031,000 for the fiscal year ending in 1978. She holds no offices or directorships, nor is in any way connected with the operation or management of Okanagan.

In view of the foregoing and all of the facts of record, the board tentatively finds and concludes that:

1. It is in the public interest to issue a foreign air carrier permit to Aircair Services Ltd. d/b/a Yellow Bird Air authorizing it to engage in charter foreign air transportation with small aircraft of persons and their accompanied baggage, and planeload charters of property between any point or points in Canada and any point or points in the United States;

2. Aircair Services Ltd. d/b/a Yellow Bird Air is fit, willing, and able properly to perform the charter foreign air transportation described in the specimen permit, and to conform to the provisions of the Act and the rules, regulations, and requirements of the Board;

3. The public interest requires that the exercise of the privileges granted by the permit shall be subject to the terms, conditions, and limitations contained in the specimen permit attached to this order, and to such other reasonable terms, conditions, and limitations required by the public interest as may be prescribed by the Board;

4. Aircair Services Ltd. d/b/a Yellow Bird Air is substantially owned and effectively controlled by nationals of Canada;

5. The proposed issuance of Aircair Services Ltd. d/b/a Yellow Bird Air's foreign air carrier permit will not constitute a "major regulatory action" under the Energy Policy and Conservation Act as defined in subsection 313.4(a)(1) of the Board's Regulations;[3]

6. An oral evidentiary hearing is not required in the public interest;[4] and

7. Except to the extent granted, the application of Aircair Services Ltd. d/b/a Yellow Bird Air in Docket 33229 should be denied.

Accordingly,

1. We direct all interested persons to show cause why the Board should not (1) make final the tentative findings and conclusions, and (2) subject to the disapproval of the President pursuant to section 801 of the Act, issue a foreign air carrier permit to Aircair Services Ltd. d/b/a/ Yellow Bird Air in the specimen form attached.

2. Any interested person objecting to the issuance of an order making final the tentative findings and conclusions and issuing the foreign air carrier permit shall, no later than December 11, 1978, file with the Board and serve upon the persons named in paragraph 5, a statement of objections specifying the part or parts of the tentative findings and conclusions objected to, together with a summary of testimony, statistical data, and concrete evidence relied upon in support of the objections. If an oral evidentiary hearing is requested, the objector should state in detail why such hearing is considered necessary and what relevant and material facts he would expect to establish through such hearing which he could not establish in written pleadings. Any interested person who wishes to answer these objections shall file such answers no later than December 21, 1978;

3. If timely and properly supported objections are filed, we will accord further consideration to the matters and issues raised by the objections before further action is taken by the Board; *Provided*, that the Board may enter an order in accordance with the tentative findings and conclusions, if it determines that there are no factual issues present that warrant the holding of an oral evidentiary hearing;[5]

4. In the event no objections are filed, we will waive all further procedural steps and the Secretary shall enter an order which (1) shall make final the Board's tentative findings and conclusions set forth in this order, and (2) subject to the disapproval of the President, shall issue a foreign air carrier permit to the applicant in the specimen form attached; and

5. We shall serve a copy of this order upon Aircair Services Ltd. d/b/a Yellow Bird Air, the Ambassador of Canada in Washington, D.C. and the U.S. Departments of State and Transportation.

We shall publish this order in the FEDERAL REGISTER and transmit a copy to the President of the United States.

By the Civil Aeronautics Board.[6]

PHYLLIS T. KAYLOR,
Secretary.

SPECIMEN PERMIT

UNITED STATES OF AMERICA, CIVIL AERONAUTICS BOARD, WASHINGTON, D.C.

PERMIT TO FOREIGN AIR CARRIER FOR SMALL AIRCRAFT OPERATIONS

Aircair Services Ltd. d/b/a/ Yellow Bird Air is authorized, subject to the provisions set forth, the provisions of the Federal Aviation Act of 1958 and the Board's orders, rules, and regulations, to engage in charter foreign air transportation, as follows:

Charter flights with respect to persons and their accompanied baggage, and planeload charter flights with respect to property, between any point or points in Canada and any point or points in the United States.

The holder shall be authorized to perform those types of charters originating in Canada as are now, or may be, prescribed for carriage by small aircraft in Annex B(III)(B) of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974, including amendments, supplements, reservations, or supersessions to that Agreement: *Provided*, That any such charters may be performed only to the extent authorized by the Air Carrier Regulations of the Canadian Transport Commission applicable to operations by small aircraft, and the authority of the holder to perform such charters shall be subject to those Regulations.[7] The authority of the holder to perform United States-originating charters shall, in accordance with Annex B(III)(A) of the Nonscheduled Air Service Agreement, be limited to commercial air transportation of passengers and their accompanied baggage, and property, on a time, mileage or trip basis, where the entire planeload capacity of one or more aircraft has been engaged by a person for his own use or by a person for the transportation of a group of persons and/or their property, as agent or representative of such group, or such small aircraft operations as may be authorized pursuant to any amendment, supplement, reservation or supersession to that Agreement.

This permit shall be subject to the following terms, conditions, and limitations:

(1) In the performance of the charter operations authorized by this permit, the holder shall not use "large aircraft" as defined in Annex A(I)(A) of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974, including amendments, supplements, reservations, or supersessions to that Agreement.

(2) The holder shall not engage in foreign air transportation between the United States and any point or points, other than a point or points in Canada, or transport any property or persons whose journey includes a prior, subsequent, or intervening movement by air (except for the movement of passengers independently of any group) to or from a point not in the United States or Canada: *Provided*, That the Board may, upon application by the holder, or by regulation, authorize the performance of charters where such movements are involved.

(3) The holder shall not perform United States-originating charter flights which at the end of any calendar quarter would result in the aggregate number of all United States-originating charter flights performed by the holder on or after May 8, 1974, exceeding by more than one-third the aggregate number of all Canadian-originating charter flights performed by the holder on or after May 8, 1974: *Provided*, That the Board may authorize the performance of

[1] "Small aircraft" are defined by the Nonscheduled Air Service Agreement as aircraft which are not "large aircraft." "Large aircraft" are defined as aircraft having both (a) a maximum passenger capacity of more than 30 seats or a maximum payload capacity of more than 7,500 pounds, and (b) a maximum authorized takeoff weight on wheels greater than 35,000 pounds.

[2] The only aircraft accident involved collision with a ground vehicle which resulted in damage to a propeller. This accident did not result in the death or injury of anyone.

[3] This is not an action with environmental consequences. See subsection 312.2(a) of the Board's Procedural Regulations regarding Canadian carrier permits for small aircraft charter operations.

[4] Any interested persons objecting to the issuance of an order making final the Board's tentative findings and conclusions and issuing the attached permit, shall file such objection within 21 days from the date of service of this order.

[5] Since provision is made for the filing of objections to this order, petitions for reconsideration will not be entertained.

[6] All Members concurred.

[7] Annex B(III)(B) presently authorizes Canadian-originating small aircraft charters of the types prescribed in section (II)(B); but only to the extent applicable to small aircraft pursuant to Canadian Transport Commission Regulations. The applicable types of charters presently authorized are: Single Entity Passenger, Single Entity Property, Pro Rata Common Purposes, and Inclusive Tour (in some instances split passenger charters are authorized).

V 43 / 227 / NOV 24 1978

charters not meeting the requirements set forth. For the purpose of making such computation the following shall apply:

(a) A charter shall be considered to originate in the United States (or Canada) if the passengers or property are first taken on board in that country, and shall be condidered as one flight whether the charter be one-way, round-trip, circle tour, or open jaw, even if a separate contract is entered into for a return portion of the charter trip from Canada (or the United States).

(b) The computation shall be made separately for (i) "small aircraft" flights of persons; and (ii) "small aircraft" flights of property.

(c) In the case of a lease of aircraft with crew for the performance of a charter flight on behalf and under the authority of another carrier, the flight shall be included in the computation if the holder is the lessee, and shall not be included if the holder is the lessor.

(d) There shall be excluded from the computation: (i) Flights utilizing aircraft having a maximum authorized takeoff weight n wheels (as determined by Canadian Transport Commission Regulations) not greater than 18,000 pounds; and (ii) flights originating at a United States terminal point of a route authorized pursuant to the Air Transport Services Agreement between the United States and Canada, signed January 17, 1966, as amended, or any agreement which may supersede it, or any supplementary agreement thereto which establishes obligations or privileges thereunder (if, pursuant to any such agreement, the holder aiso holds a foreign air carrier permit authorizing indicidually ticketed or individually waybilled service over such route, and provides some scheduled service on any route pursuant to any such agreement), when the flights serve either (a) a Canadian terminal point on the route, or (b) any Canadian intermediate point authorized for service on the route by the foreign air carrier permit.

(4) The holder may grant stopover privileges at any point or points on the United States only to passengers and their accompanied baggage moving on a Canadian-originating flight operating under a contract for round-trip charter transportation to be provided solely by the holder and as to which the same aircraft stays with the passengers throughout the journey: *Provided*, That the Board may authorize the performance of charters not meeting the requirements set forth.

(5) The Board, by order or regulation and without hearing, may require advance approval of individual charter trips conducted by the holder pursuant to the authority granted by this permit, if it finds such action to be required in the public interest.

(6) The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of Canada for Canadian international air service.

(7) The holder shall not operate any aircraft under the authority granted by this permit, unless the holder complies with the operational safety requirements at least equavalent to Annex 6 of th Chicago Convention.

(8) This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and Canada shall be parties.

(9) This permit shall be subject to the condition that the holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and The Hague Protocol approved by Board Order E-23680, May 13, 1966, and a signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

(10) The holder (1) shall not provide foreign air transportation under this permit unless there is in effect third-party liability insurance in the amount of $1,000,000 or more to meet potential liability claims which may arise in connection with its operations under this permit, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts of liability limits of the third-party liability insurance provided, and (2) shall not provide foreign air transportation with respect to persons unless there is in effect liability insurance sufficient to cover the obligations assumed in CAB Agreement 18900, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the passenger liability insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

(11) By accepting this permit, the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

(12) The exercise of the privileges granted by this permit shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may be prescribed by the Board.

This permit shall become effective on ————. Unless otherwise terminated at an earlier date pursuant to the terms of any applicable treaty, convention, or agreement, this permit shall terminate (1) upon the effective date of any treaty, convention, or agreement, or amendment, which shall have the effect of eliminating the charter foreign air transportation authorized from the transportation which may be operated by carriers designated by the Government of Canada (or in the event of the elimination of part of the charter foreign air transportation authorized, the authority granted shall terminate to the extent of such elimination), or (2) upon the effective date of any permit granted by the Board to any other carrier designated by the Government of Canada in lieu of the holder, or (3) upon the termination or expiration of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974: *However*, clause (3) of this paragraph shall not apply if, prior to the occurrence of the event specified in clause (3), the operation of the foreign air transportation authorized becomes the subject of any treaty, convention, or agreement to which the United States of America and Canada are or shall become parties.

The Civil Aeronautics Board has directed its Secretary to execute this permit and affix its seal, on the ————.

————,
Secretary.

[Docket No. 33978; Order 78-11-93]

ALITALIA LINEE AEREE ITALIANE, S.P.A., ET AL.

U.S.-Italy Fare Revisons

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 9th day of November 1978.

In the matter of United States-Italy fare revisions filed by Alitalia Linee Aeree Italiane, S.p.A., Transportes Aereos Portugueses and Trans World Airlines, Inc.: Order of suspension and investigation.

By tariff revisions filed for effectiveness November 23, 1978, Alitalia Linee Aeree Italiane, S.p.A. (Alitalia), proposes to increase U.S.-Italy basic-season normal economy fares by about 5 percent. Transportes Aereos Portugueses (TAP) also filed U.S.-Itlay basic-season normal economy fare increases, effective December 25, 1978, and Trans World Airlines, Inc. (TWA), filed tariffs proposing 5-7 percent increases in U.S.-Itlay basic-season normal economy fares, effective January 15, 1979[1]

In justification of its proposal, TWA states that: the Board previously suspended these economy fare increases along with those it filed for other U.S.-Europe markets;[2] the reasons for suspension, however, were not appropriate to U.S.-Italy fares; the current two-tier structure of economy fares in this market is exactly what the Board desires; the increases are moderate; the proposed fares would not result in excessive earnings; and the Board should permit the instant filing since the normal economy fare is "unbundled" in this market.

The Board has decided to suspend Alitalia's proposed increases in the normal economy fare, TAP's proposed increases in the limited-stopover fare, and TWA's proposed increases in both the normal fare and the limited-stopover fare. Alitalia and TAP have offered no justification for the increases, and TWA's arguments supporting the increases center on its allegation that the two-tier normal economy, fare structure in the U.S.-Italy market is "exactly the unbundled fare structure desired by the Board," and therefore can be distinguished from normal fares in other U.S.-Europe markets. Yet in Order 78-9-38 suspending TWA's earlier proposal to increase normal economy fares, we expressed our doubt that the limited-stopover U.S.-Italy fares are truly cost-related, especially considering the existence of lower priced excursion fares with essentially identical costs.

The 60-day no-stopover, single-carrier fare, at $460 roundtrip in the New York-Rome market (basic season) is a confirmed-reservation fare for direct, point-to-point transportation. The only meaningful differences between this excursion fare and the "partially unbundled" normal fare are that the higher fare allows one stopover, may be sold on a one-way basis, and has no minimum/maximum-stay requirement. The length-of-stay requirement is a contrived one, unrelated to carrier costs, and it is inconceivable that the one stopover and one-way availability of the "unbundled" normal fare would increase carrier costs enough to justify the wide difference between the fares ($720 for the present one-stop normal fare versus $460 for the excursion fare).[3]

We note also that the current full-service normal fare from New York to Rome, at 9.76 cents per mile, displays almost an 8-percent inverse taper from the New York-London normal fare of 9.06 cents, and is considerably higher than the yields on normal economy fares offered by efficient, low-cost carriers from Dallas (8.25 cents), Atlanta (8.62 cents) and Miami (8.63 cents) to London. Even the one-stopover normal fare, if increased as TWA and TAP propose, would produce a yield (about 9 cents) approximating the yield on the full-service New York-London normal fare.

Thus it appears clear that the lower of the two U.S.-Italy normal fares, though partly unbundled in conditions, does not really reflect the cost changes associated with unbundling. Although it is a step in the right direction, it still incorporates costs for stopover and circuity services which a New York-Rome passenger does not use and—because he is allowed only one stopover in the United States or Italy—*cannot* use. The passenger is still being charged a fare level high enough to cover costs for services which he does not desire nor, under these circumstances, is allowed to use.

In Order 78-9-38, the Board reluctantly intervened to suspend economy fare increases, including those to Itlay, in a segment of the market where competition could not be relied on to temper increases. TWA's arguments do not convince us that we were in error, or that the existence of a partly unbundled normal fare between the United States and Italy, at even less unbundled levels, is evidence that competition is strong enough. We do not believe it is, and slightly decreasing normal economy fares by creating a lower, partly unbundled normal fare does not give the carriers *carte blanche* to increase the full-service normal fares.[4]

One thing should be clear. In suspending these and other fares, we are not simply pressing for an unbundled fare structure. While unbundling is desirable in that it presents the on-demand traveler with more choices, we encourage such fares mainly because we believe a competitive market would supply them. In a truly competitive market, we would not require unbundling, but it should be noted that under no circumstances can the U.S.-Italy market be considered a competitive market. Only three carriers currently operate between New York and Rome—Alitalia, Pan American and TWA—while a fourth, Air India, which provides relatively little service, cannot be considered a competitive factor. The Italians have regularly pressed us for capacity and frequency restrictions and have attempted to deny fare filings which differ from those filed by Alitalia. If any market is without competition, it is the U.S.-Italy market. While unbundled fares do exist is part, we are unable to conclude that, simply because of this fact, fares should be approved—particularly in view of the anticompetitive circumstances which prevail and the fact that we are not convinced that the fare offerings fully reflect possible cost savings. In view of these facts, we must continue to regulate fares in these markets, and our suspension represents our judgment that these increases are not required.

Accordingly, under the Federal Aviation Act of 1958, as amended, particularly sections 102, 204(a), 403, 801, and 1002(j) thereof,

1. We shall institute an investigation to determine whether the fares and provisions set forth in appendices B, C, and D hereof, and rules and regulations or practices affecting such fares and provisions, are or will be discriminatory, unduly preferential, unduly prejudicial or otherwise unlawful, and if we find them to be unlawful, to act appropriately to prevent the use of such fares, provisions or rules, regulations, or practices;

2. Pending hearing and decision by the Board, we hereby suspend the tariff provisions specified in the attached appendix B and defer their use from November 23, 1978, to and including November 22, 1979, suspend the tariff provisions specified in the attached appendix C and defer their use from December 25, 1978, to and including December 24, 1979, and suspend the tariff provisions specified in the attached appendix D and defer their use from January 15, 1979, to and including January 14, 1980, unless otherwise ordered by the Board, and shall permit no changes to be made therein during the period of suspension except by order or special permission of the Board;

3. We shall submit this order to the President[5] and it shall become effective on November 23, 1978;

4. We shall file copies of this order in the aforesaid tariffs and serve them upon Alitalia Lines Aeree Italiane, S.p.A., Transportes Aereos Portugueses, and Trans World Airlines, Inc.

We shall publish this order in the FEDERAL REGISTER.[6]

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[6320-01-M]

[Docket 33274; Order 78-11-76]

FREDERICTON FLYING CLUB, INC.

Application for a Foreign Air Carrier Permit; Statement of Tentative Findings and Conclusions and Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 16th day of November, 1978.

[1] Alitalia's and TAP's revisions are contained in Tariff C.A.B. No. 71, issued by Air Tariffs Corporation, Agent; TWA's revisions are contained in Tariff C.A.B. No. 37, issued by Trans World Airlines, Inc. The carriers offer two varieties of normal economy fares to and from Italy: (1) a "bundled" fare which permits unlimited stopovers; and (2) a lower-priced, partially "unbundled" fare with restricted stopover privileges. Alitalia's and TAP's unbundled fares permit one "free" stopover in each direction with additional ones available at an extra $30 each, and TWA's fare also allows one "free" stopover in each direction provided, however, it is taken in either the United States or Italy. Appendix A outlines the carriers' revisions as they apply in the New York-Rome market.

[2] Order 78-9-38, August 23, 1978.

[3] Particularly since Alitalia flies non-stop.

[4] When we permitted implemenatation of the partly unbundled fare, we noted that the transatlantic fare structure, in general, often results in passengers paying very different fares for essentially the same transportation. Order 77-11-78, November 18, 1977. This kind of discrimination is still inherent in TWA's two-tier structure. For example, each of two Chicago-Rome non-discretionary passengers make a stopover. One stops in New York, and pays the lower, unbundled fare. The other, who stops in Paris, must pay the higher, bundled fare. By the same token, passengers may pay the same fare for different services. A Chicago-Rome passenger making no stopovers pays the same fare as one who stops in New York and, under TWA's rules, a passenger making two stops in one direction pays the same as travelers making three or more. Such anomalies would not exist in a truly competitive environment.

[5] We submitted this order to the President on November 9, 1978.

[6] Appendices A through D filed as part of the original document.

By application filed August 23, 1978, The Fredericton Flying Club, Inc., requests a foreign air carrier permit to engage in charter foreign air transportation of persons and their accompanied baggage, and planeload charter foreign air transportation of property, between any point or points in Canada and the United States, using "small aircraft."[1] The application is filed pursuant to the Nonscheduled Air Service Agreement executed on May 8, 1974, by the Governments of the United States and Canada.

No answers to the Fredericton Flying Club, Inc.'s application for a foreign air carrier permit have been filed.

Fitness of the Applicant for a Foreign Air Carrier Permit—The Fredericton Flying Club, Inc. is incorporated pursuant to the Canada Corporations Act. The Canadian Air Transport Committee has issued The Fredericton Flying Club, Inc. a class 9-4 license which authorizes the holder to operate charter commercial air services between Canada and International points from a base at Fredericton, New Brunswick.

The Fredericton Flying Club, Inc. is restricted in its operations to the use of Group A aircraft having a maximum authorized weight on wheels no greater than 4,300 pounds. The Fredericton Flying Club, Inc. also holds an operating certificate which permits the corporation to operate between points that can be safely serviced in North America from a base at Fredericton Airport, New Brunswick. This operating certificate was issued by the Canadian Department of Transport, Civil Aviation Branch.

The applicant's balance sheet as of December 31, 1977, shows total assets of $111,409 of which $29,597 is shown as current assets. On the liabilities side, the company shows current liabilities of $11,227 and total liabilities of $87,086 resulting in a surplus of $24,323. The Fredericton Flying Club, Inc. showed a net profit of $6,417 for the year ended December 31, 1977.

The carrier lists the following aircraft, which are either owned or leased, as available for charter service between Canada and the United States:

Type of aircraft	No.	Passenger seating capacity	Maximum payload in pounds
Piper PA 28-151	1	3	994
Cessna 172	1	4	965

The applicant states that it has had no safety violations and no significant Canadian tariff violations in the last five years; there have been no aircraft accidents resulting in deaths or injuries during this period. Furthermore, the applicant has stated that it will comply with all necessary insurance conditions.

"Public Interest" in Award of the Authority Sought—The applicant relies on the Nonscheduled Air Service Agreement signed by the Governments of Canada and the United States of America on May 8, 1974, as the basis for the grant of the requested authority. By diplomatic Note No. 320, dated July 12, 1978, the the Government of Canada designated the applicant under the agreement to perform charter services with small aircraft.

Ownership and Control—The Fredericton Flying Club, Inc. is a member club in good standing of the Royal Canadian Flying Clubs Association and there are no shares issued. All officers and directors of The Fredericton Flying Club, Inc. are Canadian citizens.

The applicant states that neither it, nor any of its officers or directors, have interests in any U.S. carrier or any Canadian or other foreign air carrier or any person engaged in a phase of aeronautics, or any common carrier, or in any person whose principal business is the holding of stock in, or control of any such entities.[2]

In view of the foregoing and all of the facts of record, the Board tentatively finds and concludes that:

1. It is in the public interest to issue a foreign air carrier permit to The Fredericton Flying Club, Inc., authorizing it to engage in charter foreign air transportation with small aircraft of persons and their accompanied baggage and planeload charters of property between any point or points in Canada and any point or points in the United States;

2. The Fredericton Flying Club, Inc. it fit, willing, and able properly to perform the charter foreign air transportation described in the specimen permit, and to conform to the provisions of the Act and the rules, regulations, and requirements of the Board;

3. The public interest requires that the exercise of the privileges granted by the permit shall be subject to the terms, conditions, and limitations contained in the specimen permit attached to this order, and to such other reasonable terms, conditions, and limitations required by the public interest as may be prescribed by the Board;

4. The Fredericton Flying Club, Inc. is substantially owned and effectively controlled by nationals of Canada;

5. The proposed issuance of The Fredericton Flying Club, Inc.'s foreign air carrier permit will not consititute a "major regulatory action" under the Energy Policy and Conservation Act as defined in subsection 313.4(a)(1) of the Board's Regulations;[3]

6. An oral evidentiary hearing is not required in the public interest;[4] and

7. Except to the extent granted, the application of The Fredericton Flying Club, Inc. in Docket 32840 should be denied.

Accordingly,

1. All interested persons are directed to show cause why the Board should not (1) make final the tentative findings and conclusions, and (2) issue a foreign air carrier permit to The Fredericton Flying Club, Inc. in the specimen form attached, subject to the disapproval of the President pursuant to section 801 of the Act.

2. Any interested person objecting to the issuance of an order making final the tentative findings and conclusions and issuing the foreign air carrier permit shall, no later than December 11, 1978, file with the Board and serve upon the persons named in paragraph 5, a statement of objections specifying the part or parts of the tentative findings and conclusions objected to, together with a summary of testimony, statistical data, and concrete evidence relied upon in support of the objections. If an oral evidentiary hearing is requested, the objector should state in detail why such hearing is considered necessary and what relevant and material facts he would expect to establish through such hearing which he could not establish in written pleadings. Any interested person who wishes to answer these objections shall file such answers no later than December 21, 1978;

3. If timely and properly supported objections are filed, we will accord further consideration to the matters and issues raised by the objections before further action is taken by the Board; *Provided*, that the Board may enter an order in accordance with the tentative findings and conclusions, if it determines that there are no factual issues present that warrant the holding of an oral evidentiary hearing;[5]

4. In the event no objections are filed, we will waive all further procedural steps and the Secretary shall enter an order which (1) shall make final the Board's tentative findings and conclusions set forth in this order, and (2) subject to the disapproval of the President, shall issue a foreign air carrier permit to the applicant in the specimen form attached; and

5. We shall serve a copy of this order upon The Fredericton Flying Club, Inc., the Ambassador of Canada in Washington, D.C. and the U.S. Departments of State and Transportation.

We shall publish this order in the FEDERAL REGISTER.

By the Civil Aeronautics Board:[6]

PHYLLIS T. KAYLOR,
Secretary.

---

[1] "Small aircraft" are defined by the Nonscheduled Air Service Agreement as aircraft which are not "large aircraft." "Large aircraft" are defined as aircraft having both (a) a maximum passenger capacity of more than 30 seats or a maximum payload capacity of more than 7,500 pounds, and (b) a maximum authorized takeoff weight on wheels greater than 35,000 pounds.

[2] However, some of the directors of The Fredericton Flying Club, Inc. hold shares in a small aircraft engine overhaul shop in Fredericton, New Brunswick.

[3] This is not an action with environmental consequences. See subsection 312.2(a) of the Board's Procedural Regulations regarding Canadian carrier permits for small aircraft charter operations.

[4] Any interested persons objecting to the issuance of an order making final the Board's tentative findings and conclusions and issuing to attached permit, shall file such objections within 21 days from the date of service of this order.

[5] Since provision is made for the filing of objections to this order, petitions for reconsideration will not be entertained.

[6] All Members concurred.

UNITED STATES OF AMERICA, CIVIL AERONAUTICS BOARD, WASHINGTON, D.C.

PERMIT TO FOREIGN AIR CARRIER FOR SMALL AIRCRAFT OPERATIONS

The Fredericton Flying Club, Inc.

is authorized, subject to the provisions set forth, the provisions of the Federal Aviation Act of 1958 and the Board's orders, rules, and regulations, to engage in charter foreign air transportation, as follows:

Charter flights with respect to persons and their accompanied baggage, and planeload charter flights with respect to property, between any point or points in Canada and any point or points in the United States.

The holder shall be authorized to perform those types of charters originating in Canada as are now, or may be, prescribed for carriage by small aircraft in Annex B (III)(B) of the Nonscheduled Air Service Agreement between the United States and Canda, signed May 8, 1974, including amendments, supplements, reservations, or supersessions to that Agreement: *Provided*, That any such charters may be performed only to the extent authorized by the Air Carrier Regulations of the Canadian Transport Commission applicable to operations by small aircraft, and the authority of the holder to perform such charters shall be subject to those Regulations.[1] The authority of the holder to perform United States-originating charters shall, in accordance with Annex B(III)(A) of the Nonscheduled Air Service Agreement, be limited to commercial air transportation of passengers and their accompanied baggage, and property, on a time, mileage or trip basis, where the entire planeload capacity of one or more aircraft has been engaged by a person for his own use or by a person for the transportation of a group of persons and/or their property, as agent or representative of such group, or such small aircraft operations as may be authorized pursuant to any amendment, supplement, reservation or supersession to that Agreement.

This permit shall be subject to the following terms, conditions, and limitations:

(1) In the performance of the charter operations authorized by this permit, the holder shall not use "large aircraft" as defined in Annex A(I)(A) of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974, including amendments, supplements, reservations, or supersessions to that Agreement.

(2) The holder shall not engage in foreign air transportation between the United States and any point or points, other than a point or points in Canada, or transport any property or persons whose journey includes a prior, subsequent, or intervening movement by air (except for the movement of passengers independently of any group) to or from a point not in the United States or Canada: *Provided*, That the Board may, upon application by the holder, or by regulation, authorize the performance of charters where such movements are involved.

(3) The holder shall not perform United States-originating charter flights which at the end of any calendar quarter would result in the aggregate number of all United States-originating charter flights performed by the holder on or after May 8, 1974, exceeding by more than one-third the aggregate number of all Canadian-originating charter flights performed by the holder on or after May 8, 1974: *Provided*, That the Board may authorize the performance of charters not meeting the requirements set forth. For the purpose of making such computation the following shall apply:

(a) A charter shall be considered to originate in the United States (or Canada) if the passengers or property are first taken on board in that country, and shall be considered as one flight whether the charter be one-way, round-trip, circle tour, or open jaw, even if a separate contract is entered into for a return portion of the charter trip from Canada (or the United States).

(b) The computation shall be made separately for (i) "small aircraft" flights of persons; and (ii) "small aircraft" flights of property.

(c) In the case of a lease of aircraft with crew for the performance of a charter flight on behalf and under the authority of another carrier, the flight shall be included in the computation if the holder is the lessee, and shall not be included if the holder is the lessor.

(d) There shall be excluded from the computation:

(i) flights utilizing aircraft having a maximum authorized takeoff weight on wheels (as determined by Canadian Transport Commission Regulations) not greater than 18,000 pounds; and (ii) flights originating at a United States terminal point of a route authorized pursuant to the Air Transport Services Agreement between the United States and Canada, signed January 17, 1966, as amended, or any agreement which may supersede it, or any supplementary agreement thereto which establishes obligations or privileges thereunder (if, pursuant to any such agreement, the holder also holds a foreign air carrier permit authorizing individually ticketed or individually waybilled service over such route, and provides some scheduled service on any route pursuant to any such agreement), when the flights serve either (a) a Canadian terminal point on the route, or (b) any Canadian intermediate point authorized for service on the route by the foreign air carrier permit.

(4) The holder may grant stopover privilege at any point or points in the United States only to passengers and their accompanied baggage moving on a Canadian-originating flight operating under a contract for round-trip charter transportation to be provided solely by the holder and as to which the same aircraft stays with the passengers throughout the journey; *provided*, That the Board may authorize the performance of charters not meeting the requirements set forth.

(5) The Board, by order or regulation and without hearings, may require advance approval of individual charter trips conducted by the holder pursuant to the authority granted by this permit, if it finds such action to be required in the public interest.

(6) The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of Canada for Canadian international air service.

(7) The holder shall not operate any aircraft under the Authority granted by this permit, unless the holder complies with the operational safety requirements at least equivalent to Annex 6 of the Chicago Convention.

(8) this permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and Canada shall be parties.

(9) This permit shall be subject to the condition that the holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and The Hague Protocol approved by Board Order E-23680, May 13, 1966, and a signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

---

[1] Annex B(III)(B) presently authorizes Canadian-originating small aircraft charters of the types prescribed in section (II)(B); but only to the extent applicable to small aircraft pursuant to Canadian Transport Commission Regulations. The applicable types of charters presently authorized are: Single Entity Passenger, Single Entity Property, Pro Rata Common Purpose, and Inclusive Tour (in some instances split passenger charters are authorized).

V 4 3 / 2 2 7 N 0 2 4 7 8 V

(10) The holder (1) shall not provide foreign air transportation under this permit unless there is in effect third-party liability insurance in the amount of $1,000,000 or more to meet potential liability claims which may arise in connection with its operations under this permit, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts of liability limits of the third-party liability insurance provided, and (2) shall not provide foreign air transportation with respect to persons unless there is in effect liability insurance sufficient to cover the obligations assumed in CAB Agreement 18900, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the passenger liability insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

(11) By accepting this permit, the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its teritories or possessions) based upon any claim arising out of operations by the holder under this permit.

(12) The exercise of the privileges granted by this permit shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may be prescribed by the Board.

This permit shall become effective on _____. Unless otherwise terminated at an earlier date pursuant to the terms of any applicable treaty, convention, or agreement, this permit shall terminate (1) upon the effective date of any treaty, convention, or agreement, or amendment, which shall have the effect of eliminating the charter foreign air transportation authorized from the transportation which may be operated by carriers designated by the Government of Canada (or in the event of the elimination of part of the charter foreign air transportation authorized, the authority granted shall terminate to the extent of such elimination), or (2) upon the effective date of any permit granted by the Board to any other carrier designated by the government of Canada in lieu of the holder, or (3) upon the termination or expiration of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974: *However*, clause (3) of this paragraph shall not apply if, prior to the occurrence of the event specified in clause (3), the operation of the foregn air transportation authorized becomes the subject of any treaty, convention, or agreement to which the United States of America and Canada are or shall become parties.

The Civil Aeronautics Board has directed its Secretary to execute this permit and affix its seal, on the _____.

_____,
Secretary.

[6320-01-M]

[Docket 33275; Order 78-11-84]

NEW ORLEANS-WEST SERVICE INVESTIGATION

Order on Reconsideration

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 16th day of November, 1978.

By Order 78-8-122,[1] dated August 23, 1978, the Board instituted this investigation to consider "whether the public convenience and necessity require new or additional service between New Orleans, on the one hand, and Amarillo, Denver, Lubbock, Oklahoma City, Portland, Seattle, and Wichita, on the other hand."

Timely petitions for reconsideration were filed by five carriers requesting reconsideration and expansion of the scope of the proceeding. Also, motions for consolidation of applications into the investigation were filed by 13 carriers. The administrative law judge assigned to the case, acting pursuant to authority delegated to her by our instituting order, consolidated eight of the applications into the investigation because they "request authority within the current scope of the investigation," which she correctly stated to be "the need for additional nonstop service in seven New Orleans markets."[2] The judge deferred action on the five other motions for consolidation since the applications, although broader than our instituting order, were within the scope of the expanded investigation requested by the petitions for reconsideration and, therefore, should await the Board's decision on the petitions.

Two of the petitions (those of Continental and Eastern) ask for clarification as to whether our instituting order intended to make the seven named points linked with New Orleans intermediates as well as terminals. That was not our intention. We intended simply to place in issue nonstop authority in seven New Orlean's markets. A reading of the pleadings as a whole indicates that the parties clearly understood the scope of the proceeding.

The burden of the petitions for reconsideration is to seek to expand the proceeding. Braniff believes we should add Los Angeles/Chicago/Phoenix/Tucson-New Orleans. Western would add seven markets, including San Francisco/Las Vegas/Reno/San Diego/Tulsa-New Orleans.[3] Continental seeks to add Dallas/Ft. Worth-New Orleans. Finally, Delta suggests that the specific market of Tulsa-New Orleans be added and, more significantly, that the proceeding be scoped "so that the authority at issue is 'between and among' the various cities in the case," as was done in the *Florida Service Case*, Order 78-7-128.

Answers were filed by four parties. BPDA supports the expansion of the proceeding to include the new markets suggested by the carriers. However, it opposes Delta's request to expand the investigation to include authority "between and among" the named cities. Such a course, it asserts "would not merely expand the case, but change its nature." The *Florida Service Case*, it contends, "is not apposite" because it is concerned with the "needs of a limited geographic area." Continental's answer also opposes Delta's suggested expansion of the investigation to include authority "between and among" the named points. However, it supports the inclusion of the new named nonstop markets requested by Braniff, Western, and Delta. Its answer also proposes the inclusion of Kansas City-New Orleans. On the other hand, Delta's answer opposes the additional markets proposed by Braniff and Western as being outside the intended focus of the investigation. It also objects to the inclusion of Dallas/Ft. Worth-New Orleans, requested by Continental, on the ground that it was already under consideration by the Board in Docket 32315. Braniff's answer also raises the same objection and for the same reason. However, BPDA's answer apparently supports the addition of this market as requested by Continental.

The Board's instituting order contemplated the consideration of nonstop authority radiating from New Orleans to the cities named in its order so as to provide improved New Orleans-West service. The addition of the named markets suggested in the petitions for reconsideration filed by Braniff, Delta, and Western will further that objective without complicating or delaying the investigation unduly. However, inclusion of service "between and among" the named points, as Delta urges, would, on the expanded basis we are providing, result in a gargantuan area service proceeding covering all of the lower 48 States west of a line from Chicago to New Orleans. As BPDA asserts, this would change the nature of the proceeding as well as causing great delay. This investigation is in the mold of the *Oakland Service Case*, Docket 30699, the *Chicago-Midway Low Fare Route Proceeding*, Docket 30277, and the *Chicago-Midway Expanded Service Proceeding*, Docket 33019, rather than the geographically limited *Florida Service Case, supra*, relied on by Delta. We shall deny Delta's petition for reconsideration in this respect.

We shall not include the two markets proposed by Continental. Dallas/Ft. Worth-New Orleans is under consideration in *Nonstop Dallas/Ft. Worth-New Orleans Low Fare "Peanuts" Subpart M Application*, Docket 32315. Because expedited procedures are involved in that case it should reach final decision before this case and should not receive duplicative consideration here. The Kansas City-New Orleans market will also be excluded because it was first proposed in Continental's answer to the petitions for reconsideration, when replies by other parties are no longer permitted under our Rules of Practice. Continental had adequate opportunity to propose this market either by application or by petition for reconsideration. Since it failed to do so, we shall exclude the market here.

On the basis of the expanded scope of this investigation that we are establishing here, we shall grant the previously filed motions to consolidate applications filed by Continental in Docket 33439, Delta in Docket 33447, Ozark in Docket 33415, TXI in Docket 33431, and Amendment No. 2 of Braniff in Docket 31699,[4] but only to the extent that such applications conform to the scope of the investigation as set forth in this order.

In view of the changes we are making in the scope of the investigation instituted by Order 78-8-122, we shall provide for the filing of new applications, amendments to old applications, and motions to consolidate.[5]

A petition for intervention is pending on behalf of The Port of Seattle Commission, the City of Seattle, the County of King, The Seattle Chamber of Commerce, and the Puget Sound Traffic Association (the Seattle Parties). Each of these persons appears to have a sufficient economic interest in the investigation to justify their participation and no one has objected to their petition. We shall permit the Seattle parties to intervene.

ACCORDINGLY, THE BOARD:

1. Grants the petitions for reconsideration filed by Braniff Airways, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., and Western Air Lines, Inc., to the extent indicated in this order and otherwise denies such petitions; 2. Expands the scope of this proceeding by amending paragraph 3 of Order 78-8-122 to include the following nonstop markets:

New Orleans—Los Angeles, Chicago, Phoenix, Tucson, San Francisco, Las Vegas, Reno, San Diego, and Tulsa.

3. Grants the motion of Braniff Airways to late-file Amendment No. 2 in Docket 31699.

4. Grants the motions to consolidate filed by Continental Air Lines in Docket 33439, Delta Air Lines in Docket 33447, Ozark Air Lines in Docket 33415, Texas International Airlines in Docket 33431, and Amendment No. 2 of Braniff Airways in Docket 31699 to the extent that such applications conform to the scope of this investigation and otherwise denies such motions;

5. Permits persons to file applications, amendments to applications, and motions to consolidate applications in this investigation to be filed within 10 days of the date of service of this order;[6]

6. Grants the petition of the Seattle parties for leave to intervene;

7. Directs all carriers filing applications or amendments to applications which they seek to have consolidated into this investigation to file environmental evaluations under section 312.12 of the Board's Regulations within 30 days of the date of service of this order;

8. Denies all other requests in this proceeding.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:[7]

PHYLLIS T. KAYLOR,
Secretary.

[6320-01-M]

[Dockets 25608 and 31006; Order 78-11-75]

SEAGREEN AIR TRANSPORT LTD.

Statement of Tentative Findings and Conclusions and Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 16th day of November, 1978.

In the matter of application of Seagreen Air Transport Limited for renewal and amendment of its foreign air carrier permit pursuant to section 402 of the Federal Aviation Act of 1958 (Docket 25608), and in the matter of application of Seagreen Air Transport Limited for renewal of its foreign air carrier permit pursuant to section 402 of the Federal Aviation Act of 1958, as amended (Docket 31006)

BACKGROUND

Seagreen Air Transport Limited (Seagreen) holds two foreign air carrier permits, authorizing it (1) to engage in foreign air transportation of persons and property using aircraft with a maximum gross takeoff weight not in excess of 12,500 pounds,[1] and (2) to engage in foreign air transportation of property only.[2] Both permits authorize Seagreen to operate off-route charters in foreign air transportation, subject to the terms, conditions, and limitations prescribed by Part 212 of the Board's Economic Regulations.

On June 8, 1973, Seagreen filed an application (Docket 25608) for amendment of its foreign air carrier permit issued by Order E-26939. On June 17, 1977, Seagreen filed an application (Docket 31006) for renewal of its permit issued by Order 72-6-110. In both instances, Seagreen invoked the provisions of the Administrative Procedure Act in order to continue operating pending Board action on its applications.

On August 2, 1978, Seagreen filed a motion to consolidate its application in Docket 25608 with Docket 31006. The applicant also filed a petition for orders to show cause in each Docket why its applications should not be granted without an oral evidentiary hearing. In Docket 25608 Seagreen requests that its permit to carry persons and property be renewed for 10 years; that the renewed permit be amended to include St. Kitts, British West Indies, as an intermediate point; that the limitation to "Casual, occasional and infrequent service" be replaced;[3] and that the takeoff weight be replaced by a passenger capacity limitation of 30 and a payload capacity weight limitation of 7,500 lbs. In Docket 31006 Seagreen requests that its permit authorizing it to carry property only be renewed for an indefinite period.

OWNERSHIP AND CONTROL

Seagreen Air Transport Limited was incorporated under the Companies Act of the Colony of Antigua, British West

[1] The order was served on August 25, 1978. An erratum sheet, dated September 21, 1978, corrected the inadvertent omission of Lubbock from the scope of the case.

[2] Order 78-10-19, served October 10, 1978.

[3] Like Braniff, it also named Los Angeles/Phoenix-New Orleans.

[4] Braniff's Amendment No. 2 was accompanied by a motion for leave to late-file. We shall grant the latter motion.

[5] We shall not entertain further petitions for reconsideration.

[6] We delegate to the presiding administrative law judge the authority to consolidate by order any applications or amendments to applications which conform to the scope of the investigation.

[7] All Members concurred.

[1] Order E-26939, 48 CAB 571(1968), effective June 18, 1968, for a period of five years. Under this permit, Seagreen may provide service between a point or points in Antigua, West Indies and all points in St. Thomas and St. Croix, Virgin Islands, and Puerto Rico.

[2] Order 72-6-110, effective June 23, 1972, for five years. Under this permit, Seagreen may provide service: "Between Granada, West Indies; intermediate points in St. Vincent, St. Lucia, Dominica, Monserrat, Antigua, St. Kitts (including Nevis and Anguilla), British Virgin Islands, U.S. Virgin Islands, Puerto Rico, and the Bahamas; and the coterminal points Miami, Ft. Lauderdale, and West Palm Beach, Florida." The authority under both Seagreen permits was automatically extended under 5 U.S.C. 558(c) through timely filing for renewal.

[3] Seagreen suggests the following in lieu of the wording now in its permit: "the holder shall not engage in scheduled international air service."

Indies, on December 18, 1964. It was owned by Seagreen Caribbean Limited, a holding company incorporated in Nassau, Bahamas.[4] The applicant is now wholly owned (99.2%) by Carib Holdings Limited, a Cayman Island corporation. All of the stock of Carib Holdings Limited is owned by citizens of Canada. Two of Seagreen's officers and directors are Antiguan citizens, one is a citizen of India; the others are Canadian citizens. The stock of Carib Holdings Limited is held in the name of nominees by the Bank of Nova Scotia Trust Co., Georgetown, Cayman Is., B.W.I. and is 100% beneficially owned by citizens of Canada. The applicant states that there has been no purchase of its stock by the Government of Antigua or by Antiguan nationals, although an offer to sell stock in Seagreen to the Government of Antigua is outstanding.[5] We tentatively find that in effect, the ownership and control of Seagreen Air Transport Limited rests substantially in the same persons as when its permits were first issued, and that the proposed amendment/renewal of its permits would be in the public interest.

FINANCIAL AND OPERATIONAL FITNESS

An Auditors' Report to Seagreen's shareholders dated August 26, 1977, stated that its financial statements contemplate continuantion of the company as a going concern, but that it has operated at a loss during current and prior years.[6] Notwithstanding its operating losses, Seagreen states that it is fit, willing and able properly to perform its operations; that its ability to do so has never been questioned; that it has a proven record of reliable and efficient service; and that it has been able to meet all current financial obligations and has never been refused insurance or debt financing. Seagreen states that no answers were filed in opposition to its applications for renewal/amendment of its permits and that the requested actions are both unopposed and noncontroversial. The carrier owns two DC3s, one DC4 and one DC6. Based on the applicant's statements, we tentatively conclude that Seagreen meets the fitness requirements of section 402 of the Act.

[4]Seagreen Caribbean Limited went into liquidation on November 6, 1975, and the amount due from Seagreen Air Transport Limited was written off. Its shares in Seagreen were sold to Carib Holdings Limited. Donald Patterson, a citizen of Canada, was beneficial owner of Seagreen Caribbean. He and members of his family wholly own Carib Holdings Limited.

[5]See Exhibit SAT-6, Dockets 25608 and 31006.

[6]See Exhibit SAT-7, pp. 19-26. The company had a net loss of U.S. $36.248 (East Caribbean $106,610) for the year ending June 30, 1977.

PUBLIC INTEREST

The applicant states that there has been no change in the policy of the Government of Antigua to grant reciprocal operating rights to U.S.-flag carriers, and that, on the basis of reciprocity and comity, it is in the public interest to renew and amend its foreign air carrier permits.

Because of the Circumstances of its ownership and control, as well as its financial condition, we will not renew for ten years Seagreen's permit to carry persons and property, nor will we renew indefinitely its authority to carry property only in foreign air transportation. Instead, we find it more appropriate to limit the effectiveness of both renewals to a period of five years. Our reasoning in limiting the effective period of the two permits to five years is based primarily on the fact that Seagreen is owned and controlled by citizens of Canada, and not by citizens or the Government of Antigua or the United Kingdom, and that its financial situation has never been satisfactorily improved during the many years of its existence. Nevertheless, Seagreen was owned and controlled by citizens of Canada at the time we last considered the permits and we concluded that it was in the public interest to waive our traditional policy of ownership and control. We find nothing here that would lead to a different conclusion.

No answers to any of Seagreen's applications, motion or petitions have been received.

On the basis of the foregoing and all the facts of record we tentatively find and conclude:

1. That it is in the public interest to amend[7] and renew the permit held by Seagreen Air Transport Limited authorizing the nonscheduled carriage of persons and property (Order E-26939) and to renew its permit authorizing the nonscheduled[8] carriage of property only (Order 72-6-110), for a period of five years.

2. That the public interest requires that the exercise of the privileges granted by the permits shall be subject to the terms, conditions, and limitations contained in the specimen form of permits attached to this order, and to such other reasonable terms, conditions, and limitations required by the public interest as may be prescribed by the Board;

3. That Seagreen Air Transport Limited is fit, willing and able properly to perform the foreign air transportation described in the specimen permits attached to this order, and to conform to the provisions of the Federal Aviation Act of 1958, as amended, and the rules, regulations, and requirements of the Board;

4. That an oral evidentiary hearing is not required in the public interest;[9]

5. That the amendment and renewal of Seagreen Air Transport Limited's permits will not constitute a "major Federal action significantly affecting the quality of the human environment" within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 and will not constitute a "major regulatory action" under the Energy Policy and Conservation Act of 1975, as defined in section 313.4(a) of the Board's Regulations;[10] and

6. That except to the extent granted, the applications of Seagreen Air Transport Limited in Dockets 25608 and 31006 should be denied.

Accordingly, 1. We direct all interested persons to show cause why the Board should not (1) make final its tentative findings and conclusions; and (2) subject to the disapproval of the President, issue amended and renewed foreign air carrier permits to the applicant in the specimen forms attached;

2. We direct any interested person having objection to the issuance of an order making final the Board's tentative findings and conclusions and issuing the proposed amended/renewed foreign air carrier permits to file with the Board and serve on the persons named in paragraph 5, no later than December 11, 1978, a statement of objections specifying the part or parts objected to, and include a summary of testimony, statistical data, and concrete evidence to be relied upon in support of the objections. If an oral hearing is requested, the objector should state in detail why such hearing is considered necessary and what relevant and material facts would be expected to be established through such hearing which cannot be established in written pleadings;

3. If timely and properly supported objections are filed, we shall give consideration to the matters and issues raised by the objections before further action is taken by the Board: *Provided*, That the Board may proceed to enter an order in accordance with its tentative findings and conclusions set forth in this order if it determines that there are no factual issues present that warrant the holding of an oral evidentiary hearing;[11]

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived, and the Secretary shall enter an order which shall (1) make final the Board's tentative findings and conclusions set forth in this order, and (2) subject to the disapproval of the President, issue amended and renewed foreign air carrier permits to the applicant in the specimen forms attached;

5. We shall serve a copy of this order upon Seagreen Air Transport Limited, the Antigua Ministry of Public Works and Communications, the Departments of State and Transportation, and the U.S.-flag carriers upon which Seagreen served its Petitions for Orders to Show Cause in Dockets 25608 and 31006.

We shall publish this order in the FEDERAL REGISTER and transmit a copy to the President of the United States.

By the Civil Aeronautics Board:[12]

PHYLLIS T. KAYLOR,
Secretary.

Specimen Permit

UNITED STATES OF AMERICA, CIVIL AERONAUTICS BOARD, WASHINGTON, D.C.

PERMIT TO FOREIGN AIR CARRIER (AS AMENDED)

Seagreen Air Transport Limited is authorized, subject to the provisions set forth below, the provisions of the Federal Aviation Act of 1958 and the orders, rules, and regulations issued under it, to engage in foreign air transportation of persons and property, as follows:

Between a point or points in Antigua, West Indies; intermediate points in St. Kitts, British Virgin Islands, and all points in St. Thomas and St. Croix, U.S. Virgin Islands, and Puerto Rico.

The holder shall be authorized to engage in charter trips in foreign air transportation, subject to the terms, conditions, and limitations prescribed by part 212 of the Board's Economic Regulations.

The authority granted shall be used solely for the purpose of providing nonscheduled air transportation, and the holder shall not, in the course of providing such service, engage in scheduled foreign air transportation.

In the performance of the operations authorized by this permit, the holder shall not use any aircraft with a passenger capacity in excess of 30 and a payload carrying capacity weight in excess of 7,500 pounds.

The initial tariff filed by the holder shall not set forth rates, fares and charges lower than those that may be in effect for any U.S. air carrier in the same foreign air transportation: However, this limitation shall not apply to a tariff filed after the initial tariff regardless of whether this subsequent tariff is effective before or after the introduction of the authorized service.

The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of the United Kingdom of Great Britain and Northern Ireland for British international air service.

The holder shall not operate any aircraft under the authority granted by this permit, unless the holder complies with the operational safety requirements at least equivalent to Annex 6 of the Chicago Convention.

This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and the United Kingdom of Great Britain and Northern Ireland shall be parties.

This permit shall be subject to the condition that, in the event any practice develops which the Board regards as inimical to sound economic conditions, the holder and the Board will consult, and will use their best efforts to agree upon modifications satisfactory to the Board and the holder.

The exercise of the privileges granted by this permit shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may be prescribed by the Board.

This permit shall be subject to the condition that the holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and The Hague Protocol approved by Board Order E-23680, May 13, 1966, and a signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

By accepting this permit the holder waives any right it may posses to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

This permit shall become effective on ————, and unless otherwise terminated as provided below, shall terminate after a period of five years. Prior to the expiration of its five-year period of effectiveness, this permit shall terminate (1) upon the effective date of any treaty, convention, or agreement, or amendment which shall have the effect of eliminating the bilaterally covered service here authorized from the service which may be operated by airlines designated by the Government of the United Kingdom (or in the event of elimination of any part of the bilaterally covered service authorized, the authority granted shall terminate to the extent of such elimination); or (2) upon the effective date of any permit granted by the Board to any other carrier designated by the Government of the United Kingdom in lieu of the holder, or (3) upon the termination or expiration of the Air Services Agreement between the Governments of the United States and the United Kingdom (Bermuda II), as amended by an exchange of notes concluded April 25, 1978; *However*, clause (3) of this paragraph shall not apply if, prior to the occurrence of the event specified in clause (3), the operation of the foreign air transportation authorized becomes the subject of any treaty, convention, or agreement to which the United States and the United Kingdom are or shall have become parties.

The Civil Aeronautics Board, through its Secretary, has executed this permit and affixed its seal on.————

————,
Secretary.

[SEAL]

Specimen Permit

UNITED STATES OF AMERICA, CIVIL AERONAUTICS BOARD, WASHINGTON, D.C.

PERMIT TO FOREIGN AIR CARRIER (AS AMENDED)

Seagreen Air Transport Limited, is authorized, subject to the provisions set forth below, the provisions of the Federal Aviation Act of 1958, and the orders, rules, and regulations issued under it, to engage in foreign air transportation of property only, as follows:

Between points in Grenada, West Indies; intermediate points in St. Vincent, St. Lucia, Dominica, Monserrat, Antigua, St. Kitts (including Nevis and Anguilla), British Virgin Islands, U.S. Virgin Islands, Puerto Rico, and the Bahamas; and the coterminal points Miami, Ft. Lauderdale, and West Palm Beach, Florida.

The authority granted above shall be subject to the conditions that (1) the holder shall not carry traffic originating at one U.S. point and destined for another U.S. point; (2) the holder shall not engage in scheduled foreign air transportation; and (3) the holder shall serve Antigua, or a point south thereof (Montserrat, Dominica, St. Lucia, St. Vincent, or Grenada), or St. Kitts (including Nevis and Anguilla), on all flights which serve Miami, Ft. Lauderdale, or West Palm Beach, Florida.

The holder shall be authorized to engage in charter trips in foreign air transportation, subject to the terms, conditions, and limitation prescribed by Part 212 of the Board's Economic Regulations.

[7]The effect of the amendment of Seagreen's permit to carry persons and property is to add St. Kitts, B.W.I. as an intermediate point, so that the route would read: Between a point or points in Antigua, West Indies; intermediate points in St. Kitts, British Virgin Islands, and all points in St. Thomas and St. Croix, U.S. Virgin Islands, and Puerto Rico.

[8]We shall, as we have in past cases, and solely in order to delineate the bounds of the nonscheduled foreign air transportation authority being granted, consider as being applicable to this condition the definition of "scheduled international air service" made by the Council of the International Civil Aviation Organization for the purposes of clarifying Articles 5 and 6 of the Chicago Convention. That definition reads: "A scheduled international air service is a series of flights that possesses all the following characteristics: (a) it passes through the airspace over the territory of more than one State; (b) it is performed by aircraft for the transport of passengers, mail or cargo for remuneration, in such a manner that each flight is open to use by members of the public; (c) it is operated so as to serve traffic between the same two or more points, either (i) according to a published time-table, or (ii) with flights so regular or frequent that they constitute a recognizable systematic series." As is well known, the ICAO Council's definition has not been accepted by a large number of the contracting States, including the United States, and is not binding on the Board. Accordingly, the Board's action should not be construed as an expression of opinion by the Board as to the proper interpretation to be placed on the scope of Articles 5 and 6 of the Chicago Convention. (See, Seagreen Air Transport Limited, Order 70-2-14, approved February 4, 1970).

[9]Any interested persons having objections to the issuance of an order making final the Board's tentative findings and conclusions stated here, and issuing the attached permit, shall be allowed 21 days in which to respond from the date of service of this order.

[10]This finding is based upon the fact that the proposed increase in aircraft operations to and from the U.S. will be *de minimis*, and the additional fuel consumed by Seagreen will be less than ten million gallons.

[11]Since provision is made for filing of objections to this order, petitions for reconsideration will not be entertained.

[12]All Members concurred.

by show-cause procedures because of

ern receives Atlanta-Washington au- and Washington via Dulles. Inasmuch

The holder shall not provide foreign air transportation under this permit unless (1) there is in effect third-party liability insurance in the amount of $1,000,000 or more to meet potential liability claims which may arise in connection with its operations under this permit, and (2) there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

The initial tariff filed by the holder shall not set forth rates, fares and charges lower than those that may be in effect for any U.S. air carrier in the same foreign air transportation: *However*, this limitation shall not apply to a tariff filed after the initial tariff regardless of whether this subsequent tariff is effective before or after the introduction of the authorized service.

The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of the United Kingdom of Great Britain and Northern Ireland for British international air service.

The holder shall not operate any aircraft under the authority granted by this permit, unless the holder complies with the operational safety requirements at least equivalent to Annex 6 of the Chicago Convention.

This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and the United Kingdom of Great Britain and Northern Ireland shall be parties.

This permit shall be subject to the condition that in the event any practice develops which the Board regards as inimical to sound economic conditions, the holder and the Board will consult, and will use their best efforts to agree upon modifications satisfactory to the Board and the holder.

By accepting this permit the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

The exercise of the privileges granted shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

This permit shall become effective on ——— and unless otherwise terminated as provided below, shall terminate after a period of five years. Prior to the expiration of its five-year period of effectiveness, this permit shall terminate (1) upon the effective date of any treaty, convention, or agreement, or amendment which shall have the effect of eliminating the bilaterally covered service here authorized from the service which may be operated by airlines designated by the Government of the United Kingdom (or in the event of elimination of any part of the bilaterally covered service authorized, the authority granted shall terminate to the extent of such elimination); or (2) upon the effective date of any permit granted by the Board to any other carrier designated by the Government of the United Kingdom in lieu of the holder, or (3) upon the termination or expiration of the Air Services Agreement between the Governments of the United States and the United Kingdom (Bermuda II), as amended by an exchange of notes concluded April 25, 1978; However, clause (3) of this paragraph shall not apply if, prior to the occurrence of the event specified in clause (3), the operation of the foreign air transportation authorized becomes the subject of any treaty, convention, or agreement to which the United States and the United Kingdom are or shall have become parties.

The Civil Aeronautics Board, through its Secretary, has executed this permit and affixed its seal on ———.

[6320-01-M]

[Docket Nos. 32754; 32751; Order No. 78-11-55]

SOUTHERN AIRWAYS, INC.

Order To Show Cause and Granting Temporary Exemption

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 16th day of November, 1978.

On May 26, 1978, Southern Airways, Inc. filed an application to amend its certificate of public convenience and necessity for Route 98 [1] to authorize it to engage in nonstop service between Atlanta and Washington, D.C., through Dulles International Airport and one-stop service between Atlanta and New York City.[2] The application was accompanied by a motion for hearing or, in the alternative, a request for an order to show cause why it should not be granted. The carrier also requests an exemption from the requirements of its certificate for Route 98 pending final Board action on its certificate amendment application.

Southern alleges, in support of its request, that there is no nonstop service available from Atlanta to Washington via Dulles International Airport; that its service proposal will fill a need which has not been met by Eastern and Delta, which are certificated to provide service to all three airports in the Washington metropolitan area, but only provide service to National and BWI; that Dulles serves a large section of the Washington metropolitan area not conveniently located to either National Airport or Baltimore-Washington International Airport; that the proposed service will be provided on a profitable basis without cost to the government in the form of a mail subsidy; and that its proposed service will have no adverse impact on the incumbent carriers.

Answers in support of Southern's applications were filed by nine civic parties: the Commonwealth of Virginia and the Dulles International Airport Development Commission; the Fairfax County Economic Development Authority; the Office of Economic Development, Loudon County, Virginia; the Herndon Chamber of Commerce; the Committee for Dulles; the City of Atlanta and the Atlanta Chamber of Commerce; and the Gulfport Area Chamber of Commerce, Gulfport, Mississippi.

Pan American World Airways and Delta Air Lines also filed consolidated answers in support of Southern's applications. Pan American asserts that Southern's proposed service will improve service in the Atlanta-Washington market, will reduce congestion at National Airport and will increase the number of domestic connections for international flights landing at Dulles. Delta does not oppose either application so long as Southern's authority is limited to Dulles.

Eastern Air Lines opposes both applications on the grounds that there is a multitude of nonstop service in the Atlanta-Washington market and therefore no need for additional nonstop service; that the areas in and around the Washington metropolitan area are readily accessible to National Airport; that Southern's proposed beyond service is duplicative and offers very little to the traveling public; and that Southern's proposed service could undermine the Board's original grant of authority on segment 7 of Route 98 if Southern starts routing the deep South-Washington/New York traffic through Atlanta.

In response to Eastern's objections, Southern claims that there is much civic support for its application; that the Board should consider its application since it previously applied for Atlanta-Washington/New York authority as part of its Greenville/Spartanburg-Washington/New York Subpart M application,[3] but the Board determined that the Atlanta portion of its application was inappropriate for processing under Subpart M,[4] and that its proposed service will not harm Eastern as evidenced by the fact that the latter does not claim any divsersion.

Southern's application falls within that class of cases that can be handled

[1] Condition 6 for Route 98 prohibits Southern from performing single-plane service between Atlanta and Washington/New York. In addition, Washington and New York are on segment 7, but Atlanta is not.

[2] It proposes to operate three round trips between Atlanta and Washington, one of which would extend beyond Washington to New York and one which would also extend beyond Atlanta to Huntsville, Jackson, and Mobile.

[3] Docket 24778.

[4] Order 75-8-49.

by show-cause procedures because of the absence of any material, determinative issue of fact requiring resolution in a formal evidentiary proceeding. *See Piedmont Boston Entry Application*, Order 78-4-69, April 14, 1978 (order to show cause); and Order 78-8-97, August 17, 1978 (final order).[5]

Our examination of the pleadings satisfies us that the applicant has made a plausible *prima facie* showing that the service it proposes can be operated on an economically sound basis,[6] so immediate processing of the application is in the public interest.

Based on the tentative findings below, we tentatively conclude that it is consistent with the public convenience and necessity to amend Southern's certificate for Route 98 so as to authorize it to engage in nonstop service between Atlanta and Washington, D.C., through Dulles International Airport and one-stop service between Atlanta and New York City. We also tentatively find that Southern is fit, willing and able to properly perform the air transportation it proposes and to conform to the provisions of the Act and the rules, regulations and requirements of the Board thereunder. We further find that our proposed action does not constitute a major federal action significantly affecting the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969, or a major federal action under the Energy Policy and Conservation Act.

We find that the grant of Southern's request will result in significant benefits to the traveling public in the Atlanta-Washington/New York market. Delta and Eastern have authority to provide service to all three airports in the Washington metropolitan area, however, they have generally refused to provide service to Dulles. By providing single-plane service between Atlanta and Washington, D.C., via Dulles, amendment of Southern's certificate will afford Atlanta and deep South passengers much easier access to the outlying suburban Washington area than is possible with service through National and BWI and will increase the number of domestic connections for international flights landing at Dulles. Eastern asserts that if Southern receives Atlanta-Washington authority it will undermine the Board's original grant of authority on segment 7 of Route 98. Although Southern was certificated on its segment 7 of Route 98 to provide service between Elgin Air Force Base, Florida and New York, N.Y.-Newark, N.J. via the intermediate points Dothan, Alabama, Columbus, Georgia, and Washington, D.C.,[7] there is nothing in the record to suggest that the Board fashioned the certificate in such a manner because it did not want Southern routing deep South passengers through Atlanta. The certificate was fashioned in such a manner because Southern specifically requested this authority.[8] Therefore, the proposed certificate amendment will not undermine the Board's original grant of authority on segment 7 or Route 98.

While as noted above, Southern has made a plausible showing that the service it proposes can be profitably operated, we need not find that its specific service proposal here, or any other specific pattern of service, will in fact be profitable. Traffic in the markets in question is clearly sufficient to sustain at least some service of the kind proposed. If Southern's particular service proposal or some variant thereof can be profitably operated, service is likely to be provided and the public will benefit accordingly. However, if the service is or becomes unprofitable, the carrier will be free, under the permissive authority we propose to grant it, to discontinue the service at any time and thus avoid further losses. At that time any diversion from other carriers will cease, and the public will be no worse off than it is today, with the possibility still remaining that the service may be resumed at a later time if conditions permit.

We find that Eastern has neither asserted nor shown that the grant of the authority requested will result in such diversion from it as to threaten its ability to perform its certificate obligations, or will necessarily result in the termination of essential services that cannot be replaced by another carrier. We thus find it unnecessary to resolve any disputes about the precise amount of diversion which may occur.

In view of the tentative findings and the limited nature of the operation being proposed, we find that it will be in the public interest to exempt Southern from the provision of its certificate so as to authorize it to provide the proposed service pending Board action on Southern's certificate amendment application. We are particularly concerned about Delta and Eastern's historic disinterest in providing service between the deep South and Washington via Dulles. Inasmuch as Southern is willing to fill the void, we have also determined to allow Southern to provide one-stop service between Atlanta and New York since the inclusion of New York will help support Southern's Atlanta-Washington operations. Under these circumstances, we find that it is consistent with the public interest to grant Southern relief from the provisions of the Act and the terms and conditions of its certificate pending final action on its certificate amendment application in Docket 32754.[9]

We are satisfied from the pleadings that nothing developed at an oral evidentiary hearing would be likely to require reversal of any of the foregoing tentative findings and conclusions. We will give interested parties 30 days following the date of service of this order to show cause why these tentative findings and conclusions should not be made final; replies will be due within 10 days thereafter. We expect that such objections will be supported by detailed economic or legal arguments. If an oral evidentiary hearing is requested, the objector should state, in detail, why such a hearing is necessary, and what relevant and material facts the objector would expect to establish through such a hearing that cannot be established in written pleadings. We will not entertain general, vague, or unsupported objections.

Accordingly,

1. We direct all interested persons to show cause why the Board should not issue an order making final the tentative findings and conclusions stated here and amending Southern's certificate for Route 98 so as to authorize the carrier to engage in nonstop operations between Atlanta and Washington, D.C. (service to be provided through Dulles International Airport), and one-stop operations between Atlanta and New York, New York, via Washington, D.C;

2. Any interested person having objections to the issuance of an order making final the tentative findings, conclusions and certificate amendments set forth here shall, no later than December 20, 1978, file with the Board and serve upon all parties who have filed pleadings in Dockets 32754 and 32751 a statement of objections together with a summary of testimo-

[5] Unlike *Piedmont Boston Entry* where the authority involved a new point, Southern is already certificated at each station—Atlanta, Washington, and New York. Restriction removals can be justified under public convenience and necessity standards solely on findings relating to operating flexibility (which are present here), unless a substantial probability is shown that it will be seriously harmful to the domestic air transportation system. Accordingly, the measure of proof here is less than required in *Piedmont Boston Entry*.

[6] Southern forecasts a first year operating profit of $1,279,000. SO-102, p. 1.

[7] *Southern Airways, Inc. Show Cause Proceeding*, 48 C.A.B. 708 (1968).

[8] See Order No. E-25784, October 6, 1967.

[9] We reach this conclusion notwithstanding Eastern's contention that flights conducted by Southern will increase operations at Atlanta's saturated airport. It remains our basic policy to relieve congestion at saturated airport by means of authorizing new authority at alternative airports, whether or not the alternative airport is a nearby satellite, rather than by restricting access to saturated airports. See generally, *Chicago-Midway Low-Fare Route Proceeding*, Order 78-7-40, July 14, 1978; and Order 78-8-203, August 31, 1978.

V 4 3 / 2 2 7 N 0 2 4 7 8 V

V 43 N 227 NOV 24 1978

ny, statistical data and evidence expected to be relied upon to support its objections; answers to objections shall be filed no later than January 2, 1979;

3. If timely and properly supported objections are filed, we will fully consider the matters or issues raised before taking any further action;[10]

4. In the event that no objections to any part of this order are filed, we will consider all further procedural steps relating to such part or parts to have been waived and the case submitted to us for final action;

5. We exempt Southern from the provisions of section 401 of the Act and the terms, conditions and limitationa of its certificate to the extent necessary to permit it to operate the service named in paragraph 1, above, pending final decision in Docket 32754; and

6. We shall serve a copy of this order upon all persons named in the service lists in Dockets 32751 and 32754.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[11]

CONSOLIDATED DECISION ON APPLICATIONS FOR DUTY FREE ENTRY OF ACCESSORIES FOR FOREIGN INSTRUMENTS

The following is a consolidated decision on applications for duty-free entry of accessories for foreign instruments pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301). (See especially Section 301.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of commerce Building, at 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No.: 78-00344. Applicant: Lenox Hill Hospital, 100 East 77th Street, New York, N.Y. 10021. Article: Double tilt-lift for EMU-101 electron microscope. Manufacturer: Siemens Corp., West Germany. Intended use of article: The article is an accessory to an electron microscope that will be used for the examination of portions of human bronchial mucosa, liver, kidney, and skin for abnormal content of inorganic substances that are capable of producing diseases. Application received by Commissioner of Customs: July 20, 1978. Advice submitted by the Department of Health, Education, and Welfare on: October 10, 1978.

Docket No. 78-00320. Applicant: Naval Medical Research Institute, Bethesda, Md. 20014. Article: ASID-4D High Resolution Scanning Device. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for the examination of biological specimens including bacteria, viruses, parasites, fungi, and other microorganisms. Experiments to be conducted will include:

(a) The ultrastructural localization of antibody-antigen reactions in schistosomules of *Schistosoma mansoni;*

(b) Electron microprobe study of trace metals in cellular ultrastructure exposed to organic metallic antifouling paints;

(c) Coagulopathies in vascular injuries and transplantation;

(d) A study of platelet lipoprotein-dependent coagulant activities in septic shock;

(e) Study of hyperbaric environment on blood platelets;

(f) Effects of acute low-level electromagnetic radiation on the central nervous system: Morphological study of hypothalamic and subthalamic regions;

(g) Scanning electron microscopic evaluation of nerve regeneration;

(h) Ultrastructural studies of microwave cataractogenesis;

(i) Endothelial perfusion injury using fibrinolytic and coagulation parameters in the preservation of organs for repairing battle casualties;

(j) Central nervous system circulatory changes in air embolism and decompression sickness;

(k) Septic shock due to *Pseudmonas aeruginosa:* Pathogenic effects of exotoxin.

Application received by Commissioner of Customs: July 7, 1978. Advice submitted by the Department of Health, Education, and Welfare on: October 10, 1978.

Docket No. 78-00312. Applicant: Indiana University, Purchasing Department, 1101 East 17th Street, Bloomington, Ind. 47401. Article: Universal Camera for Elmiskop 1 Electron Microscope. Manufacturer: Siemens AG, West Germany. Intended use of article: The article is an accessory to an existing electron microscope manufactured by the same manufacturer which will be used in research and teaching applications. Specifically, the article will be used for (a) examination of fine structural changes in various experimental ocular disease conditions, (b) recognition of fine tissue changes in experimental animal retina research, and (c) the teaching of graduate students and residents in advanced training. Application received by Commissioner of Customs: July 5, 1978. Advice submitted by the Department of Health, Education, and Welfare on: October 10, 1978.

COMMENTS: No comments have been received with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, is being manufactured in the United States. Reasons: The applications relate to compatible accessories for instruments that have been previously imported for the use of the applicant institutions. The articles are being manufactured by the manufacturers which produced the instruments with which they are intended to be used. We are advised by the Department of Health, Education, and Welfare in the respectively cited memoranda that the accessories are pertinent to the applicant's intended uses and that it knows of no comparable domestic articles.

The Department of Commerce knows of no similar accessories manufactured in the United States which are interchangeable with or can be readily adapted to the instruments with which the foreign articles are intended to be used.

COLGATE UNIVERSITY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 78-00264. Applicant: Colgate University, Hamilton, N.Y. 13346. Article: Scanning Microdensitometer, Model M85 and accessories. Manufacturer: Vickers Ltd., United Kingdom. Intended use of article: The article is intended to be used for measurements of the biologically active concentrations of hormones. The primary field of interest is the circadian rhythms of hormones involved with reproductive cycles especially as they are affected by photoperiods, temperature, and pineal gland. These studies normally culminate in research papers published in the field. In addition, the article will be used for educational purposes in the courses Biology of Reproduction (Biol. 365), Experimental Endocrinology (Biol. 361-362), and Chronobiology (Biol. 364).

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides a scanning capability with the ability to measure both area and absorption. The Department of Health, Education, and Welfare advises in its memorandum dated September 26, 1978 that (1) the capability of the foreign article described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

NATIONAL CANCER INSTITUTE—NIH

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m., in room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 78-00302. Applicant: National Cancer Institute, Building 10, Room 2A10, Laboratory of Pathology, NIH, Bethesda, Md. 20014. Article: EM 400 Accessories consisting of: PW6575/00 Basic Scanning Attachment and PW6576 Secondary Electron Detector including PW6337/00 EM 400 Retrofit Kit. Manufacturer: Philips Electronics Instruments NVD, the Netherlands. Intended use of Article: The articles are accessories to an existing electron microscope to be used as a very high resolution scanning electron microscope providing topographic information about the quantity and distribution of molecular markers specifically bound to receptors on the surfaces of normal and malignant tumor cells in vitro and to relate this information to the intracellular distribution of contractile proteins believed to control the distribution and movement of these receptors.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The application relates to accessories for an instrument that had been previously imported for the use of the applicant institution. The article is being furnished by the manufacturer which produced the instrument with which the article if intended to be used and is pertinent to the applicant's purposes. The National Bureau of Standards advises in its memorandum dated October 12, 1978, that it knows of no domestic instrument of equivalent scientific value to the article for its intended uses.

The Department of Commerce knows of no other similar accessories being manufactured in the United States, which are interchangeable with or can be readily adapted to the instrument with which the foreign article is intended to be used.

PROFESSIONAL STAFF ASSOCIATION OF THE L.A. COUNTY HARBOR GENERAL HOSPITAL

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m., in room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 78-00290. Applicant: Professional Staff Association of the L.A. County Harbor General Hospital, 1124 West Carson Street, Torrance, Calif. 90502. Article: HN A200 Electrophoretic Apparatus, Safety Model Complete with accessories. Manufacturer: V. Holm, Denmark. Intended Use of Article: The article is intended to be used to separate serum and brain protein in an electric field during the study of immunological response to the nervous system to viral infection.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides the capability for line and crossed line immunoelectrophoretic separations on glass supported agarose plates with good temperature and voltage control. The Department of Health, Education, and Welfare advises in its memorandum dated September 26, 1978, that: (1) The capability of the foreign article described above is pertinent to the applicant's intended purpose, and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

DEPARTMENT OF ENERGY

CONSERVATION AND SOLAR APPLICATIONS; FOOD INDUSTRY ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Food Industry Advisory Committee will meet on Wednesday, December 13, 1978, from 9 a.m., until approximately 1 p.m., in Seminar Room CD, Sheraton Biltmore Hotel, 817 West Peachtree Street, Atlanta, GA.

The Committee was established to provide the Secretary of Energy with recommendations and advice with respect to the development and implementation of policies and programs affecting the food industry.

The tentative agenda for the meeting is as follows:

9 a.m.—Presentation by USDA on agricultural energy priorities.

10 a.m.—Discussion of DOE briefings and Food Industry Advisory Committee subcommittee meeting:

a. Federal policies on energy efficiency in transportation and distribution.

b. DOE building performance standards.

c. DOE consumer technology transfer program.

d. Tax credits for energy efficient equipment.

e. DOE National Energy Strategy Study.

11 a.m.—Old Committee business.

11:30 a.m.—New Committee business.

12:30 p.m.—Public Comment (10 minute rule).

The meeting is open to the public. The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Georgia Hildreth, Director, Advisory Committee Management Office 202-252-5187, at least 5 days prior to the meeting and reasonable provision will be made for their appearance on the agenda.

The transcript of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room GA-152, Forrestal Building, 1000 Independence Avenue SW., Washington, D.C., between the hours of 8 a.m., and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcript from the reporter.

Issued at Washington, D.C on November 20, 1978.

PHILLIP S. HUGHES,
Assistant Secretary for Intergovernmental and Institutional Relations.

[6740-02-M]

Federal Energy Regulatory Commission

[Project No. 2146 (Weiss Development)]

ALABAMA POWER CO.

Application for Change in Land Rights; and Authorization To Use Project Waters and Discharge Runoff

NOVEMBER 16, 1978.

Take notice that on May 26, 1978, an application was filed with the Federal Energy Regulatory Commission by the Alabama Power Co. (correspondence to: Jesse S. Vogtle, Senior Vice President, Alabama Power Co. P.O. Box 2641, Birmingham, Ala. 35291), for use of project lands and water, and to discharge runoff within the Weiss development of the Coosa River project No. 2146, located in Cherokee County, Ala.

Applicant proposes the following: (1) To lease to Mid-Western Nurseries, Inc., of Tahlequah, Okla., for a period of 25 years, with an option to renew for another 25 years, a 146-acre parcel of project land within the flood easement of project No. 2146 in sections 11, 13, and 14 T. 10 S., R. 8 E., Cherokee County, Ala.; (2) to grant lessee the nonexclusive right to use water from the Weiss Reservoir intake canal, the Coosa River below Weiss Dam, and from an inland lake in sections 13 and 14—owned in part by licensee—including rights for the installation, operation, and maintenance of water withdrawl and irrigation facilities; and (3) to grant lessee the rights to drain irrigation runoff water from leased premises across licensee's lands to Weiss Reservoir, the Coosa River downstream of Weiss Dam, or the inland lake for the purpose of developing and operating a containerized nursery.

Anyone desiring to be heard or to make any protest about this application should file a petition to intervene or a protest with the Federal Energy Regulatory Commission, in accordance with the requirements of the Commission's rules of practice and procedure, 18 CFR § I.8 or § 1.10 (1977). In determining the appropriate action to take, the Commission will consider all protests filed, but a person who merely files a protest does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any protest or petition to intervene must be filed on or before December 20, 1978. The Commission's address is: 825 North Capitol Street NE., Washington, D.C. 20426.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP78-256]

ALGONQUIN LNG, INC. AND ALGONQUIN GAS TRANSMISSION CO.

Extension of Time

NOVEMBER 15, 1978.

On November 3, 1978, the joint applicants in this proceeding filed a motion for an extension of time to file their direct case as required by Commission order of October 13, 1978, in this proceeding. The motion states that additional time is needed because the number of issues involved and detailed treatment required. Commission Staff Counsel on November 8, 1978, filed a motion asking that the dates suggested by applicants be further delayed because of a U.S. Department of Transportation-sponsored risk analysis of LNG trucking on the Distrigas of Massachusetts system. Staff's motion states that no party opposes the proposed schedule.

The following schedule is, therefore, established:

Direct case of applicants and supporting intervenors, March 19, 1979.

Case-in-chief of staff and opposing intervenors, April 9, 1979.

Rebuttal testimony of applicants and supporting intervenors, April 23, 1979.

Prehearing conference, April 26, 1979, 10 a.m.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP79-52]

CITIES SERVICE GAS CO.

Application

NOVEMBER 16, 1978.

Take notice that on November 3, 1978, Cities Service Gas Co. (Applicant), P.O. Box 25128, Oklahoma City, Okla. 73125, filed in docket No. CP79-52, an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of gas to the Avant Gas Co. (Avant) for resale to the town of Avant in Osage County, Okla., all as more fully set forth in the application which is on file with the Commission and open for public inspection.

Applicant states that as of December 31, 1977, 199 customers were served by Avant and that Avant is carried as a "partial service customer." Further, Applicant states that it is unaware of any other gas supply available to the town. At the time the sale commenced, in 1959, the community was receiving some gas from local sources which were then depleted to such an extent that adequate service could not be maintained and Avant has been attempting unsuccessfully to dispose of this distribution system for some time, it is said. It is Applicant's understanding that the system is in poor condition and, according to the distributor, it has been operating at a loss for some time. Current income has been used to pay salaries, overhead, etc., but Applicant has not received any payment for gas delivered to Avant since June 26, 1978, and as of September 30, 1978, Avant owed Applicant $5,709.12, it is stated.

Applicant further states that Avant has notified Applicant by letter dated August 9, 1978, that it would not be responsible for any gas coming from Applicant's meter after August 18, 1978. It is indicated that on September 6, 1978, Applicant notified Avant that in view of their refusal to pay for gas delivered, Applicant's only alternative was to seek an order from the Commission for abandonment of service.

Applicant asserts that in view of the present circumstances and Applicant's inability to secure payment for volumes of gas delivered to Avant which it is reselling in the town of Avant, it is requested that permission and approval for this abadonment be granted.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 8, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-32834 Filed 11-22-78; 8:45 am]

[6740-02-M]

[Docket No. CP76-356]

MICHIGAN WISCONSIN PIPE LINE CO.

Request for Waiver

NOVEMBER 16, 1978.

Take notice that on November 1, 1978, Michigan Wisconsin Pipe Line Co. (Applicant), One Woodward Avenue, Detroit, Mich. 48226, filed in Docket No. CP76-356 a request for waiver pursuant to section 157.7(b)(2) of the regulations under the Natural Gas Act (18 CFR 157.7(b)(2)) of the cost limitations for a single project gas-purchase facility, costing in excess of the authorized $1,500,000, to connect the West Cheyenne field, Roger Mills County, Okla. to Applicant's system, all as more fully set forth in request which is on file with the Commission and open for public inspection.[1]

Applicant requests a waiver of the single project cost limitations prescribed by subparagraph 1(il) of section 157.7(b) as follows:

(1) Increase in the single project cost limitations from $1,500,000 to $2,024,325 stated as total installed cost of the facility to connect the West Cheyenne field.

Applicant's request reflects the cost of construction of a pipeline to connect the West Cheyenne field in Roger Mills County, Okla., to Applicant's existing transmission facilities at a total installed cost of $2,024,325. Applicant asserts that this overrun of the originally estimated cost of the facility resulted from factors beyond Applicant's control and gives rise to Applicant's request herein for a waiver of the $1,500,000 limitation for this project.

Applicant states that it obtained the dedication of substantial reserves in the West Cheyenne field. In August 1976 Applicant states it prepared work orders for the construction of facilities required to connect these reserves to its system and that these work orders reflected a total estimated cost of $1,426,963. Applicant further states that since this was well within the limits of Applicant's budget-type certificate, the decision was made to construct the facilities pursuant to such authorization. Thereafter, a more detailed analysis was made of the work to be performed and bids were obtained for the construction of the pipeline and the necessary materials and supplies, it is said. Applicant states that accordingly, revised work orders were prepared which incorporated the contractor's actual bid for construction of the line and actual purchase order prices for materials and this resulted in a net upward revision of $68,486 to a total cost of $1,495,449 for the project, and construction was commenced.

It is asserted that the request for waiver is predicated upon the unexpectedly severe weather conditions which caused delays amounting to almost double the estimated construction time from 36 days to 66 days. This resulted, among other things, in substantially increased contract inspection services, it is said.

Applicant states that it regrets that actual construction costs exceeded its budget-type authorization. However, Applicant states that it proceeded on the basis of carefully prepared estimates using the best information available to it and the cost estimates were overrun for reasons beyond its control.

Any person desiring to be heard or to make any protest with reference to said request for waiver should on or before December 8, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.70). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to

[1] By order issued July 13, 1976, Applicant was granted certificate authorization, among other things, to construct and operate gas purchase facilities under section 157.7(b) of the regulation. The cost of any single onshore project was limited to $1,500,000.

V 43/227 NO 0247 78 IIM

become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. RP79-2]

MICHIGAN WISCONSIN PIPE LINE CO.

Order Accepting for Filing and Suspending Proposed Rate Increase

ISSUED NOVEMBER 16, 1978.

On October 2, 1978, as completed on October 17, 1978, Michigan Wisconsin Pipe Line Co. (Michigan Wisconsin) tendered for filing First Revised Sheet No. 667 under Rate Schedule X-64 to its F.P.C. Gas Tariff, First Revised Volume No. 2 to be effective November 1, 1978.

Public notice of the filing in RP79-2 was issued on November 13, 1978, providing for protests or petitions to intervene to be filed on or before November 27, 1978. Any petitions filed in RP79-2 after the date of this suspension order will be dealt with by separate order.

Michigan Wisconsin states that this filing is made to reflect the redetermination of the monthly charge in accordance with a service agreement between Michigan Wisconsin and High Island Offshore System dated August 4, 1977, and authorized by Commission order issued July 6, 1978 at docket No. CP78-134.

Based upon a review of Michigan Wisconsin's filing in RP79-2, the Commission finds that the proposed higher rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, or otherwise unlawful. Accordingly, the Commission shall accept Michigan Wisconsin's proposed rate increase for filing, grant waiver of notice requirements, suspend the proposed increase such that the filing shall become effective as of November 2, 1978, subject to refund. In addition, we shall set the matter for hearing.

The Commission finds: It is necessary and proper in the public interest and in carrying out the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates proposed by Michigan Wisconsin and that the same be accepted for filing and suspended as hereinafter ordered.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 8, and 15 thereof, and the Commission's rules and regulations, a public hearing shall be held concerning the lawfulness of the increased rates proposed by Michigan Wisconsin.

(B) Pending hearing and decision Michigan Wisconsin's proposed rate increase is accepted for filing, waiver of notice is granted, and the proposed rate increase is suspended until November 2, 1978, when it shall be permitted to become effective, subject to refund.

(C) The Commission staff shall prepare and serve top sheets on all parties on or before February 19, 1978.

(D) A presiding administrative law judge, to be designated by the Chief Administrative Law Judge for that purpose (18 CFR 3.5(d)), shall convene a settlement conference in this proceeding to be held within 10 days after the service of top sheets by the staff, in a hearing or conference room of the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. The presiding administrative law judge is authorized to establish such further procedural dates as may be necessary, and to rule upon all motions (except motions to consolidate, sever, or dismiss), as provided for in the rules of practice and procedure.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-32836 Filed 11-22-78; 8:45 am]

[6740-02-M]

[Docket No. ER79-51]

PACIFIC POWER & LIGHT CO.

Application

NOVEMBER 15, 1978.

Take notice that Pacific Power & Light Co. (Pacific) on November 6, 1978, tendered for filing, in accordance with section 35.12 of the Commission's regulations, a new rate schedule for the loan of energy and possible return by Public Service Co. of Colorado (Colorado) and the United States of America Western Area Power Administration (United States).

Pacific requests waiver of the Commission's regulations so that the rate schedule could be made effective October 9, 1978.

Copies of the filing were supplied to Colorado and the United States, according to Pacific.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before November 27, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-32837 Filed 11-22-78; 8:45 am]

[6740-02-M]

[Docket No. G-8110 et al.]

PIEDMONT NATURAL GAS CO. ET AL.

Applications and Petitions for Declaratory Order

In the matter of Piedmont Natural Gas Co. (docket No. G-8110), Transcontinental Gas Pipe Line Corp. (docket No. CP79-38), Transcontinental Gas Pipe Line Corp. (docket No. CP79-39), Southern Natural Gas Co. (docket No. CP79-40), Carolina Pipeline Co. (docket No. CP79-41).

NOVEMBER 16, 1978.

Take notice that on October 25, 1978, petitions for declaratory orders pursuant to section 1(c) of the Natural Gas Act were filed in docket No. G-8110 by Piedmont Natural Gas Co. (Piedmont), P.O. Box 1968, Charlotte, N.C. 28201, and in docket No. CP79-41 by Carolina Pipeline Co. (Carolina), I-20 East and Alpine Road interchange, Columbia, S.C. 29206; and applications for certificates of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act were filed in docket Nos. CP79-38 and CP79-39 by Transcontinental Gas Pipe Line Corp. (Transco), P.O. Box 1396, Houston, Tex. 77001, and in docket No. CP79-40 by Southern Natural Gas Co. (Southern), P.O. Box 2563, Birmingham, Ala. 35202 (collectively referred to as Applicants), all as more fully set forth in the applications and petitions on file with the Commission and open to public inspection.

The applications and petitions state that Applicants have entered into contractual arrangements which would result in Transco's providing storage service for Piedmont and Carolina. It is stated that Carolina is Piedmont's supplier of natural gas and that Piedmont has been experiencing significant curtailments during the winter months. The contractual arrangements it is stated are to enable Piedmont and Carolina to shift supplies of natural gas available to them from April to October each year to deliveries during the winter heating season.

It is further stated that these arrangements are pursuant to a stipulation and agreement establishing Southern's permanent curtailment plan, as approved in opinion No. 5 issued November 17, 1977, whereby Southern agreed to allocate to Carolina certain volumes of gas of injection into storage as proposed herein

The arrangements that would be used to effectuate this purpose are said to be as follows: Carolina would deliver to Southern, by back-off, up to 45,000 Mcf of gas per day for Piedmont's account, and up to 45,000 Mcf per day for its own account, on such days as are mutually agreeable to the parties. Southern would then deliver thermally equivalent volumes to Transco near Jonesboro, Ga. Transco, in turn, would transport by displacement on an interruptible basis thermally equivalent volumes for injection into its Washington storage field in Louisiana. During the winter heating season it is said that Transco would redeliver the gas to Carolina at existing points of connection in South Carolina for ultimate delivery to Carolina and Piedmont.

It is stated that Transco would charge Piedmont and Carolina and initial rate of 10 cents per dekatherm equivalent for all quantities of gas delivered to Carolina. Southern is stated, would receive $50 for each day it renders the above described service.

To effectuate the delivery of gas from Southern to Transco, it is said that Southern would install an additional meter run and tie-in facilities at its Jonesboro connection with Transco at an estimated cost of $37,030. Such costs, it is said, would be paid by Southern's customers whose gas is delivered to Transco at that point, Atlanta Gas Light Co. and Carolina.

In conjunction with the contractual arrangements described above, Piedmont and Carolina have filed in docket Nos. G-8110 and CP79-41, respectively, petitions for declaratory orders continuing exemptions from the provisions of the Natural Gas Act and the rules and regulations thereunder previously granted to them. The petitions state in support thereof that the gas at issue would be delivered and consumed wholly within the State of South Carolina, and that the rates, service and facilities of Piedmont and Carolina are subject to regulation by the Public Service Commission of South Carolina.

Any person desiring to be heard or to make any protest with reference to said applications and petitions should on or before December 8, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on these applications and petitions if no petition to intervene is filed within the time required therein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-32838 Filed 11-22-78; 8:45 am]

[6740-02-M]

[Docket No. RI78-97]

SUN OIL CO.

Petition for Special Relief

NOVEMBER 16, 1978.

Take notice that on September 25, 1978, Sun Oil Co. (Petitioner), P.O. Box 20, Dallas, Tex. 75221, filed a petition for special relief in Docket No. RI 78-97 pursuant to section 2.76 of the Commission's statement of general policy and interpretations (18 CFR § 2.76).

Petitioner requests permission to charge 41.2712 cents per Mcf at 14.65 psia for the sale of gas to Panhandle Eastern Pipeline Co. from its T. M. Thomas, well No. 1, North Bishop field, Ellis County, Okla. Petitioner asserts that the increased rate is necessary in order to recover the cost of a proposed FRAC treatment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before December 8, 1978, file a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. RI78-96]

STERLING PRODUCTION CO.

Petition for Special Relief

NOVEMBER 16, 1978.

Take notice that on September 25, 1978, Sterling Production Co. (Petitioner), 1010 Wilson Building, Corpus Christi, Tex. 78476, filed a petition for special relief in docket No. RI78-96 pursuant to section 2.76 of the Commission's statements of general policy and interpretations (18 CFR § 2.76).

Petitioner states that because of financial loss due to insufficient gas processed, Coastal States Gas Producing (Coastal) has ceased to gather, compress, dehydrate and transport to Trunkline Gas Co. the small volume of gas produced by Sterling Production Co. Petitioner desires to purchase Coastal's system and also to install a two-stage compressor and dehydrator in order to continue its sales to Trunkline Gas Co. Therefore, petitioner is requesting permission to charge $2.00/Mcf at 14.65 psia for the sale of gas to Trunkline Gas Co. from its Robert Adams 30-acre lease and also its R. S. Adams 20-acre lease, Alfred field, Jim Wells County, Tex.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such protests or petitions should be filed on or before December 8, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

V 43 / 227 NOV 24 1978

Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP79-51]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

NOVEMBER 16, 1978.

Take notice that on November 1, 1978, Transcontinental Gas Pipe Line Corp. (Applicant), P.O. Box 1396, Houston, Tex. 77001, filed in docket No. CP79-51 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing an interruptible transportation service of up to 1,053 dekatherms (dt) equivalent of natural gas per day for the account of Carolina Pipeline Co., Inc.; NCNG Exploration Corp., an affiliate of North Carolina Natural Gas Corp.; Philadelphia Electric Co.; Piedmont Exploration Co., Inc., an affiliate of Piedmont Natural Gas Co., Inc.; Tar Heel Energy Corp., an affiliate of Public Service Co. of North Carolina, Inc.; Owens-Corning Fiberglas Corp.; UCG Energy Corp., an affiliate of United Cities Gas Co., North and South Carolina Division; Rockingham Exploration Co., an affiliate of North Carolina Gas Service Division of Pennsylvania and Southern Gas Co.; Burlington Industries, Inc.; and Devco Enterprises, Inc., an affiliate of Cherokee Brick Co. of North Carolina, Inc., all as more fully set forth in the application which is on file with the Commission and open for public inspection.

Applicant states that with the exception of Owens-Corning Fiberglas Corp., which is Applicant's only direct industrial customer; Burlington Industries, Inc., which is an industrial customer of one of Applicant's distribution customers; and Devco Enterprises, Inc., which is an affiliate of Cherokee Brick Co. of North Carolina, Inc., an industrial customer of one of Applicant's distribution customers, these transportation customers are all distribution company customers of Applicant or affiliates of Applicants distributors.

Applicant further states that the joint venture (Transmac Exploration and Development Program) of these transportation customers has discovered and developed several successful wells in the Intracoastal City Prospect Field, Vermillion Parish, La.

Applicant states that the gas produced from the Intracoastal City Prospect field would be delivered directly into Applicant's system. Applicant requests authorization to transport for the account of the above transportation customers, on an interruptible basis, their interests in the Intracoastal City Prospect field gas from the point of connection in the field to existing points of delivery on Applicant's system to such customers, or their affiliates.

Applicant states further that transportation service into applicant's rate zone 2 initially would be rendered at 23.5 cents per dt, and into rate zone 3 at 24 cents per dt.

Applicant would initially withhold 3.8 percent of the transportation volumes destined for delivery in rate zone 2 and 4.4 percent of the volumes for delivery on rate zone 3 for compressor fuel and line loss make-up, it is said. the applicant asserts that transportation gas would be utilized by the transportation customers which would be the ultimate recipients to moderate the impact of Applicant's curtailments on their high-priority end uses.

Applicant asserts that the transportation service would be rendered with existing capacity.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 8, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP79-54]

TRANSWESTERN PIPELINE CO.

Application

NOVEMBER 16, 1978.

Take notice that on November 6, 1978, Transwestern Pipeline Co. (applicant), P.O. Box 2521, Houston, Tex. 77001, filed in docket No. CP79-54 an application pursuant to section 7 of the Natural Gas Act and section 157.7(g) of the regulations thereunder (18 CFR 157.7(g)) for a certificate of public convenience and necessity authorizing the construction and for permission and approval to abandon for a 12-month period commencing January 1, 1979, various field compression and related metering and appurtenant facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to enable Applicant to act with reasonable dispatch in constructing and abandoning facilities which would not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of proposed construction and abandonment under section 157.7(g) would not exceed $3,000,000 and no single project would exceed $500,000. Applicant also states that the cost of said facilities would be initially financed utilizing existing corporate funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 8, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.70). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-311]

UTAH POWER & LIGHT CO.

Further Extension of Time

NOVEMBER 13, 1978.

On November 1, 1978, Lincoln Service Corp. (Lincoln) filed a motion for a further extension of time to file its brief on exceptions to the initial decision issued in this proceeding on June 12, 1978. The motion states that Lincoln cannot determine whether its dispute with Utah is moot until "Utah files with the Commission additional rate data as required by the Commission in this and in certain prior proceedings." The Staff has informed this office that it believes the additional data has been filed with the Commission in recent compliance filings made by Utah.

Upon consideration, notice is hereby given that a further extension of time is granted to and including December 4, 1978. Briefs opposing exceptions are due on or before December 26, 1978.

KENNETH F. PLUMB,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[PPT-33; FRL 1012-6]

PESTICIDE PROGRAMS

Filing of Food Additive Petition

Fisons Corp., Agricultural Div., Bedford, MA 01730, has submitted a petition (FAP 8H5197) to the Environmental Protection Agency (EPA) which proposes that 21 CFR Part 193 be amended by establishing a regulation permitting the use of the insecticide bendiocarb (2,2-dimethyl-1,3-benzodioxol-4-ol methylcarbamate) in a proposed experimental program involving application of the insecticide to growing corn with a tolerance limitation of 0.10 part per million (ppm) on the commodity corn oil. Notice of this submission is given pursuant to the provisions of section 409(b)(5) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on this petition to the Federal Register Section, Program Support Division (TS-757), Office of Pesticide Programs, EPA, Rm. 401, East Tower, 401 M Street SW., Washington, DC 20460. Inquiries concerning this petition may be directed to Product Manager (PM) 12, Registration Division (TS-767), Office of Pesticide Programs, at the above address, or by telephone at 202-426-9425. Written comments should bear a notation indicating the petition number. Comments may be made at any time while a petition is pending before the Agency. All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: November 16, 1978.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

PESTICIDE PROGRAMS

Filing of Food Additive Petition

Mobay Chemical Corp., Chemagro Agricultural Division, P.O. Box 4913, Kansas City, Mo. 64120, has submitted a petition (9H5199) to the Environmental Protection Agency (EPA) which proposes that 21 CFR 193.301 be amended by establishing a regulation permitting residues of the insecticide baygon [2-(1-methylethoxy)phenol methylcarbamate] resulting in food commodities exposed to the insecticide during treatment of food handling establishments with a tolerance limitation of 0.2 part per million (ppm). Notice of this submission is given pursuant to the provisions of section 409(b)(5) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on this petition to the Federal Register Section, Program Support Division (TS-757), Office of Pesticide Programs, EPA, Room 401, East Tower, 401 M Street SW., Washington, D.C. 20460. Inquiries concerning this petition may be directed to Product Manager (PM) 12, Registration Division (TS-767), Office of Pesticide Programs, at the above address, or by telephone at 202-426-9425. Written comments should bear a notation indicating the petition number. Comments may be made at any time while a petition is pending before the Agency. All written comments filed pursuant to this notice will be available for public inspection in the Office of the Federal Register Section from 8:30 a.m. to 4 p.m., Monday through Friday.

Dated: November 16, 1978.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received or accepted by the Regulatory Reports Review Staff, GAO, on November 17, 1978. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipts.

The notice includes the title of each request received; the name of the agency sponsoring the proposed collec-

The petitioner has misinterpreted household use of orange skins as food cause bladder tumors. The Commis-

V 4 3 1 2 2 7 N 0 2 4 7 8 UMI

tion of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FCC and NRC requests are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed requests, comments (in triplicate) must be received on or before December 12, 1978, and should be addressed to Mr. John M. Lovelady, Assistant Director, Regulatory Reports Review, United States General Accounting Office, Room 5106, 441 G Street NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-275-3532.

FEDERAL COMMUNICATIONS COMMISSION

The FCC requests an extension without change clearance for Form 395, Annual Employment Report, which is used to monitor and enforce FCC Rules and Regulations pertaining to Equal Employment Opportunities and is required by §§ 1.612, 73.125, 1.815(a), 21.307, and 23.55 of the FCC's Rules and Regulations. The form is used to collect data from firms employing less than 100 as this constitutes a significant percentage of firms operating in the communications industry, and the data is used by FCC to effectively monitor Equal Employment Opportunities practices. The FCC estimates respondent burden average 63 minutes per response and that approximately 10,700 broadcasters and common carriers report annually.

The FCC requests clearance of a revision to Form 395-A, Annual Employment Report—Cable Television. Form 395-A is used to monitor and enforce FCC Rules and Regulations pertaining to Equal Employment Opportunities and is required by Section 76.403 of the FCC's Rules and Regulations. The form is used to collect data from firms employing less than 100 as this constitutes a significant percentage of firms operating in the communications industry, and the data is used by FCC to effectively monitor Equal Employment Opportunities practices. Form 395-A has been revised to change the ethnic categories to comply with OMB Circular No. A-46, Transmittal Memorandum No. 6. The FCC estimates respondent burden averages 8 minutes per response and that approximately 3,500 cable television owners report annually.

The FCC requests clearance of a new "Quarterly Report of Expenses Incurred in Connection with Rewrite of the Communications Act." The report will give the FCC up-to-date accounting costs incurred by common carriers in connection with efforts to rewrite the Act. Sections 4(i) and 219 of the Communications Act of 1934, as amended, authorize the FCC to require the filing of periodic and/or special reports. The data collected by the quarterly report will be used by the Common Carrier Bureau to serve the public interest by assuring that common carriers are maintaining their accounts as prescribed by Part 31 of the FCC's Rules. The FCC estimates respondent burden will average approximately 80 hours for the first report and 10 hours for each quarterly report thereafter. Potential respondents will number approximately 81 common carriers.

NUCLEAR REGULATORY COMMISSION

The NRC requests an extension without change clearance of Form 443, Background Statement and Confidential Statement of Employment and Financial Interests. NRC regulations in 10 CFR Part 0 provide that certain NRC employees and all NRC consultants (including advisers and experts) shall submit statements of employment and financial interests. With regard to prospective consultants and advisers, Form NRC-443 is submitted in order that the NRC will have (1) a resume of the individual's employment and professional attainments, and (2) a confidential record of their employment and financial interests for use in judging possible conflicts of interest. The NRC estimates that respondent burden averages one hour per response and approximately 200 statements are filed annually.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. 77P-0015]

COLOR ADDITIVES

Denial of Petition Proposing Revocation of Six Color Additive Regulations

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This document announces the denial of a petition filed by the Health Research Group in which the revocation of the color additive regulations providing for the use of Citrus Red No. 2, FD&C Blue No. 1, Orange B, FD&C Yellow No. 5, FD&C Red No. 3 and FD&C Red No. 40 was sought. The petition is being denied because it is not supported by adequate scientific evidence and is therefore legally inadequate as a basis for revocation of the color additive regulations for these colors.

DATE: Written objections by December 26, 1978.

ADDRESS: Written objections to the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

Gerad L. McCowin, Bureau of Foods (HFF-334, Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, DC 20204, 202-472-5740.

SUPPLEMENTARY INFORMATION: A notice published in the FEDERAL REGISTER of July 1, 1977 (42 FR 33807) stated that a petition (Docket No. 77P-0015, nqw designated as CAP 7CP0133) has been filed by the Health Research Group (HRG), 2000 P Street NW., Washington, DC 20036, proposing immediate revocation of the color additive regulations for FD&C Blue No. 1 (21 CFR 74.101), Orange B (21 CFR 74.250), Citrus Red No. 2 (21 CFR 74.302), FD&C Red No. 3 (21 CFR 74.303), FD&C Red No. 40 (21 CFR 74.340), and FD&C Yellow No. 5 (21 CFR 74.705). In addition, HRG requested the institution of full and competent toxicological studies for each of the colors that are currently listed for food use and exempt from certification. The petition was filed under section 706 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 376).

The Commissioner of Food and Drugs has reviewed the petition and concludes that the petition does not contain a sufficient scientific and legal basis to support the requested actions. Each of the petitioner's points and the Commissioner's conclusions concerning them are discussed below.

CITRUS RED NO. 2

HRG states several major arguments in support of its proposed revocation of the regulation authorizing the use of Citrus Red No. 2.

1. HRG noted that Dr. Lehman, former Director, Division of Pharmacology, Food and Drug Administration (FDA), concluded in a memorandum dated June 25, 1958, that the color was a toxic substance. (This memorandum and all other documents and supporting material mentioned in this document are on public display in the office of the Hearing Clerk (HFA-305), address given above, and may be seen between 9 a.m. and 4 p.m., Monday through Friday.)

The petitioner has misinterpreted the thrust of Dr. Lehman's statement and has failed to consider the statement in light of the color Additive Amendments of 1960 (hereinafter called the Amendments). Dr. Lehman's statement of June 25, 1958, must first be considered in the context of the provisions of the Federal Food, Drug, and Cosmetic Act of 1938 in effect at the time the memorandum was written. The act then authorized FDA to list for use in food, drugs, and/or cosmetics those "coal-tar" colors that were considered to be harmless and that would be batch-certified by FDA. In 1958, it was the agency's opinion that a color listed for use in food, drugs, and cosmetics was required by the statute to be harmless *per se*—that is, it must not of itself produce any toxic manifestations at any level, regardless of the conditions of actual use (see *Flemming* v. *Florida Citrus Exchange*, 385 U.S. 153 (1958)). Under this criterion, Citrus Red No. 2 was not considered appropriate for listing because it was not harmless when fed to rats at dietary levels of 0.1, 0.5, 1.0, and 5.0 percent and to dogs at 200 milligrams per kilogram of body weight per day (mg/kg/day).

Color additives are listed for use in foods today, however, under the provisions of the Color Additive Amendments of 1960. The Amendments, which became effective on July 12, 1960, explicitly authorize the listing of a potentially toxic color additive under safe conditions of use, by, for example, limiting the foods in which it may be used or establishing tolerances (i.e., maximum use levels). See 21 U.S.C. 376(b). The Amendments eliminated the "per se" approach in effect when Dr. Lehman wrote his memorandum and substituted an approach which permits tolerances to be established for color additives which are toxic at some level.

Dr. Lehman's memorandum, in addition to referring to citrus Red No. 2 as "toxic," stated that no-effect levels for this color were found to be 0.05 percent in rats and 50 mg/kg/day in dogs. This is the equivalent of 500 parts per million (ppm) in rats and 2,000 ppm in dogs.

In view of the no-effect levels for the color, Citrus Red No. 2 was listed under § 8.201 (21 CFR 8.201, now 21 CFR 74.302 pursuant to recodification) for limited use in coloring the skins of oranges at levels not exceeding 2.0 ppm of the color additive, calculated on the basis of the weight of the whole fruit. The regulation also limited the use of the color to mature oranges that were not intended for processing. Human exposure to the color is minimal because the colored oranges are not used commercially in the production of marmalade, and the household use of orange skins as food or as a food ingredient is minor. The amount of citrus Red No. 2 ingested under practices prevailing in the United States would be, at most, a few parts per billion of the diet. Citrus Red No. 2 is considered to be safe when used in compliance with the requirements of § 74.302.

2. The petitioner said that Citrus Red No. 2 is metabolized by rats to a compound very similar to a metabolite of the known animal and human bladder carcinogen, β-naphthylamine.

Although the petition fails to state clearly the identity of the metabolite in question, the petitioner is apparently referring to 1-amino-2-naphthol, which was reported by Bonser (Ref. 1) to produce tumors when implanted into bladders of mice. However, implantation is not generally considered an appropriate method for carcinogenic testing of compounds that are ingested (see discussion in item No. 3 below). The Commissioner concludes that the Bonser study is not relevant to the safety of Citrus Red No. 2 when ingested. The mere chemical similarity of β-naphthylamine and 1-amino-2-naphthol is also no basis for the conclusion that 1-amino-2-naphthol is a carcinogen.

To determine whether either 1-amino-2-naphthyl sulfate or 1-amino-2-naphthyl glucuronide (two known metabolites of Citrus Red No. 2 that could possibly be hydrolized to liberate the free amino-naphthol) cause bladder tumors after prolonged ingestion, Radomski (Ref. 2) fed Citrus Red No. 2 to rats and dogs. Radomski reported that no bladder tumors were found in the rats or dogs involved in this study.

The petitioner also attributed the following statement to Radomski: "This suggests the possibility that this (Citrus Red No. 2) dye may produce bladder cancer after prolonged ingestion." The petitioner has taken this sentence out of context. Radomski (Ref. 2) actually stated:

> The observation that both 1-xylylazo-2-naphthol and 2,5-dimethoxy-phenylazo-2-naphthol [Citrus Red No. 2] are metabolised to 1-amino-2-naphthyl glucuronide suggests the possibility that these and other azo dyes derived from 2-naphthol may produce bladder cancer after prolonged ingestion. The failure of these dyes to produce bladder tumors after prolonged feeding to dogs and rats could be explained by our observation that 1-amino-2-naphthyl glucuronide is not a prominent metabolite in the dog and the general failure of rats to develop bladder tumors when administered proven bladder carcinogens.

Thus, Radomski is stating that (if the Bonser study is accepted as relevant) although theoretically these metabolites might produce bladder cancer, in actuality, the metabolites of Citrus Red No. 2 were not found to cause bladder tumors. The Commissioner concludes, therefore, that there is no valid evidence of carcinogenicity.

3. The petitioner concluded that Citrus Red No. 2 produced bladder tumors in rats and mice and bladder cancer in mice when fed the color. In support of this statement the petition cited the following references and attributed the following conclusions to those studies:

a. 1965—*Mouse and rat-feeding studies.* Hyperplasia and benign tumors of the bladder were found in Citrus Red No. 2-fed mice and rats and bladder cancer in mice (Ref. 3).

b. 1966—*Bladder injection studies.* A statistically significant increase in malignant tumors (including one case of bladder cancer) was seen in female mice given Citrus Red No. 2 (Ref. 4).

c. 1968—*Bladder implantation.* A statistically significant increase in bladder cancer was found in mice with Citrus Red No. 2 treatment (Ref. 5).

The Commissioner has reviewed each of these reports and disagrees completely with the conclusions of the HRG. His comments on each study cited above are discussed below.

Commissioner's response to the mouse and rat-feeding studies (3a. above).—The statement cited by HRG is derived from experimental work done by Dacre (Ref. 3) and reported as a summary. Dacre's work was considered in the initial evaluation of the toxicity data for this color; however, in direct contradiction to his findings were the results of two feeding studies in rats (unpublished report, Hazleton Laboratories and Sharratt et al. (Ref. 4)), neither of which reported bladder carcinogenicity. This matter was subsequently submitted to an advisory committee for its consideration. That committee in its report (Ref. 6) of October 28, 1971, stated:

> Considering the lack of confirmation of Dacre's work and the negative findings in all other studies we recommend the following: The listing of Citrus Red No. 2 should remain unchanged until Dacre's results can be confirmed by examination of the bladder sections and of the detailed protocol and results of his study.

As far as the Commissioner is aware, a final report on Dacre's study has never been completed. Bladder slides from Dr. Dacre's study of Citrus Red No. 2 were reviewed by an FDA pathologist, Dr. Stuart Levin, who questioned the value of the study, stating "serious deficiencies, including loss of large numbers of animals, lack of adequate control bladders, poor tissue handling, and inadequate observation and description of gross lesions, raise serious questions about the usefulness of this study." Without more detailed results from Dr. Dacre and in view of the deficiencies noted by Dr. Levin, the Commissioner is unable to attach

V 4 3 1 2 2 7 N 0 2 4 7 8

any significance to Dr. Dacre's study relevant to the safety of Citrus Red No. 2.

Commissioner's response to the mouse injection studies (3b. above).—While the Sharratt et al. findings (Ref. 4) are of interest, the Commissioner does not consider subcutaneous injection to be an appropriate method for testing materials that are to be ingested. The procedures of repeated subcutaneous injection and urinary bladder implantation of pellets of color additives into test animals are not generally considered by the scientific community as appropriate methods of testing the safety of substances intended for oral use. Arguments against both these techniques have been presented by a world-renowned pathologist, Dr. Grasso (Ref. 7).

The World Health Organization (WHO) stated that the production of local sarcomata at the site of subcutaneous injection in rats is considered to be related to the physicochemical properties of the chemical and special conditions of the experiment and does not constitute evidence of carcinogenicity by the oral route (Ref. 8).

Quoting the Sharratt et al. paper itself (Ref. 4); "the effect obtained after subcutaneous administration in one sex only in one strain of mice is a minimal response and it is not possible on the basis of these studies alone to conclude that there is any potential human hazard." Accordingly, the Commissioner believes that the Sharratt et al. findings cannot be considered relevant to the safety of Citrus Red No. 2 when ingested.

Commissioner's response to the bladder implantation study (3c. above).—This is the work of Clayson et al. (Ref. 5), which involved surgical introduction of a pellet containing Citrus Red No. 2 into the lumen of the mouse bladder. As discussed above, implantation, like subcutaneous injection, is not considered an appropriate method for testing materials to be ingested (Grasso—Ref. 7). Malignant tumors can occur when the vehicles themselves are implanted. As Grasso (Ref. 7) states, "the presence of a foreign body in the bladder can give rise to malignant tumors, probably from prolonged irritation." Accordingly, the Commissioner does not consider these findings relevant to the safety of Citrus Red No. 2 when ingested.

4. The HRG petition cites the opinions of the International Agency for Research on Cancer (IARC) and World Health Organization (WHO) concerning Citrus Red No. 2. Both IARC and WHO have based their opinions of Citrus Red No. 2 primarily on the study of Dacre (Ref. 3), which was discussed above. Neither organization examined Dr. Dacre's results in detail, nor did they examine the bladder slides—both relied mostly on the published report (Ref. 3). As discussed above, after exhaustively examining the merits of the Dacre study and after several unsuccessful attempts to obtain a final report of this study from Dr. Dacre, the Commissioner has concluded that it does not offer valid evidence of carcinogenicity.

As pointed out, the Commissioner does not agree that injection or implantation studies are germane to compounds that are ingested. Accordingly, from the point of view of FDA, the single study that might be considered to imply to any extent that this color is a carcinogen is that of Dacre. This study offers no valid evidence of carcinogenicity, nor do the other available data support revocation of the listing of Citrus Red No. 2.

FD & C Blue No. 1

HRG concldes that the evidence suggests that FD & C Blue No. 1 may be a carcinogen. In support of this conclusion, the petitioner discussed two feeding studies—a 2-year rat study carried out at FDA by Hansen et al. (Ref. 9), and a 2-year mouse study done in the Netherlands by Waterman and Lignac (Ref. 10). The following subcutaneous injection studies were also offered in support of the petition: a 2-year rat study carried out at FDA by Nelson and Hagen (Ref. 11) and a 20½-month rat study done by Gross (Ref. 12). The Commissioner finds that the petitioner's conclusion on the basis of these studies is tenuous at best.

In reviewing the 2-year feeding study by Hansen et al. (Ref. 9), the petitioner has compared the number of malignant tumors in the lowest dosed animals and all dosed animals to the controls to show that this study is supportive of its conclusion. It is germane, however, to compare the numbers of malignancies in terms of each of the dosage levels because a relationship should exist between the dose fed and the number of malignant tumors if the compound is carcinogenic.

Examination of the number of tumors that appeared at each dosage level—namely, tumors were found in 3 of 24 control animals; at the 0.5 percent dosage level, tumors were found in 6 of 24 animals; at the 1.0 percent dosage level, tumors were found in 4 of 24 animals; at the 2 percent dosage level, tumors were found in 2 of 24 animals; and at the 5.0 percent dosage level, tumors were found in 3 of 24 animals—shows that there is no dose relationship. Because there is no relationship between the dosage level fed and the incidence of tumors, these results are not supportive of any conclusion as to carcinogenicity.

HRG's comments on this study also include a parenthetical mention of a subcutaneous injection study done by Hansen, et al. (Ref. 9) at the same time. As noted above, injection or implantation studies are not germane to the evaluation of the safety of a compound which is ingested.

In referring to the data from Waterman and Lignac (Ref. 10), the petitioner has considered only the data for males and then only for those mice 400 or more days into the study. The Commissioner can see no rationale for this arbitrary selection of 400-day-old animals or indeed for eliminating the females, since the tumors found in the males and considered by HRG were lung tumors. Review of the actual data shows that for both control males and control females time of onset of lung tumors preceded onset in the treated animals. Tabulation of this type of data from time of initial onset, a generally accepted basis, gives the following: Control males 1/109, FD & C Blue No. 1 males 6/51, control females 2/59, FD & C Blue No. 1 females 0/43. Because there is no reason to believe any sexual difference exists in terms of lung tumor induction by a compound, these values do not suggest any carcinogenic potential.

The other two studies by Nelson and Hagan (Ref. 11) and by Gross (Ref. 12) were subcutaneous injection studies. As stated before, FDA has discounted injection studies as not being relevant to establishing the safety of color additives.

The most salient point made by the petitioner concerning FD & C Blue No. 1 is the view that by present day standards the color has not been adequately tested in long-term studies. The Commissioner agrees with this statement and has so stated in the Federal Register of September 23, 1976 (41 FR 41860) in the proposal to extend the provisional listing of this color. Because of this, the petitioner for the color has been required under § 81.27(d) (21 CFR 81.27(d)) to conduct new chronic feeding studies with the color before the color is "permanently" listed for ingested cosmetic uses.

A new life-time feeding study in rats was begun on June 8, 1977, and another life-time feeding study in mice was begun on April 26, 1978. In the meantime, the Commissioner finds that none of the data presented by the petitioner is sufficient to warrant a prohibition on the use of the color at this time.

Orange B

HRG makes three arguments in support of its petition to revoke the approval for Orange B. The first reason given is that a metabolite of Orange B is identical to one of the metabolites of FD&C Red No. 2 (the provisional listing of which was originally terminated on February 10, 1976 (41 FR 5823), temporarily stayed, reissued

with change of effective date on February 13, 1976 (41 FR 6774)). The mere fact that Orange B and FD&C Red No. 2 have metabolites in common, absent evidence showing the metabolite to be carcinogenic, is no reason to delist Orange B.

Second, the petitioner states that the long-term feeding studies of Orange B in mice and rats were inadequate. The Commissioner agrees that the chronic feeding studies, when judged by contemporary standards, may be deficient. Although this could be a basis for requiring the conduct of new studies, the inadequacies of individual studies are not sufficient reasons to revoke the approval for Orange B. Thorough consideration must be given to the available chemistry, toxicology, and usage data for the color before a conclusion can be made as to what, if any, new studies may be necessary.

As further basis for delisting the color, HRG cited the results of a dog study done by FDA in which liver nodules were seen. The liver lesions in these dogs caused concern at FDA. In the final analysis, the matter was resolved by sending the slides in question to Dr. Hans Popper, Mt. Sinai Hospital, a renowned expert in liver pathology. Dr. Popper stated in a letter dated May 31, 1965, that these lesions were not indicative or carcinoma, a view shared by other pathologists who were involved with this evaluation.

During further recent testing of Orange B, however, the manufacturer has discovered that there is a possibility that β-naphthylamine, a known carcinogen, may be present in Orange B as a contaminant. To resolve the questions raised by this discovery, the Commissioner requested that the manufacturer promptly provide to FDA data about the possible contamination of Orange B with β-naphthylamine. In the meantime, the manufacturer of Orange B ceased production of the color. Because of the concern about the presence of β-naphthylamine in Orange B, the Commissioner proposed in the Federal Register of October 3, 1978 (43 FR 45611) to revoke the listing for the color.

FD & C Yellow No. 5

The HRG petition proposes that FD&C Yellow No. 5 be prohibited because the data are inadequate to resolve the question of carcinogenicity and because FD&C Yellow No. 5 is known to be responsible for allergic problems.

Although the chronic feeding studies on FD&C Yellow No. 5 may have been inadequate when viewed by contemporary standards, this is not sufficient reason, in and of itself, to warrant revocation of the listing of FD&C Yellow No. 5. Two chronic feeding studies were done in the late 1950's and early 1960's. Review of these studies by the Bureau of Foods in 1976 (See Federal Register of September 23, 1976 (41 FR 41860)) disclosed that, when judged by contemporary standards for toxicological studies, the studies were, indeed, deficient. As a condition of continued provisional listing, a new 2-year rat feeding study was begun June 21, 1977, and a chronic feeding study in mice was begun on May 3, 1978. Thus, studies are underway that will resolve any questions about the carcinogenicity of FD&C Yellow No. 5.

FD&C Yellow No. 5 does not, strictly speaking, produce allergies, but rather there are individuals who are "intolerant" of the color and who react to it. Although the mechanism for this reaction is unclear, it is apparently not an allergic machanism. Those persons who are intolerant of FD&C Yellow No. 5 are apparently a subset of individuals who are intolerant of aspirin. A proposal was issued in the Federal Register of February 4, 1977 (42 FR 6834) to require labeling of foods and drugs containing this color as well as a ban on its use in particular drugs. The comment period for this proposal ended on April 6, 1977, with 428 comments received. These comments are currently being reviewed, and final regulations should be published soon. In general, the comments, including some from noted allergists, stated that required labeling of foods and drugs would be sufficient to alleviate the potential "allergic" problem.

The Commissioner finds that the data in the petition are insufficient to support the revocation of the listing of FD&C Yellow No. 5.

FD & C Red No. 3

In requesting the prohibition of FD&C Red No. 3, the HRG petition stated that the evidence suggests that the color is a carcinogen and, also, raises a question concerning goiter formation. The basic evidence to support the conclusion concerning carcinogenicity is a report from a pathologist working as a consultant to HRG. The report states that the consultant reviewed the data from two 1969 rat studies in detail, including the histopathological sections from the rats. Both these 2-year studies were conducted at FDA by Hansen et al.—one was an intubation study, the other a feeding study. The consultant also reviewed two other FDA rat studies—a 2-year feeding study done by Davis and a 2-year feeding study published by Hansen et al. in 1973 (Ref. 13). The striking point in the report of the pathologist who consulted with HRG is his arbitrary selection of data from the studies.

In the 1969 intubation study done by Hansen et al., suspicion of carcinogenicity was raised by the consultant in the case of female rats exhibiting sarcomas and carcinomas. This included those with tumors of the mammary and pituitary gland. In the 2-year 1969 feeding study by Hansen it al., the consultant neglected to consider those rats with mammary and pituitary gland tumors. The targets in the Davis study were female rats with benign or malignant tumors, and predominantly mammary or pituitary gland tumors were considered. The targets in the Hansen et al. study published in 1973 were male rats with malignant tumors.

The petitioner never claims that the incidence of tumors in these studies has any statistical significance. The need for such careful selection of data during the review, in order to arrive at a suspicion, and the variation in the data used may also be used with equal reason to conclude a lack of carcinogenicity from these studies.

The agency has reviewed those data that are available and were previously considered, but no details of the findings on the consultant's examination of slides were made available. Thus, it is impossible to know how much of the consultant's tabulated material is based on the FDA documents he cites as references. Tabulations were compiled by FDA that considered the same criteria as did the HRG consultant, except that the rats that showed mammary or pituitary carcinomas in the Hansen et al. study were not excluded. The differences between these two sets of tabulations from the same studies further diminish the significance of the suggestion of carcinogenicity of this color, and therefore there is no reason to conclude on the basis of these studies that FD&C Red No. 3 is a carcinogen.

The results of mutagenicity studies were also cited by HRG as showing a slight but statistically significant mutagenic effect on bacteria. While results of mutagenic tests in bacteria are of interest, by themselves they are not considered a sufficient basis for regulatory action against a substance, particularly when considered with the negative results of the existing feeding studies.

The petition also cites a recently published FDA study—*Food and Cosmetics Toxicology* 14:233-248, 1976—that showed "a dose related change in the thyroid reminiscent of human nodular goiter."

The Commissioner agrees that the study by Collins and Long suggests a goitrogenic effect produced by FD&C Red No. 3 in the gerbil. But the effect noted by Collins and Long might be caused by the relatively large amounts

of free iodine sometimes present in FD&C Red No. 3 and not by the color itself. Some lots examined have contained as much as 0.8 percent free iodine. Also, the use of the gerbil as a model for the human is respect to goitrogenicity has yet to be established. The agency is currently examining the relevance of this animal model and the possibility of conducting a similar study in another animal model. Until this examination has been completed, the Commissioner does not believe there is a basis for action.

FD & C Red No. 40

The only apparent basis to support the conclusion that FD&C Red No. 40 is carcinogenic are the findings of ongoing studies with this color in mice. On the basis of preliminary results from those studies, the petitioner concluded that the color is a carcinogen.

In the late 1974 and early 1975, Hazleton Laboratories, Vienna, VA, under the sponsorship of Allied Chemical Corp., Specialty Chemicals Division, began two chronic feeding studies on FD&C Red No. 40—one in the rat and one in the mouse. In February 1976, Hazleton Laboratories reported that the results of the study in the rat were unremarkable; however, they did report the occurrence of lymphomas at an early age in the test mice. At the suggestion of FDA, a second chronic feeding study in the mouse was initiated in mid-1976 to determine whether the early onset for lymphomas, apparently detected in the first mouse study, would be duplicated. Since April 1976, FDA has been closely monitoring all three studies and has been receiving monthly progress reports on them. The progress reports have been available to the public under the Freedom of Information Act (5 U.S.C. 552).

The Commissioner has been very concernded with findings of the ongoing studies with FD&C Red No. 40. Any action proposed, however, must be capable of withstanding close scientific scrutiny as well as being supportable in a court of law. Accordingly, the data on the studies have been considered very carefully prior to taking action. All the available data on FD&C Red No. 40, and, particularly the results of the ongoing studies, were presented to an Interagency Working Group of experts for their consideration. The formation of this Working Group was announced in the FEDERAL REGISTER on December 7, 1976 (41 FR 53546). The group is composed of individuals from FDA, the National Center for Toxicological Research (NCTR), and the National Cancer Institute (NCI). Their interim findings, which were made publicly available on February 8, 1977, stated that although there appeared to be some carcinogenic effect in terms of "time-to-tumor," it would be premature to act because the statistical validity of this apparent effect could be changed by subsequent findings.

The first mouse feeding study has now been completed, and the final report was received September 30, 1977. Further, the second mouse study has progressed far enough to allow a comparison of its early trends with those of the recently completed study. In addition, the final report on the rat feeding study is also available. In light of these events, a notice was published in the FEDERAL REGISTER of December 6, 1977 (42 FR 61630) announcing that the Working Group on FD&C Red No. 40 would meet on December 19-20, 1977 to evaluate these data. A notice announcing the availability of the Working Group's second interim report was published in the FEDERAL REGISTER of April 28, 1978. In this interim report, the Working Group concluded that there was no significant acceleration of lymphoma formation due to FD&C Red No. 40 on the basis of the completed first mouse study, nor does there appear to be any significant acceleration of lymphoma formation in the interim results of the second mouse study. There was no statistically significant increase in the incidence of lymphomas due to the ingestion of FD&C Red No. 40 in either mouse study. The Working Group also analyzed the data from the completed rat study and found no treatment-related tumors. Although the Working Group has concluded that these studies provide no evidence that FD&C Red No. 40 is carcinogenic, it recommended that a final assessment await completion of the second mouse study. Data from the two mouse studies also have been furnished to three expert consultants for analysis of the time-to-tumor issue. The consultants are Dr. Bernard G. Greenberg, Dean of the School of Public Health, University of North Carolina; Jerome Cornfield, Professor of Statistics, George Washington University; and Dr. Frederick Mosteller, Chairman of the Department of Statistics, Harvard University. The results of these analyses will be evaluated by the Commissioner in determining a course of action for FD&C Red No. 40. The Commissioner considers the resolution of the status of FD&C Red No. 40 to be a high priority. A notice announcing a public meeting of the Working Group will soon be published in the FEDERAL REGISTER. The Commissioner concludes that until a final assessment of all studies is made he will defer any action to terminate listing of FD&C Red No. 40.

Color Additives Exempt From Certification

Concerning these color additives, the petition requested that full and competent toxicological studies be instituted for each of the "non-coal tar" colors and cited limitations of the toxicological information for each of these color additives.

The Commissioner agrees, generally, with these conclusions. The Bureau of Foods has already begun an orderly evaluation of these color additives as it relates to their identity, usage, and safety. The basic intent of this program is to gather comprehensive information on the usage and consumption of each color. This will subsequently be coupled with all available information on the toxicity of each color. The Commissioner expects that there may be some instances where there are insufficient data by present standards to support the safety of a color additive. In such a case, continued listing, and therefore the use of the color additive, will be conditioned upon the undertaking by an interested person of studies considered necessary to establish the safety of the color. The orderly review initiated by the agency is the best course of action that will lead to results that can be legally and scientifically defended.

In view of the preceding, the Commissioner denies the petition requesting revocation of the color additive regulations for FD&C Blue No. 1 (§ 74.101), Orange B (§ 74.250), Citrus Red No. 2 (§ 74.302), FD&C Red No. 3 (§ 74.303), FD&C Red No. 40 (§ 74.340), and FD&C Yellow No. 5 (§ 74.705). The request that FDA "institute full and competent toxicological studies on each of the 'non-coal tar colors'" is likewise rejected. The reasons for this denial are summarized as follows:

1. *Petition for revocation.*—The petition does not provide a sufficient scientific and legal basis to support the recommended course of action. The comments concerning the "allergic-type responses to FD&C Yellow No. 5" will be considered along with the other comments received in response to the FDA proposal of February 4, 1977 (see the FEDERAL REGISTER of February 4, 1977 (42 FR 6835)) concerning the color.

2. *Request for toxicological studies.*—Steps have already been initiated by FDA that will respond to the request of the petitioner that new toxicological studies be required, albeit in a more time-consuming, but orderly manner. The Commissioner agrees with the petitioner's contention that the toxicological data previously considered to support the safety of the color additives may be inadequate by modern-day criteria. This general finding along, however, is not sufficient to require the undertaking of new studies

for the permanently listed color additives. It is first necessary to compile all the date currently available on a color additive and to consider carefully the types of studies that are necessary to demonstrate safety under the intended conditions of use. A decision can then be made concerning the adequacy of the existing studies.

The articles and publications cited in this notice are listed below. Copies of these and other information forming the basis for this action are on public display in the office of the Hearing Clerk, Food and Drug Administration, between 9 a.m. and 4 p.m., Monday through Friday (address cited above).

Any person who will be adversely affected by the foregoing order may at any time on or before December 26, 1978, file with the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. Objections shall be filed in accordance with the requirements of § 71.30 (21 CFR 71.30). If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Four copies of all documents shall be filed and should be identified with the Hearing Clerk docket number found in brackets in the heading of this order. Received objections may be seen in the above-named office during working hours, Monday through Friday.

[Docket No. 77-0150]

PHENFORMIN HYDROCHLORIDE; WITHDRAWAL OF APPROVAL OF NEW DRUG APPLICATIONS

Availability of Commissioner's Decision

AGENCY: Food and Drug Administration.

ACTION: Notice of availability of Commissioner's decision.

SUMMARY: The Commissioner of Food and Drugs has issued a final decision, following a formal evidentiary public hearing, withdrawing approval of new drug applications (NDA's) for phenformin hydrochloride. The Commissioner's decision, including findings of fact, conclusions of law, and final order may be seen in the office of the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, from 9 a.m. to 4 p.m., Monday through Friday. The withdrawal was effective November 15, 1977.

FOR FURTHER INFORMATION CONTACT:

Richard A. Anderson, Supervisory Safety Officer, Office of the Associate Commissioner for Health Affairs (HFY-21), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-1177.

SUPPLEMENTARY INFORMATION: The Commissioner has determined that phenformin is not shown to be safe for use under the conditions of use on the basis of which the applications were approved. He affirms the initial decision of the administrative law judge with modification and supplementation provided in the final order. Introduction into interstate commerce of phenformin, except in conformity with an exemption granted under section 505 (i) of the act (21 U.S.C. 355 (i)), constitutes a violation of law.

This notice is issued pursuant to 21 CFR 12.130 (e).

Dated: November 15, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Regulatory Affairs.

National Institutes of Health

REPORT ON BIOASSAY OF DIBENZO-P-DIOXIN FOR POSSIBLE CARCINOGENICITY

Availability

Dibenzo-p-dioxin (CAS 262-12-4) has been tested for cancer-causing activity with rats and mice in the bioassay program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary: A bioassay of dibenzo-p-dioxin (UDD) for possible carcinogenicity was conducted by administering the test chemical in feed to Osborne-Mendel rats and B6C3F1 mice. The chemical is a breakdown product of the industrial chemical pentachlorophenol and the herbicide 2,4,5-T.

It is concluded that under the conditions of this bioassay, UDD was not carcinogenic for Osborne-Mendel rats of B6C3F1 mice.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

(Catalog of Federal Domestic Assistance Program Number 13.393, Cancer Cause and Prevention Research.)

Dated: November 9, 1978.

REPORT ON BIOASSAY OF DL-MENTHOL FOR POSSIBLE CARCINOGENICITY

Availability

dl-Menthol (CAS 89-78-1) has been tested for cancer-causing activity with rats and mice in the bioassay program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

V 4 3 / 2 2 7 N 0 2 4 7 8

Summary: A bioassay of dl-menthol for possible carcinogenicity was conducted by administering the test chemical in feed to Fischer 344 rats and B6C3F1 mice. Applications of the chemical include use in pharmaceutical products and menthol-flavored cigarettes.

It is concluded that under the conditions of this bioassay, dl-menthol was not carcinogenic for either Fischer 344 rats or B6C3F1 mice.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

Office of Education

NATIONAL ADVISORY COUNCIL ON THE EDUCATION OF DISADVANTAGED CHILDREN

Meeting Relocated

This notice is to amend a portion of the notice of November 17, 1978, of the meeting of the National Advisory Council on the Education of Disadvantaged Children scheduled to be held on December 8 and 9, 1978. The Council meeting which was scheduled to be held at 425 13th Street NW., Suite 1012, Washington, D.C. 20004, has been relocated to the Brent 1, Old Town Holiday Inn, 480 King Street, Alexandia, Va. 22314, area code 703-549-6080. The dates will remain the same.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Act (20 U.S.C. 2411) to advise the President and the Congress of the effectiveness of compensatory education to improve the educational attainment of disadvantaged children.

For any additional information regarding the above meeting, please contact Mrs. Lisa Haywood at 202-724-0114.

Signed at Washington, D.C., on November 20, 1978.

ROBERTA LOVENHEIM,
Executive Director.

Assistant Secretary for Education

COMMENT ON COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

Pursuant to section 406(g)(2)(B), General Education Provisions Act notice is hereby given as follows:

The U.S. Office of Education has proposed collections of information and data acquisition activities which will request information from educational agencies or institutions.

The purpose of publishing this notice in the FEDERAL REGISTER is to comply with paragraph (g)(2)(B) of the control of paperwork amendment which provides that each educational agency or institution subject to a request under the collection of information and data acquisition activity and their representative organizations shall have an opportunity, during a 30-day period before the transmittal of the request to the Director of the Office of Management and Budget, to comment to the Administrator of the National Center for Education Statistics on the collection of information and data acquisition activity.

These data acquisition activities are subject to review by the HEW Education Data Acquisition Council and the Office of Management and Budget.

Descriptions of the proposed collections of information and data acquisition activities follow below.

Written comments on the proposed activities are invited. Comments should refer to the specific sponsoring agency and form number and must be received on or before December 26, 1978, and should be addressed to Administrator, National Center for Education Statistics, Attention: Manager Information Acquisition, Planning, and Utilization, Room 3001, 400 Maryland Avenue SW., Washington, D.C. 20202.

Further information may be obtained from Elizabeth M. Proctor of the National Center for Education Statistics, 202-245-1022.

Dated: November 20, 1978.

MARIE D. ELDRIDGE,
Administrator, National Center for Education Statistics.

Description of a Proposed Collection of Information and Data Acquisition

1. Title of proposed activity:
Rating form for the external validation of OE judgment for recognition of accrediting and State approval agencies.
2. Agency bureau office:
U.S. Office of Education/Office of Evaluation and Dissemination/Post-secondary Programs Division.,
3. Agency form number:
OE-663-1
4. Legislative authority for this activity:
"• • • the Secretary shall transmit to (appropriate congressional committees) an annual evaluation report which evaluates the effectiveness of applicable programs • • • such report shall • • • contain information on the progress being made • • • describe the cost and benefits of the applicable progam • • • identify which sectors of the public receive the benefits of such program • • •" (20 U.S.C. 1226c) Pub. L. 93-380, sec. 417(a)(1)(B)(C).)
5. Voluntary/obligatory nature of response:
Voluntary.
6. How information collected will be used:
The U.S. Office of Education (USOE) is required by law to identify those accrediting and state approval agencies that are "reliable authorities as to the quality of training" offered by the institutions or programs accredited. In determining which agencies to recognize as "reliable authority", USOE examines the organization and functioning of the agencies with respect to a published list of criteria. Educational Testing Service has contracted with USOE to assess the validity and reliability of its recognition criteria and procedures. The study deals with validity as it is determined by the content and substance of the procedure—content validity—and by the interrelationships among the criteria, the procedures used in applying them, and the judgments of knowledgeable persons about the importance of those criteria—construct validity. Both these forms of validity rest on the internal character of the recognition process and judgments about it. An assessment of a third form of validity, external validity, which relates the results of the recognition process to considerations external to the process itself is the purpose of this proposed rating form.
7. Data acquisition plan:
a. Method of collection: Mail.
b. Time of collection: January 15, 1979-March 15, 1979.
c. Frequency: One-time.
8. Respondents:
a. Type: 1. Senior staff members of accrediting agencies.
2. Senior administrators of institutions and programs who have primary responsibilities for accreditation.
3. Faculty members who have been closely involved with accrediting, as in preparing self-studies or participating on visiting teams.
4. Staff of Federal agencies involved with accrediting or the recognition of accrediting agencies, including congressional staff.
5. Staff of State agencies concerned with licensing of schools and colleges or with accrediting, including staff of legislative committees.
6. Persons not connected directly with the accrediting process but who because of their backgrounds are acknowledged experts on accreditation.
7. Persons who in their professional activities or writing have been identified as critics of the accrediting process as it now exists.
b. Number: 150 (sample).
c. Estimated average man-hours per respondent: Two hours.
9. Information to be collected:
Judgments on the external validity of the OE recognition process.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. Title of proposed activity:
National Center Impact Survey.
2. Agency bureau/office:
Office of Education, Bureau of Occupational and Adult Education.
OE Form 665.
3. Agency form numbers:
4. Legislative authority for this activity:
"Section 171(a). Funds reserved to the Commissioner • • • shall be used primarily for contracts • • • for (2) support of a national center for research in vocational education which Center shall • • • (A) conduct applied research and development on problems of national significance in vocational education • • •." (Pub. L. 94-482, Title II, Sec. 202; 20 U.S.C. 2401.)
5. Voluntary obigatory nature of response:
Voluntary.
6. How information to be collected will be used:
Results from the 1979 survey will comprise one of the several data bases used to assess the impact of the National Center for Research in Vocational Education. These results will be published and made available to the public. Data collected from this survey and from two subsequent surveys will be used for three major evaluative purposes. First, feedback from the survey will be used by the National Center management and staff for organizational improvement. Second, the data will provide evidence of impact to external audiences thus providing a mechanism for accountability. Third, the results from the surveys will provide comparative data which will be used to assess trends and changes in impact over time.
7. Data acquisition plan:
a. Method of collection: Mail and/or personal interview.
b. Time of collection: April-June 1979, 1980, and 1981.
c. Frequency: Annually for 3 years.
8. Respondents:
a. Type: School administrators and supervisors.
b. Number: 2,000.
c. Estimated average man-hours per repondent: 0.25.
9. Information to be collected:
Information about the knowledge, use, and appraisal of the National Center for Research in Vocational Education by its constituents will be collected from all respondents. Dimensions of the National Center to be assessed by its constituents include the National Center's image, staff, substantive areas of focus, operations, public information, products, training activities, and services. Attitudes toward vocational education research and devlopment in general and toward problems of national significance in vocational edueation will also be measured. Demographic data will be collected on respondent's gender, ethnic origin, professional role, institutional affiliation, geographic location, and relation to the National Center.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. Title of proposed activity:
Factors related to the underrepresentation of women in vocational education administration.
2. Agency/bureau/office:
Office of education, Bureau of Occupational and Adult Education.
3. Agency form number:
OE Form 666.
4. Legislative authority for this activity:
"Section 171(a). Funds reserved to the Commissioner • • • shall be used primarily for contracts • • • for (2) support of a national center for research in vocational education • • • which Center shall • • • (A) conduct applied research and development on problems of national significance in vocational education • • •." (Pub. L. 94-482, Title II, Sec. 202; 20 U.S.C. 2401.)
5. Voluntary/obligatory nature of response:
Voluntary.
6. How information collected will be used:
The data collected will be used to prepare the publication, "Perceptions of Factors Relating to the Underrepresentation of Women in Vocational Education Administration." The information will be used also as a data base for continuing research studies and as a data base for the proposed longitudinal study. Additionally the information will be used to design appropriate intervention strategies for a variety of audiences.
7. Data acquisition plan:
a. Method of collection: Personal interview.
b. Time of collection: January-February 1979.
c. Frequency: Single time.
8. Respondents:
a. Type: School administrators and supervisors.
b. Number: 100.
c. Estimated average man-hours per respondent: 0.75.
a. Type: Colleges and universities.
b. Number: 100.
c. Estimated average man-hours per respondent: 0.75.
a. Type: Individuals.
b. Number: 100.
c. Estimated average man-hours per respondent: 0.75.
a. Type: Other (Local Boards of Education and Boards of Trustees).
b. Number: 100.
c. Estimated average man-hours per respondent: 0.75.
9. Information to be collected:
a. Respondent perceptions of the factors relating to the underrepresentation of women in vocational education administration: broadly relating perceptions of technical, human relations, and conceptual skills required for administrative positions.
b. Respondent demographic data: years in present position, other administrative experience, educational attainment, credentials, age range, sex, ethnic origin, marital status, salary range, etc.
c. Respondent organizational data: size of community, minority composition of community, number of administrative positions and female and minority representation in those positions, and recruitment practices.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. Title of proposed acitivity:
Educational Placement Decision Questionnaire.
2. Agency/bureau/office:
U.S. Office of Education/Bureau of Education for the Handicapped.
3. Agency form number:
OE Form 672.
4. Legislative authority for this activity:
"The Commissioner is authorized to make • • • contracts with States, State or local educational agencies, institutions of higher education, and other public or private educational or research agencies and organizations, for research and related purposed and to conduct research, surveys, or demonstrations, relating to education or handicapped children." (Pub. L. 91-230, Title VI, Part E, Sec. 641, U.S.C. 1441.)
5. Voluntary/obligatory nature of response:
Voluntary.
6. How information will be used:
Research.—The proposed data collection will be conducted by the University of Minnesota Institute for Research on Learning Disabilities, a program

eration and maintenance assessments and related information at the First

If during a time when delivery is by

in non-Indian ownership, and assess-

V 43 / 227 / NOV 24 1978

funded under contract with BEH (300-77-0491). This Institute's research focuses on the assessment-intervention and decisionmaking processes used by educators in planning for learning disabled children. A critical area for research is that of placement decisions, and the questionnaire approach is being undertaken to obtain data on what educational personnel believe they are basing their placement decisions on. This survey, the first in a series of three, will examine the factors used by school principals in making placement decisions and the success of tho decisionmaking processes.

7. Data acquisition plan:
a. Method of collection: Mail.
b. Time of collection: Spring, 1979.
c. Frequency: Single time.
8. Respondents:
a. Type: Principals (school).
b. Number: Sample—500.
c. Burden: 2 hours per respondent.
9. Information to be collected:

The survey is divided into three sections: I (13 items) on size and facilities of the school itself, and of the community it serves; II (8 items) characteristics of children considered important in assignment to classes, and information sought to aid assignment: and III (7 items) on placement decisions and how the administrators and community feel about them.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISTION ACTIVITY

1. Title of proposed activity:
Application for Commissioner's Discretionary Programs of Bilingual Education (Title VII, ESEA).
2. Agency/bureau/office:
U.S. Office of Education, Office of Bilingual Education.
3. Agency form number:
OE Form 4561.
4. Legislative authority for this activity:
Part A, Section 721(a): "Funds available for this grant shall be used for—
"(1) The establishment of Programs of Bilingual Education;
"(2) Auxiliary and Supplementary, Community and Educational Acitivities;
"(3) (A) The establishment of training programs; and
(B) Auxiliary and Supplementary programs;
"(4) Planning and providing technical assistance for and taking other steps leading to the development of, such programs.
Part A, Section 721(b)(1): "A grant may be made under this section by one or more local educational agencies or by an institution of higher education, including a junior or community college, applying jointly with one or more local educational agencies. Each such application shall be made to the Commissioner at such time, and such manner, and containing such information as the Commissioner deems necessary."
Section 721(b)(5)(A): "Upon an application from a State educational agency, the Commissioner shall make provision for the submission and approval of a State program for the coordination of technical assistance to programs in such States." (20 U.S.C. 880 b-7) (Pub. L. 93-380.)
Section 723(a)(1): "In carrying out the provisions of section 721, with respect to training, the Commissioner shall, through grants to and contracts with, eligible applicants provide for—
(A)(i) Traninig designed (I) to prepare personnel, (II) to train teachers, administrators, counselors, paraprofessionals, teacher aides, and parents, and (II) special training programs,
(B) The operation of short-term training institutes,
(a)(2) In addition the Commissioner is authorized to award fellowships (20 U.S.C. 880 b-9) (Pub. L. 93-380.)
Section 723(b): "For purposes of this section 723, the term 'eligible applicant' means:
"(1) Institutions of higher education and private nonprofit organizations which apply, after consultation with, of jointly with, one or more local educational agencies or State educational agencies;
"(2) Local educational agencies; and
"(3) State educational agencies.
5. Voluntary/obligatory nature of response:
Required to obtain or maintain benefits.
6. How information to be collected will be used:
The information will be used to award grants and enter into assistance contracts under the Commissioner's Discretionary Programs of Bilingual Education.
7. Data acquisition plan:
a. Method of Collection: Mail.
b. Time of collection: Spring.
c. Frequency: Annually.
8. Respondents:
a. Type: College and Universities.
b. Number: 200.
c. Estimated average man-hours per respondent: 40.
a. Type: Local educational agencies.
b. Number: 750.
c. Estimated average man-hours per respondent: 40.
a. Type: Nonprofit organizations.
b. Number: 25.
c. Estimated average man-hours per respondent: 40
a. Type: State education agencies.
b. Number: 50.
c. Estimated average man-hours per respondent: 40
9. Information to be collected:

All respondents will be required to provide information requested on the standard nonconstruction application for Federal assistance. Supplementation to the program narrative will include legal requirements.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

IRRIGATION OPERATION AND MAINTENANCE CHARGES

Water Charges and Related Information on the Fort Hall Irrigation Project, Idaho

This notice of proposed operation and maintenance rates and related information is published under the authority delegated to the Assistant Secretary—Indian Affairs by the Secretary of the Interior in 230 DM1 and redelegated by the Assistant Secretary—Indian Affairs to the Area Director in 10 BIAM 3.

This notice is given in accordance with section 191.1(e) of part 191, subchapter T, chapter I, of title 25 of the Code of Federal Regulations, which provides for the Area Director to fix and announce the rates for annual operation and maintenance assessments and related information on the Fort Hall irrigation project for calendar year 1979 and subsequent years. This notice is proposed pursuant to the authority contained in the Acts of March 1, 1907 (34 Stat. 1024), and August 31, 1954 (68 Stat. 1026).

The purpose of this notice is to announce an increase in the Fort Hall project assessment rates to correspond with actual operation and maintenance costs. The proposed assessment rates for 1979 will amount to an increase of approximately 6 percent.

The public is welcome to participate in the rulemaking process of the Department of the Interior. Accordingly, interested persons may submit written comments, views, and arguments with respect to the proposed rates and related regulations to the Area Director, Portland Area Office, Bureau of Indian Affairs, P.O. Box 3785, Portland, Oreg. 97208, no later than 30 days after publication of this notice in the FEDERAL REGISTER.

FORT HALL IRRIGATION PROJECT

REGULATIONS AND CHARGES

ADMINISTRATION

The Fort Hall irrigation project, which consists of the Fort Hall unit including ceded area south of the Fort Hall Indian Reservation, Idaho, is administered by the Bureau of Indian Affairs. The Superintendent of the Fort Hall Agency is the officer-in-charge and is fully authorized to carry out and enforce the regulations, either directly or through employees designated by him. The general regulations are contained in Part 191, Operation and Maintenance, Title 25—Indians, Code of Federal Regulations (42 FR 30362, June 14, 1977).

IRRIGATION SEASON

Water will be available for irrigation purposes from April 15 to September 30 of each year. These dates may be varied by 15 days depending on weather conditions and the necessity for doing maintenance work.

METHODS OF IRRIGATION

Where soil, topography, and other physical conditions are unfavorable for surface irrigation, and the project facilities are designed to deliver water to farm units for sprinkler irrigation, the officer-in-charge may limit deliveries to this type of irrigation.

DISTRIBUTION AND APPORTIONMENT OF WATER

(a) *Delivery.* Water for irrigation purposes will be delivered throughout the irrigation season by either the continuous flow or rotation method at the discretion of the officer-in-charge. If during a time when delivery is by the rotation method, a water user desires to loan his turn to another eligible water user, he shall notify either the watermaster or the ditchrider who may permit such exchange, if feasible.

(b) *Preparation and submission of a water schedule.* If the decision of the officer-in-charge is to deliver water by the rotation method, the watermaster will assist the water users on each lateral in preparing a rotation schedule should they choose to get together and prepare the schedule. In cases where the water users fail to exercise this right before March 1, the watermaster will prepare the schedule which shall be final for the season. Owners of 120 acres or more in one farm unit may elect between the continuous flow and rotation method of delivery, provided such choice does not interfere with delivery to other lands served by the lateral.

(c) *Application for deliveries of irrigation water.* Requests for water changes will be made at least 24 hours in advance. Not more than one change will be made per day. Changes will be made only during the ditchrider's regular tour. Pump shutdown, regardless of duration, without the required notice will result in the delivery being closed and locked. Repeated violations of this rule will result in strict enforcement of rotation schedules. Water users will change their sprinkler lines without shutting off more than one-half of their lines at one time. Sudden and unexpected changes in ditch flow results in operating difficulties and waste of water.

DUTY OF WATER

Dependent upon available supplies of water for each unit of the project, the duty of water is based on the delivery to the farm unit of 3.5 acre-feet of water per acre per irrigation season. This duty of water may be varied at the discretion of the officer-in-charge depending on supplies available, but each irrigable acre shall be entitled to its pro rata share of the total water supply.

CHARGES

Bill covering irrigation charges will be issued to the owner of record taken from the Bannock, Bingham, or Power County records as of December 31, preceding the due date. In the case of Indian-owned land leased to a non-Indian, when an approved lease contract is on file with the Superintendent of the Fort Hall Agency, operation and maintenance charges will be billed to the lessee of record.

BASIC AND OTHER WATER CHARGES

(a) The annual basic water charges for the operation and maintenance of the Fort Hall irrigation project lands in non-Indian ownership, and assessable Indian-owned lands leased to a non-Indian or a nonmember of the Shoshone-Bannock tribes of the Fort Hall Indian Reservation, Idaho, are fixed for the calendar year 1979 and subsequent years until further notice as follows:

(1) Fort Hall unit basic rate, $13.25 per acre.

(2) Michaud unit basic rate, $17.75 per acre; additional rate for sprinkler irrigation when pressure is supplied by project $6.50 per acre.

(3) Minor units basic rate, $10.60 per acre.

(b) In addition to the foregoing charges there shall be collected a minimum charge of $5 for the first acre, or fraction thereof, on each tract of land for which operation and maintenance bills are prepared. The minimum bill issued for any area will, therefore, be the basic rate per acre plus $5.

PAYMENTS

The water charges become due on April 1 of each year and are payable on or before that date. To all assessments on lands in non-Indian ownership, and lands in Indian ownership which do not qualify for free water, remaining unpaid on or after July 1 following the due date, there shall be added a penalty of 1½ percent per month, or fraction thereof, from the due date until paid. No water shall be delivered to any farm unit until all irrigation charges have been paid.

ASSESSMENTS ON INDIAN-OWNED LAND

When land owned by members of the Shoshone-Bannock Tribes of the Fort Hall Indian Reservation is first leased to non-Indians or nonmembers of the tribe, and an approved lease is on file at the Fort Hall Agency, the leased land is not subject to operation and maintenance assessments for 3 years. The 3 years the land is not subject to assessment need not run consecutively. When land has been leased for a total of 3 years, the land, when under lease to non-Indians or nonmembers of the tribe, is subject to operation and maintenance assessments the same as lands in non-Indian ownership and lands owned by nonmembers of the tribe within the project. (See Solicitor's opinion M 28701, approved September 24, 1936, and the instructions of September 19, 1938, approved September 24, 1938, and instructions of December 1, 1938, approved December 17, 1938.)

WYMAN D. BABBY,
Acting Area Director.

Bureau of Land Management

[Colorado 012469 RW]

WESCO PIPELINE CO.

R/W Application for Cathodic Protection Site

NOVEMBER 17, 1978.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), Wesco Pipeline Co., 1776 Lincoln Street, Denver, Colo. 80203, has applied for an amendment to right-of-way C-012469 for a cathodic protection site 250'×150', less than 1 acre on the following public lands:

SIXTH PRINCIPAL MERIDIAN, RIO BLANCO COUNTY, COLO.

T. 4 S., R. 104 W.,
Sec. 11, NE¼NE¼.

The requested rectifier/ground bed is necessary to bring the existing cathodic protection system into compliance with the Office of Pipeline Safety Regulations, 49 CFR Part 195.242 (1977).

The purposes of this notice are: (1) To inform the public that the Bureau of Land Management is proceeding with the preparation of environmental and other analytic reports necessary for determining whether or not the application should be approved and if approved, under what terms and conditions; (2) to give all interested parties the opportunity to comment on the application; (3) to allow any party asserting a claim to the lands involved or having bona fide objections to the proposed cathodic protection system to file its claim or objections in the Colorado State Office. Any party so filing must include evidence that a copy thereof has been served on Wesco Pipeline Co.

Any comment, claim, or objections must be filed with the Chief, Branch of Adjudication, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colo. 80202, as promptly as possible after publication of this notice.

JOHN R. BERNICK,
Acting Leader, Craig Team, Branch of Adjudication.

[W-60228 Amendment]

WYOMING

Application

NOVEMBER 15, 1978

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Marathon Pipe Line Co. of Casper, Wyo., filed an amendment application to their existing right-of-way to construct an additional buried 4-inch pipeline for the purpose of transporting crude oil across the following described public lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 46 N., R. 92 W.,
Secs. 1, 2, 3, and 12.
T. 47 N., R. 92 W.,
Sec. 34.

The proposed pipeline will transport crude oil from a point located in the NE¼NW¼ of section 12, T. 46 N., R. 92 W., to a point located in the SE¼SW¼ of section 34, T. 47 N., R. 92 W., all within Washakie County, Wyo.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 1700 Robertson Avenue, P.O. Box 119, Worland, Wyo. 82401.

HAROLD G. STINCHCOMB,
Chief, Branch of Lands and Minerals Operations.

[4310-84-M]

[Wyoming 65490]

WYOMING

Application

NOVEMBER 13, 1978.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Cities Service Gas Co. of Oklahoma City, Okla., filed an application for a right-of-way to construct a 6⅝-inch pipeline and related anode facilities for the purpose of transporting natural gas across the following described public lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 19 N., R. 93 W.,
Sec. 14, E½NE¼ and NW¼NE¼.

The pipeline with appurtenant anode facilities well transport natural gas produced from the Amoco Champlin 242 E-1 will located in the SE¼SW¼ of sec. 13 to a point of commection with Cities Service Gas Co.'s existing gathering line located in the NE¼SW¼ of sec. 11, T. 19 N., R. 93 W., Carbon County, Wyo.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 1300 Third Street, P.O. Box 670, Rawlins, Wyo. 82301.

HAROLD G. STINCHCOMB,
Chief, Branch of Lands and Minerals Operations.

[Wyoming 65496]

WYOMING

Application

NOVEMBER 14, 1978.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Mountain Fuel Supply Co. of Salt Lake City, Utah filed an application for a right-of-way to construct a 3½-inch O.D. pipeline for the purpose of transportation natural gas across the following described public lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 23 N., R. 103 W.,
Section 16, W½NW¼.

The pipeline will transport natural gas from a point in the NW¼NW¼ of sec. 16 to a point of connection with Mountain Fuel Supply Co.'s existing transmission system located in the NE¼SW¼ of sec. 17, T. 22 N., R. 103 W., in Sweetwater County, Wyo.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, Highway 187 North, P.O. Box 1869, Rock Springs, Wyo. 82901.

[2300U-41671(U-942)4310-84]

UTAH

Proposed Withdrawal and Reservation of Lands

NOVEMBER 16, 1978.

The Department of Defense submitted a withdrawal application for filing on October 23, 1978, serial No. U-41671, for the following described lands from settlement, sale, location, or entry under all the general land laws, including the mining laws subject to valid existing rights:

SALT LAKE MERIDIAN

Beginning at the northeast corner of sec. 20, T. 9 S., R. 9 W., S.L.B. & M; Thence south one mile to the southeast corner of said sec. 20, thence southwest through sec's. 29 and 31, T. 9 S., R. 9 W., and sec's. 1, 11, 15, 21, 29 and 31, T. 10 S., R. 10 W., to a point 0.7 mile into sec. 1, T. 11 S., R 11 W.; thence in a straight line north approximately 276° W. to the southwest corner of sec. 34, T. 9 S., R 11 W.; thence north one mile to the northwest corner of sec. 34 T. 9 S., R. 11 W.; thence west 2 miles to the southeast corner of sec. 30, T. 9 S., R. 11 W.; thence northwest through said sec. 30 and sec. 24, T. 9 S., R. 12 W., to the northwest corner of said sec. 24; thence east 15 miles along the section line and present south boundary of Dugway Proving Ground to the point of beginning.

Excepting therefrom sec's 32 and 36, T. 9 S., R. 10 W.; S.L.B. & M.; sec's 2 and 16, T. 10 S., R. 10 W., S.L.B. & M; sec. 36, T. 9 S., R. 11 W., S.L.B. & M.; sec's 2 and 36, T. 10 S., R. 11 W., S.L.B. & M.

The area described aggregates 38,179 acres more or less in Tooele and Juab Counties, Utah.

The U.S. Army, Dugway Proving Ground, Dugway, Utah, desires the continued use of the land in connection with the establishment of a safety zone for the Dugway Proving Ground.

On or before December 29, 1978, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned authorized officer of the Bureau of Land Management.

Pursuant to section 204(h) of the Federal Land Policy and Management Act of 1976, notice is hereby given that an opportunity for a public hearing is afforded in connection with the proposed withdrawals. All interested persons who desire to be heard on the proposed withdrawal must submit a written request for a hearing to the undersigned. Notice of the public hearing will be published in the FEDERAL REGISTER giving the time and place of such hearing. The public hearing will be scheduled and conducted in accordance with BLM Manual, section 2351.16.B.

The Department of the Interior's regulations provide that the authorized officer of the BLM will undertake such investigations as are necessary to determine the existing and potential demands for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of assuring that the area sought is the minimum essential to meet the applicant's needs, providing for the maximum concurrent utilization of the lands for purposes other than the applicant's and reaching agreement on the concurrent management of the lands and their resources.

The authorized office will also prepare a report for consideration by the Secretary of the Interior, who will determine whether or not the lands will be withdrawn and reserved as requested by the applicant agency. The determination of the Secretary on the application will be published in the FEDERAL REGISTER. The Secretary's determination shall, in a proper case, be subject to the provisions of section 204(c) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2752.

For a period of 2 years from the date of publication of this notice in the FEDERAL REGISTER, the lands will be segregated from entry as specified above unless the application is rejected or the withdrawal is approved prior to that date. If the withdrawal is approved by the Secretary, it will be for an indefinite period, and the lands will remain segregated.

All communications in connection with this proposed withdrawal should be addressed to the undersigned, Bureau of Land Management, Department of the Interior, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111.

WILLIAM G. LEAVELL,
Associate State Director.

MONTANA

Application

NOVEMBER 16, 1978.

Notice is hereby given that pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Wesco Pipe Line Company filed an application for a right-of-way to construct one 4-inch crude oil pipeline and one 4-inch natural gas pipeline across the following described public lands:

PRINCIPAL MERIDIAN, MONTANA

T. 22 N., R. 60 E.,
Sec. 32, NE¼NW¼.
T. 23 N., R. 60 E.,
Sec. 32 S½NW¼, N½SW¼, and SE¼SW¼.

The pipelines will be used for the purpose of gathering and transporting crude oil and natural gas across 0.95-mile of public lands in Richland County, Montana.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, P.O Box 940, Miles City, Mont. 59301.

KENNETH J. SIRE,
Acting Chief, Branch of Lands and Minerals Operations.

NEVADA

Order Providing for Opening of Public Land

NOVEMBER 13, 1978.

In an exchange of land made under the provisions of Section 8 of the Act of June 28, 1934, as amended, the following described land has been reconveyed to the United States:

MOUNT DIABLO MERIDIAN

T. 31 N., R. 49 E.,
Sec 10, SE¼SE¼;
Sec. 14, N½NW¼.

The area described comprises 120 acres.

The land is located approximately 3.5 miles southeast of Beowawe, Nev. Physical and legal access is provided by an improved county road which bisects the subject land. Terrain is fairly level with slopes of 1-3 percent. Elevation is approximately 4,720 feet with the drainage pattern running from south to north draining into the Humboldt River. The land is located within the floodplain. Vegetation consists of scattered sagebrush, halogeton, and rabbitbrush. There are no springs or streams. The principal land use is livestock grazing.

Subject to valid existing rights, the land is hereby restored to the operation of the public land laws, including the mining and mineral leasing laws.

CHARLES E. HANCOCK,
Acting Chief, Division of Technical Services.

NOVEMBER 13, 1978.

In an exchange of land made under the provisions of section 8 of the Act of June 28, 1934, as amended, the following described land has been reconveyed to the United States:

MOUNT DIABLO MERIDIAN

T. 11 N., R. 22 E.,
Sec. 11, NE¼NE¼;
Sec. 12, N½NW¼.

The area described comprises 120 acres.

The land is located on the east side of the Pine Nut Mountains in Douglas County, Nev. Topography is characterized by a narrow creek bottom and steep canyon walls. Elevation ranges from 6,100 to 6,800 feet. Predominant vegetation includes pinyon pine, mountain mahogany, big sage and cheatgrass. Principal land uses are livestock grazing and wildlife habitat.

Subject to valid existing rights, the land is hereby restored to the operation of the public land laws, but not the mining and mineral leasing laws. The minerals were not reconveyed to the United States. All minerals are reserved to the State of Nevada.

NEW MEXICO

Application

NOVEMBER 14, 1978.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Southwest Gas Corporation has applied for two 4½-inch natural gas pipelines right-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 31 N., R. 11 W.,
Sec. 7, SW¼NE¼, N½SE¼ and SE¼SE¼.
T. 32 N., R. 11 W.,
Sec. 34, NE¼SW¼.

These pipelines will convey natural gas across 0.734 of a mile of public lands in San Juan County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 6770, Albuquerque, New Mexico 87107.

[W-65819]

WYOMING

Application

NOVEMBER 16, 1978.

Notice is hereby given that pursuant to Sec. 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Western Transmission Corportation of Dallas, Texas filed an application for a right-of-way to construct a 6 inch buried pipeline and related facilities for the purpose of transporting natural gas across the following described public lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 24 N., R. 96 W.,
Sec. 5, lot 3.
T. 25 N., R. 96 W.,
Sec. 21, SE¼SW¼;
Sec. 28, W½E½, SE¼NE¼, NE¼NW¼;
Sec. 33, W½E½.

The proposed pipeline and related facilities will be used to transport natural gas from the Federal 477 #1 well located in the SE¼SW¼ of section 21, T. 25 N., R. 96 W., and the Federal Q-1 well located in the SE¼NE¼ of section 28, T. 25 N., R. 96 W., to a point of connection with existing facilities located in lot 3 of section 5, T. 24 N., R. 96 W., all within Sweetwater County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 1300 Third Street, P.O. Box 670, Rawlins, Wyoming 82301.

HAROLD G. STINCHCOMB,
Chief, Branch of Lands and Minerals Operations.

COLORADO RIVER BASIN SALINITY CONTROL ADVISORY COUNCIL

Public Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), annoucement is made of a meeting of the Colorado River Basin Salinity Control Advisory Council at 8:30 a.m. on December 19, 1978, at the Arizona Water Commission offices, 8th Floor Conference Room, Central Security Building, 222 North Central Avenue, Phoenix, Ariz.

Purpose of Meeting: Council members will be briefed on the status of salinity control activities.

Proposed Agenda: The Bureau of Reclamation, Soil Conservation Service, and Bureau of Land Management will each present a progress report and schedule of activities on salinity control in the Colorado River Basin. The Council will discuss Colorado River Basin salinity control activities.

Public Participation: The meeting of the Advisory Council is open to the public.

Any member of the public may file a written statement with the Council before, during, or after the meeting in person or by mail. To the extent that time permits, the Council chairman may allow public presentation of oral statements at the meeting.

All communications regarding this meeting including requests for time to make statements should be addressed to Mr. John W. Keys, Chief, Colorado River Water Quality Office, Bureau of Reclamation, Engineering and Research Center, P.O. Box 25007, Denver, Colo. 80225.

Dated: November 16, 1978.

R. KEITH HIGGINSON,
Commissioner of Reclamation.

DEPARTMENT OF LABOR

Pension and Welfare Benefit Programs

DEPARTMENT OF THE TREASURY

Internal Revenue Service

CERTAIN TRANSACTIONS INVOLVING EMPLOYEE BENEFIT PLANS AND BROKERS-DEALERS

Proposed Exemption and Hearing

AGENCIES: Department of Labor, Department of the Treasury/Internal Revenue Service.

ACTION: Notice of a proposed exemption and notice of hearing.

SUMMARY: This document contains a notice of pendency before the Department of Labor and the Internal Revenue Service (hereinafter collectively referred to as the Agencies) of a proposed permanent exemption allowing, under certain circumstances, broker-dealers to effect securities transactions for plans which they serve as fiduciaries. The proposed permanent exemption would replace and supersede an exemption which was granted in October, 1975, was extended in July, 1978 and which will expire on February 1, 1979. The proposed permanent exemption contains a number of conditions not present in the exemption now in effect.

DATES: All interested persons are invited to submit written comments concerning the proposed permanent exemption. Written comments on the proposed exemption and requests for time to present oral comments at the hearing must be received by the Department of Labor on or before December 21, 1978. The hearing will be held on January 3, 1979 beginning at 10 a.m.

ADDRESSES: Written comments and requests for time to present oral comments should be addressed to the Office of Regulatory Standards and Exceptions, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216, Attention: Exemption for Certain Brokerage Transactions. All such communications and applications for exemption relating to this proposed exemption will be available for public inspection at the Public Document Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, NW., Washington, D.C., and at the Internal Revenue Service National Office Reading Room, 1111 Constitution Avenue NW., Washington, D.C. The hearing will be held in Room S4215 A and B, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C.

HEARING PROCEDURE: Any interested person who chooses to present oral comments at the hearing and who wishes to be assured of being heard shall submit a statement to that effect, an outline of the topic to be discussed (at least six copies), and the time to be allocated to each topic by December 21, 1978. The statement and outline should be submitted to the address mentioned above. An agenda will be prepared concerning the order of presentation of oral comments and the time allocated to each commentator. Information about the contents of the agenda may be obtained on or after December 27, 1978 by telephoning 202 523-8195. This is not a toll-free number. At the conclusion of oral comments by persons listed in the agenda, to the extent time permits, other persons may be permitted to make oral comments. The public hearing will be transcribed.

FOR FURTHER INFORMATION CONTACT:

Frederic G. Burke, Office of Regulatory Standards and Exceptions, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210, 202-523-8195, or Ivan Strasfeld, Prohibited Transactions Staff, Employee Plans Division, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, 202-566-3045. These are not toll-free numbers.

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Agencies of a proposed permanent exemption from the restrictions of section 406 of the Employee Retirement Income Security Act of 1974 (hereinafter ERISA or the Act) and from the taxes imposed by section 4975 (a) and (b) of the Internal Revenue Code (hereinafter the Code) By reason of section 4975(c)(1) of the Code. The proposed exemption applies to certain securities transactions effected on behalf of employee benefit plans by persons who are fiduciaries for those plans. At present, such transactions are covered by paragraph I(a) of Prohibited Transaction Exemption 75-1. That exemption was granted in October, 1975 and extended by Prohibited Transaction Exemption 78-10 in July, 1978.[1] In pertinent part, the existing exemption authorizes broker-dealers who ordinarily effected brokerage and incidental clearance, settlement, or custodial services on May 1, 1975, to continue to furnish such services until February 1, 1979.

In granting paragraph I (a) of Prohibited Transaction Exemption 75-1 in 1975 and extending it in 1978 , the Agencies recognized that securities broker-dealers in the ordinary courses of business provide research and investment management services concerning securities to accounts for which they also effect agency transactions for the purchase or sale of securities. The agencies concluded that a fiduciary in many cases was barred by ERISA from providing these combined services to an employee benefit plan. In addition, the agencies noted that a broker-dealer was prohibited from providing such a combination of services to managed accounts generally by section 11(a) of the Securities Exchange Act of 1934 (hereinafter Exchange Act), as amended by the Securities Act Amendments of 1975 (Pub. L. 94-29, 89 Stat. 110). Under that section, no member of a national securities exchange may effect any transaction on such exchange for an account for which it or an associated person thereof exercises investment discretion.[2]

In enacting section 11(a) of the Exchange Act Congress included a temporary exception to the above-described prohibition for broker-dealers who were members of a national securities exchange on May 1, 1975. In the conference report accompanying the Securities Act Amendments of 1975 (H.R. NO. 94-229, 94th Cong., 1st sess. (1975)), the conferees indicated that the Agencies should consider granting an exemption from the prohibited transaction provisions of the Act and the Code to permit broker-dealers to continue to provide brokerage services to plans over which they exercised investment discretion until May 1, 1978 in order to conform the pertinent provisions of ERISA and the Code to section 11(a) of the Exchange Act, and thereby permit broker-dealers to phaseout, in an orderly fashion, the business of both serving as investment advisers to plans and providing brokerage services to such plans. The conferees' statement was consistent with one make the previous year in the conference report accompanying ERISA.[3]

[1] Prohibited Transaction Exemption 75-1 was published in the FEDERAL REGISTER on October 31, 1975 (40 FR 50845). The extension of Prohibited Transaction Exemption 75-1 contained in Prohibited Transaction Exemption 78-10 was published in the FEDERAL REGISTER on July 25, 1978 (43 FR 3296). It should be noted that Prohibited Transaction Exemption 78-10, like the class exemption being proposed herein, relates only to that portion of Prohibited Transaction Exemption 75-1 set forth in paragraph I(a).

[2] A person who exercises investment discretion within the meaning of the Exchange Act would be a fiduciary under section 3(21)(A) of ERISA. However, a person could be a fiduciary for reasons other then exercising investment discretion. For example, the term "fiduciary" includes a person who renders investment advice for a fee or other compensation, direct or indirect, with respect to any moneys or other property of such plan, or has any authority or responsibility to do so. See also note (13) infra.

[3] The ERISA conferees expressed their expectation that any action taken by the

Footnotes continued on next page

V 43 227 NOV 24 1978

In light of the expressions of congressional intent described above, the Agencies granted Prohibited Transaction Exemption 75-1 on October 24, 1975. The pertinent part of the exemption was available only until May 1, 1978. On July 19, 1978, the Agencies granted an extension of the exemption until February 1, 1979, and made that extension retroactive to May 1, 1978. The Agencies' decision to extend the original exemption was based, again, largely on expressions of congressional intent. Specifically, the Agencies noted that section 11(a) of the Exchange Act had been amended to delay its full effectiveness for 9 months from May 1, 1978 to February 1, 1979.[4]

The Agencies also noted that Congress, in enacting this amendment, had recognized that the relief afforded thereby would be applicable to transactions effected for employee benefit plans only if the Agencies extended the exemption. In addition, both the Senate and House Committees had expressed the expectation that Prohibited Transaction Exemption 75-1 would be amended expeditiously to provide such relief.[5]

The Agencies have received three applications for a class exemption covering broker-dealer fiduciaries who effect securities transactions for plans. Two of these applications have been filed by the Securities Industry Association (SIA). In the first of these applications, filed on April 12, 1978,[6] the SIA asks the Agencies to grant an exemption which would permit broker-dealers to effect securities transactions for plans which they serve as investment managers, provided they act in accordance with rule 11a2-2(T) of the Securities and Exchange Commission (SEC) under the Exchange Act.[7] The SIA in its second application, filed on September 21, 1978, requests the Agencies to extend permanently Prohibited Transaction Exemption 78-10.[8]

Footnotes continued from last page

Agencies on requests for exemption in this area would be consistent with the outcome of the securities legislation then under consideration. The general issue of institutional investment management was under consideration, but section 11(a) had not been enacted, when ERISA was passed. Conference Report on the Act, H.R. Rep. No. 93-1280, 93rd Cong., 2d sess. 309-10(1974).

[4]Pub. L. 95-283, 95th Cong., 2d sess. (1978).

[5]S. Rep. No. 95-763, 95th Cong., 2d sess. 5-6 (1978), and H. Rep. No. 95-1010, 95th Cong., 2d sess. 5 (1978).

[6]Exemption Application No. D-1026.

[7]See Securities Exchange Act Release No. 14563 (March 14, 1978), 43 FR 11542 (March 17, 1978).

[8]Exemption Application No. D-1114. This application also includes a proposed alternative exemption which the SIA considers less desirable. This alternative proposal conditions the relief given in Prohibited Transaction Exemption 78-10 on a fiduciary's complying with certain specified requirements.

A third request for a broker-dealer class exemption has been made by seven broker-dealer firms.[9] These firms ask the Agencies to adopt a class exemption similar to that requested in the first SIA application.

Pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75-26, 1975-1 C.B. 722, the Agencies now propose to grant a permanent class exemption for the period subsequent to February 1, 1979 authorizing broker-dealers to effect securities transactions for plans which they serve as fiduciaries, subject to certain conditions. The conditions set forth in the proposed class exemption, however, are not identical to the requirements of the SEC's rule 11a2-2(T). The Agencies' reasons for issuing the proposed class exemption, and the conditions under which it would be available, are discussed below.[10]

Rule 11a2-2(T) provides an exemption from section 11(a) of the Exchange Act allowing broker-dealers to effect securities transactions for accounts over which they exercise investment discretion provided that specified conditions are met. Thus, broker-dealers generally will be able to provide certain brokerage services for accounts which they manage even after the prohibitions of section 11(a) take effect on February 1, 1979. However, under ERISA a broker-dealer will be prohibited from rendering such services after February 1, 1979 where the managed account is an employee benefit plan, unless the Agencies grant additional exemptive relief. It has been suggested to the Agencies that such relief is appropriate because some plans, particularly smaller ones, currently obtain portfolio management services from broker-dealers whose compensation, at least in part, takes the form of commissions paid by the plan for effecting its securities transactions. It is argued that, if this practice is not permitted to continue, individual investment management services may not be available for such plans. It is further argued that, even if such services are available it might be prohibitively expensive for a small plan to pay an investment adviser the fee it would charge if it received no compensation for effecting the plan's brokerage transactions. At the same time, it is argued that no evidence exists of widespread abuses, such as undue portfolio turnover or failure to obtain best price and execution, on the part of broker-dealers who effect transactions for accounts which they manage.[11]

Although these arguments have certain persuasive force, the Agencies believe that a permanent exemption in this area would not be appropriate unless it contained certain requirements designed to protect the interests of plan participants and beneficiaries. In this regard, the Agencies noted that, in the conference report accompanying ERISA, Congress indicated its expectation that the Agencies would exercise their administrative descretion to allow broker-dealers to provide brokerage services to plans whose portfolios they managed only if satisfactory safeguards were provided.[12]

The Agencies' proposed permanent exemption would be available only to a broker-dealer which is not a fiduciary of a plan by reason of being a plan trustee or plan administrator and which is not an employer of any employees covered by the plan.[13]

[9]Exemption Application No. D-1176. The seven firms are Neuberger & Berman, Stralem & Co., Inc., Reich & Tang, Inc., First Manhattan Co., Weiss, Peck & Greer, David J. Greene and Co. and Wheat, First Securities, Inc.

[10]The Agencies have received five applications for individual exemptions which might relate to the class exemption being proposed herein (Exemption Application Nos. D-724, D-862, D-888, D-981, and D-1060). To the extent that the transactions which are the subject of those applications are of the type described in the class exemption being proposed herein, such transactions will be exempted provided that they satisfy the terms and conditions of the exemption if it is granted. Because the Agencies believe that it would be administratively feasible to deal with those applications on a class basis, the Agencies, pursuant to section 3.01 of ERISA Proc. 75-1 and Rev. Proc. 75-26, have determined to group such applications in a class. As stated in section 3.04 of ERISA Proc. 75-1 and Rev. Proc. 75-26, an application for an individual exemption will not ordinarily be considered separately if a class exemption which may encompass the application for individual exemption is under consideration by the Agencies. Accordingly, the Agencies are notifying directly each applicant requesting the individual exemptions referenced above that its application is not presently being considered separately from this proceeding, that such application might be closed following the conclusion of this proceeding, and that therefore the Agencies are seeding the applicant's comments concerning the class exemption proposed herein.

[11]*Cf.*, letter from SEC Commissioner Philip A. Loomis, Jr. to Congressmen James T. Broyhill and Matthew J. Rinaldo (March 20, 1978), cited at 121 Cong. Rec. H2432 (daily ed. April 4, 1978).

[12]H.R. Rep. No. 93-1280, 93d Cong., 2d sess., at 309 (1974).

[13]This limitation on the availability of the proposed exemption would, among other things, have the effect of preventing a plan administrator, plan trustee or employer from using a relating broker-dealer organization to "recapture" brokerage commissions for the plan. Cf. Tannenbaum v. Zeller, 552 F. 2d 402(2d Cir.), cert. denied, 98 S. Ct. 421(1977); Moses v. Burgin 445 F. 2d 369(1st Cir. 1971); Papilsky v. Berndt, [1976-1977 Transfer Binder] Fed. Sec. L. Rep. (CCH) ¶ 95627 (S.D.N.Y. June 24, 1976). In

Footnotes continued on next page

Under the exemption, such broker-dealer could effect or execute securities transactions for an employee benefit plan for which it is a fiduciary. Although the Agencies do not believe that the policies of ERISA require a distinction to be drawn in the class exemption between the broker-dealer services of executing and effecting transactions, it should be noted that such distinction is made in the SEC's rule 11a2-2(T) which permits a broker-dealer to effect, but not to execute, securities transactions for an account which it manages. In most cases, a broker-dealer availing itself of the proposed class exemption would be required to comply with rule 11a2-2(T) and thus would be allowed only to effect transactions for the plan which it manages.[14]

The proposed exemption conditions the effecting or executing of securities transactions on behalf of a plan on the broker-dealer's receiving written authorization, expressly permitting either or both of these activities, from a plan fiduciary who is independent of the broker-dealer. The written authorization could not be effective for more than one year unless the independent fiduciary authorized its continuance in writing at least annually. Where the authorization took the form of a binding contract upon the plan, the plan would be required to have the right to terminate the contract, without penalty, upon not more that 60 days' notice to the broker-dealer.

The exemption would place on the broker-dealer the duty to provide any information it reasonably believes to be necessary to enable the independent plan fiduciary to determine whether to grant or renew an authorization to perform multiple brokerage services. The fiduciary would have the right to request, and the broker-dealer would have the obligation to supply, any additional information reasonably necessary to make this determination.[15]

The exemption would also require a broker-dealer to supply a quarterly report to the plan trustee or other fiduciary disclosing the total of all transaction-related charges incurred by the plan during the preceding quarter in connection with transactions in which the broker-dealer performed any of the functions permitted by this exemption. In this quarterly statement, the reporting broker-dealer would have to disclose the portion of the total transaction-related charges it retained and the portion it paid to other broker-dealers for execution or other services. In addition, the broker-dealer would have to state, in substance, that brokerage commissions are not fixed by any stock exchange or by any other authority and are subject to negotiation.[16]

In addition to providing the quarterly report, a broker-dealer would have to furnish the plan fiduciary with a schedule of transaction-related commission rates it anticipates assessing in the coming quarter for transactions of the type normally entered into by the plan. Charging a commission which differed from the rate described in the schedule would not necessarily cause a broker-dealer to forfeit the relief available under the proposed exemption, so long as the departure from the schedule was attributable to special factors relating to a particular transaction or to circumstances not foreseen at the time the schedule was provided.[17]

In those cases where a transaction is effected for a plan on a national securities exchange of which the broker-dealer is a member and where the broker-dealer exercises investment discretion as that term is defined by the SEC under section 3(a)(35) of the Exchange Act, the broker-dealer would have to comply with both the conditions of the class exemption and the requirements of rule 11a2-2(T). However, the Agencies believe that the requirements of the proposed class exemption are sufficiently compatible with those of rule 11a2-2(T) as to impose no undue burden upon broker-dealers.[18]

The Agencies recognize that, if the exemption being proposed herein is adopted, broker-dealers which are presently providing services to plans pursuant to the existing Prohibited Transaction Exemption 78-10 likely will have to make certain adjustments. For example, changes in electronic data processing programs and dissemination of certain material to plan fiduciaries might be necessary. If the proposed exemption is adopted the Agencies will consider extending Prohibited Transaction Exemption 78-10 and postponing the effective date of the limitations contained in the new exemption to the extent that such action is appropriate in order to afford broker-dealers sufficient time to complete such adjustments.

General Information: The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code, including the general fiduciary responsibility provisions of section 404 of the Act which, among other things, require a fiduciary to discharge his duties respecting the plan solely in the interest of the plan's participants and beneficiaries and in a prudent fashion in accord-

Footnotes continued from last page

this regard, it is not clear to the Agencies whether institutional investment managers presently engage in the practice of recapture to any significant extent in view of the advent of fully negotiated stock exchange commission rates and other economic and legal developments. The Agencies request comment concerning this matter, in order that they may better determine whether the proposed condition, if adopted, should be modified to permit specifically recapture of brokerage commissions by plan administrators, plan trustees or employers, or their affiliates and, if so under what circumstances.

[14]Unlike the exemption now in effect, the proposed permanent exemption is not restricted to broker-dealers who ordinarily effected brokerage and incidental clearance, settlement or custodial services on May 1, 1975. As explained above, the May 1, 1975 "grandfather" date contained in Prohibited Transaction Exemption 75-1 corresponded to a provision Congress included when enacting section 11(a) of the Exchange act which limited the availability of the transitional relief given in that section to broker-dealers who were members of a national securities exchange on May 1, 1975. Although the "grandfather" date in the amended section 11(a) was changed to February 1, 1978, Prohibited Transaction Exemption 78-10 which extended the temporary relief provided by Prohibited Transaction Exemption 75-1, contained the May 1, 1975 limitation. Since the class exemption now being proposed is not designed to give mere transitional relief, but is instead designed to provide permanent relief for transactions within its scope, there seems to be no reason to confine its applicability to broker-dealers who were performing, the described functions on May 1, 1975 or on any other particular date.

[15]The proposed requirements described above are similar to provisions contained in section 15 of the Investment Company Act of 1940 regarding contracts between investment companies and their investment advisers.

[16]In this regard, commission rates might differ from broker-dealer to broker-dealer. The providing of research or other services by a broker-dealer might also cause its rates to vary. CF., section 28(e) of the Exchange Act.

[17]For instance, a broker-dealer could charge a commission higher than one appearing in the schedule for a transaction significantly more difficult to execute than a typical transaction.

[18]As the Agencies have explained in previous notices relating to Prohibited Transaction Exemption 75-1, a broker-dealer which provides investment advice (as defined in 29 CFR 2510.3-21 and section 54.4975-9 of the Pension Excise Tax Regulations) to a plan and is therefore a fiduciary may, under certain circumstances, effect securities transactions for the plan without relying upon an administrative exemption, provided that it obtains prior authorization from another plan fiduciary before effecting any such transaction. In such a case, the broker-dealer would not have to comply with the conditions of the proposed permanent exemption described above. In addition, since it would not be exercising investment discretion as defined by the SEC, it would not have to comply with rule 11a2-2(T).

must be filed with the Office of Stand

Date: November 15, 1978.

ance with subsection (a)(1)(B) of section 404 of the Act; nor does it affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department and the Service must find that the exemption is administratively feasible, is in the interests of the plan or plans and of their participants and beneficiaries and is protective of the rights of participants and beneficiaries of such plans.

(3) The exemption proposed herein or one which may be subsequently proposed as part of this proceeding is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory exemptions and transitional rules. Furthermore, the fact that a transaction is the subject of an exemption is not dispositive of whether the transaction would have been a prohibited transaction in the absence of such exemption or, though it would have been a prohibited transaction, is exempt by operation of a statutory exemption or a transitional rule.

(4) This document does not meet the criteria for significant regulations set forth in paragraph 8 of the proposed Treasury directive appearing in the FEDERAL REGISTER for Wednesday, May 24, 1978 (43 FR 22319).

Accordingly, it is proposed that the following exemption be granted under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75-26, 1975 C.B. 722:

PROPOSED EXEMPTION

Effective February 1, 1979, the restrictions of section 406 of the Employee Retirement Income Security Act of 1974 and the taxes imposed by section 4975 (a) and (b) of the Internal Revenue Code of 1954 (the Code), by reason of section 4975(c)(1) of the Code, shall not apply to the effecting or executing of any securities transaction on behalf of an employee benefit plan by a broker-dealer which is a fiduciary with respect to the plan, and which is acting in such transaction as agent for the plan and to the performance by such broker-dealer of clearance, settlement, custodial, or other functions incidental to effecting such transaction, provided that the broker-dealer is not a trustee or administrator of the plan or an employer of any employee covered by the plan, and provided further that the following conditions are met:

(a) Such transactions are effected or executed and such other functions are performed pursuant to a written authorization executed by a fiduciary of the plan who is independent of the broker-dealer;

(b) Such written authorization continues in effect for more than 1 year only if such continuance is authorized in writing, at least annually, by a plan fiduciary who is independent of the broker-dealer;

(c) No such authorization is made or renewed unless the broker-dealer furnishes the authorizing plan fiduciary with any information the broker-dealer reasonably believes to be necessary to determine whether such authorization should be made or renewed and any other information regarding the matter that the authorizing fiduciary may reasonably request;

(d) The broker-dealer furnishes to the authorizing fiduciary, not later than 30 days after the end of each calendar quarter, a report disclosing: (i) The total of all transaction-related charges incurred by the plan during the preceding quarter in connection with transactions in which the broker-dealer performed any of the functions permitted by this exemption; and (ii) the amount of the transaction-related charges retained by the reporting broker-dealer and the amount of such charges paid to other broker-dealers for execution or other services;

(e) The broker-dealer states, in substance, in the report described in (d) above that brokerage commissions are not fixed by any stock exchange or other authority and are subject to negotiation;

(f) The broker-dealer furnishes to the authorizing fiduciary, not less frequently than 30 days after the end of each calendar quarter, a schedule disclosing rates for transaction-related services anticpated to be charged in the coming quarter for transactions of the type normally entered into by the plan; and

(g), In any case where such transactions are effected or executed or such functions are performed pursuant to a contract to which the plan is a party such contract is terminable by the plan, without penalty, on not more than 60 days' notice.

Signed at Washington, D.C. this 17th day of November 1978.

IAN LANOFF,
Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

TED R. KERN,
Deputy Assistant Commissioner (Employee Plans and Exempt Organizations), Internal Revenue Service.

Mine Safety and Health Administration

[Docket No. M-78-114-C]

BROWN BADGETT COAL CO., INC.

Petition for Modification of Application of Mandatory Safety Standard

Brown Badgett Coal Co., Inc., P.O. Drawer 617, Central City, Ky. 42330, has filed a petition to modify application of 30 CFR 75.1710-1 (canopies) to its Busick Underground Mine in Muhlenberg County, Ky. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977, Public Law 95-164.

The substance of the petition is as follows:

(1) The petitioner is mining coal seams with a minimum height of approximately 51 inches.

(2) The petitioner installed canopies on face equipment, but this operation resulted in a diminution of safety to miners for these reasons:

(a) Cabs restrict the operator's movement so that the operator cannot properly control the machine in a safe manner.

(b) The cramped space in a cab results in greater stress and strain to the operator, increasing the chances of careless or reckless operation of the equipment.

(c) A canopy forces the operator into an unnatural position which can expose him to the same hazards the canopy was intended to prevent.

(d) Canopies reduce the operator's horizontal view of the work area.

(e) Canopies eliminate the operator's upward vision and therefore operators can no longer inspect the mine roof for defects.

(3) For these reasons the petitioner seeks to operate its equipment without a canopy or cab until such time that a canopy can be developed which meets the criteria of the standard and its use does not result in a diminution of safety to miners.

REQUEST FOR COMMENTS

Persons interested in this petition may furnish written comments on or before December 26, 1978. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Va. 22203. Copies of the petition are available for inspection at the above address.

Dated: November 15, 1978.

UNION CARBIDE CORP.

Petition for Modification of Application of Mandatory Safety Standard

Union Carbide Corp., P.O. Box 1029, Grand Junction, Colo. 81501, has filed a petition to modify application of 30 CFR 57.9-22 (berms) to its Emerson Mine in Lincoln County, Nevada. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977, Public Law 95-164.

The substance of the petition is as follows:

(1) Each elevated roadway at the petitioner's mine has a berm capable of stopping a standard vehicle.

(2) Certain areas of the roadways do not have a base width sufficient to support a 27 inch high berm necessary for large vehicles.

(3) To widen existing roads to accommodate a 27 inch berm would require considerable rock blasting of the high wall.

(4) In the alternative, the petitioner proposes the following:

(a) The petitioner will erect a 27 inch berm in areas with sufficient road width.

(b) After the completion of a shaft presently under construction, the petitioner will restrict the use of the roadways to light vehicles and minor maintenance vehicles.

(5) The petitioner states that the modification of the standard will not reduce the safety protection from that in effect at this time.

REQUEST FOR COMMENTS

Persons interested in this petition may furnish written comments on or before December 26, 1978. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson boulevard, Arlington, Virginia 22203. (Docket No. M-78-84-C)

WOODS FUEL COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Woods Fuel Coal Company, Route 1, Evarts, Kentucky 40828, has filed a petition to modify application of 30 CFR 1710-1 (canopies) to its Wood's Fuel No. 1 in Evarts, Kentucky. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977, Public Law 95-164.

The substance of the petition is as follows:

(1) The petitioner is mining a coal seam with an average height of 42 inches.

(2) The mine has no history of injury due to rib or roof falls.

(3) Canopies on face equipment frequently dislodge roof bolts due to the uneven mine floors.

(4) Canopies impair the visibility of the operator possibly leading to serious injury of fellow workers or of the operator.

(5) The cramped position of the operator in a cab makes it virtually impossible to operate equipment safely.

(6) As an alternative, the petitioner lists the following:

(a) Effective rib and roof control measures to prevent falls.

(b) A training program to inform workers of proper roof techniques and safe operation of equipment.

(7) The petitioner states that the alternative will not reduce the safety afforded miners by the standard.

Office of Federal Contract Compliance Programs

HAHN & CLAY MACHINE & BOILER WORKS, INC.

Reinstatement

Notice is hereby given that Hahn & Clay Machine and Boiler Works, Inc. of Houston, Texas has been reinstated as an eligible bidder on Federal contracts and subcontracts, effective October 24, 1978, after they demonstrated their intent and ability to comply with the equal opportunity clause of Executive Order 11246, as amended.

A copy of a Consent Decree, approved by Administrative Law Judge Burton Sternburg, reinstating Hahn & Clay and committing the company to specific affirmative action steps and reporting requirements, is enclosed for publication in the FEDERAL REGISTER together with this notice.

Dated: November 15, 1978.

RICHARD J. DEVINE,
Deputy Director, OFCCP.

[No. OFCC-DSA]

CONSENT DECREE

In the matter of Hahn & Clay and Defense Supply Agency.

This Consent Decree, made and entered into between Hahn and Clay Machine and Boiler Works (Hahn & Clay), Houston, Texas and the Government, represented by the Director, Defense Logistics Agency (DLA), and the Director, Office of Federal Contract Compliance Programs (OFCCP), witnesseth:

I. INTRODUCTION

1. On August 31, 1977, the Director, OFCCP, approved the debarment of Hahn & Clay, its divisions and subsidiaries and any and all purchasers, successors, assignees, and/or transferees, from the award of any contract or subcontract funded in whole or in part with Federal funds, and from extensions or other modifications of any such existing contracts or subcontracts. The Director also cancelled and terminated all existing United States Government contracts and subcontracts with Hahn & Clay and its divisions and subsidiaries;

2. The Director's actions were based upon Administrative Law Judge Burton S. Sternburg's findings that Hahn & Clay had violated its contractual obligations pursuant to 41 CFR 60-1.32 of the Secretary of Labor's regulations implementing Executive Order 11246, as amended;

3. The debarment was to continue in effect until such time as Hahn & Clay satisfied the Director, OFCCP, that it had established and would carry out employment policies and practices in compliance with the Equal Employment Opportunity clause of Executive Order 11246, as amended;

4. By letter dated September 14, 1977 to the Director, OFCCP, Hahn & Clay requested reinstatement;

5. By letter date September 14, 1977 to Lorenzo S. Garcia, Hahn & Clay issued back pay checks plus interest to Mr. Garcia in

V 4 3 1 2 2 7 N 0 2 4 7 8 V

V 43 N 227 NOV 24 1978

the gross amount of $1,403.97 and restored to Mr. Garcia his seniority rights;

6. In accordance with a request contained in the Director of OFCCP's letter dated October 4, 1977 to the Acting Deputy Assistant Secretary of Defense (Equal Opportunity), a compliance review of Hahn & Clay was completed on December 20, 1977;

7. At the direction of the Director, OFCCP, another compliance review of Hahn & Clay was completed as of June 9, 1978;

8. The DLA, as a result of the compliance review completed on June 9, 1978, found that women at Hahn & Clay were underutilized in all job categories other than Office and Clerical; that although there was technically no underutilization of women in Sales, there were also no women in those positions; and that minorities at Hahn & Clay were underutilized in all job categories except Operatives and Service Workers;

9. The Director, OFCCP, has reviewed DLA's findings and recommendations relative to Hahn & Clay's compliance status, and hereby reinstates Hahn & Clay pursuant to the requirements of 41 CFR 60-1.31 and Department of Labor letter dated March 5, 1973, Memorandum to Heads of All Agencies, Subject: Implementation of Part 60-1.31, Guidelines for Reinstatement of Contractors or Subcontractors Debarred pursuant to E.O. 11246 (as amended) and subject to the terms and conditions of this Consent Decree.

II. AFFIRMATIVE ACTION

1. The following action oriented program has been developed to ensure that no person intimidates, threatens, coerces, or discriminates against any individual for the purpose of interferring with the filing of a complaint, furnishing information, or assisting or participating in any manner in an investigative compliance review, hearing, or any other activity related to the administration of the order or any other Federal, State, or local laws requiring equal employment opportunity:

(a) A continuing, yearly awareness program has been instituted among all supervisors, and a report of progress will be provided the local Department of Labor contractor employment compliance office by December 31 of each year. This report will include dates of awareness training and summary of course content, names, title, race, sex, number of employees trained, and copies of all written communications between management and employees concerning this action oriented program.

(b) A reporting system was instituted prior to October 20, 1976 whereby employees were notified in writing of the procedures to follow to report violation of 41 CFR 60-1.32 (Intimidation and Interference) during all reporting periods to designated management officials. These written procedures will continue to be posted in a prominent location. (These procedures are attached hereto and made a part hereof as Appendix A).

2. Hahn & Clay will make a good faith effort to fulfill the following goals and timetables for women and minorities subject to the availability of qualified or readily qualifiable women and minorities:

(a) Job Group 1, Officials and Managers Category, Executive Department: A promotion goal of one minority is projected to be attained by 1980. No vacancies are anticipated during the 1978 AAP year. However, a good faith effort will be made to fill unanticipated vacancies at a rate of at least 7.6 percent for minorities and 12.5 percent for females subject to the availability of qualified or readily qualifiable women and minorities.

(b) Job Group 1a, Officials and Managers Category, Accounting Department: A promotion goal of one female is projected to be attained by 1980. A good faith effort will be made to fill unanticipated vacancies during the 1978 AAP year at a rate of at least 16.6 percent for minorities and 12 percent for females subject to the availability of qualified or readily qualifiable women and minorities.

(c) Job Group and Category, Professionals: A goal of 9.8 percent minority and 21.1 percent female is projected to be attained by 1980. A good faith effort will be made to fill unanticipated vacancies during the 1978 AAP year at a rate of at least 9.8 percent for minorities and 21.1 percent for females subject to the availability of qualified or readily qualifiable women and minorities.

(d) Job Group I, Technicians Category, Drafting Department: A goal of one female is projected to be attained by 1980. A good faith effort will be made to fill unanticipated vacancies during the 1978 AAP year at a rate of at least 19.7 percent for minorities and 30 percent for females subject to the availability of qualified or readily qualifiable women and minorities.

(e) Job Group II, Technicians Category: A goal of one minority new hire in the Drafting Department and one female in the Quality Assurance Department is projected to be attained by 1979 subject to the availability of qualified or readily qualifiable women and minorities.

(f) Job Group and Category, Sales: A goal of 8.8 percent minority is projected to be attained by 1979. A goal of 14.6 percent female is projected to be attained by 1980. A good faith effort will be made to fill unanticipated vacancies in the Sales Department during the 1978 AAP year at a rate of at least 8.8 percent for minorities and 15 percent for females subject to the availability of qualified or readily qualifiable women and minorities.

(g) Job Category and group, Office and Clerical: A goal of two minority new hires is projected to be attained by 1979 in the Accounting Department subject to the availability of qualified or readily qualifiable minorities.

(h) Job Group I, Craftsman Category, Fabricating Department: A goal of one minority new hire or promotion is projected to be attained by 1979 subject to the availability of qualified or readily qualifiable minorities. A good faith effort will be made to fill unanticipated vacancies in the 1978 AAP year at a rate of at least 25 percent for minorities and 5 percent for females subject to the availability of qualified or readily qualifiable women and minorities.

(i) Job Group II, Craftsman Category, Fabricating Department: A goal of one minority new hire or promotion is projected to be attained by 1979 subject to the availability of qualified or readily qualifiable minorities. A goal of 3.6 percent females is projected to be attained by 1980. A good faith effort will be made to fill unanticipated vacancies during the 1978 AAP year at a rate of at least 25 percent for minorities and 5 percent for females subject to the availability of qualified or readily qualifiable women and minorities.

(j) Job Group III, Craftsman Category, Fabricating and Machine Shop Departments: A goal of two minority new hires or promotions is projected to be attained by 1979. A female goal of 3.6 percent is projected to be attained by 1980. A good faith effort will be made to fill unanticipated vacancies at a rate of at least 30 percent for minorities and 4 percent for females during the 1978 AAP year subject to the availability of qualified or readily qualifiable women and minorities.

(k) Job Group IV, Craftsman Category, Fabricating Department: A goal to hire or promote two females is projected to be attained by 1980. A minority goal of 43.2 percent is projected to be attained by 1980. A good faith effort will be made to fill unanticipated vacancies during the 1978 AAP year at a rate of at least 45 percent for minorities and 5 percent for females subject to the availability of qualified or readily qualifiable women and minorities.

(l) Job Group I, Operatives Category, Fabricating Department: A goal to hire or promote one female and two minorities is projected to be attained by 1979. A good faith effort will be made to fill unanticipated vacancies during the 1978 AAP year at a rate of at least 54.6 percent for minorities and 15 percent for females subject to the availability of qualified or readily qualifiable women and minorities.

(m) Job Group I, Operatives Category, Fabrication Department: A goal to promote or hire one female and one minority is projected to be attained by 1980. A good faith effort will be made to fill unanticipated vacancies during the 1978 AAP year at a rate of at least 54.6 percent for minorities and 15 percent for females subject to the availability of qualified or readily qualifiable women and minorities.

(n) Job Group I, Laborers Category, Fabrication Department: A goal of six minority new hires and two female new hires is projected to be attained by 1980. A good faith effort will be made to fill unanticipated vacancies during the 1978 AAP year at a rate of at least 75 percent for minorities and 15 percent for females subject to the availability of qualified or easily qualifiable women and minorities.

(o) Job Group and Category, Service Workers, Maintenance Department: A goal of one female new hire is projected to be attained by 1980. A good faith effort will be made to fill unanticipated vacancies during this AAP year at a rate of at least 56.7 percent for minorities and 15 percent for females subject to the availability of qualified or readily qualifiable women and minorities.

3. Hahn & Clay agrees that it will not use the goals and timetables or affirmative action measures contained in this Decree to discriminate against any person because of race, color, religion, sex, or national origin.

4. Hahn & Clay will file the following information with the OFCCP contract compliance agency and with the Counsel for Civil Rights, Office of the Solicitor, U.S. Department of Labor on October 1, 1978 and thereafter on January 1, April 1, July 1, and October 1 of each year:

(a) A listing of terminated employees by name, race, sex, employee number and job classification with the reason for each termination;

(b) Documentation of all recruitment efforts which Hahn & Clay has made to attract women into skilled craft positions including:

(1) A detailed account of Hahn & Clay's participation in training programs for women in the skilled crafts area including upgrading programs, apprenticeship and trainee programs and on-the-job training programs;

(2) A detailed description of all contracts made with schools, colleges, educational institutions, referral agencies, womens groups, radio or television stations, and/or newspapers and magazines in which Hahn & Clay affirmatively sought women to fill skilled crafts positions.

(c) A listing of all applicants for office and Clerical positions by name, race, position applied for, date of application with an indication of whether the applicant was hired and, if not, the reason the applicant was not hired; and if the rejected applicant is a minority and if another person was hired during the period the minority applicant's application was considered to be current, the following information concerning such other person: name, race, position applied for and date of application.

(d) A listing of all applicants for Skilled Craft and Laborer positions by name, race, position applied for, date of application with an indication of whether the applicant was hired and, if not, the reason the applicant was not hired; and if the rejected applicant is a Spanish-surnamed person and if another person was hired during the period the Spanish-surnamed applicant's application was considered to be current, the following information concerning such other person: name, race, position applied for and date of application.

5. Hahn & Clay agrees that it will develop on-the-job training opportunities and/or participate in training programs for the Houston area which expressly include minorities, and women including upgrading programs, and apprenticeship and trainee programs relevant to Hahn & Clay's employment needs.

6. Since the Houston Column Company, Houston, Texas has no employees and has been inactive for ten years; there is no requirement for the Houston Column Company to be shown to be in full compliance with Executive Order 11246, as amended, and the Secretary of Labor's implementing regulations prior to Hahn & Clay's reinstatement.

7. Hahn & Clay will maintain an acceptable AACP in accordance with the requirments of Executive Order 11246, as amended, and the Secretary of Labor's implementing rules and regulations. No changes will be made in Hahn & Clay's AACP without the prior approval of the compliance agency.

IV. JURISDICTION

1. Jurisdiction over the implementation of the provisions of the Consent Decree is retained by Administrative Law Judge Burton S. Sternburg.

2. The Administrative Law Judge shall have the authority to issue any additional orders and decrees necessary to effectuate Executive Order 11246, as amended, or to enforce or clarify the implementation of this Consent Decree.

3. Hahn & Clay agrees that representatives of OFCCP or its designees, upon reasonable request may review compliance with this Consent Decree. As part of such review, the OFCCP may require written reports concerning compliance, may inspect Hahn & Clay's premises and operations, examine witnesses and examine and copy documents.

4. The Parties hereto agree that, if, at any time in the future OFCCP or (the compliance agency) or their successor(s) believe that Hahn & Clay has violated any portion of this Decree or any provision of its AACP, Hahn & Clay shall be promptly notified of that fact in writing. This notification shall include a statement of the facts and circumstances relied upon in forming that belief. In such an instance, if the matter cannot be resolved amicably, OFCCP or the compliance agency shall have the right to petition the Administrative Law Judge for immediate reinstatement of the debarment order, and the Administrative Law Judge shall have the authority to immediately reinstate the debarment order after a hearing on the matter. In the interim, the Director of OFCCP shall have the right to order immediate cancellation, suspension or termination of Hahn & Clay's existing Federal contracts.

5. This Consent Decree shall be filed with the Administrative Law Judge, U.S. Department of Labor, and shall be made a part of the record of proceedings before the Administrative Law Judge.

6. The Parties hereto agree that this Decree shall be effective until and unless modified or rescinded by mutual agreement of the Parties.

7. At any time after a minimum period of two years from the date of entry of this Decree, the defendant may move upon sixty days' notice to the plaintiffs, and upon a showing of compliance with the terms and conditions of this Decree, for its modification and dissolution.

8. If an application or motion for an order of enforcement or clarification indicates by signature of counsel that it is unopposed by Hahn & Clay and the United States Department of Labor, the application or motion may be presented to the Court without hearing, and the proposed order may be implemented immediately.

9. This Consent Decree shall not become final until it has been signed by the Administrative Law Judge.

10. This Consent Decree shall be applicable to and binding on Hahn & Clay and any and all purchasers, successors, assignees, and/or transferees.

11. Upon entry of this Decree, Hahn & Clay is reinstated as an eligible bidder on Government contracts and subcontracts, and as such, it may receive contracts and subcontracts bid upon on or after the effective date of this Decree.

It Is So Ordered.

Effective date: October 24, 1978.

EUGENE J. CLAY,
For Hahn & Clay.

Office of the Secretary

INVESTIGATIONS REGARDING CERTIFICATIONS OF ELIGIBILITY TO APPLY FOR WORKER ADJUSTMENT ASSISTANCE

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to Section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contibuted importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 4, 1978.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address

APPENDIX Continued

shown below, not later than December 4, 1978.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 16th day of November 1978.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

ALLEGRO FASHIONS, LODI, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Asistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3967: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on July 13, 1978 in response to a worker petition received on July 10, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' garments at Allegro Fashions, Lodi, New Jersey.

The Notice of Investigation was published in the FEDERAL REGISTER on July 28, 1978 (43 FR 32885-86). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Allegro Fashions, its customers (manufacturers), the National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met.

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separation, or threat thereof, and to the absolute decline in sales or production.

The Department conducted a survey of the principal manufacturers for which Allegro Fashions worked in 1976 and 1977. Manufacturers who reduced purchases from Allegro Fashions in 1977 compared to 1976 did not purchase imported ladies garments. In the first six months of 1978 manufacturers who reduce purchases from Allegro Fashions in comparison to the first six months of 1977 did not purchase imported ladies' garments. These manufacturers had increasing sales under the period of investigation.

CONCLUSION

After careful review, I determine that all workers of Allegro Fashions, Lodi, New Jersey are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 15th day of November 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[TA-W-3565]

BROOK MANUFACTURING CO., INC., OLD FORGE, PA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3565: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on May 3, 1978 in response to a worker petition received on April 20, 1978 which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers producing men's slacks at Brook Manufacturing Company, Incorporated, Old Forge, Pennsylvania.

The Notice of Investigation was published in the FEDERAL REGISTER on May 16, 1978 (43 FR 21068). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Brook Manufacturing Company, Incorporated, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of men's and boys' dress and sport trousers and shorts increased from 55,508 thousand units in 1975 to 73,209 thousand units in 1976 and to 76,419 thousand units in 1977. In the first half of 1978, imports of trousers and shorts increased to 48,690 thousand units compared to 33,860 thousand units in the first half of 1977. The ratio of imports of trousers and shorts relative to domestic production increased from 34.1 percent in 1975 to 40.9 percent in 1976 and then declined to 38.0 percent in 1977.

Brook Manufacturing is a garment contractor that sews men's slacks for several manufacturers. A Department survey of the customers of these manufacturers revealed that, in 1977 as compared to 1976 as well as in the first half of 1978 as compared to the first half of 1977, many of the manufacturers' customers increased purchases of imported men's slacks and decreased purchases from the manufacturers. As these manufacturers experienced decreased sales of slacks, they, in turn, decreased their utilization of Brook Manufacturing Company.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with the men's slacks produced by Brook Manufacturing Company, Incorporated, Old Forge, Pennsylvania contributed importantly to the decline in sales and production and to the total or partial separation of workers at that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Brook Manufacturing Company, Incorporated, Old Forge, Pennsylvania who became totally or partially separated from employment on or after April 17, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 15th day of November 1978.

HARRY J. GILMAN,
Acting Director, Office of Foreign Economic Research.

[TA-W-3840]

HONEY BEE SPORTSWEAR, FALL RIVER, MASS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3840: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 14, 1978 in response to a worker petition received on May 8, 1978 which was filed on behalf of workers and former workers producing women's sportswear at Honey Bee Sportswear, Fall River, Massachusetts. The investigation revealed that the plant primarily produces women's slacks, skirts and jackets.

The Notice of Investigation was published in the FEDERAL REGISTER on June 27, 1978 (43 FR 27924). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Honey Bee Sportswear, its manufacturer, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

A survey of Honey Bee Sportswear's sole manufacturer revealed that the manufacturer does not import finished women's sportswear (slacks, skirts and jackets) and does not employ offshore contractors to produce those products. This manufacturer increased its sales from 1976 to 1977 and also increased its contracts with other domestic sources.

CONCLUSION

After careful review, I determine that all workers of Honey Bee Sportswear, Fall River, Massachusetts are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 15th day of November 1978.

JAMES F. TAYLOR,
Director, Office of Management Administration and Planning.

[TA-W-3828]

KRIS, INC., CEDARBURG, WIS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3828: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 12, 1978 in response to a worker petition received on June 8, 1978 which was filed on behalf of workers and former workers producing citizens band radios at Kris, Incorporated, Cedarburg, Wisconsin. The investigation revealed that the plant did not produce citizen band radios but produced accessories for citizens band radios.

The notice of Investigation was published in the FEDERAL REGISTER on June 27, 1978 (43 FR 27925). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Kris, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other critera have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

From mid-1974 until the firm closed in August 1977, Kris, Inc. was primarily an importer of citizen band radios. A significant portion of the value of sales by the firm during 1976 and the first half of 1977 consisted of imported products. Due to market factors, U.S. imports of mobile CB transceivers and CB base station units fell substantially in 1977. The various accessories produced at Cedarburg served primarily to complement the CB radios imported and sold by the firm.

CONCLUSION

After careful review, I determine that all workers of Kris, Incorporated, Cedarburg, Wisconsin are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 15th day of November 1978.

HARRY J. GILMAN,
Acting Director, Office of Foreign Economic Research.

[TA-W-3745]

LAWRENCE MANUFACTURING CO., WALNUT RIDGE, ARK.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3745: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on May 23, 1978 in response to a worker petition received on May 16, 1978 which was filed on behalf of workers and former workers producing ladies' sportswear and dresses at Lawrence Manufacturing Company, Walnut Ridge, Arkansas. The investigation revealed that dresses, pant suits and skirt suits are produced.

The corrected Notice of Investigation was published in the FEDERAL REGISTER on August 25, 1978 (43 FR 38140). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Lawrence Manufacturing Company, Butte Knitting Mills, its customers, the National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met.

Imports of women's, misses', and children's dresses declined from 1,655 thousand dozen in 1975 to 1,614 thousand dozen in 1976 and to 1,420 thousand dozen in 1977. The ratios of imports to domestic production and consumption declined from 8.0 percent and 7.4 percent, respectively, in 1976 to 6.7 percent and 6.3 percent, respectively, in 1977. Imports increased from 371 thousand dozen in the first quar-

ter of 1977 to 403 thousand dozen in the first quarter of 1978.

Imports of women's, misses' and children's suits declined from 412 thousand dozen in 1975 to 408 thousand dozen in 1976 and to 384 thousand dozen in 1977. The ratios of imports to domestic production declined from 11.4 percent and 10.2 percent, respectively, in 1976 to 10.5 percent and 9.5 percent, respectively in 1977. Imports increased from 62 thousand dozen in the first quarter of 1977 to 104 thousand dozen in the first quarter of 1978.

A survey was conducted of customers who reduced purchases from Butte Knitting Mills from 1977 to 1978. The survey revealed that customers increased their purchases of imported women's dresses and suits during that period.

CONCLUSION

After careful review of the facts obtained in the investigation I conclude that increases of imports of articles like or directly competitive with women's dresses and suits produced at Lawrence Manufacturing Company, Walnut Ridge, Arkansas contributed importantly to the decline in sales or production and to the total or partial separation of workers at that firm. In accordance with the provisions of the Act, I make the following certification:

All workers at Lawrence Manufacturing Company, Walnut Ridge, Arkansas who became totally or partially separated from employment on or after September 4, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 15th day of November 1978.

HARRY J. GILMAN,
Acting Director, Office of Foreign Economic Research.

[4510-28-M]

[TA-W-4111]

LOUISVILLE & NASHVILLE RAILROAD CO., BIRMINGHAM, ALABAMA TERMINAL, BOYLES, ALA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4111: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on August 24, 1978 in response to a worker petition received on August 22, 1978 which was filed by the United Transportation Union on behalf of workers and former workers engaged in the shipment of steel, raw and finished products for the Louisville and Nashville Railroad Company, Birmingham Division Terminal, Boyles, Alabama.

The Notice of Investigation was published in the FEDERAL REGISTER on September 5, 1978 (43 FR 39457). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the Louisville and Nashville Railroad Company; and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. The Department has determined that services are not "articles" within the meaning of Section 222 of the Act, and that independent firms for which the subject firm provides services cannot be considered to be the "workers' firm".

The Louisville and Nashville Railroad Company (L&N) was founded in 1850 and incorporated in Kentucky. The L&N is a wholly-owned subsidiary of Seaboard Coast Line Railroad Company, which is a wholly-owned subsidiary of Seaboard Coast Line Industries, Inc. The L&N and Seaboard Coast Line Railroad jointly operate under leases, as separate properties, the Clinchfield Railroad Company and the Georgia Railroad.

The L&N operates a comprehensive rail system serving a 14-state region between Chicago and the Gulf of Mexico.

The petitioning workers are employed at the Birmingham Division terminal, Boyles, Alabama, of the L&N. The main terminal and Headquarters for the Division are located in Birmingham, Alabama. Boyles Yard, the largest in the Division, is located at Birmingham.

Workers at the Birmingham Division terminal, Boyles, Alabama of the Louisville and Nashville Railroad are engaged exclusively in the transportation of goods and commodities and do not produce an article within the meaning of Section 222(3) of the Act.

The Louisville and Nashville Railroad is a common carrier. The L&N and its customers have no controlling interest in one another.

All workers engaged in providing transport services at the Birmingham Division terminal, Boyles, Alabama of the Louisville and Nashville Railroad Company are employed by that firm. All personnel actions and payroll transactions are controlled by the Louisville and Nashville Railroad. Workers are not, at any time, under employment or supervision by customers of the Louisville and Nashville Railroad. Thus, the Louisville and Nashville Railroad Company must be considered to be the "workers' firm".

CONCLUSION

After careful review, I determine that all workers of the Birmingham Division terminal, Boyles, Alabama, of the Louisville and Nashville Railroad Company are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 15th day of November 1978.

JAMES F. TAYLOR
Director, Office of Management, Administration and Planning.

[4510-28-M]

[TA-W-3039]

ROCKWELL INTERNATIONAL SUSPENSION AND TRUCK AXLE DIVISION PLANTS; NEW CASTLE, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3039: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 6, 1978, in response to a worker petition received on January 17, 1978, which was filed by the United Steelworkers of America on behalf of workers and former workers producing leaf springs for cars and trucks and front axles for trucks at the New Castle, Pennsylvania plants of Rockwell International's Suspension Division and Truck Axle Division.

The Notice of Investigation was published in the FEDERAL REGISTER on February 17, 1978 (43 FR 7064). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Rockwell International, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met with respect to workers of the New Castle, Pennsylvania

Truck Axle Division plant of Rockwell International:

That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

The average number of workers producing front axles for trucks at the Truck Axle Division plant of Rockwell International in New Castle, Pennsylvania increased in 1977 compared to 1976 and in the first three quarters of 1978 compared to the same period in 1977. Average quarterly employment of production workers at this plant increased in every quarter from the second quarter of 1976 through the third quarter of 1978 when compared to the same quarter of the previous year. The average weekly hours worked per employee did not change significantly during this period. There is no immediate threat of separation of workers at this plant.

Without regard to whether any of the other criteria have been met, the following criterion has not been met with respect to workers of the New Castle, Pennsylvania Suspension Division plant of Rockwell International:

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separation, or threat thereof, and to the absolute decline in sales or production.

Sales of leaf springs produced for domestic consumption at the New Castle, Pennsylvania plant increased in 1977 compared to 1976. Sales for domestic consumption declined by less than one percent in the first nine months of 1978 compared to the same period in 1977. The larger decline in total plant sales of leaf springs during the first three quarters of 1978 can be attributed to a major decline in plant exports, which accounted for approximately 99 percent of the decline in total plant sales during this period.

CONCLUSION

After careful review, I determine that all workers producing front axles for trucks at the Truck Axle Division plant of Rockwell International, New Castle, Pennsylvania are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

I further determine that all workers producing leaf springs at the Suspension Division plant of Rockwell International, New Castle, Pennsylvania are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 15th day of November 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3546]

WELD, INC., RARITAN, NEW JERSEY

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3546: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on April 25, 1978 in response to a worker petition received on April 12, 1978 which was filed on behalf of workers and former workers producing men's and boys' outerwear at Weld, Inc., Raritan, New Jersey.

The Notice of Investigation was published in the FEDERAL REGISTER on May 5, 1978 (43 FR 19478-19479). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Weld, Inc., its manufacturers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Weld, Inc. produced men's and boys' outerwear on a contractual basis. Nearly all of Weld's output was produced for one manufacturer. Declines in sales by that manufacturer in 1977 resulted in the closure of Weld, Inc. in December of that year. The declines in sales by the manufacturer were due to the loss of a major customer which filed for bankruptcy in June 1977. This major customer ceased operations permanently in July 1977 due to inability to keep pace with shifts in consumer demand and to disadvantageous locations for many of its major retail outlets.

CONCLUSION

After careful review, I determine that all workers of Weld, Inc., Raritan, New Jersey are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 15th day of November 1978.

JAMES F. TAYLOR,
Director, Office of Management Administration and Planning.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (78-64)]

NASA ADVISORY COUNCIL (NAC) SPACE SYSTEMS AND TECHNOLOGY ADVISORY COMMITTEE

Meeting

The informal Ad Hoc Advisory Subcommittee on Power Technology for Future Satellites and Platforms will meet on December 13 and 14, 1978, in Room 625, NASA Headquarters, 600 Independence Avenue, SW., Washington, D.C. The meeting will be open to the public up to the seating capacity of the room (about 40 persons including subcommittee members and participants).

The subcommittee was established to identify the power technologies required to meet the needs of synchronous space activities through the mid-1990's and to evaluate the adequacy of current Office of Aeronautics and Space Technology and other research and technology efforts to meet those needs. The chairperson is Mr. Fred H. Esch, and there are nine members of the subcommittee.

For further information contact Mr. Jerome P. Mullin, Executive Secretary of the Informal Ad Hoc Advisory Subcommittee on Power Technology for Future Synchronous Satellites and Platforms, Code RP-6, NASA Headquarters, Washington, D.C. 20546, 202-755-3278.

AGENDA

DECEMBER 13, 1978

9 a.m.—Introductory remarks.
9:30 a.m.—Presentation of future synchronous satellite and platform requirements.
1 p.m.—Presentation of current NASA power technology program.

DECEMBER 14, 1978

9 a.m.—Committee discussions and formulation of recommendations and future actions.

2 p.m.—Adjourn.

NOVEMBER 16, 1978.

ARNOLD W. FRUTKIN,
Associate Administrator for External Relations.

[4510-30-M]

NATIONAL COMMISSION FOR MANPOWER POLICY

MEETING

Pursuant to the provisions of the Federal Advisory Committee Act (P.L. 92-463; 86 Stat. 770) notice is hereby given that the National Commission for Manpower Policy will hold its fifteenth formal meeting on December 8, 1978, in the Mount Vernon Room of the Sheraton Carlton Hotel, 16th and K Streets, NW. The meeting will begin at 9 a.m. and adjourn at 5 p.m.

The National Commission for Manpower Policy was established pursuant to Title V of the Comprehensive Employment and Training Act of 1973 (Pub. L. 93-203). The Act charges the Commission with the broad responsibility of advising the President, the Congress, the Secretary of Labor, and other Federal agency administrators on national employment and training issues. The Commission is specifically charged with reporting annually to the President and the Congress on its findings and recommendations with respect to the Nation's employment and training policies and programs.

The agenda will be concerned with identifying issues for its Fourth Annual Report, such as the role of private employers in national employment policies, and an overview of the status of the NCMP youth task force.

Members of the general public or other interested individuals may attend this meeting. Members of the public desiring to submit written statements to the Commission that are germane to the agenda may do so, provided such statements are in reproducible form and are submitted to the Director not later than 2 days before and 7 days after the meeting.

Additionally, members of the general public may request to make oral statements to the Commission to the extent that the time available for the meeting permits. Such oral statements must be directly germane to the announced agenda items and written application must be submitted to the Director of the Commission 3 days before the meeting. This application shall identify the following: The name and address of the applicant, the subject of his or her presentation and its relationship to the agenda; the amount of time requested; the individual's qualifications to speak on the subject matter; and shall include a justifying statement as to why a written presentation would not suffice. The Chairman reserves the right to decide to what extent public oral presentation will be permitted at the meeting. Oral presentations will be limited to statements of facts and views and shall not include any questions of Commission members or other participants unless these questions have been specifically approved by the Chairman.

Minutes of the meeting, working papers, and other documents prepared for the meeting will be available for public inspection five working days after the conference at the Commission's headquarters located at 1522 K Street, NW, Suite 300, Washington, D.C.

Signed at Washington, D.C., this 16th day of November 1978.

ISABEL V. SAWHILL,
Director, National Commission for Manpower Policy.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

NATIONAL ENDOWMENT FOR THE HUMANITIES; HUMANITIES PANEL

Meeting

NOVEMBER 16, 1978.

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, as amended), notice is hereby given that the following meetings of the Humanities Panel will be held at 806 15th Street NW., Washington, D.C. 20506:

1. Date: December 14 and 15, 1978. Time: 9 a.m. to 5:30 p.m. Room: 807. Purpose: To review higher education projects applications submitted to the National Endowment for the Humanities for projects beginning after April 1, 1979.

2. Date: December 15, 1978. Time: 9 a.m. to 5:30 p.m. Room: First Floor Conference Room. Purpose: To review summer stipend applications in German, Slavic, and classics submitted to the National Endowment for the Humanities for projects beginning after January 1, 1979.

3. Date: December 18, 1978. Time: 9 a.m. to 5:30 p.m. Room: 1130. Purpose: To review youth projects applications submitted to the National Endowment for the Humanities for projects beginning after May 1, 1979.

4. Date: December 20, 1978. Time: 9 a.m. to 5:30 p.m. Room: 807. Purpose: To review summer stipend applications in music submitted to the National Endowment for the Humanities for projects beginning after January 1, 1979.

5. Date: December 20, 1978. Time: 9 a.m. to 5:30 p.m. Room: 301. Purpose: To review summer stipend applications in political science submitted to the National Endowment for the Humanities for projects beginning after January 1, 1979.

Because the proposed meetings will consider financial information and disclose information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's delegation of authority to close Advisory Committee meetings, dated January 15, 1978, I have determined that the meetings would fall within exemptions (4) and (6) of 5 U.S.C. 552b(c) and that it is essential to close these meetings to protect the free exchange of internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. Stephen J. McCleary, 806 15th Street NW., Washington, D.C. 20506, or call 202-724-0367.

STEPHEN J. MCCLEARY,
Advisory Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-348]

ALABAMA POWER CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued amendment No. 7 to facility operating license No. NPF-2 issued to the Alabama Power Co. (the licensee), which revised technical specifications for operation of the Joseph M. Farley Nuclear Plant Unit No. 1, located in Houston County, Ala. The amendment is effective as of its date of issuance.

This amendment clarifies the action requirements associated with reactor coolant leak detection systems, allows the reactor coolant pumps and residual heat removal pumps to be secured for up to 1 hour during decay heat removal operation, provides for an additional senior number on the Nuclear Operations Review Board, and includes minor editorial changes.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated April 26, 1978, (2) amendment No. 7 to license No. NPF-2, and (3) the Commission's related safety evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the G. S. Houston Memorial Library, 212 West Verdeshaw Street, Dothan, Ala. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 13th day of November 1978.

[Docket No. 50-10]

COMMONWEALTH EDISON CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulaory Commission (the Commission) has issued amendment No. 27 to facility operating license No. DPR-2, issued to the Commonwealth Edison Co. (the licensee), which amended the license for unit 1 of Dresden Nuclear Power Station (the facility) located in Grundy County, Ill. The amendment is effective as of its date of issuance.

This amendment modifies the license to permit low-power physics tests to be performed after the date established for the reactor shutdown to install ECCS modifications order by the Commission.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) and environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated September 11, 1978, (2) amendment No. 27 to license No. DPR-2, and (3) the Commission's related safety evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717, H Street NW., Washington, D.C., and at the Morris Public Library, 604 Liberty Street, Morris, Ill. 60451. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention; Director, Division of Operating Reactors.

Dated at Bethesda, Md, this 9th day of November 1978.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[Docket Nos. STN 50-498 OL, STN 50-499 OL]

HOUSTON LIGHTING & POWER CO. ET AL. (SOUTH TEXAS PROJECT, UNITS 1 AND 2)

Order Rescheduling Special Prehearing Conference

In our order dated October 23, 1978, and again in our order of November 1, 1978, we established December 12, 1978, as the date for a special prehearing conference to consider, inter alia, whether various petitions for intervention should be granted and a hearing held (see 43 FR 52069, Nov. 8, 1978). On November 3, 1978, the State of Texas filed a motion asking us to reconsider our orders setting such prehearing conference date. Shortly prior to that time (on November 1, 1978), we received an undated but apparently late-filed intervention petition from another petitioner. We are today filing a separate order with respect to that petition.

At our behest, the staff counsel canvassed the various parties and petitioners to determine whether a mutually satisfactory date for a perhearing conference could be agreed upon. The staff has now advised us that January 11, 1979, would be satisfactory to all the participants.

Accordingly, for good cause shown, the special prehearing conference originally scheduled for December 12, 1978, is hereby rescheduled for Thursday, January 11, 1979, beginning at 9:30 a.m., local time, in the Host International Hotel-Airport, 18700 John F. Kennedy Boulevard, Houston, Tex. 77205.

In accordance with the provisions of 10 CFR 2.751a, and to the extent consistent with the nature of an operating license proceeding (see 10 CFR 2.760a), the conference will be held to:

(1) Consider all intervention petitions to allow the Board to make such preliminary or final determinations as to the parties to the proceeding, as may be appropriate;

(2) Permit identification of the key issues in the proceeding;

(3) Take any steps necessary for further identification of the issues; and

(4) Establish a schedule for further actions in the proceeding.

In accordance with the terms of 10 CFR 2.714(a)(3) and 2.714(b), those who have filed petitions for leave to intervene may amend or supplement their petitions by no later than December 26, 1978. We request the applicants and staff to file written responses to any such supplements, to be in our hands no later than Monday, January 8, 1979.

As permitted by 10 CFR 2.715(a), and to the extent that time is available prior to 5 p.m. on January 11, 1979, beyond that necessary to complete the formal business of the conference, the Board will hear oral limited appearance statements. It is our present intention to hear any such statements after the formal business matters have been concluded.

It is so ordered.

Dated at Bethesda, Md., this 17th day of November 1978.

The Atomic Safety and Licensing Board, designated to rule on petitions for leave to intervene.

CHARLES BECHHOEFER,
Chairman.

[Docket No. 50-333]

POWER AUTHORITY OF THE STATE OF NEW YORK

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued amendment No. 41 to facility operat-

ing license No. DPR-59, issued to Power Authority of the State of New York (the licensee), which revised technical specifications for operation of the James A. FitzPatrick Nuclear Power Plant (the facility) located in Oswego County, N.Y. The amendment is effective as of its date of issuance.

This amendment revises the technical specifications relating to surveillance requirements for discharge testing performed on the station batteries and on the low-pressure coolant injection system motor-operated valve power supplies.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment submitted by letter dated September 1, 1978, (2) amendment No. 41 to license No. DPR-59, and (3) the Commission's related safety evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Oswego County Office Building, 46 East Bridge Street, Oswego, N.Y. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 16th day of November 1978.

For the Nuclear Regulatory Commission.

THOMAS A. IPPOLITO,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued two guides in its regulatory guide series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.84, Revision 14, "Design and Fabrication Code Case Acceptability—ASME Section III Division 1" and Regulatory Guide 1.85, Revision 14, "Materials Code Case Acceptability—ASME Section III Division 1" list those code cases that are generally acceptable to the NRC staff for implementation in the licensing of light-water-cooled nuclear powerplants. These two guides were revised to update the listings of acceptable code cases and to reflect public comment and additional staff review.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of the latest revision of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Technical Information and Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

TOPICAL REPORT

Issuance and Availability

The Nuclear Regulatory Commission has published a compilation of information dealing with radioactivity in consumer products. Consumer products are considered to be those products, commodities, or materials that are available in the marketplace to the general public. This document, "Radioactivity in Consumer Products," is identified as NUREG/CP-0001.

Although not intended to be the proceedings of a conference, it is based on papers presented at a symposium, "Public Health Aspects of Radioactivity in Consumer Products," held on February 2-4, 1977, in Atlanta, Ga. The symposium was organized by the Office of Interdisciplinary Programs, Georgia Institute of Technology, and was cosponsored by the Bureau of Radiological Health, Food and Drug Administration; the Office of Radiation Programs, U.S. Environmental Protection Agency; and the Office of Standards Development, U.S. Nuclear Regulatory Commission.

NUREG/CP-0001 is available for public inspection at the Commission's Public Document Roon at 1717 H Street NW., Washington, D.C. Copies may be purchased at current rates from the National Technical Information Service, Springfield, Va. 22161. (Paper copy: $15.25; microfiche: $3)

REGIONAL STATE LIAISON OFFICERS' MEETING

Changed Meeting

The location of the region II (Atlanta, Ga.) State liaison officers' meeting, which will be held on November 30 from 11 a.m. to 5:30 p.m. and on December 1 from 8:30 to 12:15 p.m., has been changed to the Glenmar Rooms A and B, Omni International Hotel, Convention Center, One Omni International, Atlanta, Ga. The original

notice was published November 8, 1978 (43 FR 52070).

Questions regarding this meeting should be directed to Sue Weissberg, Office of State Programs at 301-492-7794.

Dated at Bethesda, Md., this 17th day of November 1978.

For the Nuclear Regulatory Commission.

ROBERT G. RYAN,
Director, Office of State Programs.

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 78-47]

RESPONSES TO SAFETY RECOMMENDATIONS

Receipt

The National Transportation Safety Board has recently received letters, summarized below, in response to safety recommendations issued following investigation of certain aviation and surface transportation accidents which occurred within the past several years.

Aviation

A-77-30.—The Federal Aviation Administration on November 3 supplemented its response of July 11 (43 FR 35565, Aug. 10, 1978) to this recommendation and A-77-31. These recommendations pertain to Enstrom helicopter accidents and incidents caused by material failure.

FAA now advises that its review of the Enstrom Maintenance/Flight Manuals has been completed. FAA believes that the overrunning clutch and drive belt inspection and maintenance procedures can be improved. Also, a caution against unnecessary throttle movement, during practice autorotations, should be added to the Enstrom Helicopter Flight Manual. Accordingly, FAA recommended to the manufacturer that these revisions be made.

On August 29 and 30 FAA reviewed the belt manufacturer's quality control system and found no discrepancies which would have an adverse effect on belt service life. FAA reports that Goodyear, the present manufacturer, has made several design changes since acquiring the design in 1972. In view of the fact that there has been a steady reduction in premature removal rate of drive belts, FAA plans no airworthiness directive action at ths time.

A-78-53 through A-78-55.—FAA's letter of November 9 responds to recommendations issued following investigation of the fatal accident involving a Columbia Pacific Airlines Beechcraft model 99 which attained an excessively steep climb immediately after takeoff on February 10, 1978, from Richland (Washington) Airport and crashed.

Recommendation A-78-53 asked FAA to issue an airworthiness directive applicable to all Beech 99, 99A, A99A, and B99 model aircraft to require an immediate one-time inspection of the horizontal stabilizer trim system to ascertain that all components of the system and its associated position-indicating and -warning circuits are operational within specified tolerances.

In response, FAA states:

> The fault analysis of the trim system shows that two electrical faults must occur before unwanted trim movement can occur. This meets the regulatory design requirement. In the event of a mechanical fault, such as a failed clutch, the airplane can be safely flown in any trim configuration at critical load conditions. NTSB's June 12 report of investigation of the flight characteristics of Beech model 99, serial No. U-126, verified that the airplane is controllable with full nose up trim at gross weight and maximum aft center of gravity loading.

FAA further reports that a review of the service records of 398 model 99 and models A100 and B100, which have the same trim system, did not reveal adverse service history. While FAA does not believe that airworthiness directive action is justified now, arrangements have been made with the FAA central region for the development of an item to be published in Advisory Circular 43-16, General Aviation Airworthiness Alerts. This information will emphasize the importance of proper inspection and maintenance of the horizontal stabilizer trim system. It will be circulated throughout the FAA, to all certificated repair stations, to all mechanics holding an inspection authorization, and to all air taxi certificate holders.

Recommendation A-78-54 asked FAA to require an inspection to insure that the primary and secondary mode of the horizontal stabilizer actuator are capable of deflecting the stabilizer under specified airloads, the exact instructions to be furnished by the Beech Aircraft Co. and the inspection to be made as soon as instructions are available and repeated at 2,000-hour intervals. FAA states that the stabilizer actuators are capable of deflecting the stabilizer under heavier airloads than can be encountered within the travel limits, and that the airplane can be safely flown with the trim in any position. Airworthiness directive action cannot be supported, according to FAA. However, the Beech Aircraft Co. informed FAA of plans to develop an inspection procedure to provide means for evaluating the clutch drive assembly under airload conditions.

Commenting on A-78-55, which asked FAA to change the minimum equipment list to make the out-of-trim warning system a mandatory requirement for flight, FAA reports that when the present stabilizer trim items were added to the minimum equipment list, consideration was given to making the out-of-trim warning system mandatory for takeoff. It was determined that an equal level of safety could be provided, without placing an undue burden on the operator, by requiring the pilot to visually check the stabilizer to determine that it is in the neutral position prior to takeoff and the stabilizer position indicator is operative. FAA said that the minimum equipment list for these aircraft permits flight with the out-of-trim aural warning indicator inoperative provided the alternate procedure of specified visual checks is accomplished prior to each takeoff. If the alternate procedure is used, the minimum equipment list also requires bringing the discrepancy to the attention of the flightcrew either by placarding or flight log sheet entry and requires further that the appropriate procedures be established by the operator and complied with, if flight is accomplished with the item inoperative. FAA does not believe that changing the minimum equipment list, on the assumption that the alternate procedures could be inadvertently omitted, would be justified. FAA plans no further action in response to this recommendation at this time.

A-78-59 through A-78-62.—FAA's letter of November 3 responds to recommendations issued following investigation of the accident which occurred on the night of July 27, 1976, at Paul Windle Airport, Greensburg, Kans. A Piper PA-34-200 landed on runway 17, continued past the end of the runway, struck the bank of a ditch, and came to rest in an open wheat field. Two passengers were killed, and the pilot and another passenger were seriously injured. Investigation revealed that low-intensity runway lights were installed only on the south 2,176 feet of runway 17/35, which is 2,580 feet long.

The recommendations asked FAA to: Review airport data program procedures to insure that instructions to airport managers/owners for annual solicitation of data are clearly and concisely stated and that data from the airport master record are compared in detail to that published in the National Ocean Survey (NOS) Airport/Facility Directory (A-78-59); examine the national flight data center (NFDC) data base to determine what airport data are not published in the directory, test those data against the publication criteria, and publish as ap-

propriate, and identify nonpublished data so that they are easily recognized as such by airport managers/owners when conducting annual reviews (A-78-60); in coordination with NOS and other appropriate agencies, establish symbology for sectional aeronautical chart use to indicate general limitations of airport lighting, with cross-referencing to the appropriate sources for details of the limitation (A-78-61); and establish the complete program of airport data verification (A-78-62).

In answer to A-78-59 and A-78-62, FAA reports that data collection forms and procedures in the airport data program are being revised by a regional airports programs working group. After agency and industry comments are finalized and recoordinated, implementation may be expected during 1979. When issued, the instruction will be concise and clearly stated to provide a significant improvement in the accurate and timely collection, verification, and dissemination of data on the Nation's public and private-use airports.

Concerning A-78-60, FAA says NFDC is recommending that the office of airport programs identify on the airport master report, data that will be published either in the Airport/Facility Directory or on aeronautical charts, implementation to be no later than December 31, 1979. In response to A-78-61, FAA states: "It is not desirable to add any symbols or further complicate the existing symbology on sectional charts because it may result in confusion and an increase in the already critical chart clutter. Very little detailed information could be included, even if new symbols were employed." However, FAA reports that a note will be added to the legend of all sectional charts explaining that usable airport runway length may be less than the physical length shown on the chart; availability of runway lights does not necessarily mean the lighted runway is the longest runway, or that it is lighted full length. FAA states: "The note will include a recommendation for pilots to consult the Airport/Facility Directory and Notices to Airmen, and/or to call the nearest flight service station or airport manager for more detailed and up-to-date information, as many unexpected conditions may exist that cannot be included on this chart."

A-78-75.—Letter of November 1 from the American Association of Airport Executives is in response to the recommendation issued October 16 (43 FR 50063, Oct. 26, 1978) asking the association to advise member airport operators of the importance of preserving and documenting the location of accident debris in accordance with the provisions of 49 CFR 830.10 before debris is removed and before runways and taxiways are swept clean.

The association indicates its intention to comply and states that its November 1 newsletter to the membership—which would include airport management at all large and medium hubs, all but two of the small hubs, and the majority of the nonhub airports—will relay the Safety Board's recommendation.

Highway

H-78-10.—Letter of November 3 from the National Highway Traffic Safety Administration responds to the Safety Board's August 23 letter commenting on NHTSA's initial response forwarded June 8 (see FR 29197, July 6, 1978). The recommendation resulted from investigation of the tractor-semitrailer rear end collision with a school bus near Rustberg, Va., March 8, 1977, which killed 3 of the 33 occupants of the school bus and injured 25 others. The Safety Board recommended that NHTSA modify Federal Motor Vehicle Safety Standard No. 217 to provide for additional emergency exit points to facilitate escape from and access to schoolbuses regardless of the vehicle's attitude following a collision or overturn, such exits to be in addition to the current options under standard 217.

The Safety Board's August 23 letter expanded on the discussion of additional emergency access points for school buses as outlined in H-78-10. The issue of escape-evacuation-rescue as the Board sees it is not a part of crash-avoidance or even of crashworthiness; it is singular in that it involves not initial injury prevention, but prevention of secondary injury after the emergency situation has stabilized. In the Rustberg accident, all required access points were blocked or unusable, and without the nonrequired "pop out" windshield, rescue work might have endangered the victims further. It is the Board's opinion, based on observance of 11 catastrophic schoolbus accidents, that these vehicles need extensive emergency exit requirements to safely transport children. The Board suggested that NHTSA sponsor a study to gather data from past records to further define the problem rather than wait for the situation to come up again.

NHTSA's November 3 response cites seven accidents, the reports of which NHTSA states have again been reviewed in detail with respect to improvements that might have been made in the rescue operations if other emergency exits, such as roof hatches, had been available. The study of these cases does not support a case for roof hatches or other emergency exits, NHTSA states, but does show that push-out windshields, which are an industry standard in school buses, are a very effective escape medium in event of a crash. They have been an industry voluntary standard since 1950, and the most important consideration in comparison is the familiarity that buyers, operators, rescue teams, police department staffs and others have with the design.

Further, NHTSA notes that the States of Washington and Oregon required roof hatches on school buses about 15 years ago; the hatches were never used, consequently the hardware was frozen with rust. The rule was subsequently abandoned. NHTSA also cites the experience of Greyhound in equipping some PD4100 coaches with escape hatches in the front lower level roof of the vehicle. The flexibility of the coach body prevented a tight seal and these hatches were frequent leakers in inclement weather. Since not a single hatch had been used as an escape medium, it was decided to decommission them. NHTSA notes that New York State mandated roof hatches in all State school buses purchased in 1977 and later. School transportation authorities advise that they have no record of a roof hatch being used in an emergency. Also, in order to reduce vandalism or thievery all of the roof hatches can be opened from inside the coach only.

In summary, NHTSA states:

> The space left by a pushed-out windshield provides the easiest and safest rescue route in an emergency. The past experience with roof hatches has indicated that the devices are not reliable and have many disadvantages. They tend to rust shut and warpage of the thin roof panels and weak bus body structure binds the hatches so that they are inoperable. The hatches must be opened from the inside which becomes a very difficult job for grade school children. In a new vehicle it is almost impossible to have the roof hatches leak proof. It makes sense that a roof hatch will be most usable when the bus is laying on its side, but even in this case, experience has shown that the windshield route is more accessible, more convenient and preferable to the roof hatch design.

NHTSA's November 3 letter does not address a subsequent Safety Board letter of October 25 enclosing a list of 10 accident investigations and one special study, each of which discussed accidents involving school buses. Copies of each of these reports were supplied to NHTSA staff personnel. The Board said on October 25 that it did not intend to imply in its August 23 letter that escape and emergency exiting were issues in each of these reports or investigations, but only that as more of these accidents are observed, the potential for entrapment due to the lack of sufficient emergency exits becomes more obvious. The Board again suggests a study to determine the extent of the entrapment problem and of the delays in evacuation or escape due to limited emergency exits.

Marine

M-78-35 through M-78-44.—Letter of October 31 from the U.S. Coast Guard responds to recommendations resulting from investigation of the fire and explosion which occurred on April 9, 1974, as the M/T *Elias* was discharging a cargo of crude oil at the Atlantic Richfield Co. Fort Mifflin Terminal on the Delaware River at Philadelphia, Pa. The ship, of Greek registry, sank at its berth; five crewmembers and three visitors were killed.

Recommendation M-78-35 asked Coast Guard to implement communications practices to insure that pilots, ship operating agents, terminal operators, and port firefighting authorities are informed of potentially hazardous ship movements. Coast Guard reports that it is modifying its regulations to obtain more relevant information concerning vessel movements, particularly vessels which carry certain dangerous cargoes and those vessels which experience hazardous conditions. Last April 13 Coast Guard published a notice of proposed rulemaking concerning Notification of Tank Vessel Ownership Information (43 FR 15586). Subsequently, on June 15, Coast Guard published a proposal concerning Notification Requirements for Vessels Arrivals, Departures, Hazardous Conditions, and Certain Dangerous Cargoes (43 FR 25958). Final regulations will be published after comments are analyzed. Coast Guard states that decisions in which information should be passed by the Coast Guard to others in port areas are best determined by each individual Captain of the Port because of the great differences among port areas and port constituencies.

Recommendation M-78-36 asked Coast Guard to improve the promptness and effectiveness of boarding programs and special investigative procedures on tank vessels and review the adequacy of checklists to aid in the detection of potentially hazardous shipboard conditions. In response, Coast Guard says that the promptness and effectiveness of Coast Guard boardings will be enhanced by the notification proposals discussed in answer to M-78-35. In April 1978 Coast Guard strengthened its vessel boarding procedures by issuing a policy directive to its field commands requiring certain boarding activities to insure that previously required permanent repairs have been made. This policy also directs the denial of entry, the establishment of operating requirements, or the detention of a vessel when permanent repairs have not been satisfactorily completed and the vessel constitutes a hazard to persons, property, or the port. The presently used boarding checklist and locally developed supplements are being reviewed and a standard comprehensive form is being developed.

Recommendation M-78-37 asked Coast Guard, in the implementation of the Marine Safety Information System (MSIS) and Port Safety Reporting System (PSRS), to incorporate information on ship safety deficiencies obtained from foreign inspection sources and from local activities responsible for ship operations, to insure effective control of such ships. Coast Guard notes that PSRS has been superseded by MSIS and that the use of MSIS by Coast Guard Captains of the Port is a primary factor in determining which vessels are boarded by the limited personnel resources available to each Captain of the Port. Each Captain of the Port provides input into MSIS concerning boarding activities detailing the results of such activities and the enforcement action taken as a result of discrepancies discovered. Inclusion of information in MSIS from sources outside the Coast Guard depends upon the willingness of those sources to provide such information and the reliability of it. Coast Guard says that reliable foreign inspection information (often proprietary in nature) has proven difficult to obtain. However, the MSIS data base is being expanded to include casualty data from Lloyd's and from Coast Guard search and rescue reports.

Coast Guard states that it has published in 1978 two advance notices of proposed rulemaking concerning waterfront facilities which handle hazardous materials—this in response to recommendation M-78-38 which called for a plan review program relative to construction of new port terminals that evaluates the protection of firefighting systems, to minimize damage or loss resulting from explosion, and to insure availability and effectiveness for firefighting. On April 10 Coast Guard published (43 FR 15108) an advance proposal concerning all waterfront facilities which handle hazardous materials, and on August 3 Coast Guard published (43 FR 34362) an advance proposal concerning waterfront liquefied natural gas facilities. After analyzing comments, Coast Guard will publish a series of notices of proposed rulemaking on safety and pollution prevention at waterfront facilities and on appropriate fire protection requirements.

In response to M-78-39, which asked Coast Guard to study the positioning of shipborne gangways and shore-placed brows to determine ways to provide for rapid personnel escape from vessels during emergencies, Coast Guard says this proposal is being studied and will be included in future rulemaking under Docket No. 75-101.

Concerning recommendation M-78-40, which called for regulations to control visitor movement through terminals and to restrict their boarding of tankers that are not gas-free or inerted, Coast Guard says that insofar as it relates to visitor movement through marine terminals, this proposal will be considered by Coast Guard's Waterfront Facilities Task Force and addressed in future rulemaking. Concerning restricting visitors from boarding tankers that are not gas-free or inerted, Coast Guard considers that present 46 CFR 35.30-1 is adequate and precludes the unauthorized boarding of tank vessels. Any person visiting a tank vessel is under the direct supervision and responsibility of the vessel's master, other ships officer, or crewmember. Further, there is no evidence to support a conclusion that the presence of visitors aboard *Elias* was a causal factor in this casualty, according to Coast Guard.

Coast Guard has initiated action to establish a research project looking into means to escape from tankships under all terminal conditions, as recommended in M-78-41.

Recommendation M-78-42 asked Coast Guard to modify regulations governing "designated waterfront facilities" to require reporting of casualties and accidents to the Coast Guard, conforming to those specified for deep water ports and artificial islands. In response, Coast Guard will soon publish a proposal concerning implementation of the waterfront facilities investigatory authority under the Ports and Waterways Safety Act (33 U.S.C. 1223). Such regulations will provide for required notifications to Coast Guard of certain casualties occurring on waterfront facilities; which ones are reportable to Coast Guard can be determined only after completion of the rulemaking procedures. However, Coast Guard states, since waterfront facilities are inherently different from deepwater ports and artificial islands and are regulated under different statutes, it is likely that the casualty reporting requirements will be different.

Recommendation M-78-43 asked Coast Guard to make public specific policy concerning the frequency of boarding, and the extent of examination to be made, of foreign tank vessels calling at American ports, to insure that such vessels meet U.S. safety and environmental protection regulations, as proposed in the President's message to Congress on March 17, 1977. Coast Guard reports that the foreign tank vessel examination program that annually examines each foreign tanker calling at U.S. ports is an expansion of a more limited boarding and examination program. Coast

V 4 3 / 2 2 7 NOV 24 78 V

Guard expanded the scope of the program in January 1977 with initial emphasis on the examination of cargo venting and handling systems and proper transfer procedures, and further expanded it in response to the March 17, 1977, Presidential initiatives. The program now includes an examination for compliance with all safety and pollution standards presently applicable to foreign-flag tankers under both domestic regulations and international agreement. Coast Guard attached to its response copies of Commandant Instruction 16711.4 and Commandant Notice 16616, both issued last February 16, providing guidance for examining all foreign-flag tank vessels. Coast Guard reports that these enclosures have been incorporated into Chapter 32 of its Marine Safety Manual.

Coast Guard notes that recommendation M-78-36 is also responsive to recommendation M-78-44, which called for an expeditious and thorough investigation of arriving tank vessels which might pose a threat to U.S. ports and waterways because of an onboard fire or casualty at safety zones before berthing is permitted in U.S. ports.

Pipeline

P-77-27 through P-77-33.—On October 20 Exxon Gas System, Inc., provided a followup to its July 31 response (43 FR 42829, September 21, 1978), presenting conclusions regarding its study of the modification of fire gate control systems at Stations 5, 7, and 8. The recommendations were issued following investigation of the failure on December 7, 1976, of a natural gas compressor, followed by explosion and burning, at an Exxon station near Robstown, Tex.

Exxon's July 31 letter details plans to eliminate a pilot valve and a three-position gas operated valve by using an electrically activated solenoid valve in the fire gate control system. Exxon also concluded that a backup hydraulic system, electric motor driven or gas motor driven, should be provided. As a result of further review of the hydraulic systems operating at these locations, Exxon has developed an improved design.

In this new design, upon loss of the 24 volt signal at Stations 7 or 8, or the 100 psi instrument gas pressure at Station 5, gas pressure is vented off the pilot-operated block valves which supply gas for the gas-powered hydraulic pumps on each fire gate. The four-way spool valve used to switch hydraulic streams for raising and lowering the fire gate valves is kept padlocked into the position necessary for fire gate closing, making it unnecessary to make solenoid valve modifications similar to those now being made to the gas actuated fire gate valves at other stations. Exxon says that the two hydraulic pumps—one attached to each fire gate—will be piped in parallel so that if one pump should fail to operate, the other would close both fire gates. As before, the hydraulic pumps also have had levers for manual operation. for further backup, remotely operated nitrogen powered emergency shutdown stations will be installed, enabling application of pressurized nitrogen to the top of piston-type accumulators which will transfer this pressure to hydraulic fluid for closing the fire gates.

Exxon believes that these design modifications will insure emergency shutdown system reliability at Stations 5, 7, and 8 consistent with the Safety Board's recommendations, and there are plans to have fire gate system modifications at these three and the other seven stations complete by the end of the year.

Railroad

R-77-30 and 31.—On November 3, Burlington Northern (BN) responded to the Safety Board's October 4 letter replying to BN's June 23 response (43 FR 32477, July 27, 1978). The recommendations resulted from investigation into the November 26, 1978, derailment of a BN freight train at Belt, Mont.

The Safety Board's October 4 letter closed out recommendation R-77-30; the board was pleased to learn of BN's increased capabilities in rail flaw detection. Concerning recommendation R-77-31, the Safety Board noted that the Association of American Railroads (AAR) had taken exception to the board's method of determination of an overstressed rail. AAR's comments were reviewed by the board's technical staff and a response was forwarded to AAR on July 26, 1978. Several technical approaches were utilized in the determination of flexural stresses. the board requested that BN's engineering staff review the copy of the letter to AAR and provide a further response.

BN's November 3 letter indicates agreement with the statement made in the board's July 26 letter to AAR that the track support condition is critical in the analysis of rail stresses under load. Further, BN states:

> However, you err in equating the track support conditions contained in Professor Hay's broad discussion with conditions on branch lines with the conditions existent at Belt, Mont. Professor Hay says a track support modulus of 1,000 pounds per inch is not uncommon on branch lines, which may be true in some cases, but is certainly not true on the line at Belt. The rail at this location is well supported and we value the track support modulus at 2,000 pounds per inch, which is the value utilized by Mr. Way (vice president of AAR) in his appraisal of rail stresses. We agree with Mr. Way's calculations.

BN reiterates the objections made to R-77-31, as stated in its June 23 letter. BN states: "The restriction proposed by the NTSB on rail 100 pound and lighter is unreasonable, and further, the 90-pound rail at belt was not overstressed by either locomotives or cars. the NTSB must reconsider and revise the recommendations contained in R-77-31."

NOTE.—The above notice reports on recommendation responses recently received by the Safety Board. copies of these letters, as well as copies of related board correspondence, are available without charge. All requests must be in writing, identified by recommendation number and date of publication of this notice in the FEDERAL REGISTER. Address inquiries to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

MARGARET L. FISHER,
Federal Register Liaison Officer.

OFFICE OF MANAGEMENT AND BUDGET

List of Requests

CLEARANCE OF REPORTS

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on November 17, 1978 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes:

The name of the agency sponsoring the proposed collection of information;

The title of each request received;

The agency form number(s), if applicable;

The frequency with which the information is proposed to be collected;

An indication of who will be the respondents to the proposed collection;

The estimated number of responses;

The estimated burden in reporting hours; and

The name of the reviewer or reviewing division or office.

Requests for extension which appear to raise no significant issues are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, 202-395-4529, or from the reviewer listed.

SMALL BUSINESS ADMINISTRATION

[License No. 06-06-0205]

RICE COUNTRY CAPITAL, INC.

Issuance of License to Operate as a Small Business Investment Company

On August 21, 1978, a notice was published in the FEDERAL REGISTER (43 FR 37049) stating that an application has been filed by Rice Country Capital, Inc., 100 Commerce Street, Eagle Lake, Tex. 77434, with the Small Business Administration (SBA) pursuant to § 107.102 of the regulations governing small business investment companies (13 CFR 107.102 (1978)), for a license to operate as a small business investment company (SBIC).

Interested parties were given until the close of business September 5, 1978, to submit their written comments to SBA. No comments were received.

Notice is hereby given that, pursuant to section 301(c) of the Small Business Investment Act of 1958, as amended, and after having considered the application and all other information; SBA issued License No. 06/06-0205 on November 1, 1978, to Rice Country Capital, Inc. to operate as an SBIC.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: November 16, 1978.

DEPARTMENT OF STATE

Agency for International Development

JOINT COMMITTEE FOR AGRICULTURAL DEVELOPMENT OF THE BOARD FOR INTERNATIONAL FOOD AND AGRICULTURAL DEVELOPMENT

Meeting

Pursuant to Executive Order 11769 and the provisions of section 10(a)(2), Pub. L. 92-462, Federal Advisory Committee Act, notice is hereby given of the meeting of the Regional Work Groups of the Joint Committee on Agricultural Development (JCAD) of the Board for International Food and Agricultural Development (BIFAD) on December 11, 12, and 31, 1978.

The purpose of the meetings is to review the status of present and proposed title XII projects in the LAC, ASIA, AFRICA, and near East regions; to discuss plans for visits to the regions by persons from the BIFAD staff, Regional Work Groups and Bureau personnel; and a revised strategy for implementation of baseline studies.

The JCAD will meet on December 11, 12, and 21 in the form of Regional Work Groups (RWG's): For Asia on December 11, 1978, from 10 a.m. to 4 p.m. in room 206, Rosslyn Plaza Building, 1601 North Kent Street, Rosslyn, Va.; for Latin America on December 21, 1978, from 9:30 a.m. to 4 p.m. in room 2248, New State Department Building; for Africa on December 11, 1978, from 10 a.m. to 5 p.m. in room 2941, New State Department Building; and for the Near East on December 12, 1978, from 10 a.m. to 4 p.m. in room 6484, New State Department Building. All four meetings are open to the public. Any interested person may attend, may file written statements with the Committee before or after the meeting, or may present oral statements in accordance with procedures established by the Committee, and to the extent the time available for the meeting permits.

ment, the agency has concluded that "the 12 A figure." Finally, a recall impact protection zones which are the

[Public Notice CM-8/131]

Shipping Coordinating Committee: Subcommittee on Safety of Life at Sea

Meeting

The working group on life-saving appliances of the Subcommittee on Safety of Life at Sea, a subcommittee of the Shipping Coordinating Committee, will hold an open meeting at 10 a.m. on Tuesday, Wednesday and Thursday, December 12, 13, and 14, 1978 in room 8238 of the Department of Transportation, 400 Seventh Street SW., Washington, D.C. 20590.

The purpose of the meeting will be to:

December 12, 1978

Discuss the draft text of chapter III, SOLAS 1974 and consider U.S. response to the proposal.
Discuss future IMCO LSA work program.

December 13, 1978

Discuss chapter III liferaft carriage and construction regulations.

December 14, 1978

Discuss chapter III lifeboat carriage and construction regulations.

Requests for further information should be directed to Mr. N. W. Lemley, U.S. Coast Guard (G-MMT-3/83), 400 Seventh Street SW., Washington, D.C. 20590, telephone 202-426-1444.

The Chairman will entertain comments from the public as time permits.

JOHN LLOYD, III,
Deputy Director, Office of Maritime Affairs.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket No. RFA 511-78-3]

GUARANTEE OF OBLIGATIONS

Receipt of Application

Project: Notice is hereby given that the Chicago & North Western Transportation Co. ("Applicant"), 400 West Madison Street, Chicago, Ill. 60606, has filed an application with the Federal Railroad Administration ("FRA") under section 511 of the Railroad Revitalization and Regulatory Reform Act of 1976, 45 U.S.C. § 831, to obtain a guarantee by the United States of obligations or other evidence of indebtedness to be issued by the Applicant in the principal amount of $20,905,789. Although loan arrangements have not been completed at this time, Applicant proposes that the requested guarantee be secured by the indenture of mortgage and security agreement dated March 8, 1978, which constitutes a lien on substantially all of Applicant's property.

The proceeds of the loan are to be used by the Applicant to repair and rehabilitate 2,637 freight cars in types and quantities as follows:

Car type:	Number of cars
Box cars	400
Insulated boxcars	211
Open top hoppers	380
Covered hoppers (small and medium)	201
Covered hoppers (large)	604
Ore hoppers	255
Gondolas (53 ft)	461
Gondolas (65 ft)	98
Coil skid flatcars	7
Total	2,637

Justification for project: The Applicant states that the repair project will make freight cars available to meet the demand created by critical nationwide shortages of such cars. In addition, the Applicant states that the project will reduce its dependence on foreign cars, thereby reducing net car hire costs.

Comments: Interested persons may submit written comments on the application to the Associate Administrator for Federal Assistance, Federal Railroad Administration, 400 Seventh Street SW., Washington, D.C. 20590, not later than the comment closing date shown below. Such submission shall indicate the docket number shown on this notice and state whether the commenter supports or opposes the application and the reasons therefor.

To the extent permitted by law, the application will be made available for inspection during normal business hours in room 5415 at the above address of the FRA in accordance with the regulations of the Office of the Secretary of Transportation set forth in part 7 of title 49 of the Code of Federal Regulations.

The comments will be taken into consideration by the FRA in evaluating the application. However, formal acknowledgement of the comments will not be provided.

The FRA has not approved or disapproved this application, nor has it passed upon the accuracy or adequacy of the information contained therein.

(Sec. 511 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Pub. L. 94-210), as amended.)

Dated: November 17, 1978.

Comment closing date: December 26, 1978.

CHARLES SWINBURN,
Associate Administrator, for Federal Assistance, Federal Railroad Administration.

National Highway Traffic Safety Administration

[Docket 75-29; Notice 4]

MOTORIZED BICYCLES

Operational Safety; Comment Closing Date

AGENCY: National Highway Traffic Safety Administration, Department of Transportation.

ACTION: Extension of comment closing date.

SUMMARY: This notice extends the date by which comments concerning propose agency recommendations relating to the operational safety of motorized bicycles (mopeds) should be received.

ADDRESS: Comments should refer to the docket number and be submitted to Room 5108, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Mr. Lewis Buchanan, Driver and Pedestrian Safety Division, Traffic safety programs, National Highway Traffic Safety Administration, Washington, D.C. 20590, 202-426-2180.

On October 12, 1978, the National Highway Traffic Safety Administration published in the FEDERAL REGISTER (43 FR 47040) proposed agency recommendations relating to the operational safety of motorized bicycles (mopeds). The agency requested public comment on these recommendations. To allow for additional public comment, the agency has concluded that the comment closing date should be extended 60 days. The new comment closing date is January 12, 1979.

The principal author of this notice was Frederic W. Schwartz, Jr. of the office of Chief Counsel.

(Pub. L. 89-564, 80 Stat. 731; 23 U.S.C. 401 et seq., delegations at 49 CFR 1.50 and 49 CFR 501.8 (d).)

Issued: November 16, 1978.

[4910-59-M]

[Docket No. IP78-11; Notice 1]

PACCAR, INC.

Receipt of Petition for Determination of Inconsequential Noncompliance

Paccar Inc. of Bellevue, Wash., has petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 et seq.) for an apparent noncompliance with 49 CFR 571.121 Motor Vehicle Safety Standard No. 121, Air Brake Systems. The basis of the petition is that the noncompliance is inconsequential as it relates to motor vehicle safety.

This notice of receipt of a petition is published under section 157 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1417) and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Paragraph S5.1.2.1 of standard No. 121 requires the combined volume of all service reservoirs (from which air is delivered to the brake chambers) and supply reservoirs to be "at least 12 times the combined volume of all service brake chambers at maximum travel of the piston or diaphragms." Paccar's Kenworth Truck Division has manufactured approximately 2,000 model W900 and C500 vehicles in which the air reservoir volume is only 11.82 times the total brake actuation chamber volume, or 1.5 percent less than the minimum required by the standard. Paccar argues that the noncompliance is inconsequential because it "has no effect on the brake performance of the vehicles," and that there has been "no case where insufficient air reservoir capacity has been an issue in the performance." It also argues that "neither NHTSA nor any other agency has presented evidence to substantiate that 12 times total chamber volume is the 'correct' or minimum volume for airbrake service reservoirs." If brake hose would be included in total system volume "the total volume would reach the 12.0 figure." Finally, a recall would require Kenworth to add an additional reservoir to each truck with "no improvement of the performance or safety of the vehicle." NHTSA's investigative file in this matter is CIR 1886.

Interested persons are invited to submit written data, views, and arguments on the petition of Paccar Inc. described above. Comments should refer to the docket number and be submitted to Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street SW., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the cose of business on the comment closing date indicated below will be considered. The application and supporting materials and all comments received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice will be published in the FEDERAL REGISTER pursuant to the authority indicated below.

Comment closing date: December 26, 1978.

(Sec. 102, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on November 15, 1978.

MICHAEL M. FINKELSTEIN,
Associate Administrator for Rulemaking.

[FR Doc. 78-32711 Filed 11-22-78; 8:45 am]

[4910-59-M]

[Docket No. IP78-10; Notice 1]

PINETREE SERVICE CORP.

Receipt of Petition for Determination of Inconsequential Noncompliance

Pinetree Service Corp. of Long Beach, Calif., has petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 et seq.) for an apparent noncompliance with 49 CFR 571.222 Motor Vehicle Safety Standard No. 222, School Bus Passenger Seating and Crash Protection. The basis of the petition is that the noncompliance is inconsequential as it relates to motor vehicle safety.

This notice of receipt of a petition is published under section 157 of the Act (15 U.S.C. 1417) and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Pinetree is an alterer of motor vehicles, modifying vans, produced by Dodge Division of Chrysler Corp., to schoolbuses. Paragraph S5.3.1.1 of Standard No. 222 establishes head impact protection zones which are the spaces in front of each schoolbus passenger seat that are not occupied by bus sidewall, window, or door structures, and which, in relation to that seat and its seating reference point, are enclosed by certain specified planes. One of these horizontal planes is 40 inches above the seating reference point. On 60 vehicles converted by Pinetree the planes measure only 34 inches (outboard) and 36 inches (inboard) above the reference point. The effect is that impact absorbant padding would have to be added to correct the noncompliance.

Pinetree argues that the noncompliance is inconsequential because it operates the buses itself under contract with school districts. All buses are equipped with seatbelts, there are signs posted in the buses requiring all passengers and the driver to use seatbelts, and company rules and contract require the belts to be used while the vehicles are in motion. The petitioner believes "the use of seatbelts modifies this impact zone providing they are used and enforced." The agency's investigative file in this matter is CIR 1959.

Interested persons are invited to submit written data, views, and arguments on the petition of Pinetree Service Corp. described above. Comments should refer to the docket number and be submitted to Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street SW., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials and all comments received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice will be published in the FEDERAL REGISTER pursuant to the authority indicated below.

Comment closing date: December 26, 1978.

(Sec. 102, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on November 15, 1978.

MICHAEL M. FINKELSTEIN,
Associate Administrator for Rulemaking.

On page 47341 in the third column the twelfth entry under "furnishings" now reading "361.209 (a)" should have read "361.20(a)".

[4810-22-M]

DEPARTMENT OF THE TREASURY

Customs Service

CERTAIN FOOTWEAR FROM INDIA

Preliminary Countervailing Duty Determination

AGENCY: U.S. Customs Service, Treasury Department.

ACTION: Preliminary countervailing duty determination.

SUMMARY: This notice is to inform the public that a countervailing duty investigation has resulted in a preliminary determination that the Government of India has not given benefits which are considered to be bounties or grants on the manufacture or exportation of certain footwear because the net amount of such benefits are deemed legally de minimis. A final determination will be made by March 10, 1979. Interested persons are invited to comment on this action.

EFFECTIVE DATE: November 24, 1978.

FOR FURTHER INFORMATION CONTACT:

Leon McNeill, U.S. Customs Service, Office of Operations, Duty Assessment Division, Technical Branch, 1301 Constitution Avenue NW., Washington, D.C. 20229, 202-566-5492.

SUPPLEMENTARY INFORMATION: On May 2, 1978, a "Notice of Receipt of Countervailing Duty Petition and Initiation of Investigation" was published in the FEDERAL REGISTER (43 FR 18807). The notice stated that a petition had been received alleging that payments or bestowals conferred by the Government of India upon the manufacture, production, or exportation of certain footwear constitute the payment or bestowal of a bounty or grant, within the meaning of section 303 of the Tariff Act of 1930, as amended (19 U.S.C. 1303) (referred to in this notice as "the Act").

For purposes of this notice "certain footwear" includes footwear classifiable in items 700.05 through 700.85 inclusive, of the Tariff Schedules of the United States Annotated (except items 700.28, 700.51, 700.52, 700.53, 700.54, 700.60 and 700.8510). It also includes other leather articles cut or partly manufactured into forms or shapes suitable for conversion into footwear, classifiable in item 791.25 of the Tariff Schedules of the United States Annotated (TSUSA). Imports of articles classified under TSUSA item 791.25 are eligible for duty-free entry under the generalized system of preferences. In the event that it becomes necessary to refer this matter to the U.S. International Trade Commission (ITC) pursuant to section 303(a)(2), Tariff Act of 1930, as amended (19 U.S.C. 1303(a)(2)), there is evidence on record concerning injury to, or likelihood of injury to, an industry in the United States.

On the basis of an investigation conducted pursuant to section 159.47(c) of the Customs Regulations (19 CFR 159.47(c)), it preliminarily has been determined that certain practices of the Government of India provided benefits to manufacturers, but that such benefits do not constitute bounties or grants within the meaning of section 303 of the Act. The benefits bestowed thereunder involve an aggregate amount which is considered to be de minimis.

These practices are:

(1) Export financing—The Government of India has provided information that short-term export financing is available through commercial banks at an interest rate of 11 percent for up to three months. Normal commercial rates in India vary between 12.5 and 16 percent for equivalent term notes. Although the Government has not supplied detailed information concerning export loans, it has stated that financing is available to small scale firms for domestic purposes on certain term loans at rates between 9.5 and 11 percent. Because, it argues, the preponderance of footwear production is accounted for by small scale firms, the financing terms available to firms on domestic shipments are generally equivalent to that granted on exports. The Government estimates that the maximum benefits that might accrue from preferential export financing would be limited to no more than 0.25 percent for any single firm, which is de minimis. However, before a final decision is made, more information will be required to determine the full extent of the benefits received under this program.

(2) Income tax deduction for overseas expenses—Indian footwear exporters are eligible to benefit from a program that provides for the deduction of overseas business expenses from taxable income. Under this program exporters are able to deduct up to 133 percent of certain limited business expenses from their taxable income. This program supersedes a program abolished April 1, 1978, which allowed a deduction of up to 150 percent of such expenses. Because the footwear industry in India basically consists of small-scale or cottage-type firms, few, if any, firms are believed to incur overseas business expenses. The Government estimates that the weighted-average benefit of this program for the industry in the aggregate is no more than 0.001 percent, which is clearly de minimis. More information will be required relative to this program before a final decision is made.

The following programs cited by petitioner do not on preliminary consideration constitute bounties or grants:

(1) Cash rebates upon export—Exporters of identified products are provided a cash rebate calculated as a percentage of the f.o.b. value of exported products. For products covered by this investigation the percentages vary from 5 to 15 percent. The Government of India claims that these rebates are compensation for indirect taxes paid on the exported product not otherwise refunded and, therefore, are not a "bounty" or "grant" under the law. The Government has provided information showing the incidence of indirect taxes directly related to the product category of leather sandals, which accounts for 85 percent of the exports to the United States of the merchandise under consideration. That category is entitled to "cash assistance" of 5 percent of the f.o.b. value of the product. The indirect taxes enumerated account for as much as 9.70 percent of the f.o.b. value of the product category "leather sandals". Thus, it seems clear that no excess rebate of allowable indirect taxes is provided. However, before a final determination is made, further information will be requested detailing the taxes intended to be covered by the rebate for the other categories of footwear included in this investigation.

(2) Import permits—Registered Indian exporters are granted permits to import goods used in the manufacture of their exported products up to a fixed percentage of the f.o.b. value of their exports. Although these import licenses appear to be negotiable, the Indian Government claims that they are not sold or transferred for value because the imports procured by the permits are necessary for the production of the exported goods. the Government has provided formal declarations from representative exporters indicating that the permits are used to obtain material which is otherwise banned from importation, and that if the permits are not needed by the exporters themselves, they are transferred to their "supporting" manufacturers without monetary gain. More information is needed to determine whether either the issuance or the so-called "transfer" of these permits results in some economic benefit to the exporter. The issuance of permits to import goods used to make merchandise for exports can have a trade-distorting effect. However, that does not render the practice a "bounty" or "grant" within the meaning of the Countervailing Duty Law. On the other hand, an ascertainable benefit may accrue if the permits are negotiated for value. The available information indicates that they are not. Before a final determination is made, more information will be requested to determine whether any quantifiable benefit is conferred by these permits.

(3) Customs duty drawback and rebate of excise taxes upon export—Petitioner has alleged that manufacturers receive excessive Customs-duty drawback and excise-tax rebates. It was also alleged that the rebates and drawback are allowed on equipment and machinery in addition to that on the exported product and on raw material imports. The Indian Government has shown that drawback and excise-tax rebates are limited to the amounts actually paid by manufacturers of these products and that no drawback or rebates are allowed on machinery or equipment. Nonexcessive Customs-duty drawback and excise-tax rebates upon export are not considered a bounty or grant by Treasury if they are limited to amounts actually paid on the exported product and raw materials incorporated into the exported product, as in this case.

(4) Export insurance—Petitioner alleges that export insurance provided by the Export Credit and Guarantee Corporation (ECGC), owned by the Indian Government, is at very low rates, implying that the corporation is subsidized by the Government. In fact, the insurance provided by the ECGC is limited to very specific export risks (both commercial and political) which are not covered by policies offered commercially. Also the annual report of the corporation shows that it is a profitmaking enterprise, with no apparent dependence upon Government funding. Given the fact that the ECGC is apparently able to cover its claims from operating income and, therefore, to be actuarily sound with no ongoing Government subsidization, this program does not constitute a bounty or grant.

In addition, a number of other programs were determined either not to be applicable to, or utilized by, the leather footwear industry in India. These programs include:

(1) Tax credit certificates—It was alleged that exporters were entitled to receive certificates equal to 15 percent of the export value of merchandise which could be used to offset income or business taxes owned. This program was proposed but never adopted by the Indian Government.

(2) Grants for export promotion—The Market Development Fund provides grants to exporters to cover a variety of trade promotion activities. The fund was not utilized by footwear exporters during the period investigated.

(3) Export financing through the Industrial Development Bank—These loans are limited to engineering goods and are therefore not applicable to manufacturers or exporters subject to this investigation.

(4) Location in the Kandla Free Trade Zone—Firms located in this area benefit from a number of import duty exemptions, foreign exchange concessions and other financial assistance from the Indian Government. There are no footwear exporters or producers in the Kandla Free Trade Zone.

(5) Reimbursement of shipping charges—The Government of India provides for the partial reimbursement of shipping charges on certain products shipped by air. However, inasmuch as virtually all Indian footwear products exported are shipped by sea, footwear exporters do not qualify for this program.

A final determination in this case is required on or before March 10, 1979.

Before a final determination is made consideration will be given to any relevant data, views or arguments submitted in writing with respect to this preliminary determination.

Submissions should be addressed to the Commissioner of Customs, 1301 Constitution Avenue NW., Washington, D.C. 20229, in time to be received by his office not later than December 26, 1978.

This preliminary determination is published pursuant to section 303(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1303(a)).

Pursuant to Reorganization Plan No. 26 of 1950 and Treasury Department Order 190, Revision 15, March 16, 1978, the provisions of Treasury Department Order No. 165, Revised, November 2, 1954 and § 159.47 of the Custom Regulations (19 CFR 159.47), insofar as they pertain to the issuance of a preliminary countervailing duty determination by the Commissioner of Customs, are hereby waived.

ROBERT H. MUNDHEIM,
General Counsel of the Treasury.

NOVEMBER 16, 1978.

APPLICATION FOR RECORDATION OF TRADE NAME

Fort Incorporated

Application has been filed pursuant to section 133.12, Customs Regulations (19 CFR 133.12), for recordation under section 42 of the Act of July 5, 1946, as amended (15 U.S.C. 1124), of the trade name FORT INCORPORATED used by Fort Incorporated, a corporation organized under the laws of the State of Rhode Island, located at 54 Taylor Drive (P.O. Box 4830), East Providence, Rhode Island 02916. The application states that the trade name is applied to jewelry, jewelry items souvenirs and novelties, manufactured in the United States.

The application states further that no foreign person, partnership, association or corporation is authorized to use the trade name sought to be recorded. Appropriate accompanying papers were submitted with the application.

Before final action is taken in the application, consideration will be given to any relevant data, views, or arguments submitted in writing by any person in opposition to the recordation of this trade name. Any such submission should be addressed to the Commissioner of Customs, Washington, D.C. 20229, in time to be received not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Notice of the action taken on the application for recordation of the trade name will be published in the FEDERAL REGISTER.

Dated: November 17, 1978.

DONALD W. LEWIS,
Acting Assistant Commissioner, Regulations and Rulings.

Internal Revenue Service

COMMISSIONER'S ADVISORY GROUP

Open Meeting

There will be a meeting of the Commissioner's Advisory Group on December 14 and 15, 1978, in room 3313 of the Internal Revenue Service Building. The building is located at 1111 Constitution Avenue NW., Washington, D.C. The meeting will begin at 10:00 a.m. on December 14 and 9:00 a.m. on December 15. The agenda will include the following topics:

THURSDAY, DECEMBER 14

Professional Standards of Practice
Income Tax Return Preparers Compliance with Regulations Problem Areas, and Assertion of Penalties
Suggestions for Assistance to Low Income Taxpayers
Discussion of Power of Attorney Form 2848
Disclosure of IRS Documents

FRIDAY, DECEMBER 15

ERISA: Reporting and Related Problems
Problems of an Experience with IRS Employment of Section 7805(b)
General Discussion

The meeting, which will be open to the public, will be in a room that accommodates approximately 50 people. After the Committee members finish discussing the items on the agenda, there may be time for statements by nonmembers. If you want to make a statement at the meeting, or if you would like the Committee to consider a written statement, please call or write to Lauralee A. Matthews, Assistant to the Commissioner, 1111 Constitution Avenue NW., Washington, D.C. 20224.

This document does not meet the criteria for significant regulations set forth in paragraph 8 of the proposed Treasury directive appearing in the FEDERAL REGISTER for Wednesday, May 24, 1978 (43 FR 22319).

FOR FURTHER INFORMATION CONTACT:

Lauralee A. Matthew, Assistant to the Commissioner, 202-566-4390 (not toll free).

JEROME KURTZ,
Commissioner.

INTERSTATE COMMERCE COMMISSION

[Decisions Volume No. 48]

DECISION—NOTICE

Decided: November 8, 1978.

The following applications are governed by special rule 247 of the Commission's rules of practice (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date notice of the application is published in the FEDERAL REGISTER. Failure to file a protest, within 30 days, will be considered as a waiver of opposition to the application. A protest under these rules should comply with rule 247(e)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding, (as specifically noted below), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. A protestant should include a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describe in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or upon applicant if no representative is named. If the protest includes a request for oral hearing, such request shall meet the requirements of section 247(e)(4) of the special rules and shall include the certification required in that section.

Section 247(f) provides, in part, that an applicant which does not intend timely to prosecute its application shall promptly request that it be dismissed, and that failure to prosecute an application under the procedures of the Commission will result in its dismissal.

Further processing steps will be by Commission notice, decision, or letter which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication.

Any authority granted may reflect administratively acceptable restrictive amendments to the service proposed below. Some of the applications may have been modified to conform to the Commission's policy of simplifying grants of operating authority

We find: With the exceptions of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each common carrier applicant has demonstrated that its proposed service is required by the public convenience and necessity, and that each contract carrier applicant qualifies as a contract carrier and its proposed contract carrier service will be consistent with the public interest and the national transportation policy. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of the Interstate Commerce Act and the Commission's regulations. This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In those proceedings containing a statement or note that dual operations are or may be involved we find, preliminarily and in the absence of the issue being raised by a protestant, that the proposed dual operations are consistent with the public interest and the national transportation policy subject to the right of the Commission which is hereby expressly reserved to impose such conditions as it finds necessary to insure that applicant's operations shall conform to the provisions of section 210 of the Interstate Commerce Act.

It is ordered: In the absence of legally sufficient protests, filed within 30 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decisions-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, such duplication shall not be construed as conferring more than a single operating right.

Applicants must comply with all specific conditions set forth within 90 days after the service of the notification of the effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied. By the Commission, Review Board No. 3, members Parker, Fortier, and Hill.

H. G. HOMME, Jr.,
Secretary.

MC 11207 (Sub-451F), filed September 15, 1978. Applicant: DEATON, INC., a Delaware corporation, 317 Avenue W, P.O. Box 938, Birmingham, AL 35201. Representative: Kim D. Mann, Suite 1010, 7101 Wisconsin Avenue, Washington, DC 20014. To operate as a *common carrier,* by motor vehicle, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the

Commission, commodities in bulk, and those requiring special equipment), serving the facilities of John Deere Co., at or near Conyers, GA, as an off-route point in connection with applicant's otherwise authorized regular-route operations. (Hearing site: Atlanta, GA or Washington, DC.)

MC 11207 (Sub-452F), filed September 15, 1978. Applicant: DEATON, INC., a Delaware corporation, 317 Avenue W, P.O. Box 938, Birmingham, AL 35201. Representative: Kim D. Mann, Suite 1010, 7101 Wisconsin Avenue, Washington, DC 20014. To operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Iron and steel articles,* (except commodities which because of size or weight require the use of special equipment), from the facilities of Georgetown Steel Corp., at Georgetown, SC, to points in AR, GA, KY, LA, MS, TN, and TX, (Hearing site: Columbia, SC or Washington, DC.)

MC 14252 (Sub-35F), filed August 28, 1978. Applicant: COMMERICAL LOVELACE MOTOR FREIGHT, INC., 3400 Refugee Road, Columbus, OH 43227. Representative: William C. Buckham (same address as applicant). To operate as a *common carrier,* by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household good as defined by the Commission, commodities in bulk, and those requiring special equipment), serving Connersville, IN, as on off-route point in connection with connection with applicant's otherwise authorized regular-operations. (Hearing site: Indianapolis, IN.)

MC 26396 (Sub-202F), filed September 21, 1978. Applicant: POPELKA TRUCKING CO., INC., a corporation, d.b.a. THE WAGGONERS, P.O. Box 990, Livingston, MT 59047. Representative: Bradford E. Kistler, P.O. Box 82028, Lincoln, NE 68501. To operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Wrought iron pipe,* from the facilities of Unarco-Leavitt, Division of Unarco Industries, Inc., at Chicago, Blue Island, and Evanston, IL, to points in CA, CO, IA, KS, MO, MT, NE, OR, OK, TX, UT, WA, and WY. (Hearing site: Chicago, IL.)

MC 32882 (Sub-100F), filed September 5, 1978. Applicant: MITCHELL BROS. TRUCK LINES, 3841 North Columbia Boulevard, Portland, OR 97217. Representative: Edward G. Rawle, 1229 North Blue Gum Avenue, Anaheim, CA 92806. To operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Fireplace logs,* (1) From Santa Fe Springs, CA, to points in AZ, CO, ID, MT, NM, NV, OR, TX, UT, WA, and WY, (2) from Salt Lake City, UT, to points in CA, CO, ID, MT, NV, OR, WA, and WY, and (3) from Laramie, WY, to points in AZ, CA, CO, ID, MT, NV, OR, UT, and WA. (Hearing site: Los Angeles, CA or Salt Lake City, UT.)

MC 52460 (Sub-223F), filed October 18, 1978. Applicant: ELLEX TRANSPORTATION, INC., 1420 West 35th Street, P.O. Box 9637, Tulsa, OK 74107. Representative: Dean Williamson, 280 National Foundation Life Building, Oklahoma City, OK 73112. To operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Charcoal briguets,* from Pachuta, MS, to points in AL, GA, LA, MS, NC, SC, and TN. (Hearing site: Dallas, TX.)

MC 54837 (Sub-6F), filed August 24, 1978. Applicant: QUINN DISTRIBUTING CO., d.b.a. QUINN TRANSFER CO., a corporation, Watertown, MN 55388. Representative: Samuel Rubenstein, 301 North Fifth Street, Minneapolis, MN 55403. To operate as a *common carrier,* by motor vehicle, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the facilities of Landscape Structures, Inc., at or near Delano, MN, as an off-route point in connection with applicant's otherwise authorized regular-route operations. (Hearing site: Minneapolis or St. Paul, MN.)

MC 55896 (Sub-91F), filed September 1, 1978. Applicant: R-W SERVICE SYSTEM, INC., 20225 Goddard Road, Taylor, MI 48180. Representative: George E. Batty (same address as applicant). To operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Automobile parts,* between Oshkosh, WI, on the one hand, and, on the other, St. Louis, MO, and points in IL, IN, MI, and OH, and those in PA on and west of U.S. Hwy 219. (Hearing site: Detroit, MI.)

MC 56244 (Sub-63F), filed August 22, 1978. Applicant: KUHN TRANSPORTATION CO., INC., P.O. Box 98, R.F.D. No. 2, Gardners, PA 17324. Representative: John M. Musselman, P.O. Box 1146, 410 North Third Street, Harrisburg, PA 17108. To operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Foodstuffs and materials, equipment, and supplies* used in the conduct of retail food businesses (except commodities in bulk), from Chicago, IL, and Columbus, OH, to Mechanicsburg, PA, restricted to the transportation of traffic originating at the named origins and destined to the named destination. (Hearing site: Harrisburg, PA or Washington, DC.)

MC 59367 (Sub-127F), filed September 15, 1978. Applicant: DECKER TRUCK LINE, INC., P.O. Box 915, Fort Dodge, IA 50501. Representative: William L. Fairbank, 1980 Financial Center, Des Moines, IA 50309. To operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: (1) *Frozen foodstuffs,* (except commodities in bulk, in tank vehicles), and (2) *inedible frozen meats and meat byproducts* (except commodities in bulk, in tank vehicles), from the facilities of Wiscold, Inc., at or near Beaver Dam and Milwaukee, WI, to points in CO, IL, IN, IA, KS, MI, MN, MO, NE, ND, and SD. (Hearing site: Milwaukee, WI or St. Paul, MN.)

MC 64932 (Sub-587F), filed August 31, 1978. Applicant: ROGERS CARTAGE CO., a corporation, 10735 South Cicero Avenue, Oak Lawn, IL 60453. Representative: Carl L. Steiner, 39 South LaSalle Street, Chicago, IL 60603. To operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Sulphur trioxide* (in bulk, in tank vehicles), from the facilities of E. I. duPont de Nemours & Co., at or near Columbia Park, OH, to Aisip, Chicago, and Lemont, IL, Denver, CO, East Chicago and Hammond, IN, El Dorado, AR, Geismar, LA, Houston, TX, Muskegon, MI, Newport, TN, Kansas City, MO, and Greenville and Mauldin, SC. (Hearing site: Chicago, IL.)

MC 69116 (Sub-204F), filed September 7, 1978. Applicant: SPECTOR INDUSTRIES, INC., d.b.a. SPECTOR FREIGHT SYSTEM, 1050 Kingery Hwy, Bensenville, IL 60106. Representative: Edward G. Bazelon, 39 South LaSalle Street, Chicago, IL 60603. To operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Composition board and sheet,* from the facilities of Champion International Corporation, at or near Oxford, MS, to points in IA, IL, IN, MI, MN, OH, and WI. (Hearing site: Chicago, IL.)

MC 72243 (Sub-59F), filed October 2, 1978. Applicant: THE AETNA FREIGHT LINES, INC., 2507 Youngstown Road SE., P.O. Box 350, Warren, OH 44482. Representative: Leroy Hallman, 4555 First National Bank Building, Dallas, TX 75202. To operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Iron and steel articles,* from Gadsden, AL, to points in AR, IN, IL, LA, MS, MO, MD, OH, OK, PA, NY, TX, VA, and WV. (Hearing site: Birmingham, AL, or Dallas, TX.)

(Hearing site: Great Falls, MT.)

NOTE.—The restriction contained in the grant of authority in this proceeding is phrased in accordance with the policy statement entitled notice to interested parties of new requirements concerning applications for operating authority to handle traffic to and from points in Canada published in the FEDERAL REGISTER on December 5, 1974, and supplemented on November 18, 1975. The Commission is presently considering whether the policy statement should be modified, and is in communication with appropriate Canadian officials regarding this issue. If the policy statement is changed, appropriate notice will appear in the FEDERAL REGISTER and the Commission will consider all restrictions or conditions which were imposed pursuant to the prior policy statement, regardless of when the condition or restriction was imposed, as being null and void and having no force or effect.

MC 123329 (Sub-43F), filed September 27, 1978. Applicant: H. M. TRIMBLE & SONS, LTD., P.O. Box 3500, Calgary, AB, Canada T2P 2P9. Representative: Ray F. Shand, 430 Judge Building, Salt Lake City, UT 84111. To operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in by retail variety stores, from Los Angeles, CA, to points in CO, ID, and UT, under continuing contract(s) with Ben Franklin Stores of Los Angeles, CA. (Hearing site: Salt Lake City, UT, or Los Angeles, CA.)

MC 145054 (Sub-3F), filed August 27, 1978. Applicant: COORS TRANSPORTATION CO., a corporation, 5101 York Street, Denver, CO 80216. Representative: Leslie R. Kehl, 1600 Lincoln Center Building, 1660 Lincoln Street, Denver, CO 80264. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in by grocery and food business houses, discount stores, and drug stores (except frozen foods and commodities in bulk), from the facilities of the Clorox Co., at Kansas City, MO, to points in CO, restricted to the transportation of traffic originating at the named origin facilities. (Hearing site: Kansas City, MO, or Denver, CO.)

NOTE.—Dual operations are involved in this proceeding.

MC 145094 (Sub-1F), filed August 28, 1978. Applicant: BOBBY KITCHENS, INC., P.O. Box 6161, Jackson, MS 39208. Representative: Fred W. Johnson, Jr., 1500 Deposit Guaranty Plaza, P.O. Box 22628, Jackson, MS 39205. To operate as a *contract carrier*, by motor vehicle, over irregular routes transporting: *Wood products* (except in bulk), from Anderson, CA, to Fort Smith, AR, Canton and Columbus, MS, Elkin and Lenoir, NC, and Galax, VA, under a continuing contract(s) with Wheatley Lumber Co., Inc., of New Albany, MS. (Hearing site: Jackson or Tupelo, MS.)

MC 145150 (Sub-4F), filed October 6, 1978. Applicant: HAYNES TRANSPORT CO., INC., P.O. Box 9, Rural Route 2, Salina, KS 67401. Representative: Clyde N. Christey, Kansas Credit Union Building, Suite 110L, 1010 Tyler, Topeka, KS 66612. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, in bulk, from the facilities of Cheveron Chemical Co., at or near Friend, KS, to points in CO, NE, OK, TX, and WY. (Hearing site: Kansas City, MO.)

NOTE.—(1) Operational feasibility may be in issue. (2) The person or persons who appear to be engaged in common control must either file an application under section 5(2) of the Interstate Commerce Act, or submit an affidavit indicating why such approval is unnecessary.

MC 145163 (Sub-3F), filed September 29, 1978. Applicant: DONALD MULDER d.b.a. 1735 MULDER TRUCKING Lincoln, NE 68504. Representative: Lavern R. Holdeman, 521 South 14th Street, P.O. Box 81849, Lincoln, NE 68501. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in or used by manufacturers and distributors of printed matter (except in bulk), between Lincoln, NE, and Council Bluffs, IA, on the one hand, and, on the other, points in the United States (except AK and HI), restricted to the transportation of traffic originating at or destined to Lincoln, NE, and Council Bluffs, IA. (Hearing site: Lincoln or Omaha, NE.)

NOTE.—Dual operations may be at issue in this proceeding.

MC 145303F, filed August 24, 1978. Applicant: RAILCO, INC., 13939 Southwest Edy Road, P.O. Box 69, Sherwood, OR 97140. Representatives: Glen Magnuson (same address as applicant). To operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Rail track and accessories for rail track*, and (2) *materials, equipment, and supplies* used in the installation and removal of rail track, between Portland, OR, on the one hand, and, on the other, points in the United States, including AK and HI, under a continuing contract with Pacific Railway Supply Co., of Portland, OR. (Hearing site: Portland, OR.)

MC 145357F, filed September 6, 1978. Applicant: WESTERN MARINE SUPPLY, INC., 801 South Holgate Street, P.O. 24504, Seattle, WA 98124. Representative: Jeremy Kahn, Suite 733 Investment Building, 1511 K Street NW., Washington, DC 20005. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Distilled spirits, wine, beer, and cigarettes*, (1) from ports of entry on the international boundary line between the United States and Canada, in WA, MT, and ID, to Blaine, WA, and Los Angeles, Burlingame, Wilmington, and San Francisco, CA, (2) from Los Angeles, Wilmington, San Francisco, and Burlingame, CA, to Blaine and Seattle, WA, Great Falls, Rooseville, and Piegan, MT, restricted in (1) above to the transportation of traffic originating at the Province of BC, Canada. Condition: Prior receipt from applicant of an affidavit setting forth its complementary Canadian authority or explaining why no such Canadian authority is necessary. (Hearing site: Seattle, WA.)

NOTE.—The restriction and conditions contained in the grant of authority in this proceeding are phrased in accordance with the policy statement entitled Notice to Interested Parties of New Requirements Concerning Applications for Operating Authority to Handle Traffic to and from points in Canada published in the FEDERAL REGISTER on December 5, 1974, and supplemented on November 18, 1975. The Commission is presently considering whether the policy statement should be modified, and is in communication with appropriate Canadian officials regarding this issue. If the policy statement is changed, appropriate notice will appear in the FEDERAL REGISTER and the Commission will consider all restrictions or conditions which were imposed pursuant to the prior policy statement, regardless of when the condition or restriction was imposed, as being null and void and having no force or effect.

MC 145366 (Sub-2F), filed September 15, 1978. Applicant: VENABLE TRUCKING CO. INC., Route 1 Box 313, Odenville, AL 35120. Representative: John W. Cooper, Suite 200, Woodward Building, 1927 1st Avenue North, Birmingham, AL 35203. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cold mix asphalt*, from the facilities of Ashland-Warren, Inc., at or near Birmingham, AL, to points in

GA, LA, MS, TN, and those in FL west of the Apalachicola River, and (2) *sand*, from points in TN, GA, MS, and those in FL west of the Apalachicola River, to points in Jefferson, Shelby, Calhoun, and Etowah Counties, AL. (Hearing site: Birmingham, AL.)

MC 145404F, filed August 15, 1978. Applicant: WELLS CARTAGE LIMITED, 726 Powell Street, Vancouver, BC, Canada V6A 1H6. Representative: Susan W. Carlson, 1215 Norton Building, Seattle, WA 98104. To operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *containers*, and (2) *general commodities*) except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, those requiring special equipment, and motor vehicles), between the port of entry on the international boundary line between the United States and Canada at or near Blaine, WA, on the one hand, and, on the other, Seattle, WA, restricted to the transportation of traffic (a) originating at or destined to points in the Province of BC, Canada (b) having an immediately prior or subsequent movement by water, and (3) under continuing contract(s) with (i) CP Ships, Ltd., of Montreal, PQ, Canada (ii) Dart Containerline Canada Ltd., of Montreal, PQ, Canada and (iii) Furness Interocean Corp., of San Francisco, CA. (Hearing site: Seattle, WA.)

NOTE.—Dual operations may be involved in this proceeding. The restrictions contained in the grant of authority in this proceeding are phrased in accordance with the policy statement entitled notice to interested parties of new requirements concerning applications for operating authority to handle traffic to and from points in Canada published in the FEDERAL REGISTER on December 5, 1974, and supplemented on November 18, 1975. The Commission is presently considering whether the policy statement should be modified, and is in communication with appropriate Canadian officials regarding this issue. If the policy statement is changed, appropriate notice will appear in the FEDERAL REGISTER and the Commission will consider all restrictions or conditions which were imposed pursuant to the prior policy statement, regardless of when the condition or restriction was imposed, as being null and void and having no force or effect.

MC 145420F, filed September 26, 1978. Applicant: ALBERT HULSE, JR., 59 Myrtle Street, Methuen, MA 01844. Representative: George A. McLaughlin, Jr., 44 School Street, Boston, MA 02108. To operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fuel oil*, between points in MA and NH, under a continuing contract with Automatic Heating Service, Inc., of Methuen, MA. (Hearing site: Boston, MA.)

MC 145470F, filed October 5, 1978. Applicant: ALL FREIGHT SYSTEMS, INC., 1026 South 10th Street, Kansas City, KS 66105. Representative: Donald J. Quinn, Suite 900, 1012 Baltimore, Kansas City, MO 64105. INTERSTATE COMMERCE COMMISSION

[Volume No. 124]

PETITIONS, APPLICATIONS, FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES), ALTERNATE ROUTE DEVIATIONS, AND INTRASTATE APPLICATIONS

NOVEMBER 15, 1978.

PETITIONS FOR MODIFICATION, INTERPRETATION OR REINSTATEMENT OF OPERATING RIGHTS AUTHORITY

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

All pleadings and documents must clearly specify the suffix (e.g. M1 F, M2 F) numbers where the docket is so identified in this notice.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this notice. Such protests shall comply with Special Rule 247(e) of the Commission's *General Rules of Practice* (49 CFR 1100.247)[1] and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

MC 116923 (Sub-6) (M2F) (notice of filing of petition to modify certificate), filed October 5, 1978. Petitioner: KRAMER TRUCKING CO., INC., 275 Trumbull Street, Elizabeth, NJ 07206. Representative: Robert B. Pepper, 168 Woodbridge Avenue, Highland Park, NJ 08904. Petitioner holds a motor *common carrier* certificate in MC 116923 (Sub-6) issued August 23, 1978, authorizing transportation, over irregular routes, of: *Water treatment units*, and *materials* and *supplies* used in the installation of water treatment units (except commodities in bulk), between points in the United States (except AK and HI). By the instant petition, petitioner seeks to modify the above commodity description to read: *Carbon*, and *water treatment units, incinerators, air pollution units*, and *carbon regenerators*, and *materials, equipment, and supplies* used in the installation and operation thereof (except commodities in bulk).

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION NOTICE

The following grants of operating rights authorities are republished by

[1]Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

Box 707, Troy, AL 36081. Representa- gent: Brookside Transport Ltd., a cor- ...such authority to provide all or part

V 4 3 / 2 2 7
NOV 24 1978

order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such pleading shall comply with Special Rule 247(e) of the Commission's *General Rules of Practice* (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

MC 2900 (Sub-316) (republication), filed October 31, 1977, published in the FEDERAL REGISTER issue of December 15, 1977, and republished this issue. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Road, P.O. Box 2408, Jacksonville, FL 32203. Representative: S. E. Somers, Jr. (same address as applicant). A Decision of the Commission, Review Board Number 2, decided September 7, 1978, and served November 1, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of: (1) *Knit pile fabric and padding*, from Delavan and Jefferson, WI, to points in the United States (except AK, WI, and HI); and (2) *equipment, materials, and supplies* used in the manufacture and distribution of knit pile fabric and padding, from points in the United States (except AK, WI, and HI), to Delavan and Jefferson, WI, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate applicant's actual grant of authority.

MC 48909 (Sub-6) (republication), filed October 28, 1977, published in the FEDERAL REGISTER issue of December 15, 1978, and republished this issue. Applicant: SEYMOUR TRANSFER LINES, INC., 800 East Factory Street, Seymour, WI 54165. Representative: Wayne W. Wilson, P.O. Box 8004, Madison, WI 53708. A Decision of the Commission, Review Board Number 2, decided September 11, 1978, and served November 3, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of: *Steamed bone meal* (except in bulk, in tank vehicles), from Reading, PA, to points in the United States in and west of OH, KY, MO, AR, and LA (except AK and HI), that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to modify the territorial description.

MC 123765 (Sub-12F) (republication), filed March 6, 1978, published in the FEDERAL REGISTER issue of April 20, 1978, and republished this issue. Applicant: BARRY TRANSFER & STORAGE CO., INC., 120 East National Avenue, Milwaukee, WI 53204. Representative: William C. Dineen, 710 North Plankinton Avenue, Milwaukee, WI 53203. A Decision of the Commission, Review Board Number 1, decided October 23, 1978, and served November 7, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *contract carrier*, by motor vehicle, over irregular routes, in the transportation of: (1) *Such commodities* as are dealt in by lawn and garden supply houses; and (2) *pet food*, from Milwaukee, WI, to points in IL bounded by a line beginning at the junction of U.S. Hwy 24 and the IL-IN State line and extending along U.S. Hwy 24 to its junction with U.S. Hwy 51, then along U.S. Hwy 51 to its junction with U.S. Hwy 52, then along U.S. Hwy 52 to its junction with IL Hwy 78, then along IL Hwy 78 to the IL-WI State line, then east along the IL-WI State line to the shore of Lake Michigan, then east along the shore of Lake Michigan to the IL-IN State line, and then along the IL-IN State line to the point of beginning, including points on the described lines, restricted to the transportation of traffic originating at the facilities of Loft-Kellogg Seed, Inc., at Milwaukee, WI, and destined to the indicated destinations, under a continuing contract or contracts with Loft-Kellogg Seed, Inc., of Milwaukee, WI, will be consistent with the public interest and the national transportation policy, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to broaden the commodity description, and to indicate the grant of contract carrier authority in lieu of common carrier authority.

MC 127042 (Sub-210F) (republication), filed February 27, 1978, published in the FEDERAL REGISTER issue of May 11, 1978, and republished this issue. Applicant: Hagen, Inc., P.O. Box 98—Leeds Station, Sioux City, IA 51108. Representative: Robert G. Tessar (same address as applicant). A Decision of the Commission, Review Board Number 3, decided October 17, 1978, and served November 2, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of: (1) *Insulation and insulation materials*, from Kenosha, WI, to points in MN, ND, and SD; and (2) *fertilizer, fertilizer ingredients, and ice melters* (except in bulk, in tank vehicles), from Kenosha, WI, to points in IL, IN, IA, MN, MO, ND, and SD, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to modify the commodity description in part (2) above; and delete Union Grove, WI, in part (2) above as an origin point.

MC 138882 (Sub-47F) (republication), filed March 1, 1978, published in the FEDERAL REGISTER issue of April 13, 1878, and republished this issue. Applicant: Wiley Sanders, Inc., P.O. Box 707, Troy, AL 36081. Representative: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934. A Decision of the Commission, Review Board Number 1, decided October 26, 1978, and served November 2, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of: *Floor, wall, and ceiling tile*, from the facilities of Summitville Tiles, Inc., at Summitville and Minerva, OH, to Birmingham and Montgomery, AL, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to modify the territorial description.

MC 142484 (Sub-1) (republication), filed January 28, 1977, published in the FEDERAL REGISTER issue of March 17, 1977, and republished this issue. Applicant: Stringfellow Transportation Co., Inc., 724 Third Avenue North, P.O. Box 1117, Birmingham, AL 35201. Representative: Ronald L. Stichweh, 903 Frank Nelson Building, Birmingham, AL 35203. A Decision of the Commission, Division 1, decided October 30, 1978, and served November 3, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of: *Forest products and lumber mill products*, (1) from points in AL, to points in FL, GA, IL, IN, KY, MI, MS, OH, and TN; (2) from points in GA, to points in AL, FL, IL, IN, KY, MI, MS, OH, and TN; (3) from points in LA, to points in AL, FL, GA, IL, IN, KY, MI, MS, OH, and TN; (4) from points in MS, to points in AL, FL, GA, IL, IN, KY, MI, OH, and TN; (5) from points in TN, to points in AL, FL, GA, IL, IN, KY, MI, MS, and OH; and (6) from Detroit, MI, to points in AL, FL, GA, MS, and TN, parts (1) through (6) under a continuing contract or contracts with Stringfellow Lumber Co., Inc., of Birmingham, AL, will be consistent with the public interest and the national transportation policy, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate applicant's actual grant of authority.

MC 144047 (Sub-1F) (republication), filed March 27, 1978, published in the FEDERAL REGISTER issue of June 8, 1978, and republished this issue. Applicant: Brookside Transport, Ltd., a corporation, P.O. Box 1809, Brooks, AB, Canada. Representative: Donald Grisbrook (same address as applicant). A Decision of the Commission, Review Board Number 3, decided October 16, 1978, and served October 31, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *contract carrier*, by motor vehicle, over irregular routes, in the transportation of: (1) *Green animal hides*, from the port of entry on the international boundary line between the United States and Canada, at or near Eastport, ID, to Spokane, WA, restricted to the transportation of traffic originating at Brooks, AB, Canada; and (2) *salt in bulk and scrap iron*, from Spokane, WA, to the port of entry on the international boundary line between the United States and Canada, at or near Eastport, ID, restricted to the transportation of traffic destined to Brooks, AB, Canada, in (1) and (2) under a continuing contract or contracts with Lakeside Farm Industries, Ltd., of Brooks, AB, Canada and Pacific Hide & Fur Corp. of Spokane, WA, will be consistent with the public interest and the national transportation, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to modify the commodity and territorial description; and add a restriction.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

NOTICE

The following applications are governed by Special Rule 247 of the Commission's *General Rules of Practice* (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under the rules should comply with Section 247(e)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use a such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally, protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. All pleadings and documents must clearly specify the "F" suffix where the docket is so identified in this notice. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(e)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission decision which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the Federal Register of a notice that the proceeding has been assigned for oral hearing.*

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MC 4405 (Sub-585F), filed November 3, 1978. Applicant: DEALERS TRANSIT, INC., P.O. Box 236, Tulsa, OK 74101. Representative: Alan Foss, 502 First National Bank Bldg., Fargo, ND 58102. Authority sought to operate as a *common carrier* by motor vehicles over irregular routes, transporting: (1) *Machinery, equipment, materials,* and *supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing storage, transmission, and distribution of natural gas and petroleum and their products and byproducts: (2) *machinery, materials, equipment,* and *supplies* used in, or in connection with the construction, operation, repair, servicing maintenance and dismantling of pipelines, including the stringing and picking up thereof; and (3) *earth drilling machinery,* and *equipment,* and *machinery, equipment materials,* and *supplies,* and *pipe* incidental to, used in, or in connection with (a) transportation, installation, removal, operation, repair, servicing, maintenance and dismantling of drilling ma-

33 at or near Newton, IL, then over IL 800 to Akron, OH, then over OH Hwy stringing and picking up thereof, and

V 43 / 227 NOV 24 1978

chinery and equipment, (b) the completion of holes or wells drilled (c) the production, storage, and transmission or commodities resulting from drilling operations at well or hole sites; and (d) the injection or removal of commodities into or from holes or wells, between those points in the United States in and west of ND, SD, NE, KS, OK, and TX (except AK and HI). (Hearing: November 28, 1978 (3 weeks), at 9:30 am local time, at Denver, CO in a hearing room location to be later designated.)

NOTE.—Common control may be involved.

MC 94201 (Sub-164F), filed September 11, 1978. Applicant: BOWMAN TRANSPORTATION, INC., P.O. Box 17744, Atlanta, GA 30316. Representative: Maurice F. Bishop, 601-09 Frank Nelson Building, Birmingham, AL 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment). Route 1: Between Chattanooga, TN, and Chicago, IL: (a) From Chattanooga over U.S. Hwy 41 (also over Interstate Hwy 24) to Nashville, TN, then over Alternate U.S. Hwy 41 to Hopkinsville, KY, then over U.S. Hwy to Chicago, and return over the same routes. (b) From Chattanooga over U.S. Hwy 41 (also over Interstate Hwy 24) to Nashville, TN, then over Alternate U.S. Hwy 41 to Hopkinsville, KY, then over U.S. Hwy 41 to junction Interstate Hwy 64 (also over U.S. Hwy 41 to junction U.S. Hwy 460), then over Interstate Hwy 64 (also over U.S. Hwy 460) to junction U.S. Hwy 51, then over U.S. 51, then over U.S. Hwy 51 to Bloomington, IL, then over U.S. Hwy 66 to Chicago, and return over the same routes. (c) From Chattanooga over U.S. Hwy 41 (also over Interstate Hwy 24) to Nashville, TN, then over Alternate U.S. Hwy 41 to Hopkinsville, KY, then over U.S. Hwy 41 to junction Interstate Hwy 64 (also over U.S. Hwy 41 to junction U.S. Hwy 460), then over Interstate Hwy 64 (also over U.S. Hwy 460) to junction Interstate Hwy 57, thence over Interstate Hwy 57 to Chicago, and return over the same route. Route 2: Between Chattanooga, TN, and Indianapolis, IN: From Chattanooga, TN, over U.S. Hwy 41 (also over Interstate Hwy 24) to Nashville, TN, thence over U.S. Hwy 31-W to junction U.S. Hwy 31, then over U.S. Hwy 31 to Indianapolis (also over Interstate Hwy 65) to Indianapolis, and return over the same route. Route 3: Between Chattanooga, TN, and Cincinnati, OH: From Chattanooga to Nashville, TN, as specified above, then over U.S. Hwy 31-W (also over Interstate Hwy 65) to Louisville, KY, then over Interstate Hwy 71 (also over U.S. Hwy 42) to Cincinnati, and return over the same route. Route 4: Between Chattanooga, TN, and Louisville, KY; (a) From Chattanooga to Louisville as specified above, and return over the same route. (b) From Chattanooga over U.S. Hwy 27 (also over Interstate Hwy 75) to Lexington, KY, then over U.S. Hwy 60 (also over Interstate Hwy 64) to Louisville, and return over the same route. (c) From Chattanooga over U.S. Hwy 27 to junction U.S. Hwy 150 at Stanford, KY, then over U.S. Hwy 150 to Danville, KY, then over U.S. Hwy 127 to juction Interstate Hwy 64, then over Interstate Hwy 64 to Louisville, and return over the same route. Route 5: Between Chattanooga, TN, and Cleveland, OH: From Chattanooga over U.S. Hwy 27 (also over Interstate Hwy 75) to Lexington, KY, then over U.S. Hwy 25 (also over Interstate Hwy 75) to Cincinnati, and return over the same route. Route 6: Between Jackson, TN, and Chicago, IL: (a) From Jackson over U.S. Hwy 45 to intersection U.S. Hwy 45E and 45W, approximately 6 miles southeast of Humbolt, TN, then over U.S. Hwy 45W to junction U.S. Hwy 51, thence over U.S. Hwy 51 to Bloomington, IL, then over U.S. Hwy 66 to Chicago, and return over the same route. (b) From Jackson over U.S. Hwy 45 to intersection U.S. Hwy 45E and 45W, approximately 6 miles southeast of Humbolt, TN, then over U.S. Hwy 45W to junction U.S. Hwy 51, then over U.S. Hwy 51 to Mendota, IL, then over U.S. Hwy 34 to Chicago, and return over the same route. Route 7: Between Jackson, TN, and Evansville, IN: From Jackson over U.S. Hwy 45 to intersection U.S. Hwy 45E and 45W, approximately 6 miles southeast of Humbolt, TN, then over U.S. Hwy 45E to junction U.S. Hwy 45, then over U.S. Hwy 45 to Junction U.S. Hwy 60, then over U.S. Hwy 60, at or near Paducah, KY, then over U.S. Hwy 60 to junction U.S. Hwy 41, at or near Evansville, IN, then over U.S. Hwy 41 to Evansville, and return over the same route. Route 8: Between Memphis, TN and Chicago, IL: (a) From Memphis over U.S. Hwy 51 to Bloomington, IL, then over U.S. Hwy 66 to Chicago, and return over the same route. (b) From Memphis over U.S. Hwy 51 to Mendota, IL, then over U.S. Hwy 34 to Chicago, and return over the same route. (c) From Memphis over Interstate Hwy 55 to Chicago, and return over the same route. (d) From Memphis over Interstate Hwy 55 to junction Interstate Hwy 57, at or near Sikeston, MO, then over Interstate Hwy 57 to Chicago, and return over the same route. Route 9: Between Memphis, TN and Indianapolis, IN: From Memphis over Interstate Hwy 55 to junction Interstate Hwy 57, at or near Sikeston, MO, then over Interstate Hwy 57 to junction Interstate Hwy 70, at or near Effingham, IL, then over Interstate Hwy 70 to Indianapolis, and return over the same route. Route 10: Between Knoxville, TN, and Chicago, IL: From Knoxville, over Interstate Hwy 75 to Lexington, KY, then over Interstate Hwy 64 to Louisville, KY, then over Interstate Hwy 65 to Chicago, and return over the same route. Route 11: Between Knoxville, TN, and Louisville, KY: From Knoxville over Interstate Hwy 75 to Lexington, KY, then via Interstate Hwy 64 to Louisville, and return over the same route. Route 12: Between Knoxville, TN, and Cleveland, OH: From Knoxville, over Interstate Hwy 75 to Cincinnati, OH, then via Interstate Hwy 71 to Cleveland, and return over the same route. Route 13: Between Bristol, TN, and Louisville, KY: From Bristol over U.S. Hwy 421 to Lexington, KY, then via Interstate Hwy 64 to Louisville, and return over the same route. Route 14: Between Bristol, TN, and Chicago, IL: From Bristol over U.S. Hwy 421 to Lexington, KY, then over Interstate Hwy 64 to Louisville, KY, then over Interstate Hwy 65 to Chicago, and return over the same route. Route 15: Between Bristol, TN, and Toledo, OH: From Bristol over U.S. Hwy 23 to Toledo, and return over the same route. Route 16: Between Bristol, TN, and Cleveland, OH: From Bristol over Interstate Hwy 81 to junction Interstate Hwy 77, at or near Wytheville, VA, then over Interstate Hwy 77 to Cleveland, and return over the same route. Route 17: Between Bristol, TN, and Cincinnati, OH: From Bristol over U.S. Hwy 23 to junction U.S. Hwy 52, at or near Portsmouth, WV, then via U.S. Hwy 52 to Cincinnati, and return over the same route. Route 18: Between Memphis, TN, and Bristol, TN: (a) From Memphis over Interstate Hwy 40 to junction Interstate Hwy 81, at or near Jefferson City, then Interstate Hwy 81 to Bristol, and return over the same route. (b) From Memphis over U.S. Hwy 64 to junction U.S. Hwy 411, near Ocoee, TN, then over U.S. Hwy 411 to junction U.S. Hwy 11E, near Johnson City, TN, then U.S. Hwy 11E to Bristol, and return over the same route. Route 19: Between Decatur, IL, and Indianapolis, IN: From Decatur over U.S. Hwy 36 to Indianapolis, and return over the same route. Route 20: Between Decatur, IL, and Chicago, IL: From Decatur over U.S. Hwy 51 to Mendota, IL, then over U.S. Hwy 34 to Chicago, and return over the same route. Route 21: Between Evansville, IN, and Decatur, IL: From Evansville over U.S. Hwy 460 to junction U.S. Hwy 45, at or near Crossville, IL, then over U.S. Hwy 45 to junction IL Hwy 130, at or near Grayville, IL, then over IL Hwy 130 to junction IL Hwy

33, at or near Newton, IL, then over IL Hwy 33 to junction IL Hwy 32, at or near Effingham, IL, then over IL Hwy 32 to junction IL Hwy 121, at or near Sullivan, IL, then over IL Hwy 121 to Decatur, and return over the same route. Route 22: Between Louisville, KY, and Decatur, IL: From Louisville, over U.S. Hwy 150 to junction U.S. Hwy 50, at or near Shoals, IN, then over U.S. Hwy 50 to junction IL Hwy 130, at or near Olney, IL, then over IL Hwy 130 to junction IL Hwy 33, at or near Newton, IL, thence over IL Hwy 33 to junction IL Hwy 32, at or near Effingham, IL, then over IL Hwy 32 to junction IL Hwy 121, at or near Sullivan, IL, then over IL Hwy 121 to Decatur, and return over the same route. Route 23: Between Fort Wayne, IN, and Chicago, IL: From Fort Wayne over U.S. Hwy 33 to South Bend, IN, then over IN Hwy 2 to junction U.S. Hwy 20 at or near Rolling Prairie, IN, thence over U.S. Hwy 20 to Chicago (also over IN Hwy 2 to juhction combined Interstate Hwys 80 and 90, at or near Rolling Prairie, IN, then over combined Interstate Hwys 80 and 90 to Chicago), and return over the same routes. Route 24: Between Indianapolis, IN, and Chicago, IL: From Indianapolis over Interstate Hwy 65 to Gary, IN, then over Interstate Hwy 94 to Chicago, and return over the same route. Route 25: Between Indianapolis, IN, and Fort Wayne, IN: From Indianapolis over Interstate Hwy 69 (also over IN Hwy 37) to Fort Wayne, and return over the same route. Route 26: Between Indianapolis, IN and junction U.S. Hwys 41 and 52 near Gravel Hill, IN: From Indianapolis over U.S. Hwy 52 to junction U.S. Hwy 41, near Gravel Hill, IN, and return over the same route. Route 27: Between South Bend, IN, and Indianapolis, IN: From South Bend over U.S. Hwy 31 to Indianapolis, and return over the same route. Route 28: Between Indianapolis, IN, and Cincinnati, OH: From Indianapolis over U.S. Hwy 52 (also over Interstate Hwy 74) to Cincinnati, and return over the same route. Route 29: Between Columbus, OH, and Indianapolis, IN: From Columbus over U.S. Hwy 40 (also over Interstate Hwy 70) to Indianapolis, and return over the same route. Route 30: Between Chicago, IL, and Cleveland, OH: From Chicago over combined Interstate Hwys 80 and 90 to junction Interstate Hwy 90, then over Interstate Hwy 90 to Cleveland, and return over the same route. Route 31: Between Cincinnati, OH, and Fort Wayne, IN: From Cincinnati over U.S. Hwy 27 to Fort Wayne, and return over the same route. Route 32: Between Cincinnati, OH, and Cleveland, OH: From Cincinnati over U.S. Hwy 22 to Washington Court House, OH, then over U.S. Hwy 62 to Canton, OH, then over OH Hwy 800 to Akron, OH, then over OH Hwy 8 to Cleveland, and return over the same route. Route 33: Between Cincinnati, OH and Toledo, OH: From Cincinnati over combined U.S. Hwy 25 and Interstate Hwy 75 to junction Interstate Hwy 75, then over Interstate Hwy 75 (also over U.S. Hwy 25) to Toledo, and return over the same route. Route 34: Between Columbus, OH, and Toledo, OH: From Columbus over U.S. Hwy 23 to Toledo, and return over the same route. Route 35: Between junction Interstate Hwys 76 and 71 approximately 13 miles south of Medina, OH and Youngstown, OH: From junction Interstate Hwys 76 and 71 over Interstate Hwy 76 to junction OH Hwy 18, then over OH Hwy 18 (also over Interstate Hwy 76) to Youngstown, and return over the same route. Service is authorized in the above routes to and from the following intermediate and off-route points: (a) points in TN; (b) points within 10 miles of Louisville, KY, including Louisville; (c) points in IN; (d) points in that part of IL on and bounded by a line beginning at the IL-IN State line and extending along U.S. Hwy 36 to Springfield, IL, then along IL Hwy 29 to Peoria, IL, then along IL Hwy 116 to Metamore, IL, then along IL Hwy 89 to junction U.S. Hwy 34, then along U.S. Hwy 34 to junction IL Hwy 31, then along IL Hwy 31 to unnumbered Hwy (Aurora Avenue), then along said unnumbered Hwy to junction U.S. Hwy 34, then along U.S. Hwy 34 to Chicago, IL, then along Lake Michigan to the IL-IN State line, and then along IL-IN State line to points of beginning; and (e) points in that part of OH on, west, and north of a line beginning at a point on the OH-PA State line, near Sharon, PA, and extending along U.S. Hwy 62 to Columbus, OH, then along U.S. Hwy 23 to Circleville, OH, and then along U.S. Hwy 22 to Cincinnati, OH. (Hearing site: Atlanta, GA or Washington, DC.)

MC 105984 (Sub-21F), filed October 30, 1978. Applicant: JOHN B. BARBOUR TRUCKING COMPANY, a Corporation, P.O. Box 577, Iowa Park, TX 76367. Applicant's representative: Bernard H. English, 6270 Firth Road, Fort Worth, TX 76116. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *machinery, equipment, materials and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipe lines, including the stringing and picking up thereof, and (2) *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, (a) between points in AZ, CO, ID, MT, NV, ND, SD, UT, and WY, and (b) between points in AZ, CO, ID, MT, NV, ND, SD, UT, and WY, on the one hand, and, on the other, points in TX, OK, KS, LA, and NM. (Hearing Site: Denver, CO, November 28, 1978).

MC 109326 (Sub-114F), filed June 16, 1978, and previously noticed in the FEDERAL REGISTER issues of August 22, 1978, and October 26, 1978, and republished as corrected this issue. Applicant: C & D TRANSPORATION CO., INC., P.O. Box 10506, New Orleans, LA 70121. Representative: William P. Jackson, Jr., 3426 N. Washington Blvd., P.O. Box 1240, Arlington, VA 22210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs, and such other commodities* as are dealt in by wholesale and retail chain and grocery houses, and in connection therewith *equipment, materials and supplies* used in the conduct of such business (except in bulk), between the facilities of Hudson Industries, Inc., at or near Brundidge and Troy, AL, on the one hand, and, on the other, points in the United States (except AK and HI). (Hearing site: Montgomery, AL.)

NOTE.—This republication conforms to applicant's request for authority.

MC 114552 (Sub-163F), filed June 6, 1978, and previously noticed in the FEDERAL REGISTER issues of August 10, 1978, and October 26, 1978, and republished as corrected this issue. Applicant: SENN TRUCKING COMPANY, a Corporation, P.O. Drawer 220, Newberry, SC 29108. Representative: William P. Jackson, Jr., 3426 N. Washington Blvd., P.O. Box 1240, Arlington, VA 22210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs, and such other commodities as are dealt in by wholesale and retail chain and grocery houses*, and in connection therewith *equipment, materials and supplies* used in the conduct of such business (except in bulk), between the facilities of Hudson Industries, Inc., at or near Brundidge and Troy, AL, on the one hand, and, on the other, points in the United

V 43 / 227 / NOV 24 1978

States (except AK and HI). (Hearing site: Montgomery, AL).

NOTE.—This republication conforms to applicant's request for authority.

MC 121060 (Sub-65F), filed June 7, 1978, and previously noticed in the FEDERAL REGISTER issues of July 20, 1978 and October 26, 1978, and republished as corrected this issue. Applicant: ARROW TRUCK LINES, INC., P.O. Box 1416, Birmingham, AL 35201. Representative: William P. Jackson, Jr., 3426 N. Washington Blvd., P.O. Box 1240, Arlington, VA 22210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs, and such other commodities as are dealt in by wholesale and retail chain and grocery houses*, and in connection therewith *equipment, materials and supplies* used in the conduct of such business (except in bulk), between the facilities of Hudson Industries, Inc., at or near Brundidge and Troy, AL, on the one hand, and, on the other, points in the United States (except AK and HI). (Hearing site: Montgomery, AL).

NOTE.—This republication conforms to applicant's request for authority.

MC 125433 (Sub-170F), filed November 7, 1978. Applicant: F-B TRUCK LINE COMPANY, a Corporation, 1945 South Redwood Road, Salt Lake City, UT 84104. Representative: John B. Anderson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting (1)(a) *machinery, equipment, materials, and supplies* used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of manufactured and natural gas and petroleum and their products and by-products, and (b) *machinery, equipment, materials, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines, including the stringing and picking up thereof, between points in AZ, CA, CO, ID, KS, NE, NV, NM, OK, OR, TX, UT, WA and SD; and between points in MT, ND, WY and SD, on the one hand, and, on the other, points in AZ, CA, CO, ID, KS, NE, NV, NM, OK, OR, TX, UT, WA and SD; and (2) *earth drilling machinery and equipment, and machinery equipment, materials, supplies and pipe* incidental to, used in, or in connection with, (a) the transportation, installation, removal, operation, repair, servicing, maintenance and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites; and (d) the injection or removal of commodities into or from holes or wells, between points in AZ, CA, CO, ID, KS, MT, NE, NV, NM, ND, OK, OR, SD, TX, UT, WA and WY. (Hearing: November 28, 1978 (3 weeks) at 9:30 a.m. local time, at Denver, CO, in a hearing room location to be later designated.)

NOTE.—Common control may be involved.

MC 135705 (Sub-11F), filed October 30, 1978. Applicant: MELROSE TRUCKING CO., INC., 6360 Raderville Route, Casper, WY 82601. Representative: Kim I. Melrose (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies*, used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission and distribution of natural gas and petroleum and their products and byproducts; and (2) *machinery, materials, equipment, and supplies*, used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, between points in AZ, CO, ID, MT, NM, ND, NV, UT and WY. (Hearing: November 28, 1978 (14 days), at 9:30 a.m. local time, at Denver, CO, in a hearing room to be later designated)

NOTE.—Applicant holds contract carrier authority in MC 140807 Sub 2, therefore dual operations may be involved.

MC 138882 (Sub-95F), filed June 6, 1978, and previously noticed in the FEDERAL REGISTER issues of August 10, 1978, and October 26, 1978, and republished as corrected this issue. Applicant: WILEY SANDERS, INC., P.O. Box 707, Troy, AL 36081, Representative: William P. Jackson, Jr., 3426 N. Washington Blvd., P.O. Box 1240, Arlington, VA 22210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs, and such other commodities* as are dealt in by wholesale and retail chain and grocery houses, and in connection therewith *equipment, materials and supplies* used in the conduct of such business (except in bulk), between the facilities of Hudson Industries, Inc., at or near Brundidge and Troy, AL, on the one hand, and, on the other, points in the United States (except AK and HI). (Hearing site: Montgomery, AL).

NOTE.—This republication conforms to applicant's request for authority.

MC 144557F, filed May 23, 1978, and previously noticed in the FEDERAL REGISTER issues of July 20, 1978, and October 26, 1978, and republished as corrected this issue. Applicant: HUDSON TRANSPORTATION, INC., P.O. Box 847, Troy, AL 36081. Representative: William P. Jackson, Jr., 3426 N. Washington Blvd., P.O. Box 1240, Arlington, VA 22210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs, and such other commodities* as are dealt in by wholesale and retail chain and grocery houses, and in connection therewith *equipment, materials and supplies* used in the conduct of such business (except in bulk), between the facilities of Hudson Industries, Inc., at or near Brundidge and Troy, AL, on the one hand, and, on the other, points in the United States (except AK and HI). (Hearing site: Montgomery or Birmingham, AL).

NOTE.—This republication conforms to applicant's request for authority.

FINANCE APPLICATIONS

NOTICE

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, of rail carriers or motor carriers pursuant to Sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and one copy of protests against the granting of the requested authority must be filed with the Commission within 30 days after the date of this Federal Register notice. Such protest shall comply with Special Rules 340(c) or 240(d) of the Commission's *General Rules of Practice* (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representatives named.

No. MC-F-12498 (Supplemental) (CRST, INC.—purchase (portion)—LEE BROS., INC.), published in the April 30, 1975, issue of the FEDERAL REGISTER. This supplemental notice reflects the decision of the Commission, served October 30, 1978, which approved the transaction set forth below subject to republication. Operating rights authorized to be transferred: *General commodities*, except those of unusual value, class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between points in the Chicago, IL, commercial zone as defined by the Commission, and points in IL within 10 miles of Chicago, not included within the commercial zone, on the one hand, and, on the other, Cincinnati, Dayton, and Hamilton, OH, and points in that part of Ohio on and north of U.S. Highway 20 extending from the Ohio-Indiana State line to

and including Toledo, OH: Midland, MI: and points in that part of Michigan on and south of a line beginning at Benton Harbor, and extending along U.S. Highway 27 to St. Louis, thence on and south of Michigan Highway 46 to Saginaw, thence on the east of Michigan Highway 46 to Saginaw, thence on the east of Michigan Highway 47 to Bay City, thence on and south of Michigan Highway 25 to junction U.S. Highway 25, and thence on and south of U.S. Highway 25 from said junction to Detroit, and points in that part of Pennsylvania on and west of U.S. Highway 119 and on and south of U.S. Highway 442. *Meats, meat products, meat byproducts, dairy products, and articles* distributed by meat packinghouses, as described in sections A, B, and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, except liquid commodities in bulk, in tank vehicles, (a) between the plantsite of Swift & Co., at Rochelle, IL, on the one hand, and, on the other, Cincinnati, Dayton, and Hamilton, OH; and points in that part of Ohio on and north of a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 20 to junction Ohio Highway 120, and thence along Ohio Highway 120 to Toledo, OH; and Midland, MI; and points in that part of Michigan on and south of a line beginning at Benton Harbor, MI, and extending along unnumbered highway (formerly portion of U.S. Highway 12) through Columa, Watervliet, Hartford, Lawrence, Paw Paw, and Oshtemo, MI; to junction Business Interstate Highway 94 through Kalamazoo, MI, to junction Interstate Highway 94 (formerly portion U.S. Highway 12), thence over unnumbered highway through Battle Creek, MI, to Marshall, MI; thence on and east of U.S. Highway 27 to St. Louis, MI; thence on and south of Michigan Highway 46 to Saginaw, MI, thence on and east of Michigan Highway 85 (formerly Michigan Highway 47) to Bay City, MI, thence on and south of Michigan Highway 25 to junction U.S. Highway 25, and thence on, south and west of U.S. Highway 25 to Detroit, MI; and points in that part of Pennsylvania on and west of U.S. Highway 119 and on the south of U.S. Highway 442. (b) From the plantsite of Swift & Co., at Rochelle, IL, to points in that part of Indiana on and north of U.S. Highway 20, with no transportation for compensation on return, except as otherwise authorized. Restriction: The authority granted herein is restricted to the transportation of shipments originating at, or destined to, the plantsite of Swift & Co., at Rochelle, IL. Persons having an interest in, or would be prejudiced by this grant of authority may file an original and six copies of a petition (or any pleading) within 30 days from the date of this publication with appropriate service on applicant. Petitions shall set forth the precise manner in which the party may or has been prejudiced by the grant of authority. Applicants shall file their replies within 50 days from the date of publication. Applicants' attorney: Robert E. Konchar, 2720 First Avenue, N.E., P.O. Box 1943, Cedar Rapids, IA 52406.

No. MC-F-13680 (Supplement). Authority sought for purchase by BEKINS VAN LINES CO., 333 S. Center St., Hillside, IL 60162, of a portion of the operating rights of Sternberger Motor Corp., 45-50 Court Square, Long Island City, NY, and for acquisition by THE BEKINS COMPA-NY, 1335 So. Figueroa St., Los Angeles, CA 90015, of control of such rights through the purchase, published in the August 17, 1978 issue of the FEDERAL REGISTER. Applicant's attorneys: Marvin S. Maltzman, 777 Flower St., Glendale, CA, 91201, Russell S. Bernhard, Suite 1032 Pennsylvania Bldg., Washington, DC, 20004. The purpose of this supplemental notice is to correct the description of that portion of the operating rights sought to be purchased, which is evidenced by Certificate No. MC-46219 (Sub-No. 3), as described at page 36577 in the issue for Thursday August 17, 1978. The correct Sub-3 description is as follows. . . . (2) Sub-3, (a) New Furniture, From Hampton, VA, to points in AL, DE, FL, GA, LA, MD, MS, *NJ, NY, NC, PA*, SC, WV, and DC, with no transportation for compensation on return except as otherwise authorized. . . . The *underlined* destination states were omitted in prior publication.

MC-F-13698F Authority sought for purchase by NORMAN W. WENGER & SONS, INC., Box 11, R.D. No. 2, East Earl, PA 17519 of a portion of the operating authorities of RAYMOND E. TOWNSEND, JR., Dagsboro-Omar Road, Frankford, DE 19945, and for acquisition by NORMAN W. WENGER, Box 11, R.D., No. 2, East Earl, PA 17519, of control of such rights through the transaction. Applicant's representative: John M. Musselman, 410 North Third Street, Harrisburg, PA 17108. Operating rights sought to be acquired: *Fertilizer*, as a common carrier, over irregular routes, from Chesapeake, VA, to points in DE and MD east of the Chesapeake Bay and south of the Chesapeake and Delaware Canal; *manufactured fertilizers* (except liquid fertilizer) in bulk, from Chesapeake, VA, to Windsor, NC; *manufactured fertilizers* (except liquid fertilizer), from Baltimore, MD, to points in that part of Delaware south of the Chesapeake and Delaware Canal, and points in Wicomico, Worcester and Somerset Counties, MD, and Accomac and Northampton Counties, VA; and *fertilizer*, from Dagsboro, Seaford, Bridgeville, Frankford, Milton, Harrington, Hartley, and Mt. Pleasant, DE, to points in Cecil, Kent, Queen Annes, Talbot, Caroline, Dorchester, Wicomico, Somerset and Worcester Counties, MD, and Accomac and Northampton Counties, VA, with no transportation for compensation on return except as otherwise authorized, and restricted against the transportation of liquid fertilizer in bulk, in tank vehicles, from Seaford, DE. Vendee seeks tacking or joinder with present authority at points in New Castle County, DE to authorize transportation of fertilizer from Chesapeake, VA to points in Berks, Bucks, Chester, Delaware, Lancaster, Montgomery, and Philadelphia Counties, PA. Vendee is authorized to operate as a *common carrier* in DE, MD, NJ, PA, and VA. No duplicating authority. Application has not been filed for temporary authority under section 210a(b).

NOTE.—No. MC 111023 (Sub-6F) is a directly related matter.

MC-F-13784F. Authority sought for purchase by WITTE TRANSPORTATION COMPANY, P.O. Box 43564, St. Paul, MN 55164, of a portion of the operating rights of G.M.W., INC., 965 Eustis Street, St. Paul, MN 55114, and for acquisition by SPACE CENTER, INC., 444 LaFayette Road, St. Paul, MN 55101 of control of such rights through the transaction. Applicants' attorney: William S. Rosen, 630 Osborn Building, St. Paul, MN 55102. Operating rights sought to be transferred: Transferee is purchasing only the authority between Chicago, IL and Madison, WI over U.S. Hwy 14 and intermediate points authorized over said route as contained in the following authority described in Certificate No. MC 43475 dated December, 30, 1946: General commodities, except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, and those requiring special equipment, between St. Paul, MN and Chicago, IL: From St. Paul over U.S. Hwy 12 via Wisconsin Dells, WI to Madison, WI, then over U.S. Hwy 18 to junction WI Hwy 67 (also from Wisconsin Dells over U.S. Hwy 16 to Oconomoc, WI, then over WI Hwy 18 to Milwaukee, WI, then return over U.S. Hwy 18 to junction U.S. Hwy 45, then over U.S. Hwy 45 to junction IL Hwy 21, and then over IL Hwy 21 to Chicago, (also from Madison over U.S. Hwy 14 to Chicago), and return over the same route. Transferee is authorized to operate as a regular route and irregular route common carrier in the states of MN, IA, WI, MO, and IL. Application has been filed for

temporary authority under Section 210a(b). (Hearing site: St. Paul, MN.)

Box 230, Lansdale, PA 19446. Applicant's attorney: John W. Frame, Box 626, 2207 Old Gettysburg Road, Camp Hill, PA 17011. Operating rights sought to be purchased: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, as a *common carrier* over regular routes between New York, NY, and Philadelphia, PA, serving the intermediate point in Trenton, NJ, restricted to traffic moving to or from points other than New York, NY, all other intermediate points without restriction; and off-route points within ten miles of the specified portions of U.S. Hwy 130 (formerly NJ Hwy 25); From New York over U.S. Hwy 1 to Philadelphia, and return over the same route; From New York over U.S. Hwy 1 to junction U.S. Hwy 130 (formerly NJ Hwy 25), then over U.S. Hwy 130 to Camden, NJ, and then across the Delaware River to Philadelphia, and return over the same route. Vendee is authorized to operate as a *common carrier* in NY, NJ, PA, MD, DE, VA, WV, DC, MA, RI, CT, IL, IN, KY, MI, NC, OH, and WI. Application has not been filed for temporary authority under section 210(b).

MC-F-13799F. Authority sought for purchase by FASTWAY TRANSPORTATION, INC., 151 Morristown Road, Matawan, NJ 07747, of a portion of the operating rights of BURGMEYER BROS., INC., 50 North Fifth Street, Reading, PA 19601, and for acquisition by EDMUND E. HUNT, DONALD BESMAN, and ROSE BECKER, all of, Matawan, NJ 07747, of control of such rights through the purchase. Applicants' attorneys: Thomas F. X. Foley, State Highway #34, Colts Neck, NJ 07722 and A. David Millner, P.O. Box 1409, 167 Fairfield Rd., Fairfield, NJ 07006. Operating rights sought to be purchased: *General commodities*, (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), as a *common carrier* over regular routes, between Philadelphia, PA and Trenton, NJ, serving all intermediate points, from Philadelphia over U.S. Hwy 1 to Trenton, and return over the same route. Vendee is authorized to operate as a *common carrier* in NY and NJ. Application has been filed for temporary authority under section 210a(b).

MC-F-13860F. Authority sought for purchase by CROUSE CARTAGE COMPANY, P.O. Box 151, Carroll, IA 51401, of a portion of the operating rights of RINGSBY TRUCK LINES, INC., 3980 Quebec Street, Denver, CO 80207, and for acquisition by PAUL E. CROUSE, P.O. Box 151, Carroll, IA 51401, of control of such rights through the transaction. Transferee's attorney: WILLIAM S. ROSEN, 630 Osborn Building, St. Paul, MN 55102; Transferor's attorney: RUSSELL R. SAGE, P.O. Box 11278, Alexandria, VA 22312. Operating rights sought to be transferred: Irregular routes: (1) *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between points within 20 miles of Akron, IA, including Akron; between Akron, IA, and points within 20 miles thereof, on the one hand, and, on the other, points within 100 miles of Akron. (2) *Iron and steel articles*, from the plant site of Jones & Laughlin Steel Corporation, located in Putnam County, IL, to points in IA, MN, NE, ND, SD and WI, and *materials, equipment, and supplies* used in the manufacture and processing of iron and steel articles, from points in IA, MN, NE, ND, SD, and WI, to the plant site of Jones & Laughlin Steel Corporation, located in Putnam County, IL. Restriction: The operations authorized in (2) above are subject to the following conditions: Said operations are restricted to the transportation of traffic originating at or destined to the named origins and destinations. Said operations are restricted against the transportation of commodities in bulk. Transferee is authorized to operate as a regular route common carrier in the States of IL, IA, MO, NE, and KS, and transferee holds irregular route special commodity authority as a motor common carrier in 48 States. Application has been filed for temporary authority under Section 210a(b). (Hearing site: Des Moines, Iowa.)

MC-F-13805F. Authority sought for purchase by GENERAL MOVERS, INC., 7645 Hall Street, St. Louis, MO 63147, of the operating rights of FASGO MOTOR EXPRESS, INC., 7845 Hall Street, St. Louis, MO 63147, and for acquisition of control by Lyons Transportation Lines, Inc., 138 East 26th Street, Erie, PA 16512, through acquisition of the stock of General Movers, Inc., and control of such rights by John M. Cochran through the acquisition. Applicants' attorney: A. Charles Tell, 100 East Broad Street, Columbus, OH 43215. Operating rights sought to be purchased under MC 37544: General commodities (usual exceptions), over irregular routes, between points in the St. Louis, MO—East St. Louis, IL Commercial Zone; and over regular routes between Palestine, IL and Evansville, IN. Operating rights to be controlled under MC 120879: General commodities, over irregular routes, between points in IL. Lyons Transportation Lines, Inc. is authorized to operate as a common carrier of general commodities (usual exceptions) over regular and irregular routes in CT, IL, IN, KY, MA, MI, NY, OH, PA, and WV. Vendee is authorized to operate as a common carrier soley within the State of IL. Application has been filed for temporary authority under Section 210a(b).

NOTE.—MC-120879 (Sub 4F) is a directly related matter.

MC-F-13806F. Authority sought for purchase by HVH TRANSPORTATION, INC., d.b.a. Thacker Transportation, Inc., 3110 South Wadsworth Boulevard, Denver, CO 80227, of the operating rights of L. & E. FREIGHT LINE, INC., d.b.a. Lightning Express Freight Lines, Inc., 2950 Blake Street, Denver, CO 80205, and for acquisition by Robert L. Holder, Alice S. Holder, Richard F. Casey and Kathy S. Casey, all of 3110 South Wadsworth Boulevard, Denver, CO 80227, of control of such rights through the transaction. Applicants' representative: Richard P. Kissinger, Steele Park, Suite 330, 50 South Steele Street, Denver, CO 80209. Operating rights sought to be purchased: Certificate No. MC-120686 and Subs thereof authorizing the transportation of: (1) Sub 3; General commodities, usual exceptions, as a common carrier over regular routes, between Denver, CO and Limon, CO, serving all intermediate points: From Denver over U.S. Hwy 40 to Limon, and return over the same route; (2) Sub 4; General commodities, except commodities in bulk tank vehicles, over regular routes, between Limon, CO, and Burlington, CO, over U.S. Hwy 24, serving all intermediate points and the offroute point of Hugo, CO; (3) Sub 5; General commodities, usual exceptions, over regular routes, between Colorado Springs, CO, and Limon, CO, serving all intermediate points; from Colorado Springs over U.S. Hwy 24 to Limon, and return over the same route; from Colorado Springs over CO Hwy 94 to junction CO Hwy 71, then over CO Hwy 71 to Limon, and return over the same route; (4) Certificate No. MC-98946 Subs 1 and 2, authorizing the transportation of general commodities, usual exceptions, over regular routes, between Denver, Kiowa and Elbert, CO over various routes. Application has been filed for temporary authority under Section 210a(b). Vendee is authorized to operate as a common carrier in Colorado.

MC-F-13805F. Authority sought for control by B. J. McADAMS, INC., Route 6, Box 15, North Little Rock, Arkansas 72118, of Hughes Refrigerated Express, Inc., P.O. Box 2106, Haines City, Florida 33844, and for acquisition by Bob McAdams, 2909 Justin Matthews Drive, North Little Rock, Arkansas 72116, of control of such rights, through the acquisition. Applicants' representative: Bob McAdams, Route 6, Box 15, North Little Rock, Arkansas 72118. Operating rights sought to be controlled: Frozen foods, fruits, berries and vegetables, as a common carrier, over irregular routes, from, to and between specified points in the United States, mostly east of the Mississippi River, as more specifically described in Certificate No. MC 105783 and Subs thereto. Vendee is authorized to operate as a common carrier in all fifty states. No dual operations or duplicating authority will result in the approval of this transaction. B. J. McAdams, Inc. also controls McCormack's Highway Transportation, Inc., and Southern Trucking Corp. Application has not been filed for temporary authority under Section 210a(b).

MC-F-13811F. Authority sought for management in a common interest of FLOYD & BEASLEY TRANSFER COMPANY, INC., P.O. Drawer 8, Sycamore, AL., 35149, and BARNETT TRANSPORTATION, INC., Route No. 2, Box 183, Talladega, AL., 35160. The authority sought would enable ERRIS H. BARNETT of Talladega, AL., 35160, to remain as Vice President of FLOYD & BEASLEY TRANSFER COMPANY, INC., while serving as President and sole stockholder of BARNETT TRANSPORTATION, INC. Applicants' attorney: Charles Ephraim, Suite 600, 1250 Connecticut Avenue, N.W., Washington, D.C., 20036. Operating rights sought to be managed in a common interest; As to FLOYD & BEASLEY TRANSFER COMPANY, INC.; General commodities, with exceptions, and numerous specified commodities, as a common carrier, over irregular and regular routes to, from, and between points in AL, GA, SC, and TN, as more specifically described in certificate No. MC-18088 and subs thereunder; as to BARNETT TRANSPORTATION, INC.: numerous specified commodities, as a common carrier, over irregular routes to, from, and between points in AL, FL, GA, LA, MS, NJ, NC, PA, SC, TN, TX and VA, as more specifically described in a portion of certificate No. MC-76177 and subs 250, 264, 265, 289, 299, 316, 323, and 327 thereunder acquired in No. MC-FC-77609. Approval of this transaction will not result in (a) dual operations, or (b) splitting of authority. Minimum duplicating authority is involved. Application has been filed for temporary authority under Section 210a(b).

MC-F-13813F. Authority sought for purchase by T.I.M.E.-DC, INC., 2598 74th St. (P.O. Box 2550), Lubbock, TX 79408, of a portion of the operating rights of GLENDENNING MOTORWAYS, INC., P.O. Box 43947, St. Paul, MN 55164, and for acquisition of control of such rights by NATIONAL CITY LINES, INC., P.O. Drawer 17-G, Terminal Annex, Denver, CO 80217, through the purchase. Applicants' attorneys: Carl L. Steiner, 39 South LaSalle St., Chicago, IL 60603, and Kenneth G. Thomas, P.O. Box 2550, Lubbock, TX 79408. Operating rights sought to be transferred: *General commodities* (except those of unusual value, and except dangerous explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), as a *common carrier*, over regular routes, between Chicago, IL, and Minneapolis, MN: From Chicago over U.S. Hwy 20 to Dubuque, IA, thence over U.S. Hwy 52 to Minneapolis, and return over the same route, serving all intermediate points in Minnesota. T.I.M.E.-DC, Inc., is authorized to operate as a common carrier in AL, AZ, AR, CA, CO, CT, DE, DC, GA, ID, IL, IN, IA, KS, KY, MD, MA, MI, MO, NE, NV, NJ, NM, NY, OH, OK, OR, PA, RI, TN, TX, VA, WA, WV, WI and WY. Application has been filed for temporary authority under section 210a(b).

OPERATING RIGHTS APPLICATION(S) DIRECTLY RELATED TO FINANCE PROCEEDINGS

NOTICE

The following operating rights application(s) are filed in connection with pending finance applications under Section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with transfer applications under Section 212(b) of the Interstate Commerce Act.

An original and one copy of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rule 247(e) of the Commission's *General Rules of Practice* (49 CFR 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative or applicant if no representative is named.

Each applicant states that approval of its application will not significantly affect the quality of the human environment nor involve a major regulatory action under the Energy Policy and Conservation Act of 1975.

MC 29904 (Sub-3F) (correction), filed October 10, 1978 and previously noticed in the FEDERAL REGISTER issue of October 26, 1978. Applicant: SUDDATH VAN LINES, INC., 525 Stevens Street, P.O. Box 6699, Jacksonville, Florida 32205. Representative: ROBERT J. GALLAGHER, 1000 Connecticut Avenue, N.W., Suite 1200, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, in the transporting of *Household Goods* as defined by the Commission: Between points in NY, NJ, DE, MD, PA, WV, VA, NC, SC, GA, FL, AL, TN, KY, MS, LA, MO, IL, IN, MA, CT, RI, NH, VT, OH, and the DC, on the one hand, and, on the other, points in AZ, CO, IA, NE, WI, CA, MN, NV, and UT. Gateways to be eliminated are as follows: Points in that part of NC east of U.S. Hwy. 21. (Hearing site: Jacksonville, FL.)

NOTE.—This application is directly related to Purchase Application by Suddath Van Lines, Inc. of a portion of the operating authority of Plymouth Van Lines, Inc., MC-F-13679F published in the FR issue of August 24, 1978. The purpose of this application is to eliminate the gateway as noted above. The purpose of this correction is to indicate the correct publication date of the finance proceeding MC-F-13679F.

MC 83217 (Sub-76F) (correction), filed September 27, 1978, and previously noticed in the FEDERAL REGISTER issued of October 26, 1978. Applicant: DAKOTA EXPRESS, INC., 550 East 5th Street South, St. Paul, MN 55075. Representative: K. O. Petrick (same address as applicant). Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Foodstuffs, building materials, malt beverages, paper products* and *such commodities as are dealt in by retail and wholesale grocery houses* (except foodstuffs), when moving in the same vehicle at the same time with foodstuffs, (a) between points in MN, on the one hand, and, on the other, Sioux Falls, Gary, Brookings, Watertown, Egan, Lone Tree, Air Way Station, Trent and Elkton, SD, and (b) between Sioux Falls, Egan, Lone Tree, Elkton and Flandreau, SD, on the one hand, and, on the other, Gary, Brookings and Watertown, SD. (Hearing site: St. Paul, MN.)

NOTE:—The purpose of this application is to eliminate the gateway points on Flandrean, SD, and points in Lincoln county, MN, through the conversion of certain regular routes authorities to irregular routes authorities as outlined in the Commission's decision in MC-F-12411 served June 28, 1978. This application is directly related to MC-F-12411, published in the FEDERAL REGISTER issue of January 22, 1975. The purpose of this correction is to indicate the correct commodity description.

MC 99667 (Sub-2F)(correction), filed August 28, 1978 and previously noticed in the FEDERAL REGISTER issue of September 28, 1978. Applicant: SERVICE OIL CO., INC., 111 East 4th Street, P.O. Box 2195, Grand Island, NE 68801. Representative: Donald L. Stern, Suite 610, 7171 Mercy Road, Omaha, NE 68106. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *General commodities* (except those requiring special equipment) between points in NE, restricted against the transportation of meat or meat products between Ord, NE, and points within a 50 mile radius thereof, on the one hand, and, Omaha, NE, on the other. (Hearing site: Omaha, NE.)

NOTE:—This application is directly related to a proceeding in Eight Way Xpress, Inc.—Control—Tri-Valley Express, Inc. and Service Oil Company docketed MC-F-13703 published in the FEDERAL REGISTER issue of August 31, 1978. The purpose of this application is to convert convenience and necessity. The purpose of this correction is to indicate the correct territorial description.

MC 120879 (Sub-4F), filed November 1, 1978. Applicant: , GENERAL MOVERS, INC., 7845 Hall Street, St. Louis, MO 63147. Representative: A. Charles Tell, 100 East Broad Street, Columbus, OH 43215. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between points in IL, and (2) between St. Louis, MO, on the one hand, and, on the other, points in IL. (Hearing site: Washington, DC.)

NOTE—Applicant presently holds the authority sought in part (1) in Certificate of Registration MC 120879 (Sub-1) and seeks by this application to convert said authority to a certificate of public convenience and necessity. The authority sought in part (2) seeks to eliminate those IL points within the St. Louis, MO, Commercial Zone as a gateway in connection with authority being purchased. This application is directly related to proceedings in docket MC-F-13805F, General Movers, Inc.—Purchase—Fasgo Motor Express, Inc. published in a previous section of this FEDERAL REGISTER issue.

MOTOR CARRIER INTRASTATE APPLICATION(S) NOTICE

The following application(s) for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to Section 206(a)(6) of the Interstate Commerce Act. These applications are governed by Special Rule 245 of the commission's *General Rules of Practice* (49 CFR 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

Maine Docket No. X-67 (amendment), filed October 3, 1978. Applicant: JOHN T. THUT, d.b.a. THUT'S EXPRESS, 10 Patten Street, Bangor, ME 04401. Representative: John T. Thut (same address as applicant). Certificate of Public Convenience and Necessity sought to operate a freight service, as follows: Transportation of: *General commodities*, between St. Albans and Stonington, serving: St. Albans, Hartland, Palmyra, Pittsfield, Detroit, Plymouth, Newport, East Newport, Etna, Carmel, Hermon, East Hampden, Bangor, Brewer, Deer Isle, and Stonington; both inclusive and intermediate pickup and delivery service in both directions and at all points. With authority to transport between said points general commodities in interstate and foreign commerce via interline with authorized interstate carriers. No pickup or delivery service to be rendered in Hampden (except that part of Hampden northerly and easterly of the southern junction of Old County Road and Route 1A commonly known as East Hampden and easterly of a line drawn due north from said junction where it will intersect the main line of the Maine Central Railroad, which area is understood to include the Hampden Industrial Park). Intrastate, interstate and foreign commerce authority sought. Hearing: Date, time, and place not yet fixed. Requests for procedural information should be addressed to Maine Public Utilities Commission, State House, Augusta, ME 04333, and should not be directed to the Interstate Commerce Commission.

Maine Docket No. X-233 (amendment), filed October 2, 1978. Applicant: IVAN E. SHERWOOD, 81 Water Street, Howland, ME 04408. Representative: Ivan E. Sherwood (same address as applicant). Certificate of Public Convenience and Necessity sought to operate a freight service, as follows: Transportation of: *General commodities*, To pick up at points in Group (A) for delivery at points in Group (B). To pick up at points in Group (B) for delivery at points in Group (A). To perform pick up and delivery service between points in Group (B). Group (A) Bangor, Brewer, E. Hampden, Veazie, Orono, Old Town, Milford. Group (B) Costigan, Greenbush, Olamon, Passadumkeag, W. Enfield, Enfield, Edinburgh, Howland, Maxfield, Seboeis, No. Howland, Burlington, E. Lowell, Lowell. With authority to transport between said points general commodities in interstate and foreign commerce via interline with authorized interstate carriers. No pickup or delivery service to be rendered in Hampden (except that part of Hampden northerly and easterly of the southern junction of Old County Road and Route 1A commonly known as East Hampden and easterly of a line drawn due north from said junction to where it will intersect the main line of the Maine Central Railroad, which area is understood to include the Hampden Industrial Park). Intrastate, interstate and foreign commerce authority sought. Hearing: Date, time, and place not yet fixed. Requests for procedural information should be addressed to Maine Public Utilities Commission, State House, Augusta, ME 04333, and should not be directed to the Interstate Commerce Commission.

Maine Docket No. X-2600 (amendment), filed September 14, 1978. Applicant: PAULINE A. MYRICK AND AUSTIN R. McDEVITT, d.b.a. R. L. McDEVITT AND SON, High Street, Ellsworth, ME 04605. Representative: A. R. McDevitt, P.O. Box 396, Ellsworth, ME 04605. Certificate of Public Convenience and Necessity sought to operate a freight service, as follows: Transportation of: *General commodities*, Inclusive and intermediate pickup and delivery service in both directions and at all points, between points in Group (A) and points in Group (B), and between points within Group (B). No service to be provided between points within Group (A). Group (A). Bangor, Brewer, East Hampden, Holden, East Holden, Lucerne, Green Lake, Goose Pond, Nicolin, North Ellsworth, Ellsworth Falls, and Ellsworth. Group (B). Lamoine, Trenton, Town Hill, Eden, Salisbury Cove, Hull's Cove, Bar Harbor, Otter Creek, Seal Harbor, and Northeast Harbor. With authority to transport between said points general commodities in interstate and foreign commerce via interline with authorized interstate carriers. No pickup or delivery service to be rendered to Hampden (except that part of Hampden northerly and easterly of the southern junction of Old County Road and Route 1A commonly known as East Hampden and easterly of a line drawn due north from said junction where it will intersect the main line of the Maine Central Railroad, which area is understood to include the Hampden Industrial Park). Intrastate, interstate and foreign commerce authority sought. Hearing: Date, time, and place not yet fixed. Requests for procedural information should be addressed to Maine Public Utilities Commission, State House, Augusta, ME 04333, and should not be directed to the Interstate Commerce Commission.

Maine Docket No. X-5572 (amendment), filed September 28, 1978. Applicant: LUCIEN BISSON, INC., New Meadows Road, West Bath, ME 04530. Representative: Richard L. Bisson (same address as applicant). Certificate of Public Convenience and Necessity sought to operate a freight service, as follows: Transportation of: *General commodities*, between Portland, South Portland, Scarborough and Nobleboro, serving: Portland, South Portland, Scarborough (1), Yarmouth (2), Freeport, Brunswick, Topsham, Pejepscot, West Bath, Bath, Woolwich, Montsweag, Wiscasset, North Edgecomb, Edgecomb, Trevett, Boothbay, Boothbay Harbor, West Boothbay Harbor, Southport, West Southport, Newagen, Bayville, East Boothbay, Ocean Point, South Newcastle, Newcastle, Sheepscot, Whitefield, Head Tide, Alna, Damariscotta Mills, Damariscotta, Walpole, Clark's Cove, South Bristol, Bristol, Pemaquid, Pemaquid Harbor, Pemaquid Beach, New Harbor, Pemaquid Point, Chamberlain, Round Pond, Muscongus, Bremen, Medomak, Broad Cove, and Nobleboro; both inclusive with intermediate pickup and delivery service in both directions at all points. Hearing: Date, time, and place not yet fixed. Requests for procedural information should be addressed to Maine Public Utilities Commission, State House, Augusta, ME 04333, and should not be directed to the Interstate Commerce Commission.

NOTES.—(1) Only service provided is interlining of shipments with carriers whose terminals are in Scarborough. (2) No service provided between Yarmouth and the following points: Portland, South Portland, Scarborough, Freeport, Topsham, Pejepscot, Woolwich, Wiscasset, Newcastle, Damariscotta, and Nobleboro. With authority to transport between said points general commodities in interstate and foreign commerce via interline with authorized interstate carriers. Intrastate, interstate and foreign commerce authority sought.

New York Docket No. T-3954, filed October 25, 1978. Applicant: ROOT'S EXPRESS, INC., 11 Karlada Drive, Binghamton, NY 13902. Representative: Martin Werner, 888 7th Avenue, New York, NY 10019. Certificate of Public Convenience and Necessity sought to operate a freight service, as follows: Transportaton of: *General commodities* (as defined by the New York State Department of Transportation), between all points in the Counties of Broome, Erie, Livingston and Monroe. Intrastate, interstate and foreign commerce authority sought. Hearing: Date, time, and place not yet fixed. Requests for procedural information should be addressed to New York State Department of Transportation, 1220 Washington Avenue, Building No. 4, Room G-21, Albany, NY 12232, and should not be directed to the Interstate Commerce Commission.

By the Commission.

H. G. HOMME, JR.,
Secretary.

[Ex Parte No. MC-118]

GRANT OF MOTOR CARRIER OPERATING AUTHORITY TO AN APPLICANT WHO INTENDS TO USE IT PRIMARILY AS AN INCIDENT TO THE CARRIAGE OF ITS OWN GOODS AND ITS OWN NONTRANSPORTATION BUSINESS

AGENCY: Interstate Commerce Commission.

ACTION: Policy statement.

SUMMARY: The Commission here affirms the policy announced in *Toto Purchasing & Supply Co., Inc.*, 128 M.C.C. 873 (1978), that for-hire motor carrier operating authority can be granted to an applicant who intends to use it primarily as an incident to the carriage of its own goods and its own nontransportation business, provided (1) that the standard criteria for motor common carrier applications or motor contract carrier applications, as the case may be, are met, and (2) that the applicant is agreeable to the imposition of conditions requiring it to conduct its for-hire motor carrier activities and its other activities independently and to maintain separate records for each. The *Toto* decision was served March 24, 1978. Within the 30-day period immediately thereafter, petitions urging reconsideration of the *Toto* decision were filed by a number of persons. Because the change of policy announced in *Toto* raises many issues of general import that ought to be resolved in a general policy proceeding, this proceeding was instituted by a notice of proposed policy change published in the FEDERAL REGISTER on August 2, 1978 (43 FR 33945). In a separate order, we stayed the taking effect of the new *Toto* policy pending the final determination of this proceeding. Thirty-nine representations have been received including 18 from shipper interests and 14 from carrier interests. For-hire carriers (motor and rail) and the Teamsters oppose the proposed policy change, while shippers, the Private Carrier Conference of the American Trucking Associations, Inc., and governmental interests support the policy modification.

EFFECTIVE DATE: January 23, 1979.

FOR FURTHER INFORMATION CONTACT:

Michael Erenberg, Telephone: 202-275-7292.

SUPPLEMENTARY INFORMATION: Our recent decision in *Toto Purchasing & Supply Co., Inc.*, 128 M.C.C. 873 (1978), marked a departure from our adherence to the policy of *Geraci Contract Carrier Application*, 7 M.C.C. 369 (1938). The *Geraci* policy provided that the Commission would not grant a motor carrier certificate or permit to an applicant who intended to use it primarily as an incident to the carriage of its own goods and its own nontransportation business. The *Toto* policy provides that motor carrier operating authority can be granted to such an applicant, provided (1) that the standard criteria for motor common carrier applications or motor contract carrier applications, as the case may be, are met, and (2) that the applicant is agreeable to the imposition of conditions requiring it to conduct its for-hire motor carrier activities and its other activities independently and to maintain separate records for each.

The *Toto* decision was served March 24, 1978. Within the 30-day period immediately thereafter, petitions urging reconsideration of the *Toto* decision were filed by a number of persons. Because the change of policy announced in *Toto* raises many issues of general import that ought to be resolved in a general policy proceeding, this proceeding was instituted by a notice of proposed policy change published in the FEDERAL REGISTER on August 2, 1978 (43 FR 33945). In a separate order, we stayed the taking effect of the new *Toto* policy pending the final determination of this proceeding. Thirty-nine representations have been received including 18 from shipper interests and 14 from carrier interests. For-hire carriers (motor and rail) and the Teamsters oppose the proposed policy change, while shippers, the Private Carrier Conference of the American Trucking Associations, Inc., and governmental interests support the policy modification.

DISCUSSION AND CONCLUSIONS

The historical development of the *Geraci* policy is set forth in full detail in *Toto, supra*, at 877-880, and will not be repeated here. No party has discovered, nor have we found, any inaccuracy or error in *Toto's* examination of the historical record of the *Geraci* policy. For present purposes it suffices to say that the *Geraci* rule was developed in the very early days of motor carrier regulation, in an economic environment which no longer exists—the Depression of the 1930's—at a time when private motor carriage was of little economic significance and regulated motor carriage was weak and in its infancy. The rule, which was developed to meet the needs of a wholy different trucking industry than exists today, was thereafter followed for four decades, and no formal change was made despite the enormous growth and development of regulated motor carriage and the increasing role of private motor carriage. Although exceptions were carved into the rule (see *Toto, supra*, at 878-880), the rule itself remained intact, a monument to a bygone era in which the forces of market competition had had but a

V 43 227 NOV 24 78

small role to play in the context of a regulated industry. The *Geraci* rule made less efficient, though it could not stop, the growing use of private vehicles.

Three reasons have often been advanced in support of the *Geraci* rule, *Geraci, supra*, at 372:

(1) It would be an anomalous situation under which a single operator of motor vehicles would at one and the same time, as to different parts of its operations, be a private carrier not subject to regulation and a [common or contract] carrier subject to regulation. The difficulties which such a status would present with reference to accounting, statistics, issue of securities, unifications, and the like are obvious.

(2) Apart from this objection to such a combination of functions, it is clear that the public interest, as declared in the policy of Congress, requires motor carriers able to supply "adequate, economical, and efficient service" to the public "without unjust discriminations, undue preferences or advantages, and unfair or destructive competitive practices." A private carrier has the advantages of an assured traffic obtained without solicitation expense, freedom from the expenses which public regulation necessarily entails, and often an overhead or management expense shared with the commercial enterprise for which the hauling is done. A disadvantage which it often suffers is lack of a well-balanced traffic on both directions. If the private carrier be able to overcome this disadvantage by operating as a [regulated] carrier in one direction, it is evident that advantages which it enjoys in its private carriage will enable it to compete on better than even terms with most contract carriers, to say nothing of common carriers.

(3) [M]any private carriers are associated with large industries. If private carriers generally were permitted to engage in [for-hire]-carrier operations in the manner here proposed, it is clear that the results might seriously affect the maintenance of adequate and efficient service by the motor common carriers upon whom the general public must depend, and by the contract carriers who do not also engage in private carriage. We are of the opinion that such a mixture of private-carrier and [for-hire]-carrier operations is definitely inconsistent with the public interest * * *.

The issues noted in *Geraci* and its progeny [1] reflect serious concerns; the *Geraci* rule has not persisted merely out of blind adherence to the past. There are, however, other countervailing considerations which also need to be weighed. The increasing need for energy-efficient operations has caused the Commission to place added emphasis on coordination between the various forms of transportation, public and private. The issues noted in *Geraci*, and raised in this proceeding by opponents of the new *Toto* policy, may be viewed as follows:

1. *The difficulties with reference to accounting, statistics, issue of securities, unifications, and the like.*— The concern is that the carrier would integrate the records of its transportation operation into the books of its primary, nontransportation business. Without the ability to see clearly the records of the transportation aspects of the enterprise, the Commission would arguably be unable properly to regulate the carrier.

The imposition of conditions requiring the carrier to conduct its for-hire motor carrier activities and its other activities independently and to maintain separate records for each should preclude the carrier from integrating its records in such a manner as to defeat our regulatory supervision. Imposition of these conditions upon grants of motor carrier operating authority will provide us with adequate information about the proposed for-hire motor carrier activities in order properly to discharge our regulatory responsibilities.

The requirement that the private carrier maintain separate records for its for-hire transportation operations should solve the difficulties "with reference to accounting, statistics, issue of securities, unifications, and the like" that so troubled the Commission in *Geraci*. The Commission's record-keeping requirements were not fully developed in 1938; they are far more adequate in 1978. The private carrier seeking for-hire motor carrier operating authority must be prepared to maintain separate records with regard to its for-hire operations; and it, like any other regulated carrier, must be prepared to file with the Commission the accounts, tariffs, and schedules which are required to be filed pursuant to our regulations.

2. *The potential for undue preference and prejudice between the carrier's own traffic and that of its customers.*— When a private carrier seeks for-hire motor carrier operating authority, a theoretical potential for preference and prejudice may be created, for it is to be expected that the private carrier would be naturally inclined to give first priority to its own shipments, as opposed to the traffic tendered to it by other shippers. However, the theoretical potential for preference and prejudice may be eliminated when the for-hire authority complements rather than conflicts with the private carriage. When a private carrier seeks to acquire for-hire authority which would allow it to backhaul on its existing private carrier routes, the two kinds of motor carrier operations would appear to complement one another and to provide little danger of undue preference and prejudice. That this was the situation in the two applications considered in the *Toto* case is not surprising, for almost all of the instances in which private carriers have sought for-hire authority have involved backhauls to established private carrier routes.

Even when the operations are not complementary, there may be good reasons to authorize the services. To start with, real rather than theoretical potentials are our concern in shielding the public from discriminatory practices in transportation. We can find little to be realistically concerned about when the shippers intending to use the carrier's services are aware that the carrier is controlled by another shipper. The shipper presumably knows the theoretical risks involved in using a carrier which also hauls its own goods. Some deference must be accorded to the business judgment of the shipper in deciding to use the service. Indeed, we believe it entirely possible that the shipper's judgment in such matters may be better than ours. Perpetuation of *Geraci* would preclude shippers from exercising any choice in the matter. For the shipper, this may be disastrous; he may be left with inadequate or no for-hire service. All things considered, we believe that a continuation of the *Geraci* rule would do the public more injury than any prejudicial activities which might occur because of its absence.

3. *Granting private carriers operating authority as for-hire carriers gives them an unfair advantage over regulated carriers.*—The general public may be dependent upon the common carriers' obligations to provide service within the limits of their authority to everyone who tenders them traffic.[2] However, it is not this Commission's purpose to provide protection for regulated carriers (rail, water or motor) when the public's interest in more adequate transportation service could best be served by authorization of a new, competitive service.

The Commission in *Geraci* pointed out that the private carrier has the advantage of being free from the expenses that regulation entails. However, to the extent that a private carrier receives operating authority from this agency, it too faces those expenses. The regulated traffic of a company which also conducts private carriage would, all things being equal, bear the same expenses of regulation as a similar amount of traffic carried by a company that engaged solely in for-hire carriage. Moreover, when the private carrier is required to maintain separate records and separate operations with regard to its for-hire service, its costs of regulation would seem to be proportionately higher.

The Commission in *Geraci* also noted that the private carrier often has the advantage of an overhead or management expense shared with the nontransportation side of the enterprise. However, such an arrangement would benefit the private carrier only if it were assumed that the transportation operation did not contribute its proportionate share to the total revenue of the enterprise. The argument assumes the existence of a cross-subsidy which is not inherent in such an arrangement. To the contrary, it is general business practice to extract from each segment of an enterprise at least sufficient productivity to meet its costs. Any part of a business that cannot contribute enough to the overall operation to meet its costs is usually eliminated.

[1] See, e.g., the cases collected in *Toto, supra*, 128 M.C.C. at 878, n 7.

[2] This obligation, of course, would apply equally to a private carrier granted for hire authority.

Another theoretical problem is the temptation of the private carrier to price its for-hire backhaul at less than variable cost, in order to fill up an otherwise empty haul. However, the incentive for the carrier to price its return haul at out-of-pocket costs would apply equally to for-hire carriers seeking backhaul traffic. In any event, the Commission can police any threatened abuses in this area through its ratemaking functions. Private carriers seeking for-hire authority must heed the mandate contained in 49 U.S.C. § 10701 (formerly Section 216(d) of the Interstate Commerce Act): "A rate, classification, rule, or practice related to service provided by a carrier subject to the jurisdiction of the Interstate Commerce Commission . . . must be reasonable."

This analysis persuades us that the *Geraci* policy should be rejected in favor of the *Toto* policy. It is our expectation that implementation of the new policy will enable private carriers to provide needed for-hire service to shippers and will also provide for increased efficiency in the transportation system by filling up otherwise empty backhauls. We are convinced that the high cost of energy, now and into the foreseeable future, requires us to pay close attention to the need for greater operating efficiency, not only in the for-hire sector, but in all interstate surface transportation. Energy efficiency and environmental preservation are best achieved by integration of all the existing systems of surface transportation, not by continued segregation of the private trucking sector. Furthermore, as is the case with all applications for motor carrier authority, each application filed for authority by a private carrier will be closely evaluated to determine the energy and environmental impacts of the proposal.

This decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, and it is not a major regulatory action under the Energy Policy and Conservation Act of 1975.

This document is promulgated under the authority contained in 49 U.S.C. §§ 10321(a), 10521, and 10921 and 5 U.S.C. §§ 553 and 559.

Dated: November 7, 1978.

By the Commission. Chairman O'Neal, Vice Chairman Christian Commissioners Brown, Stafford, Gresham and Clapp. Commissioner Stafford dissenting.

H. G. Homme, Jr.,
Acting Secretary.

Commissioner Stafford, dissenting:

After careful consideration of the public comments filed in this proceeding, I am convinced that our earlier decision must be reversed. Parties opposed to the *Toto* policy have detailed several adverse effects which this new approach will have upon our national transportation system. The majority statement here today does nothing to answer these challenges.

I am particularly concerned about the question of cross-subsidy. Our earlier decision made light of this consideration. However, various parties have pointed to an abundance of cost items which by nature will be shared by both the private and for-hire segments of a business entity. These include maintenance costs, building and office equipment costs, management and supervisory expenses and registration and license fees. While any single cost saving may be minimal, the sum of all shared expenses will provide a large comparative cost advantage to private/for-hire carriers.

The majority responds to this issue by denying that cross-subsidy will be inherent in a private/for-hire operation. Instead, it suggests that if the for-hire carriage activity does not contribute enough to meet its costs, it will likely be eliminated. In view of the evidence presented, I find this to be an unrealistic assumption.

Questions have been raised as to the feasibility of requiring private/for-hire carriers to maintain separate accounting records. As pointed out by certain parties, this action comes at the same time the Commission is attempting to reduce the paperwork burden on both itself and the regulated carriers. Indeed, even the Council On Wage and Price Stability, which supports the proposed policy change, expresses reservation about the separate records requirement. The Council states that it is not clear how the ICC envisions maintenance of separate cost records, "since many cost elements would be of a joint nature." It concludes that the cost allocation question is "serious" and "needs to be addressed before the proposed policy change is implemented." The majority offers no response.

Today's statement dismisses the issue of whether a private/for-hire carrier will be naturally inclined to favor its own traffic. The majority presumes that a shipper will know the "theoretical risks" involved in using the hybrid carrier. I will not dispute that some deference must be accorded to the business judgment of such shippers. But what about the shipper whose traffic is not particularly attractive?

Parties in opposition to the *Toto* policy argue that because of the shared-cost factor, private/for-hire carriers have a competitive rate advantage, allowing them to capture the more lucrative traffic. The resulting diversion of revenue from the now regulated carriers could force some of these operations out of the market. The shipper with unattractive traffic would not be in a position to exercise its "business judgment." Indeed, the private/for-hire carrier may be its only available service.

Furthermore, it will be difficult, if not impossible, for a new carrier to enter such a marketplace. It, too, will be unable to compete with the advantages inherent in the private/for-hire operation. Accordingly, large shippers will be forced to protect themselves by entering the transportation business, to the further detriment of the common carrier system designed to serve all parties without discrimination. Viewed in this context, I see the likelihood of preferential treatment toward one's own traffic to be more than a "theoretical potential."

Overall, today's policy statement emphasizes the general theme that the Commission has no affirmative duty to protect regulated carriers from competition. This is true. But we do have a statutory mandate to assure that *all* shippers have available to them a viable common carrier network. The *Toto* policy presents some real threats to this system.

The statement issued today, however, is no more than a wholesale adoption of the language used in the earlier decision. There is no attempt to meet the issues raised by parties in response to the Federal Register notice. In fact, anyone reading today's statement can legitimately question whether the Commission ever actually considered these public comments. I find this especially disquieting and a serious undermining of the rulemaking process.

SPECIAL PROPERTY BROKERS

NOVEMBER 20, 1978.

The following applicants seek to participate in the property broker special licensing procedure under 49 CFR 1045A authorizing operations as a broker at any location, in arranging for the transportation by motor vehicle, in interstate or foreign commerce, of property (except household goods), between all points in the United States including AK and HI. Any interested person shall file an original and (1) copy of a verified statement in oppoistion limited in scope to matters regarding applicant's fitness within 30 days after this notice. Statements must be mailed to:

Broker Entry Staff, Room 2379, Interstate Commerce Commission, Washington, D.C. 20423.

Opposing parties shall serve (1) copy of the statement in opposition concurrently upon applicant's representative, or applicant if no representative is named.

If an applicant is not otherwise informed by the Commission, it may commence operation 45 days after this notice.

B-78-134, filed: November 2, 1978. Applicant: KANSAS CITY TRUCK BROKERS, INC., 1820 West 91st Place, Suite 304, Kansas City, MO 64114. Representative: William Houlehan (Same address as applicant).

By the Commission.

H. G. HOMME, Jr.,
Secretary.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: S-2335-78.

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: 9:30 a.m. (eastern time), Friday, November 17, 1978.

CHANGE IN THE MEETING: The following matter was postponed for consideration at a future meeting:

1. Recommended procedures for the Office of Appeals and Review.

A majority of the entire membership of the Commission determined by recorded vote that the business of the Commission required this change and that no earlier announcement was possible.

In favor of change: Eleanor Holmes Norton, Chair; Daniel E. Leach, Vice Chair; Ethel Bent Walsh, Commissioner; and J. Clay Smith, Jr., Commissioner.

Opposed: None.

CONTACT PERSON FOR MORE INFORMATION:

Marie D. Wilson, Executive Officer, Executive Secretariat, at 202-634-6748.

9

SECURITIES AND EXCHANGE COMMISSION.

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Securities and Exchange Commission will hold the following meetings during the week of November 27, 1978, in Room 825, 500 North Capitol Street, Washington, D.C.

A closed meeting will be held on Tuesday, November 28 at 10 a.m. An open meeting will be held on Wednesday, November 29, 1978 at 9:30 a.m.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meetings. certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meetings may be considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c) (4), (8), (9)(A), and (10) and 17 CFR 200.402(a) (8), (9)(i), and (10).

Chairman Williams and Commissioners Loomis, Evans, and Pollack determined to hold the aforesaid meetings in closed session.

The subject matter of the closed meeting scheduled for Tuesday, November 28, 1978, at 10 a.m., will be:

Access to investigative files by Federal, State or self-regulatory authorities.
Consideration of amicus participation.
Formal orders of investigation.
Freedom of Information Act appeals.
Institution of administrative proceeding of an enforcement nature.
Institution of injunctive action.
Institution and settlement of injunctive action.
Litigation matter.
Order compelling testimony.
Settlement of administrative proceeding of an enforcement nature.

The subject matter of the open meeting scheduled for Wednesday, November 29, 1978, at 9:30 a.m., will be:

1. Consideration of whether a release should be issued notifying issuers subject to the registration and reporting provisions of the Federal Securities Laws of their obligations to disclose any material impact on their operations of the Wage and Price Standards for 1979 announced by President Carter on October 24, 1978. For further information, please contact William H. Carter at 202-376-8090.
2. Consideration whether to delegate authority to the Director of the Division of Market Regulation to extend the deadline for Commission action on proposed rule changes of self-regulatory organizations. For further information, please contact John M. McNally at 202-755-1368.
3. Consideration of whether an FOIA Appeal of Dennis C. Brady, Esquire, of the law firm of Metzger, Shadyac & Schwarz, from the determination of the FOIA Officer that transcripts of testimony taken in the investigation relating to the securities of Financial General Bankshares, Inc., are exempt from production. For further information, please contact Rosalind Cohen at 202-376-8057.

FOR FURTHER INFORMATION, PLEASE CONTACT:

Michael P. Rogan at 202-755-1638.

NOVEMBER 20, 1978.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

PRIVACY ACT OF 1974

Systems of Records; Annual Publication

[4210-01-M]

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

(Docket No. N-78-897)

PRIVACY ACT OF 1974

Annual Publication of Systems of Records

Agency: Department of Housing and Urban Development.

Action: Annual publication of systems of records.

Summary: This notice published an up-to-date version of the existence and character of the Department's systems of records.

For further information contact: Mr. Harold Rosenthal, Departmental Privacy Act Officer, telephone number (202) 755-5192.

Supplementary information: Editorial changes have been made in individual systems to clarify terminology and to describe better the contents therein. Also, in order to reflect the reorganization of HUD field offices, the description of system location was changed for many record systems. The Office of Management and Budget advised HUD that a report is not required because the changes do not add, subtract or alter the record systems. The specific changes follow:

System name: HUD/DEP-1, Accident, Employees and/or Government Vehicles.

Changes: (1) Categories of individuals covered by the system—delete "other individuals who have sustained injury/illness as a result of such accidents". Records are retrieved only by name of HUD employee.

(2) Categories of records in the system—add "employee's absences due to injuries and resultant claims," which better describes the information contained in this system.

(3) Storage—substitute "In file folders" for "Primarily looseleaf folder; Standard Forms 91, 91A, free text".

(4) Retriveability—substitute "Subject name" for "Filed by name".

System name: HUD/DEPT-4, Fee Inspector, Appraisers and Mortgage Credit Examiners.

Changes: (1) System name—substitute above name for former name of "Appraisals/Appraiser Files".

(2) Categories of individuals covered by the system—substitute "Individuals who have applied to HUD for appointment as fee appraisers, inspectors and mortgage credit examiners" for "Fee appraisers for single family and multifamily properties, single family credit examiners; applicants for positions as fee examiners; builders, contractors realtors dealing with appraised property; HUD appraisers and certifiers; correspondents; Social Security recipients in FHA-appraised homes".

(3) Categories of records in the system—substitute "Applications and resumes containing personal data and qualifications for position sought; assignment logs, fees paid and appraisals made"; and evaluation of qualification and of appraisals made for "Roster of fee appraisers, qualifications; fee appraiser applications and certification; financial interest and employment statements; appraiser work records; appraisal fee, date, approving officers; HUD staff certifiers of fee appraisers; correspondence and inquiries on housing appraisals; application for appraisal; comparison valuation data on housing sales; appraisal of property held by Social Security recipients".

(4) Storage—add "5x8 file cards".

(5) Retention and disposal—delete "Social Security appraisals are historical data".

(6) Record source categories—change to "Subject individuals, references and HUD staff" from "Subject individual; other individuals; financial institutions; firms; federal agencies; non-federal agencies; employers; credit bureaus; law enforcement agencies".

System name: HUD/DEPT-5, Architects and Engineers.

Changes: (1) Categories of records in the system—substitute "Applications containing personal data and qualifications for position sought and assignment logs and fees paid" for "Engineering surveys, engineer's letters of map amendment, engineering reviews, established architectural reports, field reviews and performance ratings, job log files, fee and bond schedules, professional insurance policy records, and general work files"

(2) Storage—delete "Blueprints and specification in free text form, on standard forms, or".

(3) Retrievability—substitute "Subject name" for "Name, by persons' assigned number, case file number, and indexes".

(4) Record source categories—substitute "Subject individuals and references" for "Individual architect or engineer, professional organization, local housing authorities, government agencies, law enforcement agencies, state boards certifying professional competency".

System name: HUD/DEPT-9, Single-family Casualty Damage Files.

Changes: (1) System name—substitute "Single-family Casualty Damage Files" for "Casualty/Hazard Insurance".

(2) Categories of individuals covered by the system—substitute "Mortgagors under HUD single-family insurance programs filing claims for repairs due to casualty damage on their insured homes" for "Mortgagors and mortgagees under single-family insurable programs; HUD certifiers; insurers".

(3) Categories of records in the system—substitute "Inspection reports of repaired property; certifications of casualty damages/repairs; records of repairs made and their costs; and related correspondence" for "Certification of casualty damages/repairs; certification of unavailability of hazard insurance; referral list of insurers".

(4) Record source categories—substitute after Mortgagors, "mortgagees; inspectors; and contractors" for "subject individuals, rehabilitation contractor".

System name: HUD/DEPT-10, Construction Complaints Files.

Changes: (1) Categories of individuals covered by the system—substitute "Mortgagors of insured single-family homes who have filed construction complaints with HUD" for "Mortgagors, builders, developers, and contractors under HUD programs".

(2) Record source categories—add after Subjects and other individuals "builders and contractors and their".

System name: HUD/DEPT-15, Equal Opportunity Housing Complaints.

Changes: (1) Categories of individuals covered by the system—delete "individuals, officials, and organizations complained about; managers; grant or project applicants; builders; developers; contractors; appraisers; property owners; mortgagors; candidates for positions; witnesses; attorneys; individuals in disaster and EO files; Title VI, VIII and IX complainants."

(2) Categories of records in the system—a) delete "marketing activity". b) add "In mortgage discrimination cases, records include mortgage applications, credit reports, and verification of income, employment and bank deposits".

System name: HUD/DEPT-17, Experimental Housing Allowance Program—Participant Files.

Changes: (1) System location—delete "Division of Housing Assistance Research, Assistant Secretary for Policy Development and Research".

(2) Categories of individuals covered by the system—delete "and landlords".

(3) Notification procedure—a) in the first sentence, substitute "Headquarters" for "appropriate". b) in the second sentence, substitute "This location" for "A list of all locations".

(4) Record access procedures—in last sentence, substitute "This location" for "A list of all locations".

System name: HUD/DEPT-18, Fellowship Files, Urban Studies.

Changes: (1) Record access procedures—in the last sentence, substitute "This location" for "A list of all locations".

System name: HUD/DEPT-20, Homeownership Assistance and Recertification Application (HARAS).

Changes: (1) Categories of individuals covered by the system—add "Large sample of" at the beginning of the sentence describing categories of individuals.

(2) Retrievability—substitute "Case file number" for "Name. Application and recertification tables produced quarterly. No output automated system interfaces or terminal inquiry capability".

(3) Notification procedure—a) in the first sentence, substitute "Headquarters" for "appropriate". b) in the second sentence, substitute "This location" for "A list of all locations".

(4) Record access procedures—in the last sentence, substitute "This location" for a "A list of all locations".

System name: HUD/DEPT-23, Single-Family Research Files.

Changes: (1) System name—substitute "Single-family Research Files" for "Insured and Terminated Single-family Cases".

(2) Notification procedures—a) in the first sentence, substitute "Headquarters" for "appropriate". b) in the second sentence, substitute "This location" for "A list of all locations".

(3) Record access procedures—in the last sentence, substitute "This location" for "A list of all locations".

System name: HUD/DEPT-24, Investigation Files.

Changes: (1) Categories of individuals covered by the system—delete the following categories "mortgagees, and projects (before applicants), builders, developers, real estate firms, (and) contractors".

System name: HUD/DEPT-22, Housing Counseling

Changes: (1) System location—delete old system location and replace with "headquarters and field offices. For a complete listing of these offices, with addresses, see Appendix A. In addition to these offices, HUD-approved counseling agencies in many cities, both voluntary and paid by the Department, maintain files of this type. To determine whether such an agency exists in a particular city, contact the nearest HUD field office shown in Appendix A".

(2) Categories of individuals covered by the system—delete "Primarily individual mortgagors and prospective home buyers seeking advice, information and assistance regarding housing. Individuals with housing problems," and replace with "This system contains records of individuals who have been referred but not counseled; individuals who have been or are receiving counseling and assistance with housing problems and related family and financial problems, as well as individuals seeking general and consumer information".

(3) Categories of records in the system—delete "Dates counseling, summaries of aid furnished to inquiriers, correspondence. Sometimes include certificate of completion of counseling, standard forms or letters, financial data," and replace with "This system contains records of dates of counseling, summaries of aid furnished, correspondence with or on behalf of the individual being counseled, standard forms, letters and reports, purchase and financial data, medical history, employment information and problems, family composition, referral information and specific family and/or individual problems".

(4) Routine uses of records maintained in the system, including categories of users and purpose of such uses—for other routine use, substitute "to HUD-approved counseling agency staff for the purpose of providing supportive counseling services to meet the short and long term needs of the individual being counseled. Financial institutions servicing HUD insured or assisted loans; local housing authorities; rental agents and managers; real estate brokers, agents and creditors have access only to current financial, employment and family composition data regarding persons currently being counseled. Data available to these institutions and individuals in such circumstances is limited to: savings/checking/credit union account records, commercial credit reports, and credit account records with utility companies, retail stores, and other commercial credit sources; specific employment information concerning name and address of employer, length of service, and salary; and family composition data through the authorized counseling agency staff," for "Occasionally used by HUD approved counseling agencies in providing supportive counseling services such as money management and housekeeping training."

(5) Storage—substitute "The records are stored in paper files which are kept in standard lockable file cabinets and desks" for "HUD Forms 9906/9907, stored in file folders".

(6) Retrievability—replace "Always retrievable by name. Occasionally files are in chronological order or can be retrieved by case file number on address of property" with "Records are retrievable by name, case numbers or property address".

(7) Safeguards—Delete "Data maintained in lockable desks and file cabinets. In some cases, files are restricted to use by counsellors," and replace with "during the counseling process and the retention period, records and maintained in confidential files with access limited to those whose official duties require access"

(8) Retention and disposal—replace "A few records are active and kept up-to-date. Older records are treated according to HUD Handbook," with "Counseling records are maintained by the counseling agency for as long as the individual being counseled participates in the program and up to five (5) years thereafter. The Department may maintain summary records of the counseling for as long as the individual being counseled lives in HUD-insured or assisted property"

(9)Record source categories—substitute "Information in this system of records is, (1) supplied directly by the individual, and/or (2) supplied by a member of the individual's family, and/or (3) supplied by mortgagees, employers (past and present), creditors and credit reports, landlords (both public and private) and/or (4) supplied by sources to whom the individual being counseled has been referred, or has gone to for assistance, and/or (5) derived from information supplied by the individual, and/or (6) supplied by Department officials and/or (7) supplied by program counselors," or "Records usually furnished by subject individual. Occasionally received from other individuals, current or previous employers, credit bureaus, financial institutions, nonfederal agencies, counseling offices, community organizations and mortgage credit examiners".

(2) Record access procedures—in the last sentence, substitute "This location" for "A list of all locations".

System name: HUD/DEPT-25, Legal Action Files.

Changes: (1) System location—delete "insuring and service offices".

(2) Contesting record procedures—(a) in the second sentence, substitute "appropriate" for "Headquarters". (b) in the third sentence, substitute "A list of all locations" for "This location".

System name: HUD/DEPT-28, Property and Mobile Home Improvement and Rehabilitation Loans—Delinquent/Default.

Changes: (1) Categories of individuals covered by the system—after the word debtors, substitute "delinquent or in default" for "builders and contractors under mobile home, home improvement and rehabilitation programs".

System name: HUD/DEPT-29, Rehabilitation Grants and Loans Files.

Changes: (1) System name—substitute "Rehabilitation Grants and Loans Files" for "Mobile Home, Home Improvement Loans and Rehabilitation Grants and Loans".

(2) System location—add after the first word, the term "regional".

(3) Categories of individuals covered by the system—substitute "Applicants who have applied for rehabilitation grants and loans" for "mobile home, home improvement and rehabilitation loan debtors; rehabilitation grantees, builders, dealers and contractors under mobile home, home improvement and rehabilitation loan and grant programs"

Storage: Add "and on magnetic tape/disc/drum".

Retrievability: (a) after name, add "property address". (b) at the end of the sentence, delete "of individual covered".

Record source categories: At the end of the sentence, add "credit reporting agencies".

System name: HUD/DEPT-32, Mortgages—Delinquent/Default/Assigned.

Changes: (1) System name—add as the last word, "Assigned".

(2) Categories of individuals covered by the system—substitute "Mortgagors with HUD/FHA insured single-family mortgages that are delinquent or in default; mortgagors seeking assistance to prevent foreclosures; and mortgagors whose mortgages are held by HUD" for "Mortgagors under single- and multi-family housing programs seeking assistance in preventing foreclosures; mortgagors whose mortgages are held by the Secretary; mortgagors whose payments are delinquent; mortgagors complaining about loan servicing; mortgagees under single- and multi-family housing programs; mortgagees servicing defaulted loans; banks lending money; builders, developers and other firms under multi-family housing programs; contractors, developers or lien holders under multi-family programs; builders, developers, real estate firms, contractors, appraisers, other corporations and firms making repair bids; defaulted borrowers; project owners; project managing agents; former owners; tenants; area managers; HUD personnel in Area and Regional offices".

(3) Categories of records in the system—substitute "Notices of delinquent mortgages; requests for forebearance or assignment; forebearance or assignment reviews include data on mortgage amount and payments made, employment and income, debts and expenses, reasons for delinquency, recommendations and actions on requests; credit reports; forebearance agreements; deeds of trust; and related correspondence" for "Foreclosure reports; bankruptcy reports; audit reports; inventory reports; monthly accounting records; credit documents; financial statements; mortgage delinquencies; records of collection efforts on defaulted loans, payment records of mortgagors under Section 234 of the National Housing Act; recertification of Section 235 National Housing Act; recertification violations of Section 235 mortgagors; loan servicing; assistance for mortgagors in lowering payments of helping to make mortgage payments; geographic location of single-family mortgagors in default; project fiscal data; project processing activities that may have led to projects going into default; properties conveyed to HUD; property information supplied by HUD area managers; proposed transfers of physical assets; managing plans; present management capabilities; repair bids; fire inspections; post-closing complaints; congressional inquiries resulting from mortgagor complaints".

(4) Storage—substitute "In file folders" for "Free text; Standard Forms 2068 and 2068S; binders; notebooks".

(5) Retrievability—delete "Social Security number; name of mortgagee".

System name: HUD/DEPT-35, Personnel Medical Records.

Changes: (1) Categories of individuals covered by the system—delete "and individuals writing to the Department".

System name: HUD/DEPT-37, Personnel Travel System.

Changes: (1) Retrievability—delete "and rarely by numerical or chronological sequence or by organization or vehicle".

System name: HUD/DEPT-42, Rent Subsidy Program Files.

Changes: (1) System name—substitute "Rent Subsidy Program Files" for "Public Housing Rent Subsidy Program".

(2) Categories of individuals covered by the system—substitute "Low-rent housing applicants and recipients under Section 236 and Rent Supplement programs" for "Low-rent housing applicants and recipients; HUD personnel; local housing authorities; mortgagors; mortgagees and financial institutions; realty brokers; construction contractors and builders; area managers; local service contractors".

(3) Categories of records in the system—substitute "Applications for rent subsidy and recertifications include name, address, telephone number, race, household composition, employment data, detailed financial information, monthly rent payment and supplement calculations, HUD review and certification, description of rental unit participant will occupy; subsidized tenant move-out records; verification of employment, income and bank deposits; credit bureau reports; and related correspondence." for "Section 236 Applications and Recertifications; rent supplement applications/vouchers/schedules; monthly reports of excess collections; subsidized tenant move-out records; requests for reservations; and permission-to-occupy certifications."

(4) Storage—substitute "In file folders" for "Free text; standard forms; computer print-outs; file folders".

(5) Retrievability—delete "according to project; or organizational program; building number".

(6) Safeguards—add "to secured computer facilities".

System name: HUD/DEPT-43, Property Disposition Files.

Changes: (1) System name—substitute "Property Disposition Filed" for "Real Estate Filed".

(2) Categories of individuals covered by the system—substitute "Mortgagors with HUD/FHA insured single-family homes who have had their mortgages foreclosed and properties acquired by HUD; individuals who have had their properties acquired by the Department of Defense and transferred to HUD; single-family mortgagors who defaulted on Section 312 loans and had their properties acquired by HUD; and potential buyers of HUD-held single-family properties" for "Management brokers appointed to manage HUD-acquired property; management agents for single-family and multi-family projects; real estate brokers who are area managers for HUD-acquired properties; real estate brokers selling repossessed homes for FHA; real estate brokers selling HUD-properties; real estate brokers involved in management of HUD-owned single-family and multi-family projects; brokers who have signed non-discrimination statements; builders and contractors under property disposition programs; bidders on property; purchasers of HUD homes with structural defects; potential buyers".

(3) Categories of records in the system—substitute "Documents pertaining to acquisition of foreclosed HUD/FHA insured single-family homes and single-family homes transferred from the Department of Defense. The documents include names, addresses, loan amounts and payments, and reasons for default; leases and rental information if properties are rented; purchasers' family characteristics, income and employment histories, credit reports, sales contracts, and settlement costs; and related correspondence." for "HUD single-family property disposition; real estate activity in urban renewal projects and public housing; management of acquired, insured projects; performance under terms of contract; contractors' qualifications and prior experience; development proceeds; local authority budgets; authorized proclaimers; credit; profit and loss; financial transactions; repairs to property in inventory; property acquisition and disposition; exhibits submitted by developers; information on purchasers of HUD homes with structural defects; information on development of new subdivisions; market needs and available maximum market rent and environment assessment; complaints against real estate brokers".

(4) Storage—substitute "In file folders." for "Free text; Standard Form 9556; card file; file folders; binders".

(5) Retrievability—substitute "Case file number and property address." for "Name; Social Security number; personal characteristics; case file number; contract number; geographic area; identification number".

(6) Safeguards—delete "safe; central file" and add "secured computer facilities. Access restricted".

(7) Retention and disposal—add "in accordance with HUD Handbook".

(8) Record source categories-add "real estate brokers and agents".

System name: HUD/DEPT-44, Relocation Assistance Files.

Changes: (1) System name—add "files" to the system name.

(2) Categories of individuals covered by the system—substitute "displaced persons and relocation claimants who have filed grievances for "Displaced persons relocation claimants and applicants; builders, developers, contractors and appraisers under relocation programs."

(3) Categories of records in the system—add "family characteristics".

(4) Record source categories-delete "law enforcement agencies".

System name: HUD/DEPT-46, Single Family Case Files.

(1) Categories of individuals covered by the system-substitute "individuals who have applied for HUD/FHA mortgage insurance in connection with single-family housing programs of the Department" for "Mortgagors, mortgagees, builders, developers, contractors, appraisers and real estate firms in connection with single-family housing programs of the department."

(2) Categories of records in the system—add "appraisal and inspection reports; verification of employment and income; credit bureau reports; mortgage note and deed of trust, record of escrow account".

System name: HUD/DEPT-51, Standards of Conduct File.

Changes: (1) System location—delete "Office of General Counsel".

(2) Record access procedures—substitute "This location" for "A list of all locations".

System name: HUD/H-1, Section 8 Lower-Income Assistance Files.

Changes: (1) System number-substitute "HUD/H-1" for "HUD/HM-1".

(2) System name-substitute "Section 8 Lower-Income Rental Assistance Files" for "Housing Management Section 8 Management Information".

(3) System location—substitute "Headquarters and many field offices. For a complete list of these offices, with addresses, see Appendix A" for "Headquarters Office".

(4) Categories of records in the system—substitute "Applicants filing for eligibility and recertification include names; addresses; social security numbers; telephone numbers; family characteristics; employment and income information; HUD review and certification; verfication of employment, income, and bank deposits; and related correspondence" for "tenant characteristics".

(5) Record source categories—add "financial institutions; employers, and local housing authorities".

System name: HUD/H-2, HUD Temporary Housing File.

Changes: (1) System number—substitute "HUD/H-2" for "HUD/HM-2".

(2) Categories of individuals covered by the system—substitute "(1) Individuals who apply for temporary housing disaster assistance in Presidentially declared major disasters or emergency areas, and (2) candidates for staff positions at Federal Disaster Assistance Centers" for "The files relate to disaster assistance functions. The files concern: builders, developers, real estate firms and other vendors, such as: mobile homes, furniture and truck rental, utility supplies and towing contractors, grant/project applications for aid (individuals and organizations); equal opportunity; qualified bidders on procurements; HUD personnel and candidates for temporary and permanent positions, some of which are on response cadre; past, present and inactive tenants; candidates for permanent or temporary housing in facilities such as mobile homes, or who withdrew from such housing, victims of natural disaster (fire, flood, tornado) and their case files".

(3) Categories of records in the system—delete "listings of debarred contractors".

(4) Storage—delete "or computer print-outs (some of which concern summaries of payments). Other forms of storage are file folders and Disaster Management Information Systems. Any computer files are controlled and reported at the Headquarters Office".

(5) Retrievability—substitute "Name or case file number" for "Administrative files systems are filed alphabetically and geographically by name and then by case file number, Direct Reimbursement Number, lease number, some are cross-referenced by Social Security number, application number, personal characteristics (e.g., age, marital status, GS level, etc); subject matter; designated disaster and area; functional assignment cards; accession to record group number. Most correspondence written in free text is filed by title of office and office designation. Some active files are within the program subject file classification method".

(6) Safeguards—substitute "Records are stored in lockable file cabinets in lockable rooms in secured buildings" for "Records exist in cardboard boxes, lockable desks, in notebooks in bookcases, in tape-disc libraries, in lockable file cabinets or in central file outside local offices. Records are kept in buildings which are secured after work hours, and most offices are locked when unattended. Confidential files are seen only by authorized personnel (in Regional Emergency Offices). Other files are seen only by personnel authorized to enter offices (whose names are posted on lists) and who are overseen by Disaster Assistance employees. In military installations, the records are maintained in loced areas; only authorized personnel have keys to files or offices. Computer and data files are stored in computer

facilities which are secured and accessible only to authorized personnel; all files are stored in a secured area. Technical constraints are employed with regard to access and the methods employed in order to maintain security include the use of unique account codes; file qualifiers; file names; read/write protection keys; site identification codes; run identification codes; and password codes".

(7) Record source categories—delete "various number HUD forms; unnumbered survey forms; authorization and statements".

System name: HUD/FIA-1, Federal Crime Insurance.

Changes: (1) Categories of records in the system—delete "class of business; annual gross receipts; payments of compensation to agents" and add "agent's name and address; other insurance held by policyholder; inspection report of protective devices".

(2) Retrievability—add "policy number".

System name: HUD/H-3, Housing Production and Mortgage Credit Monitoring System.

Changes: (1) System number—substitute "HUD/H-3" for "HUD/HPMC-1".

(2) Notification procedure—a) in the first sentence, substitute "Headquarters" for "appropriate". b) in the second sentence, substitute "This location" for "A list of all locations".

(3) Record access procedures—substitute "This location" for "A list of all locations".

System name: HUD/PD&R-2, Solar Energy Demonstration Research Files.

Changes: (1) Notification procedure—a) in the first sentence, substitute "Headquarters" for "appropriate". b) in the second sentence, substitute "This location" for "A list of all locations".

Authority: 5 U.S.C. 552a, 88 Stat. 1896; sec. 7(d) Department of HUD Act (42 U.S.C. 3535(d)).

Issued at Washington, D.C., November 1, 1978.

William A. Medina,
Assistant Secretary for Administration.

The last annual compilation of systems of records was published at 42 FR 54756. Additions, deletions and amendments regarding individual systems of records were published at 42 FR 59558 and 43 FR 12760, 15367, 21947, 22245, 25386, 27247, 27248 and 36698 continue in effect. This notice is published in compliance with the requirements of 5 U.S.C. 552a(e)(4) as added by section 3 of the Privacy Act of 1974.

1. General Statement of Routine Uses.

ROUTINE USE—LAW ENFORCEMENT

In the event that a system of records maintained by this Department to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.

ROUTINE USE—DISCLOSURE WHEN REQUESTING INFORMATION

A record from a system of records maintained by this Department may be disclosed as a routine use to a federal, state, or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to a component decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

ROUTINE USE—DISCLOSURE OF REQUESTED INFORMATION

A record from a system of records maintained by this Department may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

ROUTINE USE—DISCLOSURE TO OMB

The information contained in a system of records will be disclosed to the Office of Management and Budget in connection with review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

ROUTINE USE—DISCLOSURE PURSUANT TO CONGRESSIONAL INQUIRY

Disclosures may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual.

2. Listing of Systems of Records Within Coverage of Act.

HUD/DEPT—1

System name: Accidents, Employees and/or Government Vehicles

System location: Most Department Offices, including the Headquarters Office. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: HUD employees in on-the-job accidents, including accidents involving government-owned vehicles.

Categories of records in the system: Details of how accidents occurred and injuries were sustanined; employees' absences due to injuries and resultant claims; and property damage incurred.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: the records are used by the Department of Labor when personal injury occurs and/or compensation is invloved. GSA uses the records when accidents involve motor vehicles and the repair of those vehicles.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: Subject name.

Safeguards: The systems records are kept in lockable file cabinets, desks, and in locked rooms.

Retention and disposal: Procedural disposal follows HUD Handbook General Records Schedule.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Retrievability: By Social Security number; name; case file number; schedule number; audit number; control number; receipt number; voucher number; contract number; address.

Safeguards: Security checks; limited authorization and access; security guards.

Retention and disposal: GSA schedules of retention and disposal; destruction after six months; transfer to either a Federal Records Center or Archives.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; other individuals; current or previous employers; credit bureaus; financial institutions; private corporations or firms doing business with HUD: Federal and non-federal government agencies; HUD personnel.

HUD/DEPT—4

System name: Fee Inspectors, Appraisers, and Mortgage Credit Examiners.

System location: Field offices; for a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Individuals who have applied to HUD for appointment as fee appraisers, inspectors, and mortgage credit examiners.

Categories of records in the system: Applications and resumes containing personal data and qualifications for position sought; assignment logs, fees paid and appraisals made; and evaluation of qualifications and of appraisals made.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to fee appraisers—for voucher preparation; to VA, mortgagors, mortgagees—notice of FHA action, billing; to local government officials—for code enforcement, health and wetlands clearance; to Environmental protection Agency—for environmental clearance; to Social Security Administration—for research.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders and 5 x 8 file cards.

Retrievability: Name; case file number (in some cases).

Safeguards: Lockable file cabinets and desks.

Retention and disposal: Primarily active information; also mixed historical and active. Social Security appraisals are historical data. Disposal in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For inquiry about existence of records, contact the Privacy Officer at the appropriate location, in accordance with procedures in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Officer at the appropriate location. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate locations. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; references; and HUD staff.

HUD/DEPT—5

System name: Architects and Engineers

System location: Headquarters and field offices. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Certified architects and engineers dealing with HUD, both directly and on a consultant basis.

Categories of records in the system: Applications containing personal data and qualifications for position sought and assignment logs and fees paid.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs of prefatory statement. Other routine uses: to General Accounting Office—investigation and annual audit; to the U.S. Forest Service, Bureau of Indian Affairs, Corps of Engineers, HEW, and Farmers Home Administration for reference and information; to builders and other individuals dealing with HUD—for planning and specifications review.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: Subject name.

Safeguards: Files are kept in file cabinets, in desks and on shelves. Access is limited by locks, by security checks, or by authorized individuals.

Retention and disposal: Most files are kept active and up-to-date. Some files are partly current and partly historical. Files are destroyed per regulation or stored at a federal records center one year after last date of commitment.

System manager(s) and address:

Director
Office of Organization and Management Information

Record source categories: Mortgagors; mortgagees; inspectors; and contractors.

HUD/DEPT—10

System name: Construction Complaints Files

System location: Field Offices; for a compete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Mortgagors of insured single-family homes who have filed construction complaints with HUD.

Categories of records in the system: Complaints regarding construction and defects; inspection reports; records of complaint status and disposition; compliance reports; related correspondence.

Retention and disposal: In accordance with HUD Handbook

HUD/DEPT—29

V 43 / 227 / NOV 24 1978

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to the person or firm complained about—for resolution of the complaint; to IRS—for investigation; to Farmers Home Administration, Veterans Administration; Better Business Bureau and local agencies—for notice of restriction of builders; to state agencies—for investigation.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: Name of subject individual; case file number, property location.

Safeguards: Records filed in lockable file cabinets with access limited to authorized personnel.

Retention and disposal: Records are partly current and partly historical; disposal is in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh St., S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing intial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subjects and other individuals, builders and contractors and their current and previous employees, credit bureaus and financial institutions; federal and non-federal agencies.

HUD/DEPT—15

System name: Equal Opportunity Housing Complaints

System location: Housing discrimination files are located at the office where originated and may also be transferred to associated area and/or regional offices, or the Headquarters Office. For a complete listing of these with addresses see Appendix A.

Categories of individuals covered by the system: Individuals filing housing discrimination complaints. Does not include files on HUD employee complaints regarding their employment. Notices regarding these inquiries under the Privacy Act are published by the U.S. Civil Service Commission.

Categories of records in the system: Allegations of housing discrimination; names of complainant and persons or organizations complained about; investigation information; details of discrimination cases; compliance reviews; complaints under Titles VI, VIII and IX; conciliation files; correspondence; affidavits; complaints status reports. In mortgage discrimination cases, records include mortgage applications, credit reports and verification of income, employment and bank deposits.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to non-federal EO-concerned agencies, the U.S. Department of Justice (including the FBI), the U.S. Department of Labor (including the Office of Federal Contract Compliance), U.S. Courts, the Veterans Administration, the Farmers' Home Administration, complainants, respondents and attorneys—for investigation, preparing litigation, and monitoring compliance.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records kept in lockable desks and file cabinets and magnetic tape/disc/drum.

Retrievability: Usually retrievable by name of complainant and, in some instances, by case file number.

Safeguards: Manual records are stored in lockable file cabinets; computer facilities are secured and accessible only by authorized personnel, and all files are stored in a secured area. Technical restraints are employed with regard to accessing the computer and data files.

Retention and disposal: HUD handbooks establish procedures for retention and disposition of records. Generally retained for two years, then transferred to Federal Records Centers for an additional five years.

System manager(s) and address:

Director of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures:

The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject and other individuals, Federal and non-federal government agencies, law enforcement agencies, credit bureaus, financial institutions, current and previous employers, corporations or firms, EO counselors and witnesses.

Systems exempted from certain provisions of the act: Pursuant to 5 U.S.C. 552a(k)(2), all investigatory material including conciliation files, in records contained in this System which meet the criteria of these sub-sections in exempted from the notice, access, and contest requirements (under 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4), (G), (H), and (I), and (f) of the agency regulations in order for the Department's Fair Housing and Equal Opportunity and legal staffs to perform their functions properly.

HUD/DEPT—17

System name: Experimental Housing Allowance Program—Participant Files

System location: Headquarters Office.

Categories of individuals covered by the system: Applicants for housing allowances; participants under Experimental Housing Allowance Program.

Categories of records in the system: Socio-economic, financial and demographic data on EHAP participant.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to EHAP contractors—analysis for research purposes in accoundance with program objectives.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Hard copy survey instrument stored in folders, microform, computer printout, punched cards, and magnetic tape/disc.

Retrievability: Manual files by name, social security numnber, personnel characteristics and case file number. Automated files have been stripped of all personal identifiers and are statistical only.

Safeguards: Access to manual files limited to survey subcontractors. No access to these records by prime contractors and HUD personnel. Records kept in secured areas and vaults.

Retention and disposal: In accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the Headquarters location, in accordance with 24 CFR Part 16. This location is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. This location is given in Appendix A.

Contesting record procedures: the Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Applications; recertifications; Single-family Statistical Reporting System.

HUD/DEPT—22

System name: Housing Counseling

System location: Headquarters and field offices. For a complete listing of these offices, with addresses, see Appendix A. In addition to these offices, HUD-approved counseling agencies in many cities, both voluntary and paid by the Department, maintain files of this type. To determine whether such an agency exists in a particular city, contact the nearest HUD field office shown in Appendix A.

Categories of individuals covered by the system: This system contains records of individuals who have been referred but not counseled; individuals who have been or are receiving counseling and assistance with housing problems and related family and financial problems, as well as individuals seeking general and consumer information.

Categories of records in the system: This system contains records of dates of counseling, summaries of aid furnished the individual being counseled, correspondence with or on behalf of the individual being counseled, standard forms, letters and reports, purchase and financial data, medical history, employment information and problems, family composition, referral information and specific family and/or individual problems.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to HUD-approved counseling agency staff for the purpose of providing supportive counseling services to meet the short and long term needs of the

V 43 / 227 / NOV 24 1978

Department of Housing and Urban Development

Record access procedures: The Department's rules for providing

individual being counseled. Financial institutions servicing HUD insured or assisted loans; local housing authorities; rental agents and managers; real estate brokers, agents and creditors have access only to current financial, employment and family composition data regarding persons currently being counseled. Data available to these institutions and individuals in such circumstances is limited to: savings/checking/credit union account records, commercial credit reports, and credit account records with utility companies, retail stores, and other commercial credit sources; specific employment information concerning name and address of employer, length of service, and salary; and family composition data through the authorized counseling agency or HUD staff. Community service agencies to which the individual being counseled is referred for additional supportive services have limited access to information appropriate to the reason for referral only through authorized counseling agency staff.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: The records are stored in paper files which are kept in standard lockable file cabinets and desks.

Retrievability: Records are retrievable by name, case number or property address.

Safeguards: During the counseling process and the retention period, records are maintained in confidential files with access limited to those whose official duties require access.

Retention and disposal: Counseling records are maintained by the counseling agency for as long as the individual being counseled participates in the program and up to five (5) years thereafter. The Department may maintain summary records of the counseling for as long as the individual being counseled lives in HUD-insured or assisted property.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street SW.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. At list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officers, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Record source categories: Information in this system of records is: (1) supplied directly by the individual, and/or (2) supplied by a member of the individual's family, and/or (3) supplied by mortgages, employers (past and present), creditors and credit reports, landlords (both public and private) and/or (4) supplied by sources to whom the individual being counseled has been referred, or has gone to for assistance, and/or (5) derived from information supplied by the individual, and/or (6) supplied by Department officials and/or (7) supplied by program counselors.

HUD/DEPT—23

System name: Single-family Research Files.

System location: Headquarters Office.

Categories of individuals covered by the system: Single-family mortgagors.

Categories of records in the system: Sample of single-family home cases for most recent five-year peiod.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: none.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Magnetic tape/disc/drum.

Retrievability: Name; case file number; property address.

Safeguards: Computer facilities are secured and accessible only by authorized personnel, and all files are stored in a secured area. Technical restraints are employed with regard to accessing the computer and data files.

Retention and disposal: Records system is active and kept up-to-date.

This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Record source categories: Subject individuals; financial institutions; federal government agencies.

HUD/DEPT—24

System name: Investigation Files

System location: Headquarters

Categories of individuals covered by the system: HUD program participants and HUD employees under investigation, including mortgagors, grant applicants, and appraisers.

Categories of records in the system: Files contain information concerning investigation of alleged irregularities in connection with HUD programs and include initial complaints filed against subjects alleging violations, reports of investigation, findings of HUD officials and recommendations and disposition to be made.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to Department of Labor—for investigative research; as a data source for management information for production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related personnel management functions or manpower studies. Files may also be used to respond to general requests for statistical information (without personal identification of individuals) under the Freedom of Information Act, or to locate specific individuals for personnel research or other personnel management functions.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed by name, investigation file number, case number.

Safeguards: Records are maintained in locked file cabinets or in metal file cabinets in secured rooms or premises with access limited to those official duties require access.

Retention and disposal: Records are primarily active, with destruction of some records after three years and some after five years.

Office of Organization and Management Information

Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the Headquarters location, in accordance with 24 CFR Part 16. This location is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. This location is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; other individuals; current or previous employers; credit bureaus; financial institutions; corporations or firms; law enforcement agencies.

Systems exempted from certain provisions of the act: Pursuant to 5 U.S.C. 552 a(k)(2) and (k)(5), all investigatory material in the record which meets the criteria of these sub-sections is exempted from the notice, access, and contest requirements (under 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I) and (f)) of the agency regulations in order for the Department's legal staff to perform its functions properly.

HUD/DEPT—25

System name: Legal Actions Files

System location: Headquarters and field offices. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Litigants; potential and past claimants against the government.

Categories of records in the system: Threatened, pending and past litigation involving HUD as a party; summons; writs; indictments; pleadings; decisions; legal memoranda; litigation reports; deposition; deficiencies on court judgements; notices of levy; settlement negotiations; legal rulings; claims against the government; employee claims.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to Justice Department—information for purposes of litigation, and representation of HUD before the courts and performance of all legal work incident thereto; to HEW—for investigation and litigation; to IRS—for investigation, litigation and collection of levies; to Local Housing Authorities—for investigation and litigation; to local governments—for investigation and litigation; to parties to litigation—to provide status and facts in litigation; to private individuals and corporations—to assist co-defendants or to provide documents and information as required by the Federal Rules of Civil Procedure; various uses under the Freedom of Information Act.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file cabinets.

Retrievability: Name; case names; case numbers assigned by courts.

Safeguards: Records maintained in locked and lockable metal file cabinets with access limited to authorized personnel.

Retention and disposal: Files are partly active and partly historical; disposal in accordance with HUD Handbook

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individuals concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; other individuals; current or previous employers; financial institutions; firms and corporations; Federal government agencies; non-Federal government agencies; and Federal, state, and local courts.

Systems exempted from certain provisions of the act: Pursuant to 5 U.S.C. 552a(k)(2) and (k)(5), all investigatory material in the record which meets the criteria of these sub-sections is exempted from the notice, access, and contest requirements (under 5 U.S.C. 552a(c)(3), (d), (e)(1),(e)(4)(G), (H) and (I) and (f)) of the agency regulations in order for the Department's legal staff to perform its functions properly.

HUD/DEPT—28

System name: Property and Mobile Home Improvement and Rehabilitation Loans—Delinquent/Default

System location: Headquarters and field offices. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Mobile home, home improvement, and rehabilitation loan debtors delinquent or in default.

Categories of records in the system: Names, credit applications, and case histories of borrowers; records of payments; financing statements; delinquent and defaulted loan records and account cards; collection and field reports; records of claims and chargeoffs; creditor requests for collection assistance; justifications for closing collection action; related correspondence.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to GAO—for audit purposes; to private employers and other Federal agencies—for the purpose of collecting government-owned debts; and to the Department of Justice and U.S. Attorney's offices—for collection purposes.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: By name and case file number of individual covered.

Safeguards: Files are stored in lockable file cabinets.

Retention and disposal: Files are partly active and partly historical and are disposed of in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individuals concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Depart-

V 43 / 227 NOV 24 1978

ment of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual; current and previous employees; credit bureaus; financial institutions; firms; federal and non-federal agencies; law enforcement agencies.

HUD/DEPT—29

System name: Rehabilitation Grants and Loans Files

System location: Field offices; for a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Applicants who have applied for rehabilitation grants and loans.

Categories of records in the system: Names of borrowers, builders, dealers and contractors; loan and grant applications and eligibility information; loan and grant documents; payment records; registration records; collection records; complaint records; related correspondence.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses; to dealers and contractors—for settling complaints; to lenders—for loan servicing; to tax assessors—for assessment of property; to local agencies—for monitoring and carrying out programs.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders and/or on magnetic tape/disc/drum.

Retrievability: By name, property address and case file number of individual covered.

Safeguards: Records stored in lockable file cabinets and technical restraints are employed with regard to accessing computer files.

Retention and disposal: Records are primarily active with some historical information; disposal is in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A. (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W. Washington, D.C. 20410.

Record source categories: Financial institutions; subject and other individuals; federal and non-federal agencies; firms, current and previous employers; law enforcement agencies; credit reporting agencies.

HUD/DEPT—32

System name: Mortgages—Delinquent/Default/Assigned

System location: Headquarters and field offices. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Mortgagors with HUD/FHA insured single-family mortgages that are delinquent or in default; mortgagors seeking assistance to prevent foreclosures; and mortgagors whose mortgages are held by HUD.

Categories of records in the system: Notices of delinquent mortgages; requests for forebearance or assignment; forebearance or assignment reviews include data on mortgage amount and payments made, employment and income, debts and expenses, reasons for delinquency, recommendations and actions on requests; credit reports; forebearance agreements; deeds of trust; and related correspondence.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to FHA—for insurance investigations; to IRS and GAO—for investigations; to state banking agencies—to aid in processing mortgagor complaints; to state housing and redevelopment agencies—for follow-up servicing; to mortgagees—to check on the status of cases and referrals of complaints; to counseling agencies—for counseling; to Legal Aid—to assist mortgagors.

Storage: In file folders and on magnetic tapes, drums, and discs.

Retrievability: Name; case file number; property address.

Safeguards: Records maintained in desks and lockable file cabinets; access to automated systems is by passwords and code identification cards; access limited to authorized personnel.

Retention and disposal: Obsolete records destroyed or shipped to Federal Records Center in compliance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, asssistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual; other individuals; current or previous employers; credit bureaus; financial institutions; other corporations or firms; Federal Government agencies; non-federal government (including foreign, state and local) agencies; law enforcement agencies.

HUD/DEPT—34

System name: Pay and Leave Records of Employees.

System location: All Department offices. For a complete listing of offices, with addresses, see Appendix A.

Categories of individuals covered by the system: HUD employees.

Categories of records in the system: Name, Social Security number and employee number, grade, step and salary; organization, retirement of FICA data as applicable; Federal, state and local tax deductions; regular and optional Government life insurance deduction(s), health insurance deduction and plan or code; cash award data; jury duty data; military leave data; pay differentials; union dues deductions; allotments, by type and amount; financial institution code and employee account number; leave status and data of all types (including annual, compensatory, jury duty, maternity, military, retirement disability, sick, transferred, and without pay); time and attendance records, including leave applications and reports, individual daily time reports, adjustments to time and attendance, overtime reports, supporting data, such as medical certificates, number of regular, overtime, holiday, Sunday and other hours worked; pay period number and ending dates; cost of living allowances; mailing address; coowner and/or beneficiary of bonds, marital status and number of dependents; and "Notification of Personnel Actions."

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: Transmittal of data to U.S. Treasury to effect issuance of paycheck to employees and distribution of pay according to employee directions for savings

bonds, allotments, financial institutions and other authorized purposes. Annual reporting of W-2 statements to Internal Revenue Service, Social Security Administration, the individual, and taxing authorities of States, the District of Columbia, territories, possessions, and local governments, except Social Security numbers will be reported only to such authorities that have satisfied the requirements set forth in Section 7(a)(2)(B) of the Privacy Act of 1974. To the Civil Service Commission concerning pay, benefits, retirement deductions, and other information necessary for the Commission to carry on its Government-wide personnel functions; to GAO—for audit; to other Federal government agencies—to facilitate employee transfers; and to State agencies—to verify workmen's compensation injury claims.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manual, machine-readable and magnetic media.

Retrievability: Name of employee; Social Security Number.

Safeguards: Physical, technical, and administrative security is maintained with all storage equipment and/or rooms locked when not in use. Admittance, when open, is restricted to authorized personnel only. All payroll personnel and computer operators and programmers are instructed and cautioned on the confidentiality of the records. Manual files kept in lockable desks, file cabinets and safes.

Retention and disposal: Retained on site until after GAO audit, then disposed of, or transferred to Federal Records Storage Centers in accordance with fiscal records program approval by GAO, as appropriate, or General Record Schedules of GSA.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with procedures in 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel; Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals, supervisors, timekeepers, official personnel records, previous employers, or other Federal government agencies.

HUD/DEPT—35

System name: Personnel Medical Records

System location: In most HUD offices. For a complete list of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: HUD personnel.

Categories of records in the system: Pre-employment medical records and individual medical records of HUD-employees including standard medical forms completed by doctors at time of entrance of duty.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to federal agencies—for review when considering hiring and upon transfer to another agency.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In lockable file cabinets.

Retrievability: By name.

Safeguards: Records kept in locked file cabinet with access by authorized personnel only.

Retention and disposal: Active, kept up-to-date, partly historical. Maintained until retirement, resignation or transfer. Forwarded with official personnel folder when sent out for disposition according to HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410

Record source categories: Primarily from subject individual.

HUD/DEPT—37

System name: Personnel Travel System

System location: All Department offices maintain employee travel records, and several maintain driver permit application records. For a complete listing of offices, with addresses, see Appendix A.

Categories of individuals covered by the system: HUD personnel.

Categories of records in the system: All travel records, including vouchers, requests, advances, receipts for requests, orders, applications for Federal vehicles, driver permits, U.S. Government driver's licenses, driver's physical fitness forms, motor pool records, monthly motor vehicle use records, and GSA vehicle mileage reports. Applications for parking space.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to Treasury—for payment of vouchers; driver's license information transmitted to Department of Transportation for verification with National Driver Register; vouchers and receipts are available to GAO and GSA for audit purposes and vouchers are verified by private transporters.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Files generally stored on standared Government forms in individual file folders or binders.

Retrievability: Almost always retrievably by name, occasionally by Social Security number.

Safeguards: Kept in lockable desks or file cabinets.

Retention and disposal: Records are active and kept up-to-date. Files purged in accordance with HUD Handbook.

System manager(s) and address:

Director & Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the

V 43 / 227 / NOV 24 78

Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual and supervisors.

HUD/DEPT—42

System name: Rent Subsidy Program Files

System location: Headquarters and field offices. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Low-rent housing applicants and recipients under Section 236 and Rent Supplement programs.

Categories of records in the system: Applications for rent subsidy and recertifications include name, address, telephone number, race, household composition, employment data, detailed financial information, monthly rent payment and supplement calculations, HUD review and certification, description of rental unit participant will occupy; subsidized tenant move-out records; verification of employment, income and bank deposits; credit bureau reports; and related correspondence.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to General Accounting Office—for purposes of audit: to IRS—for investigation; to local and state housing authorities—for reference purposes.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders and on magnetic tape/disc/drum.

Retrievability: Name; case file number.

Safeguards: Limited access; locked file cabinets; security checks and limited authorization to secured computer facilities.

Retention and disposal: Files are active and kept up-to-date; partly current and partly historical. Files are either sent to GSA Federal Records Center for storage or disposed in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410

Record source categories: Subject inbdividual; other individuals; current or previous employers; credit bureaus; financial institutions; other corporations or firms; federal government agencies; non-federal government agencies; project and project managers.

HUD/DEPT—43

System name: Property Disposition Files

System location: Headquarters and field offices. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Mortgagors with HUD/FHA insured single-family homes who have had their mortgages foreclosed and properties acquired by HUD; individuals who have had their properties acquired by the Department of Defense and transferred to HUD; single-family mortgagors who defaulted on Section 312 loans and had their properties acquired by HUD; and potential buyers of HUD-held single-family properties.

Categories of records in the system: Documents pertaining to acquisition of foreclosed HUD/FHA insured single-family homes and single-family homes transferred from the Department of Defense. The documents include names, addresses, loan amounts and payments, and reasons for default; leases and rental information if properties are rented; purchasers' family characteristics, income and employment histories, credit reports, sales contracts, and settlement costs; and related correspondence.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to IRS—for auditing income tax returns; to insurance companies—to file claims for amounts due; to mortgagees—to review the credit of prospective purchasers; to local public authorities—to check on acquisition, reuse and prices of real estate.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: Case file number and property address.

Safeguards: Desk; lockable file cabinet; secured computer facilities. Access restricted.

Retention and disposal: Obsolete records are destroyed or sent to storage facility in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; other individuals; current or previous employers; credit bureaus; financial institutions; other corporations or firms; federal government agencies; non-federal (including foreign, state and local) government agencies; real estate brokers and agents.

HUD/DEPT—44

System name: Relocation Assistance Files

System location: Headquarters and field offices. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Displaced persons and relocation claimants who have filed grievances.

Categories of records in the system: Names of relocation claimants; family characteristics; personal and family financial data; relocation needs and problems; claims; documentation and evaluation of claims; recommendations; inquiries and grievances; responses to grievances; audits.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to GAO—for audit purposes; to the Department of Justice—for investigation and prosecution; to local public agencies—for processing, training and monitoring purposes.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: By name and case file number of subject individual.

Safeguards: Stored in lockable file cabinets; access limited to authorized personnel.

Retention and disposal: Files are partly active and partly historical, disposal is in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject and other individuals; current and previous employers; credit bureaus and financial institutions; firms federal and non-federal agencies.

HUD/DEPT—46

System name: Single Family Case Files

System location: Headquarters and field officers. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Individuals who have applied for HUD/FHA mortgage insurance in connection with single family housing programs of the department.

Categories of records in the system: Files contain standard records used for day-to-day maintenance of single-family mortgage cases, including daily case control, mortgage servicing, payment records, loan recommendations, information concerning borrower' inability to make payments, cancellations and monies returned. Also, requests for refinancing income and employment information used in determination of applicant eligibility, insurance documents, sales agreements, conditional and firm commitments, owner requests for appraisals, property descriptions, appraisal and inspection reports; verification of employment and income; credit bureau reports; mortgage note and deed of trust; record of escrow account; correspondence and complaints.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs of prefatory statement. Other routine uses: to welfare agencies—for fraud investigation, to VA—for coordination with HUD in processing construction complaints. Congressional delegation—providing information concerning status of complaints. Complainants and attorneys representing them—review of complainant file for status and information. Builders and attorneys representing them—review of complainant file for status information.

Storage: In file folders and computerized tape, disc and drum.

Retrievability: File by name of individual and case file number.

Safeguards: Records maintained in locked an lockable file cabinets with access limited to authorized personnel.

Retention and disposal: Records are primarily active with some historical data. Inactive files are normally disposed after a two-year period.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Record source categories: Applicants; current and formerly enrolled children and their parents; current and former staff members; doctors, and former institutions attended by the children.

HUD/H—1

System name: Section 8 Lower-Income Rental Assistance Files.

System location: Headquarters and many field offices. For a complete list of these offices, with addresses, see Appendix.

Categories of individuals covered by the system: Tenants in Section 8 Program.

Categories of records in the system: Applicants filing for eligibility and recertification include names; addresses; social security numbers; telephone numbers; family characteristics; employment and income information; HUD review and certification; verification of employment, income and bank deposits; and related correspondence.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: none.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Magnetic tape/disc/drum.

Retrievability: Name of tenant. Inquiry capability by HUD management. Output interface with HPMC Section 8 MIS (occupancy characteristics).

Safeguards: Computer facilities are secured and accessible only by authorized personnel, and all files are stored in a secured area. Technical restraints are employed with regard to accessing the computer and data files.

Retention and disposal: Records system in active and kept up-to-date.

System manager(s) and address:

Director
Office of Organization and Management Information.
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; landlords; financial institutions; employers; and local housing authorities.

HUD/H—2

System name: HUD Temporary Housing File

System location: Contact appropriate Regional Offices for locations of field offices. For a complete listing of Regional Offices, see Appendix A.

Categories of individuals covered by the system: Individuals who apply for temporary housing disaster assistance in Presidentially declared major disaster or emergency areas, and (2) candidates for staff positions at Federal Disaster Assistance Centers.

Categories of records in the system: Personal information is contained, such as name, address, sex, Social Security number, telephone number, wages, job location, family income, insurance data (relating to homes) as pertaining to some applicants, and disapproval or approval of applicants for aid or employment. There is general correspondence concerning complaints, plaudits, reinstatement in jobs or housing, requests for disbursement of payments and inquiries from tenants and landlords in regard to aid. Files also include general administrative and fiscal information, including payroll, payment schedules and forms, travel vouchers, time and attendance records, applications, termination notices, individual and family grant programs, damage and relocation information, leases, contracts, disaster cadre registers, listings of emergency repairs given as a result of specific natural disasters, reasons for tenant eviction or denial of aid, sales information on homes after tenant purchase, and status of dispositions of applicants for housing.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to the FBI—for investigation of possible Small Business Administration loan frauds; to GAO—for the investigation of files and to verify family composition, income and sources of housing plans; to the Small Business Administration—to verify household composition and actual disaster assistance; forwarding of addresses; information concerning contracts, to Local Departments of Public Assistance—for verification of occupancy of victims, their income and relocation; to House of Representatives—specific tenant informaiton is given in response to a Congressional inquiry; to Post Office—in regard to location of individuals; to Departments of Motor Vehicles and State Tax Departments—to find serial number and cost of mobile homes and vehicles; to Local Housing Authorities and departments of community affairs (by state) and the Committee on Economic Opportunity—to determine family compositions, income and sources of income and housing plans concerning relocation; to law enforcement agencies—for relocation information; to Local Housing Authorities and local township police—concerning the forwarding of addresses; to utility companies—in regard to lease dates and forwarding addresses; to Defense Department Investigating Service—concerning mobile home occupancy dates; to county investigating services—to verify address and number of people within households; to local relief and government agencies—information on victims and housing; property ownership; tax rebates; to disaster victims—in regard to disaster assistance and its termination.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Some files are in free text form, such as notes, memos, ledger cards, printed cards and 3 x 5 cards, as well as daily reports. Other files are on Standard Forms Nos. SF 171, SF 52, SF 50, 491.1 or various certification forms relative to the need for assistance.

Retrievability: Name or case file number.

Safeguards: Records are stored in lockable file cabinets in lockable rooms in secured buildings.

Retention and disposal: Some files are active and kept up-to-date, but usually only when an individual is receiving assistance. Other files are inactive and historical only, unless a follow-up on a case is needed within one year after the close-down of the Disaster Field Office. Other files are partly current and partly historical. Some files are permanently retained, others destroyed by shredding according to appropriate schedules concerning disposal authority. When Disaster Field Offices are actively functioning, inactive case files are placed in inactive files. When Disaster Field Offices are inactive, case

files are stored at record centers. However, when a Disaster Field Office has been audited and closed out, any pertinent records are shipped to Regional Offices. There is a periodic review of some files, which includes the removal of obsolete information. Once a tenant is terminated or has vacated a temporary residence, his or her records are placed in a "vacate file". Some files are eventually sent to the archives for permanent retention.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record source categories: Individuals who apply for flood insurance under the National Flood Insurance Program and individuals who are insured under the program.

HUD/PD&R—1

System name: Urban Homesteading Evaluation Data

System location: Cambridge, Massachusetts.

Categories of individuals covered by the system: Urban homesteaders, other residents of Urban Homesteading Demonstration (UHD) target neighborhoods, and unsuccessful applicants for UHD properties.

Categories of records in the system: Demographic, socioeconomic, housing characteristics, and housing costs.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs of prefatory statement. Other routine uses: none.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Survey questionnaires stored in file folders; punch cards, magnetic tape/disc/drum stored in facilities with limited access.

Retrievability: Code number; address.

Safeguards: File folders stored in locked cabinets; machine-readable files stored in secured areas and technical restraints are employed with regard to accessing the computer and machine-readable files. All material accessible only by authorized personnel.

Retention and disposal: Questionnaires are retained for about one month to permit conversion of data into machine-readable format; machine-readable records will be disposed of in approximately three years, early 1980.

System manager(s) and address:

Director, Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street SW.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the Headquarters location, in accordance with 24 CFR Part 16. This location is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials by the individual concerned appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Record source categories: Urban homesteaders, other residents of UHD target neighborhoods, and unsuccessful applicants for UHD properties.

HUD/PD&R—2

System name: Solar Energy Demonstration Survey Files

System location: Headquarters.

Categories of individuals covered by the system: Purchasers and renters of solar heated or cooled housing under the demonstration program; comparative purchasers of conventional heated and cooled housing; prospective purchasers of housing marketed under the demonstration program.

Categories of records in the system: Housing characteristics, reason for moving, utility expenditures, neighborhood characteristics, perception of housing and subdivision, housing costs and financing characteristics, marketing attitudes toward solar energy, operating experience with heating and cooling systems, socioeconomic information.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraph in the prefatory statement. Other routine uses: Real Estate Research Corporation (Chicago, Ill.) for analysis and evaluation of solar energy use and its acceptance by the public.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders and on magneitc tape/disc/drum.

Retrievability: Name; address; code number; and index.

Safeguards: Computer facilities are secured and accessible only to authorized personnel. The name-address index file will be kept in the Department in lockable file cabinets, with access limited to key authorized personnel.

Retention and disposal: Records will be maintained until followup interviews have been completed. Records of survey participants will be destroyed as each cycle ends or the participants leave the program. Hard copy questionnaires will be destroyed after they are encoded into machine readable format. All records will be destroyed at the conclusion of the study, scheduled to end in approximately five years.

System manager(s) and address: Director, Office of Organization and Management Information Department of Housing and Urban Development 451 Seventh Street, S.W. Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the Headquarters location, in accordance with 24 CFR Part 16. This location is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. This location is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials by the individual concerned appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development. 451 Seventh Street SW., Washington, D.C. 20410.

Record source categories: Subject individuals.

HUD/PD&R—3

System name: Urban Reinvestment Task Force Data.

System location: Cambridge, Mass.

Categories of individuals covered by the system: Participants in Neighborhood Housing Services (NHS) Program and other residents of NHS neighborhoods.

Categories of records in the system: Socio-economic, demographic and housing characteristics of participants, their perceptions of the Neighborhood, and of the NHS program, and housing investment behavior of residents.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: none.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders, punch cards, magnetic tape and computer disc.

Retrievability: Identification code.

Safeguards: Access to file folders and computer files limited to authorized personnel.

Retention and disposal: Retained until June 1980 and then destroyed.

System manager(s) and address: Director, Office of Organization and Management Information, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the Headquarters location in accordance with 24 CFR Part 16. This location is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the Headquarters location. This location is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Record source categories: Survey participants.

HUD/PD&R—4

System name: Prepurchase Counseling Demonstration and Evaluation Records.

System location: Cambridge, Mass.

Categories of individuals covered by the system: Individuals who seek homes and inquire about the program; first-time homeseekers who join the program, counseled individuals after they purchase a home or decide not to purchase; and counseled individuals who default on their mortgages.

Categories of records in the system: Socio-economic, demographic, financial, attitudinal and, if appropriate, mortgagor payment information.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses in prefatory statement. Other routine uses: none.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders and on magnetic tape.

Retrievability: Name and Identification No.

Safeguards: Files are maintained in a secured data storage bank and in lockable file cabinets with access limited to authorized persons.

Retention and disposal: Records are retained until December 31, 1980 and then destroyed.

System manager(s) and address: Director, Office of Organization and Management Information, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the Headquarters location in accordance with 24 CFR Part 16. This location is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the Headquarters location. This location is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If addtional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Record source categories: Subject individual, institution servicing the mortgage and HUD approved counseling agency.

APPENDIX A—OFFICIALS TO RECEIVE INQUIRIES, REQUESTS FOR ACCESS AND REQUESTS FOR CORRECTION OR AMENDMENT

Headquarters

Privacy Act Officer, 451 Seventh Street SW., Washington, D.C. 20410.

Region I

Regional Administrator, Room 800, John F. Kennedy Federal Building, Boston, Mass. 02203.

Area Offices

Area Manager, Bulfinch Building, 15 New Chardon Street, Boston, Mass. 02114.

Area Manager, One Financial Plaza, Hartford, Conn. 06103.

Area Manager, Norris Cotton Federal Building, 275 Chestnut Street, Manchester, New Hampshire 03103.

Service Office

Supervisor, 330 Post Office Annex, Providence, Rhode Island 02903.

Valuation/Endorsement Stations

Supervisor, Federal Building and Post Office, 202 Harlow Street, Bangor, Maine 04401.

Supervisor, Federal Building, Elmwood Avenue, Burlington, Vermont 05401.

Region II

Regional Administrator, 26 Federal Plaza, New York, New York 10007.

Area Office

Area Manager, Suite 800, Statler Building, 107 Delaware Avenue, Buffalo, New York 14202.

Area Manager, 666 Fifth Avenue, New York, New York 10019.

Area Manager, Gateway I Building, Raymond Plaza, Newark, New Jersey 07102.

Caribbean Area Office

Area Manager, Federal Office Building, Room 428, Carlos Chardon Avenue, Hato Rey, Puerto Rico 00917.

Service Offices

Supervisor, Leo W. O'Brien Federal Building, North Pearl Street and Clinton Avenue, Albany, New York 12207.

Supervisor, The Parkade Building, 519 Federal Street, Camden, New Jersey 08103.

Region III

Regional Administrator, Curtis Building, 6th and Walnut Streets, Philadelphia, Pa. 19106.

Area Offices

Area Manager, Two Hopkins Plaza, Merchantile Bank and Trust Building, Baltimore, Maryland 21201.

Area Manager, Curtis Building, 625 Walnut Street, Philadelphia, Pa. 19106.

Area Manager, Two Allegheny Center, Pittsburgh, Pennsylvania 15212.

Area Manager, 701 East Franklin Street, Richmond, Virginia 23219.
Area Manager, Universal North Building, 1875 Connecticut Avenue NW., Washington, D.C. 20009.
Service Office
Supervisor, New Federal Building, 500 Quarrier Street, Charleston, West Virginia 25330.
Valuation/Endorsement Station
Supervisor, Delaware Trust Plaza, 1800 Pennsylvania Avenue, Suite 604, Wilmington, Delaware 19806.

Region IV

Regional Administrator, 1371-1375 Peachtree Street NE., Atlanta, Georgia 30309.
Area Offices
Area Manager, Peachtree Center Building, 230 Peachtree Street NW., Atlanta, Georgia 30303.
Area Manager, Daniel Building, 15 South 20th Street, Birmingham, Alabama 35233.
Area Manager, 1801 Main Street, Jefferson Square, Columbia, South Carolina 29202.
Area Manager, 415 N. Edgeworth Street, Greensboro, North Carolina 27401.
Area Manager, 101-C Third Floor, Jackson Mall, 300 Woodrow Wilson Avenue, West, Jackson, Mississippi 39213.
Area Manager, Peninsular Plaza, 61 Riverside Avenue, Jacksonville, Florida 32204.
Area Manager, One Northshore Building, 1111 Northshore Drive, Knoxville, Tennessee 37919.
Area Manager, Children's Hospital Foundation Building, 601 South Floyd Street, Louisville, Kentucky 40201.
Service Officers
Supervisor, 3001 Ponce de Leon Boulevard, Coral Gables, Florida 33134.
Supervisor, Federal Building, 700 Twiggs Street, Post Office Box 2097, Tampa, Florida 33601.
Supervisor, Federal Building—U.S. Courthouse, 80 N. Hughey Avenue, Post Office Box 1400, Orlando, Florida 32802.
Supervisor, 28th Floor, 100 North Main Street, Memphis, Tennessee 38103.
Supervisor, U.S. Courthouse, Federal Building Annex, 801 Broadway, Nashville, Tennessee 37203.

Region V

Regional Administrator, 300 South Wacker Drive, Chicago, Illinois 60606.
Area Offices
Area Manager, 1 North Dearborn Street, Chicago, Illinois 60602.

PART III

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

[4510-27-M]

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publications in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to it publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental ageny having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

NEW GENERAL WAGE DETERMINATION DECISIONS

Alabama—AL78-1093.

POWER EQUIPMENT OPERATORS - BUILDING CONSTRUCTION

GROUP I

Backhoe Oliver 88, Fordson, dynahoe, dual purpose & similar machine, Barber Green loader-euclid loader or similar type, cherry picker (cableway), compressor (steel erection), conway or similar mucking machines, dragline, gradall, shovel, backhoe, etc., (crawler or truck), front end loaders, hydraulic boom, Jersey spreader, Letourneau or Tournapull (scrapers over 20 yds. struck), mucking machines, pavement breaker (air ram), paver (concrete), pulsometer, push button (buzz box) elevator, road boring machine, road mix machines, Ross carrier & similar machines, post hole digger, shovel (tunnels), side boom, spreader (asphalt), scoopmobile-tractor-shovel over 1-½ yds., trenching machines, tractor type demolition equipment, winch truck "A" Frame

DECISION NO. NY78-3077 - Mod. #1

POWER EQUIPMENT OPERATORS - BUILDING CONSTRUCTION (CONT'D)

GROUP II

Compactor self-propelled, grader, bulldozer D7 & similar tractors with a draw bar horsepower of 100 & over maintenance engineer, mechanic (outside) all types, welder, scraper-20 yds. struck & under, machine pulling sheep's foot roller, etc., rollor 4 ton and over, vib. roller

GROUP III

Asphalt plant, boiler (high pressure), bulldozer D6 & similar tractors with a draw bar horsepower less than 100, compressor, compressor plant, concrete mixing plants, concrete pump, conveyor belt machine-irrespective of motor size, fireman, forklift, forklift (electric), joy drill or similar tractor drilling machine, loader-1-¼ yds., & under, lighting unit (portable & generator), locomotive (all sizes), mixer concrete-21E & over, portable asphalt plant, portable batch plant, portable crusher, quarry master, stone crusher, welding machine (steel erection excavation), well drilling machine, well point system

GROUP IV

Air tractor drill, batch plant, bending machine, concrete breaker, concrete spreader, compressor to 125 cu. ft., curb cutter machine, dust collector, farm tractor (all types), finishing machine concrete, material hooper-sand-stone-cement, mixer-concrete-under 21E, Muching grass spreador, heator-all types, pump, pump station (water & sewer), pump-gypsum, etc., concrete, pump-plasterer roller under 4 ton, spreading & fine grading machine, steam Jenny, steel Jenny, steel outing machine, sweeper, syphon pump air steam, tar joint machine, Turbo jet burner or similar equipment vibrator (1 to 5) fine grading machine

GROUP V

Concrete saw, mechanic's helper, oiler (fuel truck), oiler (grease truck), paint compressor, welder's helper

GROUP VI

A. Master mechanic, Assistant Master Mechanic
B. Helicopter hoist op.
C. Utility Man
D. Welder - certified
E. SEcond engineer on cranes 30 ton and over
F. Cable splicer
G. Helicopter pilot
H. Helicopter signalman
I. Engineer, all tower cranes, all climbing cranes and all cranes of 100 ton and regardless of how the same is rigged (except for pile rigs)

DECISION NO. NY78-3077 - Mod. #1

POWER EQUIPMENT OPERATORS - BUILDING CONSTRUCTION (CONT'D)

GROUP VI (CONT'D)

J. Cranes (crawlers or truck) 100 ft. but less than 149 ft
K. Cranes (crawlers or truck) 149 ft. and over
L. Loaders op. (over 5 yd. capacity)
M. Shovel op. (over 4 yd. capacity)

GROUP VII

Concrete-portable hoist, crane & hoist engineer-steel (concrete, material, super structure, sub-structure), derrick (stone-steel), elevator & cage, engineer-pile driver, overheadcrane, power house plant, telephiem, whirly, hoist (single, double or triple drum), hoist (portable mobile unit), hoist engineer-concrete (crane, derrick, mine hoist), hoist engineer material

GROUP VIII

Oiler - Asphalt Paver

FOOTNOTE:

a. An employee who has completed two to five years' service shall receive a vacation of one week with pay; each additional year an additional one day vacation with pay; ten or more years, a vacation for two weeks each year; for each year of completed service thereafter to and including fifteen years' service, an addition of one day vacation with pay; fifteen or more years of service, a vacation of three weeks each year with pay.

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

Group 1: Partsman (heavy duty repair shop parts room when needed); Repairman Helper

Group 2: Compressor, electrically, diesel or gas powered etc.; Hydraulic Monitor; Material Loader and/or Conveyor Operator (handling building material); Mixer Box Operator (concrete Plant); Pump Operator; Spreader Boxman (with screeds); Tar Pot Fireman (power agitated)

Group 3: Oiler; Fireman; Switchman; Brakeman; Deckhand; Tar Pot Fireman; Box Operator (bunker); Locomotive (up to and including 30 tons); Roller (5 tons and under); Screedman (except asphaltic concrete paving); Self-propelled, automatically applied concrete curing machine (on streets, highways, airports and canals); Tugger Hoist, single drum; Rodman and Chainman

Group 4: Boom Truck or Dual Purpose "A" Frame Truck; Dinky Operator; Fork Lift or Lumber Stacker (construction job site); Material Hoist (1 drum); Straddle Truck; Ross Carrier and similar (job-site)

Group 5: Agri-Cat (mini-cat); Concrete Mixer (up to 2 yards); Concrete Pumps or Pumpcrete Guns; Generators, gasoline or diesel driven (100 K.W.); Lubrication and Service Engineer (mobile and grease rack); Towermobile; Welding Machine (gasoline or diesel)

Group 6: Combination Loader and Backhoe including Hopto (up to and including 1/2 yard); Concrete Batch Plants (wet or dry); Concrete Saws and/or Grinder (self-propelled unit on streets, highways, airports and canals); Drilling Machinery (not to apply to waterliners, wagon drills or jackhammers); Highline Cableway Signalman; Loader (up to and including 2½ cu. yds.); Lull High Lift; Maginnis Internal Full Slab Vibrator (on airports, highways, canals and warehouses); Mechanical Finishers (concrete) (large Clary, Johnson Bidwell Bridge Deck or similar types); Mobile Crane Driver; Pavement Breakers; Portable Crushers; Power Jumbo Operator (setting slip forms, etc. in tunnels); Rollers (over 5 tons); Self-propelled Compactor (single engine); Slip Form Pumps (power driven hydraulic, electric, air, gas, etc. lifting device for concrete forms); Small Rubber-tired Tractors; Trencher (up to and including 6 feet)

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Group 7: Crusher Plant; Dual Drum Mixer; Gradesetter (mechanical or otherwise); Hoist (2 drums); Loader (over 2½ cu. yds. up to and including 5 cu. yds.); Mechanical Finishers or Spreader Machine, Asphalt (Barber Greene and similar); Mine or Shaft Hoist; Mixer-mobile (over 5 tons); Pavement Breaker, Truck mounted, with Compressor Combination; Pavement Breaker with Compressor Combination (operates 1 or 2); Pipe Cleaning Machine (tractor propelled and supported); Pipe Wrapping Machine (tractor propelled and supported); Pipe Bending Machine (pipe lines only); Self-propelled Elevating Grade Plane; Slusher Operator; Small Tractor (with boom D-6 or similar); Trancher (over 6 ft.); Water Tanker (pulled by Euclids, T-Pulls, DW-10, 20, 21 or similar); Instrument Man

Group 8: Boring Machine; Cast-in-place Pipe Laying Machine; Concrete Batch Plant (multiple units); Combination Loader and Hydraulic Backhoe (over 1/2 yd. up to and including 3/4 yd.); Conveyor (tunnel); Engineer, Locomotive (over 30 tons up to and including 100 tons); Finishing Machine Operator (airports and highways); Hydraulic Backhoe (over 1/2 yard to and including 3/4 yard); Kolman Loader; Mechanic Trench Shield; Mucking Machine; No-joint Pipe Laying Machine; Portable Crushing and Screening Plants; Saurman type Dragline (under 5 yards); Self-propelled Boom type Lifting Device; Stationary Pipe Wrapping, Cleaning and Bending Machine; Surface Heater and Planer; Tunnel Badger; Tri-batch Paver

Group 9: Boom type Backfilling Machine; Combination Mixer and Compressor (gunite); Do-more Loader and Adams Elegrader; Lull Hi-lift (40' or over); Rubber-tired Earthmoving Equipment (up to 12 cu. yds.); Wheel Trencher (over 6")

Group 9-A: Dozers; Heavy Duty Repairman or Welder; Push Cats; Scrapers; Self-propelled Compactor with dozer; Sheep Foot; Tractors; Tractors (with boom, larger than D-6 and similar)

Group 10: Chicago Boom; Hoist (3 drums); Koehring Skooper; Loader (over 5 yards up to and including 12 yards); Locomotive (over 100 tons) (single or multiple units); Power Blade Operator; Rubber-tired Earthmoving Equipment (up to and including 35 cu. yds., Euclid, T-Pulls, DW-10, 20, 21 and similar); Saurman type Dragline (5 yards or over); Soil Stabilizer (P & H equal); Sub-grader (Gurries or other automatic type); Track-laying type Earthmoving Machine (single engine with tandem scraper); Tractor, Compressor, Drill Combination; Tractor (tandem scraper); Tractors (D-9 or equivalent); Chief of Party

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Group 10-A: Cranes (not over 25 tons); Power Shovels, Clamshells, Draglines, Backhoes, Gradealls (up to and including 1 cu. yd.)

Group 11: Automatic Slip Form Paver (concrete or asphalt); Cranes (over 25 tons); DW-10, 20, etc. (Tandem); Earthmoving Machine (multiple propulsion power units and two or more scrapers) (up to and including 35 cu. yds. struck MRC); Highline Cableway; Lift Slab Machine; Loader (over 12 yards); Power Shovels, Clamshells, Draglines, Backhoes, Gradealls (over 1 yard and up to 7 yards); Power Blade Operator (10 or over); Pre-stress Wire Wrapping Machine; Self-propelled Compactor (with multiple propulsion power units); Single Engine Rubber Tired Earth Moving Machine (with tandem scraper); Tandem Cats; Tower Cranes, Mobile; Trencher (pulling attached shield); Universal, Liebher, Linden and similar types of tower cranes; Wheel Excavator (up to and including 750 cu. yds. per hour)

Group 12: Band Wagon (in conjunction with wheel excavator); Derricks; Drill Rigs; Multi-propulsion Earth Moving Machines (2 or more scrapers) (over 35 cu. yds. "struck" MRC); Power Shovels and Draglines (7 cu. yds. m.r.c. and over); Rubber-tired Earthmoving Equipment (over 35 cu. yds., Euclids, T-Pulls, DW-10, 20, 21 and similar); Wheel Excavator (over 750 cu. yds.)

Class 11	11.40	.40	.60		.035
Class 12	9.50	.40	.60		.035

POWER EQUIPMENT OPERATORS:

Class 1: Apsco or equal spreading machine; Backhoe; Backfiller; Boom or which cat; Bituminous mixplace machine; Backsmith; Bituminous surfacing machine; Bulldozer; Crane; Shovel; Dragline; Truck crane; Piledriver; Concrete finishing machine or spreader machine; Concrete breaker; Concrete or pumpcrete pumps; Dinky or standard locomotive; Drill well; Elevating grader; Forklifts; Rubber-tired; Flex-plane; Gradall; Hi-lift, handblade, power; Hoists, tugger type; Hoist, (2 drums) or over one; Guy-derrick; Hyster mechanic; Motor patrol; Mixer 21 cu. ft. or over; Push cat; Pulls and scrapers; Pumps; 2 well points; P&H pulverizer or pulverizer equal to pugmill; Rubber-tired farm type tractor with bull-dozer or hi-lift (over 1/2 yd.), Rubber-tired tractor w/auger; Skimmer scoops; Seaman tiller; Spreader, Jersey; Tract-air used w/drill or Hi-lift; Trenching machine, or ditching machine; Wood chipper with tractor; Self-propelled roller w/10 ft. blade; Concrete pumps; Equipment greader

Class 2: Roller, self-propelled, Power subgroder; Elevator operator

Class 3: Rubber-tired farm type tractor w/bull dozer or hi-lift (1/2 yd. or less)

DECISION NO. IL78-2145

POWER EQUIPMENT OPERATORS (Cont'd)

Class 4: Pump, one well point; All tract type tractors, pulling any type roller or disc.

Class 5: Oiler; All wheel type tractors, Oiler on 30 Hp ditches and over; Oiler, Hydra-crane with 15 ton lifting capacity or more and cranes similar to Hydra-crane w/15 ton capacity and more

Class 6: Air compressor w/valve driving piling air compressors, two (220 cu. ft. capacity or over); Air track drills, air track drill w/compressor; Automatic bins scales w/compressor or generator; Pipeline boring machine; Bulk cement plant w/separate compressor bulk float power operator; Concrete saws, (two); Hydra-lift (single motor); Straw mulcher blower w/spout

Class 7: Backend man on bituminous surfacing machine; Boom or winch truck; Cat wagon w/or without dump; Conveyors, two; Chip spreader, self-propelled concrete saw, on self-propelled; Form grader; Heaters, (motor driven); Hoist, 1 drum; Truck crane oiler; Vibrator, self-propelled.

Class 8: Air track drill (one); Belt drag machine, Power boom, Mechanical; Plasterer applicator; Tract-air

Class 9: Air compressor (220 cu. ft. capacity or over), one; Air compressor under (220 cu. ft.) two; Automatic bins, bulk cement plant w/built in compressor, running of same motor or electric motor; Firemen or switchmen; Form tamper, self-propelled; Light plants (two); Welding machine (two); Pumps (two); or combination or 2 pumps, Light plants, welding machines, air compressor (under 200 cu. ft.); Mud jacks or wood chipper; Mixers, less than 21 cu. ft., Motor mixer w/skip or pump; Pipeline track jack

Class 10: Air compressor, under 220 cu. ft. capacity (one); Conveyor (one); Conveyor operator on self-propelled chip spreader; Heater (one); Motor driven; Light plant (one) pump (one); Welding machine (one) Ulmac or equal spreader

RIVER WORK and LEVEE WORK on MISSISSIPPI and OHIO RIVERS

Class 11: Crane, shovel, dragline 4 yards or more, scraper, 18 yards, struck or over, dredge, derrick and piledriver, push boat operator, mechanic or 4 yards machine or over, Engine man on dredge, Levee man on dredge

Class 12: Oiler on crane, dragline, shovel, 4 yard machine or over; Oiler on dredge

DECISION NO. IA78-4102

BUILDING, WATER TREATMENT PLANTS & SEWAGE DISPOSAL PLANTS CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	Education and/or Appr. Tr.
POWER EQUIPMENT OPERATORS:					
GROUP 1	$ 9.45	.40	.50		.08
GROUP 2	8.05	.40	.50		.08
GROUP 3	7.00	.40	.50		.08

POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITIONS

GROUP 1 - All hoists or steel erecting equipment; Crane, Shovel, Clamshell, Dragline, Backhoe, Derricks, Tower Crane, Cable Way, Concrete Spreader (servicing 2 pavers), Asphalt Spreader, Asphalt Mixer Plant Engineer, Dipper Dredge Operator; Dipper Dredge Craneman, Dual Purpose Truck (boom or winch); Leverman or Engineman (hydraulic dredge), Mechanic, Paving Mixer with tower attached (2 operators required); Pile Driver, Boom Tractor, Stationary, Portable or Floating Mixing Plant, Trenching Machine (over 40 HP), Building Hoist (2 drums), Hot Paint Wrapping Machine, Cleaning & Priming Machine, Backfiller (throw bucket), Locomotive Engineer, Qualified Welder, Tow or Push Boat, Concrete Paver, Seaman Trav-L-Plant or similar machines, CMI Autograder or similar machines, Slip Form Paver, Caisson Augering Machine, Mucking Machine, Asphalt Heater-Planer Unit, Hydraulic Cranes, Mine Hoists; Athey, Barber-Green, Euclid or Heiss Loader, Asphalt Pug Mill, Fireman & Drier, Concrete Pump, Concrete Spreader (servicing 1 paver); Bulldozer, Endloader, Log Chippers or similar machines, Elevating Grader, Group Equipment Greaser, LeTourneaupull & similar machines, DW-10, Hyster Winch & similar machines, Motor Patrol, Power Blade, Push Cat, Tractor Pulling Elevating Grader or Power Blade, Tractor Operating Scoop or Screper, Tractor with Power Attachments, Roller on Asphalt or Blacktop, Single Drum Hoist, Jaeger Mix & Place Machine, Pipe Bending Machine, Flexaplane or similar machines, Automatic Curbing Machines, Automatic Cement & Gravel Batch Plants (1 stop set-up), Seaman Pulvi-Mixer or similar machines, Blaetholer Self-Propelled Rotary Drill or similar machines, Work Boat, Combination Concrete Finishing Machine & Float, Self-Propelled Sheep Foot Roller or Compactor (used in conjunction with a Grading Spread), Asphalt Spreader Screed Operator, Apsco Spreader or similar machine, Slusher, Forklift (over 6000 lbs. cap. or working at heights above 28 ft.), Concrete Conveyors

GROUP 2 - Asphalt Rooster, Fireman & Pump Operator at Asphalt Plant, Mud Jack, Underground Boring Machine, Concrete Finishing Machine, Form Grader with Roller on Earth, Mixers (3 bag to 16E), Power Operated Bull Float, Tractor without Power attachments, Dope Pot (agitating motor), Dope Chop Machine, Distributor (back end), Straddle Carrier, Portable Machine Fireman, Hydro-Hammer, Power Winch on Paving Work; Self-Propelled Roller or Compactor (other than provided for above), Pump Operator (more than 1 well point pump), Portable Crusher Operator, Trench Machine (under 40 HP), Power Subgrader (on forms) or similar machines, Forklift (6000 lbs. or less capacity), Gypsum Pump, Conveyor over 20 HP, Fuller-Kenyon Cement Pump or similar machines; Air Compresnor (275 CFM or over), Driver on Truck Crane or similar machines, Light Plant, Mixers (1 or 2 bag), Power Batching Machine (Cement Auger or Conveyor), Boiler (Engineer or Fireman), Water Pumps, Mechanical Broom, Automatic Cement & Gravel Batch Plants (2 or 3 stop set-up), Small Rubber-tired Tractors (not including backhoes or endloaders), Self-Propelled Curing Machine

GROUP 3 - Oiler, Mechanic's Helper, Mechanical Heater (other than steam boiler), Belt Machine, Small Outboard Motor Boat, Engine Driven Welding Machine

WELDERS: receive rate prescribed for craft performing operation to which welding is incidental.

FOOTNOTE:
a-Employer contributes 4% of basic hourly rate for over 5 years service and 2% of basic hourly rate for 6 months to 5 years service as Vacation Pay Credit. Also 6 paid holidays - New Years Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day

DECISION NO. IA78-4109 PAGE 2

LABORERS CLASSIFICATION DEFINITIONS
GROUP 1 - Carpenter tenders, common laborers, mason tenders
GROUP 2 - Concrete saw, pipesetters, plumber laborer, power tools (barco-vibrator-motar mixers-dynamite handlers-burner on dismantling work to be junked), prime movers, sand points.
GROUP 3 - Caissons after 6' depth, dynamite men, tunnel miners
POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINATIONS
GROUP 1 - Hoists or steel erecting equip.; crane, shovel, clamshell, dragline, backhoe, derrick, tower crane, cableway, concrete spreader, asphalt spreader, asphalt mix plant, dipper dredge, dipper dredge crane, dual purpose truck(boom or winch), leverman or Eng. (hydraulic dredge), mechanic, paving mixer w/tower att., pile driver, boom tractor, mixing plane, trenching mach. over 40 H.P., building hoist (2 drums), hot paint wrapping mach., cleaning & priming mach., backfiller (throw bucket), locomotive, welder, tow or push boat, concrete paver, seaman travel-plant or similar mach., CMI autograder, slip form paver, caisson augering mach., asphalt heater-planer unit, hydraulic cranes, mine hoists, loader (athey,barber-green, euclid or haiss), asphalt pug mill, fireman, drier, concrete pump, bulldozer, endloader, log chippers or similar mach,, elevating grader, group equip. greaser, LeTourneapull & similar mach., DW-10, Hyster winch & similar mach., motor patrol, power blade, push cat, tractor pulling elevating grader or power blade, tractor operating scoop or grader, tractor w/power att., roller on asphalt or black top, 1 drum hoist, Jaeger mix & place mach., pipe bending mach., flexplane or similar mach., auto. curbing mach., auto. cement & gravel batch plant (1 stop set-up), seaman pulvi-mixer or similar mach., blastholer, self-Prop rotary drill or similar mach. work boat, comb. concrete finishing mach & float, self-prop. sheep foot roller (used in conj. w/a grading spread, asphalt spreader screed, Apsco spreader or similar mach., slusher, forklift (over 6000 lbs. cap. or above 28'), concrete conveyors.
GROUP 2 - Asphalt rooster, fireman & pump at asphalt plant, mud jack, underground boring mach. concrete finishing mach., form grader w/roller on earth, mixers 93 bag to 16E), Power op bull float, tractor w/o power att., dope pot agitating motor, dope pump mach., distributor (back end), straddle carrier, portable mach. fireman, hydro-hammer, power winch on paving work, self-prop roller or compactor (other than above), pump op. more than 1 well point pump, portable crusher, trench mach. under 40 H.P., power subgrader on forms, forklifts 6000 lbs or less cap., gypsum pump, conveyor over 70 HP, Fuller Kenyon cement pump or similar mach., Air compressor 275 cfm or over, truck crane or similar mach., light plant, mixers 1-2 bags, power batching mach.(cement auger or conveyor), boiler eng. or fireman, water pump, mech. broom, auto. cement 7 gravel batch plant 2-3 stop set-up, small rubber tired tractor, self- propelled curing machine.
GROUP 3 - Oiler, mechanics helper, mechanical heater other than steam boiler, belt machine, small outboard motor boat, engine driven welding machine.
TRUCK DRIVERS CLASSIFICATION DEFINITIONS
GROUP 1 - 4 wheel trucks, dumpcretes, scoopmobiles 5 c.y. & under or under 7½ T., mixer trucks 3 c.y. & under, air compressors & welding mach,, batch trucks 2-3¼ catches or less, driver helpers, mechanics helpers, greasers, dumpsters, pallet type fork lift, pilot truck.
GROUP 2 - 4 wheel trucks over 5 c.y.or 7½ T. 6-wheel trucks. Koehring or similar dumpsters-track trucks. euclids tournapulls. hurbottom dumps. tournatrailers. tournarockers or similar equip. when used for trans.,under 9 c.y. or 13½ T., tandems & semi-trailer service trucks, mixer trucks over c.y. & including 6½ c.y., fork lift, 4-wheel A-frame trucks used for trans., 4-wheel winch trucks, pavement breakers, batch trucksover 2-4 5¼E batches
GROUP 3 - heavy equip. over 9 c.y. or 13½ T.- trucks licensed for 50,000 lbs. to & incl. 16 c.y. or 21 T. - track trucks - semitrailer water trucks - euclids - hug-bottom dumps-tournatrailers-tpurnarockers-tractor trailers-tandem A-frames-tandem winch trucks-hydro lift trucks or similar equip. used for trans., mixers over 6½ c.y., batch trucks over 4-3¼E batches, single axle lowboy trailers, 6-wheel pole trailers, 2 man oil distributors.
GROUP 4 - heavy equipment over 9 c.y. or 21 T. such as Koehring dumpsters- track trucks-euclids -hug-bottom dumps-tournapulls-tournarockers or similar equip. used for trans., 1 man oil distributors, pole trailers over 6 wheels, water pulls, lowboy trailers, tandem axle or more no weight limitation, dist. & heavy equipment mechanics

Building Construction

Class 2: "A" Frame truck; Blacktop plant (non-automatic); Boring machine; Bulldozer; Cage hoist; Carry-all scraper; Central mix plant (non-automated); Cherry picker five (5) tons and under; Compressor (315 c.f. and over); Concrete paver (single drum over 16S); Concrete pump; Core boring machine; Drill rigs-tractor mounted; Elevator - as a material hoist; Fork lift (factory rating less than 15 ft.); Front end loader (under 4 cu. yds.); Gunnite machine; High pressure boiler (15 lbs. and over); Hoist (one drum); Hydraulic breaking hammer (Drop hammer); Kolman plant loader (screening gravel); Maintenance grease man; Mixer for stabilized base - self-propelled (seaman mixer); Monorail machine; Parapet concrete or pavement grinder; post hole digger (truck or tractor mounted); Power sweeper (Wayne or similar); Pump 4" and over; Pump-crete or squeeze-crete; Road widener (front end of grader or self-propelled); Shell winder (motorized); Snorkel (overhead arms); Roller; Trenching machine (digging capacity of 4 ft. or less); Tugger hoist; vibro tamp; Well drill; Well point system (submersible pumps when used in lieu of well-point system); Winch (motor driven); Winch cat; Winch truck

Class 3: Compressor (under 315 cu. ft.); Concrete paver or mixer (under 16S); Concrete pavement spreaders and finishers (not automated); Conveyor (over 12 ft.); Electric submersible pump (4" and over); Farm tractor with or without accessories; Fine grade machine (not automated); Fireman; Form tamper; Generator (2,500 watts and over); Hydraulic pump; Mechanical heaters - more than two (2) mechanical heaters or any mechanical heater or heaters whose combined output exceeds 640,000 BTU per hour (manufacture's rating); Mulching machine; Oiler; Power driven welding machine - 300 amp. and over (other than all electric); One welding machine under 300 amp. will not require an engineer unless in a battery); Power heaterman (hay drier) Pump (under 4"); Revinius widner (road widener); Steam cleaner or Jenny; Tractor with or without towed accessories, post driver (truck or tractor mounted)

Class 4: Master Mechanic

Class 5: Tower Crane

Class 6: Crane or Derrick with a boom length over 300 ft. including jib

Class 7: Crane or Derrick with a boom length over 150 ft. including jib, and on a piledriver with leads or boom length of over 100 ft.

Class 8: Quad 9 bulldozer or multibowl scraper

POWER EQUIPMENT OPERATORS: HEAVY & HIGHWAY CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments H & W	Pensions	Vacation	App. Tr.
GROUP I	$10.73	1.05	1.05	a	.15
GROUP II	10.37	1.05	1.05	a	.15
GROUP III	9.36	1.05	1.05	a	.15
GROUP IV	8.46	1.05	1.05	a	.15

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Paid Holidays: A through F, providing the employee works the day before and the dat after the holiday.

POWER EQUIPMENT OPERATORS: HEAVY AND HIGHWAY CONSTRUCTION

Group I - Automated concrete spreader (CMI), automatic fine grader, backhoe (except tractor mounted, rubber tired), belt placer (CMI type), blacktop plant (automated), cableway, caisson auger, central mix concrete plant (automated), cherry picker (over 5 tons capacity), concrete pump (8" or over), crane, cranes & derricks (steel erection), dragline, dredge, dual drum paver, excavator (all purpose-hydraulically operated, (gradall or similar), fork lift (factor rated 15 ft. and over), front end loader 4 c.y. and over), head tower (sauerman or equal) hoist (2 or 3 drum), mine hoist, mucking machine or mole, over head crane (gantry or straddle type), piledriver, power grader, quarry master (or equivalent), scraper, shovel, sideboom, slip form paver (if second man is needed, he shall be an oiler), tractor drawn belt type loader, truck crane, tunnel shovel.

Group II - Backhoe (tractor mounted, rubber tired), bituminous spreader and mixer, blacktop plant (non-automated), blast or rotary drill truck or tractor mounted), boring machine, cage-hoist, central mix plant (non-automated and all concrete batching plants), cherry picker (5 tons capacity and under), compressors (4 or less) exceeding 2000 C.F.M. combined capacity concrete paver (over 16S), concrete pump (under 8"), crusher, diesel power unit, drill rigs (tractor mounted), front end loader (under 4 c.y.), hi-pressure - boiler (15 lobs. and over), hoist (one drum) Koiman plant loader and similar type loaders (if another man is required to clean screen or to maintain the equipment, he shall be an oiler), locomotive maintenance/engineer/greaseman/welder, mixer (for stablized base self-propelled), monorail machine, plant engineer, pump crete, ready mix concrete plant, refrigeration equipment (for soil stabilization), road widener, roller (all above subgrade), tractor with dozer and/or pusher, trencher, tugger-hoist, winch, winch cat.

POWER EQUIPMENT OPERATORS: HEAVY AND HIGHWAY CONSTRUCTION CONT'D.

Group III - A-frame truck, compressors (4 not to exceed 2000 C.F.M. combined capacity or 3 or less with more than 1200 C.F.M. but not to exceed 2000 C.F.M.), compressors (any size but subject to other provisions for compressors), dust collectors, generators, pumps, welding machines (4 of any type of combination), concrete pavement spreaders and finishers, conveyor, drill-core, drill-well, electric pumps used in conjunction with well point system, farm tractor with accessories, fine grade machine, fork lift (under 15 ft.), gunite machine, hammers (hydraulic-self-propelled), post hole digger and post driver, power sweeper, roller (grade and fill), submersible electric pump (when used in lieu of well point system), tractor with towed accessories, vibratory compactor, vibro tamp, well point.

Group IV - Aggregate plant, boiler (used in conjunction with production), cement and bin operator, compressors (3 or less not to exceed 1200 C.F.M. combined capacity), compressor (any size, but subject to other provisions for compressors) dust collectors, generator pumps, welding machines (3 or less of any type or combination), concrete paver or mixer (16S and under), concrete saw (self-propelled), fireman, form tamper, hydraulic pump (jacking system), lighting plants, mulching machine, oiler parapet- (concrete or pavement grinder), power broom (towed), power heaterman, revinius widener, shell winder, steam cleaner, tractor.

TRUCK DRIVERS: HEAVY AND HIGHWAY CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments H & W	Pensions	Vacation	Education and/or Appr. Tr.
CLASS 1	$8.74	.60	.75	a	
CLASS 2	8.79	.60	.75	a	
CLASS 3	8.84	.60	.75	a	
CLASS 4	8.99	.60	.75	a	
CLASS 5	9.14	.60	.75	a	

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTE:

a. Paid Holidays: A through f, provided the employee has worked the working day before and after the holiday.

TRUCK DRIVERS: HEAVY AND HIGHWAY CONSTRUCTION:

CLASS 1
Warehouseman, yardmen, truck helpers, pickups, panel trucks, flatboy material trucks(straight jobs), single axle dump trucks, dumpsters, material checkers and receivers, greasers, truck tiremen, mechanic helpers and parts chaser.

CLASS 2
Tandems, batch trucks, mechanics and dispatcher.

CLASS 3
Semi-trailers, low-boy trucks, asphalt distributors trucks, agitator, mixer trucks and dumpercte type vehicles, truck mechanic.

CLASS 4
Specialized earth moving equipment - euclid type or similar off-highway equipment, where not self loaded, and straddle (ross) carrier.

CLASS 5
Off- highway tandem back-dump, twin engine equipment and double hitched equipment where not self loaded.

SUPERSEDEAS DECISION

STATE: OHIO COUNTIES: * See Below
DECISION NUMBER: OH78-2152 DATE: Date of Publication
Supersedes Decision No.: OH78-2056, dated May 12, 1978 in 43 FR 20673
DESCRIPTION OF WORK: Building Construction (Does not include family homes & garden type apartments up to and including 4 stories)

*ADAMS, BROWN, BUTLER, CHAMPAIGN, CLARK, CLERMONT, CLINTON, DARKE, DELAWARE, FAIRFIELD, FAYETTE, FRANKLIN, GALLIA, GEAUGA, GREENE, HAMILTON, HIGHLAND, LAWRENCE, LICKING, MADISON, MEIGS, MIAMI, MONTGOMERY, MUSKINGUM, PERRY, PICKAWAY, PIKE, PREBLE, ROSS, SCIOTO, SHELBY, UNION, AND WARREN

Delegation of Authority to Conduct Program Activities; Republication

V 43 / 227 / NOV 24 1978

[8025-01-M]

SMALL BUSINESS ADMINISTRATION

[Delegation of Authority No. 30, Rev. 15]

FIELD OFFICES

Delegation of Authority To Conduct Program Activities; Republication

This republication of Delegation of Authority No. 30, Revision 15, is done as a matter of reader convenience combining the various amendments and corrections made to this document since it was published March 12, 1975 (40 FR 11657). The amendments and corrections appear in 41 FR 8240; 41 FR 16234, 17829, 28049, 36702, 47610, 50883; 42 FR 56990, 59153, 60619, 61347, 62243; 43 FR 55, 1577, 6667, 10998, 13651, 22261, 36152, 45662, and 46914.

Delegation of Authority No. 30, Revision 15, combining the various amendments and corrections since March 12, 1975, is set forth below:

HAROLD A. THEISTE,
Acting Associate Administrator for Operations.

DELEGATIONS OF AUTHORITY TO CONDUCT PROGRAM ACTIVITIES IN FIELD OFFICES

Pursuant to authority vested in me by the Small Business Act, 72 Stat. 384, as amended, and the Small Business Investment Act of 1958, 72 Stat. 689, as amended, the following authority is hereby delegated to the Associate Administrator for Operations together with further authority to delegate, amend, modify, or revoke any authority delegated to field positions hereinafter set forth:

PREFACE

The policies, rules, procedures and other requirements, as well as citations to the statutes, governing the programs for which this delegation of authority is issued, are contained in various parts of the Regulations of the Small Business Administration, Chapter I of Title 13 of the Code of Federal Regulations, as amended from time to time in the FEDERAL REGISTER.

PART I—FINANCING PROGRAM

SECTION A—*Loan Approval Authority.*

c. Chief, office of business development, region III, R/O only	$100,000
d. Contract specialist, region X, R/O only	250,000
e. District director, Washington, Richmond, and Philadelphia, D/O's only	Unlimited
f. District directors, New York, Newark, and Chicago, D/O's only	350,000
g. District directors, region IX and Anchorage, Portland, and Seattle, D/O's only	500,000
h. Deputy district director, Washington, D/O	Unlimited
i. Assistant District directors for PA, San Francisco and Los Angeles, D/O's only	100,000
j. Assistant district director for PA, New York and Newark, D/O's only	350,000
k. Contract specialist, Anchorage, D/O only	250,000

2. To arrange for the performance of such contracts as stated in paragraph 1 above by negotiating or otherwise letting subcontracts to small business concerns or others. Contracts shall not exceed the following amounts:

a. Regional director	Unlimited
b. Assistant regional director for PA	Do.
c. Chief, office of business development, region III, R/O only	$100,000
d. Contract specialist, region X, R/O only	250,000
e. District director, Washington, St. Louis, Richmond, and Philadelphia, D/O's only	Unlimited
f. District directors, New York, Newark, and Chicago, D/O's only	350,000
g. District directors, Region IX, Anchorage, Portland, and Seattle, D/O's only	500,000
h. Deputy district director, Washington, D/O	Unlimited
i. Assistant district director for PA, San Francisco and Los Angeles, D/O's only	100,000
j. Contract specialist, Anchorage, D/O	250,000
k. Business development specialist, St. Louis, D/O only	Unlimited

3. To certify to any officer of the Government having procurement powers that the Small Business Administration is competent to perform any specific Government procurement contract to be let by any such officer, such contract not to exceed the following amount:

a. Regional director	Unlimited
b. Assistant regional director for PA	Do.
c. Chief, business development, region III, R/O only	Do.
d. Contract specialist, region X, R/O only	$250,000
e. District director, Washington, Philadelphia, Richmond, and St. Louis, D/O's only	Unlimited
f. District directors, New York, Newark, and Chicago, D/O's only	350,000
g. District directors, region IX, D/O's; Seattle, Portland, and Anchorage, D/O's	500,000
h. Deputy district director, Washington, D/O	Unlimited
i. Assistant district director for PA, region IX	500,000
j. Assistant district director for PA, New York and Newark, D/O's	350,000
k. Contract specialist, Anchorage, D/O only	250,000
l. Business development specialist, St. Louis, D/O	Unlimited

PART VII—MANAGEMENT ASSISTANCE PROGRAM

SECTION A—*Call Contracts Authority.*

1. *Administration and Management of Call Contracts.* To take all necessary actions in connection with the administration and management of contracts awarded under the authority granted in Section 7(j) of the Small Business Act, as amended, (formerly under Section 406 of the Economic Opportunity Act of 1964) except changes, amendments, or termination of the contract.

a. Regional Director
b. Assistant Regional Director for Management Assistance
c. District Director
d. Assistant District Director for Management Assistance

PART VIII—LEGAL SERVICES

SECTION A—*Authority to Conduct Litigation Activities.*

1. To conduct all litigation activities, including SBIC and Economic Development Administration matters, as assigned, and to take all action necessary in connection with matters in litigation; and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers.

EXCEPT:

a. *To compromise or sell* any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon;

b. *To deny liability* of the Small Business Administration under the terms of a participation or guaranty agreement (including lease guarantees); or

c. *To authorize suit* for recovery from a participating institution under any alleged violation of a participation or guaranty agreement; or

d. *To accept a lump sum settlement or to purchase property* under the lease guarantee:

(1) Regional Director
(2) Regional Counsel
(3) Attorney, Regional Office
(4) District Counsel
(5) Attorney, District Office
(6) Branch Counsel
(7) Attorney, Branch Office

SECTION B—*Loan Closing Authority.*

1. To close and disburse approved SBA loans and to close EDA loans, as authorized:

a. Regional Director
b. Regional Counsel
c. Attorney, Regional Office
d. District Counsel
e. Attorney, District Office
f. Branch Counsel
g. Attorney, Branch Office

2. To approve, when requested, in advance of disbursements, conformed copies of notes and other closing documents; and certify to the participating bank that such documents are in compliance with the participation authorization:

a. Regional Director
b. Regional Counsel
c. Attorney, Regional Office
d. District Counsel

e. Attorney, District Office
f. Branch Counsel
g. Attorney, Branch Office

3. To approve or disapprove fees charged by borrowers' counsel:

a. Regional Director
b. Regional Counsel
c. Attorney, Regional Office
d. District Director
e. District Counsel
f. Attorney, District Office
g. Branch Manager
h. Branch Counsel
i. Attorney, Branch Office

PART IX—ELIGIBILITY AND SIZE DETERMINATIONS

SECTION A—*Eligibility Determinations.*

1. *Eligibility Determination Authority.* In accordance with Small Business Administration standards and policies, to determine eligibility of applicants for assistance under *any program of* the Agency: *EXCEPT the SBIC program.*

a. Regional Director
b. All officials having the authority and assigned responsibility to take final action on the assistance requested.

SECTION B—*Size Determinations.*

1. *Size Determination Authority.* In accordance with Small Business Administration Small Business Size Standards Regulations, to make initial size determinations of applicants for assistance under *any* program of the Agency:

a. Regional Director
b. All other officials having authority and assigned responsibility to take final action on the assistance requested, *EXCEPT* the SBIC procurement and sales activities.

2. *Size Determinations for Government Procurement and Sales.* In accordance with Small Business Administration Small Business Size Standards Regulations, to make size determinations for government procurement and sales activities.

a. Regional Director
b. Assistant Regional Director for PA
c. District Director, EXCEPT Region X.

PART X—ADMINISTRATIVE

SECTION A—*Authority to Purchase, Rent, or Contract for Equipment, Service, and Supplies.*

1. *Purchase Reproductions of Loans Documents.* To purchase reproductions of loan documents, chargeable to the revolving fund requested by U.S. Attorneys in foreclosure cases:

a. Regional Director
b. Assistant Regional Director for Administration
c. District Director
d. Branch Manager

2. *Office Supplies and Equipment.* To purchase office supplies and equipment and rent regular office equipment and furnishings; contract for repair and maintenance of equipment and furnishings; contract for printing (Government sources only); contract for services required in setting up and dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to Chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that Chapter:

a. Regional Director
b. Assistant Regional Director for Administration
c. District Director
d. Branch Manager

3. *Contract for Services.* To contract for services for the agency not exceeding the monetary amount of $2,500 pursuant to Chapter 4 of Title 41, United States Code, subject to the limitations contained in section 257 (a) and (b) of that Chapter:

a. Regional Director
b. Assistant Regional Director for Administration.

4. *Rental of Motor Vehicles.* To rent motor vehicles when not furnished by this Administration:

a. Regional Director
b. Assistant Regional Director for Administration
c. District Director
d. Branch Manager

5. *Rental of Conference Space.* To rent temporarily SBA conference space located within the respective geographical jurisdiction.

a. Regional Director

6. *Use of Seal of the Small Business Administration.* To certify true copies of any books, records, papers, or other documents on file with the Small Business Administration; to certify extracts from such material; to certify the nonexistence of records on file; and to cause the Seal of the Small Business Administration to be affixed to all such certification.

a. Regional Director
b. District Director
c. Branch Manager

PART XI—REDELEGATION AUTHORITY

SECTION A—Redelegation.

1. The Associate Administrator for Operations may amend, modify, or revoke specific authorities delegated to field positions within the limitations of this document.

2. The Administrator shall approve delegations expanding the scope of any delegation herein.

3. The authority delegated herein may be exercised by any SBA employee designated as acting in a position designated herein.

4. Regional directors, district directors, and branch managers may withhold or limit authorities delegated to those positions prescribed in this document for a period not to exceed six months. Information relating to these temporary exceptions will be maintained and available for examination in their respective field offices.

CHAPTER II—DEPARTMENT OF ENERGY

PART 473—AUTOMOTIVE PROPULSION RESEARCH AND DEVELOPMENT

Review and Certification of Grants, Cooperative Agreements, Contracts, and Projects

AGENCY: Department of Energy.

ACTION: Final rule.

SUMMARY: The Department of Energy hereby issues a final rule to implement section 304(f) of the Department of Energy Act of 1978—Civilian Applications. This Act confers authority on the Secretary of Energy to expend Federal funds in order to accelerate the development of certain advanced automobile propulsion system alternatives to the existing internal combustion engine. Today's final rule prescribes procedures, standards, and criteria for review and certification of new grants, contracts, cooperative agreements, Department of Energy projects, or other agency projects to be funded under the Act with the object of insuring that they supplement rather than supplant, duplicate, displace, or lessen research and development activities in the private sector.

EFFECTIVE DATE: November 20, 1978.

FOR FURTHER INFORMATION CONTACT:

George M. Thur, Office of Conservation and Solar Applications, Department of Energy, 20 Massachusetts Avenue NW., Washington, D.C. 20545, 202-376-4675.

SUPPLEMENTARY INFORMATION:

A. Background

On July 24, 1978, the Department of Energy (DOE) published a notice of proposed rulemaking under section 304(f) of the Department of Energy Act of 1978—Civilian Applications (Act), which requires issuance of administrative regulations setting forth procedures, standards, and criteria to insure that all new grants, contracts, cooperative agreements, DOE projects, and other agency projects do not supplant, duplicate, lessen, or displace research and development efforts in the private sector for advanced automotive propulsion systems. 43 FR 31929 (July 24, 1978). A scheduled public hearing was canceled because the DOE did not receive any requests to speak. However, three sets of comments were filed which raised a number of issues and resulted in some alterations of the proposed regulations.

B. Discussion of Comments

Relationship of part 473 and general financial assistance and procurement regulations

One commenter pointed out that although the proposed § 473.1 clearly stated that the new procedures, standards, and criteria of part 473 were in addition to the procedures and requirements of general DOE financial assistance and procurement regulations, the section did not similarly recognize that part 473 is also in addition to the general financial assistance and procurement regulations of other Federal agencies which would apply to research and development funded by them under the Act. The commenters suggested a revision to the concluding sentence of § 473.1 which, as proposed, read as follows: "Insofar as grants, cooperative agreements, and contracts are concerned, these regulations provide procedures and requirements that are in addition to those generally applicable *under the DOE assistance regulations of 10 CFR Chapter 10 and the DOE procurement regulations of 41 CFR Chapter 9.*" (Emphasis added.) In substance, the commenter suggested that the underscored prepositional phrase be revised to read "under the assistance and procurement regulations of DOE, or the agency awarding the grant or contract."

Today's final regulations contain two revisions in reaction to this comment. First, § 473.1 is promulgated with a redrafted concluding sentence stating that the final regulations are in addition to the procedures and requirements generally applicable "under the assistance and procurement regulations of the Federal agency funding research and development under the Act." The second change is to § 473.11(a) and was prompted by a general review of the proposed regulations to determine whether the comment with respect to § 473.1 was applicable to other parts of the rule. Paragraph 473.11(a), as proposed, would have required an unsolicited proposal for a grant, cooperative agreement, or contract under the Act to include items of information required by § 473.10 together with the information to be submitted under the "Guide for the Submission of Research Proposals from Educational Institutions" or the "Guide for Submission of Research and Development Proposals by Individuals and Organizations," as applicable. These guides are DOE documents and apply only to unsolicited proposals filed with the DOE. In order not to exclude other agencies' procedures and requirements inappropriately in certain circumstances, the DOE today promulgates a revised version of § 473.11(a) which states that the items of information required by § 473.10 are to be included with the proposal document filed under the assistance or procurement regulations of the DOE or other Federal agency which would fund the proposed research and development under the Act.

Direct notification of proposed research and development to the automotive industry

Two commenters urged that members of the automotive industry should be notified *directly* of proposed research and development and be asked specifically for a statement of objections, if any, on the ground of noncompliance with the standards and criteria of § 473.30. One of these commenters went so far as to suggest circulation of a voluntary questionnaire to the industry. Section 473.20 of the proposed regulations provided only for *constructive* notification by public notice in the Commerce Business Daily consisting of a statement describing the proposed research and development and inviting submission within 30 days of written objections with supporting information. The DOE declines to provide for direct notice because it is of the view that the proposed § 473.20 would provide adequate notice to the automotive industry, and further, that an additional direct notice to a specified few would be an unnecessary expense.

Definition of "research and development"

Two commenters made observations which implicitly raised the need for a definition of the term "research and development" in the definitions given in § 473.2. One of the commenters suggested that the proposed regulations were unclear as to whether activities such as project planning and evaluative testing would be part of a research and development project. Another commenter cited an introductory statement in the preamble to the proposed rule which noted that the Congress did not intend to fund production engineering activities, and suggested that the regulation ought to distinguish between "research and development" and "product development."

In response to these comments and for the purpose of clarification, today's final regulations contain a definition of the term "research and development" which provides as follows: "'Research and development' means activities constituting a project to create an advanced automobile propulsion system and does not mean activities involving technology transfer to mass production, evaluative testing, preliminary planning for a DOE or an agency project, or program administration and management."

Peer review panels

Responding to the DOE's tentative decision not to charter an advisory committee to participate in making determinations under the regulations, one commenter urged consideration of a provision for peer review panels, and contended that such a panel would provide special expertise and outside input missing in the Interagency Review Panel, which was the advisory mechanism set forth in the proposed regulations. The preamble to the proposed regulations explained that the DOE did not elect to propose an advisory committee out of concern for potential conflicts of interest.

Having reviewed its previously expressed position on the question of outside participation in the judgmental process in light of this comment, the DOE has decided to adhere to its decision to limit the role of persons outside the Government to providing information. The DOE is of the view that the mechanism provided in the regulations for public notice and opportunity to comment is adequate for the purpose of obtaining the expert input of persons in the private sector. Additional reasons for not accepting this commenter's suggestion are continuing concern over the possible conflicts of interest and a desire for a single procedure which will not cause undue delay.

Applicant's information on target date for mass production

Criticism from one commenter was directed at paragraphs (e)(1) and (e)(2) of § 473.10, which would require an applicant for financial assistance to provide to the extent possible a target date for mass production and an assurance that that date is unlikely to be reached in the absence of such assistance. The commenter thought that these two related items of information assumed an unrealistic capability on the part of applicants to predict research outcomes and the impact of Federal funding on the time period for achieving commercialization. The commenter concluded with the thought that the information provided in an attempt to comply would yield little benefit and might well be misleading. The commenter suggested substitute language which would require "the likely target time period when production decisions regarding mass production of the advanced automobile propulsion system can be considered," and "an indication" that that time period is likely to be delayed unless the applicant receives a grant, cooperative agreement, or contract.

The DOE has reconsidered the criticized paragraphs of § 473.10 and agrees that this section should be oriented toward the likely time period necessary to develop a system suitable for commencement of production engineering necessary for technology transfer to mass production rather than a time period which includes all steps necessary to complete technology transfer for mass production. The DOE acknowledges that at least the latter is too uncertain to predict, and further, is of the view that the former is a more appropriate time period since it is the actual focus of the automotive propulsion research and development program. The DOE, however, does not agree that an "indication" by the applicant of the likely impact of Federal financial assistance is enough. The DOE believes that an applicant should be able to gage the likely impact of not receiving financial assistance on its timetable for developing an advanced automobile propulsion system suitable for production engineering. In addition, the DOE has decided that, in preference to the commenter's suggested language, it would be better to condense and rephrase § 473.10(e) to capture the essence of the commenter's criticism by capitalizing on the new definition of "research and development" which excludes steps involving technology transfer to mass production such as creation of production prototypes. As revised and promulgated today, § 473.10(e) requires that the applicant "provide to the extent possible (1) an assurance that the time period for completing research and development of the advanced automobile propulsion system is likely to be shorter as a result of a grant, cooperative agreement, or contract; and (2) the estimated delay, if any, which is likely to occur if the application for a grant, cooperative agreement, or contract is denied."

Due to the revision of § 473.10(e), it became necessary to make a complementary conforming change to § 473.30(d) which, as proposed, would permit certification if, among other things, the research and development to be funded "results in an earlier, realistic target date for mass production consistent with appropriate research and development techniques than would otherwise be chosen." In substitution, the DOE promulgates a version of § 473.30(d) providing for certification if, among other things, the research and development to be conducted "is likely to produce an advanced automobile propulsion system suitable for steps toward technology transfer to mass production in a shorter time period than would otherwise occur."

Applicant's information on research and development budget

Section 473.10 also came in for criticism because, in paragraph (d), it required an applicant to provide either an assurance that the amount to be expanded on research and development will exceed the amount expended for that purpose the previous year by the amount of the financial assistance sought, or information showing that any decrease does not represent a lessening of research and development efforts. A commenter argued that it is unrealistic to assume that the level of effort will always increase, and suggested language which reduces § 473.10(d) to a simple assurance that funds to be expended during the annual funding period will exceed the amount that would otherwise be expended in the absence of financial assistance.

The language offered by the commenter is unacceptable because theoretically it would allow a recipient of Federal financial assistance to reduce its expenditure level drastically and rely almost totally on Federal funds. The DOE has, however, concluded that any implication in the proposal of a requirement for an assurance of constantly increasing effort as measured by a purely budgetary test is inappropriate. Accordingly, the DOE today promulgates a revised version calling for an assurance that expenditures during the initial annual funding period (the first year of Federal assistance for any particular project) will exceed the previous year's budget by at least the amount of the Federal funding. The DOE is also requiring that the accelerated level of effort (not necessarily measured in dollar terms) during the initial period of a particular project will be maintained in any future annual funding period of the project. The proposed § 473.10(c)(2) allowing an applicant to explain decreases in expenditures has been eliminated because the DOE believes there can be no acceptable explanation for such a decrease in the initial annual funding period which would be consistent with the purposes of the Act.

Technical or conforming changes

In addition to the foregoing, the DOE has made two editorial changes of a technical or conforming nature which are noteworthy.

First, the qualifying words "in the case of an unsolicited proposal" were deleted from § 473.22(b). This deletion eliminates an internal inconsistency in the proposed rule between §§ 473.11 and 473.22. The former governs submission of applicant's information required to gage the effect of the Federal financial assistance sought on an applicant's research and development

V 43 N 0 24 78

V 43 I 227 NOV 24 78

project. It calls for submission by applicants filing an unsolicited proposal or responding to a solicitation. Section 473.22 deals with initial review by a manager, and as proposed with the deleted phrases, provided for consideration of information submitted in an unsolicited proposal without regard for cases where the applicant submitted information in responding to a solicitation. The deletion conforms § 473.22 to § 473.11, and as promulgated today, the former provides for consideration of information submitted in both solicited and unsolicited proposals.

The other change is the addition of the term "cooperative agreement" in § 473.24(b)(2) which conforms that provision to the rest of the rule and reflects the DOE's determination to provide for the likely impact of the Federal Grant and Cooperative Agreement Act of 1977, 41 U.S.C. 501 et seq. (1970) as implemented by interpretative guidelines issued by the Office of Management and Budget. See 43 FR 36860 (August 18, 1978).

C. FINAL REGULATIONS

The regulations are adopted as proposed except for the modifications described above and minor clarifying and conforming modifications.

(Department of Energy Act of 1978—Civilian Applications, Pub. L. 95-238; Department of Energy Organization Act, Pub. L. 95-91.)

In consideration of the foregoing, chapter II of Title 10, Code of Federal Regulations, is amended by establishing a new part 473 as set forth below, effective November 20, 1978:

Issued in Washington, D.C.; dated: November 20, 1978.

OMI WALDEN,
Assistant Secretary, Conservation and Solar Applications.

PART 473—AUTOMOTIVE PROPULSION RESEARCH AND DEVELOPMENT

REVIEW AND CERTIFICATION OF GRANTS, COOPERATIVE AGREEMENTS, CONTRACTS, AND PROJECTS

Sec.
473.1 Purpose and scope.
473.2 Definitions.
473.10 Required information from applicant.
473.11 Submission of applicant's information.
473.12-473.19 [Reserved]
473.20 Public notice and opportunity to object.
473.21 Supplemental information and rebuttal.
473.22 Initial review by manager.
473.23 Interagency review panel.
473.24 Final action and certification by manager.
473.25 Reviewability of certification.
473.26-473.29 [Reserved]
473.30 Standards and criteria.

AUTHORITY: Department of Energy Act of 1978—Civilian Applications, Pub. L. 95-238; Department of Energy Organization Act, Pub. L. 95-91.

REVIEW AND CERTIFICATION OF GRANTS, COOPERATIVE AGREEMENTS, CONTRACTS, AND PROJECTS

§ 473.1 Purpose and scope.

These regulations implement section 304(f) of the Department of Energy Act of 1978—Civilian Applications, and apply to each new contract, grant, cooperative agreement, Department of Energy project, or other agency project funded or to be funded under the authority of that Act. 15 U.S.C. 2703(f) (1970). These regulations do not apply to subcontractors, or to contracts, grants, cooperative agreements, Department of Energy projects, or other agency projects entered into, made, or formally approved and initiated prior to February 25, 1978, or with respect to any renewal or extension thereof. Insofar as grants, cooperative agreements, and contracts are concerned, these regulations provide procedures and requirements that are in addition to those generally applicable under the assistance and procurement regulations of the Federal agency funding research and development under the Act.

§ 473.2 Definitions.

For purpose of these regulations—

"Act" means the Department of Energy Act of 1978—Civilian Applications. Pub. L. 95-238, 92 Stat. 47.

"Advanced automobile propulsion system" means an energy conversion system, including engine and drivetrain, which utilizes advanced technology and is suitable for use in an advanced automobile.

"Agency project" means research and development under the Act by employees of a Federal agency furnishing assistance at the request of the DOE.

"Annual funding period" means the Federal fiscal year during which a grant, cooperative agreement, or contract is funded by an appropriation under the Act.

"Applicant" means any private laboratory, university, nonprofit organization, industrial organization, private agency, institution, organization, corporation, partnership, individual, or public agency other than a Federal agency.

"DOE project" means research and development under the Act by employees of the DOE.

"Federal agency" means an executive agency as defined by 5 U.S.C. 105 (1970).

"Manager" means the Federal program official who requests grant agreements, cooperative agreements, or contracts to be negotiated or who authorizes a DOE or agency project to begin.

"Notice of availability" means a notice published in the Commerce Business Daily advertising the availability of a formal solicitation document to be issued for the purpose of inviting and setting guidelines for submission of proposals for research and development grants, cooperative agreements, or contracts.

"Research and development" means activities constituting a project to create an advanced automobile propulsion system and does not mean activities involving technology transfer to mass production, evaluative testing, preliminary planning for a DOE or an agency project, or program administration and managment.

"Solicitation" means a formal, written request for proposals to perform research and development under a grant, cooperative agreement, or contract, typically including evaluation criteria and a statement of the work to be done.

§ 473.10 Required information from applicant.

In accordance with applicable procedures of § 473.11 any applicant for a grant, cooperative agreement, or contract under the Act to support research and development activities of an advanced automobile propulsion system shall—

(a) State whether the activities will initiate or continue research and development of an advanced automobile propulsion system;

(b) State, insofar as the applicant has information, whether and to what extent the activities to be supported are technically the same as activities conducted previously or to be conducted during the annual funding period by any person for research and development of a substantially similar advanced automobile propulsion system;

(c) Justify research and development activities on an advanced automobile propulsion system abandoned by any person because of a lack of mass production potential by presenting information showing a significant intervening technological advance, promising conceptual innovation, or other special consideration;

(d) Provide—

(1) An assurance that the amount of funds to be expended for research and development of advanced automobile propulsion systems during the initial annual funding period will exceed the amount of funds expended, if any, during the previous year for the same purpose by at least the amount of the grant, cooperative agreement, or contract being sought; and

(2) An assurance that the level of research and development effort on advanced automobile propulsion systems in the initial annual funding period will not be decreased in future annual funding periods.

(e) Provide to the extent possible—

(1) An assurance that the time period for completing research and development of the advanced automobile propulsion is likely to be shorter as a result of a grant, cooperative agreement, or contract; and

(2) The estimated delay, if any, which is likely to occur if the application for a grant, cooperative agreement, or contract is denied.

§ 473.11 Submission of applicant's information.

(a) An applicant submitting an unsolicited proposal to conduct research and development to be funded by a grant, cooperative agreement, or contract under the Act shall include the information required under § 473.10 in the unsolicited proposal document filed under the assistance or procurement regulations of the DOE or other Federal agency which funds the proposed research and development under the Act.

(b) In responding to a solicitation for a proposal to conduct research and development funded by a grant, cooperative agreement, or contract under the Act, the applicant shall include the information required under § 473.10 in the proposal.

(c) Information submitted under § 473:10 of these regulations shall be certified in writing as complete and accurate by the applicant, and if the applicant is not an individual, the chief executive officer of the applicant or his authorized designee shall sign the certification.

§§ 473.12-473.19 [Reserved]

§ 473.20 Public notice and opportunity to object.

(a) In compliance with paragraph (b) of this section and unless provisions of paragraph (c) of this section apply, the manager shall cause to be published in the Commerce Business Daily a statement describing the unsolicited proposal, solicitation, DOE project, or agency project, as appropriate, inviting any interested person to submit a written objection, with supporting information at an appropriate address on or before 30 days from the date of publication, if the person believes that the research and development to be performed does not comply with standards and criteria of § 473.30.

(b) Except as paragraph (c) of this section applies, the manager shall comply with the requirements of paragraph (a) of this section—

(1) Upon receipt of an unsolicited proposal from an applicant;

(2) In any notice of availability of a solicitation;

(3) Prior to beginning a DOE project; or

(4) Prior to beginning an agency project.

(c) Without publishing a notice under paragraph (a) of this section, the manager may reject an unsolicited proposal that does not comply with these regulations or any other generally applicable requirements.

§ 473.21 Supplemental information and rebuttal.

The manager may request additional information from an applicant or any interested person who files an objection under § 473.20.

§ 473.22 Initial review by manager.

(a) Upon expiration of the time for filing information under these regulations, the manager shall—

(1) Review the proposed research and development to be performed under grant, under cooperative agreement, under contract, as a DOE project, or as an agency project and any other pertinent information received under these regulations or otherwise available; and

(2) Initially determine whether the research and development reviewed under paragraph (a)(1) of this section complies with the standards and criteria of § 473.30.

(b) A manager who makes a negative determination under paragraph (a)(2) of this section shall inform the applicant and any interested person who objected of the decision in writing with a brief statement of supporting reasons.

(c) A manager who initially determines that research and development reviewed under this section complies with the standards and criteria of § 473.30 shall cause an interagency review panel to be convened under § 473.23.

§ 473.23 Interagency review panel.

(a) The interagency review panel shall consist of—

(1) A head designated by the Federal agency that employs the manager;

(2) A representative of the DOE if the manager is not an employee of the DOE; and

(3) A representative of any other Federal agency deemed appropriate by the Federal agency that employs the manager.

(b) The interagency review panel shall—

(1) Review the research and development to be performed and consider the information presented by the applicant, in the case of a grant, cooperative agreement, or contract, and by any interested person who filed a statement of objection;

(2) Make a recommendation with a supporting statement of findings to the manager as to whether the research and development to be performed complies with the standards and criteria of § 473.30; and

(3) Operate by majority vote with the head of the panel casting the decisive vote in the event of a tie.

§ 473.24 Final action and certification by manager.

(a) Upon consideration of the recommendation of the interagency review panel and other pertinent information, the manager—

(1) Shall determine whether the research and development to be performed complies with the standards and criteria of § 473.30;

(2) Shall obtain the concurrence of the DOE if the manager is not an employee of the DOE;

(3) Shall, in the event of a negative determination under this section, advise the applicant, in the case of a grant, cooperative agreement, or contract, and any interested person who filed a statement of objection; and

(4) Shall, in the event of an affirmative determination under this section, prepare a certification—

(i) Explaining the determination;

(ii) Discussing any allegedly related or comparable industrial research and development considered and deemed to be an inadequate basis for not certifying the grant or contract;

(iii) Discussing issues regarding cost sharing and patent rights related to the standards and criteria of § 473.30 of these regulations; and

(iv) Discussing any other relevant issue.

(b) After complying with paragraph (a) of this section, the manager shall sign the certification and distribute copies to the applicant, if any, and any interested person who filed a statement of objections—

(1) Immediately in the case of a DOE or agency project; and

(2) After the agreement has been negotiated in the case of a grant, cooperative agreement, or contract.

§ 473.25 Reviewability of certification.

Any certification issued under these rules is—

(a) Subject to disclosure under 5 U.S.C. 552 (1970) and section 17 of the Federal Nonnuclear Energy Research and Development Act of 1974, as amended, 42 U.S.C. 5918 (1970);

(b) Subject neither to judicial review nor to the provisions of 5 U.S.C. 551-559 (1970), except as provided under paragraph (a) of this section; and

(c) Available to the Committee on Science and Technology of the House of Representatives and the Committee

V 4 3 / 2 2 7

N 0 2 4 7 8 (M)

on Energy and Natural Resources of the Senate.

§§ 473.26–473.29 [Reserved]

§ 473.30 Standards and criteria.

Research and development to be performed under a grant, under a cooperative agreement, under a contract, as a DOE project, or as an agency project under the Act may be certified under these regulations only if the research and development to be conducted—

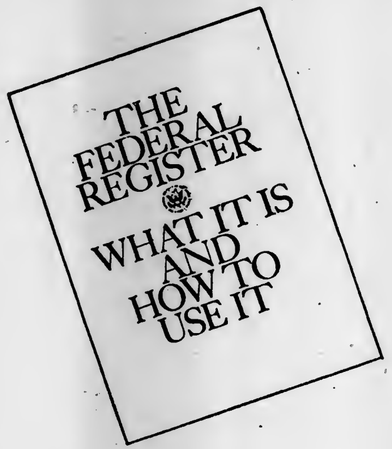
(a) Supplements the automotive propulsion system research and development efforts of industry or any other private researcher;

(b) Is not duplicative of efforts previously abandoned by private researchers unless there has been an intervening technological advance, promising conceptual innovation, or justified by other special consideration;

(c) Would not be performed during the annual funding period but for the availability of the Federal funding being sought;

(d) Is likely to produce an advanced automobile propulsion system suitable for steps toward technology transfer to mass production in a shorter time period than would otherwise occur;

(e) Is not technologically the same as efforts by any person conducted previously or to be conducted during the annual funding period regarding a substantially similar advanced automobile propulsion system; and



(f) Is not likely to result in a decrease in the level of private resources expended on advanced automotive research and development by substituting Federal funds without justification.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
CSA	CSC		CSA	CSC
	LABOR			LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408

NOTE: As of August 14, 1978, Community Services Administration (CSA) documents are being assigned to the Monday/Thursday schedule.

federal register
Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

Memorandum of November 22, 1978

Determination Under Section 202(b) of the Trade Act; Artificial Baits and Flies

Memorandum for the Special Representative for Trade Negotiations

THE WHITE HOUSE,
Washington, November 22, 1978.

Pursuant to Section 202(b)(1) of the Trade Act of 1974 (P.L. 93-618, 88 Stat. 1978), I have determined the action I will take with respect to the report of the United States International Trade Commission (USITC) dated September 21, 1978, on the results of its investigation concerning artificial baits and flies provided for in Item 731.60 of the Tariff Schedules of the United States.

After considering all relevant aspects of the case, including those set forth in Section 202(c) of the Trade Act of 1974, I have determined that import relief would not be in the national economic interest. The measure proposed by the USITC (removal of these products from the GSP program thereby raising the tariff on imports from countries eligible for GSP benefits to 12.5%) would not provide relief in view of the large price differences between imports and the domestically produced items and furthermore it would contribute to inflation. In addition, imports have shown little significant increase during the five years examined, while import prices were reduced 30 percent and domestic prices nearly doubled.

This determination is to be published in the FEDERAL REGISTER.

Jimmy Carter

[FR Doc. 78-33345 Filed 11-22-78; 5:03 pm]

EDITORIAL NOTE: The text of the President's letters to the Speaker of the House and the President of the Senate, dated Nov. 22, 1978, on artificial baits and flies, is printed in the Weekly Compilation of Presidential Documents (vol. 14, no. 47).

Title 7—Agriculture

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES

[FmHA Instruction 444.1]

PART 1822—RURAL HOUSING LOANS AND GRANTS

Subpart A—Section 502 Rural Housing Loan Policies, Procedures, and Authorizations

AMENDMENTS

AGENCY: Farmers Home Administration, USDA.

ACTION: Final Rule.

SUMMARY: The Farmers Home Administration (FmHA) amends its Section 502 Rural Housing (RH) loan regulations to provide for the making of RH loans to FmHA employees. The intended effect of this amendment is to allow RH loans to be made to eligible FmHA employees. The action is taken because of an administrative decision to allow FmHA employees who are otherwise eligible for this type loan to be able to participate in this program.

EFFECTIVE DATE: November 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Byron L. Fischer, 202-447-4295.

SUPPLEMENTARY INFORMATION: On June 23, 1978, FmHA published a notice of proposed rule making to amend § 1822.7 of Subpart A of Part 1822, Chapter XVIII, Title 7, Code of Federal Regulations (43 FR 27195). Interested persons were given 60 days to submit comments regarding the proposed revision. Several comments and suggestions were received and considered. As a result of the comments, certain editorial changes were made and additional paragraphs were added to provide more guidance in processing RH loans under this paragraph. Most of these comments referred to three areas: (1) Employee purchasing inventory property, (2) assumptions by employees of RH loans and (3) the responsibility over inspections of property purchased by employees. Because of these comments provisions prohibiting the making of RH loans to employees for purchase of inventory property or the assuming of existing RH loans by employees were added as well as further procedure for inspections. In general, this addition provides for the making of RH loans to FmHA employees who are otherwise eligible but have not been able to participate in FmHA's housing program.

Accordingly, § 1822.7 is amended to add paragraph(s) which reads as follows:

§ 1822.7 Special requirements.

• • • • •

(s) *RH loans to FmHA employees and loan closing officials.* Employees and their spouses (including County Committee members and their spouses) and loan-closing officials and their spouses may receive a Section 502 RH loan subject to the provisions of this Subpart A and the following conditions:

(1) The loan application, with written evidence from primary real estate lending institutions serving the area indicating the applicant's inability to obtain the needed credit, will be submitted to the County Office in the usual manner. The County Office will obtain the verification of employment and credit report, and submit the application and related information to the District Director for review. The District Director will forward the applicant's docket, along with written recommendation concerning the applicant's eligibility, to the State Director for eligibility determination.

(2) The State Director will determine the eligibility of the applicant. If the applicant is determined eligible, the docket will be returned to the District Director for loan processing. If the applicant is determined ineligible for a loan, the State Director will notify the applicant in writing of the action taken, the reasons for denial, and the applicant's right to appeal the adverse decision in accordance with FmHA Instruction 1900-B. All rejected applications will be returned to the County Office in which the applications were received, if the rejection is upheld.

(3) The District Director will process the loan in the same order that the loan would have been processed in the County Office had the application been received from other than an FmHA employee or loan closing official.

(4) If the loan applicant works outside the County Office in which the application is filed, the District Director may permit authorized county office staff to perform the appraisal function. In all other cases the District Director will appraise the property or have it appraised by a qualified FmHA appraiser from outside the County Office area in which the loan is to be made. The completed loan docket will be submitted to the State Director for consideration of approval. The District Director's written recommendation for approval or disapproval will be included in the loan docket.

(5) The State Director must, before approving the loan, determine that the applicant has not been and will not be given any advantage because of the FmHA relationship and the making of a loan will not result in a conflict of interest under FmHA Instruction 2045-BB. The dwelling may not exceed the needs of the applicant or be excessive in size, design, or cost compared to other FmHA financed dwellings in the area.

(6) If the loan is approved, the borrower's case file will be kept in the District Office and the loan will be serviced by the District Director. In cases where the District Director is absent or where the loan was made to a members of the District Office staff, the State Director may designate a member of the State Office Staff to service the loan.

(7) If the loan involves any type of construction, the inspections for FmHA will be made by the District Director or other member of the District Director's staff as designated by the District Director. Under no circumstances will the employee receiving the loan make the inspections for FmHA.

(8) No FmHA employee or spouse or loan closing official or spouse may obtain an RH loan to finance the purchase of inventory property.

(9) No RH loan or assumption of an RH loan may be made to an FmHA employee or spouse, or loan closing of-

§ 1823.454 Department of Labor determi- an Environmental Impact Statement added and existing Paragraph (b)(4) is

V 43 / 228 N 027 78

ficial or spouse, to purchase a dwelling from an existing RH borrower.

(10) No RH loan may be made to an FmHA employee or spouse, or loan closing official or spouse, to purchase FmHA security property being sold at a foreclosure sale.

(42 U.S.C. 1480; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70.)

Dated: October 31, 1978.

GORDON CAVANAUGH,
Administrator,
Farmers Home Administration.

PART 1823—ASSOCIATION LOANS AND GRANTS—COMMUNITY FACILITIES, DEVELOPMENT, CONSERVATION, UTILIZATION

PART 1933—LOAN AND GRANT PROGRAMS (GROUP)

Private Business and Community Grants

AMENDMENTS

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) amends its regulations on Community Facility Loans and Grants for Facilitating Development of Private Business Enterprises. The intended effect of the amendments is to permit other Federal agencies to fund projects jointly with FmHA, to modify the circumstances under which Department of Labor determinations are required, and to expand the definition of "rural" and "rural area." These amendments result from changes in the authorizing statutes.

EFFECTIVE DATE: November 27, 1978.

FOR FURTHER INFORMATION CONTACT:

John R. Bowles, Director, Community Facilities Loan Division, telephone 202-447-7667.

SUPPLEMENTARY INFORMATION: Sections 1823.452, 1823.453(c), and 1823.454 of Subpart O of Part 1823 and §§ 1933.2 and 1933.4(b) of Subpart A of Part 1933, Chapter XVIII, Title 7, Code of Federal Regulations are amended. Section 1823.452 is amended to expand the definition of "rural" and "rural area" to include the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands. Section 1823.453(c) is amended to limit the requirement for DOL certification of grants to proposals of more than $1,000,000 in which direct employment will be increased by more than 50 employees. Section 1823.454 is amended to reflect the 30 day limitation within which the Secretary of Labor must make the certification. Section 1933.2 is amended to add subparagraph (e) which permits other Federal agencies to fund projects jointly with FmHA subject only to limitations on the amount of participation. Section 1933.4(b) is amended to correct a cross reference.

It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. These amendments, however, are not published for proposed rulemaking since the changes are necessitated by changes in the authorizing statutes.

Accordingly, Sections 1823.452, 1823.453(c), and 1823.454 of Subpart O of Part 1823 and §§ 1933.2 and 1933.4(b) of Subpart A of Part 1933 are amended as follows:

PART 1823—ASSOCIATION LOANS AND GRANTS—COMMUNITY FACILITIES, DEVELOPMENT, CONSERVATION, UTILIZATION

Subpart O—Grants for Facilitating Development of Private Business Enterprises and Community Water and Waste Disposal Facilities

§ 1823.452 Use grant funds.

Grant funds may be used to finance industrial sites in rural areas including the acquisition and development of land and the construction, conversion, enlargement, repairs, machinery, equipment, access streets and roads, parking areas, transportation serving the site, utility extensions, necessary water supply and waste disposal facilities, pollution control and abatement incident to site development, fees and refinancing for debts incurred by or on behalf of an association prior to an application for a grant when all of the following conditions exist: (1) The debts were incurred for the facility or part thereof or service to be installed or improved with the grant, and (2) arrangements cannot be made with the creditors to extend or modify the terms of the existing debt. Such grants may be made only when there is reasonable prospect that they will result in development of private business enterprises. When land is to be purchased the purchase price will not exceed its "fair market value". When required by FmHA the applicant will submit an appraisal report prepared by an independent qualified appraiser. FmHA grant funds may be used jointly with funds furnished by the grantee including FmHA loan funds. As used herein "rural" and "rural area" may include all territory of the several States, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, or the Commonwealth of the Northern Mariana Islands, that is not within the outer boundary of any city having a population of fifty thousand or more and its immediately adjacent urbanized or urbanizing areas with a population density of more than one hundred persons per square mile, as determined by the Secretary of Agriculture according to the latest decennial census of the United States. Priority for such grants shall be given to areas other than cities having a population of more than twenty-five thousand.

§ 1823.453 Grant limitations.

Grant funds will not be used:

* * * * *

(c) For any proposal in which both the grant is in excess of $1,000,000 and direct employment will be increased by more than fifty employees unless:

(1) The proposal is not calculated to or not likely to result in a transfer of any employment or business activity from one area to another. This limitation shall not prohibit assistance for the expansion of an existing business entity through the establishment of a new branch, affiliate or subsidiary of such entity if the expansion will not result in an increase in the unemployment in the area of original location or in any other area where such entity conducts business operations, unless there is reason to believe that such expansion is being established with the intention of closing down the operations of the existing business entity in the area of its original location or in any other area where it conducts such operations.

(2) The proposal is not calculated to or is not likely to result in an increase in the production of goods, materials, or commodities or the availability of services or facilities in the area when there is not sufficient demand for such goods, materials, commodities, services or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

* * * * *

§ 1823.454 Department of Labor determination.

Grants shall not be made if the Secretary of Labor certifies within 30 days after the matter has been submitted to him by the Secretary of Agriculture that the provisions of § 1823.453(c) (1) and (2) of this Subpart have been complied with. Information for obtaining this certification will be submitted in writing to FmHA. The information will be submitted to the Department of Labor by FmHA. Grant approval may be given and funds may be obligated subject to the Department of Labor Certification being received.

PART 1933—LOAN AND GRANT PROGRAMS (GROUP)

Subpart A—Community Facility Loans

§ 1933.2 Processing applications.

* * * * *

(e) *Joint funding.* Other departments, agencies, and executive establishments of the Federal Government may participate and provide financial and technical assistance jointly with FmHA to any applicant to whom assistance is being provided by FmHA. The amount of participation by the other department, agency or executive establishment shall only be limited by its authorities except that any limitation on joint participation itself is superseded by Section 125 of Public Law 95-334.

* * * * *

§ 1933.4 Borrower contracts and bonds.

* * * * *

(b) *Bond counsel.* All tax exempt public bodies are required to obtain the services of recognized bond counsel in the preparation of evidence of indebtedness except as provided in 1933.19(a)(1)(iv) of this Subpart. When requesting National Office approval in accordance with Section 1933.19(a)(1)(iv) the State Director will submit sufficient evidence for a determination to be made.

* * * * *

This document has been reviewed in accordance with FmHA Instruction 1901-G, "Environmental Impact Statements." It is the determination of FmHA that the proposed action does not constitute a major Federal action significantly affecting the quality of the human environment and in accordance with the National Environmental Policy Act of 1969, P.L. 91-190 an Environmental Impact Statement is not required.

(7 U.S.C. 1989; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70.)

Dated: November 13, 1978.

JAMES E. THORNTON,
Associate Administrator,
Farmers Home Administration.

[FR Doc. 78-33132 Filed 11-24-78; 8:45 am]

[3410-07-M]

[FmHA Instruction 442.13]

PART 1823—ASSOCIATION LOANS AND GRANTS—COMMUNITY FACILITIES, DEVELOPMENT, CONSERVATION, UTILIZATION

Subpart P—Development Grants for Community Domestic Water and Waste Disposal Systems

AGENCY: Farmers Home Administration, USDA.

ACTION: Final Rule with comments requested.

SUMMARY: The Farmers Home Administration (FmHA) amends its regulations concerning grant determination for those applicants who impose uniform user charges for similar classes of service throughout their service area. The intended effect is to allow for the inclusion of FmHA grant funds in an amount sufficient to arrive at a reasonable average annual cost to the applicant for the delivery of service to residential users. The regulations are being amended in order to provide more service to rural communities by the Farmers Home Administration.

EFFECTIVE DATE: November 27, 1978. However, comments must be received on or before January 26, 1979.

ADDRESS: Submit written comments to the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, Washington, DC 20250. All written comments made pursuant to this notice will be available for public inspection at the address given above.

FOR FURTHER INFORMATION CONTACT:

Gary L. Smith, telephone: 202-447-5717.

SUPPLEMENTAL INFORMATION: Section 1823.472 of Subpart P of Part 1823, Chapter XVIII, Title 7 in the Code of Federal Regulations is amended. Paragraph (b)(4) of this section is added and existing Paragraph (b)(4) is renumbered (b)(5) and existing Paragraph (b)(5) is renumbered (b)(6). This change will provide more complete and responsive service to rural communities that have a need for grant assistance. It is the policy of this department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. This amendment, however, is not published for proposed rulemaking since the purpose of the change is to allow currently needed water and waste projects in rural areas to be constructed and also provide for the delivery of services by the applicant at a reasonable cost. Therefore, any delay would be contrary to the public interest. The Agency, however, is interested in receiving comments which should be submitted to the address given above.

Accordingly, a new § 1823.472(b)(4) is added, the present paragraph (b)(4) and (b)(5) are renumbered to (b) (5) and (6) and a corresponding reference change is made as set forth below:

1. In § 1823.472(b)(1) line 16, the reference to "paragraph (b)(4)" is changed to "paragraph (b)(5)."

2. A new paragraph 1823.472(b)(4) is added and reads as follows:

§ 1823.472 Application processing.

* * * * *

(b) *Determining the need for development grant.* * * *

(4) If, after applying the formula in paragraph (b)(1) of this section, FmHA determines that a reasonable average annual cost to the applicant for delivery of service to residential type users has not been achieved, FmHA may proceed with a grant in an amount necessary to reduce such cost to not below a reasonable user rate as defined in paragraph (b) of this section. This option is only available to an applicant that imposes uniform user charges for similar classes of service throughout their service area. Reasonable average annual cost to the applicant is defined as that which is not less than existing prevailing costs in communities, being served by an established system, having similar economic conditions.

* * * * *

3. § 1823.472, paragraph (b)(4) and (b)(5) are renumbered to (b)(5) and (b)(6) respectively.

(7 U.S.C. 1989; delegation of authority by the Secretary of Agriculture 7 CFR 2.23; delegation of authority by the Assistant Secretary of Agriculture for Rural Development, 7 CFR 2.70.)

NOTE.—This document has been reviewed in accordance with FmHA Instruction 1901-G "Environmental Impact Statements". It is the determination of FmHA that the proposed action does not constitute a major Federal action significantly affecting the quality of the human environment and in accordance with the National Environmental Policy Act of 1969, Pub. L. 91-190 and Environmental Impact Statement is not required.

Dated: November 8, 1978.

GORDON CAVANAUGH,
Administrator,
Farmers Home Administration.

[4410-10-M]

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS; AVAILABILITY OF SERVICE RECORDS

Elimination of Fee for Filing Certain Motions To Reopen or Reconsider

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Final rule.

SUMMARY: This final rule amends the regulations of the Immigration and Naturalization Service to revise the schedule of fees. The order provides that for certain applications, no fee will be charged for the filing of a motion for reopening or reconsideration because no fee was charged for filing the initial application. The applications involved are set forth below. This amendment is being published to set forth the Service policy and the reasons for it in the regulations for the information and guidance of the public.

EFFECTIVE DATE: November 27, 1978.

FOR FURTHER INFORMATION CONTACT:

James G. Hoofnagle, Jr., Instructions Officer, Immigration and Naturalization Service, 425 Eye Street, NW., Washington, DC 20536. Telephone: (202) 376-8373.

SUPPLEMENTARY INFORMATION: This final rule amends the regulations of the Immigration and Naturalization Service to provide that no fee is chargeable for filing of motions to reopen or reconsider decisions on applications filed by students on Form I-538; by exchange visitors on Form DSP-66; by Cuban refugees on Form I-485A filed pursuant to the Act of November 2, 1966; or by nonimmigrant aliens classified under section 101(a)(15)(G)(iv) filed on Form I-566. The Service has determined that no fee should be charged for the motions to reopen or reconsider decisions made on the above applications because there is no fee charged for the filing of the initial application.

Accordingly, the following amendment is hereby made to Chapter I of Title 8 of the Code of Federal Regulations:

In § 103.7(b)(1), the fee description for the fee for filing motions to reopen or reconsider any decision under the immigration laws is revised as set forth below:

§ 103.7 Fees.

* * * * * *

(b) *Amounts of fees*—(1) The following fees and charges are prescribed:

* * * * * *

For filing a motion to reopen or reconsider any decision under the immigration laws (except on applications filed by students on Form I-538, exchange visitors on Form DSP-66, Cuban refugees on Form I-485A filed under the Act of November 2, 1966 or G-4 nonimmigrants on Form I-566 for which no fee is chargeable). When the motion to reopen or reconsider is made concurrently with any application under the immigration laws, such application will be considered an integral part of the motion and only the fee for filing the motion or the fee for filing the application, whichever is greater, is payable. (The fee of $25 shall be charged whenever a motion is filed by or on behalf of two or more aliens and all such aliens are covered by one decision.) $25.00.

* * * * * *

(Sec. 103; 8 U.S.C. 1103.)

This amendment is published pursuant to section 552 of Title 5 of the United States Code (80 Stat. 383), as amended by Pub. L. 93-502 (88 Stat. 1561), and the authority contained in section 103 of the Immigration and Nationality Act (8 U.S.C. 1103), 28 CFR 0.105(b), and 8 CFR 2.1. Compliance with the provisions of section 553 of Title 5 of the United States Code as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the amendment contained in this order confer an exemption on the persons affected thereby.

Effective date: The amendment prescribed in this order will become effective on November 27, 1978.

Dated: November 13, 1978.

LEONEL J. CASTILLO,
Commissioner of
Immigration and Naturalization.

[FR Doc. 78-33187 Filed 11-24-78; 8:45 am]

[6210-01-M]

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Docket No. R-0190]

PART 211—CORPORATIONS ENGAGED IN FOREIGN BANKING AND FINANCING UNDER THE FEDERAL RESERVE ACT

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: The recently enacted International Banking Act of 1978 removed the statutory requirement that corporations engaged in international banking and financial operations—so called "Edge Corporations"—maintain a minimum reserve of 10 percent on their U.S. deposits. The Board's regulation governing Edge Corporations imposes reserve requirements on the U.S. deposits of Edge Corporations subject to the former statutory 10 percent minimum. This amendment removes the 10 percent minimum reserve requirement in the Board's regulation to conform to the International Banking Act. Edge Corporations will, however, continue to be subject to reserve requirements as if they were member banks of the Federal Reserve System.

EFFECTIVE DATE: November 16, 1978.

FOR FURTHER INFORMATION CONTACT:

C. Keefe Hurley, Senior Attorney, Legal Division, Board of Governors of the Federal Reserve System, 202-452-3269.

SUPPLEMENTARY INFORMATION: Section 3(e) of the International Banking Act of 1978 (Pub. L. No. 95-369) amends the sixth paragraph of section 25(a) of the Federal Reserve Act (12 U.S.C. 615) by removing the minimum 10 percent reserve requirement on the U.S. deposits of Edge Corporations. Section 211.7(c), the Board's Regulation K (12 CFR 211.7(c)), imposes reserve requirements on Edge Corporations subject to a 10 percent minimum. In view of the removal of the statutory 10 percent minimum reserve requirement, the Board has eliminated the corresponding 10 percent minimum reserve requirement in its regulation. This amendment will be effective with the computation period commencing November 16, 1978. Deposits of Edge Corporations would, however, continue to be subject to the reserve requirements contained in the Board's Regulation D (12 CFR § 204). This action is taken pursuant to the Board's authority under the fifth paragraph of section 25(a) of the Federal Reserve Act (12 U.S.C. 615) and section 13(a) of the International Banking Act of 1978 (Pub. L. No. 95-369).

The last sentence of § 211.7(c) of the Board's Regulation K (12 CFR § 211.7(c)) is amended to read as follows:

§ 211.7 Limited operations in the United States.

* * * * * *

(c) * * * Such deposits shall be subject to Parts 204 (Regulation D) and 217 (Regulation Q) of this chapter and shall be reported in the same manner as if the Corporation were a member bank of the Federal Reserve System.

* * * * * *

Board of Governors of the Federal Reserve System, November 16, 1978.

THEODORE E. ALLISON,
Secretary of the Board.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. SAB-27]

PART 211—INTERPRETATIVE RELEASES RELATING TO ACCOUNTING MATTERS

Subpart B—Staff Accounting Bulletins

STAFF ACCOUNTING BULLETIN No. 27

AGENCY: Securities and Exchange Commission.

ACTION: Publication of Staff Accounting Bulletin.

SUMMARY: This interpretation presents the staff's view that the general principles expressed in Staff Accounting Bulletin are intended to provide guidance for events and transactions with similar accounting implications.

DATE: November 17, 1978.

FOR FURTHER INFORMATION CONTACT:

Gary A. Zell, Office of the Chief Accountant, Securities and Exchange Commission, Washington, D.C. 20549 (202-755-0222).

SUPPLEMENTARY INFORMATION: The statements in Staff Accounting Bulletins are not rules or interpretations of the Commission nor are they published as bearing the Commission's official approval; they represent interpretations and practices followed by the Division of Corporation Finance and the Office of the Chief Accountant in administering the disclosure requirements of the Federal Securities laws.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

NOVEMBER 17, 1978.

STAFF ACCOUNTING BULLETIN No. 27

Questions have been raised with the staff concerning the application of the staff's views to events and transactions that are similar to those for which a Staff Accounting Bulletin (SAB) has been issued. Specifically a question has been raised as to the applicability of SAB No. 21 [43 FR 29109], July 6, 1978, which reports the staff's view that the gain on the involuntary conversion of timberland should be recognized and not deferred or offset against the cost of timberland to be acquired.

In Accounting Series Release No. 180 [40 FR 53557], November 19, 1975, the Commission stated the following:

The process of financial reporting is dynamic and evolutionary. Consequently, new or revised administrative interpretations and practices must be implemented in response to changes in the reporting process. While large accounting firms who practice before the Commission have many opportunities to exchange information and views with the staff, the Commission has been concerned about comments that small accounting firms have fewer such opportunities and may be at an unfair competitive advantage because there has been no formal dissemination of staff positions.

The announced series of bulletins attempts to curtail these problems by making available to the public a compilation of certain existing staff interpretations and practices and by providing a means by which new or revised interpretations and practices can be quickly and easily communicated to registrants and their advisors. Thus, this series should not only reduce the staff's workload by eliminating repetitive comments and inquiries, but also save registrants both time and money in the registration and reporting process.

SAB's may be written narrowly in describing the individual facts and circumstances which resulted in the expression of the staff's views. However, registrants and their accountants should be aware that the purpose of the SAB's is to disseminate staff views on particular matters for guidance in other situations where events and transactions have similar accounting implications. For example, the staff would expect that gains on involuntary conversions, whether or not resulting from a transaction involving timberland, would be recognized currently in financial statements.

Where a registrant and its accountant believe that because of its peculiar circumstances the appropriate accounting should be different than would result from following the practice expressed in a SAB, the registrant is encouraged to discuss the specifics with the staff.

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 78-469]

PART 153—ANTIDUMPING

Antidumping—Viscose Rayon Staple Fiber from Belgium

AGENCY: U.S. Treasury Department.

ACTION: Finding of Dumping.

SUMMARY: This notice is to inform the public that separate investigations conducted under the Antidumping Act of 1921, as amended, by the U.S. Treasury Department and the U.S. International Trade Commission, respectively, have resulted in determinations that viscose rayon staple fiber from Belgium is being sold at less than fair value and that those sales are injuring an industry in the United States. On this basis, a finding of dumping is being issued and, generally, all unappraised entries of this merchandise will be liable for the possible assessment of special dumping duties.

EFFECTIVE DATE: November 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Ms. Mary S. Clapp, U.S. Customs Service, Office of Operations, Duty Assessment Division, Technical Branch, 1301 Constitution Avenue, N.W., Washington, D.C. 20229 (202-566-5492).

SUPPLEMENTARY INFORMATION: Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the Secretary of the Treasury responsibility for determining whether imported merchandise is being sold at less than fair value. Pursuant to this authority the Secretary of the Treasury has determined that viscose rayon staple fiber from Belgium is being sold at less than fair value within the meaning of section 201(a) of the Antidumping Act of 1921, as amended, (19 U.S.C. 160(a)). (Published in the FEDERAL REGISTER of May 1, 1978 (43 FR 18619)). An "Amended Determination of Sales at Less Than Fair Value" was published in the FEDERAL REGISTER of July 28, 1978 (43 FR 32915).

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the United States International Trade Commission responsibility for determining whether, by reason of such sales at less than fair value, a domestic industry is being or is likely to be injured. The United States International Trade Commission has determined and on September 7, 1978, it notified the Secretary of the Treasury that a domestic industry is being injured by reason of less than fair value imports of viscose rayon staple fiber from Belgium. Notice of this determination was published in the FEDERAL REGISTER of September 15, 1978 (43 FR 41299).

On behalf of the Secretary of the Treasury, I hereby make public these determinations, which constitute a finding of dumping with respect to viscose rayon staple fiber from Belgium.

For purposes of this notice, the merchandise covered is "viscose rayon staple fiber, except solution dyed, in noncontinuous form, not carded, not combed, and not otherwise processed, wholly of filaments (except laminated filaments and plexiform filaments)."

Section 153.46 of the Customs Regulations (19 CFR 153.46) is amended by adding the following to the list of findings of dumping currently in effect:

Merchandise	Country	T.D.
Viscose rayon staple fiber.....	Belgium	

(Secs. 201, 407, 42 Stat. 11, as amended, 18 (19 U.S.C. 160, 173)).

ROBERT H. MUNDHEIM,
General Counsel of the Treasury.

NOVEMBER 20, 1978.

Title 29—Labor

CHAPTER XXVI—PENSION BENEFIT GUARANTY CORPORATION

PART 2610—INTERIM REGULATION ON VALUATION OF PLAN BENEFITS

Amendment Adopting Additional PBGC Rates

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Amendment to the interim regulation.

SUMMARY: This amendment to the interim regulation on Valuation of Plan Benefits prescribes the rates and factors the Pension Benefit Guaranty Corporation (the "PBGC") will use to value benefits provided under terminating pension plans covered by Title IV of the Employee Retirement Income Security Act of 1974 ("ERISA"). This valuation is necessary because under section 4041 of ERISA, the PBGC must determine whether a terminating pension plan has sufficient assets to pay all guaranteed benefits provided under the plan. If the assets are insufficient, the PBGC will pay the unfunded guaranteed benefits under the plan termination insurance program established under Title IV.

The interest rates and factors set forth in the regulation must be adjusted periodically to reflect changes in investment markets. This amendment adopts the rates and factors applicable to plans that terminated on or after March 1, 1978, but before June 1, 1978, and will enable PBGC to value the benefits provided under those plans.

EFFECTIVE DATE: November 27, 1978.

FOR FURTHER INFORMATION CONTACT:

William E. Seals, Staff Attorney, Office of the General Counsel, Pension Benefit Guaranty Corporation, 2020 K Street NW., Washington, D.C. 20006, 202-254-4895.

SUPPLEMENTARY INFORMATION: On November 3, 1976, the Pension Benefit Guaranty Corporation (the "PBGC") issued an interim regulation establishing the methods for valuing plan benefits of terminating plans covered under Title IV of the Employee Retirement Income Security Act of 1974 (the "Act") (41 FR 48484 *et seq.*). Specifically, the regulation contains a number of formulae for valuing different types of benefits. In addition, Appendix B of the regulation sets forth the various rates and factors that are to be used in the formulae. Because these rates and factors must be reflective of investment experience, it is necessary to update the rates and factors periodically. When first published, Appendix B contained rates and factors to the used to value benefits in plans that terminated on or after September 2, 1974, but before October 1, 1975. Subsequently, the PBGC adopted additional rates and factors for valuing benefits in plans that terminated on or after October 1, 1975, but before March 1, 1978. (42 FR 2678 *et seq.*, 42 FR 32777 *et seq.*, 42 FR 41858 *et seq.*, 42 FR 59753 *et seq.*, 43 FR 10559 *et seq.*, 43 FR 25337 *et seq.*).

On July 19, 1978, the PBGC published for comment in the FEDERAL REGISTER rates and factors for valuing benefits in plans that terminated on or after March 1, 1978, but before June 1, 1978 (43 FR 31043 *et seq.*) The PBGC received one comment regarding the proposed amendment to the Interim Regulation. That comment compared low interest rates and factors set by PBGC for immediate annuities with the higher rates of yield for Standard & Poors ("S&P") long-term government bonds and "AAA" Industrial bonds. Based on this comparison, the comment suggested that the rates proposed by PBGC for the period March 1, 1978 to May 31, 1978 were too low and may result in an "overcharge" to a terminating plan.

The PBGC does not believe that the rates being established by this amendment for the March 1, 1978—May 31, 1978 period result in an "overcharge" to terminating plans. Section 4002(a)(1) of ERISA enjoins PBGC to carry out its functions under Title IV so as to encourage the continuation of private pension plans. To this end, the PBGC has sought to set rates that will not encourage plan terminations and/or PBGC trusteeships. On the other hand, the PBGC is also concerned that assessments for employer liability not be greater than what PBGC expects it will need to meet its guaranty liabilities for insufficient plans. Thus, PBGC has adopted what it believes is a balanced approach in setting its rates.

Consistent with PBGC's past practice, the interest rates and factors proposed by PBGC for the period March 1, 1978 to May 31, 1978 were derived from a survey of annuity price data obtained from the private insurance industry. Recently the PBGC became aware of certain statistical biases that may have resulted in unduly low rates proposed for this period. These biases result from variations in the size and distribution of the sample data for this reporting period. Accordingly, PBGC has reviewed its rates and factors for the period March 1, 1978 to May 31, 1978, using a refined estimation procedure to eliminate these biases. As a result, the PBGC has concluded that a minor adjustment is in order, and therefore, the interest rates and factors being issued in final form for this period are slightly higher than the proposed interest rates and factors.

The PBGC has determined that this amendment to the Valuation of Benefits regulation is not "significant" under the criteria prescribed by Executive Order 12044, "Improving Government Regulations," 43 FR 12661 *et seq.* (March 24, 1978), and the PBGC's proposed Statement of Policy implementing the Order, 43 FR 22608 *et seq.* (May 25, 1978). The reasons for this determination are that this proposal is not likely to create substantial public interest or controversy, does not affect another Federal agency, and will not have a major economic impact.

Because of the need to provide immediate guidance for the valuation of benefits in plans that terminated on or after March 1, 1978, but before June 1, 1978, and because no adjustment by ongoing plans is required by this amendment, the PBGC finds that good cause exists for making this amendment to the Interim Regulation effective immediately.

APPENDIX B [Amended]

In consideration of the foregoing, Part 2610 of Chapter XXVI, Code of Federal Regulations, is amended by adding a new Table XI to Appendix B to read as follows:

XI. *The following interest rates and quantities used to value benefits shall be effective for plans that terminate on or after March 1, 1978, but before June 1, 1978.*

I. *Interest rate for valuing immediate annuities.*

An interest rate of 7 percent shall be used to value immediate annuities, to compute the quantity "Gy" in § 2610.6 and for valuing both portions of a cash refund annuity.

II. *Interest rate for valuing death benefits.*

An interest rate of 5 percent shall be used to value death benefits other than the decreasing term insurance portion of a cash refund annuity pursuant to § 2610.8.

III. *Interest rates and quantities used for valuing deferred annuities.*

The following factors shall be used to value deferred annuities pursuant to § 2610.6:

(1) $k_1 = 1.0625$
(2) $k_2 = 1.0475$
(3) $k_3 = 1.0375$
(4) $n_1 = 7$
(5) $n_2 = 10$

(Secs. 4002(b)(3), 4041(b), 4044, 4062(b)(1)(A), Pub. L. 93-406, 88 Stat. 1004, 1020, 1025-27, 1029 (29 U.S.C. 13029(b)(3), 1341(b), 1344, 1362(b)(1)(A)).)

Issued at Washington, D.C., on this 20th day of November 1978.

RAY MARSHALL,
Chairman, Board of Directors, Pension Benefit Guaranty Corporation.

Issued on the date set forth above, pursuant to a resolution of the Board of Directors authorizing its Chairman to issue same.

HENRY ROSE,
Secretary, Pension Benefit Guaranty Corporation.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER R—TOXIC SUBSTANCES CONTROL ACT

[FRL 1013-4; OTS 061002]

PART 762—FULLY HALOGENATED

Chlorofluoroalkanes—Clarification of Final Rule

AGENCY: Environmental Protection Agency.

ACTION: Clarification of final rule.

SUMMARY: On March 17, 1978, the Environmental Protection Agency (EPA) promulgated a final rule prohibiting almost all of the manufacture, processing, and distribution of fully halogenated chlorofluoroalkanes (hereinafter referred to as chlorofluorocarbons) for those aerosol propellant uses which are subject to the Toxic Substances Control Act, 15 U.S.C. 2601 *et seq.* (43 FR 11318). The prohibition on manufacture for aerosol propellant uses took effect on October 15, 1978, and the prohibition on processing and distribution in commerce for aerosol propellant uses will become effective December 15, 1978. Today's notice is intended to clarify the scope of the rule and the definition of aerosol propellant.

FOR FURTHER INFORMATION CONTACT:

James D. Silverman, Office of Toxic Substances (TS-794), Environmental Protection Agency, 401 M Street, SW, Washington, DC 20460. Phone No. (202) 755-0920.

SUPPLEMENTARY INFORMATION: EPA's chlorofluorocarbon rule banned most uses of chlorofluorocarbons for aerosol propellant purposes. "Aerosol propellant" is defined in the rule to mean "a liquefied or compressed gas in a container where the purpose of the liquefied or compressed gas is to expel from the container liquid or solid material different from the aerosol propellant." (40 CFR 762.2(a)). It has come to EPA's attention that it is possible that the term "aerosol propellant" is being misinterpreted. The misinterpretation is that the definition of "aerosol propellant" does not include solvent, flame retardant, and vapor depressant uses of chlorofluorocarbons in combination with hydrocarbon or other propellants in aerosol products. This is incorrect; as explained below, manufacture, processing, and distribution of chlorofluorocarbons for such uses are prohibited by Part 762.

For the purposes of Part 762, aerosol products contain two categories of ingredients—active ingredients and propellants. The definition of "aerosol propellant" covers both the substance that directly expels the active ingredient, and any other substance that is used as part of the propellant system to modify the expelling force or to achieve the propelling effect in the desired controlled manner. Thus, even if a low vapor pressure chlorofluorocarbon like F-11 cannot by itself expel the active ingredient, it is part of the propellant system if by nature of its effect on the vapor pressure, flammability, or solvency of the substance physically expelling the active ingredient from the container, it facilitates the safe and effective delivery of the active ingredient. F-11's and F-12's various functions are interrelated and serve in effect as the product delivery system. (See, for example, a letter dated January 25, 1977 to the Office

of Toxic Substances, EPA from the E. I. DuPont de Nemours and Company).

F-11, a low vapor pressure chlorofluorocarbon, is used, for example, to reduce the higher vapor pressure of F-12. Alone, neither F-11 nor F-12 is a satisfactory propellant but together they create the appropriate spray characteristics sought for the product. If F-11 served a similar function with regard to hydrocarbons, it again would be regarded as part of the aerosol propellant system.

This reading of "aerosol propellant" is clear from the record. Were EPA to have excluded any propellant related uses from the rule, this exclusion would have been reflected in the discussion of F-11 in the record because F-11 is primarily used for vapor depressant and solvent purposes and because it constituted almost half of the chlorofluorocarbon production for aerosol uses. However, in discussions of what chlorofluorocarbons were covered by the rule, in the economic assessment of the impact of a ban rule, in the treatment of alternatives, and in the estimates of the effect of a ban rule on total chlorofluorocarbon production, F-11 was always included and, indeed, never differentiated from F-12 (which generally serves only as the direct high pressure propellant). No comments were received challenging or questioning the Agency's treatment of F-11, and EPA had not been aware until recently that there was any doubt as to the scope of the rule. The industry's comments on the rule show that it was aware of the comprehensive nature of EPA's rule.

RELATED ACTIONS: The Food and Drug Administration (FDA) also promulgated a rule regulating aerosol propellants. (21 CFR 2.125; 43 FR 11301, March 17, 1978). It has responded to similar concerns in a letter dated November 9, 1978, to Stuart J. Land, Esq. of Arnold & Porter, copies of which are available from Office of Hearing Clerk, Food and Drug Administration, HFA—305; Room 4-65, 5600 Fishers Lane, Rockville, MD 20857. Except to the extent that the letter concerns minor differences between the FDA and EPA rules, EPA is in full agreement with the position taken by FDA.

Dated: November 20, 1978.

STEVEN JELLINEK,
Assistant Administrator for Toxic Substances.

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 57—GRANTS FOR CONSTRUCTION OF TEACHING FACILITIES, EDUCATIONAL IMPROVEMENTS, SCHOLARSHIPS AND STUDENT LOANS

Area Health Education Center Programs

AGENCY: Public Health Service, HEW.

ACTION: Interim-Final Regulations.

SUMMARY: These regulations set forth requirements for the award of contracts to schools of medicine or osteopathy for the planning, development, and operation of area health education center programs. These awards are authorized under the Public Health Service Act as amended by the Health Professions Educational Assistance Act of 1976. The purpose is to improve the distribution, quality and efficiency of health personnel services delivery system and to encourage regionalization of educational responsibilities of health professions schools.

DATES: These regulations are effective immediately; however, as discussed below, comments are invited. To be considered, comments must be received on or before January 26, 1979.

ADDRESS: Written comments should be addressed to the Director, Bureau of Health Manpower, Center Building, 4th Floor, 3700 East-West Highway, Hyattsville, Maryland 20782. All comments received will be available for public inspection and copying at the above address, weekdays (Federal holidays excepted), between the hours of 8:30 a.m. and 5 p.m.

FOR FURTHER INFORMATION CONTACT:

Dr. Robert F. Knouss, Director, Division of Medicine, Bureau of Health Manpower, Room 4-42, at the above address (telephone 301-436-6418).

SUPPLEMENTARY INFORMATION: On October 12, 1976, the Health Professions Educational Assistance Act of 1976, Public Law 94-484, added a new section 781 to the Public Health Service Act (42 U.S.C. 295g-1), authorizing the Secretary to award contracts to schools of medicine or osteopathy to plan, develop, and operate area health education center programs. The purposes of these programs are to improve the distribution, supply, quality, utilization, and efficiency of health personnel in the health services delivery system and to encourage the regionalization of educational responsibilities of health professions schools. The statute provides that the Secretary establish, by regulation, standards and criteria for the award of contracts and the implementation of the programs.

The Assistant Secretary for Health, Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, is establishing a new Subpart MM of 42 CFR Part 57 entitled "Area Health Education Center Programs," in order to implement this statutory authority.

The following is a brief summary of the major features of the program.

1. Under section 781, the Secretary may enter into contracts with schools of medicine or schools of osteopathy for the purpose of planning, developing, and operating area health education center programs. While eligibility is limited to schools of medicine or schools of osteopathy, this does not preclude a parent institution from entering into contracts on behalf of the schools. Furthermore, under § 57.3803 one or more schools of medicine or schools of osteopathy may participate in a single area health education center program. When more than one school participates in a program, each school must meet the requirements of section 781(c) of the Act and § 57.3805(d) of this subpart. However, a school of medicine or osteopathy need not meet these requirements if its only function is to provide resources by purchase agreement with an area health education center. (See § 57.3805(d).)

2. Under section 781(b) of the Act, an area health education center program is a cooperative program of one or more medical or osteopathic schools and one or more nonprofit private or public area health education centers. The Act sets forth separate statutory requirements for the performance of functions by *each* school of medicine or school of osteopathy participating in the program and by *each* area health education center participating in the program. The regulations provide definitions of the terms "school of medicine," "school of ostopathy," and "area health education center." (See § 57.3802.) In light of the separate and distinct assignments of responsibilities to schools and area health education centers, as well as the legislative history of section 781, among other considerations, it is the Secretary's view that a school of medicine or ostoeopathy, its parent institution, or any of their subunits (e.g., branch campuses) may not serve as an area health education center. Furthermore, the regulations provide that each center must be a legal entity in the State in which it is located. One of the principal functions of the legal entity must be the operation of the center.

3. Fundamental to the area health education center program model set forth in section 781 is the cooperative arrangement between one or more schools of medicine or osteopathy and one or more area health education centers that participate in a program. These cooperative arrangements underscore the bilateral nature of the relationship in which all parties perform specified functions. Therefore, the regulations specify the broad areas which must be addressed in the establishment of written agreements between the schools and the centers so that each may fulfill its programmatic responsibilities. The details of these arrangements are expected to vary depending upon local circumstances and needs. (See § 57.3805(d)(1).)

4. Section 57.3805 of the regulations provides the requirements for each area health education center program, as well as each participating school of medicine or osteopathy and each area health education center. These requirements are self-explanatory. The Secretary wishes to point out, however, with respect to § 57.3805(d)(3) requiring a minimum of 10 percent of undergraduate medical or osteopathic clinical education in one or more centers, that preceptorship experiences conducted in the offices of physicians associated with the center or by other professionals associated with the center may be counted in fulfilling this requirement.

5. Attention is called to the statutory provision that at least 75 percent of the funds provided under section 781 must be expended by the schools in the area health education centers. (See § 57.3809.) During the initial planning and development phases for establishing an area health education center program, funds spent by the participating schools for the planning and development of an area health education center may be counted within the funds expended in the center. It should also be noted that under section 781(e) of the Act no school of medicine or ostoeopathy may receive funds solely for the planning and development of a program for more than two years. (See § 57.3806(a).)

6. Sections 57.3807 and 57.3808 set forth the provisions dealing with the evaluation and funding of proposals. For this fiscal year the Secretary will be issuing three separate solicitations for proposals for establishing area health education center programs: One for rural programs, one for urban programs and one for statewide programs, A rural area health education center program will be one which proposes the establishment of one or more rural area health education centers, whose principal programmatic objectives will be to meet the needs of health professionals serving a population which is substantially, though not necessarily exclusively, located in areas outside of standard metropolitan statistical areas. An urban area health education center program, containing one or more urban area health education centers, will be characterized by a principal programmatic thrust aimed at meeting the needs of health professionals in inner city and surrounding communities which are located in standard metropolitan statistical areas. This concept does not preclude the inclusion of the remainder of the county in which the central city is located and contiguous counties that are integrated economically and socially with the county containing the central city. A statewide area health education center program is envisioned as being a single program in a State which contains one or more urban or rural centers. While both urban and rural centers may be elements of the statewide program, the program is not to be merely a confederation of a number of centers loosely bound by an administrative overlay. Rather, the area health education center program is to play a leadership role within the State by coordinating and facilitating the regionalization of the educational responsibilities of the cooperating health professions schools within the State.

The Secretary will determine, after consultation with the National Advisory Council on Health Professions Education, which of the proposals submitted are technically acceptable, and which of the technically acceptable proposals will be funded. In making this latter determination, the Secretary will consider the technical merit of each proposal, the relative cost-efficiency to the government of the proposals, and one or more special factors relating to national needs which the Secretary may establish from time to time and will include in the Request for Proposals. In fiscal year 1978 special consideration will be given to proposed area health education center programs which include a new public medical school as a participating school. For this purpose, a new public medical school is a public medical school which enrolled its first class after July 1, 1970. This special consideration is being given based on an expression of congressional intent in the House Report on the Health, Education, and Welfare appropriations bill for 1978 (H.R. Rep. No. 95-381, 95th Cong. 1st Sess. 55 (1977)). For fiscal year 1979, the Secretary is contemplating that special consideration will be given to programs that provide substantial opportunities for the education of individuals from minority or low-income backgrounds.

Area health education center contractors were previously funded under section 774 of the Act. With the enactment of section 781, those contractors were required to come into compliance with the requirements of sections (b), (c), and (d) of section 781 and the implementing regulations directed by section 781(f). Since the additional requirements imposed on those contractors are extensive, Congress enacted section 802 of P.L. 94-484 granting the contractors a grace period to bring their projects into compliance.

However, if the contractors to whom section 802 applies are to receive any payments after September 30, 1978, they must provide the Secretary with assurances that they will bring their project into compliance with section 781 and the required regulations by September 30, 1979. Since the requirements with respect to which these contractors must provide assurances are implemented in the regulations, the contractors cannot provide meaningful assurances until the regulations are issued. Therefore, the Secretary has determined, in accordance with 5 U.S.C. 553 and Department policy, that it would be impractical and contrary to the public interest to follow proposed rulemaking procedures or to delay the effective date of these regulations.

Notwithstanding the omission of the proposed rulemaking procedures, interested persons are invited to submit written comments or data relating to these regulations to the Director of the Bureau of Health Manpower at the address given above. All relevant materials received not later than January 26, 1979, will be considered, and following the close of the comment period, the regulations will be revised as warranted by the public comments received. It is intended that any revision of the regulations arising from these comments will be published within 90 days of the close of the comment period.

The regulations as set forth below will be effective on November 27, 1978.

Accordingly Subpart MM is added to Part 57 of Title 42 of the Code of Federal Regulations and is adopted as set forth below.

Dated: August 16, 1978.

JULIUS B. RICHMOND,
Assistant Secretary for Health.

Approved: November 11, 1978.

HALE CHAMPION,
Acting Secretary.

57.3810 Applicability of procurement regulations.
57.3811 Records and audits.

AUTHORITY: Sec. 215 of the Public Health Service Act, 58 Stat. 690, as amended by 63 Stat. 35 (42 U.S.C. 216); Sec. 781 of the Public Health Service Act, 90 Stat. 2312 (42 U.S.C. 295g-1).

§ 57.3801 To what programs do these regulations apply?

The regulations of this subpart apply to the award of contracts under section 781 of the Public Health Service Act (42 U.S.C. 295g-1) to medical and osteopathic schools for the planning, development, and operation of area health education center programs.

§ 57.3802 Definitions

As used in this subpart:

"Act" means the Public Health Service Act.

"Allied health personnel" means individuals as defined in 42 CFR 58.502.

"Area health education center" or "center" means a public or nonprofit private entity which has a cooperative arrangement with one or more schools of medicine or osteopathy for the planning, development, and operation of an area health education center program. A center must be an entity which is recognized under the laws of the State in which it is located and which has as one of its principal functions the operation of the area health education center.

"Area health education center program" or "program" means a cooperative program among one or more schools of medicine or osteopathy and one or more area health education centers, which is capable of performing the functions described in sections 781(c) and (d)(2) of the Act and § 57.3805 of these regulations, and which is designed to improve the distribution, supply, quality, utilization, and efficiency of health personnel in the health services delivery system and to encourage the regionalization of educational responsibilities of health professions schools.

"Clerkship" means supervised clinical training.

"Continuing medical education" or "continuing education" means any education for the purpose of maintaining or enhancing the knowledge, attitudes or abilities of a health professional in his or her field which does not lead to any formal advanced standing in the profession.

"Health professional" means any physician, dentist, optometrist, podiatrist, pharmacist, nurse, nurse practitioner, physician's assistant or allied health personnel.

"Nurse practitioner" means an individual as defined in 42 CFR 57.2402.

"Physician's assistant" means an individual as defined in 42 CFR 57.802.

"Preceptorship" means an educational experience in which the student works with a designated health professional, the preceptor, who teaches in the student's field of study and personally supervises the student's clinical activity.

"School of medicine, osteopathy, dentistry, optometry, podiatry, pharmacy, public health or veterinary medicine" means a school as defined in section 701(4) of the Act which is accredited as provided in section 772(b) of the Act.

"School of nursing" means collegiate, associate degree or diploma school of nursing as defined in section 853 of the Act.

"Training center for allied health professions" means a training center as defined in 42 CFR 58.402.

"Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

§ 57.3803 What entities are eligible to submit proposals?

(a) Any public or nonprofit private school of medicine or osteopathy located in a State is eligible to submit a proposal.

(b) More than one school of medicine or osteopathy may submit a joint proposal for the planning, development and operation of an area health education center program. In this case each school must conduct the activities required by section 781(c) of the Act and § 57.3805(d).

§ 57.3804 How are proposals submitted?

Proposals for contracts under this subpart must be submitted in the form and manner and at the time which the Secretary may prescribe in the Request for Proposals.

§ 57.3805 What requirements apply to projects?

A project supported under this subpart must be conducted in accordance with the following requirements:

(a) Each area health education center program must have a program director who holds a faculty appointment at a medical or osteopathic school participating in the program and who is responsible for the overall direction and coordination of the program.

(b) Each area health education center program must have a program advisory committee to advise the program director on all aspects of the conduct of the program, including administrative, education and evaluation. This committee must include representatives of schools and programs of health professions which actively participate in the area health education program under § 57.3805(d)(5) of this subpart and section 781(c)(4) of the Act, individuals with training and experience in the fields of: medicine or osteopathy, dentistry, nursing, and an allied health profession, as well as a representative of each of the centers cooperating in the program.

(c) Each area health education center program must annually evaluate its activities to ascertain the extent to which it is meeting the purposes described in section 781(a) of the Act.

(d) *Requirements for schools of medicine or osteopathy.*

A school of medicine or osteopathy participating in an area health education program (with the exception of a school whose only function is to provide resources by purchase agreement to a center) must

(1) Have a cooperative arrangement with an area health education center, as evidenced by a written agreement. This agreement must provide at a minimum that the schools participating in the program will perform the following functions:

(i) Provide faculty to assist in the conduct of the center's educational activities, as necessary;

(ii) Provide an agreed upon amount of funds to the center to assist the center in meeting the costs of its activities, including those described in section 781(d)(2) of the Act;

(iii) Be responsible for the quality of the education received in the center, including evaluating the quality of the educational programs required by section 781(d)(2) of the Act and the performance of its students while receiving clinical training in the center. The area health education center must agree to conduct the activities described in section 781(d)(2) of the Act and these regulations and assist the schools participating in the program in meeting the requirements in section 781(c) of the Act and these regulations.

(2) Provide for the active participation in the program by individuals who are associated with the administration of the school, and staff or faculty members of each of the departments (or specialties if the school has no departments) of internal medicine, pediatrics, obstetrics and gynecology, surgery, psychiatry and family medicine. These persons may participate in the program in either the school or center and must perform, among others, the following functions: provide guidance on educational program or curriculum development and operation; instruct students (including residents and other practicing health professionals); perform student or program evaluation; and assist in program administration.

(3) Conduct no less than 10 percent of all undergraduate medical or osteopathic clinical education of the school in one or more centers and in clinical settings which are part of or affiliated with a center and in which the center arranges and supports the clinical education. The school shall assure that, annually the ratio of student-weeks of clinical education received by its undergraduate students in centers to the total number of student weeks of clinical education received by its undergraduate students, in any location, is no less than 0.10. For purposes of this paragraph, undergraduate medical or osteopathic clinical education means any clerkships, preceptorships, or other educational activities which are offered in the following fields: family medicine, internal medicine and its subspecialties, pediatrics and its subspecialties, dermatology, obstetrics and gynecology, surgery and its subspecialties, anesthesiology, psychiatry and its subspecialties, neurology, physical medicine and rehabilitation, emergency medicine, nuclear medicine and general preventive medicine, including community medicine. Courses, seminars, and other educaional programs which are entirely didactic or laboratory in nature or which are primarily in anatomy, biochemistry, physiology, microbiology, pharmacology, or pathology are not include in this definition.

(4) Be responsible for, or conduct a program for the training of physician's assistants, which meets the requirements of 42 CFR Part 57, Subpart I, or nurse practitioners, which meets the requirements of 42 CFR Part 57, Subpart Y Appendix. Where the school is responsible for but does not conduct one of these programs, it must participate in the presentation, review, and evaluation of one of these programs at an affiliated institution so that at least part of the education in the program is provided by faculty of the school. The school must give special consideration to the enrollment in these programs of individuals from or who plan to practice in the area served by the center by either:

(i) Giving preference to applicants whose place of residence has been in the area served by the center at any time prior to application; or

(ii) Obtaining a signed statement from applicants, indicating an intent to practice the skills acquired in the program in the area.

(5) Provide for the active participation of at least two schools or programs of other health professions in the educational program conducted in the area served by the center(s). In meeting this requirement:

(i) One of the participating schools or programs must be a school of dentistry, if there is one affiliated with the university with which the school of medicine or osteopathy is affiliated;

(ii) Only the following schools or programs of other health professions may be included to meet the requirement of this paragraph:

(A) Training centers for the allied health professions;

(B) Schools of nursing;

(C) Schools of optometry;

(D) Schools of pharmacy;

(E) Schools of podiatry; or

(F) Schools of public health.

(iii) Each school or program participating in the area health education center program under this paragraph must have a written agreement with the school(s) of medicine or osteopathy, under which the school or program agrees to assist and participate, as is appropriate, in the activities of each center as required under section 781(d)(2) of the Act.

(iv) Each school or program participating in the area health education center under this paragraph must have a written agreement with each center, under which the school or program agrees to provide some or all of its students with educational experiences in the center or in settings affiliated with the center, and the center agrees to arrange for and support the provision of the educational programs. This agreement may be part of the agreement required by paragraph (d)(1) of this section.

(e) *Requirements for area health education centers:*

Each area health education center participating in an area health education center program must:

(1) Designate either a geographic area or medically underserved population which it will serve ("the area served by the center"). This area or population must be in a location remote from the main site of the teaching facilities of the schools which participate in the program. For purposes of this requirement,

(i) a medically underserved population means the population of a geographic area designated as a primary medical manpower shortage area under section 332 of the Act or a population group designated under section 332 of the Act as having a shortage of primary medical care manpower.

(ii) an area or population will meet this requirement if its location is removed from the site of the teaching facilities where the major part of the educational program of any participating schools is conducted. The area served by the center must not duplicate, in whole or in part, the area served by any other center.

(2) Provide for or conduct training in health education services, in the area served by the center. This training must consist of courses and programs to train health professionals to instruct the public or patients in medical self-help, disease prevention, accident prevention, nutrition, physical fitness, and other subjects relating to health maintenance, and must include the principles of nutrition, the evaluation of nutritional status, and nutritional counseling. The training must be oriented towards the ethnic and cultural backgrounds of the people in the area.

(3) Assess the health manpower needs of the area served by the center and assist in the planning and development of training programs to meet these needs. In meeting this requirement the center must cooperate with the health systems agencies designated for the area served by the center and other appropriate entities in determining data on health manpower needs of the area for the next 10 years and in developing a plan for training programs to meet these needs. At a minimum the center must assess the need for (i) manpower to provide health education and nutrition counseling services, (ii) primary care health manpower including physicians in family practice, general internal medicine, general pediatrics, and obstetrics and gynecology, physican's assistants, and nurse practitioners; (iii) mental health practitioners, (iv) dentists and (v) nurses. In carrying out its responsibility to assess health manpower needs in the area, the center shall, to the maximum extent practicable, use existing data (including data used for the designation of shortage areas under sections 332 and 836(h) of the Act).

(4) Provide for or conduct a medical residency training program in family practice, general internal medicine, or general pediatrics in which no fewer than six persons are enrolled in first-year positions in the program. If one center which is participating in the area health education center program provides for or conducts a medical residency training program meeting this requirement, other centers participating in the program may, but need not, provide for or conduct a medical residency training program in these fields. In meeting this requirement:

requirements of § 57.3805 within three

[6315-01-M]

procedures that will increase adminis-

(i) A family practice residency must meet the requirements of section 786(a) of the Act, and implementing regulations.

(ii) A general internal medicine or general pediatrics residency must meet the requirements of 42 CFR § 57.3105, except for the requirements in paragraphs (h) and (i) of that section.

(iii) The center must conduct the medical residency training program at a site which is part of the center or provide for the conduct of this program, by written affiliation agreement with an appropriate entity located in the area served by the center.

(5) Provide opportunities for continuing medical education (including education in disease prevention) to all physicians and other health professionals practicing within the area served by the center. This continuing medical education must include courses, seminars, lectures, grand rounds, clinical pathological conferences, mini-residencies, library services, or in-house training, as appropriate for all health professionals in the area. In meeting this requirement:

(i) The center must assess the need for providing continuing medical education taking into consideration the numbers, needs and location of health professionals in the area as well as educational activities available through other entities.

(ii) The center must announce the availability of continuing medical education activities offered in the center as well as those provided through other entities and distribute these announcements to all health professionals in the area.

(6) Provide continuing medical education and other support services to the National Health Service Corps (Corps) members assigned to the area served by the center, after notification of the assignment(s) by the Secretary. In meeting this requirement the center must:

(i) Establish an organized program which will provide for the assessment of the continuing medical education needs of the members of the Corps and offer to members of the Corps, at a cost not to exceed the cost to any other participant, continuing medical education relevant to these identified needs.

(ii) Assist in providing

(A) Consultation services, if needed, including telephone consultation, to Corps personnel.

(B) A patient referral system, if necessary, to Corps patients and assistance to these patients in obtaining laboratory and pathological services, at accessible locations.

(C) Supervision and consultation for non-physician and non-dentist members of the Corps in the area.

(D) Temporary substitutes for Corps personnel, as needed.

(7) Encourage the utilization of nurse practicioners and physician's assistants in the area and the recruitment of individuals for training in these professions at the participating medical or osteopathic schools. In meeting this requirement, the center must:

(i) Inform potential employers in the area regarding the following, among other subjects:

(A) The function and utilization of nurse practitioners and physician's assistants;

(B) State laws and regulations governing nurse practitioners and physician's assistants; and

(C) Reimbursement and malpractice coverage for services rendered by nurse practitioners and physician's assistants.

(ii) Determine employment opportunities for nurse practitioners and physician's assistants and participate in referral and recruitment of persons for these positions.

(iii) Distribute information in the area concerning the nurse practitioner or physician's assistant training program(s) provided for or conducted by the schools of medicine or osteopathy participating in the program, and participate in recruiting persons in the area for the programs.

(8) Arrange and support educational opportunities for medical and other students at affiliated health facilities, ambulatory care centers, and health agencies throughout the area served by the center. In meeting this requirement, the center must:

(i) Coordinate the conduct of the following programs, including assisting in their planning and development, obtaining the necessary resources and providing administrative support services for:

(A) Clinical education for undergraduate medical or osteopathic students in at least family practice, general internal medicine and general pediatrics;

(B) Education for undergraduate and, as appropiate, graduate students, at a school of dentistry, if one is participating in the program;

(C) Education for students of the other schools or programs participating in the area health education center program under § 57.3805(d)(5); and

(D) Orientation for high school and post-high school students in schools in the area to develop awareness of health careers and health opportunities.

(9) Have an advisory board of which at least 75 percent of the members are persons from the area served by the center, including health service providers and consumers. For this purpose, health service providers are individuals who derive more than 10 percent of their annual income from the health care industry. In meeting this requirement:

(i) The advisory board must be reasonably divided between:

(A) Providers of health care, including at least one physician, dentist, nurse, and allied health professional, who is actively engaged in the practice of his or her profession in the area served by the center; and

(B) Consumers, including students, who reside in the area and are broadly representative of the population in the area in terms of demographic factors, such as race, ethnic background, and sex. The advisory board shall advise the chief administrative official of the center on all major policies concerning the operation of the center, on the establishment of center program priorities and on other issues, as necessary.

§ 57.3806 When do the requirements of § 57.3805 apply? [1]

(a) The period of time in which any entity will have to meet all the requirements of § 57.3805 will be negotiated on a case-by-case basis depending upon the nature and scope of the planned area health education center program. No contract, however, shall provide funds solely for the planning or development of a program for a period of longer than two years.

(b) Each area health education center program must begin planning for at least one center during the first year of support so that at least one center is fully operational and meets all the applicable requirements of § 57.3805 during the third year of support. Additional centers may be phased in during the first four years of Federal support except that once planning for any center is initiated, it must become fully operational and meet all the applicable requirements of § 57.3805 within three years.

(c) Each school with which the Secretary enters into a contract under this subpart must meet all the requirements of § 57.3805 during the first four years of Federal support except that once planning to add any school is initiated it must meet all the applicable requirements of § 57.3805 within three years.

[1] Entities that are receiving funds in fiscal year 1978 and 1979 to continue payments under contracts originally entered into under section 774 of the Act (as in effect on September 30, 1977) for projects for area health education center programs do not have to be conducted in accordance with these requirements, *except that* no payments can be made under these contracts in the fiscal year ending September 30, 1979, unless the entity provides assurances satisfactory to the Secretary that not later than September 30, 1979, the project for which payment is made will be a project described in section 781(a) of the Act and that the project will meet the requirements of section 781(b), (c) and (d) of the Act and applicable provisions of these regulations.

[6315-01-M]

Title 45—Public Welfare

CHAPTER X—COMMUNITY SERVICES ADMINISTRATION

PART 1067—FUNDING OF CSA GRANTEES

Subpart—Final Approval of CSA Grant Contract Actions

AGENCY: Community Services Administration.

ACTION: Final rule.

SUMMARY: This rule effectuates immediate delegation to the Regional Directors of authority to give final approval for grants under the reopened Emergency Energy Assistance Program (EEAP). Previous to the passage of the Economic Opportunity Amendments of 1978, section 601(c) of the Economic Opportunity Act barred the delegation of this power to the Regional Directors.

EFFECTIVE DATE: This rule is effective November 27, 1978. CSA intends to adopt a more comprehensive rule. When it is published as a proposed rule CSA will welcome comment.

FOR FURTHER INFORMATION CONTACT:

Ms. Faye Rattner. Telephone (202) 245-5280. Teletypewriter (202) 254-5280.

SUPPLEMENTARY INFORMATION: When Section 601(c) was added to the Economic Opportunity Act, its last sentence prohibited the delegation of final approval of grants and contracts to any regional official after June 15, 1975. In the Economic Opportunity Amendments of 1978, this provision, which had proved to be administratively burdensome, was repealed and a requirement to promulgate rules and regulations for final approval of grants and contracts was substituted. The Community Services Administration fully intends to issue comprehensive regulations on this subject in the near future. However, in view of the September 27, 1978, order of the District Court, Northern District of Illinois in *Greig* v. *Olivarez*, Civil No. 78 C 1646, which requires completion of all grant actions by March 15, 1979, maximum efficiency in the processing of grants is immediately required. To achieve this administrative efficiency it is necessary to return final grant-making power for EEAP (Extended) effective immediately. Since this action does not affect any substantive rights, but is merely a matter of CSA procedures that will increase administrative efficiency, and since it is required to ensure timely compliance with the order of the court in *Greig* v. *Olivarez*, CSA finds that this rule must be effective immediately and that allowing time for prior public comment is impracticable and contrary to the public interest. CSA furthermore finds that this action is pursuant to the intent of Congress to further administrative efficiency by allowing the return of this power to the Regional Directors and that, as this rule is merely temporary, its immediate promulgation is consistent with Congressional intent for adoption of overall regulations governing final approval of CSA grants and contracts.

(Sec. 601(c) 78 Stat. 530, 42 U.S.C. 2941(c).)

GRACIELA (GRACE) OLIVAREZ,
Director.

Therefore, 45 CFR Part 1067 is amended by adding a new Subpart—Final Approval of CSA Grant Contract Actions consisting of § 1067.60-1 and § 1067.60-2 to read as follows:

Subpart—Final Approval of CSA Grant Contract Actions

§ 1067.60-1 Applicability of this subpart.

This subpart applies to grants made under the authority of Section 222(a)(5) of the Economic Opportunity Act of 1964, as amended (EOA) pursuant to the court order in *Greig* v. *Olivarez*, District Court, Northern District of Illinois, Civil No. 78 C 1646, September 17, 1978.

§ 1067.60-2 Policy.

The Regional Directors of the Community Services Administration shall have the concurrent authority to give final approval to grants under Section 222(a)(5) of the EOA, insofar as these grants are funded from monies made available under the reopened Emergency Energy Assistance Program, pursuant to the court order in *Greig* v. *Olivarez* and the Notice published in the November 20, 1978, FEDERAL REGISTER regarding this subject (43 FR 54115). The Regional Directors shall exercise this authority by signature in bloc 15 of CSA Form 314 entitled "Statement of CSA Approval."

[FR Doc. 78-33164 Filed 11-24-78; 8:45 am]

§ 57.3807 Evaluation of proposals.

The Secretary, after consultation with the National Advisory Council on Health Professions Education established by section 702 of the Act, shall find proposals technically acceptable or unacceptable after considering, among other pertinent factors:

(a) The potential effectiveness of the proposed project in carrying out the purposes of section 781 of the Act and this subpart;

(b) The degree to which the proposed project adequately provides for the program requirements set forth in § 57.3805;

(c) The capability of the offeror to carry out the proposed project; and

(d) The extent of the need of the area to be served by the proposed area health education center program.

§ 57.3808 Awards.

In determining which technically acceptable offerors will be awarded contracts, the Secretary will consider, among other factors, (a) the relative merit of the proposals, (b) the relative cost-efficiency of the proposals, and (c) any special factors relating to national needs as the Secretary may from time to time announce.

§ 57.3809 Restrictions on the amount and use of funds.

(a) The Secretary will not provide in any year under this subpart more than 75 percent of the total operating funds of an area health education center program.

(b) The area health education center program must spend at least 75 percent of the funds provided under this subpart in any year in area health education centers.

§ 57.3810 Applicability of procurement regulations.

Contracts made under this subpart shall be subject to all applicable provisions of the Federal Procurement Regulations, (41 CFR Chapter 1 *et seq.*) and Department of Health, Education, and Welfare Procurement Regulations (41 CFR Chapter 3).

§ 57.3811 Records and audits.

In addition to the record and audit requirements of the Federal and Department procurement regulations, the records and audit requirements of section 705 of the Act apply to contracts under this subpart.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER D—TARIFFS AND SCHEDULES

PART 1331—SECTION 5a APPLICATIONS

Notification of Rate Proposals Following Prior Independent Action

AGENCY: Interstate Commerce Commission.

ACTION: Final Rule.

SUMMARY: The Interstate Commerce Commission is adopting a rule which modifies the rule published in the FEDERAL REGISTER on March 17, 1978, 43 FR 11201 by exempting general rate increases from that rule's provision concerning opportunity to be heard. This rule affirms that previous rule in all other respects. The Commission also has discussed portions of the rule which parties have requested be clarified.

DATE: The Rule adopted here will take effect December 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Deputy Director Janice Rosenak or Assistant Deputy Director Harvey Gobetz, Section of Rates, Office of Proceedings, Interstate Commerce Commission, Washington, D.C. 20423, telephone 202-275-7693 or 202-275-7656.

SUPPLEMENTARY INFORMATION: This proceeding was before the Commission on appeal and on petition for clarification and modification of the Rule published in the FEDERAL REGISTER on March 17, 1978, 43 FR 11201. That Rule was adopted because the Commission found, in the course of the rulemaking proceeding, that unconsented to changes and cancellations of rates established by independent action can and do occur, and that occurrences of this nature infringe the carriers' statutory right of independent action.

On appeal, the Commission has determined that general rate increases (GRI) should be exempted from the rule's provision (c), concerning opportunity to be heard, since their inclusion would require a substantial change in railroad procedures for handling them and broaden the rule's scope beyond independent action rates. Such changes are better considered in a separate proceeding or as a part of a more general consideration of rail agreements. The rule has been affirmed in all other respects.

The Commission also has clarified the rule by explaining in its decision that (1) the rule does not apply to carriers changing rates by use of collective procedures, but only to independent actors and those joining without use of collective procedures; and (2) the rule's definition of adequate notice requires railroads to supply only general information concerning restrictions (not detailed identification), and identification of origin and destination groups (not each station).

This amended rule is issued under the authority of 49 U.S.C. §§ 5b, 5c, 12; 204(a)(6); 304(a); and 403(a), and was adopted formally at a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C. on the 4th day of October, 1978.

By the Commission, Commissioner Stafford, concurring in part, dissenting in part.

H. G. HOMME, Jr.,
Acting Secretary.

Under 49 U.S.C. 5b, 5c, 12, 204(a)(6), 304(a), and 403(a), 49 CFR Part 1331 was supplemented by adding a new § 1331.6. Section 1331.6 is amended to read:

§ 1331.6 Changing or canceling rates established by independent action.

(a) For purposes of this subsection the following definitions shall apply:

(1) "Independent action" is any action taken by a common carrier member of a rate bureau, on or after the date this rule takes effect,

(i) To established a rate to be published in the appropriate rate bureau tariff, or to cancel a rate for that carrier's account, or

(ii) To instruct the rate bureau that an existing rate (whether established by independent action or collective action), that is proposed to be changed or canceled, be retained for that carrier's account and published in the appropriate bureau tariff, or

(iii) To have published for its account in the appropriate rate bureau tariff a rate established by the independent action of another carrier. This definition applies regardless of the manner in which the carrier joins in the rate, as long as the rate published for the joining carrier's account is the same as the rate established by the other carrier under independent action.

(2) "Adequate notice" is notice which informs the carrier, shipper or other interested party for which it is intended (i) that a proposal has been made to change or cancel a rate established by independent action, (ii) of the rate proposed to be changed or canceled, (iii) the proposed new rate if there is one, (iv) limitations on weight or other restrictions pertaining to the existing rate and the proposed rule, (v) the commodities moving under the rate, (vi) the relevant origin and destination points, (vii) carrier participating in the rate proposed to be changed or canceled, and (viii) the identity of the proponent of the change or cancellation.

(3) A "rate bureau" is a ratemaking conference consisting of common carrier members operating under the provision of an agreememt approved by the Commission pursuant to section 5a or 5b of the Interstate Commerce Act, 49 U.S.C. 5b, 5c.

(4) The term "rate" refers to rates, fares, classifications, allowances or charges (including charges between carriers and compensation paid or received for the use of facilities and equipment), or rules and regulations pertaining thereto.

(5) A "general rate increase," when the term is used in reference to a motor common carrier rate increase, is a proposed general adjustment of substantially all the rates published in a rate bureau's tariff or tariffs.

(6) A "general rate increase," when the term is used in reference to a railroad rate increase, is a proposed general increase in freight rates or charges for the account of substantially all common carriers by railroad in the United States or in any of the three primary ratemaking territories, namely, eastern, western, or southern.

(7) A "rate restructuring," as the term is used in reference to motor carrier rates, is a proposed general adjustment of rates published in a rate bureau's tariffs with the objective of restructuring the rates on a wide range of traffic, involving both increases and reductions in rates.

(b) *Duty of adequate notice to shippers and other interested parties.* Motor carrier and railroad rate bureaus shall provide shippers and other interested parties (not including member carriers of the rate bureau), who have requested notice of proposed rate bureau action under the terms of the rate bureau's agreement, adequate notice of any proposal to change or cancel a rate established by independent action.

(c) *Opportunity to be heard.* Before the committee or other group designated under the terms of a motor carrier or railroad bureau's agreement meets to consider a proposal to change or cancel a rate established by independent action (whether for the purpose of voting to accept or reject the proposal or to consider whether to recommend it to the rate bureau membership for a final vote), member carriers (in the case of motor carrier rate bureaus), shippers and other interested parties (in the case of motor carrier and rail rate bureaus) shall have no less than 14 days (not counting the day notice of the proposal is sent to these parties) to respond to the notice to express their views to the appropriate committee or group in whatever manner they so choose be it in writing, in person or by some other means.

(d) *Duty of adequate notice to motor carriers and to obtain their consent.*

(1) When a proposal has been made under the collective ratemaking procedures of a motor common carrier rate bureau, or under the right of independent action, to change or cancel a rate established by independent action, all member carriers of the bureau participating in the rate that is proposed to be changed or canceled shall be provided adequate notice of that proposal.

(2) The change or cancellation shall not take effect or, as necessary, be published for the account of any member carrier participating in the rate if the carrier does not communicate to, and the rate bureau does not receive, that carrier's written consent to the change in or cancellation of the rate. Written consent must be freely given without any kind of direct or indirect pressure or coercion from any other carrier, shipper or other party. The requirement that written consent be communicated and received may not be waived by any carrier, shipper, officer of a rate bureau or other party. This rule applies notwithstanding the fact that a carrier of whom consent is required is in actual attendance or voting at a rate committee meeting or other meeting at which the proposal is considered.

(e) *General rate increases and rate restructuring.* The provisions set forth in paragraphs (b), (c), and (d) above do not apply to proposals to change rates established by independent action where the proposal is made as part of a proposed general rate increase or rate restructuring, and notice to member carriers, shippers and other interested parties informs the reader in a conspicuous place that the proposal is made as part of a general rate increase or rate restructuring.

(f) *A rate established by independent action.* For purposes of this rule a rate established by independent action continues to be a rate established by independent action even after it has been changed pursuant to a general rate increase or rate restructuring of the type defined in paragraph (e). However, a rate established by independent action ceases to be a rate of that character for the account of any carrier participating in the rate that consents in writing pursuant to paragraph (d) to the proposed change in or cancellation of the rate. For example, where more than one carrier is participating in the rate, and the rate is proposed to be changed, the rate continues to be a rate established by independent action for the account of the carriers which do not consent to the change or cancellation, but ceases to be a rate of that type for the account of the carriers that give their consent pursuant to paragraph (d).

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 230]

[Release No. 33-5997, File No. S7-762]

SMALL OFFERING EXEMPTION

AGENCY: Securities and Exchange Commission.

ACTION: Proposed rulemaking.

SUMMARY: The Commission is publishing for comment a proposal to amend its small offering exemptive rule to permit under certain conditions use of a preliminary offering circular between the date of filing of a notification relating to a firm commitment underwritten public offering of securities in reliance upon this exemptive rule and the date on which the offering is commenced. This action is responsive to the concerns expressed by some witnesses at the recently completed small business hearings that underwritten offerings in reliance upon this rule are adversely affected by the existing proscription on use of the preliminary offering circular prior to the commencement of the offering.

DATES: Comments should be submitted on or before December 31, 1978.

ADDRESS: Comment letters should refer to File No. S7-762 and should be submitted in triplicate to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. All comments received will be available for public inspection and copying in the Commission's Public Reference Room, 1100 L Street NW., Washington, D.C. 20549.

FOR FURTHER INFORMATION CONTACT:

Ruth D. Appleton, 202-755-1290 or Linda L. Griggs, 202-755-1803, Division of Corporation Finance, Securities and Exchange Commission, Washington, D.C. 20549.

SUPPLEMENTARY INFORMATION: The Commission today published for comment a proposed amendment to Regulation A [17 CFR 230.251-.264], a regulation adopted by the Commission pursuant to section 3(b) of the Securities Act of 1933 ("1933 Act") [15 U.S.C. 77a et seq., as amended by Pub. L. 94-29 (June 4, 1975)]. The amendment is being proposed in the nature of an experiment for the purpose of facilitating the use of Regulation A for firm commitment underwritten public offerings of securities.

The proposal represents another step in the Commission's ongoing efforts to assist small businesses. In Securities Act Release No. 5977 (September 11, 1978) [43 FR 41383], the Commission adopted an amendment to Regulation A to increase the aggregate offering price of securities which may be sold thereunder during a twelve month period from $500,000 to $1,500,000. This amendment followed Congressional action raising the aggregate amount of the small offering exemption specified in section 3(b). In Securities Act Release No. 5975 (September 8, 1978) [43 FR 41193], the Commission adopted an amendment to Rule 146 [17 CFR 230.146], the private placement exemptive rule, which modifies the disclosure requirements when an offering does not exceed $1,500,000. Most recently, the Commission amended Rule 144 [17 CFR 230.144], the rule which sets forth guidelines for the resale of certain securities, and proposed amendments to that rule. Securities Act Release No. 5979 (September 19, 1978) [43 FR 43709] amends Rule 144 to (1) relax the limitations on the amount of securities that can be sold under the rule; (2) permit sales made under the rule through market makers; and (3) eliminate the brokerage or market maker transaction requirement with respect to sales of securities by estates and beneficiaries thereof who are not affiliates of the issuer of securities.[1] Securities Act Release No. 5980 (September 20, 1978) [43 FR 43726] proposed for comment amendments to Rule 144 which would permit persons who have held securities covered by the rule for five years or more to sell such securities without any limitations, provided such persons are not affiliates of the issuer of the securities.

BACKGROUND

Section 3(b) of the 1933 Act authorizes the Commission to adopt rules and regulations to exempt securities from the registration requirements of the Act where the aggregate amount at which such issue is offered to the public does not exceed $2,000,000.[2] Pursuant to this authority, the Commission adopted Regulation A.[3]

Regulation A requires the filing and use of an offering circular containing information similar to, but less extensive than, the information which would be contained in a prospectus delivered pursuant to section 5 of the Act.[4] The most significant advantage to the use of a Regulation A offering circular over a 1933 Act prospectus used for registration of securities is that the financial statements in the offering circular need not be certified.[5]

Regulation A requires delivery of an offering circular concurrently with or prior to any written offer of securities made pursuant to its exemptive provisions. Rule 256(a) [17 CFR 230.256(a)] further provides that if the issuer is not required to file reports pursuant to section 13(a) or 15(d) of the Securities Exchange Act of 1934 ("Exchange Act") [15 U.S.C. 78a et seq., as amended by Pub. L. No. 94-29 (June 4, 1975)], it must furnish an offering circular to the prospective purchaser at least 48 hours prior to the delivery of

[1] In Securities Act Release No. 5995 (November 8, 1978) [43 FR], Rule 144, Form 144 [17 CFR 239.144] and Form S-8 [17 CFR 239.16b] were amended further to reflect the amendments to Rule 144 adopted on September 19, 1978.

[2] Pub. L. 95-425 raised the ceiling under section 3(b) to $2,000,000. At the Commission meeting on September 7, 1978, it was determined to raise the ceiling under Regulation A to $1,500,000 with the decision whether to raise the ceiling to $2,000,000 being deferred for a period of experience. Securities Act Release No. 5977 (Sept. 11, 1978) [43 FR 41383].

[3] Under the authority granted by section 3(b) the Commission has also, inter alia, adopted Regulation B (17 CFR 230.300-230.346) for fractional undivided interests in oil and gas rights; Rule 240 (17 CFR 230.240) for certain limited offers and sales by closely held issuers; Regulation E (17 CFR 230.601-230.610a) for securities fo small business investment companies; and Regulation F (17 CFR 230.651-230.656), for assessments or assessable stock and for assessable stock offered or sold to realize assessments.

[4] A Regulation A offering which meets the conditions set forth in Rule 257 (17 CFR 230.257), however, may be made without the use of an offering circular if the aggregate offering price of all securities of the issuer, its predecessors and affiliates does not exceed $100,000. See Securities Act Release No. 5977 (Sept. 11, 1978).

[5] In Securities Act Release No. 5977, however, the Commission stated that it had determined not to require certified financial statements for offerings with an aggregate offering price above $500,000 although it "strongly encourage[d] the use of certified financials".

the confirmation of sale. Subject to one essential distinction, this delivery requirement parallels the prospectus delivery requirements applicable to registered public offerings. Under section 5(b)(2), unless an exemption from registration is available for the sale of a security, the sale must be accompanied or preceded by a prospectus.

Issuers of securities registered under the 1933 Act must also satisfy certain other prospectus delivery requirements, however. Section 8 of the Act requires the Commission to have "due regard to the adequacy of the information respecting the issuer theretofore available to the public" in making a determination whether to act favorably upon an issuer's request for acceleration of the effective date of the registration statement. This provision, as implemented in Rule 460 [17 CFR 230.460], promulgated under the Act, has been interpreted as a declaration of policy that information concerning the issuer must be disseminated before sales of its securities may be made and accordingly that, if the issuer is not required to file reports pursuant to section 13(a) or 15(d) of the Exchange Act, the Commission may not accelerate the effective date of a registration statement unless copies of a preliminary prospectus have been distributed to all persons to whom the underwriters expect to mail confirmations not less than 48 hours prior to the time it is expected such confirmations will be mailed (Securities Act Release No. 4968 (April 24, 1969) [34 FR 7235]).

The crucial distinction between the delivery requirements applicable to offerings registered under the 1933 Act and those applicable to offerings exempt from registration under Regulation A is that, unlike the registered offering, in which a preliminary prospectus may be used prior to the effective date of the registration statement, no preliminary offering circular may be distributed prior to the commencement of a Regulation A offering.[6]

Some of the witnesses from the investment banking community testifying before the Commission in its hearings on small business capital formation stated that Regulation A is currently not suited for the firm underwritten distribution process. The inability of an underwriter to circulate a preliminary offering document prior to the date on which the Regulation A offering is commenced may adversely affect the feasibility of Regulation A for firm commitment underwritten public offerings and accordingly may dissuade potential underwriters from entering firm commitment arrangements with respect to Regulation A offerings. Some of the possible reasons for this adverse effect on underwritten Regulation A offerings may include the following:

1. Adequate information concerning the issuer cannot be disseminated to and absorbed by potential investors prior to commencement of actual sales of the security.

2. The underwriter cannot follow the traditional practice of soliciting prospective selling group members to participate in the offering by furnishing them with a proposed offering document in preliminary form which they can review with prospective purchasers in order to decide whether to participate as members of the selling group.

3. The proposed offering document cannot be reviewed with analysts, institutional investors and others to determine whether it contains ambiguities or omits information which prospective investors consider material to an investment decision. Thus, the issuer and the underwriter may be cut off from an important source of information on which improvements in the quality of the disclosure document may be based.

4. Steps customarily taken in connection with an underwritten public offering to ascertain the extent of investor interest cannot be taken, precluding the underwriters from obtaining that information necessary to establish the price per share, size of the proposed offering and terms on which the offering should be made, and the underwriting commission.

5. Because of the requirement that the offering circular be delivered 48 hours prior to confirmation of sale, the issuer and the underwriters must agree on all of the pertinent terms of the offering, such as the price per share and aggregate amount to be offered, 48 hours before the securities may be sold.

For the foregoing reasons, any underwriters willing to undertake a firm commitment Regulation A offering would be likely to insist that the underwriting commissions be increased to reflect their uncertainty about the marketability of the issue that exists due to an inability to determine potential investor interest in the offering prior to the date of its commencement.

DISCUSSION OF THE PROPOSAL

The proposed amendment to Regulation A would add a provision permitting the use of a preliminary offering circular in the form filed with a Regulation A notification on Form 1-A [17 CFR 239.90] if the following conditions are met:

1. The offering circular contains substantially the information required by Regulation A, or contains substantially that information except for certain data dependent upon the offering price.

2. The preliminary offering circular is clearly designated as such and bears a legend comparable to that required on the cover of a Preliminary Prospectus.

3. The aggregate offering price of the securities being offered pursuant to the Regulation A exemption is equal to or in excess of $500,000.

4. The offering relates solely to a firm commitment underwritten public offering of securities.

5. A definitive offering circular other than one designated as a "Preliminary Offering Circular" accompanies or precedes the confirmation of sale sent to any person who has been furnished the preliminary offering circular.

The proposed amendment is based upon Rule 433 [17 CFR 230.433], which sets forth the terms and conditions governing the use of a preliminary prospectus in connection with an offering registered under the Securities Act of 1933. Unlike Rule 433, however, the proposal would limit the use of a preliminary offering circular in the following ways: (1) the aggregate offering price of the securities being offered pursuant to the Regulation A exemption must be equal to or in excess of $500,000; and (2) the offering must relate solely to a firm commitment underwritten public offering of securities.

The restrictions relating to the amount of the offering and the type of underwriting arrangements are intended to assure that the preliminary offering circular is of a reasonably good quality. Comment is specifically invited on the proposed $500,000 offering amount restriction and its anticipated impact on the availability of the proposal to small businesses. No distinction is made under Rule 433 between firm commitment underwritten offerings and best efforts or non-underwritten offerings. The reason for proposing in paragraph (i) of Rule 256 that a preliminary offering circular be useable in a firm commitment underwritten offering is that the difficulty created by the absence of a preliminary offering circular is greater as to firm commitment offerings than as to best efforts or non-underwritten offerings.

The proposal would not require that the underwriting agreement filed as an exhibit to the notification pursuant to Rule 255(a) be signed. Nevertheless, the Commission expects that the issuer which intends to use the offer-

[6] Under Rule 255 (17 CFR 230.255), a Regulation A offering may not be commenced until ten business days after the original notification is filed or ten calendar days after an amended notification is filed, unless acceleration is granted. Under Rule 263 [17 CFR 230.263], the issuer is required to notify the Commission if the offering is not commenced within three business days after the issuer is advised that the Commission has no further comments on the notification.

By the Commission.

North Capitol Street, Washington,

ing circular as a preliminary offering circular will have a bona fide intent to enter an agreement with the underwriter for such underwriter's purchase of all of the securities to be offered pursuant to the subject offering circular. Furthermore, any underwriter named in the offering by the issuer would be expected to be able to satisfy the net capital requirements[7] upon taking the securities.

Similarly to the provisions of Rule 433, the preliminary offering circular would be required to contain substantially the information generally required in offering circulars used pursuant to the provisions of Regulation A, except for the omission of specified information relating to the offering price and the underwriter's compensation. In addition, the preliminary offering circular would be required to include a legend similar to that required on a preliminary prospectus. The proposed legend to be included on the cover page of the preliminary offering circular, however, would be required to be printed in a color other than red and different from that used elsewhere in the offering circular, in order to distinguish it from a "red herring" or preliminary prospectus. In this regard, comments are invited on whether the costs of using a second color for the required legend are so substantial that an alternative means of emphasizing the legend should be considered.

The requirement that a definitive offering circular accompany or precede the confirmation of sale is intended to assure that prospective purchasers who received a preliminary offering circular receive the offering circular which includes all information relating to the offering price and the underwriter's compensation. This type of information likely would be deleted from the preliminary offering circular. Similarly, on a registered offering, delivery of a definitive prospectus to purchasers of the securities is required by section 5(b)(2) of the 1933 Act.

The proposal would enable the distribution of a preliminary offering circular complying with the provisions of proposed paragraph (l) of Rule 256 of Regulation A once the notification and offering circular were filed with the Commission. Oral offers related to such a preliminary offering circular would also be permitted. The provisions of sections (a) and (d) of Rule 255 would not be applicable to these uses of the preliminary offering circular. It should be noted, however, that sales of the securities would not be permitted during the ten day waiting periods provided for by sections (a) and (d) of Rule 255.

If the staff has no comments on the preliminary offering circular, its distribution to persons to whom the securities are expected to be sold would satisfy the requirements of paragraphs (a)(1) and (a)(2) of Rule 256.[8] Therefore, the proposal would permit persons to make written offers of securities of an issuer under Regulation A if the offer is accompanied or preceded by a preliminary offering circular meeting the requirements of paragraph (i). Furthermore, the proposal would enable persons to mail confirmations of sale to those prospective purchasers who had received such a preliminary offering circular 48 hours prior to their receipt of the confirmation. These persons would also receive copies of the definitive offering circular, that is, the offering circular containing the information required by Schedule I of Form 1-A, pursuant to proposed paragraph (l)(5) of Rule 256. Sales to persons who had not received preliminary offering circulars would have to satisfy the existing requirements of Rule 256(a), with delivery of an offering circular containing the Schedule I information 48 hours prior to receipt of the confirmation with respect to non-reporting issuers.

Rule 256(a)(2) does not require compliance with the 48 hour delivery provision with respect to offerings of issuers which are reporting companies. Therefore, the offering circular required to be distributed by proposed paragraph (l)(5) would be delivered to all prospective purchasers of the issuer's securities in compliance with Rule 256(a)(2).

If the staff has comments on the preliminary offering circular, the issuer would be required to file an amendment to the circular pursuant to Rule 255(d). Provided the conditions in proposed paragraph (i) are met, the amended offering circular could be distributed as a preliminary offering circular during the ten day waiting period provided for by Rule 255(d) during which sales of the securities cannot be made. The amended offering circular could also be used to satisfy the provisions of Rule 256(a).

Rule 255(d) enables the Commission, and its staff by delegated authority,[9] to authorize the offering of securities prior to the expiration of ten days following the filing of an amendment. Upon request for acceleration of the ten day period, the staff likely would require redistribution of the amended preliminary offering circular as a condition to the exercise of its discretion to authorize the commencement of sales prior to the expiration of the ten day period if the previously distributed preliminary offering circular is considered by the staff to be materially deficient.[10] Once again, the distributed amended preliminary offering circular may be used for compliance with Rule 256(a) in lieu of the offering circular containing all of the information required by Schedule I provided the conditions in paragraph (i) are met. Of course, with respect to issuers not required to file reports pursuant to section 13(a) or 15(d), prospective purchasers would have to receive the amended preliminary offering circular 48 hours prior to their receipt of confirmation of sale.

The staff likely would require also redistribution of the amended preliminary offering circular with respect to reporting issuers as a condition to acceleration where the amendments are material even through Rule 256(a)(2) would require only that prospective purchasers be furnished the definitive offering circular prior to or together with receipt of their confirmation of sale. The staff's procedure for determining whether redistribution of the preliminary offering circular will be required is intended to parallel procedures now followed by the staff with respect to the determination whether redistribution of a preliminary prospectus is required in offerings registered under the 1933 Act.

TEXT OF PROPOSED AMENDMENT

17 CFR 230.256 is proposed to be amended to revise paragraph (a) and add paragraph (i) as follows:

§ 230.256 Filing and use of the offering circular.

(a) Except as provided in paragraphs (o) or (i) of this section and in § 230.257—

* * * * *

(i) An offering circular filed pursuant to paragraph (f) may be distributed prior to the expiration of the ten day waiting periods provided for in § 230.255(a) and (d) and such distribution may be accompanied or followed by oral offers related thereto provided the conditions in subparagraphs (1) through (5) are met. In addition, such distributed offering circular may be used to meet the requirements of paragraph (a) of § 230.256 and shall be

[7] Rule 15c3-1 [17 CFR 240.15c3-1].

[8] Paragraph (a)(1) requires that a written offer of the securities be accompanied or preceded by an offering circular containing all of the information specified in Schedule I of Form 1-A. Paragraph (a)(2) provides that a person to whom a confirmation of sale is mailed should receive a copy of such an offering circular at least 48 hours prior to receipt of the confirmation if the issuer is not required to file reports pursuant to section 13(a) or 15(d) of the Exchange Act. The offering circular may be furnished with or at any time prior to delivery of the confirmation of sale with respect to reporting issuers, however.

[9] 17 CFR 200.30-1(g)(2).

[10] Should redistribution not be required, the earlier offering circular, which was designated as a "Preliminary Offering Circular," could be used to satisfy the delivery requirements of Rule 256(a).

exempt pursuant to the requirements of section 3(b) of the Act.

(1) Such offering circular contains substantially the information required by this section to be included in an offering circular, or contains substantially that information except for the omission of information with respect to the offering price, underwriting discounts or commissions, discounts or commissions to dealers, amount of proceeds, conversion rates, call prices, or other matters dependent upon the offering price.

(2) The aggregate offering price of the securities being offered pursuant to the Regulation A exemption is equal to or in excess of $500,000.

(3) The outside front cover page of such form of offering circular shall bear, in ink of a color other than red and different from that used elsewhere in the offering circular, the caption "Preliminary Offering Circular", the date of its issuance, and the following statement printed in type as large as that used generally in the body of such offering circular:

A notification pursuant to Regulation A relating to these securities has been filed with the Securities and Exchange Commission, but information contained herein is subject to completion or amendment. These securities may not be sold nor may offers to buy be accepted prior to the time an offering circular which is not designated as a Preliminary Offering Circular is delivered. This offering circular shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sales of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state.

(4) The offering circular relates solely to a proposed firm commitment underwritten public offering of securities; and

(5) An offering circular which contains all of the information specified in Schedule I of Form I-A [17 CFR 239.90] and which is not designated as a Preliminary Offering Circular is furnished with or prior to delivery of the confirmation of sale to any person who has been furnished with a preliminary offering circular pursuant to this paragraph.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[18 CFR Chapter I]

PUBLIC UTILITY REGULATORY POLICIES ACT

Informal Public Conference; Gathering Information on Costs of Service

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of Informal Public Conference.

SUMMARY: An informal public conference will be held on December 4, 1978, to receive preliminary comments on the implementation of Section 133 of the Public Utility Regulatory Policies Act of 1978 (PURPA). The Act requires the FERC to promulgate rules under which each electric utility having annual retail sales of electricity in excess of 500 million kilowatt hours will gather information to allow determination of the costs associated with providing retail electric service.

DATES: Request to speak at the conference—by phone (Mr. Kenneth Plumb, Secretary of the Commission 202-275-4166) by November 30, 1978. Conference—December 4, 1978, at 9:30 a.m. Written comments by December 15, 1978.

ADDRESSES: Conference—FERC Hearing Room A at 825 North Capitol Street, Washington, D.C. Written comments should be addressed to Mr. Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Mr. Daniel G. Lewis 202-275-4766 or Mr. Gregory D. Martin 202-275-4176.

SUPPLEMENTARY INFORMATION:

NOVEMBER 22, 1978.

Commissioner Matthew Holden of the Federal Energy Regulatory Commission (FERC) announces an informal public conference on December 4, 1978, for the purpose of receiving preliminary comments from interested parties on the implementation of Section 133 of the Public Utility Regulatory Policies Act of 1978 (PURPA). The public conference will begin at 9:30 a.m. on December 4 in Hearing Room A at the FERC Offices at 825 North Capitol Street, Washington, D.C., and continue on December 5 if necessary.

Section 133 of PURPA requires the FERC to promulgate rules under which each electric utility having annual retail sales of electricity in excess of 500 million kilowatt hours will gather information to allow determination of the costs associated with providing retail electric service. The information gathered is to be filed with the Commission and with the appropriate State regulatory authority by November 9, 1980, and no less frequently than every two years thereafter. Such data are also to be made public, as prescribed by the Commission.

Issues to be considered at the public conference include:

(1) The specific nature of the cost data to be gathered, e.g., marginal vs. embedded costs, financial vs. resource costs.

(2) The level of detail of cost data to be gathered.

(3) The nature and extent of load data to be collected and the availability and cost of metering that may be necessary to provide such data.

(4) Sampling and metering techniques to be employed in the collection of load data including application problems.

(5) The time required for obtaining and installing meters for the collection of sample load data following promulgation of a final Commission rule.

(6) The relationship between specification of load data and the choice of cost of service methodology.

The conference will also receive comments on any problems of policy or of the practicalities of compliance not included otherwise in the foregoing list.

The Commission invites interested persons and groups to participate in the public meeting either by making oral presentations or submitting written comments. Time for individual oral presentations may necessarily be limited. Group presentation is encouraged.

Unscheduled presentations will be permitted only if time is available. Persons wishing to make presentations at the Conference should so notify the Secretary of the Commission (202-275-4166) before 4 p.m., November 30, and should indicate the amount of time desired. The Secretary will make available by noon, December 1, a schedule of presentations. A transcript of the conference will be made.

Written comments may be addressed to the Secretary of the Commission either in advance of the public conference or afterwards, but must be received by December 15, 1978, to receive full consideration. Inquiries concerning this Conference may be directed to Daniel G. Lewis, Office of Elec-

tric Power Regulation, at 202-275-4766. periodically review such findings and may

tric Power Regulation, at 202-275-4766 or to Gregory D. Martin at 202-275-4176.

The complete text of Section 133 is set forth below.

KENNETH F. PLUMB,
Secretary.

PUBLIC UTILITY REGULATORY POLICIES ACT

SEC. 133 GATHERING INFORMATION ON COSTS OF SERVICE.

(a) *Information required to be gathered.*—Each electric utility shall periodically gather information under such rules (promulgated by the Commission) as the Commission determines necessary to allow determination of the costs associated with providing electric service. For purposes of this section, and for purposes of any consideration and determination respecting the standard established by section 111(d)(2), such costs shall be separated, to the maximum extent practicable, into the following components: customer cost component, demand cost component, and energy cost component. Rules under this subsection shall include requirements for the gathering of the following information with respect to each electric utility—

(1) The costs of serving each electric consumer class, including costs of serving different consumption patterns within such class, based on voltage level, time of use, and other appropriate factors;

(2) Daily kilowatt demand load curves for all electric consumer classes combined representative of daily and seasonal differences in demand, and daily kilowatt demand load curves for each electric consumer class for which there is a separate rate, representative of daily and seasonal differences in demand;

(3) Annual capital, operating, and maintenance costs: (A) For transmission and distribution services, and (B) for each type of generating unit.

(4) Costs of purchased power, including representative daily and seasonal differences in the amount of such costs.

Such rules shall provide that information required to be gathered under this section shall be presented in such categories and such detail as may be necessary to carry out the purposes of this section.

(b) *Commission rules.*—The Commission shall, within 180 days after the date of enactment of this Act, by rule, prescribe the methods, procedure, and format to be used by electric utilities in gathering the information described in this section. Such rules may provide for the exemption by the Commission of an electric utility or class of electric utilities from gathering all or part of such information, in cases where such utility or utilities show and the Commission finds, after public notice and opportunity for the presentation of written data, views, and arguments, that gathering such information is not likely to carry out the purposes of this section. The Commission shall periodically review such findings and may revise such rules.

(c) *Filing and publication.*—Not later than 2 years after the date of enactment of this Act, and periodically, but not less frequently than every 2 years thereafter, each electric utility shall file with—

(1) The Commission, and

(2) Any State regulatory authority which has ratemaking authority for such utility.

The information gathered pursuant to this section and make such information available to the public in such form and manner as the Commission shall prescribe. In addition, at the time of application for, or proposal of, any rate increase, each electric utility shall make such information available to the public in such form and manner as the Commission shall prescribe. The 2-year period after the date of the enactment specified in this subsection may be extended by the Commission for a reasonable additional period in the case of any electric utility for good cause shown.

(d) *Enforcement.*—For purposes of enforcement, any violation of a requirement of this section shall be treated as a violation of a provision of the Energy Supply and Environmental Coordination Act of 1974 enforceable under section 12 of such Act (notwithstanding any expiration date in such Act) except that in applying the provisions of such section 12 any reference to the Federal Energy Administrator shall be treated as a reference to the Commission.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 60]

[FRL 1012-3]

STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES

Electric Utility Steam Generating Units; Correction and Additional Information

AGENCY: Environmental Protection Agency.

ACTION: Corrections and Additional Information on proposed rule.

SUMMARY: This notice corrects information that appeared in the FEDERAL REGISTER on September 19, 1978 (43 FR 42164 and 42168), and provides information on the additional analyses being conducted.

On September 19, 1978 (43 FR 42154), EPA proposed standards of performance which would limit emissions of sulfur dioxide (SO_2), particulate matter, and nitrogen oxides (NO_x) from new, modified and reconstructed electric utility steam generating units capable of combusting more than 73 megawatts (MW) heat input (250 million Btu/hour) of fossil fuel. In that proposal, EPA indicated that a final decision on full versus partial SO_2 scrubbing would not be made until the analyses of various alternatives were completed and public comments evaluated. The purpose of this notice is to correct certain errors in Tables 7 and 8 contained in the preamble; to clearly identify certain documents in the docket (Docket Number OAQPS-78-1); and to advise the public of the additional analyses that are being undertaken.

DATES: Comments on this information may be submitted to EPA through January 15, 1979.

ADDRESSES: Comments should be submitted to Jack R. Farmer, Chief, Standards Development Branch, Emission Standards and Engineering Division (MD-13), Environmental Protection Agency, Research Triangle Park, North Carolina 27711.

FOR FURTHER INFORMATION CONTACT:

Mr. Don R. Goodwin, Director, Emission Standards and Engineering Division (MD-13), Environmental Protection Agency, Research Triangle Park, North Carolina 27711, telephone number (919) 541-5271.

SUPPLEMENTARY INFORMATION: The corrections and additinal information follow.

1. As a result of EPA's continuing analysis of the costs of the alternative standards, certain errors pertaining to average monthly residential bills and the incremental utility capital expenditures were identified in Tables 7 and 8 of the preamble of the September 19 proposal. The corrected tables are presented in this notice.

2. The "real resource" present value (presented in the second full paragraph of column one [43 FR 42164]) should also be corrected to read $17.5 billion for the full control option and $10.1 billion for the 340 ng/J (0.80 lb/million Btu) option as compared to the current standard.

3. In addition, it is also necessary to correct average monthly residential bills and the incremental utility capital expenditures in Tables 3-5 and 3-6 found on pages 3-15 and 3-19, respectively, of the document, "Background Information for Proposed SO_2 Emission Standards-Supplement," EPA-450/2-78-007a-1. The corrected tables are presented in this notice.

[1] 1990 oil price of $20.00/bbl; rail rate escalation of 1% over inflation.

[2] 1990 oil price of $17.00/bbl; rail rate escalation of 1% over inflation.

[3] 1990 oil price of $12.70/bbl; rail rate escalation of 1% over inflation.

[4] 1990 oil price of $20.00/bbl; rail rate escalation of 1% over inflation.

[5] Existing plants subject to SIPs.

[6] New plants required to meet the current NSPS of 1.2 lb SO_2/million Btu.

[7] Plants required to meet the revised (alternative) NSPS.

[8] All economic data are presented in 1975 dollars. All cost information includes costs for controlling particulate emissions for new sources to a level of 0.03 lbs per million Btu.

4. It has come to EPA's attention that some interested parties are having difficulty in identifying the documents that constitute the economic impact assessment that was prepared in accordance with Section 317 of the Clean Air Act. These documents are:

"Electric Utility Steam Generating Units: Background Information for Proposed NO_x Emission Standards," EPA 450/2-78-006a

"Electric Utility Steam Generating Units: Background Information for Proposed Particulate Matter Emission Standards," EPA 450/2-78-002a

"Electric Utility Steam Generating Units: Background Information for Proposed SO_2 Emission Standards," EPA 450/2-78-007a

"Electric Utility Steam Generating Units: Background Information for Proposed SO_2 Emission Standards-Supplement," EPA 450/2-78-007a-01.

In addition, EPA has prepared the following list of documents which provided background information for the preparation of the economic impact assessment. All of these documents are contained in Docket Number OAQPS-78-1, which is located at EPA's Central Docket Section, Room 2903B, Waterside Mall, 401 M Street, S.W., Washington, D.C. 20460.

IV-B-4 Memo from Michael Allen, Temple, Barker and Sloane, Inc., to Dave Shaver, Office of Planning and Evaluation, EPA, dated September 29, 1978. Subject: Changes in the TBS NSPS Analysis.

5. EPA is continuing to analyze alternative standards of performance for limiting the emission of SO_2 from power plants. As part of this effort, EPA staff has met with representatives of the Department of Energy (DOE), the Council of Economic Advisors, the Council on Wage and Price Stability, and others for the purpose of reexamining the assumptions used for the April and August analyses. As a result of these meetings, certain assumptions have been revised for the analysis currently being conducted. These changes include different oil prices from those used in the April and August analyses. For the current round of analyses, EPA will examine the various alternative standards using two ranges of oil prices. These are presented below in 1975 dollars:

1985—$12.30, 1985—$12.90; 1990—$13.20, 1990—$16.40; 1995—$14.90, 1995—$21.00.

In determining which oil prices to use, EPA sought guidance from DOE and others. Pending their final recommendations, EPA selected oil prices which appeared to be most consistent with those being used in the most recent analysis of the national energy plan.

In addition to oil prices, adjustments are also being made to the assumed nuclear capacity. Scrubber costs have also been refined. These changes will be presented in detail when the new analyses are released prior to the public hearing on the proposed standards. The other assumptions used in the August analysis (see Table 1, 43 FR 42165) will be retained.

With respect to the analysis of alternative standards, EPA is reanalyzing the proposed full control option as well as the DOE and Utility Air Regulatory Group recommendations. EPA is also examining other forms of both the full and partial control options. Under full control, different reduction requirements, maximum allowable emission limitations, and maximum control levels are being considered. Under partial control, other options would vary the percent reduction requirement and maximum allowable emission limitation as a function of coal sulfur content.

EPA intends to make results of these analyses available so they can be considered at the public hearing scheduled for December 12, 13, 14 Washington, D.C. Interested persons will also be afforded an opportunity to submit written comments on the results of these analyses and their underlying assumptions through January 15, 1978.

Dated: November 8, 1978.

DAVID D. HAWKINS,
Assistant Administrator for Air, Noise, and Radiation.

Donald C. Parks, Deputy Director, Office of Program Operations, Bureau of Health Manpower, Room 3-22 at the above address (Telephone: 301-436-6560).

SUPPLEMENTARY INFORMATION: The Assistant Secretary for Health, Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education and Welfare proposes to add a new Subpart GG, "Payment for Tuition and Other Educational Costs," to Part 57 of Title 42 of the Code of Federal Regulations.

Section 711 of the Public Health Service Act (42 U.S.C. 292k) provides that the Secretary will establish criteria for determining allowable increases in tuition and other educational costs for which the Secretary will be responsible for payment under Title VII of the Public Health Service Act. The proposed regulations apply to three programs in Title VII in which the Secretary commits the Federal Government to pay the costs of the tuition and other educational expenses of participating students and only to institutions having students participating in these programs. The programs are section 751 of the Act, establishing the National Health Service Corps Scholarship Program, section 757 of the Act establishing an Indian Health Scholarship Program and section 758 of the Act establishing a program for scholarships for first year Students of Exceptional Financial Need.

The following is a brief summary of the regulations as proposed:

1. The proposed regulations provide that increases in tuition and other educational costs for which the Secretary will be responsible under section 751, section 757, and section 758 of the Act will be allowed only to the extent that the increases are attributable either to uncontrollable costs as fuel costs or to the institution's efforts to improve and maintain the quality of health professions education at the institution. Whenever an institution increases tuition or education costs for which the Secretary is responsible under the three scholarship programs, the institution must provide the Secretary with a statement explaining the basis of the increase. Assuming that the increase is reasonably justified and is attributable to uncontrollable costs or related to improving and maintaining educational quality, the Secretary, generally, will not request more detail information. However, the Secretary does reserve the right to require additional detailed cost breakdowns, particularly, in those instances where the percentage increase in tuition and other educational costs exceed the percentage increase in the Consumer Price Index (CPI) as determined annaully and published by the Bureau of Labor Statistics. While the Secretary considered prescribing amounts of allowable increases or percentages of allowable increases in tuition and other educational costs, the Secretary has not taken this approach in the proposed regulations. In the Secretary's view this approach is both impractical and potentially inequitable since institutions vary greatly with respect to which costs are included in "tuition" and which are classified as "eduational costs," and any set percentage or amount limitation could be unfair depending upon the classification system used by the particular institution. Moreover, in the Secretary's view, it is likely that by incorporating percentages or amount ceilings in these regulations, they would become the "federally approved level" and thus serve as the sole determinant of the amount of increases implemented by numerous health professions institutions. While the Secretary proposes to utilize the CPI as a benchmark for determing a general category of cost increases that may require additional justification, it is not intended that the CPI be interpreted as being the maximum (or minimum) increase that will be acceptable to the Secretary.

Further it should be understood that while under the proposed regulations the Secretary may determine the increases in tuition and other educational costs for which the Secretary will be responsible, the proposed regulations do not authorize the Secretary to *establish* tuition and other educational costs for an institution.

2. The proposed regulations provide that even if an increase is allowable under the criteria summarized in Item I, it will only be allowed if it is charged uniformly to all students in the same category, for example, year class, without regard to the fact that the student is being supported under Title VII of the Act.

3. The proposed regulations provide, that if the Secretary, after reviewing all available data, information, and justifications submitted by an institution, determines that an increase is not allowable under the criteria in § 57.3202, that the Secretary will provide the affected institution a detailed written explanation of the basis of this determination.

Interested persons are invited to submit written comments, data, views, and arguments relating to these proposed regulations to the Director of the Bureau of Health Manpower at the address given above.

All relevant material received not later than January 26, 1979 will be considered before adoption of the final regulations.

It is, therefore, proposed to add a new Subpart GG to Part 57 to read as set forth below.

Dated: August 16, 1978.

JULIUS B. RICHMOND,
Assistant Secretary for Health.

Approved: November 11, 1978.

HALE CHAMPION,
Acting Secretary.

Subpart GG—Payment for Tuition and Other Educational Costs

Sec.
57.3201 To which programs do these regulations apply?
57.3202 How will allowable increases be determined?

AUTHORITY: Sec. 215, Public Health Service Act, 58 Stat. 690, as amended, 63 Stat. 35 (42 U.S.C. 216); sec. 711, Public Health Service Act, 90 Stat. 2253 (42 U.S.C. 292k).

Subpart GG—Payment for Tuition and Other Educational Costs

§ 57.3201 To which programs do these regulations apply?

The regulations in this subpart establish the criteria to be used in determining allowable increases in tuition and other educational costs for which the Secretary is responsible for payment under the following sections of the Public Health Service Act: The National Health Service Corps Scholarship Program (sec. 751) (42 U.S.C. 294t), the Indian Health Scholarship Program (sec. 757) (42 U.S.C. 294y-1), and Scholarships for First-Year Students of Exceptional Financial Need (sec. 758) (42 U.S.C. 294z). The regulations apply to increases in tuition and other educational costs occurring after the school year beginning immediately before October 1, 1978.

§ 57.3202 How will allowable increases be determined?

(a) In addition to the limitation imposed by paragraph (c), the Secretary will be responsible for increases in tuition and other educational costs charged to students participating in scholarship programs authorized under sections 751, 757, or 758 of the Act (the Scholarship Programs) over the amount charged for the school year immediately preceding the increase only to the extent that they are either (1) attributable to uncontrollable costs, such as fuel costs, mandated cost-of-living increases in wages, salaries and fringe benefits, or (2) attributable to costs of maintaining and improving the quality of the health professions education provided by the institution, such as hiring additional faculty to improve the faculty-student ratio, costs incurred in off-site training of students, and necessary improvements in teaching equipment. Increases in patient care and research costs are allowable as part of an increase in tuition and other educational costs only to the extent that they can be documented as clearly necessary to maintain and improve he quality of the education being supported.

(b) Institutions must provide the Secretary with an explanation of the basis of any increase. The Secretary may request additional detailed cost breakdowns when it is determined that further information is necessary to justify the increase.

(c) The Secretary is responsible for increases in tuition and other educational costs only if the same increase is charged to all students in the same category (for example, the same class year or place of residence) and without regard to whether the student is receiving support under the Scholarship Programs. A student participating in the Scholarship Programs may not be denied eligibility because of this participation for any discounts or rebates in tuition or other educational costs given to all other students in the same category at the institution.

(d) If the Secretary, after reviewing all available data, information, and justifications submitted by an institution, determines that an increase in tuition and other educational costs is not allowable under the criteria contained in paragraphs (a) and (c) of this section, the Secretary will provide the affected institution a detailed written explanation of the basis of his or her determination.

COMMUNITY SERVICES ADMINISTRATION

[45 CFR Part 1062]

[CSA Instruction 6400-01a]

ESTABLISHMENT AND ELIGIBILITY OF COMMUNITY ACTION PROGRAMS

Boards and Committees of Title II Programs

AGENCY: Community Services Administration.

ACTION: Proposed rule.

SUMMARY: The Community Services Administration (CSA) is filing a proposed rule revising its policy statement on boards and committees of programs funded under Title II of the Economic Opportunity Act of 1964, as amended. The proposed rule simplifies, updates, and fills vacuums in CSA policy on grantee boards, and publishes the policy for the first time in the FEDERAL REGISTER (45 CFR). This one policy statement will supercede OEO Instructions 6400-01, The Organization of Community Action Agency Boards and Committees Under the Economic Opportunity Act (Section 211); 6402-01, Service by OEO Employees and Other Federal Employees with Grantees and Delegate Agencies; 6402-02, Standards of Eligibility for Members of Governing Bodies and Policy Advisory Committees of Community Action Agencies and Single-Purpose Agencies, Policy and Procedures; and 6402-1, Limitation on Terms of Board Service.

DATE: CSA welcomes and encourages comments on the proposed rule. All comments received prior to January 26, 1979 will be considered in drafting the final rule.

ADDRESS: Please address all comments to: Timothy P. McTighe, Community Services Administration, Office of Community Action, Policy Development and Review Division, 1200 19th Street, NW., Washington, D.C. 20506

FOR FURTHER INFORMATION CONTACT:

Timothy P. McTighe, telephone: (202) 254-5280, teletypewriter: (202) 254-6218.

SUPPLEMENTARY INFORMATION: On June 16, 1978, CSA published in the FEDERAL REGISTER (43 FR 26274) a Notice of Proposed Rulemaking announcing a policy study regarding agency regulations that govern grantee boards. The agency requested comments on the overall effectiveness of the regulations, on where there were omissions in them, and on any particular problems which have arisen in interpreting or in implementing them. In all the agency received 135 comments. There were 91 from Community Action Agencies, 15 from Limited Purpose Agencies, 4 from Delegate Agencies, 9 from State Economic Opportunity Offices (SEOOs), 6 from CSA Regional Offices, 6 from the general public, 3 from state CAP associations, and 1 from a regional SEOO association. CSA is most pleased with this response, and would like to thank all of these people for their time and interest in responding to the Notice.

The proposed rule makes specific areas where the present rule is vague. Overall, CSA has made the proposed rule clearer by deleting all guidance material from it. Whatever guidance material CSA issues will be published either as an appendix to the Instruction version of the rule or as a separate issuance. A brief discussion of the major proposed revisions follows.

§ 1062.200-3 COMMUNITY ACTION AGENCIES

The material presently covered by OEO Instruction 6400-01 has been reorganized into three subsections: (a) Boards of Directors of Community Action Agencies; (b) Contracts for Performing Components of the CAA Work Program; and (c) By-Laws.

§ 1062.200-3(a) *Boards of Directors of Community Action Agencies:* The most significant change in this subsection concerns what CSA has called "administering boards" and now proposes to call "community action boards." In changing the name of these boards the agency is returning to the language of the 1967 Amendments to the Economic Opportunity Act. The term "administering board" is solely the creature of OEO Instruction 6400-01, has no standing in the legislation, and says very little about the function of the entity. "Community action board," on the other hand, conveys the impression that the board is very much concerned with the Community Action Program which the local government has designated.

§ 1062.200-3(a)(3)(iii) *Powers of the Community Action Board:* A major area of comment and concern was the division of responsibility between the community action board and the local government where there are public CAAs. The Executive Directors of the Minneapolis CAA and of the San Mateo County, Calif., CAA both pointed out that the division of responsibilities was unclear and that the lack of specific powers for the community action board tended to dilute the participation of the poor in policy decisions.

In the proposed rule community action boards will have the power to participate jointly and to concur formally in the selection of the Executive Director and of the senior staff of the CAA. The other powers of the board have likewise been made more explicit. For example, the community action board will be responsible for enforcing compliance with all conditions of CSA grants and may submit its recommendations on all arrangements for delegating components of the CAA work program. It is through the exercise of these powers that the community action board will "administer" its program, as section 211(a) of the Economic Opportunity Act of 1964, as amended, requires.

§ 1062.200-3(a)(1) Composition of the Board: The proposed rule incorporates the requirement introduced by the 1972 Amendments to the Economic Opportunity Act that the public officials serving on the board be elected and the new requirements of the 1978

Amendments that the board consist of

cials or major groups and interests assure that they represent the poor in the community reside in the area which he/she represents.

V 4 3 1 2 2 8 N 0 2 7 7 8

Amendments that the board consist of at least 15 members and that elected public officials be currently holding office while they serve on the board. Many correspondents recommended different changes in the composition of the board, in the size of the board, or in the terms of service for board members. Since these requirements are legislated, CSA does not have the administrative authority to change them.

§ 1062.200-3(a)(2) *Selecting members of the Board:* Several rural CAAs commented that interest in selecting representatives of the poor would be greater in sparsely populated areas if there were issue-oriented constituencies to which the representatives must answer. The procedures for selecting representatives of the poor and of private organizations have therefore been changed. The proposed rule gives the same weight to selection from representative groups of the poor as to area and at large representation. While selection from groups has always been an option, at least one correspondent was unaware of it.

Many correspondents reported that the private sector of the board does help channel new resources to the CAA. Added emphasis has been given to representation from business and labor in the selection or private organizations, as section 211(b) of the Act mandates.

Note that the proposed rule gives each CAA wide latitude in determining how it will select its representatives of the poor and of private organizations. [See § 1062.200-3(c)(1).] By requiring a plan for selecting representatives of the poor and of private organizations from each CAA, CSA underscores every grantee's responsibility for assuring maximum feasible participation of the poor.

§ 1062.200-3(a)(2)(vi) *Conflict of Interest:* Several correspondents flagged the problem of conflicts of interest for board members. The chairperson of the board of the Huntington, W. Va., CAA, in particular, wrote eloquently of the difficulties which Delegate Agency representation on the CAA board of directors has caused for his and neighboring CAAs. Included in this subsection is a general statement on conflicts of interest for board members, including the conflicts prohibited by OEO Instruction 6402-01, which the proposed rule will supersede.

§ 1062.200-3(b) *Contracts for Performing Components of the CAA Work Program:* Decentralization and delegation were major issues for 16 correspondents. Opinion was fairly equally divided on the issue of decentralization. About half of the correspondents held the view that centralized authority over programming is more efficient; and half the view that decentralization stimulates the participation of the poor. The Executive Director of the St. Joseph, Mo., CAA steered a middle course between these two positions when he wrote: "Area councils * * * do increase citizen participation [and] encourage grass-roots decisions. * * * At the same time, this operation creates problems of decentralization of power and weakens direct line authority. I would rate the relative merits vs. weaknesses at about 50/50." In addition, two correspondents raised the problem of Delegate Agency control. The Executive Director of the San Antonio, Texas, CAA wrote that the regulations "should clearly delineate that Delegate Agency boards are responsible to the CAA board for contract or grant compliance".

This subsection of the proposed rule deals with both of these issues by concentrating on the agreement between the CAA and the Delegate Agency or area board. First, the CAA now must formalize this agreement in a contract in all cases when it delegates program responsibility or major policy determination. Second, it may enter into these agreements only with organizations or area boards which meet the requirements of this subsection. These board requirements, of course, do not apply to service contracts.

Whether to delegate or to decentralize is a decision for each CAA board. However, the proposed rule will prevent some of the difficulties inherent in delegation and in decentralization. It will assure participation of the poor, a strong voice for the board of directors, and the accountability of the Delegate Agency or area board for the work contracted. (Note that the requirements for program advisory committees are dealt with in the policy statement for each program.)

§ 1062.200-3(c) *By-Laws:* This subsection draws together the legislative and administrative requirements for CAA by-laws. The subjects of removal, alternates, and vacancies are now covered in the proposed rule. The new language proposed for the quorum requirement clears up the confusion about "current total membership" which the Executive Director of the Phoenix CAA, among others, noted.

§ 1062.200-4 Limited Purpose Agencies

This section provides a general statement of the board requirements for LPAs. Although the tripartite board structure is not required of LPAs, the poor must actively participate in the policy decisions of the programs which LPAs operate. The requirements set forth in this section assure that participation.

PLEASE NOTE: A Spanish translation of the proposed rule is available upon request from the contact person, Mr. McTighe.

GRACIELA (GRACE) OLIVAREZ,
Director.

The regulations of Boards and Committees of Title II Programs, 45 CFR § 1062.200-1 through § 1062.200-4, are proposed as follows:

Sec.

* * * * *

1062.200-1 Applicability.
1062.200-2 Policy.
1062.200-3 Community Action Agencies.
1062.200-4 Limited Purpose Agencies.

§ 1062.200-1 Applicability.

This subpart applies to all grantees funded under Title II of the Economic Opportunity Act of 1964, as amended, when the assistance is administered by the Community Services Administration.

§ 1062.200-2 Policy.

Compliance with these requirements is a condition for receipt of funds.

§ 1062.200-3 Community Action agencies.

(a) *Boards of Directors of Community Action Agencies.* Section 211(a) of the Economic Opportunity Act of 1964, as amended, requires that each CAA have a broadly representative board. The appropriate type for a given CAA is determined by which entity the local government designates to be the CAA. (CSA instruction 6302-2 describes the formal process for the designation of a CAA.) When the local government designates a private nonprofit corportation or a separate public agency[1] to serve as the CAA, the board of directors of the CAA is a *governing board.* When the local government serves as the CAA in its own right, it administers its program through a *community action board.* The tribal government of an Indian reservation is both the governing board and the community action board as well if there are no other officials or major groups and interests within the community.

(1) *Composition of the Board.* Section 211(b) of the Act stipulates precise requirements for the size and composition of the board. The board consists of a least fifteen but not more than fifty-one members. (i) Elected public officials, or their representatives, comprise one-third of the board. Only if the number of elected officials reasonably available and willing to serve is less than one-third of the membership of the board may appointed officials be counted in meeting this one-third requirement. (ii) Persons chosen to represent the poor comprise at least one-third of the board. (iii) Representatives of business, industry, labor, religious, welfare, or other private groups and interest comprise the remainder of the board.

(2) *Selecting Members of the Board.* Members of the board are selected in such a manner as to assure that they speak and act on behalf of the group or organization which they represent.

(i) *Public Officials:* The designating officials[2] of the local government shall select the elected public officials to serve on the board. In the event that there are not enough elected public officials reasonably available and willing to serve on the board, the designating officials may select appointed public officials to serve on the board. Both the elected and the appointed public officials selected to serve on the board shall have either general governmental responsibilities or responsibilities which require them to deal with poverty-related issues. They may not be officials with only limited, specialized, or administrative responsibilities. Each public official selected to serve on the board may choose one permanent representative to serve on the board either full-time in his/her place or whenever he/she is unable to attend a meeting. These representatives need not be public officials themselves, but they shall have full authority to act for the public official at meetings of the board. If the public officials, both elected and appointed, who are willing to serve do not comprise one-third of the board, then the remainder of the seats allotted to public officials shall remain vacant. However, the designating officials may fill these seats at any time, as soon as an official is willing to sit on the board.

(ii) *Representatives of the Poor:* Representatives of the poor shall be chosen in accordance with democratic selection procedures adequate to assure that they represent the poor in the area served by the CAA. They need not be poor themselves, but the selection procedure shall assure that they represent the poor. Representatives of the poor may be selected either to represent a specific area or neighborhood served by the CAA, or at large to represent the entire area served by the CAA, or to represent a particular organization whose membership is composed predominately of poor persons. Among the selection procedures which may be used, either along or in combination, are the following:

(A) Nominations and elections, either within neighborhoods or within the community as a whole;

(B) Selection at a meeting or conference of poor persons whose date, time, and place have been adequately publicized;

(C) Selection of representatives to a community-wide board by members of neighborhood or sub-area boards who are themselves selected by low-income neighborhood or area residents;

(D) Selection on a small area basis (such as a city block) of representatives who in turn select members for a community-wide board;

(E) Selection of representatives by existing organizations whose membership is predominately composed of poor persons.

This list is not meant to limit the variety of selection procedures which may be used. Any democratic selection procedure which assures maximum feasible participation of the poor is potentially acceptable. However, Section 211(g) of the Act prohibits any selection procedure from being held on Sabbath Day which is observed as a day of rest and worship by residents of the area served.

(iii) *Representatives of Private Organizations:* Private organizations shall be selected in such a manner as to assure that the board will benefit from board community involvement. Representation shall be drawn not only from among private social service agencies, private educational institutions, constituencies of the poor concerned with specific problems (for example, the disabled poor), and other private organizations within the community, but also from among business, industry and labor organizations. Once an organization is selected it shall choose the person to represent it on the board. Each representative shall be empowered to speak and act on behalf of the organization which he/she represents in connection with the board's business.

(iv) *Residence Requirement:* Section 211(b) of the Act requires that each member of the board selected to represent a specific geographic area within the community reside in the area which he/she represents.

(v) *Limitations on Board Service:* Public officials, or their representatives, serve at the pleasure of the designating officials and as long as the public official is currently holding office. Representatives of the poor and of private organizations may serve up to five consecutive years, but no more than a total of ten years. After serving five consecutive years, a representative of the poor or of a private organization may not serve on the board in any capacity for at least one full year.

(vi) *Conflict of Interest:* No person may sit on the board who is an officer or an employee of an organization receiving funds under contract with the CAA. (See CSA Instruction 6909-01, Conflicts of Interest in Community Action Programs, for a complete discussion of conflicts of interest.) No employee of the CAA or the Community Services Administration may serve on the board, and no other Federal employee may serve on the board in a capacity which will require him/her to represent the CAA in its dealings with CSA or with any other Federal agency.

(vii) *Selection of Members of the Board vs. Formal Appointment:* If a CAA is a local government or a separate public agency, its governing laws may require that members of the board be appointed by particular public officials such as the mayor of a city or the county executive. The requirements of selection set forth in this section are not intended to modify these legal requirements. However, the appointment of members of the board in these cases shall be a formal, non-discretionary confirmation of the actual selection of the board members by those whom they will represent, in accordance with the requirements set forth in the preceding paragraphs. Likewise, the removal of board members in these cases shall be a formal, non-discretionary confirmation of the action taken by the board itself.

(3) *Powers of the Board.* (i) *Governing Board:* The governing board of a private, non-profit CAA, or of a CAA which is a separate public agency, has the same legal powers and responsibilities granted under its state charter as the board of directors of any private, non-profit corporation. For example, the board must have the power to enter into legally binding agreements with any Federal, state, or local agency, or with any private funding organization for the purpose of running programs or providing services. In addition to these general corporate powers which all private, non-profit CAAs and all CAAs which are separate public agencies possess, Section 211(e) of the Act outlines the following spe-

[1] A CAA is a separate public agency when it is not part of the local government and when its governing body by law possesses the following exclusive powers with respect to the community action program: to appoint persons to senior staff positions (or to select these persons for formal appointment by others); to determine major personnel, fiscal, and program policies; to approve overall program plans and priorities; to enforce compliance with all conditions of CSA grants; and to approve all proposals for assistance under Title II of the Economic Opportunity Act of 1964, as amended. A CAA formed by two or more independent local governments will not be considered a separate public agency unless its governing body has the legal power to bind all of the governments jointly and without further action by them.

[2] The designating officials are the chief elected officials of the local government or combination of governments who collectively possess the power to designate a CAA according to the procedures outlined in CSA Instruction 6302-2.

V 43 / 228 NOV 27 1978

cific powers which each of these CAAs must possess:

(A) To appoint the Executive Director and the senior staff of the CAA;

(B) To determine, subject to CAS policies, major personnel, organization, fiscal, and program policies;

(C) To determine overall program plans and priorities for the CAA, including provisions for evaluating progress against performance;

(D) To make final approval of all program proposals and budgets;

(E) To enforce compliance with all conditions of CSA grants;

(F) To oversee the extent and the quality of the participation of the poor in the programs of the CAA;

(G) To determine, subject to CSA policies, rules and procedures for the governing board;

(H) To select the officers and the executive committee, if any, of the governing board.

(ii) *Local Government:* When the local government serves as CAA in its own right, it possesses powers (i)-(iv) outlined above. However, it may delegate these powers only to the community action board.

(iii) *Community Action Board:* Section 211(f) of the Act stipulates that the community action board shall "have a full opportunity to participate in the development and implementation of all programs and projects" run by the CAA. The community action board must have the following powers:

(A) To participate jointly and to concur formally in the selection of the Executive Director and of the senior staff of the CAA;

(B) To exercise all powers which the designating officials choose to delegate to the community action board;

(C) To oversee the extent and the quality of the participation of the poor in the programs of the CAA;

(D) To enforce compliance with all conditions of CSA grants;

(E) To determine, subject to CSA policies, rules and procedures for the community action board;

(F) To select the officers and the executive committee, if any, of the community action board.

In addition, the community action board shall deliberate upon the following matters and submit its written recommendations to the designating officials whenever the designating officials have not specifically delegated these powers:

(G) Determination, subject to CSA policies, of major personnel, organization, fiscal, and program policies;

(H) Determination of overall program plans and priorities;

(I) Approval of all program proposals and budgets;

(J) Approval of all evaluation and assessment studies and reports;

(K) Approval of all arrangements for delegating the planning, conducting, or evaluating a component of the work program.

(b) *Contracts for Performing Components of the CAA Work Program.* Whenever the CAA chooses to place the responsibility for planning, conducting, or evaluating a component of its work program with another organization, it shall formalize the relationship with that organization in a contract which states the specific responsibilities contracted and the conditions for performance. The board may delegate this responsibility only to organizations whose board of directors has a membership of at least one-third representatives of the poor or which forms an advisory committee at least a majority of which are democratically selected representatives of the poor. When the CAA "places the responsibility for major policy determinations with respect to the character, funding, extent, and administration of and budgeting for programs to be carried on in a particular geographic area within the community" in a subsidiary board or council, as Section 211(c) of the Act states, that board or council shall have a membership of at least a majority of representatives of the poor selected according to the procedures outlined above in section 2. These boards shall also include in their by-laws procedures for seating elected public officials who represent the area served by the area board and who wish to be seated on it.

(c) *By-Laws of the Community Action Agency.* When the CAA is first designated, the designating officials establish an interim board to draw up the by-laws for the CAA. Once the CSA administering office has approved the by-laws, the interim board shall within a reasonable period of time establish a new board according to the procedures outlined in the by-laws. These by-laws must include at least the following:

(1) *Selection Procedures.* The by-laws shall include the following procedures for selecting members of the board:

(i) A plan for selecting representatives of the poor which shows how the CAA will provide sufficient notice of times, places, and procedures for selection; how eligibility to vote will be established and, where feasible, limited to the poor; what safeguards there will be against persons voting more than once, etc.;

(ii) A plan for selecting representatives of private organizations which shows what are the criteria for selection; how representation will be balanced between private social service organizations and organizations from business and labor; and how seats will be rotated among interested organizations whenever there are more organizations willing to serve than there are seats available;

(iii) A fixed term of office for representatives of the poor and of private organizations.

The board shall report any amendment of these selection procedures immediately to the appropriate CSA administering office. (2) *Petition by Other Groups for Adequate Representation on the Board.* Section 211(d)(2) of the Act requires CAAs to establish and include in their by-laws procedures allowing community agencies and representative groups of the poor which feel themselves inadequately represented on the board to petition for adequate representation. The board shall specify in these procedures the channels of communication to be used, the number of signatures required for a valid petition, and the action required of the board in response to a petition for more adequate representation. The board shall also include in its by-laws provisions for adjusting and realigning its composition in cases where a petition is granted in order to maintain the proper percentage of public officials and of representatives of the poor within the fifty-one member limit.

(3) *Removal.* Public officials, or their representatives, may be removed from the board only by the designating officials. However, the board shall include in its by-laws a description of the grounds for removal and the procedures to be followed in the removal of representatives of the poor and of private organizations.

(4) *Alternates.* When it is consistent with its state charter, the board may allow alternates to substitute for its members. As stated in section 2(c)(1), each public official on the board may select a representative to serve in his/her place or in his/her absence. These representatives, however, may not select alternates to substitute for them. Alternates for representatives of the poor shall be selected in the same manner and at the same time as the representatives themselves. The voters who select the representative shall also select the alternate. The private organizations represented on the board shall select their own alternate, just as they select their own representative. As with the representative of the organization, the alternate shall be empowered to speak and act on behalf of the organization which he/she represents. Each board member may have only one alternate. Each alternate may substitute for only one board member. No alternate may serve as an officer of the board.

(5) *Vacancies.* There is a vacancy on the board when a member has been notified of his/her official removal by action of the board for cause, when a member notifies the board of his/her resignation, or when the designating officials remove a public official. When the seat of a public official is vacant, the board shall ask the designating officials to select another public official to fill the seat. When the seat of a representative of a private organization is vacant and no alternate has been named, the board shall ask that organization to name another representative to fill out the term. When the seat of a representative of the poor is vacant and no alternate has been selected, the remaining representatives of the poor, acting alone, shall select a person to fill out the term, with the condition that the person selected represent as much as possible the same constituency as the original representative.

(6) *Quorum.* According to the mandate of Section 211(d) of the Act, a quorum for a meeting of the board shall be at least 50 percent of the total seats on the board, including vacant seats.

(7) *Schedule and Notice of Meetings.*

(i) *Schedule:* The board shall meet on a regular basis, at least every ten weeks. The meetings shall be scheduled for the convenience of its members and of the general public.

(ii) *Notice:* the board shall provide in writing to all its members notice of and the agenda for any meeting at least ten days in advance.

(8) *Minutes.* The board shall keep for each meeting written minutes which include a record of votes on all motions. Minutes of previous meetings shall be available to all members before each meeting, and shall be made available to the public upon request. The board shall also make available to the public upon request translations of the minutes in areas where a significant portion of the poverty population does not speak English.

(9) *Executive Committee.* The board may appoint an executive or steering committee to transact routine and ordinary business between meetings of the full board. Section 211(d) of the Act requires that the composition of this committee fairly reflect the composition of the full board. The executive committee shall report on the actions it takes between meetings at the next meeting of the full board. The quorum for the executive committee is the same as for the full board.

(10) *Other Policy-Making Committees of the Board.* The board may establish any committees it considers necessary for carrying on its business. The composition of these committees shall fairly reflect the composition of the full board.

(11) *Proxy Voting.* Voting by proxy is not permitted at meetings of the board. This prohibition applies equally to all members of the board.

(12) *Compensation.* Although allowances for the poor and reimbursements to all members of the board for expenses are permitted, regular compensation to all members for their service on the board is not permitted.

§ 1062.200-4 Limited purpose agencies.

CSA funds Limited Purpose Agencies to operate one or several programs whose scope is limited either functionally (for instance operating a weatherization program) or geographically (a neighborhood). They may be funded under all funding authorities under Title II of the Act except section 231. LPAs are not required to have broad community representation on their policy-making boards, but they must have either a board of directors which is composed of at least one-third representatives of the poor or an advisory committee composed of a least a majority of representatives of the poor.

DEPARTMENT OF COMMERCE

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, NATIONAL MARINE FISHERIES SERVICE

[50 CFR Part 222, 226, and 227]

CRITICAL HABITAT OF ENDANGERED AND THREATENED FISH AND WILDLIFE

Supplement to Proposed Determination of Critical Habitat for Kemp's Ridley and Loggerhead Sea Turtles; Public Hearing

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

ACTION: Announcement of a Public Hearing, Supplement to Proposed Designation of Critical Habitat, and Notice of Extension of Comment Period.

SUMMARY: On October 4, 1978 (43 FR 45905), the National Marine Fisheries Service (NMFS) proposed to designate as Critical Habitat for the Kemp's ridley (*Lepidochelys kempii*) and loggerhead (*Caretta caretta*) sea turtles, the Port Canaveral navigation channel, Cape Canaveral, Florida. On November 22, 1978 (43 FR 54639), the National Marine Fisheries Service issued emergency regulations designating the same area as a Restricted Fishing Area effective immediately for a 120-day emergency period.

On November 10, 1978, the President signed the Endangered Species Act Amendments of 1978 (Pub. L. 95-632) (Amendments). The Amendments specify new procedural requirements the NMFS must follow when proposing to designate Critical Habitat. This notice supplements the October 4, 1978, Critical Habitat proposal in response to the new requirements.

DATES: A public meeting and hearing is scheduled for December 12, 1978, at the Canaveral Port Authority Office Building, George King Boulevard, Port Canaveral, Florida, on the proposed Critical Habitat designation and the Restricted Fishing Area designation. The meeting, which will consist of a question-and-answer session, will begin at 10:00 a.m. This will be followed by an informal hearing at which oral comments will be taken. The comment period on the proposed Critical Habitat designation is extended until January 9, 1979.

ADDRESSES: Comments should be mailed to the Assistant Administrator for Fisheries, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, 3300 Whitehaven Street, NW., Washington, D.C. 20235.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard B. Roe, Acting Director, Office of Marine Mammals and Endangered Species, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Washington, D.C. 20235, telephone 202-634-7287.

SUPPLEMENTARY INFORMATION: Under the Endangered Species Act Amendments, the NMFS, when preparing to list a species as threatened or endangered, or to designate an area as Critical Habitat, has certain new responsibilities not previously required under the Endangered Species Act of 1973. The National Marine Fisheries Service must now publish notice of a proposed Critical Habitat designation in a newspaper of general circulation in an area adjacent to such habitat. Notice of the proposal must be offered for publication in appropriate scientific journals, and must be sent to all general local governments located within or adjacent to the proposed Critical Habitat. A public meeting must be held in each State where the proposed Critical Habitat is located, and a public hearing must be held if requested.

The Amendments specify that a proposed Critical Habitat regulation published in the FEDERAL REGISTER must be accompanied, to the maximum extent practicable, by a brief description and evaluation of those activities (whether public or private) which, if undertaken, may adversely modify such habitat, or may be impacted by such designation.

Prior to the effective date of the Amendments, the NMFS proposed to designate the Port Canaveral navigation channel, Cape Canaveral, Florida, as Critical Habitat for the Kemp's

cupied by a species to qualify as Critical Habitat, the NMFS must consider those physical and biological features essential to the conservation of the species and which may require special management considerations or protection. Such features include, but are not limited to, space for individual and population growth and normal behavior; food, water, air, light, minerals, or other nutritional or physiological requirements; cover or shelter; sites for breeding, reproduction, or rearing of offspring; and habitats that are protected from disturbance or are representative of the historical geographical and ecological distributions of a species.

The Amendments require that the NMFS must designate Critical Habitat to the maximum extent prudent and determinable at the time a species is proposed for listing. The NMFS must also consider the economic impact of designating a particular area as Critical Habitat. The NMFS may exclude areas from Critical Habitat upon a determination that the benefits of such exclusion outweigh the benefits of specifying such area as part of the Critical Habitat, unless failure to designate such area as Critical Habitat will result in the extinction of the species concerned.

The Amendments require that the NMFS must designate Critical Habitat to the maximum extent prudent and determinable at the time a species is proposed for listing. The NMFS must also consider the economic impact of designating a particular area as Critical Habitat. The NMFS may exclude areas from Critical Habitat upon a determination that the benefits of such exclusion outweigh the benefits of specifying such area as part of the Critical Habitat, unless failure to designate such area as Critical Habitat will result in the extinction of the species concerned.

The Amendments require that the NMFS must designate Critical Habitat to the maximum extent prudent and determinable at the time a species is proposed for listing. The NMFS may exclude areas from Critical Habitat upon a determination that the benefits of such exclusion outweigh the benefits of specifying such area as part of the Critical Habitat, unless failure to designate such area as Critical Habitat will result in the extinction of the species concerned.

ridley and loggerhead sea turtles (43 FR 45905, October 4, 1978). This notice supplements that proposal with additional information required by the Amendments. the October 4, 1978, publication and this publication should be read together as a single proposed Critical Habitat designation.

By letter dated October 23, 1978, the Port Manager of the Canaveral Port Authority requested a public hearing on the proposed Critical Habitat designation. This publication announces that a hearing has been scheduled for December 12, 1978, at the Port Canaveral Port Authority Office Building, Port Canaveral, Florida. The National Marine Fisheries Service also will conduct an informal meeting, consisting of a question-and-answer session, on December 12, immediately prior to the hearing. The informal session is intended to clarify the implications of designating the Port Canaveral channel as both a Critical Habitat and a Restricted Fishing Area. During the hearing, oral comments on either the Critical Habitat or Restricted Fishing Area designations will be received. All such comments will be recorded and incorporated into the rulemaking record.

Effect of the proposed rulemaking: The Restricted Fishing Area designation became effective for an emergency 120-day period on the date the notice appeared in the FEDERAL REGISTER (43 FR 54639, November 22, 1978). The regulations implementing the designation immediately prohibit shrimp trawling in the designated area during this 120-day period. As noted in the preamble to that emergency regulation, comments are being solicited on the desirability of modifying the emergency designation and/or extending it beyond the 120-day period.

Unlike the Restricted Fishing Area designation, the Critical Habitat designation will not become effective until at least 60 days after the final meeting or hearing on the proposal is held. A Critical Habitat designation affects the actions of Federal agencies, and serves to provide official notification to these agencies that their responsibilities pursuant to Section 7 of the Act are applicable to the designated Critical Habitat area.

Under the 1978 amended definition of "Critical Habitat," for a specific area within the geographical area occupied by a species to qualify as Critical Habitat for that species, it must contain physical or biological features (1) essential to the conservation of the species and (2) which may require special management or protection. Comments are invited on the question of whether or not the Port Canaveral channel qualifies as Critical Habitat under the new definition. Comments are also solicited on the economic and other relevant impacts of designating the Port Canaveral channel as Critical Habitat.

Federal actions that may impact on the Port Canaveral navigation channel include the funding, authorizing, or carrying out of activities that may disturb the channel bottom area used by hibernating sea turtles. Maintenance dredging during certain times of the year may constitute such an action. Activities that do not disturb the channel bottom are not likely to adversely modify the proposed Critical Habitat.

Private activities (those not requiring Federal funding or authorization) that may adversely modify the proposed Critical Habitat include bottom trawling for shrimp and fish. The Restricted Fishing Area regulations, recently issued by the NMFS on an emergency basis, are designed to prevent bottom trawling in the channel during specified periods. The National Marine Fisheries Service is not aware of any other private activities that may affect or be affected by the proposed Critical Habitat designation. Comments are invited from any persons who are aware of any activities, public or private, that may be impacted by this proposed designation.

Notification: Notice of the proposed Critical Habitat designation has been offered for publication in the following publications: Scientific American; Science; and Nautilus Press publications.

Notice of the proposed Critical Habitat designation will appear in TODAY newspaper, published by Cape Publications, Inc., Cocoa, Florida.

A copy of the notice of the proposal and this supplement, accompanied by an environmental assessment, has been sent to: Honorable Reubin Askew, Governor of Florida; Benjamin T. Hardestry, Chairman, South Atlantic Fishery Management Council; and John A. Mehos, Chairman, Gulf of Mexico Fishery Management Council.

The following local governments also were sent notice of the proposal and a copy of the environmental assessment and will have copies of this supplement.

Bureau of Intergovernmental Relations, Division of State Planning, Department of Administration, 660 Apalachee Parkway, Tallahassee, Florida 32304.

East Central Florida Regional Planning Council, 1011 Wymore Road, Winter Park, Florida 32789.

Ms. Ann Thurm, Mayor, City of Cape Canaveral, 105 Park Avenue, Cape Canaveral, Florida 32920.

Dated: November 20, 1978.

Forest Service

CONEJOS WILD AND SCENIC RIVER STUDY

Rio Grande National Forest, Colo.; Intent to Prepare an Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, The forest Service, Department of Agriculture will prepare an environmental statement concerning the study of the potential for including the Conejos River, as a component of the National Wild and Scenic River System. This study was mandated by Pub. L. 93-621.

The following issues and concerns were identified through public involvement: protection of wild and scenic river values as stated in the Wild and Scenic River Act; eligibility criteria for inclusion; government restrictions on private lands; the impacts of public access and scenic easements; the impacts of increased use by recreationists; the loss of grazing privileges and the opportunities for designation of the South Fork.

John R. McGuire, Chief, Forest Service, is the responsible official and Terry Dangler, Landscape Architect, Rio Grande National forest is the team leader for the environmental assessment and statement. The draft environmental statement is scheduled for completion by January, 1979, with a 90-day review period, and the final environmental statement is scheduled for filing in June, 1979.

Comments on the Notice of Intent or the recommendation should be sent to John R. McGuire, Chief, Forest Service, Post Office Box 2417, Washington, D.C. 20013, or to George W. Whitlock, Forest Supervisor, Rio Grande National Forest, 1803 West Highway 160, Monte Vista, Colorado 81144.

EINAR L. ROGET,
Acting Deputy Chief.

ARMS CONTROL AND DISARMAMENT AGENCY

GENERAL ADVISORY COMMITTEE

Meeting

Notice is hereby given in accordance with Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (the Act) and paragraph 8b of Office of Management and Budget Circular No. A-63 (Revised March 27, 1974) (the OMB Circular), that a meeting of the General Advisory Committee (GAC) is scheduled to be held on December 14, 1978 from 9 a.m. to 6 p.m. and on December 15, 1978 from 9 a.m. to 6 p.m. at 2201 C Street, NW, Washington, D.C., in Room 7516.

The purpose of the meeting is for the GAC to receive briefings and hold discussions concerning arms control and related issues which will involve national security matters classified in accordance with Executive Order 11652 dated March 10, 1972, and Executive Order 12065, dated June 28, 1978.

The meeting will be closed to the public in accordance with the determination of November 20, 1978 made by the Director of the U.S. Arms Control and Disarmament Agency pursuant to Section 10(d) of the Act and paragraph 8d(2) of the OMB Circular that the meeting will be concerned with matters of the type described in 5 U.S.C. 552(b)(1). This determination was made pursuant to a delegation of authority from the Office of Management and Budget dated June 25, 1973 issued under the authority of Executive Order 11769 dated February 21, 1974.

Dated: November 20, 1978.

CIVIL AERONAUTICS BOARD

[Order 78—1—73; Docket 32772]

AEROLINEAS ARGENTINAS

Application for a Declaratory Order; Order

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 16th day of November, 1978.

On October 6, 1977, in response to an inquiry from Washington counsel for Aerolineas Argentinas (Aerolineas), the Director of the Bureau of International Aviation confirmed in writing that under the Memorandum of Understanding between the United States and Argentina, implemented by an Exchange of Diplomatic Notes dated September 22, 1977 (MOU), Aerolineas may only serve Montreal beyond New York; that is, all Aerolineas' flights that serve Montreal and the United States must stop in New York.

On May 31, 1978 Aerolineas filed an application requesting issuance of an order declaring that under the MOU and Aerolineas' amended foreign air carrier permit [1] the carrier currently possesses the authority to carry revenue traffic between Miami, Florida and Montreal on Route 1 of its permit [2] without having to stop at New York.

In support of its application, Aerolineas states that the United States negotiated the MOU with Argentina to liberalize aviation relations between the two countries; that the MOU provides that normal operating details will be left to the discrption of carrier management; that a footnote to the Route schedule of the MOU indicates that "In the interest of providing for operational flexibility, each airline would be permitted . . . to omit points on any or all flights, provided at least one point in the homeland of the airline is served on each flight . . ."; that the provisions cited above plainly require that the MOU, and by extension Aerolineas' permit, receive a liberal

[1] Issued under Order 77-12-53, December 8, 1977.

[2] Route 1 of Route Schedule I of the MOU and Route 1 of Aerolineas' permit both read: Between the Republic of Argentina and the coterminal points Miami and New York via the intermediate points Sao Paulo and Rio de Janeiro and beyond New York to Montreal.

ditions, but were not intended to

tions were timely filed by Air Califor-

November 1978 (43 FR 53784, 11/17/

[6320-01-M]

second request were filed by Pan Am

reading for to do otherwise is contrary to the spirit of the MOU; and that the MOU mandates that restrictions be imposed upon Aerolineas' operating authority only where the plain language of the document demands them.

Aerolineas further states that Miami and New York are designated as coterminals on the route and that it is a well established principle that the relation between designated coterminal points is one of interchangeability; that such a condition will impair its ability to operate at maximum efficiency on its Route 1 to the United States; that a restrictive interpretation of the MOU also runs afoul of current U.S. aviation policy to trade rights and not restrictions in negotiating international aviation agreements.

Delta Air Lines filed an answer in opposition to Aerolineas' petition. Delta states that Aerolineas has made no showing that Miami-Montreal nonstop rights were intended to be conferred upon the Argentine carrier; that the listing of new route rights in the MOU [3] does not include Miami-Montreal but does include New York-Montreal; that the omission of Miami-Montreal from the listing compels the conclusion that those rights were not conferred by the MOU; that the rights described plainly provide for Montreal service only beyond New York; and that the fact that Miami and New York are coterminals and that the MOU provides for airline operating flexibility cannot be used to bootstrap an award of nonstop Miami-Montreal authority.

The Department of State filed a letter concerning the petition. The Department states that the text of the Argentine route description was carefully constructed to prevent nonstop Miami-Montreal service; that if this had not been intended, the route would have simply read "between the Republic of Argentina and the coterminal points Miami, Florida, and New York, New York, via the intermediate points Sao Paulo and Rio de Janeiro, Brazil and beyond to Montreal, Canada"; and that if Aerolineas wishes to fly nonstop between Miami and Montreal the Argentine Government should request consultations to achieve that goal through the regular diplomatic process.

We have decided to deny Aerolineas' petition. Route 1 was specifically worded to exclude nonstop Miami-Montreal rights because these were not part of the route package exchanged during the negotiations that led to the MOU. The provisions relating to airline flexibility were designed to allow airline managements to tailor their services to changing market conditions, but were not intended to confer route authority in addition to that provided in the Route Schedule. However, we stand ready to address the matter of nonstop Miami-Montreal rights for Aerolineas should the Government of Argentina request consultations through appropriate diplomatic channels and to trade competitive opportunities.

Accordingly, 1. We deny Aerolineas Argentinas' petition in Docket 32772 for an order declaring that under the MOU and its foreign air carrier permit it possesses the authority to operate nonstop between Miami, Florida, and Montreal, Canada; and

2. We shall serve this order upon Aerolineas Argentinas, the Ambassador of Argentina in Washington, D.C., and the U.S. Departments of State and Transportation.

We shall publish this order in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[4]

PHYLLIS T. KAYLOR,
Secretary.

[Order No. 78-11-98; Docket No. 33237]

CALIFORNIA-ARIZONA LOW FARE ROUTE PROCEEDING

Order

NOVEMBER 20, 1978.

Issued Under Delegated Authority.

Pursuant to Board Order 78-10-104, served October 26, 1978, amended applications or amendments to applications were timely filed by Air California, Docket 33372; Braniff Airways, Inc., Docket 33375; Continental Airlines, Inc., Docket 33383; Frontier Airlines, Inc., Docket 33385; Northwest Airlines, Inc., Docket 33394; Ozark Airlines, Inc., Docket 33373; and Western Air Lines, Inc., Docket 32303.

On November 7, 1978, North Central Airlines, Inc., filed a motion requesting leave to file a late filed document, Amendment No. 1 to its application filed September 11, 1978.

On November 13, 1978, Ozark Airlines, Inc., filed motions for leave to file a document out of time, a motion to consolidate a second amended application which includes a city-pair market inadvertently omitted from its first amended application.

The grant of the motions accompanying such amended applications or amendments to applications is consistent with the public interest, will harm no party, and will not delay this proceeding.

Accordingly, *it is ordered that:*

1. The motions to consolidate the amended applications or amendments to applications of the following carriers are granted: Air California, Docket 33372; Braniff Airways, Inc., Docket 33375; Continental Airlines, Inc., Docket 33383; Frontier Airlines, Inc., Docket 33385; Northwest Airlines, Inc., Docket 33394; Ozark Airlines, Inc., Docket 33373; and Western Air Lines, Inc., Docket 32303.

2. The motions for leave to file late filed documents filed by North Central Airlines, Inc., and by Ozark Airlines, Inc., are granted.

3. The amended applications or amendments to applications of the carriers named above, and including the second amended application filed by Ozark Airlines, Inc., are consolidated in this proceeding, Docket 33237.

This order shall be published in the FEDERAL REGISTER.

By Frank M. Whiting, Administrative Law Judge.

PHYLLIS T. KAYLOR,
Secretary.

[Order No. 78-11-99; Docket Nos. 32708 and 33078]

HOUSTON-PHOENIX/TUCSON CASE

Frontier Airlines, Inc.; Order Dismissing Application

NOVEMBER 20, 1978.

Issued Under Delegated Authority.

The notion of Frontier Airlines, Inc., to consolidate its application in Docket 33078 into the investigation in Docket 32708 was granted by Order 78-9-85, dated September 19, 1978. By motion filed on November 14, 1978, Frontier moved to dismiss its application. The application will therefore be dismissed.

Accordingly, pursuant to authority delegated by the Board to the Chief Administrative Law Judge in its Regulations, 14 CFR 385.10(b),

It is ordered that: 1. The application of Frontier Airlines, Inc., in Docket 33078, previously consolidated into Docket 32708, is dismissed.

2. Frontier Airlines, Inc., is dismissed as a party to Docket 32708.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period unless before that date a petition for review thereof is filed, or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

By Nahum Litt, Chief Administrative Law Judge.

PHYLLIS T. KAYLOR,
Secretary.

[Order No. 78-11-82; Docket Nos. 33320, 31542, 33605]

HOUSTON SERVICE INVESTIGATION

Applications of DHL AIRWAYS for Approval of Control and Interlocking Relationships and American Airlines for Amendment of Certificate

ORDER

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 16th day of November, 1978. The Board instituted this investigation in response to an application by Pan American World Airways for authority between Houston, on the one hand, and New York, Miami, Los Angeles and San Francisco, on the other. Order 78-8-172, August 30, 1978. At the same time, the Board granted Pan Am a temporary exemption to operate in the Houston-Miami, Houston-Los Angeles and Houston-San Francisco markets, pending the outcome of this proceeding. By Orders 78-9-2, Administrative Law Judge Rudolf Sobernheim consolidated all applications which conformed to the scope of the proceeding. There remain several outstanding requests by various carriers which must be addressed.

Pacific Southwest Airlines (PSA) has filed a petition for reconsideration, asking us to include San Diego as an additional terminal point. It claims that the addition of San Diego will neither unduly delay nor shift their fundamental focus of the case, since service to the other two major California markets is already at issue; and that current service in this market, which is a nonstop monopoly for National Airlines, is inadequate. American Airlines filed an answer in support of PSA's request.[1] No party has opposed the petition. PSA's application in Docket 33473 also asks the Board to permit the carrier—either by exemption or "limited certification"—to tack any interstate routes it may receive as a result of this proceeding onto its intrastate system.

Continental Air Lines filed a petition for reconsideration asking (1) that we redesignate New York and San Francisco as New York-Newark and San Francisco-San Jose and (2) that we remove Pan Am's *pendente lite* exemption to serve Miami, Los Angeles and San Francisco. It argues that the exemption is both grossly unfair to Continental—by further frustrating its attempted entry into the South Pacific—and illegal—insofar as there exists no undue burden on Pan Am nor any unusual circumstances in this case to justify the award.[2] Answers opposing the second request were filed by Pan Am and by the City of Houston and Houston Chamber of Commerce (Houston Parties).[3] They contend that the interim service is vital to Houston and that Continental has merely restated the same arguments which were heard—and rejected—by the Board in reaching its initial decision.

Several other carriers have asked that we redesignate some or all terminal cities in issue as hyphenated points, thereby placing in issue service to all the satellite airports in those metropolitan areas.[4] The question of whether the Los Angeles-San Francisco market is in issue has also been raised.[5]

Finally, DHL Airways has filed a motion to consolidate its application in Docket 31542, which asks for approval of certain control and interlocking relationships arising out of its ownership by DHL Corporation, an airfreight forwarder.

We have decided to grant PSA's request to expand the scope of this case to include the issue of service to San Diego. We agree that such expansion will not significantly delay or complicate the proceeding, nor shift its geographical focus. For the same reason, we will include all the satellite airports requested by the various applicants. We are not prejudging the substantive question of whether any new service authorized by this proceeding should be limited to one or another of the metropolitan airports. But we have traditionally included all satellite airports when conducting an investigation into the need for service to a major city, and we see no reason to restrict our options while this case is still in a purely procedural phase.

[1] American (Docket 33605) and PSA (Docket 33474) have both filed applications for Houston-San Diego authority—along with motions to consolidate those applications into this case.

[2] Whatever merit this argument may have had at the time Continental filed its pleading, it has been rendered moot by the enactment of the Airline Deregulation Act of 1978, Pub. L. 95-504. That act amends Sec. 416(b) to allow the Board to grant an exemption to "any person or class of persons if it finds that the exemption is consistent with the public interest." The requirement of finding an undue burden has been deleted.

[3] Although the Houston parties filed their answer late, the accompanying motion for leave to file late does state good cause. Accordingly, we will grant their motion.

[4] Braniff (Docket 33416), Evergreen (Docket 33491) and Delta (Docket 24776) have applied for authority to Miami/Fort Lauderdale. Allegheny (Docket 33382), Braniff, National (Docket 33426), American (Docket 32255), Evergreen and United (Docket 33481) join Continental in requesting New York/Newark as a hyphenated point. American (Docket 32257), Evergreen, United and Delta designate Los Angeles as Los Angeles/Ontario/Long Beach; Braniff wants authority to Los Angeles/Ontario/Burbank. Five Carriers—Braniff, American (Docket 32257), Evergreen, United and Delta—have named all three Bay Area airports in their applications: San Francisco, Oakland and San Jose.

[5] In Docket 32257, American designates Los Angeles as an intermediate point between Houston and San Francisco.

On the other hand we conclude that the public interest warrant approval

Dated at Washington, D.C., November 20, 1978.

3rd column, the date in the last paragraph should read as follows: "EF-

DATES: The Subpanel will meet on Monday, December 11, 1978, at 1:30

V 43 N 228 78

On the other hand, we conclude that the Los Angeles-San Francisco market is not properly considered in this proceeding. The focus of this case is on service to Houston. The investigation as instituted presents a hub-and-spoke pattern with traffic from Houston radiating out to four major metropolitan areas on both coasts. Inclusion of a local California market would distort this central purpose.

PSA's request for a special tacking exemption is not moot. Sec. 4(a) of the new law adds a Sec. 105 to the Federal Aviation Act which provides for federal preemption of state regulation. Section 105(c) states that any intrastate authority "shall be considered to be part of its [an intrastate carrier's] authority to provide air transportation received from the Board under title IV . . . ." In other words, once PSA receives any interstate authority from the Board, that authority is automatically tacked onto all other routes in its system.[5]

As mentioned above, the question of Pan Am's *pendente lite* exemption has been rendered largely moot by the passage of the new act, which requires only that we find the exempted service to be in the public interest. As we did make that finding earlier and Continental has offered no new evidence to convince us otherwise, the exemption will remain in effect pending the outcome of this proceeding.

Last, we will grant DHL's motion to consolidate its application for approval of control and interlocking relationships. Consideration of this issue will not unduly delay or complicate the case, as the evidentiary presentation required will virtually duplicate that relating to the fitness issue.

Accordingly, the Board:

1. Amends ordering paragraph 4 of Order 78-8-172 as follows:

(a) It is consistent with the public convenience and necessity to grant additional certificated route authority between Houston, Texas, on the one hand, and New York, New York/Newark, New Jersey; Miami/Fort Lauderdale, Florida; Los Angeles/Ontario/Long Beach/Burbank, California; San Francisco/Oakland/San Jose, California; and San Diego, California, on the other?

(b) If so, which air carrier(s) should be authorized?

(c) Should the new or existing authority be subject to any terms, conditions or limitations? and

(d) Does the grant of any application give rise to any control or interlocking relationships which are prohibited by Section 408 or 409 of the Act in the Absence of Board approval? Is so, does the public interest warrant approval or exemption of such relationship subject to any necessary terms, conditions or limitations?

2. Consolidates into Docket 33320 the applications of DHL Airways (Docket 31542), Pacific Southwest Airlines (Docket 33474) and American Airlines (Docket 33605), to the extent they conform to the scope of that proceeding;

3. Grants the motion for leave to file late of the City of Houston and Houston Chamber of Commerce;

4. Directs that application within the expanded scope of this case and motions to consolidate be filed within 20 days of the service date of this order, and answer 10 days later; [7] and

5. Denies all petitions, motions, applications and requests, except to the extent granted.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[6]

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc. 78-33157 Filed 11-24-78; 8:45 am]

[5] That would include the right to carry local passengers between Los Angeles and San Francisco, since PSA has intrastate authority in that market.

[7] We delegate to the presiding administrative law judge the authority to consolidate by order any applications within the expanded scope of this proceeding.

[6] All Members concurred.

PALEONTOLOGY AND STRATIGRAPHY BRANCH, U.S. GEOLOGICAL SURVEY

Modification of Permit

Notice is hereby given that pursuant to the provisions of §§ 216.33 (d) and (e) of the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216), Permit No. 4 issued to the Paleontology and Stratigraphy Branch, U.S. Geological Survey, 345 Middlefield Road, Menlo Park, California 94035 (39 FR 8647), is modified in the following manner:

Section 2 is modified by substituting the following: "Marine mammal specimen materials may be imported and re-exported in accordance with accepted curatorial practices of bona fide scientific collecting. Specimen materials authorized to be imported must have been taken in accordance with the laws of the country of origin."

The modification is effective November 27, 1978.

The Permit as modified, and documentation pertaining to the modification are available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.; and Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1979

Proposed Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed Addition to Procurement List.

SUMMARY: The Committee has received a proposal to add to Procurement List 1979 a commodity to be produced by workshops for the blind or other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: December 27, 1978.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher (703) 557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47 (a) (2), 85 Stat. 77.

If the Committee approves the proposed addition, all entities of the Federal Government will be required to procure the commodity listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodity to Procurement List 1979, November 15, 1978 (43 FR 53151):

CLASS 7210

Pillow, Bed, Polyester-Fiber, 7210-00-119-5358.

PROCUREMENT LIST 1979

Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Additions to Procurement List.

SUMMARY: This action adds to Procurement List 1979 a service to be provided by and a commodity to be produced by workshops for the blind or other severely handicapped.

EFFECTIVE DATE: November 24, 1978.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher (703)557-1145.

SUPPLEMENTARY INFORMATION: On August 18, 1978 and September 29, 1978, the Committee for Purchase from the Blind and Other Severely Handicapped published notices (43 FR 36676 and 43 FR 44877) of proposed additions to Procurement List 1979, November 15, 1978 (43 FR 53151).

After consideration of the relevant matter presented, the Committee has determined that the service and the commodity listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c, 85 Stat. 77.

Accordingly, the following service and commodity are hereby added to Procurement List 1979:

SIC 7641

Furniture Rehabilitation (SH), San Antonio, Texas, plus 40-mile radius excluding Lackland and Randolph Air Force Bases.

CLASS 7510

Binder, Award Certificate (IB), 7510-01-056-1927.

C. W. FLETCHER,
Executive Director.

COMMUNITY SERVICES ADMINISTRATION

ECONOMIC OPPORTUNITY ACT

Notice and Information on Certain 1978 Amendments

CSA is providing to its grantees and their delegate agencies certain provisions of the Economic Opportunity Amendments of 1978 which are immediately applicable to their programs.

This CSA Notice applies to differing categories of CSA grantees depending upon the particular amendments to the Economic Opportunity Act. Each provision in Section 3 below indicates those categories of grantees to which the amendment discussed applies. CSA is now preparing detailed and comprehensive rules, regulations and guidelines implementing various provisions of the 1978 Amendments, both those appearing in Section 3 below and others.

References: The Economic Opportunity Amendments of 1978.

1. IMPLEMENTATION

All grantees and other recipients of CSA assistance to which the provisions of the 1978 Amendments apply must take steps at once to comply with the new statutory requirements as soon as possible. The detailed rules, regulations, and guidelines that CSA is now preparing will contain, when appropriate, specific deadlines for compliance with the various amendments.

2. BACKGROUND

The Economic Opportunity Amendments of 1978 contain several provisions which have an immediate and significant effect on CSA grantees. Because of their immediate impact, nine sections of the 1978 Amendments are quoted in this CSA Notice and are accompanied by comments briefly delineating their impact on grantees.

3. AMENDMENTS AND COMMENT

Each 1978 amendment treated below is identified in the heading by subject matter, section of the Economic Opportunity Act, and CSA Instruction or other regulation governing grantees which is thereby modified.

A. DEFINITION OF "COMMUNITY" AND TERMS UNDER WHICH A NEW CAA WITHIN A COUNTY OR MULTICOUNTY UNIT MAY NOT BE DESIGNATED, SECTION 210(C); OEO INSTRUCTION 6302-2

1. *Text:* Section 210(c) as amended provided: "(c) For the purpose of this title, a community may be a city, county, multicity, or multicounty unit, an Indian reservation, or a neighborhood or other area (irrespective of boundaries or political subdivisions) which provides a suitable organizational base and possesses the commonality of interest needed for a community action program. The Director, in determining whether a county and multicounty unit is eligible to be served by a community action agency under this title, shall not apply, as the *sole* criterion for eligibility, any requirement or restriction relating to the number of individuals residing in the county or multicounty unit if at least 20 per centum of the families and unrelated individuals residing therein have incomes below the poverty line as determined by the Bureau of Census from the most recent census or survey. No new community action agency may be designated under subsection (a) within a county or multicounty unit if—

(a) Such county or multicounty unit has a population of less than 50,000;

(b) Such county or multicounty unit was served by an existing community action agency on June 1, 1978; and

(c) The new community action agency would serve a smaller geographical area than that served by an existing community action agency on June 1, 1978.

The Director shall consult with the heads of other Federal agencies responsible for programs relating to work and training programs, physical and economic development, housing, education, health, and other community services to encourage the establishment of coterminous or complementary boundaries for planning purposes among those programs and community action programs assisted under this title.

2. *Comment:* The basic change in Section (3) expands the statutory rule to set forth conditions or terms which prohibits the CSA Director from imposing arbitrary population requirements as the sole criterion for deciding the eligibility (or ineligibility) of county or multicounty units to be served by a new community action agency. Whenever at least 20 percentum of the families and unrelated individuals residing in a county or multicounty unit have incomes below the poverty level or index (such findings must be based on the most recent census or survey conducted by the Bureau of Census), the size of the total population of such units may not alone be the basis for granting (or denying) eligibility to such units seeking to be served by a community action agency.

On the other hand, the amended Section 210(c) does not prohibit the use of population size as a criterion for eligibility when it is used in conjunction with other compelling conditions provided in the law. Thus, under the amended law, a new CAA may not be designated in county or multicounty units if the unit: 1) has a population of less than 50,000; 2) was served by an existing CAA on June 1, 1978; and 3) the new CAA would serve a smaller geographical area than that served by an existing CAA on June 1, 1978. It should be noted that *all three* of the above conditions must be evident for denial of eligibility. The effect of the new Section 210(c) language is such that if the applicant unit can satisfy criteria 2) and 3) denial of eligibility could not be decided solely on the applicant's failure to satisfy the criterion related to population size.

CSA is amending its regulation on the eligibility and establishment of community action agencies (CSA Instruction 6400-02) to reflect this change.

B. COMPOSITION OF CAA GOVERNING BOARDS, SECTION 211(B); OEO INSTRUCTION 6400-01

1. *Text:* Amended Section 211(b) provides: "(b) Each board to which this subsection applies shall consist of no more than fifty-one members and not less than fifteen members and shall be so constituted that: (1) one third of the members of the board are elected public officials, currently holding office or their representatives, except that if the number of elected officials reasonably available and willing to serve is less than one-third of the membership of the board, membership on the board of appointive public officials may be counted in meeting such one-third requirement, (2) at least one-third of the members are persons chosen in accordance with democratic selection procedures adequate to assure that they are representative of the poor in the area served, and (3) the remainder of the members are officials or members of business, industry, labor, religious, welfare, education, or other major groups and interests in the community. Each member of the board selected to represent a specific geographic area within a community must reside in the area he represents. No person selected under clause (2) or (3) of this subsection as a member of a board shall serve on such board for more than five consecutive years, or more than a total of ten year."

2. *Comment:* The amended 211(b) requires that Community Action boards shall now consist of not less than fifteen members. The first change assures for the first time, a representative minimum as well as maximum level of participation on all community action boards. In addition the one-third of the board who are elected public officials must be currently holding office.

The second change expresses the intent of Congress that elected public officials do not hold terms on the board *per se* but that they serve on the board in their capacity as elected officials.

Grantee boards must be in compliance with this subsection within forty days from publication in the FEDERAL REGISTER.

C. SPECIAL PROGRAMS AND ASSISTANCE. SECTION 222(A)

1. *Text:* Section 222(a) has been amended by adding a sentence: "In no event shall the Director provide financial assistance under this title to a public or private nonprofit agency other than a community action agency in an area in which a community action agency exists without prior notification of such financial assistance to the board of such community action agency and to any State economic opportunity office in the State in which financial assistance is provided."

2. *Comment:* CSA is developing an internal process/procedure to implement this section.

D. A NEW PROGRAM: "DEMONSTRATION EMPLOYMENT AND TRAINING OPPORTUNITIES"

1. *Text:* Section 222(a)(7). (7) A program to be known as "Demonstration Employment and Training Opportunities" designed to establish experimental employment and training programs and projects for low-income persons who are unemployed or underemployed, with special emphasis on youth, the structurally unemployed (especially those dependent on public assistance), single heads of households with dependent children, older workers and veterans. The Director is authorized to make grants to community action agencies, community economic development corporations (as designated under Title VII of this Act), and public or private nonprofit organizations and agencies for experimental programs and activities including, but not limited to, providing innovative approaches to employment and training programs, which shall, if necessary, make available to participants comprehensive supportive services; development programs, and linkages for low-income persons to achieve satisfactory transition from either unemployment or federally-subsidized jobs to employment that is not federally subsidized; and developing training programs, with special consideration for community development corporations, designed to place disadvantaged youth in the private sector. The Director and the Secretary of Labor shall assure a full exchange of information concerning the employment and training programs subject to their respective jurisdictions in order to assure the most effective and responsive demonstration programs and activities. Any employment and training activities assisted in whole or part with funds made available under this paragraph shall be subject to the applicable conditions, labor standards and benefits set forth in the Comprehensive Employment and Training Act of 1973 and other related laws.

2. *Comment:* This is an entirely new section. CSA has no specific appropriation for this section.

E. SUMMER YOUTH RECREATION, SECTION 222(A)(6)

It should be noted that this Section formerly designated 222(a)(13) has been redesignated to read 222(a)(6).

1. *Text:* Amended Section 222(a)(6) provides: "(a) A program to be known as "Summer Youth Recreation" designed to provide recreational opportunities for low-income children during the summer months. Funds made available for this paragraph shall be allocated by the Director among community action agencies where feasible, or other public or private nonprofit agencies where no such community

NOV 27 1978

action agency exists or is able to administer a program, to provide recreational opportunities for low-income children during the summer months."

2. *Comment:* The CSA Director will no longer be required to allocate funds to CETA prime sponsors. The new language provides the Director the flexibility to allocate funds to community action agencies where feasible, or other public or private nonprofit agencies where no CAA exists or where the CAA is incapable of undertaking such programming.

F. ALLOTMENT OF FUNDS: LIMITATIONS ON ASSISTANCE, SECTION 225(C); OEO INSTRUCTION 6802-3

1. *Text:* Amended Section 225(c) provides: "(c) Unless otherwise provided in this part, financial assistance extended to a community action agency or other agency pursuant to Section 221 and Section 222(a) of this title shall not exceed 80 percentum of the approved cost of the assisted programs or activities. The Director may, however, approve assistance in excess of such percentages if he determines, in accordance with regulations establishing objective criteria, that such action is required in furtherance of the purposes of this title. Non-Federal contributions may be in cash or kind, fairly evaluated, including but not limited to plant, equipment, or services. The Director shall not require non-Federal contributions in excess of the amount required to meet the approved cost of assisted programs or activities after calculating the percentum of Federal assistance for which such program is eligible under the first sentence of this subsection. In addition, the Director may approve assistance in excess of such percentum upon evidence that the aggregate of all non-Federal contributions by agencies within a State for financial assistance provided pursuant to Sections 221 and 222(a) as a percentum of the aggregate of all financial assistance provided to such agencies in such State pursuant to such sections meets the percentum requirements of this subsection."

2. *Comment:* Amended Section 225(c) now provides for a decrease in the local share of the Federal/non-Federal ratio for financial assistance under Title II: an 80/20 ratio.

G. SPECIAL LIMITATION ON SALARIES RECEIVED BY CAA EMPLOYEES, SECTION 244(2); OEO INSTRUCTION 6903-1

1. *Text:* Amended Section 244(2) provides: "(2) The Director shall issue necessary rules or regulations to assure that no employee engaged in carrying out community action program activities receiving financial assistance under this title is compensated from funds so provided at a rate in excess of $18,000 per annum, and that any amount paid to such an employee at a rate in excess of $18,000 per annum shall not be considered in determining whether the non-Federal contributions requirements of Section 225(c) have been complied with; the Director may, however, provide in those rules or regulations for exceptions covering cases where, because of the need for specialized or professional skills or prevailing local salary levels, application of the foregoing restriction would greatly impair program effectiveness or otherwise be inconsistent with the purposes sought to be achieved."

2. *Comment:* The 1978 Amendments authorize an increase in the maximum salary allowable for payment from Title II funds to employees carrying out program activities under Title II from $15,000 to $18,000 per annum. In addition the Congress has rescinded the preference given to large metropolitan areas in providing exceptions to the $18,000 limitation by deleting the phrase "(Particularly in large metropolitan areas)" previously contained in Section 244(2).

H. COMPARABILITY OF WAGES, SECTION 610(B); OEO INSTRUCTION 6900-02

1. *Text:* Amended Section 610(b) provide: "(b) No person whose compensation exceed $8,000 per annum and is paid pursuant to any grant, contract, or agreement authorized under Part A of Title II (except a person compensated as provided in section 602) shall be employed at a rate of compensation which exceeds by more than 20 percent the salary which he was receiving in his immediately preceding employment, but the Director may grant exceptions for specific cases. In determining salary in preceding employment for one regularly employed for a period of less than 12 months per year, the salary shall be adjusted to an annual basis."

2. *Comment:* Previously this section mandated that any employee whose salary exceeded $6,000 could not be compensated at a rate which exceeded 20 percent of his/her previous salary. The 1978 Amendments have changed the base to read $8,000.

I. STATE AGENCY ASSISTANCE, SECTION 231(A); OEO INSTRUCTION 7501-1

1. *Text:* Section 231(a) has been amended by adding paragraphs e and f. "(a) The Director may provide financial assistance to State agencies designated in accordance with State law, to enable those agencies—

(a) To provide technical assistance to communities and local agencies in developing and carrying out programs under this title; with priority to programs funded under section 221 and section 222.

(b) To assist in coordinating State activities related to this title.

(c) To advise and assist the Director in developing procedures and programs to promote the participation of States and State agencies in programs under this title.

(d) To advise and assist the Director, the Economic Opportunity Council established by section 631 of the Act, and the heads of other Federal agencies, in identifying problems posed by Federal statutory or administrative requirements that operate to impede State level coordination of programs related to this title, and in developing methods or recommendations for overcoming those problems.

(e) To advise the Director and the chief elected official of the State on the status and impact of State and Federal programs and services affecting low-income individuals in the State; and

(f) To assist programs funded under section 221 and section 222 in coordinating and utilizing services available through other State agencies."

2. *Comment:* The change provides that State agencies must give priority to those community action programs under section 221 and section 222 with respect to the provisions of technical assistance.

In addition, the new provisions expand the activities for which State Economic Offices may receive funds; to advise the CSA Director and the State chief elected official on the impact of State and Federal programs which affect the low-income State population; and to assist the community action programs in utilizing services available through other State agencies.

GRACIELA (GRACE) OLIVAREZ,
Director.

DOD ADVISORY GROUP ON ELECTRON DEVICES

Advisory Committee Meeting

The DoD Advisory Group of Electron Devices (AGED) will meet in closed session at 201 Varick Street, 9th Floor, New York, NY 10014 on 11 January 1979.

The purpose of the Advisory Group is to provide the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of Electron Devices.

The meeting will be limited to review of research and development programs which the Military Departments propose to initiate with industry, universities or in their laboratories. The AGED will review programs on microwave devices, night vision devices, lasers, infrared systems and microelectronics. The review will include classified program details throughout.

In accordance with Section 10(d) of Appendix 1, Title 5, United States Code, it has been determined that this Advisory Group Meeting concerns matters listed in Section 552b(c) of Title 5 of the United States Code, specifically Subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,
Director Correspondence and Directives, Washington Headquarters Service, Department of Defense.

DEPARTMENT OF ENERGY

ISSUANCE OF PROPOSED DECISIONS AND ORDERS BY THE OFFICE OF HEARINGS AND APPEALS

October 23 through October 27, 1978

Notice is hereby given that during the period October 23 through October 27, 1978, the Proposed Decisions and Orders which are summarized below were issued by the Office of Hearings and Appeals of the Department of Energy with regard to Applications for Exception which had been filed with that Office.

Amendments to the DOE's procedural regulations, 10 CFR, Part 205, were issued in proposed form on September 14, 1977 (42 FR 47210 (September 20, 1977)), and are currently being implemented on an interim basis. Under the new procedures any person who will be aggrieved by the issuance of the Proposed Decision and Order in final form may file a written Notice of Objection within ten days of service. For purposes of the new procedures, the date of service of notice shall be deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. The new procedures also specify that if a Notice of Objection is not received from any aggrieved party within the time period specified in the regulations, the party will be deemed to consent to the issuance of the Proposed Decision and Order in final form. Any aggrieved party that wishes to contest any finding or conclusion contained in a Proposed Decision and Order must also file a detailed Statement of Objections within 30 days of the date of service of the Proposed Decision and Order. In that Statement of Objections an aggrieved party must specify each issue of fact or law contained in the Proposed Decision and Order which it intends to contest in any further proceeding involving the exception matter.

Copies of the full text of these Proposed Decisions and Orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B-120, 2000 M Street, NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., e.s.t., except federal holidays.

MELVIN GOLDSTEIN,
Director,
Office of Hearings and Appeals.

NOVEMBER 9, 1978.

PROPOSED DECISIONS AND ORDERS

Cheyenne Airways, Inc., Cheyenne, Wyoming, FEE-4657 aviation fuels

Cheyenne Airways, Inc. filed an Application for Exception from the provisions of 10 CFR 212.93. The exception request, if granted, would permit Cheyenne to increase its selling prices for aviation fuels in order to reflect non-product cost increases which it has incurred since May 15, 1973. On October 24, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted.

First Chemical Corporation, Pascagoula, Mississippi, DEE-0097 propane

First Chemical Corporation filed an Application for Exception from the provisions of 10 CFR 211.12. The exception request, if granted, would result in an increase in the volumes of propane which First Chemical Corporation is entitled to receive. On October 25, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be denied.

Gulf Oil Corporation, Houston, Texas, DEE-1941 crude oil

The Gulf Oil Corporation filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Gulf to sell the crude oil produced for the benefit of the working interest owners from the Mattie White, *et al* "C" Lease at upper tier ceiling prices. On October 27, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted.

Gulf Oil Corporation, Tulsa, Oklahoma DXE-1859 crude oil

The Gulf Oil Corporation filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Gulf to continue to sell a portion of the crude oil produced at the Kiefer Unit located in Creek County, Oklahoma, at upper tier ceiling price levels. On October 25, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted.

Monsanto Company, Houston, Texas, DEE-1824 crude oil

The Monsanto Company filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Monsanto to sell the crude oil produced for the benefit of the working interest owners from the Navajo 138 Lease at upper tier ceiling prices. On October 24, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted.

Allen K. Trobaugh, Midland, Texas, DXE-1860 crude oil

Allen K. Trobaugh filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Trobaugh to sell crude oil produced from the Bailey No. 1 lease located in Hockley County, Texas at upper tier ceiling prices. On October 27, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be denied.

MELVIN GOLDSTEIN,
Director, Office of Hearings and Appeals.

NOVEMBER 9, 1978.

PROPOSED DECISIONS AND ORDERS

BTA Oil Producers, Midland Tex., DEE-1456, crude oil

BTA Oil Producers filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit the firm to sell certain of the crude oil produced from the Baum 704 JV-D "Com" lease, located in Lea County, New Mexico, at upper tier ceiling prices. On October 31, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted in part.

Damson Oil Corp., Houston, Tex., DEE-0362, crude oil

The Damson Oil Corporation filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Damson to sell the crude oil which it produces from the Los Angeles 135 No. 2 well at upper tier ceiling prices. On November 2, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted.

Gulf Oil Corp., Houston, Tex., DEE-1952, motor gasoline

The Gulf Oil Corporation filed an Application for Exception from the provisions of 10 CFR 212.83(c). The exception request, if granted, would permit the firm to adjust the manner in which it calculates base period marketing costs pursuant to 10 CFR 212.83(c) to reflect the reduction in marketing costs no longer incurred as a result of a modification in the firm's marketing operations. On November 2, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted.

Halter Gas Co., Oran, Mo., DEE-1966, propane

Halter Gas Company filed an Application for Exception from the provisions of 10 CFR 211.9. The exception request, if granted, would result in the issuance of an Order assigning Phillips Petroleum Company as Halter's base period supplier of propane in place of the Atlantic Richfield Company. On November 3, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be denied.

Standard Oil Co. (Indiana), Chicago, Ill., DEE-0842, DEE-0849, DEE-0894, DEE-0895, and DEE-0982, crude oil

The Standard Oil Company (Indiana) (Amoco) filed an Application for Exception from the Provisions of 10 CFR, Part 212, Subpart D, in which the firm requested that it be permitted to sell at upper tier ceiling prices or at market price levels the crude oil produced from the Springen Ranch Muddy Unit in Campbell County, Wyoming, the Collums Muddy Sand Unit in Campbell County, Wyoming, the Cottonwood Creek Prosphoria Unit in Waskakie County, Wyoming, the South Middle Lasing unit in Red William County, Nebraska, and the South Middle Ground Shoal Unit in Kenai Peninsula Borough, Alaska. On November 2, 1978, the DOE issued a Proposed Decision and Order which determined that exception relief be granted in part with respect to the Springen Ranch, Collums Muddy, and Sleepy Hollow Units.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 1013-3]

Management Advisory Group to the Municipal Construction Division

Renewal

In accordance with section 14 of the Federal Advisory Committee Act (Pub. L. 92-463) the U.S. Environmental Protection Agency announces the renewal of the Management Advisory Group to the Municipal Construction Division. It has been determined that renewal of this advisory committee is in the public interest in connection with the performance of duties imposed on the Agency by law. The charter which continues the Management Advisory Group through December 1, 1980, unless otherwise sooner terminated, will be filed at the Library of Congress.

FOR FURTHER INFORMATION CONTACT:

Mary Anne Beatty, EPA Committee Management Officer (PM-213), U.S. Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460, 202-755-0866.

PESTICIDE PROGRAMS

[FRL 1012-7; OPP-66047]

Intent to Cancel Registrations of Certain Pesticide Products

Pursuant to Section 6(a)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.), firms listed below have requested that the Environmental Protection Agency (EPA) cancel the registrations of several pesticide products. Such cancellation shall be effective within 30 days after publication of this notice in the FEDERAL REGISTER, unless the registrant or an interested person with the concurrence of the registrant, requests that the registration be continued in effect.

The Agency has determined that the distribution and sale of stocks of these products which were produced on or before the effective date of cancellation would not be inconsistent with the purposes of FIFRA and would not have an unreasonable adverse effect on the environment. Therefore, the distribution and sale of existing stocks of these products shall be permitted until the supply is exhausted or for one year after the effective date of cancellation, whichever occurs earlier, provided that these products shall be used only in a manner consistent with the label and labeling registered with EPA. Production of these products after the effective date of cancellation will be considered a violation of FIFRA.

Requests that the registration of these products be continued may be submitted to the Process Coordination Branch, Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. Any comments filed regarding this notice of intended cancellation will be available for public inspection in the office of the Process Coordination Branch from 8:30 a.m. to 4:00 p.m. Monday through Friday.

The registrants concerned and the products affected by this action are listed below.

Dated November 16, 1978.

JAMES M. CONLON,
Deputy Assistant Administrator for Pesticide Programs.

TRANSFER OF FUNCTIONS FROM COUNCIL ON ENVIRONMENTAL QUALITY

[FRL 1014-6]

Receipt of Environmental Impact Statements

President Carter's Reorganization Plan No. 1 (see President's Message of July 15, 1977) transferred certain functions from the Council on Environmental Quality (CEQ) to the Environmental Protection Agency (EPA). Some of these functions relate to operational duties associated with the administrative aspects of the environmental impact statement (EIS) process. In Memorandum of Agreement No. 1 entered into between CEQ and EPA, dated March 29, 1978, it was agreed that EPA would be the official recipient of EIS's and would publish the availability of each EIS received on a weekly basis. This is the duty formerly carried out by CEQ pursuant to § 1500.11(c) of the CEQ Guidelines.

Review periods for draft and final EIS will be computed as follows: The 45 day review period for draft EIS's will be computed from the Friday following the week which is being reported; the 30 day wait period for final EIS's will be computed from the date of receipt of the EIS by EPA and commenting parties.

The following is a list of environmental impact statements received by the Environmental Protection Agency from November 13, 1978 through November 17, 1978; the date of submission of comments on draft EIS's as computed from November 24, 1978 is January 8, 1978.

Copies of individual statements are available for review from the originating agency. Back copies are also available at 10 cents per page from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

Dated: November 20, 1978.

WILLIAM D. DICKERSON,
Acting Director,
Office of Federal Activities.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

Final

Japanese Beetle Regulatory Program, November 14: This statement presents the selection criteria of the Japanese Beetle Regulatory Program of Retarding the artificial movement of the Japanese beetle by aircraft from infested areas to the following noninfested States: Arizona, California, Idaho, Nevada, Oregon, Utah and Washington, and certain foreign countries. Approximately seven airports in the infested area may be declared hazardous due to high populations of Japanese beetles in the coming year. Approximately 3,000 aircraft will require some type of chemical treatment. USDA-APHIS, (ADM)-78-1F). Comments made by: HEW, DOD, EPA, State agencies, groups and businesses. (EPA order No. 81217.)

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Draft

Washington CZM, Evans Policy Deletion, Amendment 1, Washington, November 17: The proposed action is an amendment to the Washington Coastal Zone Management Program deleting the Evans Policy Statement on oil port location. This policy statement deals with the siting of a single major crude petroleum transfer site at or west of Port Angeles. The action is proposed in response to a request from Governor Dixie Lee Ray of the State of Washington. The legal analysis performed has shown the policy statement to be unenforceable under both State and Federal law. Alternatives to approve, delay, or deny the proposed amendment have been addressed. (EPA Order No. 81235.)

Draft supplement

PMP fiscal year 1979, Trawl Fisheries of Washington, Oregon, and California, November 17: The proposed action summarizes the changes in the Preliminary Fishery Management Plan (PMP), as amended, for the 1979 foreign fishing season and supplements the final EIS filed in January 1977. Under the amendment, the total allowable catch (TAC) for Pacific Hake will be 198,900 metric tons and for Jack Mackerel will be 55,000 metric tons. Twenty percent of the Hake TAC is set aside in reserve; the estimated domestic annual harvest (DAH) is 50,000 M.T. of Hake, and the total allowable level of foreign fishery (TALFF) for Hake is 109,120 M.T. for the Jack Mackerel fisheries, DAH is estimated to be 51,000 M.T. and TALFF is 4,000 M.T. (EPA Order No. 81236.)

Draft

Baltimore-Washington Yachting Center, Magothy River, Anne Arundel County, Md., November 15: Proposed is the construction of a 937-slip commercial marina to be known as the Baltimore-Washington International Yachting Center located in the vicinity of Annapolis, Anne Arundel County, Md., on the south side of the Magothy River. Related construction activities include: (1) Approximately 888 L.F. of timber bulkhead, (2) approximately 6,135 L.F. of ten-foot wide main pier with 471 catwalks and a total of 1,612 mooring piles, (3) timber breakwaters, and (4) a 75-foot extension to the head of the existing pier. Dredging will also be done with material being used as fill landward of the bulkhead. (Baltimore District.) (EPA Order No. 81223.)

Mariners Two Marina, Permit, Middle River, Baltimore County, Md., November 16: The proposed action is the issuance of a permit to construct a 330-slip commercial marina with 16 piers, catwalks and the installation of 536 mooring piles and a travel lift. In addition, the applicants intend to provide a restaurant, a swimming pool, several tennis courts, bathhouses, boating sales and services, and pump-out facilities. The proposed project will be known as the Mariners Two Marina and would be located about ten miles east of downtown Baltimore on a tributary to the Middle River which is in Baltimore County, Md. (Baltimore District.) (EPA Order No. 81227.)

Commercial Sand and Gravel Dredging, Ohio River, several counties, November 14: Proposed is the issuance of permits to allow continued commercial sand and gravel dredging within the Ohio River Basin located in the States of Pennsylvania, West Virginia, Ohio, and Kentucky. The six firms applying to the Pittsburgh and Huntington Districts for renewal of their permits, currently maintain nine commerical dredging operations which operate at various points within the Upper Ohio River, from mile 0 to mile 438.0. Continued commercial dredging will result in the disruption and loss of sand and gravel from the river bottom, with localized removal of displacement of benthic organisms. (Pittsburgh and Huntington Districts.) (EPA Order No. 81215.)

Draft

COSO Geothermal Development, NWC, China Lake, Kern County, Calif., November 17: The proposed action is the award of a contract to develop geothermal power as an alternative to conventional power sources at the Naval Weapons Center (NWC), China Lake, Kern County, Calif. Under the contract, the contractor will be responsible for implementing a COSO geothermal development program on approximately 3½ square miles of 4½ square miles of Navy fee acquired land within the COSO known geothermal resource area (COSO KGRA). Successful completion of this project will provide the Navy energy self-sufficiency at its NWC facility. Energy in excess will be made available to other west coast DOD facilities. (EPA Order No. 81234.)

DEPARTMENT OF ENERGY

Contact: Mr. Robert Stern, Office of NEPA Affairs, Department of Energy, 1200 Pennsylvania Avenue NW., Room 7119, Washington, D.C. 20461.

Draft

Fuel Use Act, coal and alternate fuels use program, November 15: Programmatic. Proposed is the issuance of regulations to im-

plement the fuel use act (FUA) which would prohibit the contruction of new powerplants without the capability for utilization of coal or alternate fuels and prohibiting the use of natural gas or petroleum as the primary energy source in new powerplants and major fuelburning installations (MFBI) boilers. This statement deals with the overall program and is based on the assumption that coal will be the primary fuel substituted for oil and natural gas. The FUA will also affect use of natural gas and petroleum as a primary fuel source in existing powerplants and MFBI boilers. (DOE/EIS-0038-D.) (EPA Order No. 81219.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Director, Office of Environmental Quality, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C. 20410, 202-755-6308.

Draft

Spring Valley, Village of Carol Stream Du Page County, Ill., November 15: Proposed is the issuance of FHA mortgage insurance by the Department of Housing and Urban Development for the Spring Valley project located in the northwest edge of the village of Carol Stream in western Du Page County, Illinois. The project proposed includes 888 housing units on 160 acres with a potential for an additional 566 units, allocation of land for supporting uses to the above dwelling units for open spaces, schools, storm water retention, and commercial use, and provision of a coordinated plan for the integrated growth of the project. Several alternatives have been considered in the proposal. (HUD-RO5-EIS-78-13-D.) (EPA Order No. 81221.)

Fox Valley Villages, Kane and Du Page Counties, Ill., November 11: The proposed action is a request for HUD home mortgage insurance for the residential components of a complete planned development district (PDD) located in Naperville, Du Page County and Aurora, Kane County, Illinois. The PDD, known publicly as Fox Valley Villages, will be located on 4,142 acres that were annexed to the city of Aurora in July 1973. The PDD will be broken up as follows: 563 acres for commercial activities, 747 acres for manufacturing, and 2,832 acres for residential development. (HUD-RO5-EIS-78-16(D).) (EPA Order No. 81225.)

Poplar Hills Development in Hoffman Estates, Cook County, Ill., November 15: The proposed action is the issuance for HUD home mortgage insurance for the Poplar Hills development located in Hoffman Estates, Cook County, Illinois. The single family home development will contain a total of 740 units and be built in six phases on 331.9 acres. Present construction comprises the first, second, and third stages of the total development as 264 units have been completed as of April 1, 1978. Alternatives are no action (Rejection of insurance would not halt the project), development of remainder of site as multi-family, or build the number of remaining units as clustered townhouses. (HUD-RO5-DEIS-78-10(D).) (EPA Order No. 81226.)

Final

Cypress Point Subdivision, Harris County, Tex., November 14: Proposed is the development of 230 acres into a planned community composed of single-family homes with some commercial reserves in Harris County, Texas. The overall environmental impact of this project is expected to be beneficial in that it would transform a large tract of land, the majority of which is lying fallow, into a planned community. This development provides for the planning and controlling of a wide range of living accomodations for about 3,700 people. (HUD-RO6-EIS-38-F.) Comments made by: EPA, COE, AHP, DOT, DOI, USDA, State Agencies, and Groups. (EPA Order No. 81216.)

Section 104(H)

Following are community development block grant statements prepared and circulated directly by applicant pursuant to section 104(H) of the 1974 Housing and Community Development Act. Copies may be obtained from the office of the appropriate local executive. Copies are not available from HUD

Draft

West Wilcox Water System, Wilcox County, Ala., November 16: Proposed is an administrative action to grant funds for construction of a water system project in the western portion of Wilcox County, Alabama. A portion of the funds are to come from a HUD grant under the non-metropolitan discretionary fund. The proposed water system will consist of approximately 31 miles of water mains using 6-inch pipe except for 3-inch pipe to be used for short dead end lines, a 200,000 gallon elevated storage tank located at the north end of the project will insure a four to five day emergency water supply. Two pumping stations will be installed and a working pressure of 30 to 65 psi will be maintained. (EPA ORDER No. 81229.)

Final

Disposition of Amos Block, Syracuse, Onondaga County, N.Y., November 15: The proposed action is the application by the City of Syracuse, New York for community development block grant funds from HUD. This proposal entails the demolition of the Amos Block, encompassing the structures at 208-220 West Water Street, located in the City of Syracuse, Onondaga County, New York. This action is being considered in conjunction with the approved Clinton Square urban renewal project which outlines two possible objectives for the demolition area, 1) Additional right-of-way and 2) Landscaped entrance to Clinton Square and Central Syracuse. (HUD-R02.) Comments made by: EPA, State and Local Agencies, Groups, Individuals, and Businesses. (EPA Order No. 81220.)

NUCLEAR REGULATORY COMMISSION

Contact: Mr. Voss A. Moore, Assistant Director For Environmental Projects, P-518, Washington, D.C. 20555, 301-492-8446.

Final

La Salle County Station, unit Nos. 1 and 2, La Salle County, Ill., November 15: The proposed action involves the issuance of operating licenses to Commonwealth Edison Company, Chicago, Illinois, for the startup and operation of the La Salle County Station located near the Illinois River in La Salle County about 35 miles from Joliet, Illinois. The facility will employ two boiling-water reactors to produce up to 3293 megawatts thermal (MWT) per unit. A steam turbine generator will use this heat to provide up to 1078 megawatts electrical (MWE) of electrical power capacity per unit. The maximum design thermal output of each unit is 3434 MWT with a corresponding maximum calculated electrical output of 1124 MWE. (NUREG-0486) Comments made by: USDA, DOE, EPA, HEW, HUD, DOI, DOT, State agencies, individuals, and businesses. (EPA order No. 81222.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 7th Street SW., Washington, D.C. 20590, 202-426-4357.

FEDERAL AVIATION ADMINISTRATION

Draft

Salt Lake City International Airport, Davis and Salt Lake Counties, Utah, November 16: Proposed is a 20-year development plan for the Salt Lake City International Airport in Salt Lake City and will affect the counties of Davis and Salt Lake, Utah. Features of the plan include: (1) Construction of Airport access system, terminal units 3, 4, and 5, and adjoining aprons and additional parking, a subsurface and surface drainage system, and a new east general aviation runway; (2) relocation of the surplus and north point consolidated canals; (3) expansion of aviation facilities; (4) development of new air carrier runway complex; (5) various runway improvements; and, (6) miscellaneous development items. (EPA order No. 81232.)

FEDERAL HIGHWAY ADMINISTRATION

Draft

CA-203, Mammoth Lakes Village, Mono County, Calif., November 16: Proposed are improvements on CA-203 from the Madero County Line to the CA-203/CA-395 junction in Mono County, California, to reduce bottlenecks and improve safety conditions. In addition to no-action three other alternatives are considered which involved: (1) widening about 1.5 miles of existing 2-lane conventional highway to 4-lanes and adding traffic signals, (2) operational improvements which would channelize two intersections and the addition of traffic signals, (3) no state highway construction with construction of country roads and other facilities. (FHWA-CA-EIS-78-05-D.) (EPA order No. 81228.)

CA-12 Fairfield and Suisun Bypass, Solano County, Calif., November 16: Proposed is the construction of CA-12 Bypass around the city of Fairfield to improve traffic flow between and around the cities of Fairfield and Suisun located in Solano County, Calif. Five of the alternatives considered involve the construction of CA-12 on an alignment south of the urbanized area of Fairfield City, and are designed as either expressway or freeway and vary from two to six lanes throughout their length. The length will vary from 0.9 to 2.9 miles depending on the alternative. The sixth alternative is no-build. This is an updated statement with substantial revisions and expansions and is being recirculated as a draft. (FHWA-CA-EIS-78-02-D.) (EPA order No. 81230.)

U.S. 20, Long Pine Junction, East and West, Brown County, Nebr., November 15: Proposed is the improvement of a portion of U.S. 20 part of which passes through the Long Pine State recreation area in Brown County, Nebr. The length of this project will be approximately two to four miles depending on the final route selected. The improvement will begin approximately one and one-third miles west of the U.S. 20/Long Pine Spur No. S-9A intersection following easterly and ending at the Brown and Rock County lines. In addition to no-action, five alternatives consider variations to the present aligment of total north and south relocations and partial north and south relocations with reentry. (FHWA-NEBR-EIS-78-05-D.) (EPA order No. 81224.)

I-579, Crosstown Boulevard, Allegheny County, Pa., November 16: Proposed is the construction of 1.6 miles of I-579 (the Crosstown Boulevard), including a major interchange with Fort Duquesne Boulevard and Bigelow Boulevard in Downtown Pittsburgh, Allegheny Count, Pa. The proposed highway section would be a four lane facility with fully controlled access. The proposed highway section extends to the north shore of the Allegheny River where it would interchange with the proposed (under the north side freeway system) East Street interchange. The build and no-action alternatives are considered. (FHWA-PA-EIS-D.) (EPA order No. 81231.)

Final

Hospital Loop Road, Lake City, Columbia County, Fla., November 17: The proposed action is located east of the center of Lake City, Columbia County, Florida. the project consists of providing a connecting street between North First Street in the vicinity of Franklin Street to East Duval Street in the vicinity of Desoto Drive or the Old Jacksonville Highway. The proposed Hospital Loop Road would be a municipal type section/approximately 1.5 miles in length, depending upon the alternative selected, with 2 travel lanes, refuge lanes, curbs, gutters, grass strip, sidewalks and street lights. The proposed facility would follow an alignment that combines several narrow existing streets. (FHWA-FLA-EIS-77-6-D). Comments made by: EPA, HEW, DOI, USDA, State and local agencies. (EPA Order No. 81233.)

Draft Supplement

I-83 in Baltimore City, Gay Street to I-95, Baltimore County, Md. November 14: This statement supplements three draft EIS's filed in December, 1974. Proposed is the construction of a section of I-83 in Baltimore City, Baltimore County, Maryland. The section will be approximately 3.5 miles in length and will extend from Gay Street to I-95. The design alternatives considered are: (1) An elevated viaduct, (2) depressed, (3) a tunnel, and (4) an at-grade boulevard. The action is part of the 3-A Interstate System Program for Baltimore City. (FHWA-MD-EIS-74-02-03-04-D-S.) (EPA Order No. 81218.)

It has come to EPA's attention that the following EIS was not distributed to the public at the same time the official filing was made by the originating agency. Therefore notice of availability is hereby withdrawn. Upon which time the agency completes the distribution and filing procedures, EPA will republish the availability in the FEDERAL REGISTER.

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Director, Office of Environmental Quality, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C. 20410, 202-755-6308.

Final

Non-Metro Discretionary Fund fiscal year-1977, Macon County, Ala., September 18: The proposed action is a request by Macon County, Alabama for Community Development Block Grant Funds. This statement discusses a proposed project to provide a safe and reliable source of potable water to existing residents along a segment of US Highway 80. The project which is located southwest of the City of Tuskegee, Macon County, Alabama, will involve the installation of 22,280 feet of 8-inch water main piping along the highway. The piping will carry water purchased from Tuskegee City and will be placed along the southern side of the highway within the public right-of-way. (EPA Order No. 81011.)

FEDERAL MARITIME COMMISSION

AGREEMENT FILED

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126, or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., San Juan, Puerto Rico and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before December 7, 1978. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Agreement No. 9856-4.

Filing Party: Elliot B. Nixon, Esq., Burlingham Underwood & lord, One Battery Park Plaza, New York, New York 10004.

Summary: Agreement No. 9856-4 would amend various articles of the International Passenger Ship Association Agreement for the purpose of removing therefrom any authority of the member lines to discuss and/or agree upon fares and charges.

By Order of the Federal Maritime Commission.

Dated: November 21, 1978.

FRANCIS C. HURNEY,
Secretary.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Notice of Receipt and Approval of Report Proposal

A request for emergency clearance of two new letters requesting status information from common carriers in the U.S. foreign commerce was received by the Regulatory Reports Review Staff, GAO, on November 16, 1978. See 44 U.S.C. 3512(c) and (d). The purpose of publishing this notice is to inform the public of such receipt and the action taken by GAO.

FEDERAL MARITIME COMMISSION

The Federal Maritime Commission (FMC) requested clearance of two new letters requesting status information from common carriers in the U.S. foreign commerce. In order to comply with the Ocean Shipping Act of 1978 which became effective on November 17, 1978, the FMC must ascertain the identity of those foreign flag line carriers operating in the foreign commerce of the United States who would be classified as "controlled carriers" within the meaning of the Act. It is esential that the FMC identify controlled carriers immediately because of the short-time constraints within which the FMC must implememt the requirements of the Act.

The GAO agreed to accept FMC's emergency request for clearance due to the exigent need to identify the controlled carriers. The FMC estimates that the transmittal letters will be sent to 60 common carriers in the United States foreign commerce. The response time is estimated to be 3.75 hours per response.

The GAO granted emergency clearance to the letters requesting status information from common carriers in the United States foreign commerce on November 17, 1978, under number B-180233 (S79003). This clearance expires on May 31, 1979.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

[FR Doc. 78-33138 Filed 11-24-78; 8:45 am]

[1610-01-M]

REGULATORY REPORTS REVIEW

Receipt and Approval of Report Proposal

A request for clearance of a proposed report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on October 26, 1978. See 44 U.S.C. 3512(c) and (d). The purpose of publishing this notice is to inform the public of such receipt and the action taken by GAO.

CIVIL AERONATICS BOARD

The Civil Aeronautics Board (CAB) requested emergency clearance of the application and related reporting requirements contained in 14 CFR Parts 302.1803, 1805, 1806, 1809, and 1810. These sections specify how persons can apply for unused nonstop route authority. Section 10 of the Airline Deregulation Act of 1978 authorizes this application process. Under provisions of the statute, CAB must award new route authority to the first carrier who applies for unused authority and certifies that it meets certain Federal Aviation Administration requirements.

The GAO agreed to review these reporting requirements on an emergency basis because Section 10 of the Airline Deregulation Act requires CAB to reassign unused route authority based on the application covered by this clearence. The statute also requires that the program become effective immediately upon enactment which occured on October 25, 1978, when the President signed the legislation. Anticipating the enactment of this legislation, CAB adopted and made effective, on October 18, 1978, Regulation PR-180 which included the application and reporting requirements submitted for GAO review.

During our review, we determined that § 302.1805(c)(4), which required copies of pages from the Official Airline Guide, imposed an excessive burden on applicants. To reduce respondent burden, CAB agreed to revise that requirement and permit applicants to provide citations to pertinent pages in the Official Airline Guides. CAB estimates that this revision will reduce applicants' compliance burden by an average of 60 hours. CAB estimates, based on submissions already received, that applicants will spend on the average 210 hours researching and preparing their submissions.

The GAO granted clearance of these reporting requirements on November 2, 1978, under number B-180226 (RO568). This clearance expires on November 30, 1979.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

National Institutes of Health

ADVISORY COMMITTEE TO THE DIRECTOR, NIH

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Advisory Committee to the Director, NIH, on December 13-14, 1978, at the National Institutes of Health, Bethesda, Maryland. The meeting will take place from 9:00 a.m. to 5:00 p.m. on December 13 in Building 31, Conference Room 6, C Wing, and from 9:00 a.m. to 1:00 p.m. on December 14 in Conference Room 8. The entire meeting will be open to the public.

The purpose of the meeting will be to consider the report from Secretary Califano's Conference on Health Research Principles which was held at the NIH on October 3 and 4. The Conference Chairman, Dr. Donald S. Fredrickson, and the chairmen of the five panels, will lead the Committee review to consider the Conference's recommendations for revised health research planning principles. The Committee will also consider feasible approaches and appropriate next steps, in moving beyond research principles toward Secretary Califano's ultimate purpose: Development of a multiyear strategy for support of departmental health research activities.

In addition, the development of revised Recombinant DNA Research Guidelines and other policy issues of concern to the Director, NIH, will be discussed.

The Executive Secretary, Joseph G. Perpich, M.D., J.D., National Institutes of Health, Building 1, Room 137, Bethesda, Maryland 20014, 301-496-3152, will furnish summaries of the meeting, rosters of Committee members and guests, and substantive program information.

Dated: November 15, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer, NIH.

BLOOD DISEASES AND RESOURCES ADVISORY COMMITTEE

Meeting

Notice of Meeting of Blood Diseases and Resources Advisory Committee Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Blood Diseases and Resources Advisory Committee, National Heart, Lung, and Blood Institute, January 15, and 16, 1979, National Institutes of Health, Building 31, Conference Room 8, Bethesda, Maryland 20014.

The entire meeting will be open to the public from 9:00 AM-5:00 PM, January 15, and from 8:30 AM-4:30 PM, January 16, 1979, to discuss the status of the Blood Diseases and Resources program, needs, and opportunities. Attendance by the public will be limited to space available.

Mr. York Onnen, Chief, Public Inquiries and Reports Branch, National Heart, Lung, and Blood Institute, Building 31, room 5A03, National Institutes of Health, Bethesda, Maryland 20014, phone: (301) 496-4236, will provide summaries of the meeting and rosters of the committee members.

CAUSE AND PREVENTION SCIENTIFIC REVIEW COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Cause and Prevention Scientific Review Committee, National Cancer Institute, December 18-19, 1978, Landow Building, Conference Room "A", 7910 Woodmont Avenue, Bethesda, Md. 20014. The meeting will be open to the public on December 18, 1978 and December 19, 1978 from 8:30 a.m. to 9:00 a.m. to review administrative details. Attendance by the public will be limited to space available.

In accordance with provisions set forth in Sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on December 18, 1978 and December 19, 1978 from 9:00 a.m. to adjournment, for the review, discussion and evaluation of individual contract proposals. These proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information about individuals associated with the proposals.

Mrs. Marjorie F. Early, Committee Management Officer, National Cancer Institute, Building 31, Room 4B43, National Institutes of Health, Bethesda, Md. 20014 (301/496-5708) will provide summaries of the meeting and rosters of committee members, upon request.

Dr. Carl E. Smith, Executive Secretary, National Cancer Institute, Landow Building, Room 8C37, National Institutes of Health, Bethesda, Md. 20014 (301/496-4141) and Dr. Virginia C. Dunkel, Executive Secretary, National Cancer Institute, Landow Building, Room 3A14, National Institutes of Health, Bethesda, MD (301/496-1071) will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13.395, National Institutes of Health.)

Dated: November 17, 1978.

ETHICS ADVISORY BOARD

Hearing Changes

FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT: 43 FEDERAL REGISTER 50507, published October 30, 1978.

Notice is hereby given that the location of the hearing on human in vitro fertilization, scheduled to take place in Dallas, Texas on December 11, 1978, has been changed. Due to water damage in the building originally designated, the site of the hearing has been moved to:

Room 7A-23, Earl Cabell Federal Building, 1100 Commerce Street, Dallas, Texas 75242.

Notice is also given that the hearing to be held in the Federal Building in New York City on December 15, 1978 will begin at 11:00 a.m. instead of 1:00 p.m. as originally announced.

For further information contact Dr. Charles R. McCarthy, Staff Director, Ethics Advisory Board, Westwood Building, room 125, 5333 Westbard Avenue, Bethesda, Md. 20016, telephone (301) 496-7776.

Dated: November 20, 1978.

SARCOMAS OF SOFT TISSUE AND BONE IN CHILDHOOD

Symposium

Notice is hereby given of the Symposium on "Sarcomas of Soft Tissue and Bone in Childhood" sponsored by the Cancer Clinical Investigation Review Committee, Division of Cancer Research Resources and Centers, January 25-27, 1979, Grande Hall Area, Holiday Inn, International Drive, Orlando, Florida 32809.

This meeting will be open to the public on January 25, 1979, from 8:30 a.m. to 5:30 p.m. and 8:00 p.m. to adjournment; on January 26, 1979, from 8:30 a.m. to 6:00 p.m.; and on January 27, 1979, from 8:30 a.m. to 1:00 p.m. for presentation of scientific papers. Attendance by the public will be limited to space available.

For additional information, please contact Mr. Clare W. White, Executive Secretary, Cancer Clinical Investigation Review Committee, Review and Referral Branch, Division of Cancer Research Resources and Centers, National Cancer Institute, National Institutes of Health, Westwood Building, Room 819, Bethesda, Maryland 20014, (301) 496-7481.

Dated: November 15, 1978.

Office of the Secretary

SOCIAL SECURITY ADMINISTRATION

Statement of Organization, Functions, and Delegations of Authority

Part S (formerly part 4) of the Statement of Organization, Functions and Delegations of Authority for the Department of Health, Education, and Welfare contains the Statement of Organization, Functions and Delegations of Authority for the Social Security Administration (SSA). Sections SR.00, SR.10, and SR.20 (formerly designated as sections 4-03-00, 4-03-10, and 4-03-20, respectively) of the SSA Statement, published at 40 FR 4475-76 on January 30, 1975, describe the Mission, Organization, Order of Succession and Functions for SSA's Office of Program Policy and Planning (OPPP). Pursuant to the Reorganization Order of the Secretary of Health, Education, and Welfare published at 42 FR 13262-63 on March 9, 1977, responsibility assigned to SSA for evaluating the operations of the Federal Hospital Insurance Trust Fund and the Supplementary Medical Insurance Trust Fund has been transferred to the Health Care Financing Administration. As a result, Sec. SR.20, D.3. of the OPPP Statement is hereby amended to reflect the deletion of this responsibility from OPPP's Office of the Actuary. The replacement statement reads as follows:

3. Studies, for both the immediate and distant future, problems of financing program costs; estimates future workloads; and evaluates operations of the Federal Old-Age and Survivors Insurance Trust Fund, and the Federal Disability Insurance Trust Fund.

Dated: November 20, 1978.

FREDERICK M. BOHEN,
Assistant Secretary for Management and Budget.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

SOUTHCENTRAL WYOMING COAL

Draft Environmental Statement; Extension of Comment Period

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of extension of comment period on Draft Environmental Statement, Southcentral Wyoming Coal.

SUMMARY: Under guidelines published by the Council on Environmental Quality on April 23, 1971, the Department of the Interior will consider requests for an extension of the comment period on the Draft Environmental Statement for Coal Development in southcentral Wyoming. Comments were requested through November 29, 1978, but are hereby extended for an additional period to December 16, 1978. Comments received by that date will be considered before final action is taken on the preparation of a final environmental statement. The Environmental Statement is available for public review in Bureau of Land Management Offices in Cheyenne, Rawlins, and in public libraries in Carbon, Albany, Laramie and Sweetwater Counties, Wyoming.

DATE: Comments by December 16, 1978.

ADDRESS: Send comments to: Team Leader, Coal ES Team, Bureau of Land Management, P.O. Box 670, Rawlins, Wyoming 82301.

FOR FURTHER INFORMATION CONTACT:

Ed Coy, 307-324-7171 ext. 300.

National Park Service

SEASHORE MANAGEMENT STRATEGY, CAPE HATTERAS NATIONAL SEASHORE

Availability of Status Report

The National Park Service has prepared a Status Report on development of a Seashore Management Strategy for Cape Hatteras National Seashore.

The report discusses the National Park Service's conclusions regarding seashore management, summarizes the potential impacts of a strategy that, pending further public involvement, appears to us as the preferred one. It also identifies areas of emphasis and means of implementation to better define the strategy.

The seashore management strategy will be incorporated in a General Management Plan for the national seashore which will cover additional items relating to management, development, and conservation of seashore resources. Preparation of this plan is scheduled to begin in late 1978 or early 1979.

Written comments are invited and will be received at the offices listed below:

Regional Director, Southeast Regional Office, National Park Service, 1895 Phoenix Boulevard, Atlanta, Georgia 30349.
Superintendent, Cape Hatteras National Seashore, Route 1, Box 675, Manteo, North Carolina 27954.

Dated: November 13, 1978.

NEAL G. GUSE, Jr.,
Acting Regional Director, Southeast Region.

[4310-10-M]

Office of the Secretary

ALASKA NATIVE CLAIMS SETTLEMENT ACT

This notice publishes Order No. 3029 issued by the Secretary of the Interior on November 20, 1978. The Order, which amends the Departmental position regarding valid existing rights under the Alaska Native Claims Settlement Act (ANCSA), is published in its entirety below.

Additional information regarding the Order may be obtained from Mr. Beaumont McClure, Alaska Native Claims Coordinator, Bureau of Land Mangement, U.S. Department of the Interior, Washington, D.C. 20240, telephone 202-343-3078.

Dated: November 20, 1978.

DANIEL P. BEARD,
Acting Secretary of the Interior.

Secretarial Order No. 3029
Subject: Valid Existing Rights under the Alaska Native Claims Settlement Act (ANCSA)

Sec. 1 *Purpose.* The purpose of this Order is to cancel Secretarial Order 3016 and to replace it with this Order which resolves certain specific questions on valid existing rights under ANCSA.

Sec. 2 *Policy.* By this Order I hereby adopt the Memorandum from the Solicitor, dated October 24, 1978, (copy attached), as the position of the Department on the subject of valid existing rights under ANCSA. I reaffirm my conclusion in Order 3016 that, if prior to the passage of ANCSA, lands which were tentatively approved for selection by the State of Alaska were (a) tentatively approved or patented by the State to municipalities or boroughs; or (b) patented or leased by the State with an option to buy under Alaska Statue 38.05.077 (the so-called "open-to-entry" program); then valid existing rights were created within the meaning of ANCSA. I also now conclude that lands covered by such open-to-entry leases from the State should not be included in conveyances to Native corporations. The Bureau of Land Management should identify third party interests created by the State, as reflected by the land record of the State of Alaska, Division of Lands, and serve notice on all parties of each other's possible interests, but this Department should not adjudicate these interests. This Order is not intended to disturb any administrative determination contained in a final decision previously rendered by any duly authorized Departmental offical. The question of retroactive application of this Order shall be addressed by the Solicitor under procedures which shall be announced by him within 30 days of this Order's effective date.

Sec. 3 *Revocation.* Secretarial Order 3016 is hereby revoked.

Sec. 4 *Effective Date.* This Order is effective immediately and shall remain in effect until June 1, 1979, at which time it will be converted into the Departmental Manual.

Dated: November 20, 1978.

CECIL D. ANDRUS,
Secretary.

OCTOBER 24, 1978.

Memorandum
To: Secretary of the Interior.
From: Solicitor.
Subject: Valid Existing Rights under the Alaska Native Claims Settlement Act.

On November 28, 1977, I forwarded an opinion to you on the issue of valid existing rights under the Alaska Native Claims Settlement Act. On December 14, 1977, you signed Secretarial Order 3016 adopting my opinion as the position of the Department. Subsequent reaction to that order by various Native organizations, the State of Alaska, and other interested parties, precipitated a reconsideration of the original opinion. After careful review and reconsideration of the entire administrative record, I have concluded that my original opinion should be amended in certain respects. As such, I recommend that Secretarial Order 3016 be rescinded and that the following opinion, which will replace opinion M-36897, be issued as its replacement.

Certain questions have arisen in connection with the implementation of the Alaska Native Claims Settlement Act (ANCSA),[1] including an issue on which there is apparently a conflict between a decision by the Interior Board of Land Appeals (IBLA)[2] and two decisions issued by the Alaska Native Claims Appeal Board (ANCAB).[3] To the extent that the opinions have created uncertainty as to the Department's policy and legal position with respect to the implementation of ANCSA, the policy and legal position should be clarified.

ISSUES PRESENTED

1. Are lands which were tentatively approved for State selection available for conveyance to Native corporations when they

[1] 43 U.S.C. § 1601-1629.
[2] State of Alaska, 19 IBLA 178, March 18, 1975.
[3] Appeal of Eklutna, ANCAB VLS 75-10, Dec. 10, 1976, Appeal of Seldovia, VLS 75-14, 15, June 9, 1977.

V 43 / 228 NOV 27 1978

are located within the area withdrawn for Native selection by Section 11(a)(2) of the ANCSA *if prior* to the enactment of ANCSA the lands had been:

a. Tentatively approved or patented by the State to municipalities or boroughs?

b. Leased with an option to buy by the State to individuals under the State's "open-to-entry" program?

c. Patented by the State to individuals under the State's "open-to-entry" program?

2. If "open-to-entry" leases are "valid existing rights" should the land be excluded from the conveyance to Natives or should it be included in the conveyance as a "subject to" interest?

3. To what extent does ANCSA require the Department to determine whether third party rights acquired under State laws are valid?

4. Should this opinion be applied retroactively?

CONCLUSION

1. I conclude that all three of the third party interests identified above are "valid existing rights" within the meaning of ANCSA.

2. I conclude that the lands covered by "open-to-entry" leases should be excluded from Native conveyances.

3. I conclude that the validity of third party interests which were created by the State should be identified if possible to put all interested parties on notice, but need not be adjudicated.

4. I conclude that the issue of retroactive application of Secretarial Order 3016 was not adequately presented as an issue for reconsideration. As such, the Department should provide a thirty-day (30) comment period to *all* affected parties on the question of whether or not *this opinion* should be applied retroactively.

DISCUSSION

1. *Valid Existing Rights.*

From the time the United States acquired possession of Alaska from Russia, Congress recognized in a general way the claims of Alaska Natives to the land they had used and occupied. Thus in 1884 Congress declared: "The Indians * * * shall not be disturbed in the possession of any lands actually in their use and occupation or now claimed by them, *but* the terms under which such persons may acquire title to such lands is reserved for future legislation by Congress." Act of May 17, 1884 (23 Stat. 24).

At the time of the Alaska Statehood Act (72 Stat. 339) Congress recognized that these aboriginal claims would be a potential encumbrance on land conveyances to the State and would have to be addressed by Congress. Section 4 of the Statehood Act provides in pertinent part:

"The State and its people * * * forever disclaim all rights and title * * * to any lands * * * which may be held by any Indians, Eskimos, or Aleuts * * * (such lands) remain under the absolute jurisdiction of the United States until disposed of under its authority."

The legislation addressing the land claims of Alaskan Natives came in 1971, thirteen years after the Statehood Act. During the thirteen-year interim the State received patent to about 4.8 million acres and "tentative approval" to about 7.7 million acres. It has filed selections on an additional 15 million on which no federal action had been taken.

The concept of tentative approval comes from Section 6(g)[4] of the Statehood Act which states in pertinent part:

"* * * Following the selection of lands by the State and the tentative approval of such selection by the Secretary of the Interior * * * but prior to the issuance of final patent, the State is hereby authorized to execute conditional leases and to make conditional sales of such selected lands."

The implementing regulations (43 CFR 2627.3(d)) provide that "tentative approval" will be issued only "after determining that there is no bar to passing legal title * * * other than the need for survey of the lands or for the issuance of patent or both."

By the time ANCSA was enacted the State had created several types of third party interests on land to which it had received tentative approval. Among these were conveyances to boroughs and municipalities under A.S. §29.18.190, and conveyances by the State under its "open-to-entry" program A.S. §38.05.77, as well as mineral leases, timber sales contracts, free use permits, and others.

The determination of whether these rights survive Native selection under ANCSA could begin with an analysis of the nature of the State's title to tentatively approved lands. It is argued that the State's title is a vested title subject only to being voided if Native occupancy could be proved. *Edwardsen v. Morton*, 360 F. Supp. 1359 (D. D.C. 1970) is cited both for and against this proposition. It was also argued during the debates which preceded ANCSA that the State's tentatively approved selections, being vested rights, could not be used by Congress to settle the aboriginal claims without compensation to the State. If the protection which the third party grantees received is to be found in common law property principles outside of ANCSA, these exceedingly complex questions would have to be resolved. Since I conclude that protection of third party interests created by the State is provided in ANCSA, I need not determine whether such persons are also protected by principles outside of ANCSA.

A fundamental principle of ANCSA is that "[a]ll conveyances made pursuant to this Act shall be subject to valid existing rights."[5] In addition, the sections withdrawing land for Native selection (Sections 11(a), 16(a)) expressly provide that the withdrawal is "subject to valid existing rights." The revocation of prior reserves created for Natives is also "subject to valid existing rights." (Section 19(a)).

Although the phrase "valid existing rights" is not specifically defined in Section 3 "Definitions", both the statute and the legislative history offer guidance as to its meaning.

Section 14(g) provides in pertinent part:

"Where prior to patent of any land or minerals under this Act, a lease, contract, permit, right-of-way, or esasement (including a lease issued under section 6(g) of the Alaska Statehood Act) has been issued * * * the patent shall contain provisions making it subject to the lease, contract (etc.)* * *."

Section 22(b)[6] directs the Secretary "to promptly issue patents to all persons who have made a lawful entry on the public lands in compliance with the public land laws for the purpose of gaining title to homesteads, headquarters sites, trade and manufacturing sites or small tract sites, and who have fulfilled all the requirements of law prerequisite to obtaining a patent."

Section 22(c)[7] protects persons who have initiated valid mining claims or locations in their possessory rights if they have met the requirements of the mining laws.

By regulation the Department has construed Sections 14(g) and 22(b) and provided the mechanism for implementing them. 43 CFR 2650.3-1(a) provides:

"Pursuant to sections 14(g) and 22(b) of the act, all conveyances issued under the act shall exclude any lawful entry or entries which have been perfected under, or are being maintained in compliance with, laws leading to the acquisition of title, but shall include land subject to valid existing rights of a temporary or limited nature such as those created by leases (including leases issued under section 6(g) of the Alaska Statehood Act), contracts, permits rights-of-way, or easements."

This regulation makes a basic distinction between rights "leading to acquisition of title" and "right of a temporary nature." The former are excluded from the conveyance, the latter are included, but protected for the duration of the interest.

It has been argued that for those rights which lead to the acquisition of title the statute and the regulations also distinguish rights which are created under Federal law an those created by State law, protecting only the former. I do not agree for several reasons.

First, the authority of the State to create third party interests in tentatively approved (T.A.'d) lands comes from section 6(g) of the Statehood Act, quoted in pertinent part above. Although the State has exercised this authority through State legislation which defines the terms on which persons may acquire leases, etc., the Congress, in ANCSA, clearly considered such leases to be issued under Federal law, namely the Statehood Act. Section 11(a)(2), for example, withdraws T.A.'d land "from the creation of third party interests by the State under the Alaska Statehood Act." Section 14(g), as already stated, refers to leases "issued under section 6(g) of the Alaska Statehood Act."

Therefore, it is appropriate that 43 CFR 2650.3-1(a) does not limit its scope to entries which are maintained under *Federal laws* and lead to the acquisition of title, but says simply "laws leading to the acquisition of title."

Second, I do not believe the listing of the rights to be protected was intended to be limiting, but rather was *ejeusdem generis*. The regulation already quoted (43 CFR 2650.3-1(a)) precedes its list with "such as those created by * * *," indicating clearly that the list is not exhaustive. Furthermore, there is not longical reason why Congress would have intended to protect rights of municipalities or individuals which lead to the acquisition of title under such Federal laws as the Townsite Act or the Homestead Act, but did not intend to protect the same municipality or individual when the law under which the rights are being perfected is a State law.

It is my conclusion, therefore, that the department's regulations have construed "valid existing rights" under ANCSA to include rights perfected or maintained under State as well as Federal laws leading to the acquisition of title.

This conclusion is reinforced by the provisions of Section 11(a)(2) which provides that the withdrawal of State selected and T.A.'d lands is from "all forms of appropriation under the public land laws, including the mining the minerla leasing laws, *and from the creation of third party interests by the State under the Alaska Statehood Act.*" The underscored language reveals that third party interests created by the State are considered to have been created "under" the Statehood Act, which is a Federal statute. Also by withdrawing the land from the future creation of third party interests by the State, there is a strong implication that third party interests already created were considered "valid existing rights." Finally, the fact that the lands are withdrewn from appropriations under the mining laws makes it clear that "valid existing rights" as used in Section 11(a)(2) contemplates rights which lead to the acquisition of title as well as those of a temporary nature.

The fact that Congress expressly referred only to leases issued by the State is not persuasive evidence that Congress intended no other State-created interests to be protected. The reasons for Congress' special emphasis on State leases is entirely understandable.

The House Committee report reflects Congress' concern that a lease issued by the State which on its terms was conditional on the issuance of a patent to the State not be terminated by virtue of the Native Selection. H.R. Report No. 92-523, 92d Cong., 1st Sess. (1971), p. 9.

It is well-known that ANCSA was the subject of intense concern to the oil and gas industry which had mineral leases on State selected lands.[8] It is therefore not surprising that Congress paid special attention to State-issued leases. But that is not that is not to say that Congress was unaware of or unconcerned with State issued patents, which were equally conditional on the issuence of a federal patent to the State. Thus the House Committee report, *supra*, states: "Section 11(i) protects all valid rights * * *." If it had intended to protect only leases or only rights of a temporary nature the use of the word "all" would seem inappropriate.

This concern runs throughout the hearings' record. On August 8, 1969, Senator Stevens (R-Alaska) learned for the first time that the Alaska Federation of Natives was claiming land that had been tentatively approved to the State. Highlights from pages 344-351 of the testimony of that day's hearing are excerpted below:

SENATOR STEVENS. Maybe just one last question, and this will be directed to all of your people, General Clark. It is my understanding there is no conflict between the recommendations that are made here today and existing State rights, that is, in terms of State selections, already patented or State selections to which there has been tentative approval given is that correct?"

* * * * *

The Statehood Act set up a unique thing, and we are forever going to be indebted to Congress for this unique approach, and that is, the State of Alaska is going to be able to treat it as though it owns the land, the land to which the Secretary of Interior had given tentative approval on selection.

* * * * *

MR. CLARK. Well, it is right as to the patent insofar as the settlement proposal is concerned. On tentative approval, the federation has not taken a position on that here.

* * * * *

Well, let me have President Notti, who can speak better for the Federation than I, as counsel for it, address himself to that. But before he does, let me say that this does not mean that there is any irreconcilable conflict necessarily there. You are talking about whether there is a quitclaim or a waiver only to tentatively approved land.

* * * * *

MR. NOTTI. Senator, we have discussed this in our meetings, and as far as patented lands go to State or individuals, we here make no claim against that. Lands that have not been patented, have not gone to final patent, and that includes tentative approval, we are not willing to concede at this time that we do not have selection rights in these areas. We think we do.

* * * * *

SENATOR STEVENS. I hope everyone realizes the effect of the statement you have just made, which is probably the most significant statement that I think has been made in the whole hearing. I have never before this time had any indication that the Alaska Federation of Natives did not concede the validity of the land freeze.

* * * * *

I want to eliminate any conflict with the State. *We are protecting the rights of private individuals.* As I understand *the position* of everyone who has been here so far, if there are private *existing rights they will be recognized.* That would include the *homesteader* who has filed and received his certificate of final proof. It would include the man who has the *trade manufacturing site* or the various other entries who has gone as far as he can and has received final approval of the Interior Department, subject to only one thing, and that is the issuance of a patent after survey.

Now, the State is in that same position, and I think the position of the AFN is treating the State differently than other private rights, non-Federal, nonnative rights, because they are not recognizing the validity of a tentative approval in that sense, the sense that, in fact, put Alaska where it is today.

If it had not been for tentative approval, the State of Alaska could not have proceeded to *lease Prudhoe Bay*, could not have proceeded to lease most of the lands that have been leased, and I am sure that anyone familiar with the State government would tell you that without the right to issue leases on tentative approval land, we would not have had the income we have had.

The State would have been bankrupt, and I think it will drastically affect the outcome of the sale in September if this point is not cleared up before that time. We are expecting $1 billion from that lease sale. Now here is a cloud, a definite cloud, on that sale because those are tentative approval lands, and I think it must be cleared up. If it is not cleared up, it is going to affect all Alaskans drastically, and I urge you to clarify your position and to state that you are not going to contest lands to which tentative approval has been given to the State before the land freeze, because if you do not, I would predict that the income from the land sale in September is going to be somewhere around $40 million instead of $1 billion.

SENATOR GRAVEL. If the Forest Service sells timber from the Tongass Forest, would this not be a similar situation? The State's tentatively approved land is being claimed; just as is the forest lands. *AFN has already talked of protecting the rights of individuals*, and they are looking upon Government, the State or Federal, in the same light.

Now, I personally—maybe you could explain to me—do not see why the tentative approval area should be sacrosanct if the Tongass National Forest is not sacrosanct.

SENATOR STEVENS. Well, but this is the point: The State was given certain rights under the Statehood Act, the right to select these lands. Where the lands have been patented, there is no dispute. The only reason the patent was not issued under tentative approval was because the survey had not been done. The State and Federal Government have done everything there is to do except issue the patent.

SENATOR GRAVEL. I understand that. But suppose the State does have patent. The Natives would still be looking to the State for participation if there are certain areas of State land needed to fill out the allowable land grant area around the village. If that is the case they would get land from the State, just as they would from Federal Government lands, such as the Tongass National Forest or some wildlife refuge. That does not disturb me one iota, and I do not see an economic change of significance that will alter the wealth *because they are not going to disturb the oil companies under the lease.* That lease will be there.

* * * * *

The ambiguity might occur as to whether or not the Natives have a claim on the lease interest or the State's interest in it. There is a difference. *I believe AFN stated earlier that as far as the homesteader is concerned they recognize his rights, just as the rights of the oil companies would be recognized.* But possibly there may be inferences here of which I am not aware.

* * * * *

MR. CLARK. Let me say, first, Senator Stevens, that I think it would be terribly unfortunate if we exaggerated the risks here. *There is nothing that I can see that the Federation has ever done that would challenge a lease that may have been entered into* and, therefore, I do not see how their claiming their villages, whether it falls in tentatively approved land or the Tongass National Forest, could affect the bonus value of the lands. *The lessee is not really threatened.* (Emphasis supplied.)

Throughout this discussion several things are apparent: First, Senator Stevens is concerned with "protecting the rights of pri-

vate individuals" He lists several examples—homesteaders and other people with rights under federal law, and in the same discussion mentions the Prudhoe Bay oil lessees. Second, these Prudhoe Bay leases are cited as an example and quoted with the homesteader in Senator Gravel's comment; and third, Stevens, Gravel, and Clark all agreed in general terms that private rights should be protected. Nowhere did anyone suggest that lessees should be treated differently from other private individuals.

In the 1971 hearings the question of private rights in T.A.'d land again arose:

SENATOR STEVENS. Almost all of the property rights that have been created since 1958 have come through the tentative approval provision in the Statehood Act. There have been very few rights in the State of Alaska created otherwise. If we were to disturb that provision • • • we would be disturbing the whole system of private rights in the State.

Mr. Weinberg, then speaking for the Natives, replied:

Now, we are not suggesting that every land title in the State of Alaska be upset • • • [P]atents should not be upset. Even patents to the State where the State still holds the land. But we do believe that the T.A. land problem can be met and it should be met by Congress • • • [N]obody's private title is going to be upset.

Testifying on May 7, 1971, before the House, Mr. Hugh Fleischer representing nine individual Native villages who were deeply concerned by the T.A.'d land issue, urged the Congress to include T.A.'d land in the bill, but included the statement:

We don't think that this legislation we are proposing would create any serious problems with respect to third party interests . . . Hearings on HR 3100, May 3, 4, 5, 6, 7, 1971, p. 327.

The need to protect *all* third parties was expressed by Governor Egan in a letter to the House Committee dated May 12, 1971, (Appended to the 1971 House Hearings at p. 264) as follows:

Under specific authorization of the Statehood Act the State has granted large numbers of patents and leases and entry rights to third parties in T.A.'d lands. The first principle to be observed in any determination regarding T.A. lands is that *no interest* given by the State to *any* third party shall be disturbed. (Emphasis added.)

All of the foregoing legislative history supports the conclusion that Congress did not single out leases from other State created rights as the only ones to be protected. It shows, I believe, that the reference to State issued leases, preceded by the word "including", was intended to mean that "leases" were only one of the State vested rights that were to be protected under the statute as valid existing rights.

In my opinion, there is no ambiguity in either the statutory language or the legislative history concerning Congress' intent to protect *all* valid existing rights which were created under federal or State law.

a. *Borough and Municipal Lands.*

Coupled with the issue of valid existing rights is the question of whether or not State T.A.'d lands which have been selected by boroughs or municipalities are valid existing rights which are protected from Native selection. Certain Native corporations have argued that boroughs and municipalities are instrumentalities of the State whose rights are so derivative as to be identical to those of the State and that the State cannot exempt land from Native selection by conveying to itself.

The legislative history on this point is non-existent. The Alaska native Claims Appeal Board (ANCAB) addressed the issue in the *Appeal of Eklutna, Inc.*, ANCAB VLS 75-10 and rejected the "Instrumentality of the State" argument, relying on provisions of State law and State Supreme Court decisions to the effect that for many purposes, including bringing lawsuits and holding land, a municipality * has a separate legal entity.

ANCAB found in its decision that a municipality is an entity legally capable of constituting a third party whose interest in lands is separable from that of the State. Forming the basis of this finding were pertinent sections of the Constitution of the State of Alaska, portions of Title 29 of the Alaska Statutes, and several decisions of the Alaska Supreme Court. The pertinent portion from pages 32-34 of the decisions is incorporated herein:

Article X, Section 1 of the Constitution of the State of Alaska provides:

The purpose of this article is to provide for maximum local self government with a minimum of local government units, and to prevent duplication of tax-levying jurisdictions. A liberal construction shall be given to the powers of local government units.

Article X, Section 2, provides:

Local Government Powers. All local government powers shall be vested in boroughs and cities. The State may delegate taxing powers to organized boroughs and cities only.

Article X, Section 3, provides as follows:

Boroughs. The entire State shall be divided into Boroughs, organized or unorganized. They shall be established in a manner and according to standards provided by law. . . . The legislature shall classify boroughs and prescribe their powers and functions. Methods by which boroughs may be organized, incorporated, merged, consolidated, reclassified, or dissolved shall be prescribed by law. The legislature shall classify boroughs and

Title 29 of the Alaska Statutes, *Municipal Government*, in A.S. 29.48.010, lists the following municipal powers, exercised by the Borough and its successor, the Municipality:

• • • • • •

4. to enter into agreements • • • with the State, or with the United States;

• • • • • •

6. to sue and be sued;

• • • • • •

9. to acquire, manage, control, use and dispose of real and personal property • • •

• • • • • •

A.S. 29.48.260 Municipal Properties, provides:

(a) A municipality may acquire and hold real and personal property or interest in property, • • •

(b) • • • a municipality may sell, lease, donate or exchange with the United States, the state, or a political subdivision real estate or other property, or interest in property, • • •

• • • • • •

Municipal powers to sue have been exercised against the State; in *Kenai Peninsula Borough v. State* (Alaska, 532 P. 2d 1019), the Court held that the Borough, in transporting students by school bus, did not act as agent of the State.

In *Wellmix Inc. v. City of Anchorage*, 471 P. 2d 408, 410 (1970), an eminent domain action, the Court held that the City of Anchorage, the condemnor, was not an "agency" of the State within Supreme Court rule 7(a), regarding the appeal period allowed in an action to which "the State or an agency thereof" is a party.

In *Chugach Electric Association v. City of Anchorage*, Alaska, 476 P. 2d 115 (1970), an electric utility holding a certificate of public convenience and necessity from the Public Service Commission (a State agency), sought relief from the City's refusal to issue a building permit, required under City Ordinance for the construction involved in providing service to a bowling alley. Construing the problem as a conflict between a municipal ordinance and the State statute vesting power in the Public Service Commission, the Court held in favor of the State.

In none of these cases was the municipal party's standing denied on the ground that a municipality functioned as a mere "alter ego" of the State.

The Board notes that a variety of statutory provisions, cited by the Municipality in its Supplemental Brief filed June 2, 1976, appear to place municipal governments on an equal footing with other private grantees with regard to disposition of State lands. The Board further notes that, insofar as § 6(g) of the Statehood Act provides, "The authority to make selections shall never to alienated or bargained away, in whole or in part, by the State," a municipal government may not participate directly in the selection process, but must take as the State's grantee. A selection made by the State to protect a city's watershed was held consistent with this principle:

The selection was made by Alaska in its own name and, insofar, as the record shows, was not subject to any contract, conveyance, or other transaction with the City of Anchorage. • • • The fact that the interests of the State and its political subdivision, the City of Anchorage, coincide, is with legal significance and, on this record, in no sense evidences a violation of the prohibition against alienation contained in section 6(g). (*Udal v. Kalerak*, 396 F. 2d. 746 749 (1968))

[14] The Board recognized that the Municipality is organized and may be dissolved under State law. At present, the Municipality is empowered to exercise governmental and proprietary functions under the Constitution and laws of Alaska. These functions include the acquisition, management, and disposal of land, independent of control by the State. The Board must conclude that, until revoked or modified by constitutional or legislative amendment, with the consent of the electorate, such powers remain in force and render the Municipality an entity separate from the State for purposes of holding third party interests under ANCSA.

In reviewing ANCAB's analysis and reasoning, it is my opinion that this interpretation reflects the Congressional intent of ANCSA.

*Under A.S. 29.08.030, the term municipality includes first, second, and third class boroughs and first and second class cities.

b. *Open-to-Entry Leases.*

The issue of whether or not "open-to-entry" leases are valid existing rights and how they should be processed by the BLM has also been raised.

The State "open-to-entry" leasing program, A.S. 38.05.077, provides for the issuance to qualified applicants of a five-year lease (renewable for five years) to not more than five acres of State land classified as "open-to-entry."

It further provides:

"(4) Before a person may purchase the parcel of land upon which he has entered he shall have a survey made of the entry • • •.

• • • • •

"(6) When the entry has been made upon land that has been selected by the State and upon which the State has not received tentative approval or patent, the entry shall be approved only on the basis of a renewable lease. When tentative approval or patent has been received by the State, the lessee may relinquish his lease and acquire patent to the entry by negotiated purchase upon the terms and conditions provided for in this section."

The program contemplated here is a lease with an option to buy at a negotiated price. It is a lease which could at the election of the lessee lead to the acquisition of title.

Under the analysis set forth above, third party interests created by the State are protected regardless of whether they are of a temporary nature or lead to the acquisition of title. However, for purposes of 43 CFR 2650.3-1(a), it must be determined whether land covered by an open-to-entry lease should be excluded from the conveyance, or whether it should be included in the conveyance which would be issued "subject to the lease."

After reviewing my original opinion on this issue, I have now concluded that lands subject to open-to-entry leases which were issued prior to December 18, 1971, and which are within a Native selection should not be included in or counted against lands conveyed to Native corporations. Under this procedure the State continues to administer the program in accordance with its laws. If the lessee fails to exercise the option to purchase, the affected Native corporation can either have the land conveyed as part of its original entitlement or, if the entitlement is otherwise satisfied, then by exchange.

By excluding these lands from Native conveyances, this procedure will be in conformity with 43 CFR 2650.3-1(a), which provides for the exclusion from Native conveyances entries which are being maintained in compliance with laws leading to the acquisition of title. Contrary to the conclusion which was drawn in my opinion of November 28, 1977, these open-to-entry leases are analogous to entries made under the Alaska homestead, trade and manufacturing site, homesite, and headquarters site laws which permit entrymen a certain period of time (usually five years) to perfect their notices of entry and thereby gain title to the land. Until the time period lapses and an application to purchase is filed, in most cases BLM does not know whether an entryman has, in fact, met the legal requirements for acquisition of title. As such, this time period is virtually indistinguishable from the time period in which an open-to-entry lessee must meet certain State law requirements to perfect his option to purchase. When an entryman files his application to purchase homestead lands, for example, he is, in effect, exercising an option to buy against the United States. If he fails to file his application to purchase or to meet any of the statutory criteria, his option fails. Because we are excluding from Native conveyances entries which have been noted on the public land records for homesteads, Native allotments, trade and manufacturing sites, and headquarters sites, but which have not been perfected, lands under open-to-entry leases which have been properly issued by the State should likewise be excluded from Native conveyances.

2. *Adjudication of Third Party Valid Existing Rights.*

Another issue for resolution is to what extent the law and regulations require the Department to identify and determine the validity of (adjudicate) third party valid existing rights.

Clearly the administrative act of listing an interest as a valid existing right or of failing to list it does not create or extinguish the right. Because of this the ultimate validity of all interests may require court litigation.

Nevertheless it is appropriate for BLM to determine in the first instance the validity of those interests which are created by federal law since BLM is in most cases the agency charged with the administration of those laws. It is also appropriate for BLM to identify any interests which appear on the State land records and to serve notice on all parties of each other's possible interests. It was for this reason that the Department promulgated 43 CFR 2650.7(d) requiring that decisions of BLM proposing to convey lands under ANCSA shall be served "on all known parties of record who claim to have a property interest or other valid existing right in the land affected by the decision." Neither the Department's regulations nor ANCSA require the Department to determine whether third party interests created by the State are valid under the applicable State law and regulations. The Department is not an appropriate forum to adjudicate these interests. If the State created interest is valid on its face it should be deemed valid for purposes of the conveyance document. This position is consistent with the decisions made March 3, 1978, on ANCSA implementation.

3. *Retroactive Application of this Opinion.*

The final issue concerns the retroactive application of Secretarial Order 3016. This issue was not addressed in my original opinion and was not adequately presented as an issue for reconsideration. It is, however, an issue which is presently before the Alaska District Court in *Richards, et al.*, v. *Andrus, et al.*, No. A78-170 Civ. We intend to petition the court for a stay of proceedings and to provide a thirty-day comment period on this issue to all parties who have participated in the affected administrative proceedings. A separate opinion on this issue will be written after the submissions are reviewed and analyzed.

LEO KRULITZ.

APPENDIX A

ALASKA STATEHOOD ACT

Sec. 6. (g) Except as provided in subsection (a), all lands granted in quantity to and authorized to be selected by the State of Alaska by this Act shall be selected in such manner as the laws of the State may provided, and in conformity with such regulations as the Secretary of the Interior may prescribe. All selections shall be made in reasonably compact tracts, taking into account the situation and potential uses of the lands involved, and each tract selected shall contain at least five thousand seven hundred and sixty acres unless isolated from other tracts open to selection or, in the case of selections under subsection (a) of this section, one hundered and sixty acres. The authority to make selections shall never be alienated or bargained away, in whole or in part, by the State. Upon the revocation of any order of withdrawal in Alaska, the order of revocation shall provide for a period of not less than ninety days before the date on which it otherwise becomes effective, if subsequent to the admission of Alaska into the Union, during which period the State of Alaska shall have a preferred right of selection, subject to the requirements of this Act, except as against prior existing valid rights or as against equitable claims subject to allowance and confirmation. Such preferred right of selection shall have precedence over the preferred right of application created by section 4 of the Act of September 27, 1944 (35 Stat. 748; 43 U.S.C., sec. 282), as now or hereafter amended, but not over other preference rights now conferred by law. Where any lands desired by the State are unsurveyed at the time of their selection, the Secretary of the Interior shall survey the exterior boundaries of the area requested without any interior subdivision thereof and shall issue a patent for such selected area in terms of the exterior boundary survey; where any lands desired by the State are surveyed at the time of their selection, the boundaries of the area requested shall conform to the public land subdivisions established by the approval of the survey. All lands duly selected by the State of Alaska pursuant to this Act shall be patented to the State by the Secretary of the Interior. Following the selection of lands by the State and the tentative approval of such selection by the Secretary of the Interior or his designee, but prior to the issuance of final patent, the State is hereby authorized to execute conditional leases and to make conditional sales of such selected lands. As used in this subsection, the words "equitable claims subject to allowance and confirmation" include, without limitation, claims of holders of permits issued by the Department of Agriculture on lands eliminated from national forests, whose permits have been terminated only because of such elimination and who own valuable improvements on such lands.

ALASKA NATIVE CLAIMS SETTLEMENT ACT

Withdrawal of Public Lands

Sec. 11. (a)(1) The following public lands are withdrawn, subject to valid existing rights, from all forms of appropriation under the public land laws, including the mining an mineral leasing laws, and from selection under the Alaska Statehood Act, as amended:

(A) The lands in each township that encloses all or part of any Native village identified pursuant to subsection (b);

(B) The lands in each township that is contiguous to or corners on the township that encloses all or part of such Native village; and

(C) The lands in each township that is contiguous to or corners on a township con-

V 43 / 228 NOV 27 78

taining lands withdrawn by paragraph (B) of this subsection.

The following lands are excepted from such withdrawal: lands in the National Park System and lands withdrawn or reserved for national defense purposes other than Naval Petroleum Reserve Numbered 4.

(2) All lands located within the townships described in subsection (a)(1) hereof that have been selected by, or tentatively approved to, but not yet patented to, the State under the Alaska Statehood Act are withdrawn, subject to valid existing rights, from all forms of appropriation under the public land laws, including the mining and mineral leasing laws, and from the creation of third party interests by the State under the Alaska statehood Act.

Conveyance of Lands

Sec. 14. (g) All conveyances made pursuant to this Act shall be subject to valid existing rights. Where, prior to patent of any land or minerals under this Act, a lease, contract, permit, right-of-way, or easement (including a lease issued under section 6(g) of the Alaska Statehood Act) has been issued for the surface or minerals covered under such patent, the patent shall contain provisions making it subject to the lease, contract, permit, right-of-way, or easement, and the right of the leasee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Upon issuance of the patent, the patentee shall succeed and become entitled to any and all interests of the State or the United states as lessor, contractor, permitter, or grantor, in any such leases, contracts, permits, rights-of-way, or easements covering the estate patented, and a lease issued under section 6(g) of the Alaska Statehood Act shall be treated for all purposes as though the patent had been issued to the State. The administration of such lease, contract, permit, right-of-way, or easement shall continue to be by the State or the United States, unless the agency responsible for administration waives administration. In the event that the patent does not cover all of the land embraced within any such lease, contract, permit, right-of-way, or easement, the patentee shall only be entitled to the proportionate amount of the revenues reserved under such lease, contract, permit, right-of-way, or easement by the State or the United States which results from multiplying the total of such revenues by a fraction in which the numerator is the acreage of such lease, contract, permit, right-of-way, or easement which is included in the patent and the denominator is the total acreage contained in such lease, contract, permit, right-of-way, or easement.

Miscellaneous

Sec. 22. (a) None of the revenues granted by section 6, and none of the lands granted by this Act to the Regional and Village Corporation and to Native groups and individuals shall be subject to any contract which is based on a percentage fee of the value of all or some portion of the settlement granted by this Act. Any such contract shall not be enforceable against any Native as defined by this Act or any Regional or Village Corporation and the revenues and lands granted by this Act shall not be subject to lien, execution or judgment too fulfill such a contract.

(b) The Secretary is directed to promptly issue patents to all persons who have made a lawful entry on the public lands in compliance with the public land laws for the purpose of gaining title to homesteads, headquarters sites, trade and manufacturing sites, or small tract sites (43 U.S.C. 682), and who have fulfilled all requirements of the law prerequisite to obtaining a patent. Any person who has made a lawful entry prior to August 31, 1971, for any of the foregoing purposes shall be protected in his right of use and occupancy until all the requirements of law for a patent have been met even though the lands involved have been reserved or withdrawn in accordance with Public Land Order 4582, as amended, or the withdrawal provisions of this Act: *Provided*, That occupancy must have been maintained in accordance with the appropriate public land law. *Provided further*, That any person who entered on public lands in violation of Public Land Order 4582, as amended, shall gain no rights.

(c) On any lands conveyed to Village and Regional Corporations, any person who prior to August 31, 1971, initiated a valid mining claim or location under the general mining laws and recorded notice of said location with the appropriate State or local office shall be protected in his possessory rights, if all requirements of the general mining laws are complied with, for a period of five years and may, if, all requirements of the general mining laws are complied with, proceed to patent.

U.S. FISH AND WILDLIFE SERVICE'S MAMMALIAN PREDATOR DAMAGE MANAGEMENT FOR LIVESTOCK PROTECTION IN THE WESTERN UNITED STATES

Availability of Draft Environmental Impact Statement and Notice of Public Hearings

AGENCY: Fish and Wildlife Service, Department of the Interior.

ACTION: Notice of availability for public comment on a draft environmental impact statement (DEIS) and notice of two public hearings on the U.S. Fish and Wildlife Service's western predator damage management program.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, Pub. L. 91-190, the Department of the Interior has prepared a Draft Environmental Impact Statement (DEIS) on the Service's western predator damage management program and will hold two public hearings on the statement. The DEIS examines the Service's mammalian predator damage management program as presently conducted in the Western United States and its impact on the physical, cultural, biological, and economic environment; on recreation, human health and safety, and on public attitudes.

DATES: Comments must be received on or before January 12, 1979.

ADDRESSES: All comments should be sent to U.S. Fish and Wildlife Service, Division of Animal Damage Control, Department of the Interior, Washington, D.C., 20240.

The draft statement is available for inspection and copies are available, upon request, from the following locations:

Associate Director, Fish and Wildlife Resources, U.S. Fish and Wildlife Service, 18th and C Streets, N.W. Room 3254, Washington, D.C. 20240. Telephone: (202) 343-5333.

Regional Director, U.S. Fish and Wildlife Service, Lloyd 500 Building, Suite 1692, 500 N.E. Multnomah Street, Portland, Oregon 97232. Telephone: (503) 231-6118.

Regional Director, U.S. Fish and Wildlife Service, 500 Gold Avenue, S.W., Albuquerque, New Mexico 87103. Telephone: (505) 766-2321.

Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Telephone: (612) 725-3563.

Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, N.E., Atlanta, Georgia 30347. Telephone: (404) 881-4671.

Regional Director, U.S. Fish and Wildlife Service, 1 Gateway Center, Suite 700, Newton Corner, Massachusetts 02158. Telephone: (617) 965-5100, Ext. 9200.

Regional Director, U.S. Fish and Wildlife Service, Lake Plaza North, 134 Union Boulevard, Lakewood, Colorado 80228. Telephone: (303) 234-2209.

Alaska Area Director, U.S. Fish and Wildlife Service, 1101 E. Tudor Road, Anchorage, Alaska 99503. Telephone: (907) 276-3800.

A limited number of single copies are also available by writing the Chief, Division of Animal Damage Control at the address below.

FOR FURTHER INFORMATION, CONTACT:

Clarence E. Faulkner, Chief, Division of Animal Damage Control, U.S. Fish and Wildlife Service, Washington, D.C. 20240. Telephone: 202-632-7463.

SUPPLEMENTARY INFORMATION: To afford the public further opportunity for comment on the draft statement, two public hearings are scheduled as follows:

January 10, 1979—Tri-Arc Travelodge, 161 West 600 South, Salt Lake City, Utah 84111. Telephone: (801) 521-7373 (Gold Field and Grubstake Room).

January 12, 1979—Interior Department Auditorium, 18th and C Streets, N.W., Washington, D.C. 20240.

Both public hearings will start at 9:00 a.m. Persons wishing to provide oral testimony will be required to register previous to such testimony. A registration table will be located at the rear of the hearing room at least one hour prior to start of the hearing. Oral testimony will be limited to a maximum of 15 minutes per witness.

Written testimony may be submitted to the hearing officer at the time of oral presentation or no later than January 12, 1979, to the U.S. Fish and Wildlife Service, Division of Animal Damage Control, Department of the Interior, Washington, D.C. 20240.

For additional information on predator damage, persons may wish to review a copy of the Fish and Wildlife Service Report entitled, Predator Damage Management in the West. This document will be available for review on or about January 1, 1979 at all Fish and Wildlife Service offices listed above. A limited number of single copies are available, upon request, by contacting the above offices.

Dated: November 21, 1978.

LARRY E. MEIEROTTO,
Deputy Assistant Secretary.

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

INTERGOVERNMENTAL SCIENCE, ENGINEERING, AND TECHNOLOGY ADVISORY PANEL

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the Office of Science and Technology Policy announces the following meeting:

Name: Intergovernmental Science, Engineering, and Technology Advisory Panel, Annual Full Panel Meeting.

Date: December 15, 1978, 9 a.m.-1 p.m.

Place: New Executive Office Building, Room 2008, 726 Jackson Place NW., Washington, D.C.

Type of Meeting: Open.

Contact Person: Mr. Louis H. Blair, Office of Science and Technology Policy, Executive Office of the President, (202/395-4596). Anyone who plans to attend should contact Mr. Blair's office by December 8, 1978.

Purpose of Panel: The Intergovernmental Science, Engineering, and Technology Advisory Panel was established on November 4, 1976. The Panel is to identify State, regional, and local government problems which research and technology may assist in resolving or ameliorating and to help develop policies to transfer research and development findings.

Minutes of the meeting: Executive minutes of the meeting will be available from Mr. Blair.

TENTATIVE AGENDA

1. Discussion of Panel report on strategies and actions to enhance the utilization of scientific and technical resources by State and local governments.

2. Review of AAAS/NSF/ISETAP intergovernmental R&D projects and development of plan for R&D agenda setting activities in 1979.

3. Consideration of reorganization of ISETAP.

4. Discussion of projects and activities for 1979.

WILLIAM J. MONTGOMERY,
Executive Officer, Office of Science and Technology Policy.

NOVEMBER 21, 1978.

PENNSYLVANIA AVENUE DEVELOPMENT CORPORATION

PROPOSED NATIONAL ARCHIVES AND RECORDS SERVICE ANNEX

Availability of a Supplement to the Final Environmental Impact Statement on the Pennsylvania Avenue Plan—1974

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Pennsylvania Avenue Development Corporation, with the General Services Administration and the National Capital Planning Commission as cooperating agencies, has prepared a supplement to the Final Environmental Impact Statement on The Pennsylvania Avenue Plan—1974 concerning the proposed National Archives and Record Service Annex (Archives Annex). It provides supplemental assessments of potential construction and operational impacts, including recommended mitigating measures for the approximately 1.3 million square foot Archives Annex, to be located at Market Square, an area bounded by Pennsylvania Avenue, 7th, 9th, and E Streets, N.W., Washington, D.C. The comprehensive analysis of other environmental issues is contained in the Final Environmental Impact Statement—1974.

Written comments on the supplement to the Final Environmental Impact Statement—1974 are invited and will be accepted on or before December 26, 1978. Comments should be addressed to Mr. F. David Harris, Assistant Director—Finance, Pennsylvania Avenue Development Corporation, 425 13th Street, N.W., Washington, D.C. 20004; phone (202) 566-0602.

Copies of the supplement to the final environmental statement are available during hours of operation for inspection at the following locations:

Pennsylvania Avenue Development Corporation, 425 13th Street, N.W. Suite 1148, Washington, D.C. 20004.

Copies are also available at:

Central Reference Room, National Archives, 8th Street and Pennsylvania Avenue, N.W., Washington, D.C. 20408.

Office of Environmental Affairs, National Capital Planning Commission, 1325 G Street, N.W. 10th Floor, Washington, D.C. 20576.

Martin Luther King Library, 901 G Street, N.W., Washington, D.C.

Copies of the Supplement to the Final Environmental Impact Statement—1974 have been sent to various Federal and District of Columbia agencies as authorized in the EPA guidelines, as well as to concerned private individuals and organizations.

Dated: November 21, 1978.

W. ANDERSON BARNES,
Executive Director.

RENEGOTIATION BOARD

PROCEDURES FOR IMPROVING GOVERNMENT REGULATIONS

Final Report

AGENCY: Renegotiation Board.

ACTION: Publication of final report.

SUMMARY: The Renegotiation Board is publishing its Final Report under Executive Order 12044. The report describes the Board's current process for developing regulations and the changes that have been made to comply with the Executive Order; the Board's criteria for identifying significant agency regulations; the Board's criteria for determining which significant regulations require regulatory analysis; and the Board's criteria for selecting existing regulations for review. Use of the procedures described in the Final Report will assist the Board in developing better regulations.

EFFECTIVE DATE: The procedures described in the Final Report are effective immediately.

FOR FURTHER INFORMATION CONTACT:

Kelvin H. Dickinson, Assistant General Counsel-Secretary, Renegotiation Board, 2000 M Street, N.W., Washington, D.C. 20446, telephone (202) 254-8277.

SUPPLEMENTARY INFORMATION: As required by Executive Order 12044 (43 FR 12661 (1978)), the Renegotiation Board published for public comment on May 20, 1978, a Draft Report on its Rulemaking Procedures (43 FR

23197 (1978)). After consideration of comments received, the Board is publishing today a Final Report under the Executive Order. As required by section 5 of the Executive Order, the Office of Management and Budget has reviewed this Final Report and has approved it.

The Board received only two comments on its Draft Report. Both commenters questioned the Board's publication of a Report in light of the lapse of coverage of the Renegotiation Act of 1951 (the "Act"), on September 30, 1976 (*see* 50 U.S.C. App. § 1212(c)). Since the Board continues to have responsibility to process cases relating to periods before that date, however, it has concluded, that it is required by the Executive Order to prepare a report and to revise its rulemaking procedures to comply with the Executive Order. The Board has also concluded that adoption of the procedures described in the Final Report will assist it in developing clearer, more meaningful regulations.

One commenter expressed concern that, under the Draft Report, the General Counsel alone would decide whether a proposal is sufficiently "significant" to bring to the attention of the Board. This was not the intention of the Board, and the General Order which is included in the Final Report makes it clear that all proposals for regulations will be submitted to the Board for review. In addition, both the Draft Report and the Final Report make it clear that appropriate members of the Board's staff and interested members of the public will have an opportunity to participate in the formulation of regulations.

The same commenter expressed concern that the findings that a proposed regulation is needed and that adequate consideration has been given to the direct and indirect effects of a proposed regulation, both of which are prerequisites to the approval of a proposal for publication as a proposed rule, are subjective and will not reflect the impact of a proposal on industry. The Board hopes that the revised procedures will assure consideration of divergent points of view, through public and staff participation in the rulemaking process. The Board believes, however, that it must reserve to itself the final decision as to those rules which are "necessary and appropriate" to carry out the purposes of the Act. (See 50 U.S.C. App. § 1219.)

Finally, one commenter stated that the proposed standard that regulations be written in plain English had not been met in the Draft Report. The Board believes that its Final Report meets the requirements of the Executive Order and will be understandable to those affected by it.

The Board's Final Report follows:

FINAL REPORT UNDER EXECUTIVE ORDER 12044

I. CURRENT PROCESS FOR DEVELOPING REGULATIONS

Suggestions for the development of new regulations or for changes to existing regulations come from several sources. Usually, such suggestions are made by members of the Board or its staff and result from needs appearing in the course of renegotiation. Other suggestions have come from public and legislative sources.

The Board has traditionally exercised active oversight of the review of its existing regulations and the development of new regulations. In many instances, the Board has appointed an Ad Hoc Committee composed of members of the Board's staff, to study or develop a proposed regulation. Generally, after considering the needs giving rise to a proposal and analyzing the suggested solutions, the Ad Hoc Committee submits its report directly to the Board. On other occasions, the General Counsel, after consultation with other interested staff members, proposes changes to the regulations.

By section 111 of the Act (50 U.S.C. App. § 1221), the functions of the Board are excluded from the operation of the Administrative Procedure Act except for the public information requirments of section 3 (5 U.S.C. § 552). As the result of a recommendation of the Administrative Conference of the United States, however, the Board, since 1971, has voluntarily followed the public participation rulemaking procedures of the Administrative Procedure Act (5 U.S.C. § 553) to the extent practicable (see 36 FR 5877, June 12, 1971). Thus, since 1971, the public has had an opportunity to comment on proposed changes in the Board's regulations. Such comments are analyzed by the staff and the Board before the Board issues any final regulation.

II. PROPOSED PROCEDURES FOR DEVELOPING REGULATIONS

The Board has adopted a General Order describing the procedures it will follow in developing regulations. The object of these revised procedures is to conform to the requirements of Executive Order 12044, and to assure that regulations will be as simple and clear as possible and will achieve legislative goals effectively and efficiently. The text of the Board's General Order follows:

[General Order No. 9]

RENEGOTIATION BOARD

FORMULATION OF REGULATIONS

1. *Scope.* This General Order establishes procedures for use by the Board and its staff in formulating regulations; criteria for identifying "significant" regulations; criteria for determining which "significant" regulations require regulatory analysis; and criteria for selecting regulations for periodic review.

2. *Policy.* Regulations will be as simple and clear as possible. They will achieve legislative goals effectively and efficiently. They will not impose unnecessary burdens on the economy, on individuals, on public or private organizations, or on state and local governments.

To achieve these objectives, regulations will be developed through a process which ensures that:

(a) The need for and purposes of the regulation are clearly established;

(b) The Board exercises effective oversight;

(c) Opportunity exists for early participation and comment by other Federal agencies, state and local governments, businesses, organizations and individual members of the public;

(d) Meaningful alternatives are considered and anlayzed before the regulation is issued; and,

(e) Compliance costs, paperwork and other burdens on the public are minimized.

3. *Definitions.* For the purposes of this General Order,

(a) *Regulation* means any rule or regulation of the Renegotiation Board, and any material amendment to an existing rule or regulation, other than rules and regulations related solely to agency management or personnel.

(b) *Significant regulation* means any regulation which:

(1) Affects at least ten percent of the contractors filing with the Board for any fiscal year;

(2) Could result in the disclosure of contractor-furnished information not previously routinely disclosed by the Board under the Freedom of Information Act, 5 U.S.C. § 552; or,

(3) Is otherwise determined by the Board to be a significant regulation.

4. *Proposals for Regulations.* (a) Interested members of the public and members of the Board's staff are invited to submit proposals for regulations to the Assistant General Counsel-Secretary.

(b) At least semi-annually the General Counsel will review all proposals received by the Assistant General Counsel-Secretary together with any proposals made by the Board or any member of the Board. For each proposal, the General Counsel will recommend to the Board whether it should be considered a proposal for a significant regulation. For each proposal which he believes to be a proposal for a significant regulation the General Counsel will prepare a written statement for the Board's consideration describing the issues to be considered, the alternative approaches to be explored, a tentative plan for obtaining public comment, and target dates for the completion of each step in the development of the regulation.

(c) Each proposal, together with the General Counsel's recommendations, will be submitted to the Board for its review. The Board will determine which of the proposals it wishes the staff to develop and will determine which of such proposals should be treated as proposals for significant regulations.

5. *Semiannual Agenda.* (a) Each proposal for a significant regulation which the Board has approved for further study will be included in a semiannual agenda of regulations which will be published in the FEDERAL REGISTER. Copies of the semiannual agenda will also be available to the public through the Board's public information office.

(b) The General Counsel shall prepare the semiannual agenda. This agenda will, for each significant proposal which the Board has approved for further study:

(1) Describe the proposal;

(2) State the legal basis for the action being taken;

(3) State the name and telephone number of a knowledgeable official who is familiar with the proposal.

The semiannual agenda shall also state the status of any proposal previously listed on the agenda.

(c) On the first Monday in October of each year the Board will publish a schedule in the FEDERAL REGISTER showing the time during the coming year when the Board's semiannual agenda will be published. The agenda may be supplemented if necessary, but the semiannual agenda will be as complete as possible.

(d) The Board will approve each semiannual agenda and each supplement to an agenda before publication.

6. *Ad Hoc Committees.* The Board may appoint an Ad Hoc Committee to assist in the evaluation of any proposal. An Ad Hoc Committee may consult with other members of the Board's staff and interested members of the public in conducting its evaluation of the proposal.

7. *Regulatory Analysis.* (a) Upon approval by the Board for further study of a proposal for a significant regulation, the Director, Office of Planning and Development, will determine whether a regulatory analysis is required for each such proposal. A regulatory analysis will be performed if:

(1) The proposal would have an annual effect on the economy of $50 million or more;

(2) The proposal would result in a $25 million increase in costs or prices for individual industries, levels of Government or geographic regions; or,

(3) The Board otherwise determines that a regulatory analysis should be performed.

(b) If a regulatory analysis is required, the Director, Office of Planning and Development, will participate in the development of the regulation, and will prepare for the Board's consideration prior to publication of the proposal as a proposed rule, a draft statement of:

(1) The problem to which the proposal is addressed;

(2) The major alternative ways of dealing with the problem;

(3) The economic consequences of each of the major alternatives; and

(4) A detailed explanation of the reasons for choosing one alternative over the others considered.

8. *Publication of Proposed Rules.* After consultation with appropriate staff offices and any Ad Hoc Committee appointed by the Board, the General Counsel will submit to the Board his recommendation as to each proposal which the Board has approved for further study. In addition to this recommendation, the Board will consider the recommendations and suggestions of any Ad Hoc Committee and those of members of the public as well as any regulatory analyses. The Board will determine whether each proposal which it approves for publication as a proposed rule is or is not a proposal for a significant regulation. A statement of this determination will be included with the proposed rule when it is published. For each significant proposal, the Board will specifically find that:

(a) The proposed regulation is needed;

(b) The direct and indirect effects of the regulation have been adequately considered;

(c) Alternative approaches have been considered and the least burdensome of the acceptable alternatives has been chosen;

(d) Public comments have been considered and an adequate response has been prepared;

(e) The regulation has been written in plain English and is understandable to those who must comply with it;

(f) An estimate has been made of the new reporting burdens or recordkeeping requirements necessary for compliance with the regulation;

(g) The name, address and telephone number of a knowledgeable agency official has been included in the publication; and

(h) A plan for evaluating the regulation after its issuance has been developed.

Except in exceptional circumstances the Board will give the public at least 60 days to comment on proposed significant regulations. In instances where the Board determines that this is not possible, the regulation will be accompanied by a brief statement of the reasons for a shorter time period. The Board will consider any public comments in preparing each final regulation. The Board will also make the finding listed as items "a" through "h" of this paragraph 8 for each significant final regulation.

In those cases where regulatory analysis has been undertaken the Board will include in the Notice of Proposed Rulemaking an explanation of the regulatory approach that is favored, a short description of the other choices considered and a statement of how the public may obtain a copy of the analysis. The regulatory analysis, with any revisions, will be made available when the regulation is published as a final rule.

9. *Review of Existing Regulations.* With its semiannual agenda of proposed regulations, the Board will publish a list of existing regulations which have been selected for review to determine whether they are achieving the policy goals of this General Order and Executive Order 12044. In selecting regulations for review the Board will apply the following criteria:

(a) The continued need for the regulation in light of the Board's experience;

(b) The type and number of complaints or suggestions received with regard to a regulation;

(c) The compliance cost burden created by the regulation;

(d) The need to rewrite the regulation in plain English; and,

(e) The need to simplify regulatory treatment of an issue.

Each part of the Board's regulations will be reviewed at least once every five years.

III. REGULATIONS CHOSEN FOR INITIAL REVIEW

Pursuant to section 5 of the Executive Order, and paragraph 9 of the Board's General Order, the Board has selected the following regulations for initial review:

(a) 32 C.F.R. Part 1480—Availability and Control of Renegotiation Records and Information.

(b) 32 C.F.R. 1499.1-5 Renegotiation Ruling No. 5: Subcontracts within the scope of the Act; sales and other transfers of patents.

(c) 32 C.F.R. Part 1459—Costs Allocable to and Allowable Against Renegotiable Business.

(d) 32 C.F.R. Part 1462—Renegotiation and Taxes.

(e) 32 C.F.R. Part 1481—Privacy Act Regulations.

(f) 32 C.F.R. Subchapter A—Military Regulations Under the Renegotiation Act of 1948.

Dated: November 20, 1978.

(c) How can the Board minimize the administrative expense of providing

Act for unlisted trading privileges in the common stock of Air Express. In a

SEMI-ANNUAL AGENDA OF PROPOSALS FOR SIGNIFICANT REGULATIONS

I. Proposals for new significant regulations: None.

II. Proposals for significant amendments to existing regulations:

A. *RBR 1459, 32 C.F.R. Part 1459: Costs Allocable to and Allowable Against Renegotiable Business.*

(1) *Nature of the proposal.* The Board is studying the adequacy of its existing regulation dealing with the allocability and allowability of costs in renegotiation in light of recent experience. The Board is particularly interested in the following areas:

(a) The application of cost accounting standards in renegotiation;

(b) Methods of fairly matching renegotiable income with the costs of performing renegotiable contracts, with particular reference to methods of reassigning items of cost and income among different fiscal years.

The Board will welcome comments from interested persons on these issues.

(2) *Legal basis for the proposal.* The legal basis for any amendment to RBR 1459 is section 109 of the Renegotiation Act of 1951, as amended 50 U.S.C. App. § 1219.

(3) *Persons to contact.* Interested persons may contact Kelvin H. Dickinson, Esq., Assistant General Counsel-Secretary, telephone 202-254-8277, or Mr. Kenneth P. DeYoung, Supervisory Accountant, telephone 254-8260, concerning the proposal.

B. *RBR Part 1480, 32 C.F.R. Part 1480: Availability and Control of Renegotiation Records and Information.*

(1) *Nature of the Proposal.* The Board is considering amendments to its Freedom of Information regulation which will provide affected contractors with an opportunity to review financial information filed by them with the Board, which has been requested by a third party under the Freedom of Information Act. The Board specifically invites comments on the following:

(a) whether a regulation exempting from disclosure certain classes of commercial and financial information filed with the Board is appropriate. Would such a regulation be permissible under the Freedom of Information Act?

(b) What procedures will permit contractors to review requested financial information within the time limitations for disclosure under the Freedom of Information Act? See 5 U.S.C. § 552(a)(6).

(c) How can the Board minimize the administrative expense of providing such notification?

(2) *Legal basis for the proposal.* The leagal basis for any amendment to RBR Part 1480 is section 109 of the Renegotiation Act of 1951, as amended, 50 U.S.C. App. 1219.

(3) *Persons to contact.* Interested persons may contact Kelvin H. Dickinson, Assistant General Counsel-Secretary to the Board, telephone 254-8277, or Val S. McWhorter, General Counsel, telephone 254-5973, concerning the proposal.

III. Other existing regulations under review: A list of regulations selected for periodic review was published by the Board with its final Report under Executive Order 12044.

Dated: November 20, 1978.

GOODWIN CHASE,
Chairman.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 15333; File No. 1-7240]

AIR EXPRESS INTERNATIONAL CORP.

Application To Withdraw From Listing and Registration

NOVEMBER 15, 1978.

The above named issuer has filed an application with the Securities and Exchange Commission, pursuant to Section 12(d) of the Securities Exchange Act of 1934 (the "Act") and Rule 12d-2(d) promulgated thereunder, to withdraw the specified security from listing and registration on the BOSTON STOCK EXCHANGE, INC. ("BSE").

The reasons alleged in the application for withdrawing the security from listing and registration include the following:

The common stock of Air Express International Corporation ("Air Express") has been listed for trading on the BSE since August 4, 1975. In view of the fact that such common stock was recently admitted to trading in the NASDAQ system, the Company has decided that it no longer wishes to have its stock listed on a regional exchange. In addition, Air Express believes that delisting from the BSE may increase its trading volume in the over-the-counter market, thereby making it eligible for primary NASDAQ listing and, as a consequence, providing investors with greater coverage of financial and quotation information concerning Air Express' common stock.

The BSE has filed an application pursuant to Section 12(f)(1)(C) of the Act for unlisted trading privileges in the common stock of Air Express. In a letter accompanying its application for unlisted trading privileges, the BSE has stated that it opposes the granting of Air Express' application to withdraw from listing on the BSE until such time as the BSE is granted unlisted trading privileges.[1] BSE's application for such trading privileges is currently pending before the Commission.[2]

Any interested person may, on or before December 15, 1978, submit by letter to the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549, facts bearing upon whether Air Express' application has been made in accordance with the rules of the Exchange and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission will, on the basis of the application and any other submitted to it, issue on order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01-M]

[Release No. 34-15322; File No. SR-Amex-78-23]

AMERICAN STOCK EXCHANGE, INC.

Self-Regulatory Organization; Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"), 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on October 30, 1978 the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change. The American Stock Exchange, Inc. ("Amex") has provided the Commission with the following statement of terms of substance, basis and purpose under the Act of the proposed rule change.

STATEMENT OF TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed rule change would allow members to engage in such proprietary risk arbitrage and bona fide hedge transactions on the Exchange floor as are permitted by Section 11(a) of the Act.

PURPOSE OF THE PROPOSED RULE CHANGE

Section 11(a)(1)(D) of the Act exempts bona fide arbitrage, risk arbitrage and bona fide hedge transactions from the prohibition against exchange members trading for their own account. The purpose of this amendment to Amex Rule III (which governs floor trading at the Amex) is to broaden the scope of its arbitrage exemption to parallel that of Section 11(a). Currently, only bona fide arbitrage transactions are exempt under Rule 111.

BASIS UNDER THE ACT

The exemptive language of Section 11(a) indicated that proprietary floor trading activities encompassed within "risk arbitrage" and "bona fide hedge" transactions were not considered by Congress to be inconsistent with the fair and orderly functioning of exchange markets. (See Report 94-75 of the Senate Committee on Banking, Housing and Urban Affairs (1975), p. 68.)

Adoption of the broadened exemption would add liquidity to the market by allowing all members to initiate risk arbitrage and hedging transactions on the Amex floor.

The amendment to Rule 111, by allowing floor traders to engage in risk arbitrage and bona fide hedge transactions free of existing floor trading restrictions, would remove impediments to a free and open market and eliminate burdens on competition not considered necessary or appropriate in furtherance of the purposes of the Act, and therefore is in furtherance of subparagraphs (b)(5) and (b)(8) of Section 6 of the Act.

COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS OR OTHERS ON PROPOSED RULE CHANGE

Amex states that no comments were solicited or received with respect to the proposed rule change.

BURDEN ON COMPETITION

The Amex has determined that no burden on competition will be imposed by the proposed rule change.

Within thirty-five days of the November 27, 1978, publication in the FEDERAL REGISTER (January 2, 1978),or within such longer period (i) as the Commission may designate up to 90 days of such date (February 26, 1978) if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six (6) copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

NOVEMBER 13, 1978.

[8010-01-M]

[Rel. No. 154334; File No. 7-5031]

BOSTON STOCK EXCHANGE, INC., AND AIR EXPRESS INTERNATIONAL CORP.

Application for Unlisted Trading Privileges and of Opportunity for Hearing

NOVEMBER 15, 1918.

The Boston Stock Exchange, Inc. ("BSE") has filed an application with the Securities and Exchange Commission pursuant to Section 12(f)(1)(C) of the Securities Exchange Act of 1934 (the "Act") and Rule 12f-1 thereunder for unlisted trading privileges in the common stock of Air Express International Corporation ("Air Express"), which common stock is registered with the Commission pursuant to Section 12 of the Act or which would be required to be so registered except for the exemption from registration provided in subsection (g)(2)(B) or (g)(2)(G) of Section 12.1.[1]

Air Express is currently listed on the BSE. The BSE has filed this application for unlisted trading privileges, however, because air Express has filed an application to withdraw from listing and registration on the BSE. Air Express' application is currently pending before the Securities and Exchange Commission.[2]

Upon receipt of a request, on or before December 15, 1978, from any interested person, the Commission will determine whether the application with respect to Air Express shall be set down for hearing. Any such request should include a brief statement as to the title of the security in which the person is interested, the nature of his interest in making the request, and the position which he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, not later than the date specified. If no one requests a hearing with respect to the particular applications, such applications will be determined by order of the Commission on the basis of the facts therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 20773; 70-4538]

MICHIGAN POWER CO. AND AMERICAN ELECTRIC POWER CO., INC.

Notice of Proposed Extension of Time for Open-Account Advance by Holding Company

NOVEMBER 14, 1978.

Notice is hereby given that American Electric Power Company, Inc. ("AEP"), 2 Broadway, New York, New York 10004, a registered holding company, and its public-utility subsidiary company, Michigan Power Company ("MPC"), 100 South Main Street, Three Rivers, Michigan 49093, have filed with this Commission a post-effective amendment to their declaration, as previously amended, in this proceeding pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 12(b) of the Act and Rule 45 promulgated thereunder as applicable to the following proposed transaction. All interested persons are referred to the declaration, as now amended, which is summarized below, for a complete statement of the proposed transaction.

By orders dated October 10, 1967, May 2, 1968, May 26, 1969, December 16, 1969, October 28, 1970, December 21, 1971, March 23, 1972, November 29, 1972, December 27, 1973, December 4, 1974, December 16, 1975, December 23, 1976, and December 31, 1977 (HCAR Nos. 15872, 16051, 16383, 16559, 16880, 17405, 17508, 17783, 18232, 18686, 19297, 19820, and 20281), this Commission, among other things, authorized AEP to make open-account advances to MPC up to $12,000,000 outstanding at any one time. Such advances are to be repaid on or before December 31, 1978.

Declarants now request authorization for an extension of time through December 31, 1979, to make the aforesaid open-account advances and to repay such advances.

The proceeds from the open-account advances are required by MPC in connection with its construction program, which for the year 1979 is expected to amount to approximately $6,000,000, and to pay bank loans the proceeds of which were used in connection with past expenditures in connection with MPC's construction program. Declarants state that the open-account advances will be repaid with a portion of the proceeds to be realized by MPC in connection with the divestment by MPC of its gas assets.

Any fees or expenses to be incurred in connection with the proposed transaction will be supplied by amendment. It is stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than December 7, 1978, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarants at the above-stated addresses and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as further amended by said post-effective amendment or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rule 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) any any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 20769; 70-5259]

MIDDLE SOUTH UTILITIES, INC., ET AL.

Notice of Fourth Post-Effective Amendment Regarding Line of Credit Between Bank and Nonutility Subsidiary Company To Finance Fuel Procurement for Owner Associate Utility Companies

NOVEMBER 13, 1978.

In the Matter of Middle South Utilities, Inc., System Fuels, Inc., 225 Baronne Street, New Orleans, Louisiana 70112, Arkansas Power & Light Company, First National Building, Little Rock, Arkansas 72203, Louisiana Power & Light Company, 142 Delaronde Street, New Orleans, Louisiana 70174, Mississippi Power & Light Company, Electric Building, Jackson, Mississippi 39205, and New Orleans Public Service Inc., 317 Baronne Street, New Orleans, Louisiana 70112.

Notice is hereby given that Middle South Utilities, Inc. ("Middle South"), a registered holding company, its public-utility subsidiary companies, Arkansas Power & Light Company ("Arkansas"), Louisiana Power & Light Company ("Louisiana"), Mississippi Power & Light Company ("Mississippi"), and New Orleans Public Service Inc. ("NOPSI") (collectively referred to as "Operating Companies"), and System Fuels, Inc. ("SFI"), a jointly-owned nonutility subsidiary company of Operating Companies, have filed with this Commission a fourth post-effective amendment to the declaration in this proceeding pursuant to Sections 6(a), 7, and 12(b) of the Public Utility Holding Company Act of 1935 ("Act") and Rule 45 promulgated thereunder regarding the following proposed transactions. All interested persons are referred to the amended declaration, which is summarized below, for a complete statement of the proposed transactions.

By orders in this proceeding dated December 8, 1972, September 17, 1973, November 25, 1974, and December 1, 1976 (HCAR Nos. 17797, 18097, 18679, and 19779), the Commission authorized SFI to issue and sell its unsecured promissory notes, in an aggregate amount not exceeding $25,090,000 outstanding at any one time, to Hibernia National Bank in New Orleans ("Hibernia") from time to time for a period of six years from the date of a loan agreement (December 8, 1972) among Hibernia, SFI, Operating Companies, and Middle South. Under the loan agreement, nine other banks are participating to the extent of $21,590,000 or 86.1 percent of the borrowings. It is stated that as of September 30, 1978, SFI had issued notes under the line of credit in the aggregate principal amount of $25,090,000, the proceeds of which were applied by SFI toward the purchase of oil for use as fuel by Arkansas, Louisiana, Mississippi, NOPSI, and Arkansas-Missouri Power Company.

It is now proposed that the period of the borrowings be extended for two more years so that notes issued pursuant to the loan agreement will be payable on or before December 8, 1980. Section 4 of the loan agreement will be amended to modify the method for determining the rate of interest from one based on the rate charged by Citibank, N.A., New York, New York, on commercial loans of 90-day maturities plus three-fourths of one percent (¾%) to one based on the rate charged by Citibank on commercial loans of 90-day maturities. Section 6(b) of the

loan agreement will also be amended to revise the capitalization restriction on SFI's repayment of any loans made to it by Arkansas, Louisiana, Mississippi, or NOPSI so that such repayment cannot be made if as a result the total of SFI's capital stock, surplus, and indebtedness to its parent companies would be less that 35 percent of SFI's total capitalization excluding indebtedness due within one year. All the other terms and conditions related to the borrowings remain the same.

No state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than December 6, 1978, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as now amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 15335; SR-MSE-78-18]

MIDWEST STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

NOVEMBER 15, 1978.

On September 5, 1978, the Midwest Stock Exchange, Incorporated ("MSE"), 120 South LaSalle Street, Chicago, Illinois 60603, filed with the Commission, pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) (the "Act") and Rule 19b-4 thereunder, copies of a proposed rule change which would add Rule 24 to MSE Article VIII to provide an arbitration forum for the resolution of disputes between MSE members.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 15176, September 20, 1978) and by publication in the FEDERAL REGISTER (43 FR 44947, September 29, 1978). All written statements with respect to the proposed rule change which were filed with the Commission and all written communications relating to the proposed rule change between the Commission and any person were considered and (with the exception of those statements or communications which may be withheld from the public in accordance with the provisions of 5 U.S.C. § 552) were made available to the public at the Commission's Public Reference Room.

The Commission funds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to registered national securities exchanges, and in particular, the requirements of Section 6, and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01-M]

[Release No. 10485; 812-43741]

PEMBROKE CAPITAL COMPANY INC.

Notice of Filing of Application Pursuant to Section 6(c) of the Act for an Order of Exemption From All Provisions of the Act

NOVEMBER 17, 1978.

Notice is hereby given that Pembroke Capital Company Inc. ("Applicant"), a Delaware corporation (229 South State Street, Dover, Delaware 19901), filed an application on October 6, 1978, and an amendment thereto on November 3, 1978, pursuant to Section 6(c) of the Investment Company Act of 1940 ("Act") for an order exempting Applicant from all provisions of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that its only securities presently outstanding are shares of its capital stock, all of which are owned by Texaco Inc. ("Texaco Inc."), a Delaware corporation, and Gulf Oil Corporation ("Gulf"), a Pennsylvania corporation. Texaco Inc. and Gulf are the parent corporations of Texaco Limited ("Texaco") and Gulf Oil (Great Britain) Limited ("GOGB"), respectively, which are incorporated in England. The principal activities of Texaco and its subsidiaries are refining, transportation, distribution and marketing of petroleum products. The main business of GOGB and its subsidiaries consists of the importation, refining, storage and marketing of petroleum products. Texaco Inc. and Gulf, together with their respective consolidated subsidiaries, are integrated petroleum companies engaged in the exploration, production, transportation, refining and marketing of crude oil and its products.

Texaco and GOGB each have a 50 percent interest in Pembroke Cracking Company, an English partnership ("Partnership"). Applicant represents that the Partnership was established to construct, own and operate a fluid catalytic cracking unit and related facilities for the processing of petroleum products ("Cracking Facilities") in the Pembroke Milford Haven area of Wales adjacent to existing refineries of Texaco and GOGB.

Applicant states that its sole purpose is to assist the Partnership in the financing of the Cracking Facilities through the issuance of debt securities in the United States and elsewhere. Proceeds of the issuance of each such series of securities will be used by Applicant (i) to purchase notes or other evidences of indebtedness issued by the Partnership ("Partnership Notes"), (ii) to refinance previous borrowings of Applicant, or (iii) to pay interest on Applicant's debt obligations and to pay its expenses. Each series of securities issued by Applicant will be secured by a related series of Partnership Notes. The Partnership Notes will be secured by the several obligations of Texaco and GOGB under "Completion" and "Throughput Agreements", which obligations are, under "Guaranty Agreements", guaranteed by Texaco, Inc. and Gulf, respectively. Under the Completion Agreement, Texaco and GOGB are obligated to provide the Partnership with the necessary funds to pay all of its expenses, liabilities and obligations as they become due (including payment of principal and interest on the Partnership Notes), and to enable the Partnership to complete the Cracking Facilities. Under the Throughput Agree-

ment, Texaco and GOGB will be obli-

ings from third party lenders includ-

Notes and all of its equity securities

written notice to the Commission de-

For the Commission, by the Division of Investment Management, pursuant

COMMENTS RECEIVED FROM MEMBERS,

ment, Texaco and GOGB will be obligated to process sufficient amounts of petroleum feedstocks at the Cracking Facilities or to advance the necessary funds to the Partnership to assure that it will meet all of its expenses, liabilities and obligations (including payment of principal and interest on Partnership Notes) as they become due, in the event funds available to the Partnership from all other sources are insufficient for such purpose. Lastly, under the Guaranty Agreements, Texaco, Inc. and Gulf have each unconditionally and irrevocably guaranteed the performance of Texaco and GOGB, respectively, under the Completion and Throughput Agreements.

Applicant further states that each series of Partnership Notes together with the security therefor will be pledged with Manufacturers Hanover Trust Company, as trustee ("Trustee") for the benefit of holders of the related series of securities of Applicant. Applicant states that its initial sale of debt securities to institutional investors will be issued pursuant to the terms of an indenture ("Indenture"), as supplemented by a first Supplemental Indenture, between Applicant and the Trustee. Applicant states that each subsequent series of Applicant's securities will be issued under the same Indenture, as supplemented by Supplemental Indentures setting forth the specific terms relating to each subsequent series of securities.

Applicant further represents that initially it intends to issue and sell to institutional investors short-term securities with a maturity not exceeding nine months from the date of issuance in a manner designed to comply with Section 4(2) of the Securities Act of 1933. Applicant will offer the short-term securities only to a limited number of institutional investors who agree to purchase for investment and not with a view to distribution or resale thereof. Applicant states that thereafter it may, from time to time, issue short-term or long-term securities in transactions not involving a public offering to institutional investors in the United States or through underwriters to members of the public who are not resident in or nationals of the United States.

Applicant states that it is presently estimated that the cost of construction of the Cracking Facilities, excluding interest on borrowings prior to the commencement of operations, will be approximately $530 million. Interest expense during construction is estimated to be between $40-50 million. Approximately $40 million is expected to be financed through capital contributions and loans from Texaco and GOGB (which loans will be fully subordinated to the Partnership's borrowings from third party lenders including Applicant), approximately $100 million through pound sterling borrowings by the Partnership, and approximately $100 million through a Regional Development Grant provided by the government of United Kingdom to promote development in certain areas of the United Kingdom. It is presently estimated that the balance of the Partnership's requirement, $330-340 million, will be fiananced through Applicant from third party lenders.

Applicant further represents that upon consummation of the transactions described above, its only assets will consist of a series of Partnership Notes and assets representing its initial capitalization, amounting to $1,000. Since the business of Applicant is to provide funds to the Partnership, Applicant's assets in the future will be Partnership Notes obtained from the Partnership. Payments under such Partnership Notes will be made directly to the Trustee to service the debt requirements of the securities. Applicant further states that it will not deal with the Partnership Notes after it pledges them to the Trustee. Applicant further states that it may from time to time enter into certain other types of financial arrangements, including currency transactions, related to the financing of the Cracking Facilities, provided, however, that any risk of changes in currency rates shall not be borne by the holders of the debt securities issued by Applicant.

Applicant states that it may be deemed to be an "investment company" as defined in the Act by reason of (i) its proposed acquisition and holding of the Partnership Notes, which will constitute substantially all of its assets, and (ii) because its presently outstanding securities may be deemed to be beneficially owned by more than 100 persons as a result of its capital stock being held by subsidiaries of publicly held companies, and because securities it may offer in the future may be held by more than 100 persons.

Section 6(c) of the Act provides, however, that the Commission, by order upon application, may conditionally or unconditionally exempt any person or transaction from any provision or provisions of the Act to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant asserts that it is not necessary or appropriate in the public interest or consistent with the protection of investors to regulate Applicant under the Act, because its only significant assets will be the Partnership Notes and all of its equity securities will be held by Texaco Inc. and Gulf. In addition, the securities proposed to be issued by Applicant to United States institutions and to foreign investors will be secured by the pledge of a series of Partnership Notes, which, in turn, will have the benefit of, and will be secured by an assignment of the Partnership's rights under, the Completion, Throughput and Guaranty Agreements. Thus, Applicant asserts that the purchase of Applicant's securities by United States institutional investors will be substantially the equivalent of purchasing obligations of Texaco and GOGB guaranteed by Texaco Inc. and Gulf, respectively.

Applicant agrees, in the event the Commission grants the application, to the following conditions:

(i) Applicant will file with the Commission within 120 days after the close of its fiscal year (a) information with respect to persons in a control relationship with Applicant (except with respect to persons under common control with Applicant), persons and number of persons owning equity securities of Applicant and directors, officers, employees and legal counsel required by Items 11 and 12 of Form N-2 under the Act, and (b) a statement of financial position as of the close of such fiscal year, including a statement of income, paid-in surplus and retained earnings, and a schedule of investments as of the close of such fiscal year;

(ii) Applicant will file with the Commission within 120 days after the close of each fiscal year of Applicant a schedule of the number of holders of its short-term securities and its securities in registered form as of the close of such fiscal year and the number of transfers of such securities during such fiscal year;

(iii) Applicant will not sell any equity securities other than to Texaco, Inc., Gulf, or any direct or indirect wholly-owned subsidiary of Texaco, Inc. or Gulf or sell any debt securities other than debt securities (a) which are to be held by the Partnership, Texaco, GOGB, Texaco, Inc. or Gulf, or (b) which (1) are secured by an assignment of the debt securities or other obligations of the Partnership and (2) are either (A) offered and sold in transactions not involving any public offering to institutions, located in the United States and elsewhere, which are not "underwriters" of such securities within the meaning of the Securities Act, or (B) sold in offerings outside the United States pursuant to agreements and procedures reasonably designed to prevent such debt securities from coming into the hands of a United States national or resident, unless Applicant shall have first given written notice to the Commission describing the proposed issuance of such additional debt securities not less than 60 days prior to the date of such proposed issuance, subject, however, to the right of the Commission, upon request of Applicant, to decrease such number of days. Applicant further agrees that if the Commission shall, after receipt of said written notice, determine that a substantial question exists as to whether or not the exemption granted by the order hereby requested should continue and the Commission shall, within 30 days after receipt by the Commission of such written notice from Applicant, mail or otherwise give notice to that effect to Applicant, c/o The Prentice-Hall Corporation System, Inc., 229 South State Street, Dover, Delaware 19901; and

(iv) Applicant will not issue such additional debt securities unless, after receipt by Applicant of such notice from the Commission and not less than 30 days prior to the issuance of such additional debt securities, Applicant shall mail or otherwise give written notice to the Commission stating its intention to issue such additional debt securities, and upon the giving of such notice by Applicant the order hereby requested shall be deemed to have terminated as of the date Applicant shall have mailed or otherwise given such notice to the Commission.

Notice is further given that any interested person may, not later than December 12, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01-M]

[Release No. 34-15331; File No. SR-PSE-78-18]

PACIFIC STOCK EXCHANGE INC.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"), 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on November 3, 1978, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

TEXT OF THE PROPOSED RULE CHANGE

The Pacific Stock Exchange Incorporated (the "PSE") hereby requests to amend PSE Rule IX, Section 9(c) by incorporating Commentary .01, as follows: (Italics indicate additions).

Commentary:

.01 In the event an individual operating under an XYZ Agreement transfers such XYZ membership to another broker or dealer, a new XYZ Agreement shall be executed and filed with the Exchange. The processing fee applicable with respect to transferring an XYZ membership follows:

(a) If the individual transfers his XYZ membership to an existing member organization, the processing fee shall be $200, as provided in subparagraph (ii) above; or

(b) If the individual transfers his XYZ membership to a non-member organization (or to a newly formed broker/dealer organization) which applies for a membership on the Exchange, the processing fee shall be equivalent to 5 percent of the purchase price paid by the last purchaser of a membership pursuant to Section 9(a)(i)(a) of this Rule, or $300, whichever is greater.

STATEMENT OF BASIS AND PURPOSE

The PSE states that the basis and purpose of the foregoing proposed rule change is as follows:

The purpose of the proposed rule change is to list procedures and fees charged applicants acquiring or transferring memberships. The PSE believes that the rule change equitably allocates reasonable fees among its members, and therefore is in furtherance of subparagraph (b)(4) of Section 6 of the Act.

COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS OR OTHERS ON PROPOSED RULE CHANGE

The PSE states that comments have neither been solicited nor received from members on the proposed rule change

BURDEN ON COMPETITION

The PSE has determined that the proposed rule change imposes no burden upon competition.

Within 35 days of the November 27, 1978, publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date (February 26, 1978) if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within 21 days of the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

NOVEMBER 15, 1978.

DEPARTMENT OF STATE

ADVISORY COMMITTEE ON TRANSNATIONAL ENTERPRISES

Meeting

The Department of State will hold a meeting on December 8 of the Working Group on Restrictive Business Practices (RBPs) of its Advisory Committee on Transnational Enterprises. The Working Group will meet from 1:30 to 5:30 p.m. in room 6320 of the State Department, 2201 C Street, N.W., Washington, D.C. The meeting will be open to the public.

The purpose of the meeting is to continue consideration of the composite text on RBP "principles and rules" developed during the fifth session of the Third Ad Hoc Group of Experts on Restrictive Business Practices, held July 10-21, 1978 in UNCTAD. The December 8 meeting will give both Committee members and the U.S. negotiating team an opportunity to exchange views prior to the next round of discussions at UNCTAD on these issues.

Requests for further information on the meeting should be directed to Richard Kauzlarich, Department of State, Office of Investment Affairs, Washington, D.C. 20520. He may be reached by telephone on (area code 202) 632-2728.

Members of the public wishing to attend the meeting must contact Mr. Kauzlarich's office in order to arrange entrance to the State Department building.

The Chairman of the Working Group will, as time permits, entertain oral comments from members of the public attending the meeting.

The Charter of the Department's Advisory Committee is currently under review and a proposal is being considered to change the Committee's name to the Advisory Committee on Investment, Technology, and Development.

Dated: November 22, 1978.

CLIFFORD G. BOND,
Acting Executive Secretary.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. FE 78-02; Notice 1]

AUTOMOTIVE FUEL ECONOMY PROGRAM REPORT TO CONGRESS

Request for Public Comments

AGENCY: National Highway Traffic Safety Administration, Department of Transportation.

ACTION: Request for public comments.

SUMMARY: Title V of the Motor Vehicle Information and Cost Savings Act, as amended, requires this agency to submit a comprehensive report on its automotive fuel economy program to Congress by January 15, 1979. This notice invites public comment to assist the agency in preparing that report.

DATE: Comments must be received on or before December 8, 1978.

ADDRESS: Comments should refer to the docket number and must be submitted in writing to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, S.W., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Mr. William Devereaux, Office of Automotive Fuel Economy, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590 (202-755-9384).

SUPPLEMENTARY INFORMATION: The Federal automotive fuel economy program was initiated by Congress in December 1975 with the passage of the Energy Policy and Conservation Act. The passage of this legislation was in response to the national concern with the depletable nature and uncertain availability of most of the energy upon which this country depends for its economic and social well-being. It also reflected the need to implement a national program for conserving energy. The adverse effects of the gasoline shortages of the winter of 1973-1974, the inflationary effect of rising fuel costs on almost all goods and services, and this country's increasing dependence upon foreign petroleum sources dramatized that need.

The significance of petroleum for this country was further demonstrated in 1975 by the fact that 46 percent of its annual energy needs were met by petroleum. Over half of the petroleum was used for transportation. Highway transportation accounted for 46 percent of all petroleum consumed. These figures are essentially the same today.

Title III of the Energy Policy and Conservation Act added a new Title V to the Motor Vehicle Information and Cost Savings Act (the Act), 15 U.S.C.

2001 *et seq.* The Act provides for the establishment of average fuel economy standards applicable to the manufacturers of passenger automobiles beginning with the 1978 model year and light trucks and vans beginning with the 1979 model year.

The average fuel economy standards do not require that individual vehicles achieve a particular level of fuel economy. Instead, they require that the fleet or corporate average of a manufacturer achieve the levels in the standards. Thus, a manufacturer may produce vehicles with fuel economy less than that specified for a particular year as long as it produces a sufficient number with fuel economy above the standard so that the average of all of its vehicles for that year is equal to or greater than the standard. The rationale for Congress' specifying average standards instead of the minimum performance standards used in most regulatory programs was in part to give the manufacturers flexibility in devising their compliance strategies. Specification of average standards was also intended to enable the agency to affect model mix in setting fuel economy standards while avoiding any undue limitation of consumer choice as to vehicle capacity and performance.

Section 502 of the Act establishes passenger automobile standards of 18 mpg, 19 mpg, and 20 mpg for model years 1978-1980, respectively, and 27.5 mpg for model year 1985 and thereafter. The earlier standards were largely based on the 1974 study by the Department of Transportation and Environmental Protection Agency on the potential for improving automotive fuel economy. Pursuant to a Congressional directive to set maximum feasible standards for model years 1981-1984 that result in steady progress toward the 1985 standard, the Department set standards of 22 mpg, 24 mpg, 26 mpg, and 27 mpg for model years 1981-1984, respectively. Section 502 provides that in determining maximum feasible levels of fuel economy the agency is to consider technological feasibility, economic practicability, the effects of Federal vehicle emissions, safety, damageability and noise standards on fuel economy, and the national need to conserve energy. The agency is authorized to modify the standard of 27.5 mpg for model year 1985 and thereafter if it finds that the maximum feasible standard is higher or lower than that level. As to light trucks and vans, the agency has thus far set fuel economy standards for 1979-1981 vehicles in those categories.

Not later than January 15 of each year, the agency is required to provide Congress with a report reviewing the fuel economy standards. The annual report due January 15, 1979, is a special report in that it is required to include a comprehensive analysis of the entire fuel economy program. The 1979 report must assess the ability of the vehicle manufacturers to comply with the standard of 27.5 mpg for 1985 passenger automobiles. It must also transmit any proposals it has for legislative amendments to improve the fuel economy program.

The purpose of this notice is to invite public comment on the subject of the 1979 report to aid the agency in making recommendations to the Congress. The agency is vitally interested in improving its ability to achieve the goals of the automotive fuel economy program while minimizing the burdens and giving appropriate consideration to the possible economic and other implications of significant increases in automotive industry investment. The agency is examining such matters as the degree of success of the fuel economy program in conserving petroleum to date, the future contributions which the program can make to energy conservation, and the past and possible future impacts of the program on the automotive industry, the consumer, and the national economy.

The issues of primary interest to the agency are the fuel economy levels achievable in 1985 and thereafter and the economic consequences of applying a single average fuel economy standard to all manufacturers. The agency has determined that this application of average standards has the potential for affecting the various different size manufacturers in disparate and possibly unintended ways. These differing impacts could affect the rate and degree of future progress of the automotive fuel economy program and the costs of that progress.

The 1979 report will not set forth any final conclusions about the passenger automobile fuel economy standard levels for 1985. The agency could reach those conclusions only after making detailed analyses of the plans and capabilities of the manufacturers and making judgments about the complex technological, economic, and other issues in the context of a rulemaking proceeding. However, based upon the agency's analysis to date of the significant body of information provided over the past three years by the manufacturers and other members of the public and generated by the agency's own research, the agency is prepared to make the following four tentative conclusions.

1. The technology is available that will enable manufacturers to achieve an average fuel economy of 27.5 mpg by 1985 without reducing vehicle interior space or significantly affecting performance and without significantly changing the mix of size classes.

2. The significant changes in automotive design needed to achieve 27.5 mpg by 1985 will require increases in automotive industry investment above traditional levels, although such investments, for the industry as a whole are economically practicable and yield cost-effective improvements in fuel economy.

3. The economic and competitive effects of achieving that average fuel economy level will vary from manufacturer to manufacturer.

4. Beyond 1985, average fuel economy levels in excess of 27.5 mpg are technologically possible.

In connection with the agency's interest in the effects of the average fuel economy concept and with these tentative conclusions, the agency invites comments on the four issues below relating to competition, equity, technological innovation, and other matters.

I. THE PROGRAM'S IMPACT ON SMALL FUEL LINE MANUFACTURERS

The large full line manufacturers are better able than the small full line manufacturers to generate internally the capital necessary to comply with the 1985 standard. These small full line manufacturers are at a competitive disadvantage since they are more likely to need to raise capital externally in the high cost money market. The highly concentrated nature of the automotive industry in this country increases the significance of this situation. Are these problems and their effect on future fuel economy standards sufficiently significant that the Act should be modified to accommodate the small full line manufacturers by treating them differently from the full line ones? Is it more equitable to require these small full line manufacturers to meet the same standards as the full line manufacturers or to require them to make the same degree of effort relative to their capacities as those full line manufacturers? If modification should be made, what type is most desirable? What impact would such modification have on the future benefits, costs, and other impacts of the fuel economy program?

II. THE PROGRAM'S IMPACT ON LIMITED LINE MANUFACTURERS

Although many foreign manufacturers produce small passenger automobiles that are very fuel efficient, there are some limited line foreign manufacturers that have traditionally built slightly larger, less fuel efficient passenger automobiles. These limited line manufacturers, which include Saab, Mercedes Benz, Volvo, Peugeot, and BMW, typically import relatively small numbers of these vehicles. While the agency is prepared to conclude tentatively that they can meet the

1985 standard of 27.5 mpg, some of the

previously been disclosed or otherwise

ments on the petition of General Motors Corp. described above. Com-

door sedans (Model 242), 4-door sedans (Models 244 and 264) and station

compromise submitted pursuant to the provisions of the Federal Alcohol Ad-

1985 standard of 27.5 mpg, some of the major changes that they must make for that purpose may not be deemed by those manufacturers to be either justifiable solely to enable their vehicles to be marketed in this country or consistent with the preferences of the segment of the market in this country to which they have traditionally attempted to appeal. At some point, not necessarily before or during 1985, the effect of the fuel economy standards could be to cause these manufacturers to withdraw from the United States market or to necessitate their changing their vehicle line significantly. In the interest of preventing further concentration of the automotive industry and of preserving the presence in this country of manufacturers which in some cases have contributed valuable research and innovations in safety and other areas, should the statute be modified to accommodate them by treating them differently from other manufacturers? Is it more equitable to require these limited line manufacturers to meet the same standards as the other manufacturers or to require them to make the same degree of effort relative to their capabilities as those other manufacturers? If modification should be made, what type is most desirable? What impact would such modification have on the future benefits, costs, and other impacts of the fuel economy program?

III. The Program's Impact on Very Small Manufacturers

The Act permits low volume manufacturers (under 10,000 passenger automobiles produced annually worldwide) to apply for an exemption from the generally applicable fuel economy standards and meet lower, alternative standards. While setting alternative standards for exempted manufacturers instead of granting them complete exemptions seems equitable, it results in very small fuel savings due to the almost miniscule combined total production of the low volume manufacturers. Does equity require the continued setting of those standards given such small savings? Is the setting of alternative standards a sufficiently productive activity to warrant continued expenditure of Federal resources for that purpose and the imposition of significant administrative burdens on the low volume manufacturers? Conversely, some commenters in rulemaking proceedings to exempt certain low volume manufacturers have suggested that the agency use its discretionary authority to require those low volume manufacturers selling very expensive vehicles to meet the generally applicable fuel economy standards. How should such low volume manufacturers be treated under the fuel economy program?

IV. Improving Fuel Economy After 1985

Based upon the information available to NHTSA, the technology is already available to achieve the 1985 statutory standard of 27.5 mpg. It is also clear that there are no technological impediments to further significant fuel economy improvements in the years after 1985. What is not yet clear, however, is precisely what measures will be necessary to achieve these further gains, at that pace they can reasonably be implemented, what they will cost, and what their impact will be upon the vehicle manufacturers and suppliers. The agency is seeking public comment on these questions and, in their light, on the nature and timing of regulatory actions appropriate through the mid-1990's.

NHTSA also seeks public comment about what other governmental actions should be undertaken to ensure that new technology becomes available to permit continuing significant fuel economy improvements into the 1990's.

Interested persons are invited to submit comments on the issues raised by this notice. It is requested but not required that 10 copies be submitted.

All comments must be limited not to exceed 15 pages in length. Necessary attachments may be appended to these submissions without regard to the 15 page limit. This limitation is intended to encourage commenters to detail their primary arguments in a succinct and concise fashion.

If a commenter wishes to submit certain information under a claim of confidentiality, three copies of the complete submission, including purportedly confidential information should be submitted to the Chief Counsel, NHTSA, at the address given above, and seven copies from which the purportedly confidential information has been deleted should be submitted to the Docket Section. Any claim of confidentiality must be supported by a statement demonstrating that the information falls within 5 U.S.C. section 552(b)(4), and that disclosure of the information would result in significant competitive damage; specifying the period during which the information must be withheld to avoid that damage; and showing that earlier disclosure would result in that damage. In addition, the commenter or, in the case of a corporation, a responsible corporate official authorized to speak for the corporation must certify in writing that each item for which confidential treatment is requested is in fact confidential within the meaning of section 552(b)(4), and that a diligent search has been conducted by the commenter or its employees to assure that none of the specified items has previously been disclosed or otherwise become available to the public.

All comments received before the close of business on the comment closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comment filed after the closing date will also be considered. However, the agency's ability to consider late comments will be severely limited by the deadline for submitting the 1979 report.

Issued on November 20, 1978.

MICHAEL M. FINKELSTEIN,
Associate Administrator for Rulemaking.

[Docket No. IP78-9; Notice 1]

GENERAL MOTORS CORP.

Petition for Exemption From Notice and Remedy for Inconsequential Noncompliance

General Motors Corp. of Warren, Michigan ("GM" herein) has petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motors Vehicle Safety Act (15 U.S.C. 1381 et seq.) for an apparent noncompliance with 49 CFR 571.208, Motor Vehicle Safety Standard No. 208, *Occupant Crash Protection*, on the basis that it is inconsequential as it relates to motor vehicle safety.

This notice of receipt of a petition is published under section 157 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1417) and does not represent any agency decision or other exercise of judgment concerning the merits of the position.

Pursuant to paragraph S4.1.2.3.1 of Motor Vehicle Safety Standard No. 208, GM manufactures passenger cars with seat belt assemblies that conform with the requirement of Motor Vehicle Safety Standard No. 209. It has discovered that belt assemblies used in 44 Chevrolet Impala and Caprice vehicles manufactured in early April 1978 contain belts that do not comply with S4.1(k) of Standard No. 209 in that they are incorrectly marked as having been manufactured in 1977 when, in fact, they were manufactured in 1978. GM argues that this noncompliance is inconsequential as it relates to motor vehicle safety as it has no effect upon any aspect of performance of the seat belt assembly, and that in the event of a recall of seat belt assemblies, GM's records enable it to identify the 44 vehicles which contain the incorrectly labeled belts.

Interesed persons are invited to submit written data, views and arguments on the petition of General Motors Corp. described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice will be published in the FEDERAL REGISTER pursuant to the authority indicated below.

Comment closing date: December 27, 1978.

(Sec. 102, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on November 20, 1978.

MICHAEL M. FINKELSTEIN,
Associate Administrator for Rulemaking.

National Highway Traffic Safety Administration

[Docket No. IP78-4; Notice 2]

VOLVO OF AMERICA

Grant of Petition for Determination of Inconsequential Noncompliance

This notice grants the petition by Volvo of America Corp. of Rockleigh, N.J., ("Volvo" herein) to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 et seq.) for an apparent noncompliance with 49 CFR 571.110, Motor Vehicle Safety Standard No. 110, *Tire Selection and Rims for Passenger Cars*, on the basis that it is inconsequential as it related to motor vehicle safety.

Notice of the petition was published on May 11, 1978, and an opportunity afforded for comment (43 FR 20292).

Paragraph S4.3(b) of Standard No. 110 requires that the information on the placard affixed to the glove compartment door or other equally accessible location include the designated seating capacity of the vehicle expressed in terms of total numbers of occupants and in terms of occupants for each seat location. Volvo has discovered that the placards installed on 17,780 passenger cars for 1978 lack this information. The vehicles include 2-door sedans (Model 242), 4-door sedans (Models 244 and 264) and station wagons (Models 245 and 265). Volvo argued that the noncompliance is inconsequential as the total number of disignated seating positions in each model is five (two front and three rear) and the configuration of the vehicles is such that extra passengers cannot be added to overload the vehicle.

One comment was received on the petition, from an individual who opposed it on the grounds that Volvo should not be permitted to eliminate the costs associated with compliance.

The NHTSA hereby grants Volvo's petition, concurring with the manufacturer's argument that the physical limitation of the vehicles involved preclude the addition of a third adult passenger on the front seat. This means that the acutal seating capacity for each vehicle is five, easily determined by visual examination (two in the front seat, three in the rear seat) and the failure to provide this information is deemed inconsequential as it relates to motor vehicle safety.

(Sec. 102, Pub. 93-492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 401.8.)

Issued on November 20 1978.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

[Notice No. 79-1; Reference: ATF 0 1100.63B]

ACCEPTANCE OR REJECTION OF OFFERS IN COMPROMISE

Delegation Order

1. *Purpose.* This order delegates the authority to accept or reject certain offers in compromise of liabilities incurred under Chapters 51, 52, 53 and 78 of the Internal Revenue Code, and of liabilities incurred under the Federal Alcohol Administration Act.

2. *Cancellation.* ATF 0 1100.63A, Delegation Order—Acceptance or Rejection of Offers in Compromise, dated April 29, 1977, (42 FR 22968 (1977)) is canceled.

3. *General.* Authority to accept or reject offers in compromise of liabilities arising under Chapters 51, 52, and 53 and sections 7652 and 7653 (Chapter 78) of Title 26 U.S.C., is vested in Director, Bureau of Alcohol, Tobacco and Firearms, by Treasury Department Order No. 221, dated June 6, 1972, and by 26 CFR 301.7122.1. The authority to accept or reject offers in compromise submitted pursuant to the provisions of the Federal Alcohol Administration Act is vested in the Director by Treasury Department Order No. 221, dated June 6, 1972.

4. *Delegations.* Pursuant to the authority vested in the Director of ATF by Treasury Department Order No. 221, subject to the limitations contained in applicable regulations and procedures, there is hereby delegated the following authority relating to offers in compromise of liabilities arising under Chapters 51, 52, 53, and 78 of Title 26 U.S.C., and of liabilities arising under the Federal Alcohol Administration Act.

a. *Regional Regulatory Administrators.* (1) Each regional regulatory administrator is authorized to accept or reject offers in compromise of tax liabilities and penalties arising from:

(a) Chapter 51, Title 26, U.S.C., as follows:

1. Illegal production of untaxpaid distilled spirits, wines, or beer.

2. Failure to file returns of, or to pay, occupational taxes with respect to distilled spirits, wines, or beer.

(b) Chapter 53, Title 26, U.S.C. (Failure to pay firearms making, transfer, and occupational taxes).

(2) Each regional regulatory administrator is authorized to accept or reject offers in compromise of criminal liabilities of retail dealers in liquor arising from violations of the Internal Revenue laws relating to liquor, including the refilling or reuse of liquor bottles.

(3) This authority may not be redelegated.

b. *Assistant Director, Regulatory Enforcement.* (1) The Assistant Director (Regulatory Enforcement) is authorized to accept or reject offers in compromise of all civil and criminal liabilities arising under Chapter 52 of the Internal Revenue Code (cigars, cigarettes, and cigarette papers and tubes).

(2) The Assistant Director (Regulatory Enforcement) is authorized to accept or reject offers in compromise of civil and criminal liabilities in cases under Chapters 51 and 53 which are not subject to compromise by regional regulatory administrators. This authority includes cases where singular offers are submitted by or on behalf of proprietors having multiple plants or operations where the liabilities to be compromised arise from operations conducted in two or more regions. It also includes cases which combine liabilities arising under Chapter 51 and the FAA Act. With respect to civil liability, the authority to accept or reject such offers in compromise is limited to cases in which the liability sought to be compromised (including any interest, additional amount, addition to the tax, or assessable penalty) is less than $100,000.

(3) The Assistant Director (Regula-

dustry in the United States, within the

unrelated purchasers in the United

as required by § 153.10 of the Customs

ed-average margin of all sales consid-

[8320-01-M]

[4810-22-M]

Office of the Secretary

STEEL WIRE ROPE FROM THE REPUBLIC OF KOREA

Antidumping; Determination of Sales at not Less Than Fair Value

AGENCY: United States Treasury Department.

ACTION: Determination of Sales at Not Less than Fair Value.

SUMMARY: This notice is to advise the public that an antidumping investigation has resulted in a determination that steel wire rope from the Republic of Korea is not being, nor is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921. Sales at less than fair value generally occur when the price of the merchandise sold for exportation to the United States is less than the price of such or similar merchandise sold in the home market or to third countries.

EFFECTIVE DATE: November 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Leon McNeill, Operations Officer, Duty Assessment Division, United States Customs Service, 1301 Constitution Avenue, N.W., Washington, D.C. 20229 (202-566-5492).

SUPPLEMENTAL INFORMATION: Information was received in proper form on September 27, 1977, from counsel acting on behalf of Broderick and Bascom Rope Co. of St. Louis, Missouri, alleging that steel wire rope from the Republic of Korea was being sold in the United States at less than fair value, thereby causing injury to, or the likelihood of injury to, an industry in the United States, within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 *et seq.*) (referred to in this notice as "the Act"). On the basis of this information and subsequent preliminary investigation by the Customs Service, an "Antidumping Proceeding Notice" was published in the FEDERAL REGISTER of November 1, 1977 (42 FR 57202).

During the course of the investigation, the Secretary determined that a tentative determination could not be made within the normal 6-month investigatory period. Accordingly, the investigatory period in this case was extended two times by notices published in the FEDERAL REGISTER of May 3, 1978 (43 FR 19095) and June 8, 1978 (43 FR 24934), respectively. A "Notice of Tentative Determination of Sales at Not less Than Fair Value" was published in the FEDERAL REGISTER of August 15, 1978 (43 FR 36155). A statement of reasons was published in the above-mentioned notice and interested persons were afforded an opportunity to present views. The views so presented have been considered in making this final determination.

For purposes of this notice, the term "steel wire rope" means ropes, cables and cordage other than wire strand, of steel, other than brass plated, not fitted with fittings, not made up into articles, and not covered with textiles or other nonmetallic materials.

DETERMINATION OF SALES AT NOT LESS THAN FAIR VALUE

On the basis of information developed in the Customs investigation and for the reasons noted below, pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), I hereby determine that the purchase price of steel wire rope from the Republic of Korea is not, nor is likely to be, less than fair value of such or similar merchandise.

Statement of Reasons on Which This Determination is Based. The reasons and bases for the above determination are as follows:

a. *Scope of the Investigation.* It appears that virtually all imports of the subject merchandise from the Republic of Korea were manufactured by Korean Iron and Steel Works, Ltd., Bookook Steel and Wire Co., Ltd., and Dong-Il Steel Manufacturing Co., Ltd. Therefore, the investigation was limited to these three manufacturers.

b. *Basis of Comparison.* For the purpose of considering whether the merchandise is being, or is likely to be, sold at less than fair value within the meaning of the Act, the proper basis of comparison is between purchase price and the home market price of such or similar merchandise purchase price, as defined in section 203 of the Act (19 U.S.C. 162), was used since the export sales compared were made to unrelated purchasers in the United States. Home market price, as defined in § 153.2, Customs Regulations (19 CFR 153.2), was used since such or similar merchandise was sold in the home market in sufficient quantities to provide a basis of comparison for fair value purposes.

In accordance with § 153.31(b), Customs Regulations (19 CFR 153.31(b), pricing information was obtained concerning sales in the home market and to the United States during the period May 1 through October 31, 1977.

c. *Purchase Price.* For purpose of this determination, purchase price has been calculated on the basis of the c.i.f. packed price to unrelated U.S. purchasers, with deductions for ocean freight, marine insurance, inland freight, brokerage, stevedorage, and wharfage charges, as appropriate.

Additions were made, where appropriate, for the amount of the business tax imposed on home market sales, which tax was not imposed on export sales. Additions were also made for a Korean defense surtax and a customs duty imposed on raw material imported into Korea, in accordance with section 203 of the Act (19 U.S.C. 162). The Customs duty and the surtax were both rebated upon exportation of the wire rope containing these imported components.

Additions were also made for cost savings achieved on an "import deposits" program. For each shipment of raw materials imported into Korea for the production of steel wire rope, an amount referred to as an import deposit is placed in the Central Bank. The deposit required for materials used in exports is lower than that for materials used in producing the same product for sale in the home market. The deposit requirement has the same effect as a duty or tax. Consequently, the interest savings on the exported merchandise has been added in accordance with section 203 of the Act (19 U.S.C. 162).

d. *Home Market Price.* For purposes of this determination, the home market price has been calculated on the basis of delivered packed prices to unrelated customers in the home market. Adjustments have been made for freight and for interest and packing cost differentials, as appropriate. A claim made by respondents for an adjustment for differences in warehousing inventory costs in the home market was not allowed because the costs related to presale expenses and not after-sale expenses. In the past, the Department has disallowed claims for warehousing costs which are incurred prior to the sale of the merchandise because such costs are viewed as overhead expenses not directly related to the sales under consideration, as required by § 153.10 of the Customs Regulations (19 CFR 153.10).

The petition contained an allegation that sales of the subject merchandise in the home market, or to third countries, are being made at less than the cost of producing the merchandise, within the meaning of section 205(b) of the Act (19 U.S.C. 164(b)). Information submitted by respondents was inadequate for resolving the issue of sales below cost for purposes of the tentative determination. Additional costs information requested of the respondents has been received and analyzed. The analysis revealed that no sales in the home market were made below the cost of production.

The following claims were made by the petitioner:

First it argued that sales in the home market by each of the manufacturers should be disregarded because of their lack of sufficiency. However, Customs found that each manufacturer's sales to the appropriate level of trade in the home market constituted more than 10 percent of sales to countries other than the United States. Sales in the home market of that magnitude have repeatedly been considered by Treasury as sufficient to represent a viable home market. In fact, with respect to two of the three manufacturers investigated, sales in the home market accounted for more than 25 percent of each manufacturer's sales to third countries. Under section 205 of the Act, home market prices are to be preferred in establishing "foreign market value" and § 153.2 of the Customs Regulations (19 CFR 153.2) expresses the same preference for fair value determination if a viable home market can, in fact, be found.

Second, petitioner argued that no sales below cost of production might be found because the wire rope makers may be buying wire rod, used in the production of steel wire rope, at below the cost of making the rod. However, as the wire rod producers are not related to the wire rope makers and Treasury has no reason to believe the purchase of rod was not on an arm's length basis, the Department cannot consider the possible below-cost purchase of the rod under the Act as presently drafted.

Third, petitioner argued that Treasury was in error in characterizing the sales below fair value as *de minimis*, when in the case of one manufacturer a margin of 45 percent was found on one sale investigated. However, Treasury has always calculated margins in relation to total sales during the period of investigation. This is appropriate in light of the broad economic purposes of the Act, so that a finding either that margins do exist or those that are found are *de minimis* or minimal should be based upon the weighted-average margin of all sales considered. A single sale made at a large margin should not prevent a ruling that the margins found were *de minimis*, when the margins related to all sales are clearly in a *de minimis* amount.

Finally, petitioner contended that Treasury erred in making adjustments to purchase price for rebates of a defense surtax, customs duties and an import deposit scheme, all of which are related to imported raw materials used in the production of the exported steel wire rope. However, Treasury's practice of making additions to purchase price for the amount of these items is well established. This is fully consistent with the treatment of such items under the countervailing duty law under which the rebate of such items is not treated as a bounty to assist exportation. Similarly, the rebate of such items by the government of the exporting country shall not be "defeated" by the imposition of a dumping duty. Additions to purchase price for these same factors were made in several recent antidumping investigations involving the Republic of Korea (see Sacharrin, "Determination of Sales at Less Than Fair Value" (42 FR 46091, September 14, 1977); and Monosodium Glutamate, "Determination of Sales at Not Less Than Fair Value" (42 FR 10084, February 18, 1977)).

e. *Results of Fair Value Comparisons.* Using the above criteria, comparisons were made on 77 percent of the sales of the subject merchandise to the United States during the representative period. In some instances, purchase price was less than the home market price of such or similar merchandise. Margins were found ranging from less than one percent to approximately 45 percent on 2 percent of the sales to the United States during the representative period. However, the weighted-average margins, when calculated over 100 percent of the merchandise compared for each manufacturer, amounted to 0.27 percent for Bookook, 0.06 percent for Dong-Il, and 0.08 percent for Korean Iron and Steel. Those margins are considered to be *de minimis*.

This determination and the statement of reasons therefor are published pursuant to § 153.34(c) of the Customs Regulations (19 CFR 153.34(c)).

ROBERT H. MUNDHEIM,
General Counsel of the Treasury.

VETERANS ADMINISTRATION

HEALTH SERVICES RESEARCH AND DEVELOPMENT, MERIT REVIEW BOARD

Meeting

The Veterans Administration gives notice pursuant to Public Law 92-463 of a meeting of the Health Services Research and Development Merit Review Board, chartered on September 5, 1978. This meeting will convene in Room 817 of the Veterans Administration Central Office Building, 810 Vermont Avenue, NW, Washington, DC, on January 10, 1979 beginning at 3 p.m. and on January 11-12, 1979 beginning at 8:30 a.m. The purpose of the meeting is to review health services research and development applications for scientific and technical merit and to make recommendations to the Director, Health Services Research and Development Service (HSR&DS) regarding their funding.

The meeting will be open to the public (to the seating capacity of the room) at the start of the January 10th session in order to cover administrative matters and to discuss the general status of the program. During the closed sessions (beginning approximately one-half hour from the start of the January 10th session), the Board will be reviewing research and development applications relating to the delivery and organization of health services. This review involves the discussion, examination, reference to, and oral review of site visits, staff and consultant critiques of research protocols, and similar documents that necessitate the consideration of personnel qualifications and performance and the competence of individual investigators, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. Further, decisions recommended by the Board are strictly advisory in nature; other factors are considered in final funding decisions. Premature disclosure of Board recommendations would be likely to significantly frustrate implementation of final proposed actions. Thus, the closing is in accordance with provisions set forth in section 552b, subsections (c) (6) and (c) (9) (B), Title 5, United States Code and the determination of the Administrator of Veterans Affairs pursuant to section 10(d) of Public Law 92-463.

Due to the limited seating capacity of the room, those who plan to attend the open session should contact Ms. Shirley Garin, Staff Assistant for Merit Review (152B), Health Services Research and Development Service, Veterans Administration Central Office, 810 Vermont Avenue, NW, Washington, DC, 20420 (phone: 202-

389-3408) at least 5 days prior to the

on October 24, 1978, at 43 FR 49601.

INTERSTATE COMMERCE COMMISSION

[No. MC-C-3437 (Sub-No. 7)]

PETITION TO AMEND INTERPRETATION OF OPERATING RIGHTS AUTHORIZING SERVICE AT DESIGNATED AIRPORTS

AGENCY: Interstate Commerce Commission.

ACTION: Extension of time for filing public comments in this proceeding.

SUMMARY: This proceeding was instituted by a notice of filing of a petition seeking institution of a rulemaking published in the FEDERAL REGISTER on October 24, 1978, at 43 FR 49601. All interested persons were invited to file comments respecting the proposal on or before December 8, 1978.

One interested party has pointed out that it is difficult for it to evaluate the impact of the instant proposal which deals with exempt air terminal zones, inasmuch as the size of those zones is presently being considered by the Commission in No. MC-C-3437. Accordingly, in order to prepare their comments, the time for filing comments will be extended.

DATES: Comments regarding the petition should now be submitted to the Commission on or before February 1, 1979.

FOR FURTHER INFORMATION CONTACT:

Michael Erenberg, 202-375-7292.

By the Commission, Alan M. Fitzwater, Director, Office of Proceedings.

H. G. HOMME, Jr.,
Secretary.

7

NOVEMBER 22, 1978.

FEDERAL ENERGY REGULATORY COMMISSION.

TIME AND DATE: 10 a.m., November 29, 1978.

PLACE: 825 North Capitol Street NE., Washington, D.C., Room 9306.

STATUS: Open.

MATTERS TO BE CONSIDERED: Agenda.

NOTE.—Items listed on the agenda may be deleted without further notice.

CONTACT PERSON FOR MORE INFORMATION:

Kenneth F. Plumb, Secretary, telephone 202-275-4166.

This is a list of matters to be considered by the Commission. It does not include a listing of all papers relevant to the items on the agenda. However, all public documents may be examined in the Office of Public Information.

GAS AGENDA—209TH MEETING, NOVEMBER 29, 1978, REGULAR MEETING (10 a.m.)

CAG-1. Docket No. RP72-157 (PGA Nos. 79-1, 79-1a; 79-1b, 79-2, and 79-2a), Consolidated Gas Supply Corp.
CAG-2. Docket No. RP72-157 (PGA78-12), Consolidated Gas Supply Corp.
CAG-3. Docket No. RP76-31, Louisiana-Nevada Transit Co.
CAG-4. Docket No. RP74-50-1, et al., Florida Gas Transmission Co. (Basic Magnesia, Inc., et al.)
CAG-5. FERC Gas Rate Schedules Nos. 222, 223, and 225, Pennzoil Producing Co.
CAG-6. Docket No. G-13788, Pennzoil Producing Co.
CAG-7. Docket Nos. CS78-446, Field Drilling Co. CS73-603, Andover Oil Co., et al. CS73-605, George B. Kaiser. CS73-645, Brunson & McKnight, Inc. CS74-164, Champlin Exploration, Inc., 1973 Drilling Partnership. CS73-511, Champlin Exploration, Inc., 1972 Oil & Gas Partnership. CS73-528, Carl M. Archer. CS73-603, Andover Oil Co. CS75-144, Greenbriar Operating Co. CS73-96, Jane H. Gingsby. CS73-515, S. H. Killingsworth. CS75-249, J. G. Stone. CS75-227, B. W. Whittington. CS72-1169, et al., Bobby Joe Manziel, et al. CS78-184, et al., F. H. N., Ltd., et al. CS78-409, The Boston Co. of Texas. CS78-401, United Co., et al. CI78-246, Texaco, Inc. CI78-302, Texaco, Inc. CI78-471, Texaco, Inc. CI78-480, Texaco, Inc. CI78-482, Texaco, Inc. CI77-819, Southland Royalty Co. CI78-391, Tenneco Oil Co. CS77-339, Tenneco Oil Co. CI78-1171, Stephens Production Co. G-7670, Southern Union Gathering Co. CI77-250, Pioneer Production Co. CI75-722, Pioneer Production Co. CI78-105, Phillips Petroleum Co. CI78-1185, Mesa Petroleum Co. CI78-748, Mesa Petroleum Co. CI78-1112, Marathon Oil Co. CI78-984, Marathon Oil Co. CI78-370, Exxon Corp. CI78-55, Exxon Corp. CI77-520, Exxon Corp. CI78-1174, Energy Reserves Group, Inc. G-5766, Continental Oil Co. G-7223, Chevron USA. CI78-394, Amoco Production Co. CP78-33, Amoco Production Co. CI76-691, Amoco Production Co. G-7535, Amoco Production Co.
RP-1. Docket No. RP79-7. Southern Natural Gas Co.
RP-2. Docket No. RP79-8, Kansas-Nebraska Natural Gas Co., Inc.
RP-3. Docket Nos. RP-78-58 and RP76-53, et al., South Texas Natural Gas Gathering Co.
M-1. Docket No. RM78-12, Incentive Rate of Return for the Alaska Natural Gas Transportation System.
M-2. Docket No. RM79- , Treatment of certain production related costs for gas to be transported through the Alaska Natural Gas Transportation System.

POWER AGENDA—209TH MEETING, NOVEMBER 29, 1978, REGULAR MEETING

CAP-1. Docket No. ES78-36, Gulf States Utilities Co.
ER-1. Docket No. EL78-20, Central Kansas Power Co.
ER-2. Docket No. ER77-533, Louisiana Power & Light Co.
ER-3. Docket No. ER79-44, Florida Power & Light Co.
P-1. Project No. 2800, Lawrence Hydroelectric Associates.

KENNETH F. PLUMB,
Secretary.

10

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM.

TIME AND DATE: 10 a.m., Wednesday, November 29, 1978. The closed portion of the meeting will commence at the conclusion of the open discussion.

PLACE: 20th Street and Constitution Avenue NW., Washington, D.C. 20551.

STATUS: Part of the meeting will be open; part will be closed.

MATTERS TO BE CONSIDERED:

Open portion:

SUMMARY AGENDA

Because of their routine nature, no substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board requests that an item be moved to the discussion agenda.

1. Proposed revision and extension of the Domestic Bank Holding Company Annual Report (F.R. Y-6).
2. Proposed revision to the Financial Supplement to the Bank Holding Company Annual Report (F.R. Y-6S).
3. Proposed revision to the Report of Intercompany Transactions and Balances (F.R. Y-8).
4. Proposed amendment to Regulation BB (the Community Reinvestment Act) to implement a portion of the Financial Institutions Regulatory and Interest Rate Control Act relating to financial institutions that serve predominantly military personnel.

DISCUSSION AGENDA

1. Request by members of Congress for a moratorium on applications by bank holding companies to engage in or expand insurance agency activities.
2. Any agenda items carried forward from a previously announced meeting.

NOTE.—The open portion of this meeting will be recorded for the benefit of those unable to attend. Cassettes will be available for listening in the Board's Freedom of Information Office, and copies may be ordered for $5 per cassette by calling 202-452-3684 or by writing to:

Closed portion:

1. Personnel actions (appointments, promotions, assignments, reassignments, and salary actions) involving individual Federal Reserve System employees.
2. Any agenda items carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION:

Mr. Joseph R. Coyne, Assistant to the Board, 202-452-3204.

Dated: November 21, 1978.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

12

FEDERAL TRADE COMMISSION.

TIME AND DATE: 10 a.m., Tuesday, November 21, 1978.

PLACE: Room 432, Federal Trade Commission Building, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

NONADJUDICATIVE MATTERS

1. Approval of minutes on nonadjudicative matters considered at meeting of November 1, 1978.
2. Consideration of initiation of investigation of the proposed merger of LTV Corp. and Lykes Corp.
3. Consideration of proposed injunction and complaint in a nonpublic Part II matter.

ADJUDICATIVE MATTER UNDER PART 3 OF THE RULES OF PRACTICE

Approval of minutes on adjudicative matter considered at meeting of October 4, 1978.

LEGAL SERVICES CORPORATION (Board of Directors Meeting):

TIME AND DATE: 9 a.m., Friday and Saturday, December 1-2, 1978.

PLACE: Marvin Center, George Washington University, 800 21st Street NW., Washington, D.C.

STATUS: Open meeting (meeting closed during lunch hour 12:30-1:30 p.m.) *

MATTERS TO BE CONSIDERED:

1. Adoption of agenda.
2. Approval of minutes of October 19-20, 1978 meeting.
3. Reports by committees:

COMMITTEE ON APPROPRIATIONS AND AUDIT

Status of the annual audit for fiscal year 1978;
Review of the preliminary consolidated operating budget for fiscal year 1979;
Review of the draft fiscal year 1980 budget request to the Congress; and
Report on the Financial Management Improvement Program.

COMMITTEE ON PROVISION OF LEGAL SERVICES

The delivery systems study;
The study required by section 1007(h); and
The Reginald Heber Smith program.
4. Reports by the President:
a. Activities of the Office of Field Services and the Regional Offices—Clinton Lyons.
b. Relations with the Private Bar—Harriet Ellis.
5. Future meeting dates.
6. Other business.

* The meeting will begin at 9 a.m. and adjourn at 5:30 p.m. The meeting will recess for lunch from 12:30 to 1:30 p.m. There will be a closed meeting at lunch on December 1, as authorized by 5 U.S.C. 552b(c)(2), that will relate solely to internal personnel matters of the Corporation.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

STATUS OF NATIVE SPECIES PROTECTED BY THE ENDANGERED SPECIES CONVENTION

[4310-55-M]

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 23]

STATUS OF NATIVE SPECIES PROTECTED BY THE ENDANGERED SPECIES CONVENTION

AGENCY: Fish and Wildlife Service.

ACTION: Proposed rule.

SUMMARY: Pursuant to recommendations made by Parties as a special working session of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (TIAS 8249) the Fish and Wildlife Service reviewed the species listed in Appendices I and II of the Convention that are native to the United States. Species were to be examined in terms of criteria adopted by the Parties at their first meeting in 1976. As a result of that review, the Fish and Wildlife Service has found that the status of 18 species should be changed. The Service proposes to transfer the alligator and five other species from Appendix I to Appendix II and the eastern U.S. population of the golden eagle and three other species from Appendix II to Appendix I. It also proposes to remove the Mexican duck from Appendix I and the bobcat and six other species from Appendix II. These proposals have been communicated to the Secretariat of the Convention for consideration at the next meeting of Party nations.

DATES: Comments or information on the proposals should be submitted to the Service by January 15, 1979. The proposed amendments will be considered by Party nations on March 19-31, 1979, and any that are adopted by the Parties will become effective 90 days after adoption.

ADDRESS: Please send correspondence to the Director, U.S. Fish and Wildlife Service, Federal Wildlife Permit Office, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

Dr. Richard L. Jachowski, Federal Wildlife Permit Office, U.S. Fish and Wildlife Service, Washington, D.C. 20240, telephone 703-235-2418.

SUPPLEMENTARY INFORMATION:

BACKGROUND

The Convention on International Trade in Endangered Species of Wild Fauna and Flora (T.I.A.S. 8249) is a treaty regulating the import, export and re-export of wildlife and plants. The species for which such trade is controlled are included in three appendices. Appendix I includes species threatened with extinction which are or may be affected by trade. Appendix II includes species which although not necessarily now threatened with extinction may become so unless trade in them is strictly controlled, and species which must be subject to regulation in order that trade in currently or potentially threatened species may be brought under effective control. Appendix III includes species which Party nations identify as being subject to regulation within their jurisdiction for the purpose of preventing or restricting exploitation, and as needing the cooperation of other Parties in the control of trade.

Participants in a Special Working Session held in 1977 in Geneva, Switzerland, recommended that Party nations review the species of wildlife in Appendices I and II that are native to their countries. Species were to be examined in terms of criteria adopted by the Parties at their first meeting in 1976. These criteria were included in the Services's proposed rule of March 22, 1978, on procedures for changing the appendices (43 FR 12349) and in a notice of May 3, 1978, concerning the species review (43 FR 19176).

The Convention requires that any Party seeking amendments to Appendix I or II at a meeting of the Parties must communicate its proposals to the Secretariat for the Convention at least 150 days before the meeting. The deadline for proposals to be considered at the next meeting was October 20, 1978. The Service has communicated the amendments in this proposed rule to the Secretariat for consideration at that meeting. Any information and comments received by the Service during the comment period will be used to evaluate the proposals and may alter the positions taken on them by the United States delegation at the meeting. It should be noted that the United States can withdraw any of its proposals at any time prior to action by the Parties. However, no proposal could have been considered unless it was submitted by October 20.

COMMENTS

The Service requested information on these native species through direct correspondence with individuals and state and foreign governments, notices in the FEDERAL REGISTER, and a public meeting. Space limitations prevent a discussion of the many comments received on individual species, but general comments are summarized below.

Much information, including several petitions, was supplied by state fish and wildlife agencies. A total of 42 states and Guam and Puerto Rico commented on the species included in this review, many of which are resident wildlife managed by the states. Generally, the states were concerned that Federal controls on importing and exporting resident wildlife would interfere with state management programs. They also were concerned that those species included in the appendices on the basis of little information could not be deleted without extensive (and expensive) scientific data, given the criteria adopted by the Parties.

Comments from 11 Federal agencies or offices, including those of the Service, were mainly directed toward particular species. Dr. Howard W. Campbell, Chief of the Gainesville Field Station, National Fish and Wildlife Laboratory, noted that in some nations, listing the crocodilians in Appendix II rather than Appendix I would offer an economic incentive for developing effective management programs. The Commissioner of the Bureau of Reclamation noted that native wildlife species that do not enter international trade should not be included in the appendices.

Although the present survey concerned only species of wildlife native to the United States, many of these species also occur in other countries. The Service received comments and information from 15 foreign nations on particular species included in this survey.

A total of 17 organizations representing the interests of wildlife protection, management and utilization commented on the review of native wildlife. The National Wildlife Federation urged that the current Appendix II listing of the bobcat, lynx and puma be used as a method of monitoring rather than as a mechanism to restrict trade. The Fur Takers of America asked that the current import and export restrictions on certain species be suspended until those species are deleted from Appendix II. Safari Club International urged that the appendices be limited to species actually in international trade, and that the Service strongly consider data submitted by state agencies on native species. The International Association of Fish and Wildlife Agencies criticized the criteria adopted by the Parties for deleting species from Appendix I and II, and said that they should not guide the Service's policy. It also emphasized the need to use objective criteria instead of political considerations in listing species.

Support for the retention of several species of particular interest on Appendix II, and for adherence to the criteria adopted in Bern, was expressed by the Defenders of Wildlife. The Florida Audubon Society, the Humane Society of the United States, and the Society for Animal Protective Legislation also stated the need to keep such species on Appendix II.

A total of 29 individuals offered comments and information on the present survey with respect to particular species, some of which are discussed later in this notice.

FINDINGS

The United States is one of many Parties conducting a survey of its native wildlife listed in Appendices I and II. Each Party is to examine species in terms of the criteria adopted in 1976 to ensure that the listings are based on a uniform interpretation of the appendices. Since the U.S. and other nations have agreed to conduct the survey in terms of these criteria, the Service finds that it would be improper to depart from them at this time.

In its advance notice in the FEDERAL REGISTER (43 FR 19176), the Service noted that certain native species now in Appendix I or II, if not presently listed, would not meet the criteria for addition, but that the strict criteria for deletion prevent their removal from the appendices. It has been argued that inclusion of such species dilutes the enforcement effort, weakens the credibility of the Convention, and unnecessarily restricts trade in certain species that are not currently or potentially threatened by international trade. On the other hand, it has been argued that their retention places little additional burden on the Parties, and that the best course is to retain such species until it is clear that removing present controls would not be detrimental to the survival of the species.

Because of its concern that only appropriate restrictions be placed on trade in wildlife and plants, and that the Convention serve as an effective instrument, the Service intends to seek a change in the criteria at the next meeting of the Parties. The Service plans to recommend that those species included in Appendix I and II before the criteria of 1976 were applied to such listings should be examined in terms of the criteria for addition, rather than the more rigorous ones for deletion. If such species do not meet the former criteria, the Service would recommend their deletion from the appendices.

Where appropriate, the Service will submit proposals consistent with the revised criteria for consideration by the mail procedure if the Parties adopt this recommended change. The Convention requires that proposed amendments be submitted at least 150 days in advance for consideration at a meeting. Therefore, proposals based on revised criteria will have to be considered after the next meeting.

Comments are invited on the proposed change in the criteria for amending the appendices. The Service would especially appreciate comments on the following issues:

(1) The inclusion of all member-species under the listing of a higher taxon, such as was done when all wild cats were included in the listing of the family Felidae in Appendix II;

(2) The deletion of species included in Appendix I or II if they are apparently extinct; and

(3) The use of standards for adding species to the appendices that differ from standards for their deletion.

In its preliminary notice (43 FR 19176), the Service discussed the possibility of annotating the list of species in the appendices to indicate those included because of actual or potential threat of extinction, those included for monitoring purposes, and those included to facilitate enforcement. The Fundamental Principles in Article II of the Convention make no provision for monitoring on a basis for listing species in the appendices. The origin of this concept was the provision in Article IV that trade in species already listed on Appendix II shall be monitored. Annotation would aid in readily determining the basis for listing species, but it would not eliminate or change the requirement of the Convention that certain findings must be made by Management and Scientific Authorities before import and export permits can be issued. The provisions of Articles III and IV of the Convention that control the granting of permits make no distinctions between those species included in an appendix for different reasons.

PROPOSALS TO AMEND THE APPENDICES

The Service has determined that the following native wildlife species should be reclassified in the Convention appendices, based on an examination of all available information in terms of the criteria adopted by the Parties in 1976.

(A) Proposal to delete a species from Appendix I.

Anas diazi (Mexican duck)—The original inclusion of this species in Appendix I was based on its listing as an Endangered species under U.S. law in 1967. It recently has been determined by ornithologists to be a subspecies of the mallard. There is a large zone of intergradation between the Mexican duck and other mallard subspecies from New Mexico to Durango, Mexico. The total population of all such intergrade ducks in May, 1978, was estimated at 5,000. Their population in the U.S. is expanding into Arizona and Texas, with no evidence of threats to its continued existence.

Apparently genotypically pure populations of *Anas platyrhynchos diazi* occur only in the central highlands of Mexico, where they are adapting to local agricultural practices and have no evident threats to their survival. An aerial survey prior to the nesting season in May and June, 1978, indicated that more than 55,000 birds were present.

The present proposal follows from the Service's recent determination in the FEDERAL REGISTER of July 25, 1978 (43 FR 32258) that the Mexican duck does not merit listing as an Endangered or Threatened species under the U.S. Endangered Species Act of 1973.

(B) Proposals to delete species from Appendix II.

(1) *Circus Cyaneus* (harrier or marsh hawk)—This species has a breeding range in the northern hemisphere that extends from temperate to sub-arctic regions. It is one of the most numerous hawks in North America, with a population in the 48 conterminous states of the U.S. estimated at 121,800 in 1975. The numbers that breed appear to fluctuate with abundance of their rodent prey in approximately 4-year cycles. The Service's Breeding Bird Survey indicates a national decline over the past 10 years, but fall migration counts show an upward population trend since 1972. The species is protected throughout North America, and is rarely kept for falconry or zoological exhibition. The presence of a large population and the absence of any significant utilization or trade in this species lead the Services to propose that the U.S. population of the harrier be deleted from Appendix II.

(2) *Cygnus buccinator* (trumpeter swan)—In the early 1900's this species had disappeared from almost all of its former range because of changes in land-use and because of hunting for sport and market. By 1932, there were only 69 trumpeter swans left in the 48 conterminous states. Following extensive conservation work, this population had increased to about 800 in 1968. There were also 2,800 in Alaska and additional uncensused numbers in Canada in 1968. Continuing efforts to conserve this species have led to a well-documented, stable or increasing population that is adequately protected and no longer not potentially threatened with extinction. International trade has no significant impact on the trumpeter swan.

(3) *Cyrtonyx montezumae mearnsi* (Mearn's quail)—This subspecies occurs in Arizona, New Mexico, Texas and Mexico. Population levels in Arizona are increasing, and support an annual harvest that averaged 37,400 birds per year between 1972 and 1976. Populations in Arizona attain densities of 85-135 bird per square kilometer, although densities of 10-15 birds per square kilometer are more common. mearn's quail is hunted for sport in the U.S. and Mexico, but there is no record of international trade. Population data are not available for Mexico. In view of the substantial U.S. popula-

monial purposes, and its major threats are pesticide contamination, unlawful

America, Mexico, Cuba, Jamaica, Hispanola, and Southern Florida. It is

Service is proposing that the U.S population of the goshawk be annotated

V 43 1 228 NOV 27 78

tions of this species, the management it receives from state agencies, and the absence of significant international trade, the Service proposes that it be deleted from Apendix II.

(4) *Falco sparverius* (kestrel or sparrow hawk)—This is the most common hawk in the U.S., and it is widely distributed throughout North and South America. The population in the 48 conterminous States of the U.S. was estimated to be over 300,000 birds in 1975. The kestrel is a popular bird for falconry in this country, but the annual take for this purpose was estimated at only 300 birds, or 0.1% of the U.S. population, in 1976. There is little, if any, international trade in this species. The Service therefore proposes that the kestrel be deleted from Appendix II.

(5) *Lynx rufus* (bobcat)—The original listing of the bobcat was done by including all wild species of the cat family in Appendix II, except for those species that were listed in Appendix I. There has been controversy about listing the bobcat, based on a difference between the views of many state fish and wildlife agencies that feel the species does not need Federal protection, and the views of persons and organizations that feel the fur harvest is a threat to the species. current estimates of bobcat populations, derived from the best available information, indicate there are from 750,000 to 1,000,000 animals in the U.S. The present geographic distribution of the bobcat generally corresponds with its historical range although bobcats have disappeared or become scarce in some parts of that range. Recent evidence of the bobcat's abundance, distribution and harvest, and of improved management by the states, indicates that it is not now potentially threatened with extinction by international trade. The Service therefore proposes that it be deleted from Appendix II.

(6) *Pandion haliaetus* (osprey)—This species occurs along seacoasts, rivers and lake shores in many parts of the world. The substantial populations in the U.S., which have been closely monitored, have declined until recent years. This decline was largely due to reproductive failure associated with pesticides. Present populations in the U.S. are slightly increasing, as evidenced by nesting surveys and fall migration counts. The U.S. populations of the osprey are not used for falconry or zoological exhibition, and do not enter into international trade for these or other purposes.

(7) *Tympanuchus cupido pinnatus* (greater prairie chicken)—This species was extremely abundant in the tallgrass prairie and oak-savannah vegetation of the central U.S. in the last century, but it became extirpated in parts of its range and greatly reduced elsewhere because of habitat changes due to agriculture. As of 1974, it was extirpated in Iowa, Ohio, Kentucky, and Arkansas; doing poorly in Illinois, Indiana, Michigan, Minnesota, Missouri and Wisconsin; and much-reduced from the pre-1900 level but producing sufficient surpluses for hunting in some areas of Kansas, Nebraska, Oklahoma and South Dakota. The total population is estimated to exceed 1,000,000 birds. Several states and organizations currently operate land acquisition and management programs for this species. There is no evidence of significant international trade, and the species is not potentially threatened with extinction under current management programs.

(C) Proposals to transfer species from Appendix I to Appendix II.

(1) *Acipenser oxyrhynchus* (Atlantic sturgeon)—This species has a long history of exploitation in the U.S. It virtually disappeared throughout its range by the beginning of this century because of overfishing, deterioration of water quality and damming of rivers. Commercial fishing for this species continues in several states, although it generally is a bycatch of fisheries directed at other species. The evidence of population status comes largely from catch records, but more detailed population surveys have been made in the Hudson River of New York and the St. John River of New Brunswick. It has been suggested that the sturgeon has been recovering in recent years on the Atlantic coast due to a reduction in the amount of appropriate fishing gear in use, or that it never was as rare as was generally thought. Current evidence indicates that this species is not now threatened with extinction but might become so if the factors that led to its decline are not strictly controlled.

(2) *Alligator mississippiensis* (American alligator)—The alligator was afforded Federal protection under the Endangered Species Act at a time when state efforts to control poaching were unsuccessful. The species now is well protected in every state where it occurs naturally. The result has been a rapid recovery to the point where there are harvestable surpluses in some areas and alligators have become a nuisance to human residents. Population surveys indicate the species had increased from all-time lows in the mid-1950's and early 1960's to an estimated 734,000 in 1974. Given a reported 46.8% population increase from 1970 to 1974, and vigorous protection by state and Federal governments, the species would be most appropriately included in Appendix II. The impact of this transfer, pending modification of the regulations under the Endangered Species Act, would be to allow a controlled harvest of wild alligators for the international market. Retention of the species in Appendix II would help ensure adequate Federal control to restrict exports to a level that is not detrimental to the survival of the species.

(3) *Enhydra lutris nereis* (southern sea otter)—This species originally occurred along 1,500 miles of coastline from the state of Washington to Baja California, but it was brought to near extinction by the fur trade in the late 1800's. It has been afforded state and federal protection since 1911, and has been slowly recovering since the rediscovery of a small group in California in 1938. The expanding California population, estimated at 1,800 to 1,900 individuals in 1976, now occupies 180 miles of coastline. Isolated, reintroduced populations also occur in Oregon and Washington. In view of the sea otter's growing population, the protection afforded by state and federal governments, and the unlikelihood of international trade in this subspecies in the foreseeable future, the Service proposes it transfer to Appendix II.

(4) *Falco peregrinus pealei* (Peale's peregrin falcon)—This subspecies of the peregrin, which occurs along the northwest coast of North America and in the Aleutian Island, has not experienced the marked decline in abundance that has been reported for the eastern peregrine (*Falco peregrinus anatum*). There has been little or no eggshell thinning or pesticide contamination, and the recorded population changes have been correlated with changing abundance of prey species. There is a strictly limited amount of utilization for falconry. However, the state of Alaska has only rarely, in recent years, allowed the taking of this subspecies for any reason. Recent surveys show it to be near the apparent carrying capacity of the study areas, with good reproductive success. Accordingly, the Service proposes that it be transferred to Appendix II.

(5) *Haliaeetus leucocephalus* (bald eagle)—There has been an accelerated decline in the abundance of this species in the 48 conterminous states of the U.S. since the mid-1940's. In 1972, there were an estimated 750 breeding pairs. By contrast, there were an estimated 7,000 to 7,500 breeding pairs in Alaska. The Alaskan population now appears stable, but much less is known about trends in its status than about such trends in the lower U.S. Significant breeding populations exist along the coast of Alaska from the Aleutian Islands southward. The largest concentration of wintering eagles is found in the Chilkat Valley of Alaska, where as many as 3,500 eagles have been observed. There is very little utilization of this species except for Indian cere-

monial purposes, and its major threats are pesticide contamination, unlawful shooting and habitat disturbance. In view of the comparatively healthy population and lack of significant trade in specimens, the Service proposes that the Alaskan population of the bald eagle be transferred to Appendix II.

(6) *Mirounga angustirostris* (northern elephant seal)—This species was brought to near extinction by commercial hunting, which reduced the population to probably less than 100 individuals in the late 1800's. The Mexican and U.S. governments granted the elephant seal protection and it has multiplied rapidly to reoccupy most of its former known range. The conditions for increase have been almost optimal and the growth curve approximates the lower part of the logistic curve. The current population is reliably estimated at 50,000 animals, an increase of 20,000 from the early 1960's. Considering this recovery under national protection, and the strict controls on taking of this species, the Service proposes that it be transferred to Appendix II.

(D) Proposals to transfer species from Appendix II to Appendix I.

(1) *Aquila chrysaetos* (golden eagle)—This species is widely distributed throughout the northern hemisphere, including Europe, Asia and North America. In North America, it is found from Alaska and Canada south to North Carolina and California. Surveys lead toa current estimate of 50,000 to 60,000 golden eagles in North America, with a stable or increasing population. However, the population in the eastern U.S. is down to about 10 breeding pairs. This population is threatened with extinction. Although it is protected under the Eagle Act of 1940, specimens might enter trade for falconry, egg collection or other purposes. Accordingly, the Service propose that the U.S. golden eagle population east of the Mississippi River be transferred to Appendix I.

(2) *Arctocephalus townsendi* (Guadalupe fur seal)—The last commercial harvest of this seal occurred on the islands of Southern California and Baja California in 1894. It was considered extinct during two periods (1895 to 1926 and 1928 to 1949). Under protection of the U.S. and Mexico, the population has expanded to about 1000 animals in 1977. Despite the current increase, this species remains vulnerable because of its very localized and accessible population, the high potential value of its fur, and the difficulty of protecting it adequately. Therefore, the Service proposes that it be transferred to Appendix I.

(3) *Crocodylus acutus* (American crocodile)—This species occurs in northwestern South America, Central America, Mexico, Cuba, Jamaica, Hispanola, and Southern Florida. It is becoming rare in most parts of its range, but there is little quantitative information on its status in many countries. The Florida population was estimated in 1976 to be only 200 to 400 individuals, with fewer than 25 breeding females. The Everglades National Park and Big Pine Key Refuge offer protection, but habitat destruction threatens to eliminate the crocodile elsewhere in Florida. The Service proposes that the geographically distinct population of the crocodile in Florida be transferred from Appendix II to Appendix I in accordance with its endangered status, and in view of the international trade in other populations of this species.

(4) *Gopherus flavomarginatus* (Bolson tortoise), largest terrestrial reptile in temperate North America, was first described as a distinct species in 1959. It occurs in basins of the North central Mexican plateau, and therefore is technically outside the scope of the Service's review of native U.S. wildlife. However, a recent study showed that the species is severely impacted by human predation for meat and eggs, by habitat destruction, and to a lesser extent by collection for museums, zoos and the pet trade. A few large populations numbering several thousand individuals may still exist, but it is likely they will be eliminated by the end of this century if destruction continues at the present rate. In view of the present threat of extinction, and the Mexican Government's position that this species belongs on Appendix I, the Service proposes that it be transferred to that appendix.

(E) Proposals to annotate species in Appendix II as being included in order to effectively control trade in other species.

(1) *Accipiter gentilis* (goshawk)—This northern hemisphere species occurs from the arctic tree-line to Mexico in North America. Northern populations have been described as high and stable, but there are no quantitative data. In the 48 conterminous states of the U.S., the 1974 winter population was estimated at 3,400 birds. This was the smallest population of any raptor except the peregrine falcon. Data from Breeding Bird Surveys, migration counts and Christmas Bird Counts show no statistically significant population trend from 1967 to 1974. However, eastern U.S. populations are about three time greater in 1967-1974 than in 1947-1966. In the lower 48 states, approximately 2.4% of the total goshawk population is taken annually for falconry. This is a larger fraction than is taken in any other species, although there is no indication that this taking is detrimental to the total population. The Service is proposing that the U.S population of the goshawk be annotated to indicate that it is included to effectively control trade in other species (including foreign populations of the goshawk). This proposal is based on evidence of a stable U.S. population and on the potential for trade in this species.

(2) *Aquila chrysaetos* (golden eagle)—The proposed transfer of the threatened eastern U.S. population of this species to Appendix I was discussed above. The population in the western U.S. is much larger. Accordingly to Christmas Bird Counts it has significantly decreased (16% per year) from 1967 to 1974, while the Breeding Bird Survey indicates it has significantly increase (18% per year) during the same period. Considering all available data, there has not been a significant change in abundance of the total U.S. population of the golden eagle between the periods of 1948-1966 and 1967-1974. Several hundred birds are killed each year for predator control in the western U.S., and a small number are taken for falconry or for indian ceremonial purposes. However, few specimens enter international trade. The Service proposes that the U.S. population of the golden eagle west of the Mississipps River be annotated in Appendix II to indicate that it is included to effectively control trade in other species (including foreign and eastern U.S. populations of the golden eagle).

(3) *Canis lupus* (gray wolf)—Although formerly distributed throughout much of the northern hemisphere, the wolf has been eliminated in large parts of its original range. There are now only about 550 wolves in the 48 conterminous states of the U.S., although much greater numbers occur in Canada and Alaska. Wolf numbers in Alaska have varied considerably, at least in some areas. During this century, their normal range has included about 85% of Alaska's 586,000 square mile area. Various surveys in different parts of Alaska and Canada have given estimates of one wolf per 10 to 200 square miles, with density depending mainly on food supply and harvest by man. Annual harvests of around 1,000 wolves approximate 10 to 15% of the statewide population according to the Alaska Department of Fish and Game. In Canada, the total population is estimated at 51,000 to 52,000, with an annual harvest of around 5,000 wolves. Under present conditions, there is evidence that the populations can sustain this rate of harvest. In view of the relatively secure status of the wolf in Alaska and Canada, the Service proposes that these populations of *Canis lupus in Appendix II be annotated to indicate that they are included to effectively control trade in other species*

(including other populations of the other species (including the Mexican Michigan, where only several thou-

(4-6) *Balaenoptera borealis* (sei whaling on gray whales and almost all

V 43 / 228 NOV 27 78 V

(including other populations of the gray wolf).

(4) *Felis concolor* (puma)—This species ranges from the southern Yukon to the southern tip of mainland Chile. Although extirpated in settled areas, it is still fairly common elsewhere. The total population in the U.S. was estimated in 1974 to be 8,700, with about the same number in Canada. The puma is classified and managed as a game animal in Canada and in eleven western states. Harvest figures for 1973 indicate that about 760 pumas were taken by hunters and predator control agents in the U.S. However, the eastern and Florida subspecies (*F.c. cougar* and *F.c. coryi*) are endangered and completely protected. The status of the puma in Central and South America is poorly known. Present knowledge of puma populations in the U.S. is insufficient to justify deletating the species from Appendix II under present cretieria. However, the existence of apparently stable populations under game management in the western states and Canada indicates that his species in the U.S. and Canada, except for the two endangered subspecies, should be annotated to indicate that it is included to effectively control trade in other species (particularly other populations or subspecies of *Felis concolor*).

(5) *Ovis canadensis* (bighorn sheep)—This sheep formerly had an estimated 1.5 to 2 million individuals distributed throughout the mountainous areas of western North America from Canada to northern Mexico. The estimated population in the U.S. in 1974 was 21,500 individuals, with another 11,000 in Canada and 4,600 in Mexico. This general decline has been attributed to habitat loss, competition with domestic and feral stock, formerly uncontrolled hunting and disease. There are six living subspecies of bighorns, of which *ovis canadensis canadensis* in Canada and the U.S. has the largest population (21,000) and *Ovis canadenis weemsi* in Mexico has the smallest population (2,000). The species is protected in Mexico and closely managed as a game animal by state wildlife agencies in the U.S. and by provincial wildlife agencies in Canada. Strict limits on hunting and reintroduction of bighorns into former habitats have led to stable or increasing populations in some areas. International trade in trophies is on a small scale compared to national utilization. The Government of Mexico has recommended Appendix II status for the species. In view of the bighorn's relatively secure status in the U.S. and Canada and its occurrence of international trade, the Service proposes that the U.S. and Canadian populations be annotated to indicate that they are included to effectively control trade in other species (including the Mexican population of bighorns).

(6) *Ursus arctos* (grizzly and brown bears)—The former range of this species extended over large areas of the northern hemisphere. In 1972, the world population was estimated to be 47,000 animals, including 26,000 in North America, 18,000 in Europe and 3,000 in Japan. In the 48 conterminous states of the U.S., the grizzly is threatened. However, large and stable populations occur in Canada and Alaska, where this species is carefully managed as a game species. The Alaska Department of Fish and Game estimated the state population in 1978 to be from 31,500 to 42,900 individuals, of which 2 to 3% are killed annually. About 10% of the bears shot in Alaska are exported as trophies by foreign hunters. In view of the healthy status of Alaskan and Canadian populations, and the need to protect other populations from potentially harmful trade, the Service proposes that the Alaskan and Canadian populations of *Ursus arctos* be annotated to indicate they are included in Appendix II to effectively control trade in other species (in this case, other populations of *U. arctos*).

DECISIONS NOT TO AMEND THE APPENDICES

The Service has determined that all other species of wildlife native to the United States currently included in Appendices I and II should not be reclassified, based on an examination of all available information in terms of the criteria adopted by the Parties in 1976. In some cases this determination has been easy, since the species appear to be appropriately listed in accordance with the Fundamental Principles in Article II of the Convention. However, in other cases this determination has been difficult because the species do not appear to need the protection of the Convention for their conservation, but the criteria for deletion adopted by the Parties cannot be met.

The Service's findings on certain of the native wildlife species not proposed for reclassification are discussed below in terms of the existing criteria.

(1) *Acipenser fulvescens* (lake sturgeon)—Although formerly common throughout its range in the upper Mississippi River, Great Lakes, Saskatchewan and Hudson's Bay drainages, this fish has suffered a great decline. Overfishing, water pollution, damming of rivers, destruction of spawning areas and deliberate destruction of fish to protect commercial fishing gear have led to reductions in both range and numbers of this species. Populations in the U.S. are now too low to reliably estimate except in the Lake Winnebago system in Wisconsin and the Menominee River in Wisconsin and Michigan, where only several thousand individuals occur. Wisconsin has a carefully controlled sport harvest of lake sturgeon, but commercial fishing is banned or highly restricted in most parts of the U.S. and Canada. There has been trade in this fish between these two countries, although it has declined in recent years. The widespread reduction in this species, the lack of reliable population data for nearly all populations, and the occurrence of trade indicate that the lake sturgeon should be retained in Appendix II.

(2) *Lutra candansis* (river otter)—Widely distributed in the U.S. and Canada, the otter continues to exist over much of its original range. It has been extirpated in Colorado, Indiana, Kentucky, Nebraska, North Dakota, and West Virginia. However, 24 States report a stable or increasing otter population. The information on which such reports are based is often qualitative, making it difficult to assess the actual abundance of the species in the U.S. The harvest of otters in the 1976–1977 trapping season was approximately 43,000 individuals, higher than the average harvest of the last five years. However, the harvest data are subject to changes in reporting methods and may not accurately reflect actual changes in kill. It has been estimated that 90 to 95 percent of the harvest is exported to Europe. There is insufficient evidence to demonstrate that otter populations can withstand the level of exploitation that would be experienced if current controls were removed. Such evidence is required by the criteria for deletion that were adopted by the Parties in 1976.

(3) *Lynx canadensis* (lynx)—The lynx occurs across an extensive portion of Alaska and Canada, and in small areas of the northern part of the 48 conterminous states of the U.S. There was a general decline in lynx populations from 1910 to 1954, followed by a marked increase. The major factor controlling abundance of this species appears to be its food supply, which typically has a ten-year cyclic fluctuation. Fur harvests fluctuate with lynx abundance, although they are also subject to other factors. There are no data on lynx numbers or densities in Alaska or in those states of the lower 48 that have appreciable lynx populations. Collection of such data is generally considered by wildlife managers to be impractical in the case of this cyclic species. There is some concern that in parts of its range the lynx is vulnerable to overharvesting during periods of low abundance. As with the otter, there is insufficient evidence to demonstrate that lynx populations can withstand the level of exploitation that would be experienced if current controls were removed.

(4–6) *Balaenoptera borealis* (sei whale), *Balaenoptera physalus* (fin whale) and *Eschrichtius robustus* (gray whale)—The Service's review of these species indicated that certain of the stocks presently included in Appendix I should be transferred to Appendix II. The basis for this finding was that the Appendix I stocks (except for the western Pacific gray whale) were sufficiently abundant to be considered as not threatened with extinction at this time. The Service's finding was prompted by an initial request from the National Marine Fisheries Service (NMFS) for such transfers. The Fish and Wildlife Service included proposals to transfer these stocks with the other proposals that it sent to the Secretariat for the Convention. However, NMFS subsequently requested that the Service withdraw the whale proposals on the grounds that the U.S. should defer to consideration of proposals by the United Kingdom, which is conducting a review of all the whales, and that the U.S. should urge the Parties to take into account the actions of the International Whaling Commission to prohibit commercial whaling on gray whales and almost all stocks of fin and sei whales.

All materials received in connection with the survey of native species are available for public inspection from 7:45 a.m. to 4:15 p.m., Monday through Friday except Federal holidays, in Room 616, 1000 North Glebe Road, Arlington, Va.

This proposed rule is issued under the authority contained in the Endangered Species Act of 1973 (16 U.S.C. 1531–1543; 87 Stat. 884) and the Convention on International Trade in Endangered Species of Wild Fauna and Flora (T.I.A.S. 8249), and was prepared by Dr. Richard L. Jachowski, Federal Wildlife Permit Office.

NOTE.—The Department of the Interior has determined that this document is not a significant rule and does not require a regulatory analysis under Executive Order 12044 and 43 CFR Part 14.

Dated: November 20, 1978.

CHAPTER II—DEPARTMENT OF ENERGY

[Docket No. ERA-78-2]

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Amendment to the Entitlements Program as to Certain Limited-Product Refineries Located in the State of Alaska

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Final rule.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) hereby amends the domestic crude oil allocation ("entitlements") program to clarify the proper calculation of crude oil runs to stills to be reported for certain refineries located in the State of Alaska, in order to avoid the potential of a double entitlement issuance for the same volume of crude oil. The refineries affected will be required to account for their crude oil runs to stills on a "net" basis, i.e., to subtract from their crude oil runs to stills any volumes of unfinished oils or partially refined products which are injected or reinjected into the Trans-Alaska Pipeline System (TAPS).

EFFECTIVE DATE: Effective for refiners' crude oil runs to stills on or after January 1, 1979.

SUPPLEMENTARY INFORMATION:

I. Background.
II. Discussion of Comments:
A. Amendment to Adjust Crude Oil Runs to Stills Reported for Limited-Product Alaskan Refineries.
B. Related Issues:
1. Regulatory Treatment of Limited-Product Refineries Located Elsewhere in the United States.
2. Inclusion of the Alaskan Limited-Product Refineries in the Entitlements Program.
3. Receipt by the Alaskan Limited-Product Refineries of Imported Tier Entitlements Treatment on their Crude Oil Runs to Stills.
III. Amendment Adopted.

I. Background

On January 24, 1978, the ERA issued a notice of proposed rulemaking and public hearing (43 FR 3916, January 30, 1978) to amend the entitlements program with respect to certain refineries located in the State of Alaska. The purpose of the proposed rule was to clarify the proper calculation of crude oil runs to stills reported for those refineries in Alaska which produce a limited range of products from Alaska North Slope (ANS) crude oil. The refineries are specialized facilities which, following production of only certain products from the ANS crude oil, inject or reinject the remaining unfinished oils or partially refined products into the TAPS, where they flow commingled with unprocessed crude oil for ultimate sale as crude oil. Under the proposal, these Alaskan refineries would be required to account for their crude oil runs to stills on a "net" basis, i.e., any volumes of unfinished oils or partially-refined products which were returned to the Trans-Alaska Pipeline by the refineries would be subtracted from the volume of crude oil runs to stills they reported under the entitlements program.

The refineries affected by the proposed rule are of two types. One of the facilities is a commercial refinery located at Fairbanks which was designed to provide a limited range of petroleum products to the interior of Alaska. This is an area which, prior to construction of the refinery, was dependent entirely on petroleum products that were manufactured elsewhere and shipped to the interior, resulting in a high cost to consumers. The Fairbanks refinery utilizes ANS crude oil to produce a limited range of distillate-type material for sale in local markets, and reinjects the remainder if its crude runs into the TAPS.

The second type of facility affected by the proposed rule are plants which are designed to produce fuel used in vehicles and machinery at the Prudhoe Bay field, or to operate the pumping stations located along the TAPS. These facilities are owned by the companies which own the Trans-Alaska Pipeline. The products of these facilities are not sold commercially, but instead are used exclusively for purposes associated with the production of ANS crude oil or operation of the pipeline.

The January proposal discussed whether these specialized, limited-product Alaskan processing facilities qualify as "refineries" for purposes of the entitlements program. As was indicated in the proposal, we have determined that the facilities are encompassed by the definition of "refinery" contained in 10 CFR 211.62, since the facilities process crude oil and manufacture at least some refined petroleum products, and thus qualify to participate in the entitlements program.

The main purpose of the January proposal was to obtain comment on the proper method of calculating the crude oil runs to stills reported by these specialized facilities for purposes of the entitlements program. As discussed in the proposal, the Alaskan limited-product refineries present the potential for a given volume of crude oil to earn entitlements twice. This situation would occur if the initial refiner were to report its total crude oil runs to stills for the calculation of entitlement issuances. The initial refiner, however, returns significant volumes of unfinished oils or partially refined products to the TAPS, where the reinjected substances are commingled with ANS crude oil and sold as crude oil after being transported to the lower 48 states. A refiner purchasing and processing the commingled stream, unless is had received the appropriate certification under 10 CFR 212.131 as to the composition of the stream, would then report the total volume of the commingled stream in its crude oil runs to stills, thus earning entitlements as to volumes for which the original refiner had already been issued entitlements. The proposed amendment was intended to set up a method whereby this result would be avoided. Specifically, the amendment proposed would require the subtraction from the crude oil runs to stills of a Alaskan limited-product refinery of any volumes of unfinished oils or partially refined products injected or reinjected into the TAPS and commingled with the crude oil in the line.

The January proposal also requested comments on three related issues: (1) Whether facilities similar to the Alaskan limited-product refineries exist elsewhere in the United States; if so, how such plants are reporting their crude oil runs to stills; and whether such facilities should be subject to the same regulatory treatment as the Alaskan facilities; (2) whether the Alaskan limited-product refineries should be included within the entitlements program at all; and (3) if the limited-product refineries are included within the entitlements program, should they continue to receive imported tier entitlements treatment for the ANS crude oil they process?

II. Discussion of Comments

Eighteen written comments on the January proposal were received. In addition, six persons testified at the public hearings on the proposal held in Anchorage, Alaska on March 13, 1978, and in Washington, D.C. on March 16, 1978. The commenters included major, small, and independent refiners, two utility companies, a trade association, an agency of the State of Alaska, one senator from the State of Alaska, and a public-interest group based in Alaska.

A. Amendment to Adjust Crude Oil Runs to Stills Reported for Limited-Product Alaskan Refineries

Those comments which discussed the proposed "net" system of reporting crude oil runs to stills by Alaskan limited-product refineries were nearly unanimous in their support of this method.

Two of the comments noted, however, that the unfinished oils or partially refined products injected or reinjected into the TAPS are not in fact crude oil and thus a question arises as to whether they should be considered as commingled crude oil when the ANS crude is sold to refineries in the lower 48 states. An alternative approach to the "net" system of calculating crude oil runs to stills would be to require the certification of the composition of the stream in the TAPS following reinjection of the unfinished oils. This approach, as stated in the January proposal, would place a difficult accounting burden on the sellers. The unfinished oils which currently are returned to the TAPS by all of the facilities subject to the amendment represent less than 1.5 percent of the total pipeline throughput. Thus, it would be a difficult accounting task to trace the reinjected unfinished oils to their ultimate purchasers. Due to this burden and to the very low percentage of the total pipeline throughput which the unfinished oils will represent, we have determined to consider the ANS crude stream which arrives at the Valdez terminus as "crude oil" for purposes of the entitlements program, as well as all other relevant portions of the Mandatory Petroleum Allocation and Price Regulations, Parts 211 and 212 of Title 10 of the Code of Federal Regulations. We recognize that this treatment of the commingled ANS stream will vary from its treatment under 10 CFR Part 213, the Oil Import Regulations. However, since the differing treatments pose no regulatory difficulties, we have determined at this time not to propose or undertake to amend Part 213.

B. Related Issues

(1) *Regulatory Treatment of Limited-Product Refineries Located Elsewhere in the United States.* Some commenters stated that they knew of a few facilities similar to the Alaskan limited-product refineries which are located in the lower 48 states. In all cases, however, any unfinished oils placed in a pipeline by such facilities are certified as such to the ultimate purchaser pursuant to 10 CFR 212.131, or are segregated altogether from crude oil. One comment noted that most crude oil pipelines prohibit the injection of anything other than lease crude oil into their common streams.

For these reasons and because of our lack of comprehensive data on the number and production of such plants, we have determined that the amendment proposed for specialized refineries in Alaska should not be expanded to include limited-product facilities located elsewhere in the United States.

(2) *Inclusion of the Alaskan Limited-Product Refineries in the Entitlements Program.* There was a significant division of opinion in the comments offered as to whether the Alaskan specialized refineries should be included at all within the entitlements program. The entitlements program is designed generally to equalize the cost of crude oil purchases among U.S. refiners and thus preserve a competitive market for all refiners, regardless of their relative access to controlled domestic crude oil. The question arises as to whether facilities which produce products which are not in practical marketplace competition with other refinery production should be eligible to receive the benefits of the entitlements program.

Of those comments addressed to this issue, a majority supported continued entitlements program participation for the one commercial limited-products refinery located in Alaska. As stated above, this refinery was constructed to provide a local source of certain products to interior Alaska. Since this refinery is in fact in competition with other refiners, we believe it is appropriate that it be eligible to earn the benefits made available through the entitlements program.

One comment on the proposed regulation questioned whether the Fairbanks refinery had in fact been passing through the entitlements benefits it receives to consumers. Based on the refiner's assertion that all benefits received in connection with the Fairbanks refinery have been passed on to Alaskan consumers and on a lack of convincing data which would refute this statement, the ERA has determined this refinery should not be singled out for any discriminatory treatment under the program, but will continue to be eligible to earn entitlements on the same basis as it has in the past.

As to the limited-product facilities designed to produce fuel for production of the Prudhoe Bay field or to operate the pump stations along the pipeline, the comments were almost equally divided as to whether these facilities should be included in the entitlements program. Those comments opposing entitlements program participation for the non-commercial facilities cited the fact that the facilities are not in competition with other refineries (and thus do not need equalization of crude oil costs to compete effectively in the marketplace), that the operating costs for these facilities can be recovered through the pipeline tariff, and that the arrangements under which the pipeline facilities are operated are so complex that entitlements program reports for these facilities would be administratively burdensome. We believe that these arguments have considerable merit.

However, those comments which supported inclusion of the non-commercial plants within the entitlements program argued that any facility which qualifies as a refinery under DOE regulations should be treated as a refinery in all respects and that carving out an exception for the Alaskan plants would lead to requests for additional exceptions for similar plants in the lower 48. These comments also argued that FEA (a predecessor agency of DOE) determinations had established that facilities which produce products not commercially sold still come within the scope of the entitlements program, that the purpose of the program is to provide every refiner equal access to price-controlled domestic crude oil (regardless of whether the products from the crude oil are sold in a competitive market), and, finally, that the products of the specialized pipeline plants do have to compete with product which could, and has in the past, been trucked in from other sources.

After considering all of the comments offered on this issue, and all of the purposes of the entitlements program, we have determined that all of the limited-product refineries located in Alaska, both commercial and non-commercial plants, should be included in the entitlements program, since such inclusion is called for by the regulation as currently in effect. We believe the benefits of the entitlements program should be available to all firms owning facilities which qualify as refineries, as that term is defined in DOE regulations and as that term is interpreted by the Department.

(3) *Receipt by the Alaskan Limited-Product Refineries Of Imported Tier Entitlements Treatment on their Crude Oil Runs to Stills.* The com-

ments addressed to the issue were

III. Amendment Adopted

(Emergency Petroleum Allocation Act of

MONDAY, NOVEMBER 27, 1978

V 43 N 228 NOV 27 78

ments addressed to the issue were almost equally divided as to whether ANS crude oil processed in the limited-product Alaskan refineries should continue to receive imported tier entitlements treatment, assuming the facilities are included in the program. The question was posed in the January proposal because the original decision to grant imported treatment to the ANS crude oil was based on the high transportation cost for moving the crude oil from Alaska to the lower 48 states. It was believed imported tier treatment would allow the crude oil to be priced at the wellhead at a level high enough to encourage continued and further development of frontier areas. However, the cost of shipping the ANS crude oil to the pipeline facilities and the Fairbanks refinery affected by the proposed rule is less than the cost of moving the crude to the West and Gulf Coasts and it can be argued that imported tier entitlements in these cases provide excess benefits to the respective refiners.

The question of imported versus upper tier treatment is relevant only with respect to the Fairbanks commercial refinery and the facilities at the pipeline pumping stations, since the crude oil processed at the Prudhoe Bay limited-product refinery is only eligible to earn upper tier entitlements. That facility utilizes crude oil which has not traversed the TAPS and is thus not eligible for imported tier treatment under the definition of "ANS crude oil" contained in 10 CFR 211.62.

We have determined that both the Fairbanks refinery and the pipeline pumping station facilities should continue to be eligible for imported tier entitlements. The Fairbanks refinery at the present time must pay the full tariff for shipment of the crude oil through the TAPS. As the tariff comprises the greater portion of the transportation costs which are associated with shipping ANS crude oil, it is appropriate that the Fairbanks facility should continue to receive imported tier entitlements.

III. Amendment Adopted

Based on its analysis of the material submitted in the public hearing, in the written comments, and upon all other information available to it, we have determined to adopt the amendment to the entitlements program with respect to certain Alaskan refineries as the rule was proposed. One minor change has been made to the amendment in that the word "partially" is inserted prior to "refined products" to more accurately describe the materials reinjected into the TAPS by the respective refiners.

Under this amendment, limited-product facilities in the State of Alaska will be required to account for their crude oil runs to stills on a "net" basis by subtracting any volumes of unfinished oils or partially-refined products which are injected or reinjected into the TAPS from their total crude oil runs to stills. This method of accounting for crude oil runs to stills will avoid the issuance of duplicate entitlements for the same volume of crude oil.

The amendment is being made effective for refiners' crude oil runs to stills for the month of January 1979. We are aware that in some instances reports of crude oil runs to stills filed previous to this date by Alaskan refiners have been on a gross rather than net basis, with later purchasers accounting for the reinjected volumes as unfinished oils. Inasmuch as no party has been forced to bear an unjustified burden in these cases, the ERA has determined it is not necessary to require that such previous reports be amended to conform to the rule adopted below. However, beginning with reports for January 1979 crude oil runs to stills, Alaskan refiners will calculate and report their crude oil runs to stills on the net basis set forth in the regulation below.

Finally, as is the case under the current regulations, ANS crude oil processed in Alaskan refineries will continue to receive imported tier treatment for purposes of the entitlements program.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, as amended, Pub. L. 93-511, Pub. L. 94-99, Pub. L. 94-133, Pub. L. 94-163, and Pub. L. 94-385; Federal Energy Administration Act of 1974, Pub. L. 93-275, as amended, Pub. L. 94-332, Pub. L. 94-385, Pub. L. 95-70, and Pub. L. 95-91; Energy Policy and Conservation Act, Pub. L. 94-163, as amended, Pub. L. 94-385, and Pub. L. 95-70; Department of Energy Organization Act, Pub. L. 95-91; E.O. 11790, 39 FR 23785; E.O. 12009, 42 FR 46267.)

In consideration of the foregoing, Part 211 of Chapter II, Title 10 of the Code of Federal Regulations, is amended as set forth below, effective January 1, 1979.

Issued in Washington, D.C., November 17, 1978.

Hazel R. Rollins,
Deputy Administrator, Economic Regulatory Administration.

Section 211.67 is amended in paragraph (d) to add a new subparagraph (9) to read as follows:

§ 211.67 Allocation of domestic crude oil.

. . . . . .

(d) *Adjustments to volume of crude oil runs to stills.*

. . . . . .

(9) Commencing with the month of January 1979, the volume of crude oil runs to stills of a refiner in a particular month as to any of its refineries located in the State of Alaska, for purposes of the calculations in subparagraph (a)(1) of this section and the calculations for the national domestic crude oil supply ratio, shall not include the number of barrels of unfinished oils or partially-refined petroleum products injected or reinjected by that refinery into the Trans-Alaska Pipeline System in that month.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

PART 2650—ALASKA NATIVE SELECTIONS

Reservation of Public Easements

AGENCY: Bureau of Land Management.

ACTION: Final rulemaking.

SUMMARY: This rulemaking implements section 17(b) of the Alaska Native Claims Settlement Act of 1971 and the court decision in *Calista, et al. v. Andrus, et al.*, 435 F. Supp. 664 (D. Ak. 1977) by establishing the policy and procedures for the reservation of public easements. It provides the standards for the reservation by the Secretary of the Interior of a minimal, non-duplicative system of easements to provide access to public lands across lands conveyed to Alaska natives under the Alaska Native Claims Settlement Act.

DATE: November 27, 1978.

ADDRESS: Director (210), Bureau of Land Management, 1800 C Street, N.W., Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

Don Argetsinger, Office of the Assistant Secretary, Land and Water Resources, Department of the Interior, Room 6629, 18th and C Streets, N.W., Washington, D.C. 20240. Telephone 202-343-4931.

Beaumont McClure, Bureau of Land Management, Department of the Interior, Room 3040, 18th and C Streets, N.W., Washington, D.C. 20240. Telephone: 202-343-3078.

Robert Arndorfer, Bureau of Land Management, Department of the Interior, 555 Cordova Street, Anchorage, Alaska 99501. Telephone: 907-277-1561.

SUPPLEMENTARY INFORMATION: On May 25, 1978, proposed rulemaking was published in the FEDERAL REGISTER (Vol. 43, p. 22620). Comments were invited for 30 days ending June 26, 1978. Written responses were received from the State of Alaska, the Joint Federal State Land Use Planning Commission, various Federal agencies and bureaus, Native Corporations, and individuals. These responses have been reviewed and analyzed, and the following summarizes the comments and suggestions received, and the action taken on them.

Various comments were received on the supplemental information section of the proposed regulations. It was suggested that these regulations provide for a review process of lands already conveyed in order to conform easements which were previously reserved to the policy which is enumerated in these regulations. For the present, these regulations are directed primarily to the future reservation of easements and are not directly concerned with reaching the question of conformity of past conveyances. In many cases, easement agreements exist which address this issue and must be adhered to. In other cases, the Director of the Bureau of Land Management may be able to resolve the conformity problem without employing a regulatory process. It should be stressed that the first priority of these regulations is the proper reservation of public easements, and if conformity later becomes a problem, new regulations shall be issued. Also, as noted in one response, these regulations do not address the Alaska Native Claims Appeal Board's jurisdiction in easement disputes. This concern, as well as others which pertain to the Board's operations, will be addressed in amendatory regulations which are presently being prepared.

Concern was expressed that the examples of uses which were otherwise permitted by law and therefore not to be restricted (i.e., "fishing from a boat in the water or fishing while standing on the bed of a waterway which is in Federal, State, or municipal ownership") were confusing and could lead to abuse. Since these examples were directed at easement management and were intended to assist the public's awareness of easement uses or nonuses, they should be disregarded until easement uses are more properly addressed and explained in future regulations.

The statement of the policy objectives to maximize the Alaska Natives' participation in decisions affecting their rights and property was intended to reflect the mandate of section 2(b) of the Alaska Native Claims Settlement Act of 1971 (ANCSA) and to apply not only to these regulations, but to any other regulations which affect their rights and property.

DEFINITIONS

Numerous comments were received on the proposed definitions, including one comment which recommended that the term "isolated tracts" could be problematic and should be defined and added to the list. The final regulations reflect that concern.

Major waterway: The definition of major waterway elicited many comments which ranged from "unworkable" and "confusing," to "a reasonable interpretation" of the Act. The majority of the comments, however, clearly indicated that application of the multi-faceted test of the proposed definition would result in more problems than it would resolve. One group of commentators suggested that "major waterways should be synonymous with "navigable waterways." The Department has never accepted this interpretation, and in light of the holding in *Calista, et al. v. Andrus, et al.*, 435 F. Supp. 664, 678 (D.Ak.1977) that "it would be unduly restrictive construction to equate the term waterways to navigable waterways," a major waterway does not have to be a navigable waterway. The final regulations consequently reflect a definition which is a straightforward, one-factor test and which uses the concept of access to publicly owned lands or between communities as the primary standard for determining which waterways are, in face, "major."

Present existing use: Comments on this definition were directed at the use of December 18, 1976, instead of December 18, 1971, as the cut-off date for establishing use. This concern had been previously voiced to the Department and, in fact, was considered by the court in *Calista*. The court concluded that the use of December 18, 1976, was entirely consistent with the purpose of section 17(b), a holding which the Department accepts and sees no reason to change. However, in determining present existing use, this definition is intended to reflect recent use and not past, historical use which may have long been abandoned. As such, the definition has been changed to reflect this intent.

Public easement: This definition received comments which indicated a degree of confusion and inconsistency with other sections of the regulations. It has been rewritten to eliminate these problems.

Publicly owned lands: Comments on this definition were concerned with the inclusion of the term "interests therein" which could be used to reserve an otherwise impermissible easement it provided access to a legitimate access easement. One of the basis principles of these regulations is to provide a minimal, non-duplicative system of public easements. As such, multiple easements are suspect. However, we do not believe that the basic policy will be abused and that there may be valid situations where access from one public easement to another may be necessary to provide an effective system of easements. To eliminate, as recommended, this possibility would frustrate effective land planning and management.

State Director: This definition has been changed to reflect current delegation procedures within the Bureau

of Land Management. As such, all references to "State Director" throughout the final regulations are changed to "Director."

Isolated tract: This definition has been added in order to clarify those areas of publicly owned lands to which public easements may be reserved without any showing of present existing use. This definition is not intended to preclude the reservation of public easements to an isolated tract of Federally owned land even though there may also be justification to reserve easements to an adjacent isolated tract of State or municipal lands.

PUBLIC EASEMENTS

(a) *General requirements.* Subsection (1) has been modified to reflect the changes in the definition of a public easement. The concept of reserving only those easements which are "reasonably necessary" has been retained to reflect the statutory language of section 17(b)(1). In response to one comment which called for assessments in subsection (2) to be in writing, such a provision was intended and is now provided. These assessments are part of the official easement file and are available for public inspection. The concerned Native Village now has and will continue to have an opportunity to review this file before the final decisions are made. Also, the "must" in subsection (2) is changed to "shall" to reflect the mandatory nature of this provision.

Numerous commentators noted the apparent absence of a comma in subsection (3) between "obligations" and "if." This omission was the result of a typographical error and has been corrected in the final regulations. Since the intent of this subsection is to limit the reservation of public easements to three basic situations, each of which is necessary to guarantee proper implementation of section 17(b), and "only" is added between "use" and "if." The following sentence on alternative routes has been rewritten to cover all potential easements and not just those which are justified by present existing use.

In subsection (4) "uses" replaces "location" since it is uses which are standard. "Specific conditions" in this subsection has been changed to "special circumstances" and is not defined because of the wide variety of occurrences which could reasonably justify a variation.

Comments on subsection (5) indicate that this provision is too rigid and needs more flexibility. The final regulations have been changed to eliminate this criticism. In subsection (6), one commenter suggested that the Department clarify the legal status of rights-of-way and other interests which have been created pursuant to 44 LD 513. The Department's position is that interests which have been created pursuant to this authority are prior reservations of the land. Another commentator on this subsection suggested that the "Unless otherwise justified" clause be changed to "Absent a showing of extreme hardship." This suggestion was not adopted because it unduly restricts the possible use of some easements for valid, multiple uses.

Subsection (8) has been eliminated and incorporated into the definition of major waterways. The remaining subsections have been renumbered accordingly. Subsection (9) received several adverse comments, including a recommendation for removal. Since this process will occur in any case and is not directly germane to the reservation of public easements, this subsection has been deleted from the final regulations.

Numerous comments were received on subsections (10)-(14). The procedures which were set forth in these subsections addressed the consultation process through which proposed easements traveled before being reserved in a decision to issue conveyance (DIC). These basic procedures were instituted by the Bureau of Land Management (BLM) by internal directives and have been followed with some modifications and additions since 1975. The process provides the opportunity for input and feedback to *all* interested parties, including the appropriate Native Corporations, the State, and the LUPC. The final regulations reflect a few changes which are intended to clarify the existing process. Statutory and other responsibilities have been addressed and no other changes are contemplated at this time. Subsection (14) which gives the LUPC a final 10-day review period is not extended to other parties. The LUPC has a special statutory role as both consultant and advisor to the Department which is best utilized by means of this special review period. The 10-day review period is considered by the LUPC to be adequate and has not been changed. All other parties who are interested have an adequate opportunity to participate in the easement process and to have their views considered. If, in the final BLM decision, a party remains aggrieved and has the requisite interest, an appeal may be pursued before the Alaska Native Claims Appeal Board.

Numerous comments were received on subsection (15). This provision establishes termination dates for public easements which have not been used for the purposes for which they were originally reserved. Some commentators requested a more definitive termination process; others felt that the subsection needed more clarity. At the present, an overall management program for public easements has not been fully articulated. Termination provisions fall more appropriately into this category. For the present, the Department intends to keep the provision as is. This mandatory termination provision shall remain intact until an easement review process is established at which time new regulations may be needed. No public easements, however, shall be terminated without proper notice and opportunity to submit written comments or an opportunity for a hearing if a hearing is determined to be necessary by the Director or the Secretary, as appropriate.

(b) *Transportation easements.* Two additions were made in the general provisions of subsection (1) to reflect certain comments. Easements for railroads which had previously been included in the miscellaneous provisions were moved to this subsection to consolidate access-related easements. Other suggestions for changes to subsection (1) pertained to the lack of specificity for some of the standards; for example, what constitutes a sufficient number of private holdings to constitute public use? In most instances, a judgment call is required for these determinations. What may be a sufficient number in one place may not be a sufficient number in another. As such, the Director has to exercise his best judgment under the specific circumstances. The same reasoning applies to those standards which permit a variance if there is sufficient justification for one.

In those instances where there is a requirement for a construction plan, there must be a plan in existence at the time the easement is reserved. Construction must be planned to begin within 5 years of the date of conveyance. This five year period has been established as a reasonable limitation on major projects which might affect Native lands. To permit, as suggested by some commentators, a ten or twenty year period would unreasonably encumber Native lands. If construction has not started within this time period, the easement shall be terminated, or if designated in the conveyance document, reduced to a trail easement. Since these easements are reserved to the United States, no performance bond, as suggested by one commentator, will be required.

Subsection (1)(x) has been expanded in response to several comments which felt that the intent of the section needed additional language. The purpose of this provision is to limit public easements on the beds of waterways except where the bed is used as part of a transportation system. The new language emphasizes the extent of this exception which is intended to permit easements on portions of streambeds

which are essential to maintaining the

easement shall lapse. Subsection

bers of those two offices and personnel

include participation by appropriate Natives and Native corporations

use. Public easements which have been reserved to guarantee interna-

V 43 / 228 NOV 27 78

which are essential to maintaining the integrity and usefulness of a transportation route.

In subsection (b)(2) there was some concern over the differences between small and large all-terrain vehicles. As such, a gross vehicle weight limit of 3,000 lbs. has been established as the dividing line between small and large all-terrain vehicles. The permissible widths for roads and trails are variable up to specified maximums. The Director, however, has the discretion to reduce the size of road and trail easements to conform them to the width of the existing road or trail. For proposed roads, the width has been changed to 100 feet. This width is necessary to accommodate construction which cannot be properly conducted within a 60 foot easement. If, after the road has been constructed, a lesser width is sufficient to accommodate the road, the Director shall reduce the size of the easement to that width. Easements for future railroads shall be 100 feet in width either side of the center line of the easement.

(c) *Site easements.* This subsubsection has been placed under *Transportation Easements* since these sites are directly related to access purposes. Limited aircraft landing sites for bush strips have been added to the list of permissible uses for public easements to reflect comments from the LUPC which felt that there were a few instances where unimproved airports not qualifying under section 14(c)(4) of the ANCSA were intended for public access. Log dump sites, however, have not been added because it is the Department's position that these sites are not justified under section 17(b) of ANCSA. Site easements, like all other easements, must meet the reasonable necessity test of section 17(b). Site easements have a 1-acre limitation, but can be larger or smaller depending upon the conditions under which the easement is reserved. Existing sites shall be used unless there is justification for reserving the easement in another location.

(d) *Miscellaneous easements.* This subsection provides guidelines for those easements which are not provided for above, but which are, nevertheless, related to public benefit or access-related functions. Section 17(b) contemplates the reservation of easements for utility purposes. Where these easements are not otherwise protected as valid existing rights, a public easement may be reserved. Future easements for these purposes are also permissible under section 17(b) and may be reserved if there is an actual plan at the time of conveyance. Construction must commence within 5 years of that date. Like public easements for future roads, if construction has not commenced within 5 years, the easement shall lapse. Subsection (d)(ii) has been deleted from the final regulations because it was redundant of other provisions in the final regulations which could provide for such easements. Space easements have been redesignated as "easements for air, light, or visibility purposes" because of the confusion which surrounded the terminology. Easements for these purposes are primarily intended to protect government facilities, such as U.S. Coast Guard navigational aids, without requiring the administering entity to claim excessive amounts of lands to provide the requisite safeguards. These easements are essentially prohibitions of certain activities within specified distances of certain facilities, (e.g., prohibition of certain electronic transmissions or prohibitions against obstructing an arc of visibility for a light house). Although these easements are primarily intended for government protection, there may be other instances where this type of easement is desirable in lieu of reserving additional lands (e.g., easements which prohibit the building of structures in the flight path of a landing strip). It is, however, anticipated that the reservation of this type of easement will be minimal. Easements which guarantee international treaty obligations are authorized by section 17(b). The Department has not catalogued all the relevant treaties which may impact this section. However, the Fur Seal Treaty, the Migratory Bird Treaty, and the U.S.-Canadian Boundary Treaty are examples of treaties which may require easements in order to assure that the United States complies with their pertinent provisions.

In subsection (d)(1), the word "permitted" has been changed to "permissible" to avoid any potential conclusion that a permitting system will be required for easement use.

It is hereby determined that the publication of this rulemaking does not require a detailed statement pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, 42 U.S.C. 4322(2)(c), and that this document does not contain a significant regulatory proposal requiring preparation of a regulatory analysis under Executive Order 12044.

These regulations are effective immediately in order to expedite conveyances to the Alaska Natives. The issuance of patents to the Natives under ANSCA has been delayed, and it is in the public interest to carry out the purposes of ANSCA as rapidly as possible.

The principal authors of this proposed rulemaking are Don Argetsinger of the Office of the Assistant Secretary—Land and Water Resources, and John W. Burke of the Solicitor's Office, assisted by other staff members of those two offices and personnel from the Bureau of Land Management.

Under the authority of the Alaska Native Claims Settlement Act (43 U.S.C. 1601, et seq.), part 2650, group 2600, subchapter B, chapter II, title 43 of the Code of Federal Regulations is amended by revising sections 2650.0-5 and 2650.4-7 as set forth below.

CECIL D. ANDRUS,
Secretary of the Interior.

NOVEMBER 20, 1978.

Subpart 2650—Alaska Native Selections—Generally

. . . . . .

§ 2650.0-5 Definitions.

. . . . . .

(n) "LUPC" means the Joint Federal-State Land Use Planning Commission for Alaska.

(o) "Major waterway" means any river, stream, or lake which has significant use in its liquid state by watercraft for access to publicly owned lands or between communities. Significant use means more than casual, sporadic or incidental use by watercraft, including floatplanes, but does not include use of the waterbody in its frozen state by snowmobiles, dogsleds or skiplanes. Designation of a river or stream as a major waterway may be limited to a specific segment of the particular waterbody.

(p) "Present existing use" means use by either the general public which includes both Natives and non-Natives alike or by a Federal, State, or municipal corporation entity on or before December 18, 1976, or the date of selection, whichever is later. Past use which has long been abandoned shall not be considered present existing use.

(q) "Public easement" means any easement reserved by authority of section 17(b) of the act and under the criteria set forth in these regulations. It includes easements for use by the general public and easements for use by a specific governmental agency. Public easements may be reserved for transportation, communication and utility purposes, for air, light or visibility purposes, or for guaranteeing international treaty obligations.

(r) "Publicly owned lands" means all Federal, State, or municipal corporation (including borough) lands or interests therein in Alaska, including public lands as defined herein, and submerged lands as defined by the Submerged Lands Act, 43 U.S.C. 1301, et seq.

(s) "Director" means the Director, Bureau of Land Managment

(t) "Isolated tract" means a tract of one or more contiguous parcels of publicly owned lands completely surrounded by lands held in nonpublic ownership or so effectively separated from other publicly owned lands as to make its use impracticable without a public easement for access.

(u) "State" means the State of Alaska.

. . . . . .

§ 2650.4-7 Public easements.

(a) *General requirements.* (1) Only public easements which are reasonably necessary to guarantee access to publicly owned lands or major waterways and the other public uses which are contained in these regulations, or to guarantee international treaty obligations shall be reserved.

(2) In identifying appropriate public easements assessment shall be made in writing of the use and purpose to be accommodated.

(3) The primary standard for determining which public easements are reasonably necessary for access shall be present existing use. However, a public easement may be reserved absent a demonstration of present existing use only if it is necessary to guarantee international treaty obligations, if there is no reasonable alternative route or site available, or if the public easement is for access to an isolated tract or area of publicly owned land. When adverse impacts on Native culture, lifestyle, and subsistence needs are likely to occur because of the reservation of a public easement, alternative routes shall be assessed and reserved where reasonably available. The natural environment and other relevant factors shall also be considered.

(4) All public easements which are reserved shall be specific as to use, location, and size. Standard sizes and uses which are delineated in this subsection may be varied only when justified by special circumstances.

(5) Transportation, communication, and utility easements shall be combined where the combination of such easements is reasonable considering the primary purposes for which easement is to be reserved.

(6) Public easements may be reserved to provide access to present existing Federal, State, or municipal corporation sites; these sites themselves shall not be reserved as public easements. Unless otherwise justified, access to these sites shall be limited to government use.

(7) Scenic easements or easements for recreation on lands conveyed pursuant to the Act shall not be reserved. Nor shall public easements be reserved to hunt or fish from or on lands conveyed pursuant to the Act.

(8) The identification of needed easements and major waterways shall include participation by appropriate Natives and Native corporations, LUPC, State, Federal agencies, and other members of the public.

(9) After reviewing the identified easements needs, the Director shall tentatively determine which easements shall be reserved. Tentative determinations of major waterways shall also be made by the Director and shall apply to rivers, streams, and lakes. All lakes over 640 acres in size shall be screened to determine if they qualify as major waterways. Those smaller than 640 acres may be considered on a case-by-case basis. The Director shall issue a notice of proposed easements which notifies all parties that participated in the development of the easement needs and information on major waterways as to the tentative easement reservations and which directs that all comments be sent to the LUPC and the Director.

(10) The State and the LUPC shall be afforded 90 days after notice by the Director to make recommendations with respect to the inclusion of public easements in any conveyance. If the Director does not receive a recommendation from the LUPC or the State within the time period herein called for, he may proceed with his determinations.

(11) Prior to making a determination of public easements to be reserved, the Director shall review the recommendations of the LUPC, appropriate Native corporation(s), other Federal agencies, the State, and the public. Consideration shall be given to recommendations for public easement reservations which are timely submitted to the Bureau of Land Management and accompanied by written justification.

(12) The Director, after such review, shall prepare a decision to convey that includes all necessary easements and other appropriate terms and conditions relating to conveyance of the land. If the decision prepared by the Director is contrary to the LUPC's recommendations, he shall notify the LUPC of the variance(s) and shall afford the LUPC 10 days in which to document the reasons for its disagreement before making his final decision. The Director shall then issue a Decision to Issue Conveyance (DIC).

(13) The Director shall terminate a public easement if it is not used for the purpose for which it was reserved by the date specified in the conveyance, if any, or by December 18, 2001, whichever occurs first. He may terminate an easement at any time if he finds that conditions are such that its retention is no longer needed for public use or governmental function. However, the Director shall not terminate an access easement to isolated tracts of publicly owned land solely because of the absence of proof of public use. Public easements which have been reserved to guarantee international treaty obligations shall not be terminated unless the Secretary determines that the reasons for such easements no longer justify the reservation. No public easement shall be terminated without proper notice and an opportunity for submission of written comments or for a hearing if a hearing is deemed to be necessary by either the Director or the Secretary.

(b) *Transportation easements.* (1) Public easements for transportation purposes which are reasonably necessary to guarantee the public's ability to reach publicly owned lands or major waterways may be reserved across lands conveyed to Native corporations. Such purposes may also include transportation to and from communities, airports, docks, marine coastline, groups of private holdings sufficient in number to constitute a public use, and government reservations or installations. Public easements may also be reserved for railroads. If public easements are to be reserved, they shall:

(i) Be reserved across Native lands only if there is no reasonable alternative route of transportation across publicly owned lands;

(ii) Within the standard of reasonable necessity, be limited in number and not duplicative of one another (nonduplication does not preclude separate easements for winter and summer trails, if otherwise justified);

(iii) Be subject only to specific uses and sizes which shall be placed in the appropriate interim conveyance and patent documents;

(iv) Follow existing routes of travel unless a variance is otherwise justified;

(v) Be reserved for future roads, including railroads and roads for future logging operations, only if they are site specific and actually planned for construction within 5 years of the date of conveyance;

(vi) Be reserved in topographically suitable locations whenever the location is not otherwise determined by an existing route of travel or when there is no existing site;

(vii) Be reserved along the marine coastline only to preserve a primary route of travel between coastal communities, publicly owned uplands, or coastal communities and publicly owned uplands;

(viii) Be reserved from publicly owned uplands to the marine coastline only if significant present existing use has occurred on those publicly owned lands below the line of mean high tide. However, for isolated tracts of publicly owned uplands, public easements may be reserved to provide transportation from the marine coastline if there is no other reasonable transportation route;

(ix) Be reserved along major waterways, including lakes, for a distance of 100 feet, unless otherwise justified.

part of the pertinent interim conveyance and patent documents.

Alaska Native Claims Settlement Act (ANCSA)

V 4 3 / 2 2 8
NO 27 78

(ix) Be reserved along major waterways only to provide short portages or transportation routes around obstructions. However, this condition does not preclude the reservation of a trail or road easement which happens to run alongside a waterway;

(x) Not be reserved on the beds of major waterways except where use of the bed is related to road or trail purposes, portaging, or changing the mode of travel between water and land (e.g., launching or landing a boat); a specific portion of the bed or shore of the waterway which is necessary to provide portage or transportation routes around obstructions, including those that are dangerous or impassible or seasonably dangerous or impassible, may be reserved.

(xi) Not be reserved on the beds of nonmajor waterways except where use of the beds is related to road or trail purposes. However, this exception shall not be used to reserve a continuous linear easement on the streambed to facilitate access by boat.

(xii) Not be reserved simply to reflect patterns of Native use on Native lands;

(xiii) Not be reserved for the purpose of protecting Native stockholders from their respective corporations;

(xiv) Not be reserved on the basis of subsistence use of the lands of one village by residents of another village.

(2) Transportation easements shall be limited to roads and sites which are related to access. The use of these easements shall be controlled by applicable Federal, State, or municipal corporation laws or regulations. The uses stated herein will be specified in the interim conveyance and patent documents as permitted uses of the easement.

(i) The width of a trail easement shall be no more than 25 feet if the uses to be accommodated are for travel by foot, dogsleds, animals, snowmobiles, two and three-wheel vehicles, and small all-terrain vehicles (less than 3,000 lbs. G.V.W.);

(ii) The width of a trail easement shall be no more than 50 feet if the uses to be accommodated are for travel by large all-terrain vehicles (more than 3,000 lbs. G.V.W.), track vehicles and 4-wheel drive vehicles, in addition to the uses included under subdivision (i) of this subparagraph;

(iii) The width of an existing road easement shall be no more than 60 feet if the uses to be accommodated are for travel by automobiles or trucks in addition to the uses included under subdivisions (i) and (ii) of this subparagraph. However, if an existing road is wider than 60 feet, the specific public easement may encompass that wider width. For proposed roads, including U.S. Forest Service logging roads, the width of the public easement shall be 100 feet, unless otherwise justified. Prior to construction, trail uses which are included under subdivisions (i) and (ii) of this subparagraph may be permitted if otherwise justified and may continue if the road is not built. If after the road has been constructed a lesser width is sufficient to accommodate the road, the Director shall reduce the size of the easement to that width.

(iv) The width of a proposed railroad easement shall be 100 feet on either side of the center line of any such railroad.
